Location: Location will be at the current Warren High School campus at  
803 North Walnut Warren, AR 71671

Grade Levels: 9<sup>th</sup> – 12<sup>th</sup>

Current enrollment: 468

Charter School Description: The Warren High School will be a whole school conversion charter. The classroom environment will be learner-centered, performance-based with the common core state standards as the framework for the curriculum. Rather than being assigned to a “grade”, students will progress through “learning levels” and will be held responsible for providing evidence of their learning and of their readiness for moving up to the next level of instruction. Research-based instructional strategies will be utilized to engage the learners in authentic, interactive learning activities in building the foundation for college and career readiness. We will ensure that parents are partners in learning and are kept informed of their child’s progress by having access to the child’s data log which details the goals and progress toward meeting those goals. We will partner with community stakeholders by having them meet with students to help them see the connection between learning and life, as well as having them score projects related to real world application. Technologies planned are to include the MAP/NWEA assessments, Compass Learning software, and additional technology integration in the classroom. Areas of emphasis include using *time as the variable*, not the constant in an effort to give students the time and support needed to master concepts and provide evidence of skills learned; *learner-centered focus* in which differentiation of learning style, process, product, and/or environment is considered; *students providing evidence of their learning to progress through levels of instruction* instead of being automatically promoted from one grade to the next; and *preparing students for college and career readiness by establishing a real-world workplace atmosphere* built around trust, cooperation, responsibility, and evidence of progress. In summary, we want to create a school which takes students where they are and progressively builds upon their knowledge and skills to prepare them for life.

  
Marilyn Johnson, Superintendent  
Warren School District

*Academics Come First*
