Number of Students Enrolled October 1: 1160 Number of Students Tested: 745

Explain the reason for any discrepancy in the number of students for whom scores are reported and the number of students enrolled at the beginning of the school year.

There were 1160 students enrolled as of Oct 1, 2012. 786 students took either the benchmark or EOC examination in the spring. 41 of the 786 were highly mobile, i.e. they entered after Oct 1st, leaving 745 of the 1160 tested. The difference between the number enrolled on Oct 1st and the number who tested is 415. 147 of this group were students who left our district before Spring testing began. The remaining 268 untested students either belonged to a grade that does not benchmark (194 K-2) or were not enrolled in course requiring an EOC examination (74 in 9-12).
