As Mountainburg High School strives to meet the new challenges of the Common Core, as well as attempting to reach the 21<sup>st</sup> century needs of our students with 21<sup>st</sup> century skills, we are moving toward Project-Based Learning following the New Tech Network model. We will move to 1-1 computing with wall to wall PBL. We desire to be innovative in our approach, yet still follow a solid model of instruction. To do so, we will need the flexibility of scheduling, regulations, and state requirements that a district conversion charter school could provide.

Sincerely,

Dennis W. Copeland
