Subject: Message #28: Samsung's Solve for Tomorrow Contest

Date: October 23, 2015

To: adecurriculum@lists.state.ar.us

From: Arkansas Department of Education Curriculum and Instruction Unit

Dear Arkansas Curriculum Leaders:

The Arkansas Department of Education is pleased to announce that Samsung's Solve for Tomorrow Contest is taking school submissions, until October 30, 2015, showing how science, technology, engineering, and math (STEM) can be applied to help improve local communities. Selected schools will have a chance to win a share of \$2 million in technology and prizes!

More information on the contest and how to enter can be found at <http://www.Samsung.com/Solve>.

In addition, Samsung will be awarding five teachers in every state including D.C., two Galaxy tablets. There will also be one winner from each state that will receive a \$20,000 technology package for their school.

Fifteen National Finalists will receive a trip to attend our pitch event, where they will present their video to a panel of judges and will win a minimum of \$40,000 in technology. Finally, the five National Winners will also be invited to attend a celebratory event in Washington D.C. in addition to winning \$120,000 technology package for their school.

As an additional bonus this year, our supporters at BrainPOP are contributing a free collection of STEM-themed content that teachers can utilize as they craft their submissions around their regularly-scheduled curriculum!
