4. If there is any discrepancy in the number of students for whom scores are reported under Section 4.06.2.2 of these rules and the number of students enrolled at the beginning of the school year, the public charter school shall explain in the report the reason for the discrepancy.

Number of Students Enrolled October 1: 1212 Number of Students Tested: 794

Explain any discrepancy in the number of students for whom scores are reported and the number of students enrolled at the beginning of the school year.

There were 1212 students enrolled as of Oct 1, 2013. 867 students took either the benchmark an EOC examination in the Spring. 73 of those students were highly mobile, leaving 794 of the 1212 who were tested. The difference between the number enrolled on 10/1 and the number who tested is 418. 78 of this group were students who left our district before Spring testing began. The remaining 340 untested students either belonged to a grade that does not Benchmark test (290 in PK3-2nd) or were not enrolled in a course requiring and EOC examination (50 in 9th-12th).

43 students did not complete the school year at our schools. Also, the total enrollment numbers include 6th through 12th grade students - both middle and high schools. Not all high school students are tested under ACTAAP, so they are not included in the "Number of Students Tested".

Number of Students Enrolled October 1: 593 Number of Students Tested: 523

Explain any discrepancy in the number of students for whom scores are reported and the number of students enrolled at the beginning of the school year.

Total enrollment as of October 1, 2013 is 593 for K thru 12th Grades. Student testing grades are 1,2,3,4,5,6,7,8,9,10,11 (Benchmark, EOC, ITBS, and PARCC). Student testing grades enrollment as of October 1, 2013 is 540 and number of students tested is 523. The reason for the discrepancy in the number of students reported and tested (17 difference) is some of the LISA Academy North students were transferred to other schools and some of the new students enrolled to LISA Academy North after October 1, 2013.

Explain any discrepancy in the number of students for whom scores are reported and the number of students enrolled at the beginning of the school year.

We have a discrepancy in the number of students who tested and the number enrolled because not all students tested. Kindergarten thru second grade did not take the Benchmark test. Third thru eighth grade took the Benchmark Test, which was a total of 246 and we had 12 students take an end-of-course exam.
