4. If there is any discrepancy in the number of students for whom scores are reported under Section 4.06.2.2 of these rules and the number of students enrolled at the beginning of the school year, the public charter school shall explain in the report the reason for the discrepancy.

Note: The most current school scores can be accessed on the ADE website at the following link:
<https://adedata.arkansas.gov/arc/>

Number of Students Enrolled October 1: 774 Number of Students Tested: 644

Explain any discrepancy in the number of students for whom scores are reported and the number of students enrolled at the beginning of the school year.

The discrepancy in the difference between our October 1st enrollment of 774 and our tested students number of 644 is we did not test our Kindergarten or 12th grade students and that this form doesn't allow for student enrolled after the October 1st pull date.

Please make sure all items are completed.
