

Proficiency Assessment: Overview

- **Two stages. Recommend time to take each stage ~3-3.5 hrs**
 - ❖ Stage 1: multiple choice and videos. Stage 2: videos (selected based on user's grade span)
 - ❖ Passing score based on total score of both stages: Stage 1+ Stage 2
 - ❖ Each stage takes ~3-3.5 hours (user has up to 6 hours to take a stage).
 - ❖ If a user passes each stage on their first attempt, the total testing time will take 6-7 hours
 - ❖ Users should only take one test attempt per day so test usually takes at least 2 days to complete
- **2 chances to pass each stage of assessment (see next page for visual examples)**
 - ❖ Must pass Stage 1 before moving to Stage 2
 - ❖ If the user passes both Stage 1 and Stage 2 they are considered "proficient"
 - ❖ If user fails a stage twice, they are deemed not proficient and are eligible for "retest"
- **If a user fails an assessment, they must wait a period of time before their next attempt**
 - ❖ Fail one attempt: 24 hour lockout period before next attempt at stage
 - ❖ Fail on second attempt: 21 day lockout period before next attempt
 - ❖ Fail overall assessment (i.e., fail a stage twice): lockout period TBD (several weeks) before "retest"
- **"Retest" follows the same exact process as the "initial test"**
 - ❖ Two stages
 - ❖ User starts at Stage 1
 - ❖ Two attempts to pass each stage

Pass/Fail Paths – Initial Testing Round

	<u>Stage 1</u>		<u>Stage 2</u>		<u>Outcome for initial test</u>
1 st attempt	Pass	→	1 st attempt	Pass	→ Pass
1 st attempt	Pass	→	1 st attempt	Fail	→ Pass
			2 nd attempt	Pass	
1 st attempt	Fail	→	1 st attempt	Pass	→ Pass
2 nd attempt	Pass				
1 st attempt	Fail	→	1 st attempt	Fail	→ Pass
2 nd attempt	Pass		2 nd attempt	Pass	

1 st attempt	Fail	→			Fail (can “retest”)
2 nd attempt	Fail				
1 st attempt	Fail	→	1 st attempt	Fail	Fail (can “retest”)
2 nd attempt	Pass		2 nd attempt	Fail	
1 st attempt	Pass	→	1 st attempt	Fail	Fail (can “retest”)
			2 nd attempt	Fail
