Reports

Report-1 Chair's Report

Presenter: Brenda Gullett

Report-2 Commissioner's Report

Presenter: Dr. Tom Kimbrell

Report-3 Update on Common Core State Standards, PARCC and School Improvement

Information is provided to keep the State Board of Education apprised of the Department's work activities associated with college and career readiness and school improvement.

Presenter: Dr. Megan Witonski

Report-4 Settlement Report

Presenter: Jeremy Lasiter

Report-5 Recognition of the National Distinguished Educator for 2013-2014 - Michelle Hayward

Presenter: Dr. Tom Kimbrell

Report-6 Recognition of 2014 Teacher of the Year - Jonathan Crossley

Presenter: Dr. Tom Kimbrell

Report-7 Recognition of Jim Boardman, Assistant Commissioner

Presenter: Dr. Tom Kimbrell

Consent Agenda

C-1 Minutes - November 4, 2013

Presenter: Deborah Coffman

C-2 Commitment to Principles of Desegregation Settlement Agreement: Report on the Execution of the Implementation Plan

By the Court Order of December 1, 1993, the Arkansas Department of Education (ADE) is required to file a monthly Project Management Tool (PMT) to the court and the parties to assure its commitment to the Desegregation Plan. This report describes the progress the ADE has made since March 15, 1994, in complying with the provisions of the Implementation Plan (Plan) and itemizes the ADE's progress against the timelines presented in the Plan. The December report summarizes the PMT for November.

Presenter: John Hoy and Willie Morris

C-3 Newly Employed, Promotions and Separations

The applicant data from this information is used to compile the Applicant Flow Chart forms for the Affirmative Action Report, which demonstrates the composition of applicants through the selecting, hiring, promoting and terminating process.

Presenter: Dr. Karen Walters and Clemetta Hood

C-4 Report on Waivers to School Districts for Teachers Teaching Out of Area for Longer than Thirty (30) Days, Ark. Code Ann. §6-17-309.

Arkansas Code Annotated §6-17-309 requires local school districts to secure a waiver when classrooms are staffed with unlicensed teachers for longer than 30 days. Requests were received from 30 school districts covering a total of 139 waivers. There were also requests for long-term substitutes from 16 school districts requesting a total of 16 waivers for long-term substitutes. None of these requests were from a district in academic distress. These requests have been reviewed, and either approved or denied by Department Staff, and are consistent with program guidelines.

Presenter: Dr. Karen Walters

C-5 Review of Loan and Bond Applications

Pursuant to Arkansas Code Annotated §6-20-805 and § 6-20-1205, the State Board of Education must approve all Revolving Loan Fund and Commercial Bond applications, with the exception of non-voted refunding of commercial bond issues that meet the minimum savings as required by the Rules and Regulations Governing Loan and Bond Applications, Section 9.02. It is recommended that the State Board of Education review the following:

Revolving Loans – 1 School Bus;

Commercial Bonds – 3 - 2ndLien – Recommend Approval;

2 Voted – Recommend Approval

Presenter: Cindy Hollowell and Amy Woody

C-6 Review of QZAB Allocation Application

The Qualified Zone Academy Bond (QZAB) program is a funding instrument, created in 1997, to assist school districts in implementing school renovations and repairs and in developing new programs to enhance technology and better prepare students for the rigors of the workplace. An important feature is that QZABs, as a tax-credit debt instrument, may be issued at a reduced or zero interest rate. A total of \$13,391,000 in authorization is available for allocation in this cycle. This total represents the full amount of 2011, 2012 and 2013 Arkansas allocations. The 2011 allocation of \$4,637,000 will expire December 31, 2013 if not authorized and issued prior to the deadline. The total allocation

requested in this cycle is \$2,100,000 and is valid only if the State Board approves the recommendation of the QZAB Committee as stated herein. It is requested that the State Board of Education review the following recommendation of the QZAB Committee concerning the application for QZAB allocation:

Newport - Recommended Approval - \$2,100,000

Presenter: Cindy Hollowell

C-7 Adoption of State Board of Education Meeting Dates for Calendar Year 2014

Arkansas statute requires that each constitutional board and commission set proposed dates for the next calendar year at the last regular meeting of each calendar year. Department staff propose to change the regular meeting dates to the second Thursday and Friday of each month.

Presenter: Deborah Coffman

C-8 Annual Reports for Academics Plus Charter School, Arkansas Virtual Academy, and Benton County School of the Arts

On April 9, 2012, the State Board of Education renewed the charters for Academics Plus Charter School, Arkansas Virtual Academy, and Benton County School of the Arts for three years. During the renewal process, annual reviews were requested. The reports include demographic data and progress toward meeting the academic goals approved during renewal. The reports were presented and approved in the consent agenda by the Charter Authorizing Panel on November 13, 2013.

Presenter: Mary Perry

C-9 Consideration of the Recommendation of the Professional Licensure Standards Board for Case #12-148 – LaKenya Takako Riley

Violation of Standard 1: An educator maintains a professional relationship with each student, both in and outside the classroom. Recommendation: The Professional Licensure Standards Board's Ethics Subcommittee is recommending that LaKenya Takako Riley be issued a Written Warning. Ms. Riley was notified by letter dated, September 19, 2013, of the recommendation of the Ethics Subcommittee. She accepted the recommendation on October 15, 2013.

Presenter: Michael Smith

C-10 Consideration of the Recommendation of the Professional Licensure Standards Board for Case #T13-006 – Angela Mynette Drennan

Violation of Standard 2: An educator maintains competence regarding skills, knowledge, and dispositions relating to his/her organizational position, subject matter, and/or pedagogical practice. Recommendation: The Professional Licensure Standards Board's Ethics Subcommittee is recommending that Angela Mynette Drennan be issued a Written Warning. Ms. Drennan was notified by letter, dated October 18, 2013, of the recommendation of the Ethics Subcommittee. She accepted the recommendation on October 28, 2013.

Presenter: Michael Smith

C-11 Consideration of the Recommendation of the Professional Licensure Standards Board for Case #13-146 – Jeremy Rondal Wortham

Violation of Standard 1: An educator maintains a professional relationship with each student, both in and outside the classroom. Recommendation: The Professional Licensure Standards Board's Ethics Subcommittee is recommending that Jeremy Rondal Wortham be issued a Written Warning. Mr. Wortham was notified by letter, dated September 19, 2013, of the recommendation of the Ethics Subcommittee. The certified letter was delivered and signed for on September 23, 2013. Mr. Wortham did not respond within the required time period.

Presenter: Michael Smith

C-12 Consideration of the Recommendation of the Professional Licensure Standards Board for Case #13-151 – Edward Lynn Jones

Violation of Standard 1: An educator maintains a professional relationship with each student, both in and outside the classroom. Recommendation: The Professional Licensure Standards Board's Ethics Subcommittee is recommending that Edward Lynn Jones be issued a Written Reprimand, a fine of \$50, and mandatory training on suicide/mental health awareness by a licensed professional within six (6) months of the State Board's Order. Mr. Jones was notified by letter, dated September 19, 2013, of the recommendation of the Ethics Subcommittee. The certified letter was delivered and signed for on September 23, 2013. He accepted the recommendation on November 12, 2013.

Presenter: Michael Smith

C-13 Consideration of Voluntary Surrender of Arkansas Educator's License – Case #14-006 – Harold William Cotton

Harold William Cotton surrendered his teaching license as evidenced by his signed consent form dated October 28, 2013. Arkansas law does not provide for the mere surrender of a license. As a result, the Board's acceptance of the surrender of his license will result in its permanent revocation.

Presenter: Michael Smith and Cheryl Reinhart

C-14 Consideration of Voluntary Surrender of Arkansas Educator's License – Case #13-034 – Courtney Elizabeth Speer

Courtney Elizabeth Speer surrendered her teaching license as evidenced by her signed consent form dated October 30, 2013. Arkansas law does not provide for the mere surrender of a license. As a result, the Board's acceptance of the surrender of her license will result in its permanent revocation.

Presenter: Michael Smith and Cheryl Reinhart

Action Agenda

A-1 Consideration for Removal of Alpena School District from Fiscal Distress Classification effective December 9, 2013.

The Alpena School District was classified in Fiscal Distress for the 2012-13 school year. The Department has conducted on-site technical evaluations and assistance, off-site assistance, and analysis of the financial status of the Alpena School District. The Department is reporting that the Alpena School District has currently corrected all criteria for being removed from Fiscal Distress. Attached is a letter from the Alpena School District petitioning the State Board for removal of Fiscal Distress status. The Department recommends that the Alpena School District be removed from Fiscal Distress effective December 9, 2013. The Board is requested to accept and approve this petition in compliance with Ark. Code Ann. §6-20-1908(c), which requires a District in Fiscal Distress to petition the State Board of Education for removal from Fiscal Distress status after the Department has certified in writing that the school district has corrected all criteria for being classified as in Fiscal Distress and has complied with all Department recommendations and requirements for removal from Fiscal Distress.

Presenter: Hazel Burnett

A-2 Consideration for Removal of Brinkley School District from Fiscal Distress Classification Effective December 9, 2013.

The Brinkley School District was classified in Fiscal Distress for the 2012-13 school year. The Department has conducted on-site technical evaluations and assistance, off-site assistance, and analysis of the financial status of the Brinkley School District. The Department is reporting that the Brinkley School District has currently corrected all criteria

for being removed from Fiscal Distress. Attached is a letter from the Brinkley School District petitioning the State Board for removal of Fiscal Distress status. The Department recommends that the Brinkley School District be removed from Fiscal Distress effective December 9, 2013. The Board is requested to accept and approve this petition in compliance with Ark. Code Ann. §6-20-1908(c), which requires a District in Fiscal Distress to petition the State Board of Education for removal from Fiscal Distress status after the Department has certified in writing that the school district has corrected all criteria for being classified as in Fiscal Distress and has complied with all Department recommendations and requirements for removal from Fiscal Distress.

Presenter: Hazel Burnett

A-3 Consideration for Removal of Hartford School District from Fiscal Distress Classification Effective December 9, 2013

The Hartford School District was classified in Fiscal Distress for the 2012-13 school year. The Department has conducted on-site technical evaluations and assistance, off-site assistance, and analysis of the financial status of the Hartford School District. The Department is reporting that the Hartford School District has currently corrected all criteria for being removed from Fiscal Distress. Attached is a letter from the Hartford School District petitioning the State Board for removal of Fiscal Distress status. The Department recommends that the Hartford School District be removed from Fiscal Distress effective December 9, 2013. The Board is requested to accept and approve this petition in compliance with Ark. Code Ann. §6-20-1908(c), which requires a District in Fiscal Distress to petition the State Board of Education for removal from Fiscal Distress status after the Department has certified in writing that the school district has corrected all criteria for being classified as in Fiscal Distress and has complied with all Department recommendations and requirements for removal from Fiscal Distress.

Presenter: Hazel Burnett

A-4 Consideration for Removal of Hermitage School District from Fiscal Distress Classification Effective December 9, 2013

The Hermitage School District was classified in Fiscal Distress for the 2012-13 school year. The Department has conducted on-site technical evaluations and assistance, off-site assistance, and analysis of the financial status of the Hermitage School District. The Department is reporting that the Hermitage School District has currently corrected all criteria for being removed from Fiscal Distress. Attached is a letter from the Hermitage School District petitioning the State Board for removal of Fiscal Distress status. The Department recommends that the Hermitage School District be removed from Fiscal Distress effective December 9, 2013. The Board is requested to accept and approve this petition in compliance with Ark. Code Ann. §6-20-1908(c), which requires a District in Fiscal Distress to petition the State Board of Education for removal from Fiscal Distress status after the Department has certified in writing that the school district has corrected all criteria for being classified as in Fiscal Distress and has complied with all Department recommendations and requirements for removal from Fiscal Distress.

Presenter: Hazel Burnett

A-5 Consideration for Adoption of the Revised Foreign Language Frameworks

Arkansas Law and ADE rules require the periodic revision of all curriculum frameworks. Content areas are due for revision every six years. The Arkansas frameworks for foreign languages were last revised in 2007; therefore, the ADE convened a revision committee during the summer of 2013 to develop recommendations to revise the frameworks. In accordance with Arkansas law and ADE rules, the committee consisted of representatives of urban, suburban, and rural districts and all five ACTAAP regions. The group included instructors of seven foreign languages ranging from kindergarten through the university level. The Curriculum and Instruction Unit recommends the adoption of the following revised frameworks: Modern Languages I-IV, to replace the group of twenty separate frameworks that currently guide the instruction of modern languages at the secondary school level; Spanish for Heritage and Native

Speakers I-III, to replace the group of three frameworks that currently guide Spanish instruction at the secondary school level for students whose native or home language is Spanish; Latin I-II, to replace the pair of frameworks that currently guide the instruction of Latin at the secondary school level; K-8 Foreign Languages Acquisition; and K-8 Foreign Language Experiences. Contingent upon approval, these curriculum frameworks will be used in instruction in the 2014-2015 school year.

Presenter: Dr. Tracy Tucker, Director of Curriculum and Instruction

A-6 Consideration for Public Comment: Arkansas Department of Education Rules Governing How to Meet the Needs of Children With Dyslexia

Act 1294 of 2013 created an additional subchapter in Ark. Code Ann. Title 6, Chapter 40, to add §§ 6-40-101, et seq., an Act to ensure that children with dyslexia have their needs met by the public school system. The promulgation of these rules are based on legislative action. This is the first time this rule has been presented to the Board.

Accordingly, Department staff respectfully requests the State Board approve the proposed rules for a public comment period.

Presenter: Valerie Bailey

A-7 Consideration for Final Approval: Arkansas Department of Education Rules Governing the Administration of Glucagon to Arkansas Public School Students Suffering From Diabetes

Act 1232 of 2013 amended Ark. Code Ann. § 17-87-103 regarding the administration of glucagon by volunteer trained school personnel. The revisions to these rules are based on the legislative changes. The State Board released these rules for public comment on October 14, 2013. A public hearing was held on October 31, 2013. Written comments were received during the public comment period. No changes were made based on the comments. Department staff respectfully requests that the State Board give final approval to these rules.

Presenter: Kendra Clay

A-8 Charter Authorizing Panel Action on Requested Open-Enrollment Public Charter School Application: Capitol City Lighthouse Charter School, North Little Rock, Arkansas

On November 13-14, 2013, the Charter Authorizing Panel conducted hearings for open-enrollment charter applicants wanting to open schools in 2014-2015. Representatives of Capitol City Lighthouse Charter School appeared before the panel on November 13 (See 04:07 of the video recording of the meeting.) and requested that Lighthouse Academies of Central Arkansas, Inc., the sponsoring entity, be allowed to open a charter in North Little Rock to serve students in grades K-12 with a maximum enrollment of 750. Representatives of the North Little Rock School District and the Little Rock School District spoke in opposition to the charter. By a 5-1 vote, the panel denied the application for Capitol City Lighthouse Charter School. No request for the State Board of Education to review the decision made by the panel was submitted. The State Board may exercise a right of review of a determination made by the Charter Authorizing Panel and conduct a hearing on the Charter Authorizing Panel determination at the State Board's January 2014 meeting.

Presenter: Mary Perry

A-9 Charter Authorizing Panel Action on Open-Enrollment Public Charter School Application: Young Adult Magic Johnson Bridgescape Academy of Crittenden County, Sunset, Arkansas

On November 13-14, 2013, the Charter Authorizing Panel conducted hearings for open-enrollment charter applicants wanting to open schools in 2014-2015. Representatives of Young Adult Magic Johnson Bridgescape Academy of

Crittenden County appeared before the panel on November 14 (See 04:28 of the video recording of the meeting.) and requested that Osceola Communication, Business and Arts, Inc., the sponsoring entity, be allowed to open a charter in Sunset to serve students in grades 9-12 with a maximum enrollment of 250. A representative of the South Mississippi County School District spoke to the panel. By unanimous vote, the panel tabled the application for Young Adult Magic Johnson Bridgescape Academy of Crittenden County. The hearing for the Young Adult Magic Johnson Bridgescape Academy of Crittenden County charter application continued on November 21, 2013. Representatives from the Marion School District and the West Memphis School District responded to inquiries from Charter Authorizing Panel members. With a vote of 5-1, the panel denied the application for the Young Adult Magic Johnson Bridgescape Academy of Crittenden County. No request for the State Board of Education to review the decision made by the panel was submitted. The State Board may exercise a right of review of a determination made by the Charter Authorizing Panel and conduct a hearing on the Charter Authorizing Panel determination at the State Board's January 2014 meeting.

Presenter: Mary Perry

A-10 Charter Authorizing Panel Action on Open-Enrollment Public Charter School Application: Young Adult Magic Johnson Bridgescape Academy of Mississippi County, Osceola, Arkansas

On November 13-14, 2013, the Charter Authorizing Panel conducted hearings for open-enrollment charter applicants wanting to open schools in 2014-2015. Representatives of Young Adult Magic Johnson Bridgescape Academy of Mississippi County appeared before the panel on November 14 (See 06:48 of the video recording of the meeting.) and requested that Osceola Communication, Business and Arts, Inc., the sponsoring entity, be allowed to open a charter in Osceola to serve students in grades 9-12 with a maximum enrollment of 250. A representative of the South Mississippi County School District spoke to the panel. By a vote of 3-2 with one panel member absent for the vote, the panel tabled the application for Young Adult Magic Johnson Bridgescape Academy of Mississippi County. The hearing for the Young Adult Magic Johnson Bridgescape Academy of Mississippi County charter application continued on November 21, 2013. By unanimous vote, the panel denied the application for Young Adult Magic Johnson Bridgescape Academy of Mississippi County. No request for the State Board of Education to review the decision made by the panel was submitted. The State Board may exercise a right of review of a determination made by the Charter Authorizing Panel and conduct a hearing on the Charter Authorizing Panel determination at the State Board's January 2014 meeting.

Presenter: Mary Perry

A-11 Charter Authorizing Panel Action on Requested Open-Enrollment Public Charter School Amendments: Arkansas Virtual Academy (ARVA)

The State Board of Education approved the application for ARVA on October 13, 2004. The charter is approved to serve students in grades K-12 with a maximum enrollment of 3,000. Representatives of ARVA appeared before the Charter Authorizing Panel on November 13, 2013, and the panel approved the requested amendments to the current charter. No request for the State Board of Education to review the decision made by the panel was submitted. The State Board may exercise a right of review of a determination made by the Charter Authorizing Panel and conduct a hearing on the Charter Authorizing Panel determination at the State Board's January 2014 meeting.

Presenter: Mary Perry

A-12 Charter Authorizing Panel Action on Requested Open-Enrollment Public Charter School Amendments: KIPP Delta Public Schools

The State Board of Education approved the application for KIPP Delta Public Schools on March 11, 2002. The charter is approved to serve students in grades K-12 with a maximum enrollment of 1,550. Representatives of KIPP appeared before the Charter Authorizing Panel on November 13, 2013, and the panel approved the requested amendments to

the current charter. No request for the State Board of Education to review the decision made by the panel was submitted. The State Board may exercise a right of review of a determination made by the Charter Authorizing Panel and conduct a hearing on the Charter Authorizing Panel determination at the State Board's January 2014 meeting.

Presenter: Mary Perry

A-13 Charter Authorizing Panel Action on Requested Open-Enrollment Public Charter School Amendments: Northwest Arkansas Classical Academy

The State Board of Education approved the application for Northwest Arkansas Classical Academy on November 1, 2012. The charter is approved to serve students in grades K-12 with a maximum enrollment of 685. Representatives of Northwest Arkansas Classical Academy appeared before the Charter Authorizing Panel on November 13, 2013, and requested multiple waivers of laws and rules via the charter amendment request process. The panel approved some of the requested waivers and denied some of the requested waivers. No request for the State Board of Education to review the decision made by the panel was submitted. The State Board may exercise a right of review of a determination made by the Charter Authorizing Panel and conduct a hearing on the Charter Authorizing Panel determination at the State Board's January 2014 meeting.

Presenter: Mary Perry

A-14 Charter Authorizing Panel Action on Requested Open-Enrollment Public Charter School Amendments: Premier High School of Little Rock

The State Board of Education approved the application for Premier High School of Little Rock on November 1, 2012. The charter is approved to serve students in grades 9-12 with a maximum enrollment of 240. Representatives of Premier High School of Little Rock appeared before the Charter Authorizing Panel on November 13, 2013, and requested multiple waivers of laws and rules via the charter amendment request process. The panel granted approval for Premier High School of Little Rock to withdraw some of the requested waivers and approved all of the waiver requests that were not withdrawn. No request for the State Board of Education to review the decision made by the panel was submitted. The State Board may exercise a right of review of a determination made by the Charter Authorizing Panel and conduct a hearing on the Charter Authorizing Panel determination at the State Board's January 2014 meeting.

Presenter: Mary Perry

A-15 Charter Authorizing Panel Action on Requested Open-Enrollment Public Charter School Amendments: Quest Middle School of Pine Bluff

The State Board of Education approved the application for Quest Middle School of Pine Bluff on November 1, 2012. The charter is approved to serve students in grades 5-12 with a maximum enrollment of 460. Representatives of Quest Middle School of Pine Bluff appeared before the Charter Authorizing Panel on November 13, 2013, and requested multiple waivers of laws and rules via the charter amendment request process. The panel granted approval for Quest Middle School of Pine Bluff to withdraw some of the requested waivers and approved all of the waiver requests that were not withdrawn. No request for the State Board of Education to review the decision made by the panel was submitted. The State Board may exercise a right of review of a determination made by the Charter Authorizing Panel and conduct a hearing on the Charter Authorizing Panel determination at the State Board's January 2014 meeting.

Presenter: Mary Perry

A-16 Charter Authorizing Panel Action on Requested Open-Enrollment Public Charter School Amendment: Arkansas School for Integrated Academics and Technologies (SIATech)

The State Board of Education approved the application for SIATech on January 14, 2011. The charter is approved to serve students in grades 9-12 with a maximum enrollment of 275. Representatives of SIATech appeared before the Charter Authorizing Panel on November 13, 2013, and the panel approved the requested amendment to the current charter. No request for the State Board of Education to review the decision made by the panel was submitted. The State Board may exercise a right of review of a determination made by the Charter Authorizing Panel and conduct a hearing on the Charter Authorizing Panel determination at the State Board's January 2014 meeting.

Presenter: Mary Perry

A-17 Charter Authorizing Panel Action on Requested District Conversion Public Charter School Amendments: Washington Academy in the Texarkana School District

The State Board of Education approved the application for Washington Academy on January 14, 2013. The charter is approved to serve students in grades 9-12 with a maximum enrollment of 160. Representatives of Washington Academy appeared before the Charter Authorizing Panel on November 13, 2013, and the panel approved the requested amendments to the current charter. No request for the State Board of Education to review the decision made by the panel was submitted. The State Board may exercise a right of review of a determination made by the Charter Authorizing Panel and conduct a hearing on the Charter Authorizing Panel determination at the State Board's January 2014 meeting.

Presenter: Mary Perry

A-18 Little Rock School District Request for Review: Exalt Academy of Southwest Little Rock, Little Rock, Arkansas

On November 13-14, 2013, the Charter Authorizing Panel conducted hearings for open-enrollment charter applicants wanting to open schools in 2014-2015. Representatives of Exalt Academy of Southwest Little Rock appeared before the panel on November 13 (See 6:15 of the video recording of the meeting.) and requested that Exalt Education, Inc., the sponsoring entity, be allowed to open a charter in Little Rock to serve students in grades K-8 with a maximum enrollment of 540. A representative of the Little Rock School District spoke in opposition to the charter. By unanimous vote, the panel approved the application for Exalt Academy of Southwest Little Rock. Pursuant to Ark. Code Ann. § 6-23-701 et seq., the Little Rock School District requests that the State Board of Education conduct a hearing at its January 2014 meeting to review the decision made by the Charter Authorizing Panel.

Presenter: Mary Perry

A-19 Little Rock School District Request for Review: Quest Middle School of West Little Rock, Little Rock, Arkansas

On November 13-14, 2013, the Charter Authorizing Panel conducted hearings for open-enrollment charter applicants wanting to open schools in 2014-2015. Representatives of Quest Middle School of West Little Rock appeared before the panel on November 14 (See 11:20 of the video recording of the meeting.) and requested that Responsive Education Solutions, the sponsoring entity, be allowed to open a charter in Little Rock to serve students in grades 6-12 with a maximum enrollment of 490. A representative of the Little Rock School District spoke in opposition to the charter. By unanimous vote, the panel approved the application for Quest Middle School of West Little Rock. Pursuant to Ark. Code Ann. § 6-23-701 et seq., the Little Rock School District requests that the State Board of Education conduct a hearing at its January 2014 meeting to review the decision made by the Charter Authorizing Panel.

Presenter: Mary Perry

A-20 Applicant Request for Review: Ozark College and Career Academy, Springdale, Arkansas

On November 13-14, 2013, the Charter Authorizing Panel conducted hearings for open-enrollment charter applicants

wanting to open schools in 2014-2015. A representative of the Ozark College and Career Academy appeared before the panel on November 13 (See 7:46 of the video recording of the meeting.) and requested that Ozark, Inc., the sponsoring entity, be allowed to open a charter in Springdale to serve students in grades K-12 with a maximum enrollment of 250. A representative of the Springdale School District spoke in opposition to the charter. With a vote of 5-1, the panel denied the application for the Ozark College and Career Academy. Pursuant to Ark. Code Ann. § 6-23-701 et seq., the applicant requests that the State Board of Education conduct a hearing at its January 2014 meeting to review the decision made by the Charter Authorizing Panel.

Presenter: Mary Perry

A-21 Applicant Request for Review: Redfield Tri-County Charter School, Redfield, Arkansas

On November 13-14, 2013, the Charter Authorizing Panel conducted hearings for open-enrollment charter applicants wanting to open schools in 2014-2015. A representative of the Redfield Tri-County Charter School appeared before the panel on November 14 (See 02:28 of the video recording of the meeting.) and requested that Redfield Tri-County Charter School, the sponsoring entity, be allowed to open a charter in Redfield to serve students in grades 5-12 with a maximum enrollment of 375. By unanimous vote, the panel denied the application for Redfield Tri-County Charter School. Pursuant to Ark. Code Ann. § 6-23-701 et seq., the applicant requests that the State Board of Education conduct a hearing at its January 2014 meeting to review the decision made by the Charter Authorizing Panel.

Presenter: Mary Perry

A-22 Hearing on Waiver Request for Teaching License – Steven Trulock

Steven Trulock is a licensed educator who has requested a waiver of the grounds for nonrenewal of his standard teaching license. In 2005, Mr. Trulock was found guilty of a disqualifying offense under Ark. Code Ann. § 6-17-410(c). Mr. Trulock represents himself.

Presenter: Cheryl Reinhart

A-23 Hearing on Recommendation for Revocation of Teaching License – Cody Martin

Cody Martin is a licensed educator who has a report of a “true finding” of child maltreatment on the Child Maltreatment Central Registry. On August 27, 2013, the Department of Human Services Office of Appeals and Hearings upheld the true finding. No further appeals have been filed. No request for a waiver has been received. The Department recommends revocation of Mr. Martin’s teaching license.

Minutes
State Board of Education Meeting
Monday, November 4, 2013

The State Board of Education met Monday, November 4, 2013, in the auditorium of the Department of Education building. Chair Brenda Gullett called the meeting to order at 9 a.m.

Present: Brenda Gullett, Chair; Sam Ledbetter, Vice-Chairman; Alice Mahony; Dr. Jay Barth; Vicki Saviers; Toyce Newton; Diane Zook; Joe Black; Alexia Weimer, Teacher of the Year; and Dr. Tom Kimbrell, Commissioner

Present by Phone: Mireya Reith

Reports

Chair's Report

Ms. Gullett recently attended the opening of the Lakeside Junior High School in Springdale.

Ms. Mahony traveled to Monticello and Camden to meet with counselors and share information regarding the military compact.

Commissioner's Report

Commissioner Kimbrell reported the recent Special Session allocated resources for public school employee health insurance. Facilities and professional development funds were utilized. Rules for professional development will need to be revised for 2014-2015. A task force was identified to study public school employee health insurance. Commissioner Kimbrell recognized Mr. Tony Wood, Deputy Commissioner, for his work during the Special Session.

Commissioner Kimbrell recognized Mr. Andrew Tolbert, State Superintendent of the Office of Intensive Support. Mr. Tolbert introduced Jeff Martello, Director of Fiscal Services, and Janice Streeter, Director of Learning Services. Mr. Tolbert outlined the goals of the Office of Intensive Support. The team will be working with schools in distress and state takeover. The Office of Intensive Support is funded from an ADE grant but will become self-sustaining in the future.

Update on Common Core State Standards, PARCC and School Improvement

Dr. Megan Witonski, Assistant Commissioner for the Division of Learning Services, reported a team is working on a communication plan. In partnership

with Arkansas IDEAS, a new STEM website is available to show videos of STEM classrooms. The division continues to work on content standards and next generation assessments. Staff will be attending a conference on Universal Design for Learning (UDL).

Recognition of the 2014 Arkansas Superintendent of the Year - Dr. Kim Wilbanks

Dr. Kimbrell recognized Dr. Richard Abernathy, Executive Director of AAEA. Dr. Abernathy reported the American Association of School Administrators (AASA) National Superintendent of the Year program, sponsored by ARAMARK Education, ING and AASA, pays tribute to the talent and vision of the men and women who lead the nation's public schools. Candidates are judged on the following criteria: leadership for learning, communication, professionalism, and community involvement. Each state association of school administrators selects a State Superintendent of the Year. These superintendents are then in the running for National Superintendent of the Year and will be recognized and honored at the AASA National Conference on Education.

Dr. Kimbrell recognized Dr. Kim Wilbanks, 2014 Arkansas Superintendent of the Year and outlined the many contributions Dr. Wilbanks has made to education. Dr. Wilbanks thanked the State Board members for their continued support of educators.

Representative Harold Copenhaver, D-58, presented a plaque to Dr. Wilbanks.

PCSSD Fiscal Distress and Facilities Plan Report

Ms. Mahony stated that PCSSD did a fabulous job recently with the bus incident and caring for the students and staff. The cameras did a great job of recording the incident. Dr. Guess recognized the bus driver for her role in keeping students safe.

Dr. Guess reported the district is working hard to become unitary. The district is concerned about facilities in its efforts to become unitary. PCSSD supports Jacksonville becoming its own district. Many updates have been made to facilities including roofing, paving parking lots, renovation of bathrooms, and updated heating and cooling systems. Dr. Guess outlined a proposed facilities plan for PCSSD.

Priority Schools Report

Mr. John Hoy, Assistant Commissioner for the Division of Public School Accountability, presented a list of the schools identified as priority schools. Mr. Elbert Harvey, School Improvement Coordinator, reported each priority school was assigned a school improvement specialist (SIS) that was on-site at least one

day per week. The SIS worked with building leadership to understand the ESEA Flexibility document and to design the priority improvement plan (PIP). The SIS worked with the leadership team and external providers to identify root causes of issues and design an improvement plan for success.

Dr. Kimbrell reported the ADE would have updated information regarding ESEA Flexibility in December.

Consent Agenda

Progress Report on Status of Districts Classified in Fiscal Distress

Mr. Mike Hernandez, Assistant Commissioner for Fiscal and Administrative Services, and Ms. Hazel Burnett, Director of Fiscal Distress, reported currently nine districts are classified as being in Fiscal Distress. Department staff conducts on-site visits, reviews district financial improvement plans and financial reports, and works with Fiscal Distress districts on issues specific to the individual districts. The nine districts in Fiscal Distress are Alpena, Brinkley, Hartford, Helena-West Helena, Hermitage, Hughes, Mineral Springs, Pulaski County Special, and Western Yell County.

Minutes – October 14, 2013 Amendment

Ms. Zook requested the Minutes for October 14, 2013 be amended referencing action item #4, **Consideration for Final Approval: Proposed Rules Governing Background Checks and Licensure Revocation**, to include substitutes in the statement: **Ms. Zook encouraged superintendents to require contracted food workers, substitutes and bus drivers to meet background checks.**

Dr. Barth moved, seconded by Ms. Mahony, to approve the consent agenda. The motion carried unanimously.

Items included in the Consent Agenda:

- Minutes - October 14, 2013
- Commitment to Principles of Desegregation Settlement Agreement: Report on the Execution of the Implementation Plan
- Newly Employed, Promotions and Separations
- Report on Waivers to School Districts for Teachers Teaching Out of Area for Longer than Thirty (30) Days, Ark. Code Ann. §6-17-309
- Progress Report on Status of Districts Classified in Fiscal Distress
- Consideration of the Recommendation of the Professional Licensure Standards Board for Case #13-141—Michelle Dawn Harper
- Consideration of Voluntary Surrender of Arkansas Educator's License—Case #12-061—Brittany Lynn Burns

Action Agenda

Proposed School Board Resolution

The Arkansas School Boards Association requested the Board acknowledge local school boards with a resolution. Horace Smith reported January is School Board month recognizing the contributions of school board members.

Ms. Saviers moved, seconded by Ms. Zook, to approve a Board resolution recognizing Arkansas School Board members. The motion carried unanimously.

The Board considered A-2 and A-3 together.

A-2 Consideration of New Rule for Public Comment: Proposed Rules Governing the Leader Excellence and Development System

The Department recommended the promulgation of a new rule to be known as the Rules Governing the Leader Excellence and Development System (LEADS) to implement an administrator evaluation system for school districts to evaluate administrators that weights an administrator evaluation on student performance and growth to the same extent as provided for teachers under the Teacher Excellence and Support System, pursuant to Ark. Code Ann. § 6-17-2809 and Act 709 of 2013.

A-3 Consideration for Public Comment: Rules Governing Ethical Guidelines and Prohibitions for Educational Administrators, Employees, Board Members, and Other Parties

Act 608 of 2013 amended Ark. Code Ann. § 6-24-101 et seq. relating to ethical prohibitions for administrators, board members, and employees. Revisions to these rules include the necessary changes based on Act 608 of 2013. The State Board approved these revisions for public comment on September 9, 2013. Public comments were received and additional revisions were made to the rules as a result of the comments. Department staff requested the State Board approve the proposed rules for a second public comment period.

Ms. Mahony moved, seconded by Mr. Ledbetter, to approve for public comment the Proposed Rules Governing the Leader Excellence and Development System and the Rules Governing Ethical Guidelines and Prohibitions for Educational Administrators, Employees, Board Members, and Other Parties. The motion carried unanimously.

Consideration for Final Approval: Rules Governing the School District Educational Excellence Trust Funds

Acts 1138 and 1278 of 2013 amended Arkansas law related to Educational Excellence Trust Funds. Additionally, the current version of the Arkansas Department of Education Rules Governing School District Educational Excellence Trust Funds has not been revised since 1996. The State Board approved these revisions for a second public comment period on September 9, 2013. No public comments were received. Department staff requested the State Board give final approval to these rules.

Ms. Saviers moved, seconded by Ms. Newton, to approve the Rules Governing the School District Educational Excellence Trust Funds. The motion carried unanimously.

Hearing on Waiver Request for Teaching License – Melvin T. Ewart

Melvin T. Ewart holds a lifetime teaching license. The Department notified Mr. Ewart that a background check conducted for the purpose of his employment at an Arkansas school district revealed a disqualifying offense under Ark. Code Ann. § 6-17-410(c). On October 15, 2013, Mr. Ewart requested a hearing before the State Board to seek a waiver of the offense. Mr. Ewart represented himself. Professional Licensure Standards Board (PLSB) Attorney Cheryl Reinhart said the Department had insufficient information to make a recommendation.

Mr. Ledbetter asked Ms. Reinhart to work with Mr. Ewart to gather the requested official records regarding the disqualifying offense. Mr. Ewart said he would comply with the Board request. The action item will be placed on the agenda for a future board meeting.

Ms. Newton moved, seconded by Ms. Saviers, to take no action on the Waiver Request for Teaching License – Melvin T. Ewart. The motion carried unanimously.

Request to Speak – Public Comment

Dr. Barth moved, seconded by Ms. Saviers, to allow five minutes for the Campaign to End Aids spokesperson, Kari Coffman, to speak to the Board. The motion carried unanimously.

Kari Coffman, spokesperson for Campaign to End Aids, read a letter about the September event at Pea Ridge School District when three students were denied attendance.

Request to Speak – Public Comment

Ms. Newton moved, seconded by Ms. Mahony, to deny Kevin Baer a request to

speak before the Board. The motion carried unanimously.

Adjournment

The meeting adjourned at 12:38 p.m.

Minutes recorded by Deborah Coffman.

ADE'S PROJECT MANAGEMENT TOOL EXECUTIVE SUMMARY
NOVEMBER 30, 2013

This document summarizes the progress that ADE has made in complying with the provisions of the Implementation Plan during the month of November 2013.

IMPLEMENTATION PHASE ACTIVITY

I. Financial Obligations

- A. As of October 31, 2013, State Foundation Funding payments paid for FY 13/14 totaled \$16,814,823 to LRSD, \$10,042,182 to NLRSD, and \$12,201,070 to PCSSD.
- B. As of October 31, 2013, the Magnet Operational Charge paid for FY 13/14 totaled \$14,296,899. The allotment for FY 13/14 was \$14,296,899.
- C. As of October 31, 2013, the M-to-M incentive checks paid for FY 13/14 totaled \$1,211,127 to LRSD, \$1,235,469 to NLRSD, and \$3,182,085 to PCSSD.
- D. ADE pays districts three equal installments each year for their transportation budgets.
 - 1. In November 2012, General Finance made the last one-third payment to the Districts for their FY 11/12 transportation budgets. As of December 31, 2012, transportation payments for FY 11/12 totaled \$4,623,452.01 to LRSD, \$1,161,173.60 to NLRSD, and \$2,878,275.70 to PCSSD.
 - 2. In November 2012, General Finance made the first one-third payment to the Districts for their FY 12/13 transportation budgets. As of December 31, 2012, transportation payments for FY 12/13 totaled \$1,530,000.00 to LRSD, \$401,121.35 to NLRSD, and \$1,151,841.67 to PCSSD.
 - 3. In March 2013, General Finance made the second one-third payment to the Districts for their FY 12/13 transportation budgets. As of March 31, 2013, transportation payments for FY 12/13 totaled \$1,530,000.00 to LRSD, \$401,121.35 to NLRSD, and \$1,151,841.67 to PCSSD.
- E. The Office of State Procurement have received the final expenditures and estimated expenditures for the Little Rock School District and PCSSD. The Office of State Procurement is still waiting on expenditure information from the North Little Rock School District. As soon as the North Little Rock School District's expenditures are received, the Office of State Procurement will proceed with the final payment for 2012-2013 and the first payment for 2013-2014.
- F. In July 2012, Finance paid the Magnet Review Committee \$92,500. This was the total amount due for FY12/13.
- G. In July 2012, Finance paid the Office of Desegregation Monitoring \$200,000. This was the total amount due for FY 12/13.

II. *Monitoring Compensatory Education*

On October 3, 2013, the ADE Implementation Phase Working Group met to review the Implementation Phase activities from the previous quarter. Mr. Willie Morris, ADE Lead Planner for Desegregation, updated the group on all relevant desegregation issues. Mr. Scott Richardson, Assistant Attorney General, stated the depositions are over and approximately 40,000 pages of documentation have been submitted to the parties through the discovery process. Some parties asked for a continuance in the December trial but were denied. Trial is set for December 9, 2013 regarding the state's motion to be relieved from the 1989 settlement agreement. ADE will continue to provide assistance to PCSSD regarding desegregation issues in becoming unitary in all areas. The next Implementation Phase Working Group Meeting is scheduled for January 9, 2014 at 1:30 p.m. in the ADE Auditorium.

III. *A Petition for Election for LRSD will be Supported Should a Millage be Required*

Ongoing. All court pleadings are monitored monthly.

IV. *Repeal Statutes and Regulations that Impede Desegregation*

On July 1, 2013, the ADE sent a letter to Little Rock School District, North Little Rock School District, Pulaski County Special School District, Knight and Joshua Intervenors referencing Inquiry Regarding Statutes and Regulations Affecting Desegregation. On July 29, 2013, Pulaski County Special School District responded stating that Act 1227 of 2013 (Ark. Code Ann. 6-18-1901, et seq.) impedes desegregation. This statute permits students to leave their resident district for another district without regard to the racial composition of either district. Act 1227 replaced the School Choice Act of 1989 (Ark. Code Ann. 6-18-206).

V. *Commitment to Principles*

On November 4, 2013, the Arkansas State Board of Education reviewed and approved the PMT and its Executive Summary for the month of October.

VI. *Remediation - Evaluate the impact of the use of resources for technical assistance*

On September 30 and October 1-2, 2013, Charlotte Marvell, ADE Math Specialist; Cathy Mackey, ADE Science Assessment Specialist; Jimmy Blevins, ADE Public School Program Advisor; Brian Ayers, Easter Seals; and staff from Questar Assessment, Inc. conducted Alternate Portfolio Training. The training was for all school districts on how to develop the alternate portfolio for students with disabilities. The following sessions included: Multimedia in Portfolios, Using Evidence for Science Portfolios, Activities for Grade 9th Math, iScore Grade 9th Math and Grade 10th Science, Math Madness for Grades 3rd – 8th, iScore Grades 3rd – 8th and Grade 11th. The training took place at the Holiday Inn Airport in Little Rock, Arkansas. North Little Rock School District, Pulaski County Special School District and Little Rock School District attended the training.

On October 1, 2013, ADE and McKinsey Consulting Group conducted a technical assistance meeting regarding Partnership for Assessment of Readiness for College and Careers (PARCC) Sustainability Focus Group Study. They gathered PARCC assessment implementation data from district stakeholders. It was held at the Arkansas Association of Educational Administrators (AAEA) Building in Little Rock, Arkansas. Little Rock School District attended the meeting.

VII. Test Validation

The Arkansas Department of Education (ADE) has, for over fifteen (15) years, implemented a rigorous, statistically sound and nationally recognized process for developing questions for its state standardized assessments. This process continues on an ongoing basis.

Before a question appears on a state standardized exam to measure student achievement, the question must survive a strict review process that lasts at least two (2) years. The process includes a review of each draft question by an internal team of ADE content specialists, a Content Committee, a Bias Review Committee and a Committee of Practitioners. The ADE also relies upon trained psychometricians, a Technical Advisory Committee (TAC), and the federal peer review process to conduct ongoing evaluations of the ADE's standardized testing procedures to ensure that those procedures are reliable, valid and controlled for bias.

Part of the two-year review process includes a review of each draft test question by the Bias Review Committee. The committee specifically reviews each draft test question for bias or lack of cultural sensitivity. The Bias Review Committee consists of approximately ten (10) educators, program specialists and administrators from throughout Arkansas. This committee is responsible for reviewing all reading passages, test questions, and writing prompts to make certain that the questions are controlled for bias and are not insensitive to specific groups or individuals. Once each draft question is field tested, the Bias Review Committee meets again to review the results using student data disaggregated by demographic group to review indications of possible bias with regard to a particular question. The Bias Review Committee has the power to reject a draft question altogether or require the draft question to be revised. If the Bias Review Committee orders a draft question to be revised, the entire two-year review process begins anew.

Only a draft question that has been found acceptable at every stage of the bias review process may be placed on an operational test to measure student achievement.

VIII. In-Service Training

On September 5, 12, 19, and 26, 2013, ADE provided professional development at the University of Arkansas at Little Rock. Stephanie Copes assisted in providing Reading Recovery Training for the Reading Recovery Teachers in training. The presenters were Dr. Janet Behrend, Reading Recovery Trainer and Stephanie Copes, ADE Professional Development Specialist/Reading Recovery Teacher Leader. The audience consisted of Cotinna Johnson and Elaine Burton, Reading Recovery Teachers in training.

On October 15, 2013, ADE made a site visit to Bale Elementary School in the Little Rock School District regarding Focus School Monitoring. A meeting was held with the principal to discuss the Targeted Improvement Plan (TIP). Classroom observations were conducted and debriefed. The presenters were Dr. Ericka McCarroll, Principal and Kathy Mascuilli, ADE Professional Development Specialist. The audience consisted of Harriet Harris, Math Coach.

On October 17, 2013, ADE made a site visit to Franklin Elementary School in the Little Rock School District regarding Focus School Monitoring. A meeting was held with the principal to discuss the Targeted Improvement Plan (TIP). Classroom observations were conducted and debriefed. The presenter was Kathy Mascuilli, ADE Professional Development Specialist. The audience consisted of Cynthia Collins, Principal; Barry Anderson, Math Coach; and Pat Halk, Literacy Coach.

VIII. *In-Service Training (Continued)*

On October 18, 2013, ADE made a site visit to Central High School in the Little Rock School District regarding Focus School Monitoring. A meeting was held with the literacy coach to clarify how to set up a training schedule for English teachers for the Literacy Design Collaborative (LDC). A meeting was held with the principal to discuss the Targeted Improvement Plan (TIP). The presenter was Kathy Mascuilli, ADE Professional Development Specialist. The audience consisted of Nancy Rousseau, Principal and Brenda Bankston, Literacy Coach.

On October 22, 2013, ADE conducted a meeting at the Pulaski County Special School District Administration Building. Karyl Bearden met with the PCSSD Federal Programs Coordinator and the PCSSD Program Administrators to review PCSSD Focus School's progress towards meeting their Interim Measurable Objectives (IMO) for the 2012-13 school year as identified in their Targeted Improvement Plan (TIP). The presenter was Karyl Bearden, ADE Professional Development Specialist. The audience consisted of Kathy Goff, Federal Programs Coordinator; Djuna Dudeck, Ellie Sullivan and Susan Fletcher, PCSSD Program Administrators.

On October 22, 2013, ADE made a site visit to Romine Elementary School in the Little Rock School District regarding Focus School Monitoring. Kathy Mascuilli, ADE Professional Development Specialist met with the principal to discuss the Targeted Improvement Plan (TIP). Classroom observations were conducted and debriefed. The presenters were Beverly Jones, Principal and Dr. Karen James, District Literacy Specialist. The audience consisted of Dr. Algie Davis, Executive Director of Pearson Learning, Inc.; Aleta Posey, Literacy Coach; Terri Evans, Math Coach; Sabrina Stout, District Literacy Specialist; and Karl Romaine, District Math Specialist.

On October 24, 2013, ADE made a site visit to Wakefield Elementary School in the Little Rock School District regarding Focus School Monitoring. A meeting was held with the principal to discuss the Targeted Improvement Plan (TIP). Classroom observations were conducted and debriefed. The leadership team meeting was also attended. The presenters were Les Taylor, Principal and Kathy Mascuilli, ADE Professional Development Specialist. The audience consisted of Dr. Phil Clark, District School Improvement Specialist; Constance Hansen, Math Coach; Juanita Scroggins, 5th Grade Teacher; and Kelli Collins, Kindergarten Teacher.

On October 25, 2013, ADE made a site visit to Stephens Elementary School in the Little Rock School District regarding Focus School Monitoring. A meeting was held with the principal to discuss the Targeted Improvement Plan (TIP). Classroom observations were conducted and debriefed. The leadership team meeting was also attended. The presenters were Sharon Brooks, Principal and Kathy Mascuilli, ADE Professional Development Specialist. The audience consisted of Sabrine Al-Ugdah, Literacy Coach; Larry Wood, Gifted and Talented Teacher; Margaret Williamson, Counselor; Sylvia Kelley, 3rd Grade Teacher; Jeff Small, community member; Lula Turner, 1st Grade Teacher; and Pam Hopson, parent.

VIII. *In-Service Training (Continued)*

On October 25, 2013, ADE made a site visit to the Pulaski County Special School District Administration Building. Karyl Bearden met with the PCSSD Learning Services Team. The discussion included Program Administrators' reports on assigned schools, curriculum, calendar clarifications, and updates from members of the Learning Services Team. The presenters were Dr. Laura Bednar, Deputy Superintendent and Renee Dawson, Director of Curriculum. The audience consisted of Dr. Janice Warren, Director of Elementary Education; Dr. John Tackett, Director of Secondary Education; Sam Altschul, Director of Professional Development; LaJuana Green, Assessment Coordinator; Laura Shirley, Talented and Gifted Coordinator; Kathy Goff, Director of Federal Programs; Paula Rawls, Special Education Coordinator; Djuana Dudeck, Susan Fletcher, Lance LeVar, Yolaundra Williams, Jennifer Beasley and Kiffany Davis, Program Administrators; Richard Wilde, ADE School Improvement Specialist; and Karyl Bearden, ADE Professional Development Specialist.

On October 25, 2013, ADE made a site visit to Maumelle Middle School in the Pulaski County Special School District. Karyl Bearden met with the principal, PCSSD Program Administrator, and the Arkansas Leadership Academy (ALA) Capacity Builder to review and discuss support needed and progress of the Targeted Improvement Plan (TIP). The presenters and the audience consisted of Karyl Bearden, ADE Professional Development Specialist; Joe Fisher, Arkansas Leadership Academy (ALA); Ryan Burgess, Principal; and Djuana Dudeck, PCSSD Program Administrator.

On October 31, 2013, ADE provided professional development at the State House Convention Center in Little Rock, Arkansas regarding Next Generation Science Standards (NGSS) are here: Now what? This was a one (1) hour presentation at the Arkansas Curriculum Conference 2013 about the Next Generation Science Standards (NGSS) in Arkansas. The presenters were Michele Snyder, ADE Science Curriculum Specialist; Cathy Mackey and Jimmy Blevins, ADE Science Assessment Specialists; and Courtney Sexton, North Little Rock School District Teacher. The audience consisted of other teachers and pre-service teachers from around the state of Arkansas.

On November 5, 2013, ADE made a site visit to Central High School in the Little Rock School District regarding Focus School Monitoring. Kathy Mascuilli monitored the Targeted Improvement Plan (TIP) and conducted classroom observations in Special Education. The presenter was Kathy Mascuilli, ADE Professional Development Specialist. The audience consisted of Nancy Rousseau, Principal; Barbara Stafford, High Schools That Work Director and Spanish III Teacher; and Lori Davenport, Special Education Compliance.

On November 6, 2013, ADE made a site visit to Martin Luther King Elementary School in the Little Rock School District regarding Focus School Monitoring. Kathy Mascuilli monitored the Targeted Improvement Plan (TIP) and met with some members of the leadership team to complete the 2012-2013 Interim Measurable Objectives (IMO) report. The presenter was Kathy Mascuilli, ADE Professional Development Specialist. The audience consisted of Karen Carter, Principal; Barbara Griggs, Asst. Principal; Dee Ann Morgan, Literacy Coach; and Suzy Diamond, Math Coach.

VIII. *In-Service Training (Continued)*

On November 7, 2013, ADE made a site visit to Romine Elementary School in the Little Rock School District regarding Focus School Monitoring. Kathy Mascuilli, ADE Professional Development Specialist monitored the Targeted Improvement Plan (TIP) and met with some members of the leadership team to complete the 2012-2013 Interim Measurable Objectives (IMO) report. A second grade classroom observation was conducted to observe the Reading Recovery Teacher conduct a small group reading. The presenter was Kathy Mascuilli, ADE Professional Development Specialist. The audience consisted of Beverly Jones, Principal; Betsy Kaye, District Reading Specialist; Karl Romaine, District Elementary Math Specialist; Terri Evans, Math Coach; and Aleta Posey, Literacy Coach.

On November 11, 2013, ADE made a site visit to Bale Elementary School in the Little Rock School District regarding Focus School Monitoring. Kathy Mascuilli monitored the Targeted Improvement Plan (TIP) and met with the principal to complete the 2012-2013 Interim Measurable Objectives (IMO) report. A leadership team meeting was held and the discussion centered on the work that the external provider, Pearson, Inc. is doing in Bale Elementary School. The presenters were Dr. Ericka McCarroll, Principal and Kathy Mascuilli, ADE Professional Development Specialist. The audience consisted of Harriet Harris, Math Coach; Nita Gray, Literacy Coach; Julia Cartwright, Kindergarten Teacher; Amanda Price, 2nd Grade Teacher; Malorie Carr, 3rd Grade Teacher; Jennifer Thomas, Gifted and Talented Teacher; Sheryl Jackson, 1st Grade Teacher; and Teresa Boatwright, Reading Recovery Teacher.

On November 13, 2013, ADE made a site visit to Franklin Elementary School in the Little Rock School District regarding Focus School Monitoring. Kathy Mascuilli monitored the Targeted Improvement Plan (TIP) and met with the principal to complete the 2012-2013 Interim Measurable Objectives (IMO) report and update the 2013-2014 Interim Measurable Objectives (IMO) report. A leadership team meeting was held to discuss updates from the math and literacy coaches. The presenters were Cynthia Collins, Principal and Kathy Mascuilli, ADE Professional Development Specialist. The audience consisted of Barry Anderson, Math Coach; Pat Halk, Literacy Coach; Ora Crenshaw, Counselor; Paula Smith, Reading Recovery Teacher; Jennifer Bulloch, 1st Grade Teacher; Tanneshia Beverly, Kindergarten Teacher; Shawn Williamson, Special Education Teacher; Khaleelah Muhammed, 2nd Grade Teacher; Lou Ann Gray, 2nd Grade Teacher; and Melvin Campbell, 5th Grade Teacher.

IX. *Recruitment of Minority Teachers*

During the months of October and November, the Office of Educator Licensure along with the Office of Educator Effectiveness has been attending community and job fairs as well as university career fairs at the following locations:

| | |
|------------------|---|
| October 16, 2013 | Henderson State University - Arkadelphia |
| October 16, 2013 | Arkansas State University - Jonesboro |
| October 30, 2013 | Arkansas Tech University - Russellville |
| November 2, 2013 | Arkansas Department of Education – Becoming an Arkansas Teacher Fall Conference 2013 – Holiday Inn Airport Little Rock, Arkansas |
| November 6, 2013 | University of Central Arkansas - Conway |
| November 8, 2013 | Grambling University – Ruston, Louisiana (2 nd out-of-state) |

X. Financial Assistance to Minority Teacher Candidates

Ms. Lisa Smith of the Arkansas Department of Higher Education reported Minority Scholarships for Fiscal Year 2011-2012 on April 9, 2013. These included the State Teacher Education Program (STEP) and the Teacher Opportunity Program (TOP). The scholarship awards are as follows:

| <u>2011-12 STEP</u> | | | Male | Male | Female | Female | Total | Total |
|----------------------------|-------|-------|-------|-------|--------|--------|------------|---------------------|
| Race | Count | Award | Count | Award | Count | Award | Count | Award |

| | | | | | | | 1181 | 196 Minority |

Teacher Opportunity Program (TOP) – the amount awarded will be based on the tuition, mandatory fees, books, and required supplies paid by the applicant for up to six (6) credit hours completed.

XI. Minority Recruitment of ADE Staff

The Minority Recruitment Committee met on October 3, 2013 at the ADE. The committee reviewed data related to the number of minority staff employed by the Arkansas Department of Education. The committee discussed the need to continue its review of previous ADE Minority Recruitment Plans and gather additional data to inform the committee’s work. Specifically, the committee will review data related to the statewide population as a whole, the population of students served, and the population of licensed teachers.

XII. School Construction

This goal is completed. No additional reporting is required.

XIII. Assist PCSSD by communicating with local colleges and universities to facilitate lowering the cost of Black History course offerings to its certified staff

Goal completed as of June 1995.

XIV. *Scattered Site Housing*

This goal is completed. No additional reporting is required.

XV. *Standardized Test Selection to Determine Loan Forgiveness*

Goal completed as of March 2001.

XVI. *Monitor School Improvement Plans - Follow-up and assist schools that have difficulty realizing their school improvement objectives*

On August 25, 2011, ADE staff held an ACSIP meeting at NLRSD. The meeting was held in Kristie Ratliff's office to discuss ACSIP requirements. Diane Gross discussed priorities, interventions, and actions and stressed that actions in the ACSIP plan must be very focused and clear. It was suggested that NLRSD put the budget codes in the action for the Bookkeeper's reference when paying out. The Peer Review Process for approving building plans was discussed.

In addition to the ACSIP, discussions were held about Title III and State ELL expenditures and making sure monies are being spent in a way the ELL students are being served. The need for spending the dollars in the buildings where the students are located was also pointed out.

XVII. *Data Collection*

The ADE Office of Public School Academic Accountability has released the 2010 Arkansas School Performance Report (Report Card). The purpose of the Arkansas School Performance Report is to generally improve public school accountability, to provide benchmarks for measuring individual school improvement, and to empower parents and guardians of children enrolled in Arkansas public schools by providing them with the information to judge the quality of their schools. The Department of Education annually produces a school performance report for each individual public school in the state.

XVIII. *Work with the Parties and ODM to Develop Proposed Revisions to ADE's Monitoring and Reporting Obligations*

On October 23, 2013, the ADE participated in a Desegregation Monitoring and Assistance Plan Meeting. Those in attendance were Margie Powell, Willie Morris, Aleta Fletcher, John Hoy, Dr. Laura Bednar, Dr. Robert Clowers, Sherman Whitfield, Terri Rogers and Dr. Janice Warren. The following items were discussed during the meeting:

Dr. Laura Bednar presented Section M. Student Achievement of Plan 2000, Data Director, Formative Evaluation Process for School Improvement (FEPSI), Arkansas Comprehensive School Improvement Plan (ACSIP) and closing the Achievement Gap.

Our next meeting has been scheduled for **Wednesday, November 13, 2013 at 2:30 p.m.** to review and discuss the status of compliance in Section F. Discipline of Plan 2000.

XVIII. Work with the Parties and ODM to Develop Proposed Revisions to ADE's Monitoring and Reporting Obligations (Continued)

“The Pulaski County Special School District (hereafter, PCSSD) remains non-unitary in nine (9) sections of the PCSSD's Plan 2000 (hereafter, Plan). Accordingly, the Arkansas Department of Education (hereafter, ADE) intends to provide monitoring and assistance to PCSSD with regard to the non-unitary sections of the Plan. We plan to monitor three (3) of the nine (9) sections every four months.”

ADE's Desegregation Monitoring Unit has conducted monitoring in the following sections:

June 10, 2013 – Section L. Staffing

June 11, 2013 – Section D. Advanced Placement (AP), Talented and Gifted (TAG), Honors

June 12, 2013 – Section K. Special Education

September 10, 2013 – Section C. Assignment of Students, and Section M. Student Achievement

September 11, 2013 – Section H. School Facilities

ADE's next monitoring visit will be scheduled for January 7-8, 2014. The following sections will be monitored:

January 7, 2014- Section F. Discipline, and Section I. Scholarships

January 8, 2014 – Section N. Monitoring

NEWLY EMPLOYED FOR THE PERIOD OF October 19, 2013 – November 15, 2013

Johanna Henderson – Public School Program Advisor, Grade C122, Division of Public School Accountability, Federal and State Monitoring, effective 11/12/13.

Joan Luneau – Public School Program Advisor, Grade C122, Division of Human Resources/Licensure, Educator Licensure, effective 10/28/13.

Paula Thurmond – Administrative Specialist II, Grade C109, Division of Human Resources/Licensure, Professional Licensure Standards Board, effective 11/12/13.

Section 1

Revolving Loans to School Districts

Pursuant to Arkansas Code Annotated (A. C. A.) § 6-20-802, school districts may borrow from the Revolving Loan Program for any of the following purposes:

- (1) Funding of its legally issued and outstanding postdated warrants;
- (2) Purchase of new or used school buses or refurbishing school buses;
- (3) Payment of premiums on insurance policies covering its school buildings, facilities, and equipment in instances where the insurance coverage extends three (3) years or longer;
- (4) Replacement of or payment of the district's pro rata part of the expense of employing professional appraisers as authorized by §§ 26-26-601 et seq. [repealed] or other laws providing for the appraisal or reappraisal and assessment of property for ad valorem tax purposes;
- (5) Making major repairs and constructing additions to existing school buildings and facilities;
- (6) Purchase of surplus buildings and equipment;
- (7) Purchase of school sites for and the cost of construction thereon of school buildings and facilities and the purchase of equipment for the buildings;
- (8) Purchase of its legally issued and outstanding commercial bonds at a discount provided that a substantial savings in gross interest charges can thus be effected;
- (9) Refunding of all or any part of its legally issued and outstanding debt, both funded and unfunded;
- (10) Purchase of equipment;
- (11) Payment of loans secured for settlement resulting from litigation against a school district;
- (12) Purchase of energy conservation measures as defined in § 6-20-401; and
- (13) (A)(i) Maintenance and operation of the school district in an amount equal to delinquent property taxes resulting from bankruptcies or receiverships of taxpayers.
(ii) Loans to school districts in an amount equal to insured facility loss or damage when the insurance claim is being litigated or arbitrated.
(B) For purposes of this subdivision (13), the loans become payable and due when the final settlement is made, and the loan limits prescribed by § 6-20-803 shall not apply.

The maximum amount a school district may borrow is \$500,000 (A. C. A. § 6-20-803). Revolving loans are limited to a term of ten (10) years (A. C. A. § 6-20-806).

Section 2 Second Lien Bonds

Arkansas Code Annotated (A. C. A.) § 6-20-1229 (b) states the following:

(b) All second-lien bonds issued by school districts shall have semi-annual interest payments with the first interest payment due within eight (8) months of the issuance of the second-lien bond. All second lien bonds shall be repaid on payment schedules that are either:

- (1) Equalized payments in which the annual payments are substantially equal in amount; or
- (2) Decelerated payments in which the annual payments decrease over the life of the schedule.

PROGRESS TOWARD MEETING PERFORMANCE OBJECTIVES APPROVED IN RENEWAL APPLICATION

Mathematics Objective

Achieve measurable growth for students as demonstrated by state testing and NWEA MAP testing

Explanation of Progress

Please see Sub Objective information below.

- a. Sub Objective - APCS has partially met this goal. Annually, Academics Plus will increase academic achievement in mathematics as indicated on the benchmark and end of course exams and demonstrate proficiency at the state Annual Measurable Objective (AMO).

Explanation of Progress

Attachment 2 shows the elementary school is classified as ACHIEVING in math and the high school is classified as NEEDS IMPROVEMENT in math. After reviewing the high school math scores, issues were identified and actions have been taken to improve future math scores.

Elementary: The elementary school is classified as Achieving and has met this goal.

High School: During the 2012-2013 school year staffing in the high school math department was an issue. This year APCS has two new high school math teachers who have a better understanding of how to meet student needs.

To help identify student needs early and appropriately, a high school dean of students has been hired. The dean's primary focus is discipline and early academic intervention/remediation. As part of his duties, the dean of students helps teachers examine NWEA and Benchmark data at the beginning of each semester to determine which students need remediation and intervention. Remediation and intervention is offered to students for one hour after the regular school day at least once a week for math. Once students are identified as needing extra help, the dean insures parents are made aware so they can be a part of the academic solution. The additional administrative help also allows the principal to concentrate her effort in working directly with teachers to improve classroom instruction.

Last year APCS began the implementation of Investigations Math in grades K-8. Teachers received training and the program is still being implemented. As teachers and students become more familiar with the program, research suggests that math scores will increase.

b. Sub Objective – APCS is working toward meeting this goal.

Students in grades K-10 will take the NWEA MAP assessment in mathematics and over 70% of students will meet their growth target each year.

Explanation of Progress

69% of the elementary students Kindergarten through 5th grade met their growth goal in math. 49% of high school students 6th through 10th grade met their growth goal in math. The total Kindergarten through 10th grade meeting their growth goal in literacy was 61%.

The goal we have set for NWEA testing is a lofty one. Schools throughout the state are recognized for growth awards when over 60% of the students meet their growth goals. APCS has used NWEA for the past two years and we are becoming more aware of how to use the data to better meet the needs of individual students.

NWEA and Benchmark data are examined at the beginning of each semester to determine which students need remediation and intervention. Remediation and intervention is offered to students for one hour after the regular school day at least once a week for math. Last year APCS began the implementation of Investigations Math in grades K-8 and Everyday Counts Calendar Math in grades K-5. Teachers received training in both programs and we saw great improvement in math scores at the elementary level this past year. The programs are still being implemented and as teachers and students become more familiar with the programs, research suggests that math scores will increase.

The high school dean of students assists with this goal also. His duties are described above in paragraph 1,a.

2. Literacy Objective

Achieve measurable growth for students as demonstrated by state testing and NWEA MAP testing

Explanation of Progress

Please see Sub Objective information below.

a. Sub Objective – APCS has met this goal.

Students at Academics Plus will document an increase in their writing capacity by examining annual results and demonstrating proficiency at the state average.

Explanation of Progress

Attachment 2 shows the elementary school is classified as ACHIEVING in literacy and the high school is also classified as ACHIEVING in literacy.

Attachment 3 shows that APCS met or exceeded the state average on 80% of the scored open response items on the 2013 benchmark exam. When adding the total number of average points on all of the open response items APCS scored 6.1 points higher than the state average. When comparing the 2011 APCS open response scores with the 2013 APCS scores there was improvement in 58% of the items. When adding the total number of average points on all of the open response items APCS scored 3.1 points higher in 2013 than in 2011. Attachment 3 shows that APCS exceeded the state average on the 2013 open response scores, and showed improvement when comparing APCS 2011 scores to APCS 2013 scores.

b. Sub Objective – APCS has met this goal.

Annually, Academics Plus will increase academic achievement in literacy as indicated on the benchmark and end of course exams and demonstrate proficiency at the state AMO.

Explanation of Progress

Attachment 2 shows the elementary school is classified as ACHIEVING in literacy and the high school is also classified as ACHIEVING in literacy.

Attachment 1 compares standardized test scores of 2011, 2012 and 2013. APCS showed an increase in literacy benchmark and end of course scores from 2011 to 2013 at every grade level tested.

c. Sub Objective – APCS is working toward meeting this goal.

Students in grades K-10 will take the NWEA MAP assessment in reading and language usage, and over 70% of students will meet their growth target each year.

Explanation of Progress

43% of the elementary students Kindergarten through 5th grade met their growth goal in literacy. 40% of the high school students 6th through 10th grade met their growth goal in literacy. The total Kindergarten through 10th grade students meeting their growth goal in literacy was 41%.

The goal we have set for NWEA testing is a lofty one. Schools throughout the state are recognized for growth awards when over 60% of the students meet their growth goals. APCS has used NWEA for the past two years and we are becoming more aware of how to use the data to better meet the needs of individual students. NWEA and Benchmark data are examined at the beginning of each semester to determine which students need remediation and intervention. Remediation and intervention is offered to students for one hour after the regular school day at least once a week for literacy. Even though the NWEA growth goals need improvement it is important to understand that APCS met the literacy AMO set by the state in both the elementary and the high school.

To help APCS meet this goal the following personnel have been added this year to the staff.

High School: The dean of students at the high school helps teachers identify students in need of intervention and remediation in literacy as well as math. Remediation and Intervention are offered to students for one hour at least once a week after school and are identified in the same as described above for math intervention and remediation.

Elementary School: This year through Title I funding APCS has hired an elementary literacy instructional facilitator. Her primary responsibility is to help teachers identify at-risk students, provide teachers with instructional strategies that help meet individual needs and model quality lessons for teachers in the classroom. The onsite staff development is proving to be key in improving APCS teacher quality.

3. College Preparation Objective

Achieve an increase in college preparation for the students at Academics Plus.

Explanation of Progress

Please see Sub Objectives below.

a. Sub Objective – APCS has met this goal.

Annually, students at Academics Plus will increase the rate of completion of concurrent credit and/or AP coursework by 2% per year by documenting credits earned at the college and taking the AP exam with a score of 3 or higher.

Explanation of Progress

111 college credit hours were earned during the 2011/2012 school year. 207 hours of college credit hours were earned by APCS students during the 2012/2013 school year. This is an increase of 86%.

b. Sub Objective – APCS has met this goal.

Academics Plus will increase the percentage of graduating seniors that are accepted into a post-secondary educational institution or enter the military by 2% per year and maintain a 95% acceptance rate thereafter.

Explanation of Progress

The 95% acceptance rate has been obtained during the past two consecutive years. The yearly totals are as follows.

2013 – 32 of 33 (97%) college acceptance rate or entered into the military.

2012 – 35 of 37 (95%) college acceptance rate or entered into the military.

2011 – 19 of 22 (86%) college acceptance rate or entered into the military.

| Free/Reduced Lunch | 58% | 66% |

PROGRESS TOWARD MEETING PERFORMANCE OBJECTIVES APPROVED IN RENEWAL APPLICATION

Goal 1:

Increase academic achievement in mathematics as indicated on the benchmark and end of course exams and demonstrate proficiency at the state level of Annual Measurable Objective (AMO).

Explanation of Progress

We did not achieve goal one successfully during the 2012-2013 school year. The percentage of all students scoring proficient or advanced across the district was 67.70. Within the elementary grades, K-5, the percentage of all students scoring proficient/advanced increased to 71.35 from 70.42 in 2011-2012. Students included in the TAGG within the elementary grades improved to 65.42 proficient/advanced from 62.77 the prior year. Within the middle school grades, the percentage of all students scoring proficient/advanced was 63.19. Students included in the TAGG within the middle school were 58.33 proficient/advanced. On the Algebra I EOC exam, 73 percent of students were proficient or advanced.

Goal 2:

Increase academic achievement in literacy as indicated on the benchmark exam and demonstrate proficiency at the state level of AMO.

Explanation of Progress

The district, elementary grades, and middle school grades were all designated as achieving based on 2012-2013 accountability reports. Within the elementary grades, the percentage of all students scoring proficient/advanced increased slightly to 73.56 from 73.11 in 2011-2012, while the TAGG within the elementary grades decreased slightly to 66.35 from 66.91 in 2011-2012. Within the middle school grades, the percentage of students scoring proficient/advanced was 71.67. Students included in TAGG in the middle school were 62.96 proficient/advanced.

Goal 3:

On average, students in the program for at least two years will meet or exceed the state and national average as measured by the Complete Battery Percentile Rank (PR) on the state-mandated norm-referenced assessment in literacy and mathematics.

Explanation of Progress

The reading percentile rank outcomes successfully meet this goal. While the grades represented do not include the same students across all grades reported, ARVA students appear to make incrementally greater improvement in reading with each passing year. When viewing language comparisons, this goal was not met in full. In grades 3 and 4, ARVA students neither exceeded the state nor the national average. At 5th grade, ARVA students began to perform nearly equal to, or slightly ahead of the average state outcome. Grades 7 and 8 demonstrate a more favorable outcome for ARVA students in this comparison. This goal was not met in mathematics. Both the state and ARVA students exceed the 50th percentile at each grade level. In grades 3, 4, 5, and 7, the state average exceeds the average performance of ARVA students by 1-3 percent. In grade 6, outcomes appear equal, and ARVA students demonstrated substantial improvement in grade 8.

| | ARVA Math Average NPR | State Math NPR of Mean SS | ARVA Reading Average NPR | State Reading NPR of Mean SS | ARVA Language Average NPR | State Language NPR of Mean SS |
|---------------------------|-----------------------------|---------------------------------|-----------------------------------|---------------------------------------|------------------------------------|--|
| 3 rd N = 43 | 53 | 55 | 57 | 51 | 43 | 46 |
| 4 th N = 42 | 59 | 61 | 62 | 53 | 47 | 55 |
| 5 th N = 44 | 52 | 55 | 57 | 47 | 51 | 50 |
| 6 th N = 41 | 55 | 55 | 63 | 46 | 49 | 49 |
| 7 th N = 34 | 53 | 54 | 69 | 50 | 53 | 47 |

| | | | | | | |
|---------------------------|----|----|----|----|----|----|
| 8 th N = 28 | 62 | 54 | 68 | 53 | 59 | 48 |
|---------------------------|----|----|----|----|----|----|

Percentile rank comparisons were not calculated on an equal-interval scale

10/1/2011 was used to begin the two year period

Goal 4:

Students will complete 90% of the curriculum lessons in literacy and mathematics.

Explanation of Progress

Arkansas Virtual Academy has successfully met this goal. Each year, we review percentages of curriculum completion with teachers as part of the annual review process. The average completion of mathematics curriculum was 95%, and average completion of literacy curriculum was 96% upon the conclusion of the 2012-2013 school year.

Goal 5:

Students will demonstrate mastery at 80% or above in every completed lesson and unit objective as measured by assessments within the Online School (OLS).

Explanation of Progress

Arkansas Virtual Academy has successfully met this goal. Mastery of lessons with a score of 80% or greater on assessments is a requirement to be advanced to the next lesson. Additional lessons and activities are provided after a student has demonstrated mastery at 80% or greater.

**BENTON COUNTY SCHOOL OF THE ARTS
YEAR 2 REVIEW – SEPTEMBER 2013**

PROGRESS TOWARD MEETING PERFORMANCE OBJECTIVES APPROVED IN RENEWAL APPLICATION

K-8 students will achieve annual measurement objectives as defined by the state.

Explanation of Progress:

- 2011-2012 Achieving Literacy/Achieving Math/Achieving School
- 2012-2013 Needs Improvement Literacy/Achieving Math/Needs Improvement School

- 2011-2012 In twelve (12) tested areas (3-8 Literacy and Math), we outperformed the State average in nine (9) areas. We did not outperform the State in 5th Math, 6th Literacy, and 7th Literacy
 We scored 100% Proficient in 8th grade Algebra I.
- 2012-2013 In twelve (12) tested areas (3-8 Literacy and Math) we outperformed the State average in all twelve (12) areas.
 We scored 100% Proficient in 8th grade Algebra I.

- 2011-2012 ESEA AMO Performance – Literacy: Exceeded Combined (Grades 3-8) 88.70% to expected 86.83%. Did not exceed TAGG (Grades 3-8) 76.3% to expected 77.87%.
 ESEA AMO Growth – Literacy: Exceeded Combined (Grades 3-8) 91.35% to expected 86.75%. Exceeded TAGG (Grades 3-8) 82.30% to expected 77.08%.
- 2011-2012 ESEA AMO Performance – Math: Exceeded Combined (Grades 3-8) 84.99%

to expected 75.63%. Exceeded TAGG (Grades 3-8) 75.71% to expected 68.18%.

ESEA AMO Growth – Math: Exceeded Combined (Grades 3-8) 76.47% to expected 68.98%. Exceeded TAGG (Grades 3-8) 68.14% to expected 60.14%.

2012-2013 ESEA AMO Performance – Literacy: Exceeded Combined (Grades 3-8) 88.34% to expected 88.03%. Did not exceed TAGG (Grades 3-8) 76.30% to expected 79.88%.

ESEA AMO Growth – Literacy: Did not exceed Combined (Grades 3-8) 87.31% to expected 87.96%. Did not exceed TAGG (Grades 3-8) 77.57% to expected 79.17%.

ESEA AMO Performance – Math: Exceeded Combined (Grades 3-8) 83.43% to expected 77.84%. Exceeded TAGG (Grades 3-8) 73.94% to expected 71.08%.

ESEA AMO Growth – Math: Did not exceed Combined (Grades 3-8) 70.52% to expected 71.80%. Did not exceed TAGG (Grades 3-8) 59.81% to expected 63.77%.

We implemented Measures of Academic Progress (MAP) formative assessments during the 2012-2013 school year to determine the ongoing progress of students in grades 2-8 in Literacy and Math. During the current 2013-2014 school year we are using MAP results, Benchmark results, and teacher recommendations to “double block” middle school students (grades 5-8) in Literacy and Math. Students who are double blocked are students who scored Below Basic/Basic on the 2012-2013 Benchmark assessment and/or demonstrate below grade level functioning on the MAP assessments. We are also providing after school tutoring for students who are considered at risk of not scoring Proficient/Advanced as a result of the above mentioned assessments. Students in grades K-1 will begin MAP assessment in 2013-2014 in order to determine the areas they are in need of academic assistance. These identified students will receive additional instructional tutoring/remediation. All students in grades K-8 who qualify for Title I Target Assistance services, as well as our identified ELL students in need of academic assistance, will receive services in our Title I/ELL Learning Lab. We provide all students in grades K-8 academic assistance through an online tutorial program called Study Island. In addition, teachers in grades 3-4 are receiving training in Cognitive Guided Instruction (CGI) and all 5-8 math teachers are receiving training in Extending Mathematics training. All core curriculum teachers in grades 5-8 received Pre-AP training over the summer 2013 in order to enhance the rigor of their courses for the 2013-2014 school year. Per teacher request, we transferred a classroom teacher to serve as our Special Education (grades K-8) teacher for the 2013-2014 school year. We had two different Special Education teachers in the 2012-2013 school year who struggled to meet the needs of our Special Education students. We are confident the teacher we have in place this year will provide the much needed specialized instructional services. We are members of the Benton County Special Education Consortium that provides us SEA and consulting teacher assistance in the area of Special Education academic programming.

Students in Algebra I and geometry will score at or above state proficiency levels in annual mathematics assessments as established by the Arkansas State Department of Education.

Explanation of Progress:

| | |
|-----------|--|
| 2011-2012 | Achieving Literacy/Needs Improvement Math/Needs Improvement Graduation Rate/Needs Improvement School |
| 2012-2013 | Achieving Literacy/Needs Improvement Math/Needs Improvement Graduation Rate/Needs Improvement School |
| 2011-2012 | Algebra I: We outperformed the State average (92% to 79%). Geometry: We outperformed the State average (89% to 75%). |
| 2012-2013 | Algebra I: We did not outperform the State average (74% to 77%). Geometry: We outperformed the State average (90% to 72%). |
| 2011-2012 | ESEA AMO Performance – Math: Did not exceed Combined (Algebra I/Geometry) 90.63% to expected 92.44%. Exceeded TAGG (Algebra I/Geometry) 88.78% to expected 88.54%. |
| 2012-2013 | ESEA AMO Performance – Math: Did not exceed Combined (Algebra I/Geometry) 81.63% to expected 93.13%. Did not exceed TAGG (Algebra I/Geometry) 82.93% to expected 89.58%. |

During the 2012-2013 school year the high school Algebra I teacher died unexpectedly in February. This was a shock to our students, staff, and school community. We were able to hire a certified math teacher to complete the school year. However, we believe the dramatic change in teachers and the emotional loss of the teacher had an adverse impact on our 9th grade Algebra I students. For the 2013-2014 school year we are double blocking students in Algebra I and Geometry who are demonstrating deficit areas. We began implementing the Measures of Academic Progress (MAP) assessments in the 2012-2013 school year so that we can identify those students who are experiencing academic difficulty in math concepts. In addition, incoming ninth grade students' Benchmark results from their eighth grade school year are examined to identify strengths and weaknesses. Before and after school tutoring will be available to students who need extra tutoring and assistance. The online Study Island tutoring program will be used to assist students with instructional tutoring. Our ESEA math scores are so high, and our AMO trajectory expectations are so high, that making yearly increases will be a challenge, especially when there is such an emotional impact as the sudden death of a teacher.

Students will score at or above state proficiency levels in annual literacy assessments as established by the Arkansas State Department of Education.

Explanation of Progress:

| | |
|-----------|--|
| 2011-2012 | Literacy: We outperformed the State average (82% to 68%). |
| 2011-2013 | Literacy: We outperformed the State average (91% to 70%). |
| 2011-2012 | ESEA AMO Performance – Literacy: Exceeded Combined 86.05% to expected 75.22%. Exceeded TAGG 73.33% to expected 54.17%. |
| 2012-2013 | ESEA AMO Performance – Literacy: Exceeded Combined 91.30% to expected 77.48%. Exceeded TAGG 80.00% to expected 58.33%. |

Students will score at or above state proficiency levels in biology assessments as established by the Arkansas State Department of Education.

Explanation of Progress:

2011-2012 Biology: We outperformed the State average 80% to 68%.

2012-2013 Biology: We outperformed the State average 81% to 70%. We had the second highest Biology scores in the state.

Alpena School District

Mrs. Andrea Martin was hired as Superintendent for the 2013-14 school year.

District Actions:

The District has included the following objectives in their Fiscal Distress Improvement Plan:

2012-13

- Reduced 3.5 licensed FTE through RIF
- Reduced .5 classified FTE through RIF
- Reduced summer maintenance costs
- Monitored transportation supply costs
- Monitored maintenance supply costs

Additional Actions Not Included In The Fiscal Distress Plan:

- Reduce textbook expenditures
- Reduce 6 FTE through attrition and re-alignment
- Utilize SubTeach USA to eliminate district benefit and payroll processing cost
- Implement CitySmart Entergy rebate savings program
- Utilize the tax rebate program on qualifying purchases
- Realign expenditures to utilize categorical and federal funds efficiently

Alpena School District
LEA # 0501
Boone County

Comments:

The District was classified in Fiscal Distress on May 14, 2012. The District began their second full year of fiscal distress on July 1, 2013.

Superintendent James Trammell retired effective June 30, 2013.

Mrs. Andrea Martin was hired as Superintendent for the 2013-14 school year.

Alpena, Arkansas 72611

Dear Mrs. Martin:

This letter is to certify that the Alpena School District has completed all activities and strategies as outlined in the District's Fiscal Distress Improvement Plan. The District has also complied with all department recommendations and requirements for removal from Fiscal Distress. The District may now petition the State Board for removal from Fiscal Distress status. The petition should be sent to Ms. Hazel Burnett at the address provided below. The petition will be presented to the State Board at the December 9, 2013 meeting. Arkansas Department of Education will recommend the Alpena School District be removed from Fiscal Distress effective December 9, 2013. Please plan to attend this meeting and be prepared to answer any questions the State Board may have concerning your District and its programs.

We congratulate the Alpena School District and encourage continued diligence to sustain this improvement.

Sincerely,

Hazel Burnett, ADE Coordinator

November 5, 2013

Dr. Tom Kimbrell, Commissioner
Arkansas Department of Education
Four Capitol Mall, Room 304-A
Little Rock, AR 72201

Dear Dr. Kimbrell and the Arkansas State Board of Education,

On behalf of the Alpena School District students, staff, community and its respective Board of Education, I submit this information for your review and consideration and respectfully request that the Alpena School District be removed from Fiscal Distress status.

Upon arrival in the district, I found that the following items were completed in efforts to reach fiscal goals that were agreed upon by the Department and the District at the time of designation:

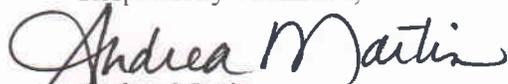

- Reduced operating costs across the board;
- Reduced salary expenditures through attrition, eliminated longevity incentives, reduction in force, elimination of non-required programs and above and beyond standards staff and offerings, re-classification of expenditures to other funding sources and replaced outgoing staff with staff members that were lower on the salary schedules;
- Increased financial oversight.

Since July 1, 2013 under new administrative oversight, our team has made the following additional efforts to address our goals and proudly report the following objectives have been met:

- Reduced previous textbook expenditures by \$80,000;
- By attrition and re-alignment of roles have reduced 6.0 FTE's;
- Recoded expenditures as allowable to other sources;
- Increased FY13 ending balance by \$240,000;
- Prepared a FY14 budget this is sustainable, with a projected ending balance of \$950,000
- Utilize SubTeachUSA to eliminate district benefit and payroll processing cost;
- Implement CitySmart Entergy rebate savings program;
- Track and submit tax rebate program on qualifying purchases;
- Ongoing analysis of maintenance, food service and supply costs;
- Ongoing strict financial oversight by all staff.

We are extremely grateful for the guidance and support of the Fiscal Distress Unit as well as the Office of Intensive Support and we are appreciative of the ongoing resources available for sustainability. We acknowledge that without these supports we would not be at the point we are today with this request.

Respectfully Submitted,

Andrea Martin
Superintendent

District Actions:

The District has included the following objectives in their Fiscal Distress Improvement Plan:

2012-13

- Reduced 5 licensed employees through RIF and attrition
- Reduced 7 classified employees through RIF and attrition
- Eliminated vision insurance benefit
- Eliminated long term disability benefit
- Reduced extended day contracts for personnel
- Reduced athletic expenditures

Additional Actions Not Included in Plan:

- Realign expenditures to utilize categorical and federal funds efficiently
- Monitor purchase requests
- Monitor non-instructional transportation costs

Brinkley School District
LEA # 4801
Monroe County

Comments:

The District was classified in Fiscal Distress on April 9, 2012. The District began their second full year of fiscal distress on July 1, 2013.

Brinkley, Arkansas 72021

Dear Dr. Tucker:

This letter is to certify that the Brinkley School District has completed all activities and strategies as outlined in the District's Fiscal Distress Improvement Plan. The District has also complied with all department recommendations and requirements for removal from Fiscal Distress. The District may now petition the State Board for removal from Fiscal Distress status. The petition should be sent to Ms. Hazel Burnett at the address provided below. The petition will be presented to the State Board at the December 9, 2013 meeting. Arkansas Department of Education will recommend the Brinkley School District be removed from Fiscal Distress effective December 9, 2013. Please plan to attend this meeting and be prepared to answer any questions the State Board may have concerning your District and its programs.

We congratulate the Brinkley School District and encourage continued diligence to sustain this improvement.

Sincerely,

A handwritten signature in cursive script that reads "Hazel Burnett".

Dr. Tom W. Kimbrell, Commissioner
Arkansas Department of Education
4 State Capitol Mall, Room 304-A
Little Rock, AR 72201-1019

Dr. Kimbrell and Arkansas State Board of Education:

On behalf of the Board of Directors, faculty, staff, and administration of the Brinkley School District, I submit this letter to request the removal of the Brinkley School District from the "Fiscal Distress List" of the Arkansas Department of Education.

I want to thank you for your leadership in education as Commissioner and thank Ms. Hazel Burnett and her staff (Scott McRae, Andrea Jobe, and Mindy Looney) for their help and leadership in guiding us through this process and helping us to chart the course for consistent financial stability for the District.

The Board of Directors hired me as Superintendent of the Brinkley School in July of 2011. Less than thirty (30) days on the job, I received a call from Ms. Burnett explaining that the District was in jeopardy of being placed in fiscal distress. The District was placed on the Fiscal Distress List in March of 2012. Because of that designation, the following are actions the District has taken to address this situation.

- Reduction in athletic spending
- Reduction in certified and classified by attrition and reduction in force policy
- Discontinued premiums for vision insurance
- Discontinued premiums for long term disability insurance
- Reduced days for extended contract personnel
- Review purchases in terms of needs as opposed to wants
- Combined instructional support programs
- Increased legal balance for last two years
- Projected increase in ending balance for 2013/2014 school year

Again, thank you and the Arkansas Department of Education personnel for the level of support provided to the District during this process and your consideration for removing the Brinkley School District from the Fiscal Distress List.

Respectfully,

Arthur Tucker

Arthur Tucker, Ed. D.
Superintendent of Schools
Brinkley Public Schools

Total Debt includes Bonded and Non-bonded filed with ADE.

Data Source: Annual Statistical Reports (ASR) and State Aid Notice for school district.

District Actions:

The District has included the following objectives in their Fiscal Distress Improvement Plan:

2012-13

- Reduced 1 licensed employee through RIF
- Reduced 1 classified employee through attrition
- Reduced extended contract days for 5 licensed employees
- Established a \$10 per day charge for the district sponsored Pre-K program
- Eliminated the EAST program
- Established a \$2 per day charge for before and after school care program
- Reduced substitute expense by utilizing existing staff
- Reduced transportation expense through reduction of field trips

2013-14

- Reduce 2 licensed employees through attrition
- Reduce 1 classified employee through attrition
- Discontinue the before and after school care program
- Enroll non-ABC Pre-K in state Child Care and Development Fund (CCDF) grant program

Hartford School District
LEA # 6604
Sebastian County

Comments:

The District was classified in Fiscal Distress on April 9, 2012. The District began their second full year of fiscal distress July 1, 2013.

Dear Mrs. Ragsdale:

This letter is to certify that the Hartford School District has completed all activities and strategies as outlined in the District's Fiscal Distress Improvement Plan. The District has also complied with all department recommendations and requirements for removal from Fiscal Distress. The District may now petition the State Board for removal from Fiscal Distress status. The petition should be sent to Ms. Hazel Burnett at the address provided below. The petition will be presented to the State Board at the December 9, 2013 meeting. Arkansas Department of Education will recommend the Hartford School District be removed from Fiscal Distress effective December 9, 2013. Please plan to attend this meeting and be prepared to answer any questions the State Board may have concerning your District and its programs.

We congratulate the Hartford School District and encourage continued diligence to sustain this improvement.

Sincerely,

Hazel Burnett, ADE Coordinator

RECEIVED
NOV 07 2013
FINANCIAL ACCOUNTABILITY
DEPARTMENT

Dear Dr. Kimbrell and the Arkansas State Board of Education:

On behalf of the Hartford Public School District, please accept our request to be removed from the "Fiscal Distress" status.

Many changes have taken place since the initial placement on Fiscal Distress. Most were planned through the Fiscal Distress plan. Some were not. Through it all the district has maintained its focus on improvement. All of the objectives on the Fiscal Distress plan have been met, among them are:

- Increasing the percentage reported for Free and Reduced lunches so the amount paid for Provision 2 would be decreased and state funding would increase.
- Pay for Provision 2 out of NSL funds instead of district operating funds.
- Reduction in staff due to reduction in force and resignation.
- Participate in the Child Care Development Fund to pay for additional preschool.

The district still has challenges to meet such as enrollment. I am confident, though, that if the remaining challenges are met with the fervor the fiscal distress challenge was met, then they too will be overcome.

I would like to thank Hazel Burnett and her staff for the support and assistance. They have worked hard to guarantee that the School Board and additional key players have been trained and made knowledgeable of the workings of district finance reporting.

I trust that you and the members of the State Board will act favorably upon this request.

Sincerely,

Teresa Ragsdale
Superintendent

Total Debt includes Bonded and Non-bonded filed with ADE.

Data Source: Annual Statistical Reports (ASR) and State Aid Notice for school district.

District Actions:

The District has included the following objectives in their Fiscal Distress Improvement Plan:

2012-13

- Reduced 8 licensed employees through RIF
- Eliminated 1 bus route
- Monitored all purchase orders
- Monitored all energy consumption
- Reduced travel expenditures

Additional actions not included in plan:

- Reduce 7 classified employees through RIF
- Reduce 1.5 licensed employees through attrition

Hermitage School District
LEA #0601
Bradley County

Comments:

The District was classified in Fiscal Distress on December 12, 2011. The District began their second full year of fiscal distress on July 1, 2013.

District had a prior classification with Fiscal Distress program:

- Classified - April 21, 2008
- Removed - October 12, 2009

On October 24, 2011, the District obtained a \$300,000 cash flow loan from First State Bank of Warren to cover payroll obligations. The loan was repaid on November 15, 2011.

On July 12, 2012, the District obtained a \$350,075 cash flow loan from the First State Bank of Warren. The loan was repaid on November 19, 2012.

Mr. Richard Rankin, Superintendent
Hermitage School District
P.O. Box 38
Hermitage, Arkansas 71647

Dear Mr. Rankin:

This letter is to certify that the Hermitage School District has completed all activities and strategies as outlined in the District's Fiscal Distress Improvement Plan. The District has also complied with all department recommendations and requirements for removal from Fiscal Distress. The District may now petition the State Board for removal from Fiscal Distress status. The petition should be sent to Ms. Hazel Burnett at the address provided below. The petition will be presented to the State Board at the December 9, 2013 meeting. Arkansas Department of Education will recommend the Hermitage School District be removed from Fiscal Distress effective December 9, 2013. Please plan to attend this meeting and be prepared to answer any questions the State Board may have concerning your District and its programs.

We congratulate the Hermitage School District and encourage continued diligence to sustain this improvement.

Sincerely,

Hazel Burnett, ADE Coordinator

Dr. Tom Kimbrell, Commissioner
Arkansas Department of Education
Four Capitol Mall, Room 304-A
Little Rock, AR 72201

Dear Dr. Kimbrell and the Arkansas State Board of Education:

The Hermitage School District and its respective board request that the Hermitage School District be removed from the Arkansas Department of Education's Fiscal Distress List. The District has completed all the activities and strategies as outlined in the District's Fiscal Distress Improvement Plan.

The district has worked diligently to resolve the financial and staffing issues, which prompted the fiscal distress designation. Our course of action to accomplish this includes (but is not limited to):

- Refunding bonds
- Reduced and reassigned staff to reduce salary expenditures through attrition, retirement and reduction in force
- More oversight before spending school funds
- Maintained consistent purchase order system
- Increased ending balances for the 2012-13 school year
- Have a projected balance increase for 2013-14
- Improved the use of categorical funds

The district has had the support of the staff, students and community to realize the main goal of having the school district succeed in its efforts to be removed from fiscal distress. We were able to receive District Accreditation Quality Achievement status from AdvancED during our time in fiscal distress. We have been able to continue to meet the needs of the students during this period of time of fiscal distress.

I would like to thank the Department of Education for their support in this endeavor. I would like to personally thank Hazel Burnett and her staff for the guidance and communication they provided.

Sincerely,

Richard Rankin
Superintendent
Hermitage School District

K-8
Foreign Language Experiences

Foreign Languages
Curriculum Framework

Revised 2013

K-8 Foreign Language Experiences Curriculum Framework

The Student Learning Expectations (SLEs) within this framework document are for all K-8 students who are not enrolled in a foreign language class. These SLEs may be incorporated into any course, regardless of the teacher's training or lack of training in a foreign language.

| Strand | Content Standard |
|------------------------------------|---|
| Cultures | |
| 1. Cultural Products and Practices | Students will discuss products and practices from diverse cultures. |
| Connections | |
| 2. Cross-Cultural Connections | Students will develop connections to other languages and cultures. |

Notes:

1. Each grade level continues to address earlier Student Learning Expectations as needed.
2. Words that appear in italics within this document are defined in the glossary.
3. The examples given (e.g.,) are suggestions to guide the instructor.
4. Common Core State Standards (CCSS) alignment key, R.CCR.1 = Reading.College and Career Ready Anchor Standard.1

Strand: Cultures

Content Standard 1: Students will discuss products and practices from diverse cultures.

| THE GOAL FOR EACH STUDENT IS PROFICIENCY IN ALL REQUIREMENTS AT CURRENT AND PREVIOUS GRADES. | | | | | | |

Glossary for K-8 Foreign Language Experiences Curriculum Framework

| | |
|----------------|--|
| Borrowed word | A word or phrase adopted from one language into another with no significant change in spelling or pronunciation (e.g., et cetera, rodeo, kindergarten, plateau, algebra, buffet) |
| Cognate | A word from different languages that sounds or looks similar and has a similar meaning, typically evolved from a common origin (e.g., fabuloso, liberté, Haus, сестра) |
| Cultural group | A group of individuals related by culture |
| Custom | A practice common to a particular culture |
| Multicultural | Of, or relating to, many cultures |
| Practice | A pattern of behavior accepted by a society; knowledge of what to do, when, and where |
| Product | A concrete (tangible) or abstract (intangible) cultural element of a society |
| Tradition | A belief or custom transmitted through multiple generations |

K-8 Foreign Languages Acquisition

Foreign Languages Curriculum Framework

Revised 2013

K-8 Foreign Languages Acquisition

K-8 Foreign Languages Acquisition is designed for schools that offer foreign language education classes taught by a licensed foreign language teacher.

This framework document is based on the 1999 edition of *Standards for Foreign Language Learning in the 21st Century* developed by the American Council on the Teaching of Foreign Languages. Because communicative proficiency in a foreign language is not connected to grade level, this framework uses beginning, developing, and expanding to show increasing proficiency for all three standards within the Communication Strand, instead of establishing student learning expectations by grade level, as in the Cultures, Connections, Comparisons, and Communities strands.

This framework does not apply to programs offering high school credit at grade levels 5-8; such programs shall refer to the appropriate high school Foreign Languages Curriculum Framework for high school foreign language courses and must be approved by the Arkansas Department of Education.

K-8 Foreign Languages Acquisition

| Strand | Content Standard |
|----------------------------------|---|
| Communication | |
| 1. Interaction | Students will interact with others verbally and/or in writing in the target language. (interpersonal) |
| 2. Listening Reading | Students will process oral and/or written messages in the target language. (interpretive) |
| 3. Speaking Writing | Students will present to an audience of listeners and/or readers in the target language. (presentational) |
| Cultures | |
| 4. Practices and Perspectives | Students will discuss practices and perspectives from diverse cultures. |
| 5. Products and Perspectives | Students will discuss products and perspectives from diverse cultures. |
| Connections | |
| 6. Content Area Connections | Students will reinforce understanding of other content areas through the use of a target language. |
| 7. Cross-cultural Connections | Students will acquire information and recognize viewpoints only available through the target language and cultures. |
| Comparisons | |
| 8. Linguistic Comparisons | Students will compare the target language with the students' primary language. |
| 9. Cultural Comparisons | Students will compare the target culture(s) with the students' native culture. |
| Communities | |
| 10. Classroom Extensions | Students will examine ways to use the target language personally and professionally. |

Notes:

1. The three standards within the communication strand are designated as interpretive, interpersonal, or presentational. These classifications refer to the three modes of communication recognized in the 2012 edition of the "Performance Descriptors for Language Learners" promulgated by the American Council on the Teaching of Foreign Languages (ACTFL).
2. Each grade level continues to address earlier Student Learner Expectations as needed.
3. Words that appear in italics within this document are defined in the glossary.
4. All items in a bulleted list are required to be taught.
5. The examples given (e.g.,) are suggestions to guide the instructor.
6. Common Core State Standards (CCSS) alignment key, R.CCR.1 = Reading.College and Career Ready Anchor Standard.1

Glossary for K-8 Foreign Languages Acquisition

| | |
|----------------------|--|
| Borrowed word | A word or phrase adopted from one language into another with no significant change in spelling or pronunciation (e.g., et cetera, rodeo, kindergarten, plateau, algebra, buffet) |
| Cognate | A word from different languages that sounds or looks similar and has a similar meaning, typically evolved from a common origin (e.g., fabuloso, liberté, Haus, сестра) |
| E-pal | Similar to pen pal except that communication takes place using electronic media |
| Idiomatic expression | An expression which functions as a single unit and whose meaning cannot be translated word for word; a group of words that means something other than the literal translation |
| Learned phrase | A phrase that has been previously taught and repeatedly practiced |
| Perspective | An attitude or worldview associated with a particular culture or cultures; a traditional idea, attitude, meaning, or value of members of that society |
| Practice | A pattern of behavior accepted by a society; knowledge of what to do, when, and where |
| Product | A concrete (tangible) or abstract (intangible) cultural element of a society |
| Register | A manner of addressing another according to the title, relationship, or social situation |

Teacher Licensure: Please refer to the Course Code Management System (<https://adedata.arkansas.gov/ccms/>) for the most current licensure codes.

Grades: 9-12

Prerequisites: There is no prerequisite for Modern Languages I. The student entering Modern Languages II, III, or IV must successfully complete the preceding year of study of the same language.

Modern Languages I-IV

Modern Languages I, II, III, and IV provide basic instruction in pronunciation, aural comprehension, vocabulary, and grammar, and eventually lead to increased communicative and cultural proficiency in the target language(s). Target language cultures, traditions, and current events are introduced on the appropriate level through selected readings, audio/visual recordings, and other authentic materials. Listening, speaking, writing, role-playing, and group activities are designed to instruct, reinforce, and connect language skills. Modern Languages I, II, III, and IV include applications, problem solving, higher-order thinking skills, and performance-based and project-based assessments. Arkansas Department of Education approval for the courses listed above is not required.

Modern Languages I-IV

| Strand | Content Standard |
|---------------|---|
| Communication | |
| | 1. Students will interpret aural, written, and visual messages in the target language. (interpretive) |
| | 2. Students will interact by speaking and writing in the target language. (interpersonal) |
| | 3. Students will present information in the target language. (presentational) |
| Culture | |
| | 4. Students will investigate the practices, products, and perspectives of the target culture(s). |
| Connections | |
| | 5. Students will apply the target language to reinforce and expand knowledge of other subject areas. |
| | 6. Students will recognize the common and unique views and contributions of the target language and its cultures. |
| Comparisons | |
| | 7. Students will explain the similarities and differences between the target language and the students' primary language. |
| | 8. Students will explain the similarities and differences between the target culture(s) and the students' native culture. |
| Communities | |
| | 9. Students will examine ways to use the target language personally and professionally. |

Notes:

1. The three standards within the communication strand are designated as interpretive, interpersonal, or presentational. These classifications refer to the three modes of communication recognized in the 2012 edition of the "Performance Descriptors for Language Learners" promulgated by the American Council on the Teaching of Foreign Languages (ACTFL).
2. Words that appear in italics within this document are defined in the glossary.
3. All items in a bulleted list are required to be taught.
4. The examples given (e.g.,) are suggestions to guide the instructor.
5. Common Core State Standards (CCSS) alignment key, R.CCR.1 = Reading.College and Career Ready Anchor Standard.1

Strand: Communication

Glossary for Modern Languages I-IV

| | |
|-------------------------|---|
| Adapted text | Print, non-print, or digital material, source, or medium in the target language, not necessarily from a country or culture where the target language is spoken; may include translations or materials modified, created, or simplified to meet a specific educational purpose |
| Aspect | In Russian, a form of a verb occurring only in the past and future tenses to indicate the status of the action's completeness, duration, or recurrence; Russian uses a perfective aspect to indicate completed actions and an imperfective aspect to denote actions that are incomplete, recurring, or of indefinite duration |
| Authentic | Original; without modification; having an undisputed, genuine origin; designed by native speakers for native speakers; authentic materials, sources, or texts are those that have been developed specifically for native speakers, including print, audio and visual materials; representative of the real world |
| Blog | An online journal; literally, a web log |
| Borrowing | A word or phrase adopted from one language into another with no significant change in spelling or pronunciation |
| Case | A grammatical category whose value reflects the grammatical function performed by a noun or pronoun in a phrase, clause, or sentence |
| Circumlocution | A communicative strategy that is used to describe or talk around a concept or action when the exact word is not known (e.g., "the thing that stops a car" for "brakes") |
| Cognate | A word from different languages that sounds or looks similar and has a similar meaning, typically evolved from a common origin (e.g., <i>fabuloso</i> , <i>liberté</i> , <i>Haus</i> , <i>сестра</i>) |
| Colloquialism | A word or phrase unique to a geographic region, culture, or subculture |
| Connected discourse | Sustained formal discussion of a subject in speech or writing |
| Convention | A symbol, theme, motif, or archetype |
| Cultural convention | A custom or practice applied by a specific culture |
| Cyrillic | Alphabet used by several East European and Central Asian languages, including Russian |
| Declension | In Latin, the division of nouns into groups based on genitive singular form; in Russian, the pattern of inflections of nouns and adjectives to indicate grammatical number, gender, and case |
| Derivative | A word formed from existing words, bases, or roots; in Latin, a word or family of words which have the same Latin base (e.g., <i>deduce</i> = <i>de</i> + <i>ducere</i> ; <i>conduct</i> = <i>cum</i> + <i>ducere</i> , <i>induct</i> = <i>in</i> + <i>ducere</i>) |
| Dialect | Distinct differences of a language which are characteristic of a particular group of the language's speakers |
| E-pal | Similar to pen pal except that communication takes place using electronic media |
| False cognate | A word that looks and sounds similar to a word in more than one language but does not have the same meaning |
| Fluid word sequence | A feature of sentence structure that allows word sequence to be changed freely to achieve differences in emphasis |
| Global competency skill | Knowledge of languages and cultures, which gives one the ability to engage successfully with global affairs, communities, and events |
| Idiomatic expression | An expression which functions as a single unit and whose meaning cannot be translated word for word; a group of words that means something other than the literal translation |

Glossary for Modern Languages I-IV

| | |
|--------------------------|--|
| Infix | An affix inserted inside a word stem (an existing word); it contrasts with a prefix or suffix |
| Inflection | The ways words change in context (e.g., declension, conjugation) |
| Intangible product | An abstract cultural element of a society (e.g., legal system, education system, religion, music) |
| Intonation | The use of vocal inflections or pitch to contribute to meaning; the pattern or melody of pitch that changes in connected speech, especially the pitch pattern which distinguishes kinds of sentences or speakers of different languages |
| Mood | A characteristic of a verb that refers to how the writer or speaker presents ideas (indicative, imperative, subjunctive) |
| Nuance | A subtle difference in meaning |
| Orthography | The correct use of writing, symbols, and spelling |
| Perspective | An attitude or worldview associated with a particular culture or cultures; a traditional idea, attitude, meaning, or value of members of that society |
| Pitch | The degree to which a sound has a high or low quality |
| Place name | A proper noun such as the name of a city |
| Podcast | An auditory or visual electronic file available via the Internet |
| Practice | A pattern of behavior accepted by a society; knowledge of what to do, when, and where |
| Product | A concrete (tangible) or abstract (intangible) cultural element of a society |
| Proverb | A short saying expressing a well-known idea or truth (e.g., a bird in the hand is worth two in the bush, all that glitters is not gold) |
| Radical | In Mandarin Chinese, the semantic component of a character |
| Register | A manner of addressing another according to the title, relationship, or social situation |
| Social convention | A custom or practice widely observed within a group |
| Syntax | The order of words required to make grammatically correct sentences; in Russian, the organization of words to create coherent, properly structured sentences |
| Tangible product | A concrete cultural element of a society (e.g., literature, foods, tools, dwellings, clothing) |
| Target culture(s) | Any culture or cultures found in countries or regions where the target language is spoken, including subcultures that don't speak the target language |
| Tense | A characteristic of a verb that indicates the time of the action or state of being that a verb expresses |
| Tone | A pitch used to distinguish words |
| Tones (Mandarin Chinese) | The relative heights of pitch with which a syllable or word is pronounced to distinguish meaning; every syllable has a tone, and the same syllable pronounced with different tones can have different meanings; the four basic tones in Mandarin are high level (first tone), rising (second tone), falling-rising (third tone), and falling (fourth tone) |
| Wiki | A collaborative web site for use in knowledge management, which may be edited by users |

Appendix 1: Mandarin Chinese – Exceptions

This appendix contains exceptions that apply to the teaching of Mandarin Chinese within the Modern Languages I-IV Frameworks. These exceptions apply to the level of study and the student learning expectation (SLE) indicated.

| SLE | Exception |
|---------------|--|
| CMC.1.MLI.3 | <i>Cognates</i> are not applicable to Chinese |
| CMC.1.MLI.4 | This SLE is not applicable for Level I Chinese (higher proficiency level is required); instead, identify the message from a variety of simple oral, visual, and textual sources (e.g., signs, posters, stories, dialogues) |
| CMC.1.MLI.8 | In the list of examples, <i>radicals</i> should be used instead of <i>cognates</i> (e.g., <i>radicals</i> , contextual clues, visual cues, inferences, predictions) |
| CMC.1.MLI.9 | This SLE is not applicable for Level I Chinese (higher proficiency level is required) |
| CMC.1.MLI.11 | Examples include lunar calendar, posters, and songs |
| CMC.2.MLI.1 | <i>Tenses</i> are not applicable in Chinese |
| CMC.3.MLI.2 | This SLE is not applicable for Level I Chinese (higher proficiency level is required) |
| CMP.7.MLI.1 | <i>Cognates</i> or false <i>cognates</i> are not applicable in Chinese |
| CMP.7.MLI.2 | Add “long time no see” as an example |
| CMN.9.MLI.1 | This SLE is not applicable for Level I Chinese (higher proficiency level is required) |
| | |
| CMC.1.MLII.3 | <i>Cognates</i> are not applicable to Chinese |
| CMC.1.MLII.6 | Idiomatic expressions are introduced based on the frequency of use and difficulty level |
| CMC.1.MLII.7 | This SLE is not applicable to Level II Chinese |
| CMC.1.MLII.9 | This SLE is not applicable to Level II Chinese (higher proficiency level is required) |
| CMC.1.MLII.11 | This SLE is not applicable to Level II Chinese (higher proficiency level is required) |
| CMC.1.MLII.12 | This SLE is not applicable to Level II Chinese (higher proficiency level is required) |
| CMC.2.MLII.1 | <i>Tenses</i> are not applicable in Chinese |
| CMC.2.MLII.3 | Omit “unfamiliar topics” |
| CMC.2.MLII.8 | Omit “opinions” and “viewpoints” (higher proficiency level is required) |
| CMC.3.MLII.1 | Add “in rehearsed settings” |
| CMC.3.MLII.3 | Delete “impromptu” |
| CMC.3.MLII.4 | Replace “about a variety of” with “on limited” |
| CNN.5.MLII.1 | Add “abacus” to the list of examples |
| CNN.5.MLII.3 | Add “philosophy, history, current affairs, and government” to the list of examples |
| CNN.6.MLII.1 | Add “Chinese medicine, unique language group” to the list of examples |

Appendix 1: Mandarin Chinese – Exceptions

This appendix contains exceptions that apply to the teaching of Mandarin Chinese within the Modern Languages I-IV Frameworks. These exceptions apply to the level of study and the student learning expectation (SLE) indicated.

| SLE | Exception |
|---------------|--|
| CNN.6.MLII.2 | Add “calligraphy” to the list of examples |
| CMP.7.MLII.1 | <i>Cognates, false cognates, and shared derivatives</i> are not applicable in Chinese |
| CMP.7.MLII.2 | This SLE is not applicable to Level II Chinese (higher proficiency level is required) |
| CMP.7.MLII.3 | Omit “ <i>tense</i> ” |
| CMP.7.MLII.4 | This SLE is not applicable to Level II Chinese (higher proficiency level is required) |
| | |
| CMC.1.MLIII.3 | Omit “unfamiliar contexts” (higher proficiency level is required) |
| CMC.1.MLIII.4 | This SLE is not applicable to Level III Chinese (higher proficiency level is required) |
| CMC.1.MLIII.6 | This SLE is not applicable to Level III Chinese (higher proficiency level is required) |
| CMC.2.MLIII.1 | Change “unrehearsed” to “rehearsed” and change “in the appropriate <i>tenses</i> ” to “in a culturally appropriate manner” |
| CMC.2.MLIII.3 | This SLE is not applicable to Level III Chinese (higher proficiency level is required) |
| CMC.2.MLIII.8 | Omit this SLE |
| CMC.3.MLIII.1 | This SLE is not applicable to Level III Chinese (higher proficiency level is required) |
| CMC.3.MLIII.2 | Replace current SLE with “Compose cohesive paragraphs with supporting sentences in Chinese” |
| CMC.3.MLIII.3 | Omit “and impromptu” from SLE |
| CNN.5.MLIII.2 | Replace “Investigate” with “Apply” |
| CNN.6.MLIII.5 | This SLE is not applicable to Level III Chinese (higher proficiency level is required) |
| CMP.7.MLIII.1 | This SLE is not applicable to Chinese |
| CMP.7.MLIII.2 | Replace “Compare” with “Introduce level appropriate” |
| CMP.7.MLIII.4 | Omit “unfamiliar” |
| CMP.7.MLIII.6 | This SLE is not applicable to Level III Chinese (higher proficiency level is required) |
| CMN.9.MLIII.1 | Replace “Discuss” with “Recognize” |
| | |
| CMC.1.MLIV.2 | Omit “in conceptually complex texts” |
| CMC.1.MLIV.3 | Omit “complex” |
| CMC.1.MLIV.4 | Omit “of complex texts” |
| CMC.1.MLIV.5 | Replace SLE with “Distinguish the features from a variety of aural, visual, and textual sources on familiar topics” |
| CMC.1.MLIV.7 | Delete this SLE |
| CMC.2.MLIV.1 | Change “unrehearsed” to “rehearsed” and change “in the appropriate <i>tenses</i> ” to “in a culturally appropriate manner” |

Appendix 1: Mandarin Chinese – Exceptions

This appendix contains exceptions that apply to the teaching of Mandarin Chinese within the Modern Languages I-IV Frameworks. These exceptions apply to the level of study and the student learning expectation (SLE) indicated.

| SLE | Exception |
|--------------|--|
| CMC.2.MLIV.2 | Omit “abstract, complex, and unfamiliar” and replace given examples with “bargaining, family, personal interests” |
| CMC.2.MLIV.3 | Replace SLE with “Use <i>circumlocution</i> skills to sustain a conversation (e.g., words to indicate logic connections or transitions, such as <u>chu le...wai, bu guan, ji shi</u>)” |
| CMC.2.MLIV.5 | This SLE is not applicable to Level IV Chinese (higher proficiency level is required) |
| CMC.2.MLIV.6 | This SLE is not applicable to Level IV Chinese (higher proficiency level is required) |
| CMC.2.MLIV.7 | This SLE is not applicable to Level IV Chinese (higher proficiency level is required) |
| CMC.2.MLIV.8 | This SLE is not applicable to Level IV Chinese (higher proficiency level is required) |
| CMC.3.MLIV.1 | This SLE is not applicable to Level IV Chinese (higher proficiency level is required) |
| CMC.3.MLIV.2 | Replace current SLE with “Write compositions of varying sentence length and structure in Chinese using appropriate grammar, punctuation, and <i>conventions</i> (e.g., compound or complex sentences)” |
| CMC.3.MLIV.3 | Replace this SLE with “Employ proper rhythm and <i>tones</i> in impromptu presentations (e.g., skits, dialogues)” |
| CMC.3.MLIV.4 | Replace this SLE with “Produce simple visual or multimedia projects (e.g., posters, PowerPoint presentations, videos)” |
| CMC.3.MLIV.7 | This SLE is not applicable to Level IV Chinese (higher proficiency level is required) |
| CLT.4.MLIV.2 | Replace “Evaluate” with “Identify”; this SLE may be done in English; a higher proficiency level is required to perform this SLE in Chinese |
| CLT.4.MLIV.3 | This SLE may be done in English; a higher proficiency level is required to perform this SLE in Chinese |
| CLT.4.MLIV.4 | This SLE may be done in English; a higher proficiency level is required to perform this SLE in Chinese |
| CLT.4.MLIV.5 | This SLE may be done in English; a higher proficiency level is required to perform this SLE in Chinese |
| CLT.4.MLIV.8 | Replace this SLE with “Justify <i>perspectives</i> within the <i>target culture(s)</i> ” |
| CNN.5.MLIV.3 | This SLE is not applicable to Level IV Chinese (higher proficiency level is required) |
| CNN.6.MLIV.1 | This SLE may be done in English; a higher proficiency level is required to perform this SLE in Chinese |
| CNN.6.MLIV.2 | This SLE may be done in English; a higher proficiency level is required to perform this SLE in Chinese |
| CNN.6.MLIV.3 | This SLE may be done in English; a higher proficiency level is required to perform this SLE in Chinese |
| CMP.7.MLIV.1 | This SLE is not applicable to Chinese |
| CMP.7.MLIV.2 | Replace the current SLE with “Expand the knowledge of level appropriate <i>proverbial</i> , colloquial, and idiomatic expressions” |
| CMP.8.MLIV.1 | This SLE may be done in English; a higher proficiency level is required to perform this SLE in Chinese |
| CMP.8.MLIV.2 | This SLE may be done in English; a higher proficiency level is required to perform this SLE in Chinese |
| CMP.8.MLIV.3 | This SLE may be done in English; a higher proficiency level is required to perform this SLE in Chinese |

Appendix 2: German – Exceptions

This appendix contains exceptions that apply to the teaching of German within the Modern Languages I-IV Frameworks. These exceptions apply to the level of study and the student learning expectation (SLE) indicated.

| SLE | Exception |
|--------------|--|
| CMC.1.MLI.2 | Add “understanding the difference in usage between ß and ss based on the length of the preceding vowel” |
| CMC.2.MLI.1 | Add “and apply the word sequence rule of ‘verb second’ for statements” |
| CMC.2.MLI.2 | Add “understanding regional differences in greetings, salutations, and farewells (e.g., Grüss Gott, Servus)” |
| CMC.2.MLI.2 | Add “understanding ‘good luck’ gestures (e.g., pressing the thumbs instead of crossing the fingers)” |
| CMC.2.MLI.5 | Add “using finger signals to indicate quantities in a restaurant context (e.g., thumb and forefinger instead of forefinger and middle finger)” |
| CMC.3.MLI.1 | Add “using adjectives correctly as both attributives and predicate adjectives” |
| CMC.3.MLI.1 | Add “noting the position of the verb at the end of an infinitive phrase (e.g., Fußball spielen)” |
| CLT.4.MLI.1 | Add “noting the special importance of a very firm handshake with both greetings and farewells” |
| CLT.4.MLI.1 | Add “noting the customary removal of shoes upon entering a private home” |
| CLT.4.MLI.1 | Add “noting that doors inside a private home are normally kept closed to conserve energy, not to keep people out” |
| CLT.4.MLI.1 | Add “noting the illegality and absolute unacceptability of the display of any symbols or gestures relating to Nazism” |
| CLT.4.MLI.5 | Add “noting that traditional dress differs from region to region” |
| | |
| CMC.1.MLII.2 | Add “understanding the difference in usage between ß and ss based on the length of the preceding vowel” |
| CLT.4.MLII.4 | Add “noting the particular influence of mountainous terrain on the development of the cultures of Alpine areas (e.g., yodeling, Alphorns)” |

Appendix 3: Russian – Exceptions

This appendix contains exceptions that apply to the teaching of Russian within the Modern Languages I-IV Frameworks. These exceptions apply to the level of study, strand, standard, and student learning expectation (SLE) indicated.

| SLE | Exception |
|-------------|--|
| CMC.1.MLI.2 | Add “Understand the sound values of <i>Cyrillic</i> letters and pronounce words written in <i>Cyrillic</i> script” |
| CMC.2.MLI.1 | Add “appropriate <i>aspects</i> ” along with “appropriate <i>tenses</i> ”; add “employ prefixes, suffixes, and <i>infixes</i> to show <i>aspect</i> ” |
| CMC.2.MLI.2 | Add “components of the Russian name (имя, отчество, фамилия)” |
| CMC.2.MLI.2 | Add “use of diminutive and pejorative forms of Russian names” |
| CMC.2.MLI.2 | Add “differences in honorifics <ul style="list-style-type: none"> • never calling a Russian ‘comrade’ (товарищ), even as a joke • using господин, госпожа, гражданин, гражданка, сударь, сыдарыня to show respect” |
| CMC.2.MLI.5 | Add “using finger signals to indicate quantities in a restaurant context (e.g., thumb and forefinger instead of forefinger and middle finger)” |
| CMC.3.MLI.2 | Add “using adjectives correctly as both attributives and predicate adjectives” |
| CMC.3.MLI.5 | Add “cases of nouns, pronouns, and adjectives, <i>tenses</i> and <i>aspects</i> of verbs” |
| CLT.4.MLI.1 | Add “greeting a person only once during the day upon seeing the individual for the first time” |
| CLT.4.MLI.1 | Add “applying meeting etiquette <ul style="list-style-type: none"> • greeting each other with three kisses on the cheek, starting with the left and then alternating (among female friends) • greeting with a very firm handshake while maintaining direct eye contact and giving the appropriate greeting for the time of day • patting each other on the back and hugging when meeting (among close male friends) • using a less firm handshake when greeting a woman” |
| CLT.4.MLI.1 | Add “understanding that men are expected to open doors for women” |
| CLT.4.MLI.1 | Add “never shaking hands across the threshold of a doorway” |
| CLT.4.MLI.1 | Add “covering all mirrors in the house during the traditional nine days of mourning following a death” |
| CLT.4.MLI.1 | Add “never sitting at the corner of a table” |
| CLT.4.MLI.1 | Add “applying customs of accidental physical contact <ul style="list-style-type: none"> • avoiding an argument with a friend by deliberately bumping heads a second time after first accidentally bumping heads • reciprocating the gesture when a person accidentally steps on one’s foot” |
| CLT.4.MLI.3 | Add “understanding particular points of Russian national pride <ul style="list-style-type: none"> • ability to endure suffering and hardship • cultural and scientific achievements • military victories” |

Appendix 3: Russian – Exceptions

This appendix contains exceptions that apply to the teaching of Russian within the Modern Languages I-IV Frameworks. These exceptions apply to the level of study, strand, standard, and student learning expectation (SLE) indicated.

| SLE | Exception |
|--------------|--|
| CLT.4.MLI.4 | Add “understanding the special influence of <ul style="list-style-type: none"> • the Mongol invasion • tsarist rule • the 1917 revolution (or ‘Great October Socialist Revolution’, Великая Октябрьская Социалистическая Революция) and civil war • Stalinism • the Second World War (or ‘Great Patriotic War’, Великая Отчественная Война)” |
| CNN.6.MLI.1 | Add “noting the Russian habit of correcting strangers who break rules” |
| CMP.7.MLI.3 | Add “applying the concept of <i>fluid word sequence</i> ” |
| CMP.8.MLI.1 | Add “understanding that two or three generations of a family often live in one small apartment” |
| CMP.8.MLI.1 | Add “expecting to wait in line to make any purchase” |
| CMP.8.MLI.2 | Add “understanding the exceptional importance of the May 9 ‘Victory Day’ (День Победы) celebration” |
| CMP.8.MLI.3 | Add “understanding gestures that are considered rude in Russia <ul style="list-style-type: none"> • making the ‘OK’ sign • pointing with one finger (pointing with the whole hand is acceptable) • putting the thumb through the index and middle fingers” |
| CMP.8.MLI.3 | Add “understanding that an individual’s personal space in Russia is only approximately twelve inches |
| | |
| CMC.2.MLII.1 | Add “appropriate <i>aspects</i> ” along with “appropriate <i>tenses</i> ”; add “employ prefixes, suffixes, and <i>infixes</i> to show <i>aspect</i> ” |
| CMC.3.MLII.5 | Add “ <i>declension</i> and <i>cases</i> of nouns, pronouns, and adjectives, <i>tenses</i> and <i>aspects</i> of verbs” |
| CLT.4.MLII.1 | Add “using proper Russian table manners <ul style="list-style-type: none"> • holding the fork in the left hand and the knife in the right while eating • leaving a small amount of food on the plate to indicate that the hosts have provided ample hospitality • offering to help clean up after a meal and helping when the offer is accepted • remaining seated until invited by the host to leave the table • resting elbows on the table is not acceptable, but keeping the hands visible at all times while eating is necessary • serving the oldest or most honored guest first • soaking up gravy or sauce with bread • treating military veterans as the guest of honor, regardless of age • understanding men pour drinks for women seated next to them • urging guests to take second helpings • waiting to eat until invited by the host” |

Appendix 3: Russian – Exceptions

This appendix contains exceptions that apply to the teaching of Russian within the Modern Languages I-IV Frameworks. These exceptions apply to the level of study, strand, standard, and student learning expectation (SLE) indicated.

| SLE | Exception |
|---------------|--|
| CLT.4.MLII.1 | Add “noting the importance of giving a gift when arriving as a guest in a private home <ul style="list-style-type: none"> • expecting the gift to be declined at first, but always offering it a second time • giving an odd number of flowers greater than three but fewer than eleven (but never yellow flowers) • giving the gifts (always unwrapped) immediately upon entering the home • offering tea, especially English tea • providing small gifts for young children” |
| CLT.4.MLII.1 | Add “using proper etiquette as a guest in a private home <ul style="list-style-type: none"> • arriving fifteen to twenty minutes late for dinner in a private home • complimenting something in the host’s home, preferably an item that a member of the family has made and that is too large for the host to offer it as a gift • dressing nicely for dinner in a private home to show respect for the host and hostess • removing shoes and donning slippers (тапочки) upon entering a private home • saying good-bye to everybody present when leaving dinner or a party • sitting quietly for a few moments before leaving the house and then not returning for any reason • telephoning the host the day after a party to express thanks” |
| CLT.4.MLII.4 | Add “investigating the special influence of <ul style="list-style-type: none"> • the Mongol invasion • tsarist rule • the 1917 revolution (or ‘Great October Socialist Revolution’, Великая Октябрьская Социалистическая Революция) and civil war • Stalinism • the Second World War (or ‘Great Patriotic War’, Великая Отчественная Война)” |
| CMP.8.MLII.3 | Add “using proper etiquette when attending theatrical or musical performances <ul style="list-style-type: none"> • arriving on time • facing toward others while stepping over them to get to one’s seat • using the cloakroom (never wearing a coat into the theater) • whistling after a performance indicates that the performance was bad” |
| CMC.2.MLIII.1 | Add “appropriate <i>aspects</i> ” along with “appropriate <i>tenses</i> ”. Add “employ prefixes, suffixes, and <i>infixes</i> to show <i>aspect</i> ” |

Appendix 3: Russian – Exceptions

This appendix contains exceptions that apply to the teaching of Russian within the Modern Languages I-IV Frameworks. These exceptions apply to the level of study, strand, standard, and student learning expectation (SLE) indicated.

| SLE | Exception |
|---------------|---|
| CMC.3.MLIII.5 | Add “ <i>declension</i> and <i>cases</i> of nouns, pronouns, and adjectives, <i>tenses</i> and <i>aspects</i> of verbs” |
| CLT.4.MLIII.4 | Add “evaluating the special influence of <ul style="list-style-type: none"> • the Mongol invasion • tsarist rule • the 1917 revolution (or ‘Great October Socialist Revolution’, Великая Октябрьская Социалистическая Революция) and civil war • Stalinism • the Second World War (or ‘Great Patriotic War’, Великая Отчественная Война)” |
| | |
| CMC.2.MLIV.1 | Add “appropriate <i>aspects</i> ” along with “appropriate <i>tenses</i> ”; add “employ prefixes, suffixes, and <i>infixes</i> to show <i>aspect</i> ” |
| CMC.3.MLIV.5 | Add “ <i>declension</i> and <i>cases</i> of nouns, pronouns, and adjectives, <i>tenses</i> and <i>aspects</i> of verbs” |
| CLT.4.MLIV.4 | Add “evaluating, in Russian, the special influence of <ul style="list-style-type: none"> • the Mongol invasion • tsarist rule • the 1917 revolution (or ‘Great October Socialist Revolution’, Великая Октябрьская Социалистическая Революция) and civil war • Stalinism • the Second World War (or ‘Great Patriotic War’, Великая Отчественная Война)” |

Spanish for Heritage and Native Speakers I-III

Foreign Languages Curriculum Framework

Revised 2013

Course Title: Spanish for Heritage and Native Speakers (SHNS) I-III
Course/Unit Credit: 1 per course
Course Number: SHNS I: 540100 SHNS II: 540110 SHNS III: 540120
Teacher Licensure: Please refer to the Course Code Management System (<https://adedata.arkansas.gov/ccms/>) for the most current licensure codes.
Grades: 9-12
Prerequisites: There is no prerequisite for SHNS I; however, students should be conversant in Spanish. Students entering SHNS II and SHNS III must successfully complete the preceding year of study.

Spanish for Heritage and Native Speakers I-III

Spanish for Heritage and Native Speakers I, II, and III are intended for native speakers (those raised in an environment using mainly a language other than English) and heritage speakers (those raised in an environment where the language was most likely spoken in the home). The courses provide a thorough review of the Spanish language and are conducted entirely in Spanish. Students improve literacy through extensive, varied writing activities and exposure to a variety of Hispanic literature, newspapers, magazines, films, music, and current issues. Language skills are improved through oral presentations, debates, and class discussions in both formal and informal settings. Hispanic culture and traditions are presented to deepen students' appreciation of the native language. Spanish for Heritage and Native Speakers I, II, and III include applications, problem solving, higher-order thinking skills, and performance-based, open-ended assessments with rubrics. Although there is no prerequisite for Spanish for Heritage and Native Speakers I, students should be conversant in Spanish. Arkansas Department of Education approval is not required.

Spanish for Heritage and Native Speakers I-III

| Strand | Content Standard |
|---------------|--|
| Communication | |
| | 1. Students will process oral, written, and/or visual messages in standard Spanish. (interpretive) |
| | 2. Students will interact verbally and/or in writing in standard Spanish. (interpersonal) |
| | 3. Students will present to an audience of listeners and/or readers in standard Spanish. (presentational) |
| Culture | |
| | 4. Students will investigate the relationship between the practices and perspectives of the culture studied. |
| | 5. Students will investigate the relationship between the products and perspectives of the culture studied. |
| Connections | |
| | 6. Students will apply the Spanish language to reinforce and expand knowledge of other subject areas. |
| | 7. Students will recognize the distinctive contributions of the language and cultures of the Spanish-speaking world. |
| Comparisons | |
| | 8. Students will explain the similarities and differences between the Spanish language and the students' primary language. |
| | 9. Students will explain the similarities and differences between the cultures of the Spanish-speaking world and the students' native culture. |
| Communities | |
| | 10. Students will examine ways to use Spanish personally and professionally. |

Notes:

1. The three standards within the communication strand are designated as interpretive, interpersonal, or presentational. These classifications refer to the three modes of communication recognized in the 2012 edition of the "Performance Descriptors for Language Learners" promulgated by the American Council on the Teaching of Foreign Languages (ACTFL).
2. Words that appear in italics within this document are defined in the glossary.
3. All items in a bulleted list are required to be taught.
4. The examples given (e.g.,) are suggestions to guide the instructor.
5. Common Core State Standards (CCSS) alignment key, R.CCR.1 = Reading.College and Career Ready Anchor Standard.1

Glossary for Spanish for Heritage and Native Speakers I-III

| | |
|-------------------------------|--|
| Adapted text | Printed, non-print, or digital material, source, or medium in the target language, not necessarily from a country or culture where the target language is spoken; may include translations or materials modified, created, or simplified to meet a specific educational purpose |
| Anglicism | A word in the target language adapted from English |
| Authentic | Original; without modification; having an undisputed, genuine origin; designed by native speakers for native speakers; authentic materials, sources, or texts are those that have been developed specifically for native speakers, including print, audio and visual materials; representative of the real world |
| Blog | An online journal; literally, a web log |
| Borrowing | A word or phrase adopted from one language into another with no significant change in spelling or pronunciation |
| Circumlocution | A communicative strategy that is used to describe or talk around a concept or action when the exact word is not known (e.g., “the thing that stops a car” for “brakes”) |
| Code switching | Alternate use of two or more languages or varieties of language, especially within the same discourse |
| Cognate | A word from different languages that sounds or looks similar and has a similar meaning, typically evolved from a common origin (e.g., fabuloso, libertad) |
| Colloquialism | A word or phrase unique to a geographic region, culture, or subculture |
| Contextualized | Print and non-print materials, sources, or media that help students easily make connections and infer meaning |
| Convention | A symbol, theme, motif, or archetype |
| Dialect | Distinct differences of a language which are characteristic of a particular group of the language’s speakers |
| E-pal | Similar to pen pal except that communication takes place using electronic media |
| False cognate | A word that looks and sounds similar to a word in more than one language but does not have the same meaning |
| Fluid | Natural-sounding, smooth-flowing |
| Hiato | In Spanish, two vowels are separated into different syllables (e.g., baúl, caos) |
| Idiom or Idiomatic expression | An expression which functions as a single unit and whose meaning cannot be translated word for word; a group of words that means something other than the literal translation |
| Indigenous | Originating in and characteristic of a particular region or country; native to a region (e.g., the plants indigenous to Argentina; the indigenous peoples of Guatemala) |
| Intonation | The use of vocal inflections or pitch to contribute to meaning; the pattern or melody of pitch that changes in connected speech, especially the pitch pattern which distinguishes kinds of sentences or speakers of different languages |
| Literary style | Characteristics of a work that reflect the author’s distinctive way of writing; an author’s use of language, its effects, and its appropriateness to the author’s intent and theme |
| Mood | A characteristic of a verb that refers to how the writer or speaker presents ideas (indicative, imperative, subjunctive) |
| Orthography | The correct use of writing, symbols, and spelling |
| Perspective | An attitude or worldview associated with a particular culture or cultures; a traditional idea, attitude, meaning, or value of members of that society |
| Phonetic | Pertaining to the system of sound-letter relationships used in reading and writing, which begins with the understanding that each letter or grapheme of the alphabet stands for one or more sounds or phonemes |
| Pitch | The degree to which a sound has a high or low quality |

Glossary for Spanish for Heritage and Native Speakers I-III

| | |
|------------------|--|
| Podcast | An auditory or visual electronic file available via the Internet |
| Practice | A pattern of behavior accepted by a society; knowledge of what to do, when, and where |
| Product | A concrete (tangible) or abstract (intangible) cultural element of a society |
| Regionalism | A variation in speech or writing based on the particular area from which a speaker comes; the variation may occur with respect to pronunciation, vocabulary, or syntax |
| Register | A manner of addressing another according to the title, relationship, or social situation |
| Standard Spanish | Spanish language that follows the grammatical and structural rules that have been recognized by the Real Academia Española |
| Syntax | The order of words required to make grammatically correct sentences |
| Tense | A characteristic of a verb that indicates the time of the action or state of being that a verb expresses |

Latin I - II

**Foreign Languages
Curriculum Framework**

Revised 2013

Course Title: Latin I - II
 Course/Unit Credit: 1 per course
 Course Number: Latin I: 445000 Latin II: 445010
 Teacher Licensure: Please refer to the Course Code Management System (<https://adedata.arkansas.gov/ccms/>) for current licensure codes.
 Grades: 9-12
 Prerequisites: There is no prerequisite for Latin I. Students must successfully complete Latin I before entering Latin II.

Latin I - II

Latin I provides an introduction to the language, history, and culture of the ancient Romans. Basic instruction in grammar, vocabulary, and syntax prepares the student for reading and discussing selected works by ancient Roman authors. Latin II continues the introduction to classical Latin with additional instruction in vocabulary, grammar, and more complex syntax. Reading and translating selections from ancient works builds comprehension ability. The Latin II course includes advanced discussions of Greco-Roman life and culture. The courses are defined by the content standards of the Arkansas Foreign Languages Curriculum Framework for Latin I - II and include applications, problem solving, higher-order thinking skills, and performance-based, open-ended assessments with rubrics. Arkansas Department of Education approval is not required.

| Strand | Content Standard |
|---------------|--|
| Communication | 1. Students will read, understand, and translate Latin. (interpretive) |
| | 2. Students will use spoken and/or written responses as part of the language learning process. (interpersonal) |
| | 3. Students will present to an audience of listeners and/or readers in Latin. (presentational) |
| Culture | 4. Students will investigate the practices of Greco-Roman culture. |
| | 5. Students will investigate the products of Greco-Roman culture. |
| | 6. Students will investigate the perspectives of Greco-Roman culture. |
| Connections | 7. Students will reinforce and further their knowledge of other disciplines through the study of Latin. |
| | 8. Students will expand their knowledge of the modern world through the reading of Latin and study of Greco-Roman culture. |
| Comparisons | 9. Students will explain the similarities and differences between the Latin language and the English language. |
| | 10. Students will explain the similarities and differences between Greco-Roman culture and their own culture. |
| Communities | 11. Students will use knowledge of Latin and Greek in a multilingual world. |
| | 12. Students will use knowledge of Greco-Roman culture in a world of diverse cultures. |

Notes:

- The three standards within the communication strand are designated as interpretive, interpersonal, or presentational. These classifications refer to the three modes of communication recognized in the 2012 edition of the “Performance Descriptors for Language Learners” promulgated by the American Council on the Teaching of Foreign Languages (ACTFL).
- Words that appear in italics within this document are defined in the glossary.
- All items in a bulleted list are required to be taught.
- The examples given (e.g.,) are suggestions to guide the instructor.
- Common Core State Standards (CCSS) alignment key, R.CCR.1 = Reading.College and Career Ready Anchor Standard.1

Strand: Communication

Content Standard 1: Students will read, understand, and translate Latin. (interpretive)

| Latin I | Latin II | CCSS ELA-Literacy Alignment |
|--|---|------------------------------|
| CMC.1.LI.1 Interpret passages appropriate to level of study | CMC.1.LII.1 Translate passages of Latin adapted from original authors | R.CCR.1, 2, 4 |
| CMC.1.LI.2 Recognize the phonics of Latin | CMC.1.LII.2 Explain the conventions of Latin grammar through parsing | L.CCR.3 |
| CMC.1.LI.3 Recognize simple questions, statements, and commands | The SLE is not appropriate for this level/course | SL.CCR.1 L.CCR.1, 2, 3, 4 |
| CMC.1.LI.4 Interpret vocabulary, <i>inflections</i> , and <i>syntax</i> appropriate to level of study <ul style="list-style-type: none"> • <i>conjugations</i> • <i>declensions</i> | CMC.1.LII.4 Interpret vocabulary, <i>inflections</i> , and <i>syntax</i> appropriate to level of study | L.CCR.1, 2, 3, 4, 5, 6 |
| The SLE is not appropriate for this level/course | CMC.1.LII.5 Interpret the meaning of written passages | R.CCR.1, 2, 4 |

Strand: Communication

Content Standard 2: Students will use spoken and/or written responses as part of the language learning process. (interpersonal)

| Latin I | Latin II | CCSS ELA-Literacy Alignment |
|--|--|-----------------------------|
| CMC.2.LI.1 Respond to questions, statements, and commands | CMC.2.LII.1 Respond to questions, statements, commands, and other stimuli | SL.CCR.1, 2, 3 |
| CMC.2.LI.2 Use vocabulary, <i>inflection</i> , and <i>syntax</i> (e.g., word games, board drills) | CMC.2.LII.2 Use vocabulary, <i>inflection</i> , and <i>syntax</i> appropriate to the level of study <ul style="list-style-type: none"> • <i>conjugations</i> • <i>declensions</i> | L.CCR.1, 2, 3, 4, 5, 6 |
| CMC.2.LI.3 Write basic phrases and simple sentences | CMC.2.LII.3 Write phrases and sentences (e.g., board drills, word games, puzzles) | W.CCR.4 |
| The SLE is not appropriate for this level/course | CMC.2.LII.4 Respond to open-ended questions | SL.CCR.1, 2, 3 |

Strand: Communication

Content Standard 3: Students will present to an audience of listeners and/or readers in Latin. (presentational)

| Latin I | Latin II | CCSS ELA-Literacy Alignment |
|--|--|-----------------------------|
| CMC.3.LI.1 Read aloud with accurate pronunciation | CMC.3.LII.1 Read more complex texts aloud with accurate pronunciation | L.CCR.1, 2, 4, 5 |
| CMC.3.LI.2 Compose basic phrases and simple sentences | CMC.3.LII.2 Compose complex phrases and compound sentences | W.CCR.1, 2, 3, 4, 5, 7, 10 |

Strand: Culture

Content Standard 4: Students will investigate the practices of Greco-Roman culture.

Glossary for Latin I-II

| | |
|-------------------------------|--|
| Cognate | A word or phrase descended or borrowed from Latin (e.g., campus = field) |
| Conjugation | In Latin, division of verbs into four groups based on the infinitive ending |
| Convention | A symbol, theme, motif, or archetype |
| Declension | Division of nouns into groups based on genitive singular form |
| Derivative | A word formed from an existing word, base, or root; in Latin, a word or family of words which have the same Latin base (e.g., deduce = <u>de</u> + <u>ducere</u> ;conduct = <u>cum</u> + <u>ducere</u> , induct = <u>in</u> + <u>ducere</u>) |
| Idiom or idiomatic expression | An expression which functions as a single unit and whose meaning cannot be translated word for word; groups of words that mean something other than their literal translation |
| Inflection | Ways words change in context (e.g., declensions, conjugations) |
| Parsing | In Latin, to give the gender, number, case, and declension for nouns, adjectives, and pronouns; to give tense, person, number, voice, mood, and conjugation in verbs; to give applicable explanations for all other words |
| Perspective | An attitude or worldview associated with a particular culture or cultures; traditional ideas, attitudes, meanings, and values of members of that society |
| Practice | A pattern of behavior accepted by a society; knowledge of what to do, when, and where |
| Product | A concrete (tangible) or abstract (intangible) cultural element of a society |
| Syntax | Order of words required to make grammatically correct sentences |
| Vocative case | Latin case of address; uses second person only (e.g., "Et tu, Brute?") |

HOW TO MEET THE NEEDS OF CHILDREN WITH DYSLLEXIA**

1.00 PURPOSE

- 1.00 These rules shall be known as the Arkansas Department of Education Rules Governing How to Meet the Needs of Children With Dyslexia
- 1.01 The purpose of these rules is to establish guidelines for early screening and intervention to meet the educational needs of students with dyslexia.

2.00 AUTHORITY

- 2.01 The Arkansas Department of Education (ADE) promulgated these rules pursuant to the authority granted to it by Act 1294 of 2013 and Ark. Code Ann. §§ 6-11-105 et seq. and 25-15-201 et seq.

3.00 DEFINITIONS

- 3.01 Dyslexia means a specific learning disability that is
 - 3.01.1 Neurological in origin;
 - 3.01.2 Characterized by difficulties with accurate and fluent word recognition and poor spelling and decoding abilities that typically result from a deficit in the phonological component of language; and
 - 3.01.3 Often unexpected in relation to other cognitive abilities.
- 3.02 Dyslexia therapist means a professional who has completed training and obtained certification in dyslexia therapy from a dyslexia therapy training program approved by the ADE.
- 3.03 The terms “dyslexia therapy” and “therapeutic services” mean an appropriate specialized dyslexia instructional program that is
 - 3.03.1 Delivered by a dyslexia therapist;
 - 3.03.2 Explicit, direct instruction;
 - 3.03.3 Systematic, multi-sensory, and research based;

- 3.03.4 Offered in a small group setting to teach students the components of reading instruction including without limitation:
 - 3.03.4.1 Phonemic awareness to enable a student to detect, segment, blend, and manipulate sounds in spoken language;
 - 3.03.4.2 Graphophonemic knowledge for teaching the letter-sound plan of English;
 - 3.03.4.3 The structure of the English language that includes morphology, semantics, syntax, and pragmatics;
 - 3.03.4.4 Linguistic instruction directed toward proficiency and fluency with the patterns of language so that words and sentences are carriers of meaning; and
 - 3.03.4.5 Strategies that students use for decoding, encoding, word recognition, fluency, and comprehension.
- 3.04 Response to Intervention (RTI) means a multi-tiered approach to help struggling learners. Students' progress is closely monitored at each stage of intervention to determine the need for further research-based instruction and/or intervention in general education, in special education, or both.

4.0 REQUIRED SCREENING

- 4.01 A school district shall screen each student each year:
 - 4.01.1 in Kindergarten, grade one, and grade two (K-2),
 - 4.01.2 when a student in Kindergarten, grade one, or grade two (K-2) transfers to a new school and has not been screened during the same school year;
- 4.02 The screening of students shall be performed with fidelity and include without limitation:
 - 4.02.1 Phonological and phonemic awareness;
 - 4.02.2 Sound symbol recognition;
 - 4.02.3 Alphabet knowledge;

4.02.4 Decoding skills;

4.02.5 Rapid naming skills; and

4.02.6 Encoding skills.

4.03 Every school district shall ensure that students will be screened using DIBELS for phonological and phonemic awareness, sound-symbol recognition, alphabet knowledge, and decoding skills and by using an appropriate screener for rapid naming skills and encoding skills as described in the Dyslexia Resource Guide:

4.03.1 In Kindergarten, grade one, and grade two (K-2);

4.03.2 When a student in Kindergarten, grade one or grade two (K-2) transfers to a new school and has not been screened during the same school year;

4.03.3 When a student in grade three (3) or higher has difficulty, as noted by a classroom teacher, in:

4.03.3.1 Phonological and phonemic awareness;

4.03.3.2 Sound-symbol recognition;

4.03.3.3 Alphabet knowledge;

4.03.3.4 Decoding skills;

4.03.3.5 Rapid naming skills; and

4.03.3.6 Encoding skills; and

4.03.4 When a student from another state enrolls for the first time in Arkansas in Kindergarten through grade two (K-2) unless the student presents documentation that the student:

4.03.4.1 Had the screening or a similar screening in the current school year; or

4.03.4.2 Is exempt from screening because the student has a current diagnosis of dyslexia.

5.00 INTERVENTION and SERVICES

- 5.01 If the DIBELS screening, or the screening for rapid naming and encoding skills, indicates that a student has markers for dyslexia and needs intervention, the Response to Intervention (RTI) shall be used to address the needs of the student.
- 5.02 If the RTI indicates the possibility of dyslexia, the student shall be evaluated for dyslexia.
 - 5.02.1 If a student's performance on the DIBELS screening, and the appropriate screening for rapid naming skills and encoding skills under Section 4.00, indicates a need for additional screening the student may receive additional testing by a trained professional using a norm-referenced test.
- 5.03 If the dyslexia evaluation indicates that a student is dyslexic, the student shall be provided therapeutic services.
 - 5.03.1 Therapeutic services may be provided by a professional who is highly qualified and trained, as determined by the ADE and described in the Dyslexia Resource Guide.
- 5.04 Any necessary accommodations or equipment for the student diagnosed with dyslexia shall be provided under Section 504 of the Rehabilitation Act of 1973, 29 U.S.C. § 794 and Title II of the Americans with Disabilities Act, 42 U.S.C. §§ 12131-12165, as they existed on February 1, 2013.

6.00 PARENTAL NOTIFICATION AND INDEPENDENT EVALUATION

- 6.01 If a student's performance on a dyslexia evaluation under Section 5.03 of these rules indicates a need for dyslexia therapy services, the student's parent or legal guardian shall be:
 - 6.01.1 Notified of the results of the dyslexia evaluation;
 - 6.01.2 Provided with information and resource material including without limitation:
 - 6.01.2.1 The common indicators of dyslexia;

6.01.2.2 Appropriate classroom interventions and accommodations for students with dyslexia; and

6.01.2.3 The right of the parent or legal guardian to have the student receive an independent evaluation by a

6.01.2.3.1 Licensed psychological examiner;

6.01.2.3.2 School psychology specialist;

6.01.2.3.3 Licensed speech-language pathologist; or

6.01.2.3.4 Certified dyslexia training specialist.

6.02 If a parent or legal guardian chooses to have an independent evaluation for the student, the school district

6.02.1 shall consider the independent diagnosis and

6.02.1.1 may perform a comprehensive dyslexia evaluation in addition to the required RTI and Section 5.03 of these rules or

6.02.1.2 may allow the student to receive direct intervention from a dyslexia therapist.

7.00 INSTRUCTIONAL APPROACHES

7.01 Dyslexia therapy for a student whose dyslexia evaluation under Section 5.03 of these rules indicates the need for dyslexia therapy services shall be provided with fidelity and include the following instructional approaches:

7.01.1 Explicit, direct instruction that is systematic, sequential, and cumulative and follows a logical plan of presenting the alphabetic principle that targets the specific needs of the student without presuming prior skills or knowledge of the student;

- 7.01.2 Individualized instruction to meet the specific needs of the student in a small group setting that uses intensive, highly concentrated instruction methods and materials that maximize student engagement;
 - 7.01.3 Meaning-based instruction directed at purposeful reading and writing, with an emphasis on comprehension and composition; and
 - 7.01.4 Multisensory instruction that incorporates the simultaneous use of two (2) or more sensory pathways during teacher presentations and student practice.
- 7.02 Until there are a sufficient number of graduates from a dyslexia therapy program established at the university level in Arkansas or from a dyslexia therapy program established at the university level in another state that is approved by the Department of Education, the department shall allow dyslexia therapy to be provided by individuals who have received training and certification from a program approved by the department.

8.00 REPORTING BY SCHOOL DISTRICTS

- 8.01 The superintendent of a school district annually shall report the results of the school district screening required under Section 4.00 of these rules, in a manner described in the Dyslexia Resource Guide.

9.00 ADE DYSLEXIA SPECIALIST

- 9.01 No later than the 2015 fiscal year, the Department of Education shall employ at least one (1) dyslexia specialist who is a dyslexia therapist, licensed psychologist, licensed psychometrist, licensed speech-language pathologist, or certified dyslexia training specialist with a minimum of three (3) years of field experience in screening, identifying, and treating dyslexia and related disorders to provide technical assistance for dyslexia and related disorders to school districts across the state.

- 9.01.1 The ADE dyslexia specialist shall:

- 9.01.1.1 Be highly trained in dyslexia and related disorders, including best-practice interventions and treatment models;

9.01.1.2 Be responsible for the accountability of screening results and the implementation of professional awareness required Section 11.00 of these rules and

9.01.1.3 Serve as the primary source of information and support for school districts addressing the needs of students with dyslexia and related disorders.

9.02 The Department of Education shall ensure that at least one (1) staff member at each education service cooperative is trained as a dyslexia specialist to provide necessary information and support to school districts.

9.02.1 A dyslexia specialist shall have completed training and received certification from a program approved by the department as described in the Dyslexia Resource Guide.

10.0 DISTRICT LEVEL INTERVENTIONISTS

10.01 No later than the 2015-2016 academic year, a school district shall have at least one individual to serve as a dyslexia interventionist as defined in the Dyslexia Resource Guide who are trained as dyslexia interventionists:

10.01.1 By the department; or

10.01.2 Using other dyslexia training programs approved by the department.

11.00 PROFESSIONAL AWARENESS

11.01 No later than the 2014-2015 school year, the Department of Education shall ensure that each teacher receives professional awareness on the following:

11.01.1 The indicators of dyslexia; and

11.01.2 The science behind teaching a student who is dyslexic.

11.02 Professional awareness may be provided:

11.02.1 Online;

11.02.2 At an education service cooperative; or

11.02.3 At another venue approved by the Department of Education.

**ARKANSAS DEPARTMENT OF EDUCATION AND ARKANSAS STATE BOARD OF
NURSING RULES GOVERNING THE ADMINISTRATION OF GLUCAGON TO
ARKANSAS PUBLIC SCHOOL STUDENTS SUFFERING FROM ~~TYPE 1~~ DIABETES**

2013

1.00 REGULATORY AUTHORITY

- 1.01 These rules shall be known as the Arkansas Department of Education and Arkansas State Board of Nursing Rules Governing the Administration of Glucagon to Arkansas Public School Students Suffering from ~~Type 1~~ Diabetes.
- 1.02 These rules are enacted pursuant to the Arkansas State Board of Education,^s authority under Ark. Code Ann. §§ 6-11-105, 17-87-103 and 25-15-201 et seq.
- 1.03 These rules are enacted pursuant to the Arkansas State Board of Nursing,^s authority under Ark. Code Ann. §§~~17-87-203~~, 17-87-103 and 25-15-201 et seq.

2.00 PURPOSE

- 2.01 The purpose of these rules is to set forth protocols and procedures for the administration of glucagon by trained volunteer school personnel to Arkansas public school students who suffer from ~~Type 1~~ diabetes.

3.00 DEFINITIONS

- 3.01 „Diabetes,, „a medical condition diagnosed by a licensed healthcare practitioner in which blood glucose levels are above normal.
- 3.01~~2~~ „Emergency Situation,, „ circumstance in which students with low blood glucose cannot be treated with a glucose-containing substance by mouth because the student is unconscious or having a seizure.
- 3.01~~3~~ „Glucagon,, „ an injectable hormone prescribed by a licensed healthcare practitioner that raises the level of glucose in the blood. Glucagon is dispensed as a „Glucagon Emergency Kit,, or a „Glucagon Emergency Kit for Low Blood Sugar.,, A ~~„licensed healthcare practitioner,, includes, but is not limited to, Medical Doctors, Doctor of Osteopathy, Advanced Practice Nurse, Registered Nurse Practitioners, or Physician Assistants with prescriptive authority or who work under physician-approved protocols.~~

- 3.04 „Licensed Healthcare Practitioner,, -includes, but is not limited to, Medical Doctors, Doctor of Osteopathy, Advanced Practice Nurse, Registered Nurse Practitioners, or Physician Assistants with prescriptive authority or who work under physician-approved protocols.
- 3.035 „Licensed School Nurse Employed by a School District,, ,, those nurses employed by an Arkansas public school district or open-enrollment public charter school who hold the following licenses or certificate:
- ~~3.03.13.05.1~~ Registered Nurse (RN);
- ~~3.03.23.05.2~~ Advanced Practice Nurse (APN); or
- ~~3.03.33.05.3~~ Diabetic Nurse Educators.
- ~~3.03.43.05.4~~ This definition does not include License Practical Nurses (LPNs). LPNs may assist in the provision of training under these rules. However, training under these rules must be performed by Registered Nurses, Advance Practice Nurses or Diabetic Nurse Educators.
- 3.046 „Other Healthcare Professional,, ,, includes the following:
- ~~3.04.13.06.1~~ Registered Nurse (RN);
- ~~3.04.23.06.2~~ Advanced Practice Nurse (APN);
- ~~3.04.33.06.3~~ Diabetic Nurse Educators;
- ~~3.04.43.06.4~~ Medical Doctors (MD);
- ~~3.04.53.06.5~~ Registered Nurse Practitioners;
- ~~3.04.63.06.6~~ Doctors of Osteopathy; and
- ~~3.04.73.06.7~~ Physician Assistants.
- ~~3.05~~ ~~„Type 1 Diabetes,, ,, sometimes referred to as „insulin dependent diabetes,, a medical condition diagnosed by a licensed healthcare provider and caused by the human body,,s failure to produce insulin.~~

3.067 „Trained Volunteer School Personnel,, ,, Licensed or classified personnel employed by an Arkansas public school district or open-enrollment public charter school who volunteer and successfully complete training for the administration of glucagon to students suffering from ~~Type 1~~ diabetes.

4.00 GENERAL REQUIREMENTS

- 4.01 Trained volunteer school personnel designated as care providers in a plan developed under Section 504 of the Rehabilitation Act of 1973, 29 U.S.C. § 701 et seq., as it existed on July 1, 201~~4~~3, who have been trained by a licensed nurse employed by a school district or other healthcare professional, may, in emergency situations, administer glucagon to students who suffer from ~~Type 1~~ diabetes.
- 4.02 The training listed in Sections 4.01 and 6.00 of these rules shall be conducted at least annually, regardless of whether a volunteer has previously completed training. Nothing in these rules prohibits training from being conducted more often than annually.
- 4.03 No trained volunteer school personnel designated as care providers pursuant to these rules may administer glucagon to a student who suffers from ~~Type 1~~ diabetes unless the parent or guardian of the student first signs a written authorization allowing the administration of glucagon to the student by a trained volunteer school personnel designated as a care provider.
- 4.04 When a school nurse is available and on site during an emergency situation, the school nurse shall administer glucagon to the student, when necessary. Volunteer school personnel who are designated as care providers and trained to administer glucagon shall provide glucagon injections only in the absence or unavailability of a school nurse.
- 4.05 The training outlined in these rules is intended to be provided to volunteer school personnel. No school personnel shall be required, pressured or otherwise subjected to duress in such a manner as to compel their participation in training. Prior to receiving training, volunteers must sign a written acknowledgement indicating their desire to volunteer.

5.00 PROTECTION FROM LIABILITY

A school district, school district employee, or an agent of a school district, including a healthcare professional who trained volunteer school personnel designated as care

providers, shall not be liable for any damages resulting from his or her actions or inactions under these rules or under Ark. Code Ann. § 17-87-103.

6.00 TRAINING OF VOLUNTEERS

- 6.01 Training under these rules shall include, at a minimum, the following components:
- 6.01.1 What glucagon is and how glucagon works;
 - 6.01.2 When, how and by whom glucagon may be prescribed;
 - 6.01.3 The requirements of Arkansas law pertaining to the administration of glucagon injections to Arkansas public school students suffering from ~~Type 1~~ diabetes;
 - 6.01.4 When glucagon should be administered, how glucagon should be prepared, the dosage and side effects of glucagon, and follow-up care after glucagon is administered;
 - 6.01.5 How glucagon should be stored, including identifying the expiration date and need for replacement;
 - 6.01.6 The role of the school nurse in the administration of glucagon and the delegation of the administration of glucagon; and
 - 6.01.7 The signs of hypoglycemia in students with ~~Type 1~~ diabetes, including techniques and practices used to prevent the need for glucagon.
- 6.02 Visual and audio aids may be used during the training required under these rules, but at least one individual listed in Sections 3.035 and 3.046 of these rules must be physically present to provide the training.
- 6.03 Before a volunteer may be deemed to have successfully completed the training required under these rules, a person listed in Sections 3.035 and 3.046 must sign a certification indicating that the volunteer has successfully completed all aspects of training and that the volunteer has successfully demonstrated mastery of procedures involving the administration of glucagon. No person listed in Sections 3.035 and 3.046 shall sign such a certification unless such person, in his or her professional judgment, believes that a volunteer has successfully completed all

aspects of training and that the volunteer has successfully demonstrated mastery of procedures involving the administration of glucagon.

6.04 The Arkansas State Board of Nursing and the Arkansas Department of Education, in collaboration with the Arkansas School Nurses Association and diabetic education experts, shall identify and approve education programs that meet the requirements of Section 6.01 of these rules. Training under these rules shall be given according to the education programs approved under this section.

6.04.1 The Arkansas State Board of Nursing and the Arkansas Department of Education shall maintain and publish a list of approved education programs that meet the requirements of Section 6.01 of these rules. The list of approved education programs may be published on the websites of the Arkansas State Board of Nursing and the Arkansas Department of Education.

6.04.2 The Arkansas State Board of Nursing and the Arkansas Department of Education, in collaboration with the Arkansas School Nurses Association and diabetic education experts, shall at least annually review the requirements associated with the administration of glucagon and shall, if necessary, recommend for adoption by the Arkansas State Board of Nursing and the Arkansas State Board of Education any revisions to these rules.

7.00 RECORDS

7.01 Records of volunteer training ~~must~~ shall be kept on file at each school.

7.02 For each student with ~~Type 1~~ diabetes who attends the school, the school district shall maintain a copy of the plan developed under Section 504 of the Rehabilitation Act of 1973, 29 U.S.C. § 701 et seq., as it existed on July 1, 2014~~3~~, a list of volunteer school personnel who are designated as care providers and trained to administer glucagon, and a copy of the parent,~~s~~ or guardian,~~s~~ signed authorization. The list of volunteer school personnel who are designated as care providers and trained to administer glucagon and a copy of the parent,~~s~~ or guardian,~~s~~ signed authorization shall also be attached to the student,~~s~~ Individualized Health Plan (IHP).

7.03 The list of volunteer school personnel who are designated as care providers and trained to administer glucagon shall only include the names of such personnel

who successfully complete the required training as set forth in Section 6.00 of these rules. The list of volunteer school personnel trained to administer glucagon for each school should be published and made known to all school personnel.

- 7.04 The principal of each school, in conjunction with each school nurse, shall properly maintain all such records.

RE: Notification of Charter Authorizing Panel Decision
Capitol City Lighthouse Charter School

Dear Dr. Anderson:

On November 13, 2013, the Charter Authorizing Panel met and denied the application for the Capitol City Lighthouse Charter School. Ark. Code Ann. § 6-23-702(b)(2)(A) allows charter applicants and affected school districts to **request** that the State Board of Education review a final decision of the Charter Authorizing Panel. A request must state the specific reasons that the board should review the decision.

Ark. Code Ann. § 6-23-703(a) requires the State Board of Education to consider requests for review of Charter Authorizing Panel decisions at its next meeting after the decisions are made. Therefore, a review request must be submitted, via email, no later than 4:00 p.m. on Wednesday, November 20, 2013, in order for the request to be included on the State Board of Education agenda for the meeting on December 9, 2013. Email the request to ade.charterschools@arkansas.gov. Be advised that the decision of whether to review a Charter Authorizing Panel decision is discretionary. See Ark. Code Ann. § 6-23-702(b)(3).

If you have any questions, I may be reached by phone at (501) 683-5312 or by email at mary.perry@arkansas.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "Mary Perry".

Summary

**Capitol City Lighthouse
North Little Rock, Arkansas**

Capitol City Lighthouse Charter School

| | |
|---------------------------------------|--|
| Grade Level(s): | K-12 (K-6 in Year 1 adding a grade each year) |
| Student Enrollment Cap: | 750 (344 in Year 1) |
| Name of the Sponsoring Entity: | Lighthouse Academies of Central Arkansas, Inc. |
| IRS Status | Applied for 501(c)(3) Non-Profit Status |
| Address: | 1800 North Maple Street North Little Rock, AR 72114 |

Mission Statement

CCLCS will prepare students for college through a rigorous arts-infused program. The mission of Lighthouse Academies is to prepare our students for college through a rigorous arts-infused program. Our network goals measure our progress toward achieving this mission. These goals focus on preparing our students academically for college.

The vision is that all students will be taught by highly effective teachers (teachers whose students make gains of 20% more per year than average) in a nurturing environment and will achieve at high levels. Each student will develop the knowledge, skills and values necessary for responsible citizenship and life-long learning. CCLCS will do whatever it takes to make the opportunity for success in college happen for all of the CCLCS scholars. The impact of our collective efforts will fundamentally change public education.

CCLCS will be a thriving K-12 school providing rigorous academic instruction as well as the support in developing essential skills and qualities to be successful college students and ultimately productive, contributing community members in North Little Rock. CCLCS will be a beacon of hope for the students of North Little Rock and provide them with truly high quality choice in education.

Information on the School District in Which the Charter Would Be Located

North Little Rock School District

62.72% free and reduced-price lunch (2012-2013)

Needs Improvement District (ESEA 2012) - Graduation Rate and Mathematics

Issues that Remain Unresolved as Determined by the Charter Internal Review Committee

- Lack of an explanation about the ways in which a new teacher will be determined to be highly effective
- Concern that leveled and themed reading materials may not provide the rigor that aligns with the Common Core State Standards
- Lack of a specific method of instruction for English language learners
- Meeting the needs of gifted and talented students
- Lack of qualifications, if any, required for the highest school officials as job descriptions state "DESIRED QUALIFICATIONS" without required qualifications
- Lack of special education degree as a requirement for the special education teacher
- Lacking explanation of the impact that the school would have on the Little Rock School District and the Pulaski County Special School District

- Possible conflict of interest since the current president and CEO of the company that will lease the facility to the charter is also the president and CEO of the management company with which the charter plans to contract
- The request for a waiver of Ark. Code Ann. § 6-16-102 because a waiver is not needed to extend beyond the required six hours of instructional time each day

Documentation Provided in Support of the Charter

Letters of Support Included in Application

| | |
|--------------------------------|--|
| Representative Eddie Armstrong | Arkansas House of Representatives |
| Dr. D.L. Richardson | Pastor, First Baptist Church, Main Street, North Little Rock |
| Shedrick Warren III | G4L Custom Embroidery, North Little Rock |
| Pastor William L. Robinson | First Baptist Church, Scipio A. Jones Dr., North Little Rock |
| Jared K. Henderson | Individual |

Other Letters of Support (available for review)

| | |
|----------------------|------------------------------|
| Kathy Smith | The Walton Family Foundation |
| Kara Smith | Individual |
| Analiza Merriweather | Individual |

Petitions (available for review)

462 signatures

Requested Waivers

Note from legal staff:

The Charter Authorizing Panel should examine each waiver requested by the applicant. Particular attention should be paid to the following waiver requests which traditionally have either not been granted or have warranted additional discussion by the authorizer:

- **Standards for Accreditation 10.02 Class Size and Teaching Load**
 - The Applicant requests to have a maximum class size of 22 in K and 25 in all other grades with a 10% variance if necessary. Including the 10% variance, the maximum size would be 24 in K and 28 in all other grades.

Capitol City Lighthouse
North Little Rock, Arkansas

CAPITOL CITY LIGHTHOUSE CHARTER SCHOOL

Sponsoring Entity: Lighthouse Academies of Central Arkansas, Inc.
IRS Status: Applied for 501(c)(3) non-profit status
Grade Levels: K-12
Student Enrollment Cap: 750
Address of Proposed Charter: 1800 North Maple Street, North Little Rock, AR 72114

PRE-APPLICATION MATERIALS

The Arkansas Department of Education requires that all applicants submit a Letter of Intent, outlining a general description of the proposed charter school.

Evaluation Criteria:

A response that meets the standard will guarantee that:

- A Letter of Intent was filed with Arkansas Department of Education on time and included all the necessary information.

Meets the Standard

PART B EXECUTIVE SUMMARY

The Arkansas Department of Education requires all applicants to include an executive summary.

Evaluation Criteria:

A response that meets the standard will present:

- A mission statement (with content to be evaluated for Prompt #3 of Part C); and
- The key programmatic features of the proposed charter school.

Meets the Standard

C-1 PUBLIC HEARING RESULTS

All proposed school design teams must conduct a public hearing before applying for an open- enrollment charter school, to assess support for the school's establishment. Applicants are asked both to document the logistics of the hearing and to include a narrative of the hearing results.

Evaluation Criteria:

A response that meets the standard will present:

- A thorough description of the results of the public hearing;
- Evidence of public support exhibited at the hearing;
- Documentation of required notices published to garner public attention to the hearing; and
 - Published on a weekly basis for at least three consecutive weeks prior to the date of the hearing in a newspaper having general circulation in the school district in which the school will likely be located
 - The notice of the public hearing was not published in the classified or legal notice section of the newspaper.
 - The last publication date of the notice was no less than seven days prior to the public meeting.

- Documentation of required notices of the public hearing to superintendents of districts from which the proposed school is likely to draw students and to superintendents of districts that are contiguous to the district in which the charter school would be located
 - Within seven calendar days following the first publication.

Meets the Standard

C-2 GOVERNING STRUCTURE

The Governing Structure section should explain how the school will be governed. It should present a clear picture of the school’s governance processes and composition, what responsibilities various groups and people will have and the relationships among the groups.

Evaluation Criteria:

A response that meets the standard will present:

- Documentation of proper legal structure of the governing board and sponsoring entity;
- A comprehensive description of the planned relationship between the governing board of the school and governing board of the sponsoring entity;
- A clear description of the governing board’s roles and responsibilities;
- Adequate policies and procedures for board operation, including board composition, member term length, and member selection;
- A clear, sensible delineation of roles and responsibilities in relation to governance and school management; and
- A reasonable plan for involving parents, staff, students and community in the decision-making of the school.

Meets the Standard

C-3 MISSION STATEMENT

The Mission Statement should be meaningful and indicate what the school intends to do, for whom, and to what degree.

Evaluation Criteria:

A response that meets the standard will present:

- A mission statement that is clear and succinct.

Partially Meets the Standard

Concerns and Additional Questions:

- Explain the method of determining that “students make gains of 20% more per year than average.” Provide the standard by which the gains are measured and explain how new teachers are determined to be highly effective.

As measured by NWEA. NWEA MAP tests are nationally-normed assessments that can measure how much students have improved in reading and math during the year relative to a national norm group.

C-4 EDUCATIONAL NEED

The Educational Need section should explain the need for a charter school in the proposed location and the innovative educational option offered by the charter school.

Evaluation Criteria:

A response that meets the standard will present:

- A description of the educational need for the charter school substantiated with valid and reliable data, and
- A description of the innovations that would distinguish the charter from other schools.

Partially Meets the Standard - MEETS THE STANDARD (BASED ON RESPONSE)

Concerns and Additional Questions:

- Provide specific ways in which art activities and techniques are infused each day into the teaching of all core subjects.

Attachment 1: Lesson Plans

Attachment 2: Arts Infusion Toolkit

C-5 EDUCATIONAL PROGRAM

The Educational Program section should describe the educational foundation of the school and the teaching and learning strategies that will be employed.

Evaluation Criteria:

A response that meets the standard will present:

- A clear description of the proposed educational program, including but not limited to the foundational educational philosophy and curricular and instructional strategies to be employed;
- Specific reasons that the school would be viable; and
- A description of the length of school day and school year that meets minimum state requirements.

Partially Meets the Standard - MEETS THE STANDARD (BASED ON RESPONSE)

Concerns and Additional Questions:

- Explain how the curriculum will prepare students for college.

CCLCS will use Arkansas Frameworks and Common Core Learning Standards to guide instruction for all content areas. These frameworks will be supplemented by other resources such as the State Released Items for Math and English, Language Arts, and annotated state test questions. CCLCS will use a *curriculum* that has a natural progression from the elementary grade levels to the middle school grades; is closely aligned to the Common Core Standards for math and reading; offers the criterion outlined in the K-8 Publishers Criteria for the Common Core State Standards for Mathematics and offers a balanced approach to instruction. The programs will include materials and tools that reflect the balance in the Standards and will facilitate students meeting the Standards' rigorous expectation. The instructional materials used will meaningfully connect the content standards and the practice standards. The program will have a digital component that enhances classroom instruction and supports students and parents at home. CCLCS will use a Social Studies program that integrates Language Arts and literacy standards and has online curriculum support. These programs will provide support materials for students that require extension opportunities as well as support materials for students that struggle. The programs include quality professional development for teachers that strengthens teachers' knowledge and pedagogy of Common Core State Standards. Teachers will engage in professional development to increase their effectiveness in differentiation and creating lessons that offer rigor and relevance. Teachers will be evaluated using the Danielson model that will lead to increased effectiveness as well. Opportunities for enrichment and support will be offered based on the scholar's individual needs.

Attachment 3 - Curriculum Maps

- Explain what assessments will be used to drive instructional decisions at the school.

CCLCS will use data to impact large and small-scale instructional decisions and resource allocation. The data from internal and external tests drive feedback and adaptation to improve teaching and learning at the school. The ongoing collection of student achievement data through formal and

informal assessments in all subjects is used by teachers and administrative staff to drive the instructional program as follows:

- Assessment data is tracked and regularly monitored by teachers to allow them to tailor instruction to the needs of the class and of individual students. Teachers and leaders use data management systems (*PowerTeacher* and *Pearson Inform*) to track student data.
- Teachers use assessment data to create flexible instructional groupings based on the needs of the students. The composition of these groups will change as the data shows students progressing through different levels of mastery.
- Ongoing assessments allow teachers to provide continuous feedback to students and permit administrative staff to provide continuous feedback to teachers.
- Assessment data permits administrative staff to evaluate the effectiveness of the curriculum content, delivery strategies and resource allocation in helping students to meet the state standards and grade level expectations. Based on these evaluations, administrative staff will supplement or adjust the curriculum or provide targeted professional development to teachers.

The staff and Principals review achievement data at ongoing staff meetings, professional development days, individual Principal/ teacher meetings and smaller teacher-led meetings. The Directors of Teacher Leadership (DTL) and Principals also regularly observe classrooms and use alternative strategies to assess the strengths and weaknesses of the school against specific standards. Leaders oversee the collection and analysis of the particular types of data and use the knowledge gained to make tactical adjustments—perhaps targeting additional support to particular students or teachers or quickly responding to a school-wide problem evident from the data. Listed below are current assessments and curriculum being used at Arkansas Lighthouse Charter Schools through grade 10. CCLCS will use the same or similar curriculum and assessments. The formative assessments and NWEA drive the instructional program and literacy and math action plans that are used to strategically move scholars towards proficiency.

Attachment 4 – Sample Action Plans.

| Assessment | Type | Who | What |
|--|-------------------------------|---------------------------|-------------------------------------|
| Qualls | Criterion Referenced | K | Math/Reading |
| NWEA | Norm Referenced | K-8 | Math/Reading |
| ITBS (augmented state assessment included) | Norm and Criterion Referenced | 1st, 2nd, 9th | Math/Reading |
| ACTAPP (State Assessments) | Criterion Referenced | 3rd-8th | Math/Literacy/ Science (5 and7) |
| ReadiStep (Collegeboard) pathway to PSAT | Norm Referenced | 7th and 9th | Math/Reading/Writing |
| Explore -pathway to ACT | Criterion Referenced | 8th | Math/Reading/Writing/Science |

- Provide examples of the ways in which arts are infused into curriculum and instruction that is “anchored in grade level standards, grade level expectations, and the Common Core State Standards....”

Language Arts

Before writing a written summary of a text, have students act it out.

Instead of using a graphic organizer to plan a paragraph or story, have students draw a picture of a topic they want to write about and identify the supporting details based on what they draw.

Have students play charades or Pictionary to review vocabulary words.

Have students identify significant aspects of a text’s setting by creating a physical model of the setting (e.g., a diorama).

Have students identify creative storytelling techniques in music, and then try to replicate the techniques in their own writing.

Have students make a comic strip that summarizes a story, identifies the elements of plot (rising action, climax, resolution) and identifies literary techniques (foreshadowing, flashback) as captions for the comic strip’s frames.

Have students draw pictures that represent similes and/or metaphors. Have students write the simile or metaphor as a caption for their picture.

Math

Have students recite their math facts or information about a math concept to the tune of a familiar melody.

Have students create art that incorporates geometry concepts (angles, polygons, etc.) they have learned about.

Use masking tape to create a large grid on the floor and have students create a ‘dance’ based on a list of coordinate pairs.

Challenge students to create a drawing that meets specific mathematical requirements (e.g., make two-thirds of the trees pines; make twice as many people as dogs, etc.)

To practice converting units of measurement, have students draw pictures of large objects to scale.

Science

Have students use movement/dance/drama to create a simulation of a concept they are learning about (e.g., evaporation, body systems, simple machines).

To learn the steps of the scientific method, have students create a series of tableaux or draw pictures representing each step.

Have students write speeches from the perspective of famous scientists describing the significance of their work.

Have students demonstrate the concepts behind a topic of study by creating a work of animation on the computer.

Social Studies

To review content, have students play charades – challenge them to silently act out the events or people they have studied and have the rest of the class guess what they are doing.

Have students create models/dioramas of famous moments in history with a written explanation of the details in their model.

Have students play charades or Pictionary to review vocabulary words.

Have students write a poem or speech from the perspective of a historical figure they are studying.

Play music from the time period students are studying.

Use a corner of the classroom to create a gallery of significant artwork from the period of study.

Have students create a travel brochure or commercial for a place they are studying.

Select an image (painting, photograph, cartoon, etc.) that illustrates various concepts from the unit of study. Show students the whole image for approximately 30 -45 seconds – no talking or writing – just to reflect on what they see in the context of their background knowledge. Then project one quarter of the image at a time (cropped with Photoshop or Paint) for approximately 90 seconds each. Have students write what they see in that quadrant – key objects, images, or phrases, and any symbols they might see. After all four quadrants have been displayed, then show the entire image again and have students analyze the image quadrant by quadrant, then draw overall conclusions (synthesis technique).

Attachment 3 – Arts Infusion Toolkit.

- Provide the grade levels to be served by year with the maximum enrollment for each year. K-6 is proposed for the first year with an enrollment of 344. Below is an enrollment chart outlining the anticipated enrollment for each grade. The school requests the right to modify enrollment based on facility restraints or the need to offer more sections of one grade and less of another but will stay within the proposed cap and may adjust enrollment per grade or class by 10%.

| SY 14.15 | Scholars | SY 15.16 | Scholars | SY 16.17 | Scholars | SY 17.18 | Scholars | SY 18.19 | Scholars |
|-------------|------------|-------------|------------|-------------|------------|-------------|------------|-------------|------------|
| K | 44 |
| 1 | 50 | 1 | 50 | 1 | 50 | 1 | 50 | 1 | 50 |
| 2 | 50 | 2 | 50 | 2 | 50 | 2 | 50 | 2 | 50 |
| 3 | 50 | 3 | 50 | 3 | 50 | 3 | 50 | 3 | 50 |

| | | | 644 | | | | | | |

- Confirm the understanding that every digital course must be offered from a provider approved by the Arkansas Department of Education and must meet or exceed curriculum standards and requirements established by the Arkansas State Board of Education in accordance with all laws, rules, and procedures promulgated to ensure access to quality digital learning content and online blended learning.

The school acknowledges that every digital course must be offered from a provider approved by ADE and must meet or exceed curriculum standards and requirements established by the State Board of Education in accordance with all laws, rules, and procedures promulgated to ensure access to quality digital learning content and online blended learning.

C-6: ACADEMIC ACHIEVEMENT GOALS

The Academic Achievement Goals section should define the performance expectations for students and the school as whole.

Evaluation Criteria:

A response that meets the standard will present:

- Specific goals in:
 - Reading;
 - Reading Comprehension;
 - Mathematics; and
 - Mathematics Reasoning;
- Goals that are clear, measurable and data-driven;
- Goals on improving student achievement; and
- Valid and reliable assessment tools for measuring each of the defined goals.

Partially Meets the Standard - MEETS THE STANDARD (BASED ON RESPONSE)

Concerns and Additional Questions:

- Provide additional information about the rigorous courses to be offered and preparation in the early grades for students to be ready to succeed in AP courses.

CCLCS will use Arkansas Frameworks and Common Core Learning Standards for English Language Arts and Literacy and Math to insure that rigor and relevance is provided in early grades that will prepare scholars for Advance Placement courses in high school. The school will use a variety of assessments to determine scholars' progress towards meeting college readiness benchmarks. CCLCS will offer classrooms that demand tough, rigorous outputs from scholars to prepare them for critical thinking and problem solving. Additionally, this rigor builds a key characteristic in our students: grit. Ultimately, the success of a rigorous academic environment is determined by our students' abilities to graduate from college. CCLCS teachers will receive 160 hours of professional development each year that will prepare them to provide an academic program at CCLCS that will be structured to enable every student to graduate prepared for college and to be competitive in a global work force.

Attachment 5: Yearlong PD Plan

- Provide the percentage of students expected to complete AP courses.

By the end of scholar's senior year, we expect for 100% of the scholars to have completed at least 1 AP course.

- Clarify the length of time that students will have to have been enrolled at Capitol City Lighthouse Charter School to have their NWEA MAP reading and math assessments included to determine if scholars are academically on track for college (Goal #3).

Scholars who have been enrolled for 3 years – each scholar must have been enrolled for the full school year and must have a fall and spring test scores.

Part 1 (meeting AR and shifting to meeting Common Core State standards): The school will meet the Annual Measureable Objective set by the state and/or will reduce its non-proficient population in ELA and Math by 15% each year.

Part 2 (high achievement on nationally-normed assessments):

Grades K-8: At least 40% of K-8 scholars who have attended the school for three years in participating schools will be in the top quartile on the NWEA MAP reading assessment and at least 40% of K-8 scholars will be in the top quartile on the math assessment in the spring. This goal will apply to scholars who have both a fall and spring NWEA score, indicating that they were enrolled in the school for at least a full academic year.

Grades 9-12: All scholars will take the EXPLORE/PLAN/ACT/or SAT series of assessments. Annually at least 75% of scholars will meet the college readiness benchmarks on these exams.

- Confirm the understanding, that during the first year of operation, the charter's annual measurable objectives (AMOs) will be based on the state AMOs, and that in following years, the charter's AMOs will be based upon the academic performance of the students who attend the charter

The school understands that during the first year of operation, the charter's AMO will be based on the state's AMO.

C7: CURRICULUM DEVELOPMENT AND ALIGNMENT

The Curriculum Development and Alignment section should define the process by which the design team developed (or chose) the curricular program of the school and illustrate alignment with Arkansas Curriculum Frameworks and Common Core State Standards.

Evaluation Criteria:

A response that meets the standard of a curricular development and alignment program will present:

- Evidence that the curriculum aligns with, or a sound plan and timeline for aligning the curriculum with, the Arkansas Department of Education's content standards, benchmarks and performance standards.
- Evidence that the applicant is prepared to implement the requirements and timeframe of the Common Core State Standards.

Meets the Standard

C-8: STUDENT SERVICES

The Student Services section should describe how the school will address specific services for its student body.

Evaluation Criteria:

A response that meets the standard will describe the ways in which the following services will be provided to students even in those areas for which a waiver is requested:

- A guidance program that will serve all students;
- A health services program that will serve all students;
- A plan for a media center for use by all students;
- Sound plans for educating special education students that reflect the full range of programs and services required to provide such students with a high quality education;
- A transportation plan that will serve all **eligible** students;
- An alternative education plan for eligible students, including those determined to be at-risk and to offer access to one or more approved Alternative Learning Environments;
- A plan to serve students who are English language learners; and
- Plans for offering access to one or more approved Alternative Learning Environments; and
- Plans for a gifted and talented program for eligible students.

Partially Meets the Standard

Concerns and Additional Questions:

Health Services

- Since the nurse is budgeted as a part-time employee, explain how daily student needs will be met when the nurse is not on campus.

The school nurse will work daily and will coordinate delivery of health services and will contribute to the professional development of school personnel as colleagues. The school's health service program shall insure that administrative and office staff members will be trained in emergency procedures, first aid, CPR and administration of medicine.

Media Center Services

- Explain how a variety of books at many levels will be accessed by students as required by the Common Core State Standards.

The Curriculum provides leveled readers for each classroom. Leveled Readers for Fluency is structured to increase fluency and accuracy by providing students with the opportunity to practice reading at their own level. Theme related books at three readability levels; Easy, Average, or Challenge address the individual needs of all students. Whether used for independent reading or in small, flexible groups, Leveled Readers for Fluency builds fluency and strengthens students' reading and comprehension skills. Spanish Leveled Readers are also available for ESL students.

Special Education Services

- Confirm the understanding that RTI cannot replace referrals for special education services.

RTI does not replace referrals for special education services but offers a systemized process for progressive interventions to be developed and implemented to address students' needs.

Alternative education program

- Confirm that a waiver will be requested for alternative education as there was no waiver request for this program included in the waiver section of the application, but the budget template states that a waiver is requested. If a waiver will not be requested, explain the process for identification of ALE students, describe the program and facility, and revise the budget to reflect these expenditures.

Waiver is being requested.

English Language Learner Services

- Explain how students who are English language learners will be identified.

All students new to the school will complete a Home Language Survey (HLS) form at the time of enrollment. This form will be used to identify students whose home and/or native language is other than English.

- A. All students identified as Language Minority Students (LMS) will be initially assessed with a valid and reliable instrument in the four modalities (reading, writing, speaking and comprehension.)
 - B. Students who are not proficient in English will be assessed annually with a valid and reliable instrument to determine progress being made towards English proficiency.
- Describe the program for students who are English language learners and specify the qualifications required for the teacher.
 - A. The instructional approach selected for the alternative language program will be ESL (English as a Second language).
 - B. The curriculum for the ESL instructional program will be the Arkansas Department

of Education's (ADE) English Language Proficiency Frameworks which are aligned with ADE content frameworks.

- C. All students who are identified as not proficient (English Language Learner [ELL]) will be provided with plan designed to promote growth in English proficiency and core content subject areas. This will be created by a Language Placement and Assessment Committee. Primary instruction will be provided by a certified teacher who is fluent in English and who may serve as a reading interventionist..

Gifted and Talented Services

- Explain how gifted and talented students will be identified.

Scholars who performs at or show the potential for performing at a remarkably high level of accomplishment when compared to others of the same age, experience or environment and who exhibits high performance capability in an intellectual; or excels in a specific academic field will be identified as gifted and talented. The school will utilize its School Support Team to review referrals that can be made by the parent, teacher or the student. The team will review several measures including assessments and student work.

- Explain which teachers will serve gifted and talented students and describe specific training that the teachers will receive in gifted and talented education.

All students at Lighthouse schools receive rigorous instruction for the classroom teacher. Teachers receive training on Differentiation, Bloom's Taxonomy, Multiple Intelligences, Rigor and Relevance and Pre AP and AP training. Scholars receive enriched instructional activities in accordance with Gifted and Talented Frameworks. ELA and Math Teachers in the Upper Academy and College Preparatory Academy use College Board's Springboard curriculum and receive extensive day curriculum professional development.

- Explain how the social and emotional needs of gifted and talented students will be met.

A number of strategies will be utilized by teachers, counselors, parents and students to accommodate the varied needs of scholars. Scholars will have access to counseling and the schools will also develop alternative arrangements to permit students' affective needs to be addressed. Strategies will be designed by school teams who know the young person and who work cooperatively with the student's parents to create a plan for matching school provisions and services with identified student needs; and contain clearly articulated goals and objectives stated so that progress in attaining them can be evaluated.

C-9: GEOGRAPHICAL SERVICE AREA

The Geographical Service Area section must outline the impact of a new school opening within the current public education system.

Evaluation Criteria:

A response that meets the standard will present:

- The specific geographical area that would be served by the charter school; and
- Information on the school districts likely to be affected by charter school, including data on the expected number of students to transfer to the charter school.

Partially Meets the Standard

Concerns and Additional Questions:

- Explain why the Little Rock School District, and the Pulaski County Special School District, were not listed on Page 3 of the application as districts from which the charter is likely to draw students.

CCLCS will be a public, open-enrollment charter school created to bring excellent educational opportunities to all children. We will adhere to all applicable federal laws and all civil rights laws. We are an open-enrollment school that we may draw students from anywhere in the state. However, our intent is to serve a particular community based on the educational need. Although every child will have an equal opportunity to enroll in the school, no efforts will be made to recruit from the Little Rock School District or Pulaski County Special School District. The proposed location of the school, our recruiting efforts and the bounds of our transportation are designed to serve the community identified in our needs assessment. However, the potential impact on those districts is addressed in the Desegregation Assurances.

- Clarify if the charter plans to enroll approximately 388 students in 2014-2015 as stated in this section of the application or 344 as stated in the budget.

The school plans to enroll 344 students in its initial year.

C-10: ANNUAL PROGRESS REPORTS

The Annual Progress Reports section should define how the academic progress of individual students and the school as a whole will be measured, analyzed, and reported.

Evaluation Criteria:

A response that meets the standard will present:

- A timeline for data compilation and completion of an annual report to parents, the community and the Charter Authorizing Panel that outlines the school's progress; and
- A plan for dissemination of the annual report to appropriate stakeholders.

Meets the Standard

C-11: ENROLLMENT CRITERIA AND PROCEDURES

The Enrollment Criteria and Procedures section should describe how the school will attract and enroll its student body, including any criteria for admission and enrollment. Applicants must also provide assurances for a random, anonymous lottery selection process.

Evaluation Criteria:

A response that meets the standard will present:

- A student recruitment plan that will provide equal opportunity for all parents and students to learn about and apply to the school;
An enrollment and admissions process that is open, fair, and in accordance with applicable law; and
- A process for, and a guarantee of, a random, anonymous lottery process should there be more student applications than can be accommodated under the terms of the charter.

Meets the Standard

C-12: STAFFING PLAN

The Staffing Plan section should describe the job duties of the school director and other key personnel. This section should also describe the professional qualifications which will be required of employees.

Evaluation Criteria:

A response that meets the standard will present:

- A job description for the school director and other key personnel, including but not limited to an operations director, board members, teachers, etc.;
- An outline of the professional qualifications required for administrators, teachers, counselors, etc.;
- A staffing plan that clearly outlines both the types and numbers of positions to be filled at the school and salary scales for such positions, and
- The staffing plan presented in this section matches the staff members noted in the budget.

Partially Meets the Standard

Concerns and Additional Questions:

- Explain the distinction, if any, between the Director of Teacher Leadership (DTL) and the Director of Teaching and Learning.

No distinction. Correct title is Director of Teacher Leadership.

- Explain the need for two DTL positions in 2015-2016.

Revised.

- Provide a job description for the Director of Student Services as this is a budgeted position.

This position is a supplementary service position that will be provided if the school is eligible for supplementary funds. Removed from budget.

Attachment 6: DSS Job description.

- Provide a job description for the Director of Instruction, and revise the budget to include a salary if this person will be hired in the first or second year of operation.

Attachment 7: Position title revised to Director of Teacher Leadership. Position description attached.

- Explain if school operations manager and office assistant are one or two positions.

Two positions.

Attachment 8: School Operations Manager PD

Attachment 9: Office Assistant PD

- Provide job descriptions for teaching positions.

Attachments 10-15.

- Provide the required educational qualifications and licensure requirements for each position.

Teachers must be Highly Qualified or hold teacher certification.

C-13: BUSINESS AND BUDGETING PLAN

The Business and Budgeting Plan section should describe how the charter school will organize its business office and manage its fiscal responsibilities.

Evaluation Criteria:

A response that meets the standard will present:

- An appropriate plan for managing procurement activities;
- A description of the personnel who will perform business duties, including the requisite qualifications of any proposed personnel;

- A realistic timeline and process by which the governance structure will review and adopt an annual budget;
- A balanced two-year budget estimate that accurately reflects the revenue currently available to the school and expenditures for program implementation and does not rely on one-time grants or other funds that are not presently guaranteed, and
- A budget that includes costs for all personnel, programs, and expenses described in other sections of the application.

Partially Meets the Standard - MEETS THE STANDARD (BASED ON RESPONSE)

Concerns and Additional Questions:

- Explain the distinctions between the duties of the business manager and the school operations officer.

The SOM focuses more on the day to day operations of the school while the business manager provides an oversight role and financial management functions to maintain, accurate, and compliant financial records within the framework of the Arkansas Financial Accounting Handbook, chart of accounts as allowed within APSCN.

Attachment 16: Financial Business Management Description

C-14: FINANCIAL AND PROGRAMMATIC AUDIT PLAN

The Financial and Programmatic Audit Plan section should provide the procedure and timeline by which an annual audit will be conducted. This section should also include an outline for the information that will need to be reported to ADE and the community.

Evaluation Criteria:

A response that meets the standard will present:

- A sound plan for annually auditing school's financial and programmatic operations. If the application names an accountant other than the Division of Legislative Audit to perform the first-year audit, the named accountant meets the requirements of Arkansas Department of Education Rules Governing Publicly Funded Educational Institution Audit Requirements and is not listed on any ineligibility list maintained by ADE or the Division of Legislative Audit.

Partially Meets the Standard - MEETS THE STANDARD (BASED ON RESPONSE)

Concerns and Additional Questions:

- Confirm that Lisa Stephens is the accountant requested.

Lisa Stephens is the requested accountant.

- Provide the address and phone number for the firm.

715 Front St., P.O. Box 1978, Conway, AR 72033: 501-327-2834; Fax: 501-327-6663

C-15: ARKANSAS PUBLIC SCHOOL COMPUTER NETWORK ASSURANCES

The Arkansas Public School Computer Network (APSCN) Assurances section should provide documentation of the applicant's understanding of and participation in the required state finance and educational data reporting system.

Evaluation Criteria:

A response that meets the standard will present:

- Assurance that the charter school will participate in APSCN and will comply with all state statutory requirements regarding the APSCN finance and educational data reporting system.

Meets the Standard

C-16: FACILITIES

The Facilities section should identify and describe the facilities to be used by the school, any changes to be made to the facilities, and the owners of the facilities.

Evaluation Criteria:

A response that meets the standard will present:

- An identified facility appropriate to meet the needs of the school over the term of its charter;
- A realistic plan for remodeling or adapting a facility, if necessary, to ensure that it is appropriate and adequate for the school's program, the school's targeted population, and the public;
- Evidence that the school understands the costs of securing and improving a facility and has access to the necessary resources to fund the facility plan; and
- A sound plan for continued operation, maintenance, and repair of the facility.

For schools that will be using district-owned facilities, a response that meets the standard will present:

- Documentation that the school district and charter school officials are in agreement over the use of the facility and its equipment.

For schools that will NOT be using district-owned facilities, a response that meets the standard will present:

- Documentation that the property owner and school are in agreement over the use of the facility and its equipment;
- A statement of the facilities' compliance with applicable codes; and
- A detailed outline of any relationships between the property owner and:
 - Members of the local board of the public school district where the charter school will be located;
 - The employees of the public school district where the charter school will be located;
 - The sponsor of the charter school; and
 - Employees, directors and/or administrators of the charter school.

Partially Meets the Standard - MEETS THE STANDARD (BASED ON RESPONSE)

Concerns and Additional Questions:

- Explain the discrepancy in the cost of the building lease as the amount on Facilities Utilization Agreement states \$29,000 per month, which would be \$348,000 per year, but \$240,000 each year is the cost of the lease included in the budget.

The amount should be \$348,000. This assumes the lease and up fit of the entire building.

- Explain why, in addition to the lease amount to be paid to Charter Facilities Management, annual expenses of \$20,000 for facilities management and \$18,000 for repairs and maintenance are budgeted for Charter Facilities Management.

The proposed lease is triple net. The lease amount equals the debt service with no mark up. The \$20,000 fee is for CFM services on managing the facility and lease administration. An additional \$18,000 is budget for repairs made by 3rd party vendors.

- Clarify if the application for a conditional use classification was submitted to the local zoning authority in August 2013.

The application was submitted on August 27, 2013.

C-17: CONFLICTS OF INTEREST

The Conflicts of Interest section should identify any potential conflicts of interest among the individuals involved with the proposed charter school and explain how conflicts will be addressed.

Evaluation Criteria:

A response that meets the standard will present full disclosure of any potential conflicts of interest and explain how conflicts, if any, will be addressed.

Partially Meets the Standard

Concerns and Additional Questions:

LEGAL COMMENTS

- Explain the apparent conflict of interest that will exist when Charter Facilities Management (CFM) acquires the property to be leased by the charter school.

CFM, Inc. is a nonprofit non related party to the charter applicant and the charter school manager. CFM provides the same service for Lighthouse Academies of Pine Bluff Arkansas which was previously approved by the Arkansas Department of Education.

- Explain the safeguards in place to handle employee conflicts of interest.

Each employee will be required to disclose any conflict of interest and that disclosure will be reviewed by the Board of Directors. All staff members will adhere to ADE Rules and Regulations Governing Ethical Guidelines and Prohibitions for Educational Administrators, Employees, Board members, and other parties.

C-18: FOOD SERVICES

This section should describe how the school will address food services for its student body.

Evaluation Criteria:

A response that meets the standard will present:

- A food service plan that will serve all eligible students.
- A management plan that reflects a clear understanding of federal law and requirements if the charter school plans to participate in the National School Lunch program.

Partially Meets the Standard - MEETS THE STANDARD (BASED ON RESPONSE)

Concerns and Additional Questions:

- Explain why there is no mention of the child nutrition director, only the nurse, in the discussion of menus as funds are included in the budget to pay a vendor for child nutrition director services.

There is a certified Lighthouse Academies Child Nutrition Director on staff that serves all Lighthouse schools in Arkansas. Each school employs a staff member that manages meals on a daily basis under the supervision of the Child Nutrition Director.

- Clarify the discrepancy as the response in this section of the application states that the budget assumes that 60% of the students enrolled would qualify for free or reduced priced meals, but numbers in the budget, and information included in the description of the geographical area of the charter (#9), indicate that more than 70% would qualify for free or reduced priced meals.

The budget actually assumes just over 70% of the students enrolled will qualify for free and reduced meals.

- Explain how the charter will determine and ensure compliance with the USDA meal pattern requirements.

The school will select a vendor to provide meals that comply with the requirements. The school will offer breakfast and lunch daily.

C19: PARENTAL INVOLVEMENT

The Parental Involvement section should describe how parents or guardians of enrolled students, the school employees, and other members of the community will make a positive impact on the school and its educational program.

Evaluation Criteria:

A response that meets the standard will present:

- A plan for involving parents and guardians in the school's education programs; and
- A proposal that involves the parents of students, employees and the broader community in carrying out the terms of the charter.

Partially Meets the Standard - MEETS THE STANDARD (BASED ON RESPONSE)

Concerns and Additional Questions:

- Include the salary for the Family Coordinator in the budget.
- Explain how members of the community, other than parents, guardians, or charter school employees will be involved with the school to positively impact the charter school's educational programs.

CCLCS will use several methods to communicate progress towards our goals to the community, parents and scholars. Community involvement at CCLCS will be facilitated by the Coordination of Family and Community Partnerships. The CFPC is responsible for ensuring that parents and other community stakeholders have the information they need to support our scholars and have ongoing opportunities to support the development and sustainability of the school. The CFPC will coordinate a minimum of 3 public performances / art showing each year as a strategy to showcase scholar achievements and build public support; develop a menu of support/volunteer opportunities for areas businesses, individuals and organizations that will allow them to utilize their unique assets in support of CCLCS scholars and secure formal partnerships with support organizations such as Boys and Girls Clubs, Boys and Girl Scouts, local faith organizations, arts organizations and social services organizations that allow our scholars to benefit from their services and allow them to engage at CCLCS. Our community involvement also relies on the CCLCS Board of Directors, volunteer leaders recruited from the community. Membership in the board is open to any community members committed to the success of our scholars and open access to all children (subject to the Board memberships bylaws and recruitment cycle.) The board members also serve as community ambassadors for the school and are integral in the establishment of partnerships with local businesses and other organizations. Coordinator of family and community partnerships. Strategies include a monthly dashboard prepared by the Principals for the Board of Directors that includes enrollment, withdrawal, discipline and academic data. The report also includes the number of teacher observations conducted and a description of any professional development provided. A monthly Dashboard prepared by the Principals to track scholars' performance on Interim Assessments, attendance rates, parental support through conference attendance and parent, teacher and student satisfaction rates and regular printed reports on NWEA and Interim Assessment student performance provided to parents and discussed during parent conferences.

Families are also continually engaged to ensure that our mission is carried through into the home. We build a two-way communications line with the parents by starting each year by signing of a three way compact that articulates both the opportunities and expectations tied to attending a Lighthouse School. Conducting home visits in the summer where staff are taking the arts, our expectations and resources into the community and the homes of our scholars. Following up during the school year with weekly school to parent communications and monthly family meetings. Each of these interactions is framed by the mission of our school and carries with it our school culture and values. The school will establish a parental involvement plan that establishes the school's expectations for parental involvement, and that includes programs and practices that enhance parental involvement and reflect the specific needs of students and their families. Collaboration with parents will be accomplished through School Based Management Team which will develop and implement the district-level school improvement plan. The parental involvement plan shall be incorporated into the public school district's annual comprehensive school improvement plan (ACSIP). The ACSIP will be presented to parents during Back to School parent meetings and after board approval posted to the school's website and filed with the Division of Learning Services. The Board of Directors will have a designated seat on the board for a parent representative. Parents are surveyed twice a year to provide feedback to school.

ATTACHMENT 18: CFCP Job Description

C-20: WAIVERS

The Waivers section should discuss all waivers requested from local or state law.

Evaluation Criteria:

A response that meets the standard will present:

- Each law, rule, and standard by title, number, and description for which a waiver is requested;
- A rationale for each waiver request; and
- An explanation of the way that each waiver would assist in implementing the educational program of the charter and/or fulfilling the charter's mission.

Partially Meets the Standard - MEETS THE STANDARD (BASED ON RESPONSE)

Concerns and Additional Questions:

See and respond to comments from Arkansas Department of Education legal staff.

LEGAL COMMENTS

Requested Waivers:

Ark. Code Ann. § 6-16-102 School Day Hours

The applicant should explain why this waiver is necessary. Based on the application, it appears the proposed charter school would provide at least six hours of instructional time per day.

The waiver was requested to extend beyond the six hours of instructional time.

Standards for Accreditation 10.02 Class Size and Teaching Load

The applicant should specify the maximum teacher-student ratios per grade level.

K – 22 per class; Grades 1 and above – 25 per class. Flexibility to adjust this class size by 10% is requested.

Gifted and Talented

The applicant requested a waiver of Ark. Code Ann. § 6-20-2208(e)(6) which does not exist. The applicant should confirm the correct statute for which it seeks waiver is Ark. Code Ann. § 6-20-2208(c)(6).

Ark. Code Ann. §§ 6-42-101 et seq. and 6-20-2208(c)(6)

Standards for Accreditation 18.0

ADE Rules Governing Gifted and Talented Program Approval Standards

Waivers Not Requested:

Minimum Compensation

The applicant requested a waiver of Ark. Code Ann. § 6-17-2201 et seq. and § 6-17-2401 et seq. governing minimum salaries. In order to effectuate this waiver the applicant should also request a waiver of Sections 6, 7, and 8 of the ADE Rules Governing School District Requirements for Personnel Policies, Salary Schedules, Minimum Salaries, and Documents Posted to District Websites.

Waiver requested for Sections 6, 7, and 8 of the ADE Rules Governing School District Requirements for Personnel Policies, Salary Schedules, Minimum Salaries, and Documents Posted to District Websites.

Standards for Accreditation 15.01 Full Time Superintendent

The applicant requested a waiver of employing a superintendent. In order to effectuate this waiver, the applicant should also request a waiver of Ark. Code Ann. § 6-13-109.

Waiver requested for Ark. Code Ann. §§ 6-13-109 & 6-17-427

Standards for Accreditation 15.01

ADE Rules Governing the Superintendent Mentoring Program

Alternative Learning Environments

The applicant did not budget any expenditures for Alternative Learning Environments (ALE) and did not request a waiver of ALEs.

Waiver requested for Ark. Code Ann. §§ 6-15-1005(b)(5), 6-18-503(a)(1)(C)(i), and 6-48-101 et seq.
Standard for Accreditation 19.03

Section 4.00 of ADE Rules Governing the Distribution of Student Special Needs Funds

Rationale: It is the intention and commitment of the founders of CCLCS to educate all students who choose our school. We will make necessary accommodations for students who need support beyond that provided by the general curriculum accommodation program. The guidance program, our devotion to parallel cultures of respect and achievement, and our arts infusion all help us connect with students who are struggling and make them successful. We will seek to meet individual needs with individual plans as needed. At times, this may include steps such as providing students with an aide, making space available for small groups, or offering extra help. If a student's needs are such that his or her special education team recommends an out-of-district placement, we will follow all laws to ensure that the student's rights are always protected.

C-21: DESEGREGATION ASSURANCES

The Desegregation Assurances section should describe the applicant's understanding of applicable statutory and regulatory obligations to create and maintain a unitary system of desegregated public schools.

Evaluation Criteria:

A response that meets the standard will present:

- Assurance that the charter school will comply with all applicable federal and state statutory and regulatory requirements regarding the creation and maintenance of desegregated public schools; and
- An outline of the potential impact of the proposed charter school on those desegregation efforts already in place in affected public school districts.

Does Not Meet the Standard - MEETS THE STANDARD (BASED ON RESPONSE)

Concerns and Additional Questions:

See and respond to comments from Arkansas Department of Education legal staff.

LEGAL COMMENTS

The applicant should describe the potential impact of the proposed charter school on the efforts of the affected public school district(s) to comply with court orders and statutory obligations to create and maintain a unitary system of desegregated public schools. The applicant should describe any desegregation obligations of the affected public school district(s) and how the applicant determined it will not impact any court order or statutory obligations.

Capitol City Lighthouse Charter School (CCLCS) proposes to locate its open-enrollment public charter school within the boundaries of the North Little Rock School District (NLRSD), and as an open-enrollment public charter school which is not restricted in its student enrollment by district boundaries, expects to obtain most of its students from within the boundaries of the NLRSD, with its remaining students coming from the Little Rock and Pulaski County Special School Districts.

CCLCS is required by Ark. Code Ann. § 6-23-105 to carefully review the potential impact its opening would have upon the efforts of the NLRSD, Little Rock and Pulaski County Special School Districts to comply with court orders and statutory obligations to create and maintain a unitary system of desegregated public schools. In conducting its review, CCLCS has substantiated that the NLRSD and the Little Rock School District (LRSD) have been found by the federal District Court to be unitary in all respects of its school operations. The Pulaski County Special School District (PCSSD) has been determined by the federal District Court to be unitary in all respects concerning inter-district student assignment. The importance of the attainment of unitary status of the NLRSD and the LRSD, and the status of PCSSD as unitary in the area of inter-district student assignment is that those school districts have no further obligations to comply with court orders in these areas. Therefore, the granting of an open-enrollment public school charter for CCLCS cannot be said to have a negative impact on the NLRSD, LRSD and PCSSD's ability to comply with the districts' court orders or statutory obligations to create and maintain a unitary system of desegregated public schools.

CCLCS is asking for an enrollment cap of seven hundred fifty (750) students; it is anticipated that approximately 388 students will be enrolled in CCLCS during its first year of operation. According to the 2012-2013 school year enrollment figures (the latest school year for which official enrollment figures are available) as maintained by the ADE Data Center, the NLRSD had a student population of 8,610 students; the LRSD had a student population of 23,594 students, and the PCSSD had a student population of 17,245 students. At its maximum enrollment of 750 students, the student population of CCLCS would equal 8.7% of NLRSD's student population; 3.2% of LRSD's student population, and 4.3% of PCSSD's student population. Pursuant to Ark. Code Ann. § 6-23-306, CCLCS must be race-neutral and non-discriminatory in its student selection and admission processes, so it is not possible to accurately project the racial composition of CCLCS. Ark. Code Ann. § 6-23-105 requires that CCLCS's operation will not serve to hamper, delay, or in any manner negatively affect the desegregation efforts of a public school district or districts within the state. CCLCS's careful review of the relevant statutes and court orders affecting the three (3) Pulaski County school districts, and the student populations of such districts, shows that such negative effect is not present here.

In 2010, LRSD filed a motion to enforce the 1989 Settlement Agreement in the Pulaski County School Desegregation case. The federal District Court permitted the Pulaski County open-enrollment public charter schools to intervene to present their arguments against the motion. That motion

contends that the operation of open-enrollment public charter schools within Pulaski County interferes with the “M-M Stipulation” and the “Magnet Stipulation.” On January 17, 2013, United States District Judge D.P. Marshall, Jr. denied LRSD’s motion in these words:

To sum up, LRSD and Joshua’s motions fail because, after considering the undisputed facts, and considering those that are disputed in LRSD and Joshua’s favor, no reasonable fact finder could conclude that the State is in material breach of the parties’ 1989 Settlement Agreement as to open-enrollment charter schools in Pulaski County. The proof of any adverse effect beyond the margin on either the stipulation magnet schools or M-to-M transfers has not materialized. The cumulative effect of open-enrollment charter schools in Pulaski County on the stipulation magnet schools and M-to-M transfers has not, as a matter of law, substantially defeated the relevant purposes of the 1989 Settlement Agreement, the magnet stipulation, or the M-to-M stipulation.

Little Rock School District, et al. v. North Little Rock School District et al., Lorene Joshua et al., Arkansas Virtual Academy, et al., Case No. 4:82-CV-866-DPM, U.S. District Court-Eastern Division of Arkansas Western Division, Document 4809, at page 29.

In conclusion, CCLCS submits that, upon the basis of its review, neither any existing federal District Court desegregation order affecting the NLRSD, LRSD and PCSSD, nor the 1989 Settlement Agreement, prohibit the State’s charter school authorizer from granting a new charter for an open-enrollment public charter school in Pulaski County.

C-22: SUSTAINABILITY OF THE PROGRAM

The Sustainability section should describe the applicants’ plan to ensure continued success of the charter school over time.

Evaluation Criteria:

A response that meets the standard will present:

- The names, experience, and qualifications of the individuals responsible for the application; and
- The plan to ensure the sustainability of the charter in the future.

Partially Meets the Standard - MEETS THE STANDARD (BASED ON RESPONSE)

Concerns and Additional Questions:

- Explain what the founders are doing or will do to ensure the success of the charter school when others are in leadership roles.

Leaders receive 160 hours in professional development, effective succession plans, policies and procedures are in place to insure continuity of effective school operations. The LHA Talent Management team has conducted intensive recruitment efforts that resulted in 737 teacher and leader applications. In addition to attending college fairs at state universities, we recruit from national organizations and sites including: Idealist; National Alliance for Public Charter Schools; US Charter Schools: School Spring; National Educators Employment Review; Teacher Jobs; Accomplished Teacher (National Board); Smartbrief of Educators); Teachers of Color, Special Education Teachers. The founding Board of Directors will be the governing Board of Directors and with the assistance of LHA will hire and evaluate the school leaders. The Board will have a

professional development plan that will meet the ADE rules governing required training for school board member and will ensure its ability monitor the academic and financial health of the school. The Board will employ an external auditor to monitor the school's financial well being. The Board will review data on academic and non academic goals monthly. The Board retains the authority to make changes in the program, policies and procedures as may be needed to ensure the success of the school.

REVISED BUDGET

**Public Charter School Application
Personnel Salary Schedule**

| Administrative Positions: | | 2014-2015 | Salary 2014-2015 | 2015-2016 | Salary 2015-2016 |
|----------------------------------|---------------------------------|------------------|-------------------------|------------------|-------------------------|
| <i>Line#</i> | List Positions | No. FTEs | | No. FTEs | |
| 1 | Principal | 1 | \$80,000.00 | 1 | \$82,400.00 |

LESSON PLAN

| | |
|--|--|
| <p>Common Core Standard(s)/(State Standards):</p> <p>Monday: 3.MD.1 * Tell and write time to the nearest minute and measure time intervals in minutes (nearest minute)</p> <p>Tuesday: 3.MD.1 * Tell and write time to the nearest minute and measure time intervals in minutes (elapsed time)</p> <p>Wednesday: 3.MD.1 * Tell and write time to the nearest minute and measure time intervals in minutes (elapsed time)</p> <p>Thursday: 3.NBT.3 Multiply one-digit whole numbers by multiples of 10 in the range 10–90</p> <p>Friday: 3.NBT.3 Multiply one-digit whole numbers by multiples of 10 in the range 10–90</p> | <p>High Yield Strategies:</p> <p><u>_x_</u> compare/ contrast</p> <p><u>_</u> summarizing</p> <p><u>_x_</u> reinforcement</p> <p><u>_x_</u> homework</p> <p><u>_</u> non-linguistic</p> <p><u>_x_</u> coop. learning</p> <p><u>_x_</u> setting obj.</p> <p><u>_</u> hypotheses</p> <p><u>_x_</u> cues, questions & graph org</p> |
| <p>Vocabulary:</p> <p>Monday: Analog clock, Digital clock, Minute, Hour</p> <p>Tuesday: Elapsed Time, Interval, a.m., p.m.</p> <p>Wednesday: Analog clock, Digital clock, Minute, Hour, Elapsed Time, Interval, a.m., p.m.</p> <p>Thursday: multiples</p> <p>Friday: multiples of 10</p> | |
| <p>Learning Target: (What will the students know & be able to do as a result of these lessons)?</p> <p>Monday: SWBAT tell and show time to 5-minute and minute intervals</p> <p>Tuesday: SWBAT to solve elapsed time word problems.</p> <p>Wednesday: REVIEW: SWBAT to tell and show time and solve elapsed time word problems.</p> <p>Thursday: SWBAT to multiply numbers by 10.</p> <p>Friday: SWBAT to multiply numbers by multiples of 10 up to 90.</p> | |
| <p>Essential Questions/Enduring Understanding:</p> <p>Monday: Can I tell time to the nearest 5-minute interval? Can I tell time to the nearest minute interval?</p> <p>Tuesday: Can I solve problems involving elapsed time?</p> <p>Wednesday: Can I tell time to the nearest minute interval? Can I solve problems involving elapsed time?</p> <p>Thursday: How do I multiply by 10?</p> <p>Friday: How can I use my knowledge of place value to help me multiply by multiples of 10?</p> | |
| <p>Formative Assessments: (How will you & your students know if they have successfully met the outcomes? What specific criteria will be met in a successful product/process? What does success look like on this</p> | |

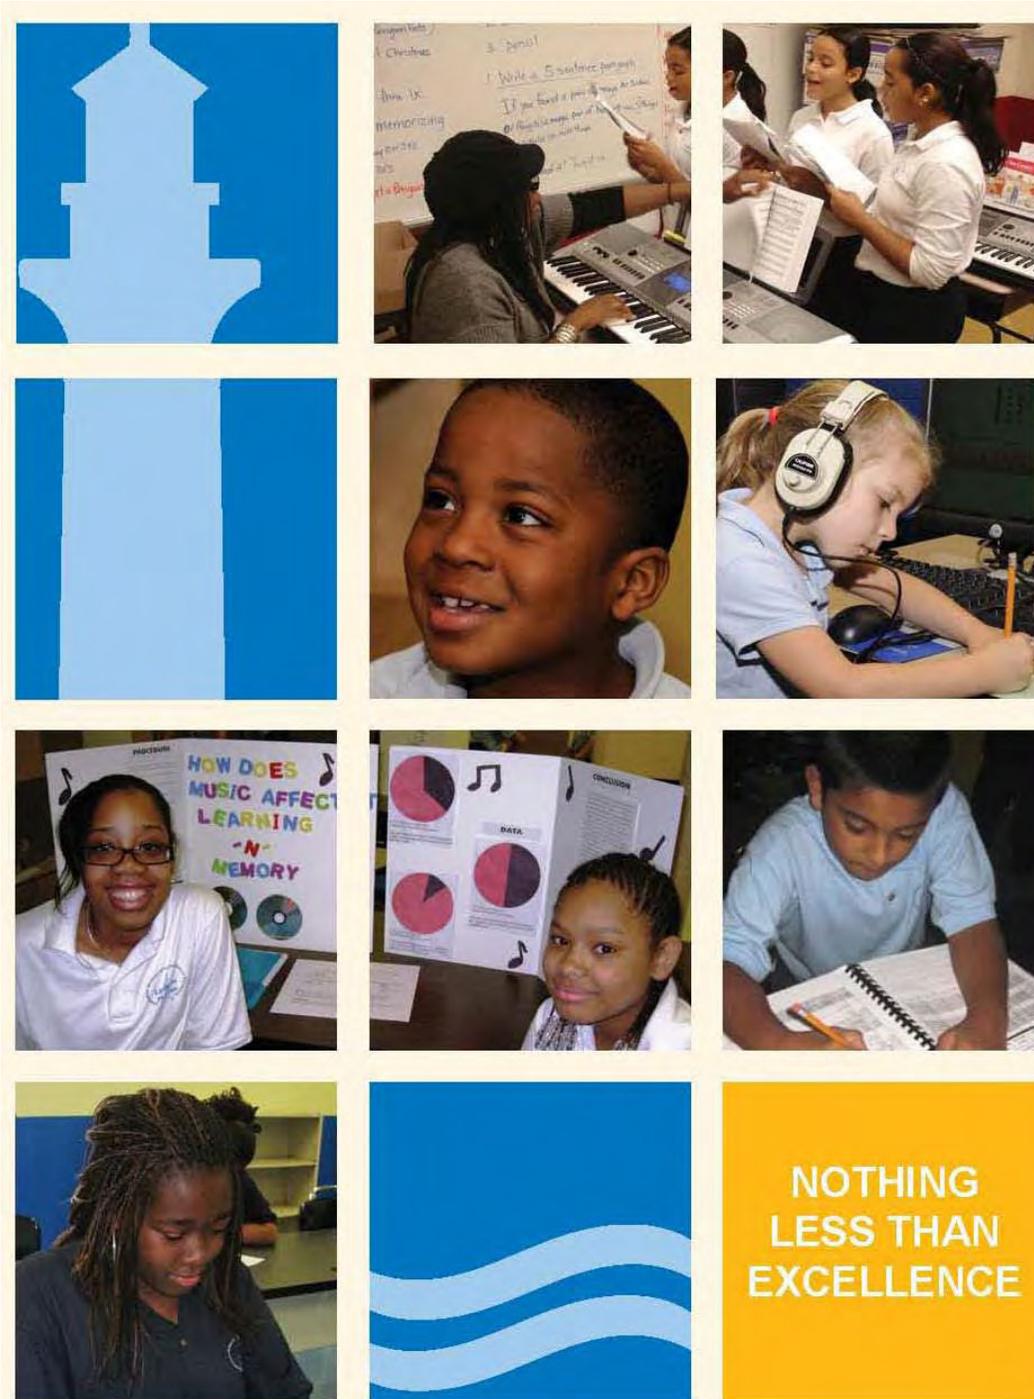

| | | | |
|--|--|--|-----------------------------------|
| lesson's outcome look like?) | | | |
| <p>Monday: Students can tell and draw time to the nearest 5-minute and minute.</p> <p>Tuesday: Students will be able to solve word problems involving elapsed time.</p> <p>Wednesday: Students will be able to solve word problems involving elapsed time. Students can tell and draw time to the nearest 5-minute and minute.</p> <p>Thursday: can correctly multiply by 10.</p> <p>Friday: can correctly multiply by multiples of 10.</p> | | | |
| Questioning: (What questions do I need to ask students? What questions can I ask students who get stuck?) | | | |
| <p>Monday: How does skip-counting help us determine time to the nearest 5-minute intervals?</p> <p>Tuesday: How can I use a number line to help answer questions about elapsed time?</p> <p>Wednesday: How can I use a number line to help answer questions about elapsed time? How does skip-counting help us determine time to the nearest 5-minute intervals?</p> <p>Thursday: How can skip-counting help me multiply by 10?</p> <p>Friday: How can I use properties of operations to help me solve these multiplication problems?</p> | | | |
| Misconceptions: (What Misconceptions might students have?) | | | |
| <p>Monday: Telling time at the end of the hour (students get confused at which hour this is).</p> <p>Tuesday: When calculating elapsed time between am and pm.</p> <p>Wednesday: When calculating elapsed time between am and pm. Telling time at the end of the hour (students get confused at which hour this is).</p> <p>Thursday: Not realizing the one's place will end in zero when multiplying by 10.</p> <p>Friday: Not understanding the multiples of 10.</p> | | | |
| Relevance/Rationale: (Why are the outcomes of this lesson important in the real world?) Why are these outcomes essential for future learning?) | | | |
| You use time in everything you do. You need to know how to calculate elapsed time on a daily basis. Multiplying by 10 makes counting a lot easier. | | | |
| M O N D A Y | Objective: SWBAT tell and show time to 5-minute and minute intervals | Differentiation of Instruction: | Bloom's Taxonomy Level |
| | Do Now: TLI warm-up: telling time to nearest half hour | ELL : N/A | x Knowledge |
| | Guided Practice: | | x Comprehen sion |
| | First I will model how to tell time to the nearest-five minute with a demo clock as students draw it on their papers. Then students will have the opportunity to practice with their personal clocks as I write the digital clock on the board. Lastly, students will spend time working with their partners as I worked with them as a class. If time permits, we will play time-bingo as a class. | GT: In partner work, these scholars will be the ones assisting the lower students the "times", explaining | x Application Analysis |

| | | | | | |
|---|---|---|--------------------------------------|---------------------------|-----------------------------|
| | <p>Independent Practice: Students will be asked to tell and show time to the nearest 5-minute and nearest minute.</p> <p>Art Infusion: Bingo game</p> <p>This activity should be completed in small groups.</p> <p>Number of Players: 2-6 per group plus one “bingo caller”</p> <p>Materials: bingo playing boards, small bingo time cards, bingo chips</p> <ol style="list-style-type: none"> 1. Decide who will be the “bingo caller.” This person will make sure all the bingo time cards are shuffled and hand out one bingo playing board to each player. 2. The “bingo caller” says one time card at a time, allowing players enough time to check their card and mark it if needed. 3. Play continues until one of the players says “BINGO!” Bingo can be called when a player gets 3 in a row marked on their board, either horizontally, vertically, or diagonally. 4. Play can continue to find a second and third place after a winner is found or the game can start over <p>Resources/Materials: do-now, bingo</p> <p>Independent Practice: Students will tell and show time to the nearest hour and answer questions about elapsed time.</p> <p>Art Infusion: students will use their small clocks to move the hands to time I say aloud. Scholars will receive additional reinforcement from the Arts and Music Specialist.</p> <p>Resources/Materials: do-now, demo clock, personal clocks, bingo boards, bingo pieces, ind practice sheet</p> | <p>how to find the time.</p> | | <p>Synthesis</p> | <p>Evaluation</p> |
| <p>T</p> <p>U</p> <p>E</p> <p>S</p> <p>D</p> <p>A</p> <p>Y</p> | <p>Objective: SWBAT to solve elapsed time word problems.</p> <p>Do Now: TLI warm-up: telling time to the nearest 5-minute interval and nearest minute</p> <p>Guided Practice:</p> <p>First we will review telling time, especially to the nearest five-minute interval, how many minutes are in an hour, and so forth. I will begin with my demo clock, counting by five-minute intervals until I hit the :00 marker. I will ask them questions like, “if I start at 5:15, how many minutes is it until 5:45?”, and then we will practice counting together. The scholars will then take out their clocks and practice counting how much time has elapsed as well.</p> | | <p>Bloom’s Taxonomy Level</p> | <p>x Knowledge</p> | <p>Comprehension</p> |
| | | <p>ELL : N/A</p> | <p>x Application</p> | <p>x Analysis</p> | |
| | | <p>GT: Advanced students will create elapsed time problems and switch problems with another student.</p> | | | |

| | | | | |
|--|---|--|----------|---|
| | <p>After, we will practice doing more extensive problems that reach into the next hour, instead of staying within the same. I will teach them that they need to count from the beginning time, to the end time, generally from five-minute intervals.</p> <p>Independent Practice: Students will answer TLI questions about elapsed time.</p> <p>Art Infusion: Students will practice counting elapsed time with their clocks. Additional support from the Arts and Music Specialists.</p> <p>Resources/Materials: do-now, demo clock, personal clocks, elapsed time problems</p> | <p>IEP: Scholars will answer questions that only require computation within the hour.</p> | <p>x</p> | <p>Synthesis</p> |
| <p>W E D N E S D A Y</p> | <p>Objective: SWBAT tell time and solve elapsed time word problems.</p> <p>Do Now: TLI warm-up: review problems</p> <p>Guided Practice:</p> <p>Today is going to be a merely review day of telling time and solving elapsed word problems. Students will be separated into respective groups based on how they have performed in the two previous days. Scholars will either be working on telling time (to the nearest 5 minutes or minute) or will be working on solving elapsed time problems.</p> <p>Independent Practice: N/A: informal—walking around helping students.</p> <p>Art Infusion: telling time song and additional support from Arts and Music Specialists.</p> <p>Resources/Materials: do-now, TLI review</p> | <p>Differentiation of Instruction:</p> | | <p>Bloom's Taxonomy Level</p> |

ARTS INFUSION TOOLKIT

Lighthouse Academies®

Arts Infusion Toolkit

Introduction to the Arts Infusion Toolkit

Arts-infused instruction is central to the Lighthouse Academies Education Model, therefore, as an organization we continuously strive to improve and build upon our arts infusion practices. This toolkit is designed to serve as a resource for all Lighthouse educators. The contents of the toolkit are as follows:

- Arts Infusion at Lighthouse Academies
The Lighthouse definition, rationale and essential components of arts-infused instruction
- Arts Infusion School Rubric
A tool to measure the strength of art- infused practices across a school
- Arts Infusion Self-Reflection Rubric
A tool to guide teachers in self-assessing their implementation of arts-infused practices
- A Week in an Exemplary Arts-Infused Classroom
A sample schedule from an exemplary arts-infused classroom
- Quick and Simple Tips for Infusing the Arts into Daily Instruction
A list of ideas for infusing the arts into everyday practices
- Process for Developing Arts-infused Lessons
A framework for approaching arts infusion lesson planning
- Sample Timeline for Rolling Out Arts Infusion Toolkit at Schools
Suggestions for how schools can introduce the different components of the toolkit to the staff
- Resources
A list of additional resources for developing arts-infused practices
- Sample Arts-Infused Lesson Plans
A collection of model arts-infused lessons

Arts Infusion at Lighthouse Academies

Definition

At Lighthouse Academies, an arts-infused school is a place where the arts permeate school culture. Every day, visual arts, movement, music and other forms of creative expression¹ are integral parts of the teaching and learning processes. The Lighthouse Academies arts infusion model consists of two principles: 1) incorporating the arts into academic instruction and 2) daily exposure to master artists and works of art.

| Incorporating the Arts Into Academic Instruction Example: Neighborhood Jobs | Daily Exposure to Master Artists and Works of Art Example: Music Appreciation Program |
|---|---|
| <p>Objective: <i>SWBAT identify and explain the jobs of people in their community.</i></p> | <p>Objective: <i>SWBAT identify and describe various musical genres and the musicians that had major impacts on the development of those genres.</i></p> |
|  |  |
| <p>Students in first grade learned about neighborhood jobs as part of a social studies unit. After a tour of their community, students selected jobs and wrote about what a person in that job does, where they do it and what special tools or materials they need. Students created models of the people and places they wrote about. Each class worked together to paint a street scene backdrop on which to mount their work. Students' writing and artwork were combined and displayed as one large neighborhood scene that depicted community jobs.</p> | <p>Each day at Lighthouse Academies schools, students enter the building and hear the sounds of the musician of the week. The music appreciation program is reinforced through short, but regular classroom routines such as mini-lessons and listening time.</p> |

¹ Examples of creative expression include drama, poetry, speech.

Rationale and Research

Arts infusion is a powerful approach to teaching that enhances student learning and increases student engagement in education.² By providing students with creative ways of learning and applying core content knowledge, the arts enhance students' understanding and retention of skills and concepts. Research shows that the arts play a key role in brain development,^{3,4} and the College Entrance Examination Board reports that students who participate in art do better in academics than other students.⁵ The arts have been shown to be particularly effective in reaching economically disadvantaged students who are most at-risk of disengaging from school.⁵

Based on the research, we believe arts-infused instruction is an effective method for activating student interest, a valuable way to engage students in learning and an alternative means of assessing student understanding of content and concepts. At Lighthouse Academies we put the power of the arts to work for our students through a comprehensive arts infusion program. This program is centered on three essential components – collaboration, instruction and student outcomes.

Essential Components

Collaboration Teachers collaborate regularly with other teachers to create, plan and co-teach arts-infused lessons. Teachers dedicate time to plan arts-infused instruction within and across grade levels. This collaboration provides an opportunity for teachers to learn from each other, develop their practice and enhance the overall practice of arts-infused instruction at the school.

Instruction Arts infusion fundamentally changes the nature of teachers' lessons. Teachers may use arts infusion to *activate, engage* and/or *assess* students in learning activities. These activities range from single lessons to longer projects developed over the course of an entire unit of material. In all cases, art provides students with creative means of learning and/or applying the skills and knowledge from the core curriculum. Furthermore, teachers regularly incorporate exposure to master works of art and artists in order to expand students' knowledge base of different cultures, artistic movements, and to increase their overall appreciation for different forms of expression.

Student Outcomes The efficacy of all instruction, including arts-infused instruction, is measured by student outcomes. Successful implementation of an arts-infused program should result in student mastery of learning objectives. Arts infusion provides a means to achieving this mastery, and it can also be used as an alternative way to assess students' ability to think critically about the content and concepts they are studying.

Common Misconceptions about Arts Infusion

To infuse the arts into instruction I need to have special artistic talents.

- Arts infusion does not require specialized artistic talent, equipment, or funding. General classroom teachers can learn arts infusion best practices and incorporate them into their instruction without having any specific artistic capabilities.

Arts infusion takes away from instruction in the core academic subjects.

- The benefit of using arts infusion is that it actually supports student achievement in academic subjects. When arts infusion is implemented correctly, student achievement increases because students have the opportunity to access content through a variety of avenues.

Arts infusion makes classroom management more challenging.

- Arts infusion supports classroom management because it allows students to be active and creative in positive ways. Students who are traditionally disruptive during instructional time often respond well to arts infusion because they become more engaged and these activities may provide them the opportunity to be successful in subjects they usually struggle with.

Arts Infusion Examples

Arts infusion takes many forms at Lighthouse Academies. A teacher may infuse art into a single lesson to give students creative freedom in applying the new skills and knowledge they learned that day (see examples of “Single Lesson Activities” below), or a teacher may create a long-term project based on themes from a core content area (see examples of “Multi-Lesson Projects” below). In all arts-infused instruction, teachers and arts specialists aim to design lessons and projects in which the creative activity is meaningfully linked to the core content learning objective.

Single-Lesson Activities

Math & Painting:

Ms. Oakley’s Kindergarteners, dressed in their “painters’ smocks,” stand in front of large sheets of butcher paper posted throughout the room and use their fingers to paint compositions of colored numbers. They have just completed a Saxon math lesson on the numbers 1 through 10. Ms. Oakley has teamed up with the arts specialist to use art to reinforce both the concept of the numbers and the skill of writing them. After modeling the lesson, they instruct students to paint one “1”, two “2’s”, three “3’s”, etc. on the butcher paper, allowing students to choose the color, size and placement of each number. As the students work on their own number compositions, both the teacher and arts specialist circulate among the students to offer feedback and assistance. Once all of the compositions have been finished, the teacher, arts specialist and students discuss the correctness of the numerals and the aesthetics of each composition. This lesson is an example of how arts infusion can be used to better engage students.

Reading & Music:

Kindergarteners in Mr. Marshall’s class are learning that words are made up of syllables. After the Open Court Reading lesson on syllables, Mr. Marshall passes out the tambourines and maracas that the music teacher has been using to teach the students rhythm in music class. Then, as Mr. Marshall calls out single and multiple syllable words, students repeat the syllables in those words using their instruments. Mr. Marshall says, “pan-cakes” and then the class in concert, makes two maracas shakes and two tambourine beats. “Beautiful” – three maraca shakes and three tambourine beats. Mr. Marshall talks about how syllables create the rhythm of language and he demonstrates this by singing common children’s songs and having his students repeat the syllables with their instruments. Students are fully engaged in the instrumentation and singing while learning English in the process. The lesson also provides Mr. Marshall an alternative way to assess student understanding.

Vocabulary and Drama

Ms. Finn's 8th grade class is learning Latin and Greek word parts. To review the meanings of the word parts, she breaks the class into four teams and they play 'word parts charades.' Students pick a word part out of a hat and have one minute to act out the meaning of the word part for their teammates to guess. Teams are given bonus points if they can name words that include the word part. For example, one student picks "geo" and uses gestures and movements to represent rotations and orbiting until his team members figure out he is acting as the Earth. In the remaining seconds of the round the teammates call out words that include geo for bonus points: "Geography! Geology!" Through this activity Ms. Finn has found a way to engage students in reviewing academic content.

Multi-Lesson Projects

History, Music and Paintings:

Mr. Wright's 10th grade class has been studying the Great Depression. Every day, Mr. Wright has opened his lessons by playing folk music from the time period. After repeated exposure, students have become familiar with songs like "Brother, Can You Spare a Dime?" and "Big Rock Candy Mountain." To assess students' understanding of the mood and experiences of Americans during the Depression, Mr. Wright provides students with the lyrics to these familiar songs as well as some prints of paintings from the time period. In small groups, students analyze the artwork and create PowerPoint presentations that explain how the songs and paintings reflect the Depression. After one week of working on the slideshows, students present their work to their classmates.

Reading & Drama:

Small groups of Mr. Kim's third grade students are sitting around tables, engrossed in discussions about the book they just finished reading. While normally it is difficult to keep all of the students engaged in literature discussions, this time it is different. This time, students have been asked to plan and perform a three-minute play based on the story they read. The assignment generates enthusiasm among the students not only for the final play, but for all of the activities leading up to the play. In the first activity, each group writes a summary of the story by dividing the story up into a beginning, middle and end – Acts I, II and III. Next, each group writes a list of words that describe the main characters. Students choose which character they will play and use the list of character traits they generated to inform their performance. Finally, the arts specialist coaches each group of students in the dramatic presentation of their play. This project helps Mr. Kim engage students in the learning process and provides him a way to assess students' understanding of a book.

Science, Reading & Sculpture

In 9th grade, Ms. Jenkins' students are studying the hydrologic cycle. To assess students' understanding of the different phases of the cycle Ms. Jenkins has students create flip books on the computer that show the processes of evaporation, condensation, precipitation, surface runoff and groundwater percolation, infiltration and transpiration. Ms. Jenkins determines whether students have mastered this concept by examining the accuracy of their visual representations of the hydrologic cycle.

Lighthouse Academies Arts Infusion School Rubric

| Arts Infusion Component | Novice | Beginning Proficiency | Advanced Proficiency | Exemplary |
|-------------------------|--|---|--|---|
| Collaboration | <ul style="list-style-type: none"> <input type="checkbox"/> The school does not dedicate formal planning time (e.g., grade level meetings, PDI sessions, etc.) for teachers to develop arts-infused practices. <input type="checkbox"/> Staff members do not collaborate informally to develop arts-infused practices. <input type="checkbox"/> There are no arts-infused school routines and no evidence of common arts-infused instructional practices within or across grade levels. <input type="checkbox"/> The school has not established any partnerships with external organizations. <input type="checkbox"/> The school has not sought out additional resources (e.g., grants, field trip opportunities, etc.) to support arts-infused practices. | <ul style="list-style-type: none"> <input type="checkbox"/> The school dedicates formal planning time (e.g., grade level meetings, PDI sessions, etc.) once or twice a year for teachers to develop arts-infused practices. <input type="checkbox"/> Approximately half of the staff members collaborate informally to develop arts-infused practices. <input type="checkbox"/> The collaborative efforts of the staff are evident in one or two arts-infused school routines, but there is little evidence of common arts-infused instructional practices within or across grade levels. <input type="checkbox"/> The school has established at least one partnership with an external organization, but work with the partner does not always align to the LHA definition of arts infusion. <input type="checkbox"/> The school has sought out and secured additional resources (e.g., grants, field trip opportunities, etc.) to support arts-infused practices in most grade levels. | <ul style="list-style-type: none"> <input type="checkbox"/> The school dedicates formal planning time (e.g., grade level meetings, PDI sessions, etc.) once or twice a semester for teachers to develop arts-infused practices. <input type="checkbox"/> Approximately three-quarters of the staff members collaborate informally to develop arts-infused practices. <input type="checkbox"/> The collaborative efforts of the staff are evident in several arts-infused school routines and several common arts-infused instructional practices within and across grade levels. <input type="checkbox"/> The school has established at least one partnership with an external organization that provides students and teachers some opportunities to infuse the arts into instructional activities in a manner that is aligned to the LHA definition of arts infusion. <input type="checkbox"/> The school has sought out and secured additional resources (e.g., grants, field trip opportunities, etc.) to support arts-infused practices in all grade levels. | <ul style="list-style-type: none"> <input type="checkbox"/> The school dedicates formal planning time (e.g., grade level meetings, PDI sessions, etc.) several times a semester for teachers to develop arts-infused practices. <input type="checkbox"/> Almost all of the staff members regularly collaborate informally to develop arts-infused practices. <input type="checkbox"/> The collaborative efforts of the staff are evident in many arts-infused school routines and many common arts-infused instructional practices within and across grade levels. <input type="checkbox"/> The school has established at least two or three partnerships with external organizations that provide students and teachers frequent opportunities to infuse the arts into instructional activities in a manner that is aligned to the LHA definition of arts infusion. <input type="checkbox"/> The school has sought out and secured additional resources (e.g., grants, field trip opportunities, etc.) to support arts-infused practices in all grade levels. |

| Arts Infusion Component | Novice | Beginning Proficiency | Advanced Proficiency | Exemplary |
|-------------------------|---|---|---|---|
| Instruction | <ul style="list-style-type: none"> <input type="checkbox"/> Less than a quarter of the school's teachers effectively and regularly infuse arts activities into core academic instruction to activate, engage and/or assess students. <input type="checkbox"/> Arts-infused instruction across the school incorporates one or two of the following art forms: visual arts, movement, music, and other means of creative expression (drama, speech, etc.). <input type="checkbox"/> School-wide events (performances, parent nights, Town Hall Meetings, etc.) are not arts-infused. <input type="checkbox"/> Students are not exposed to significant works of art through school or classroom routines (music appreciation, featured artists, etc.). <input type="checkbox"/> Less than a quarter of the students are exposed to significant works of art through at least one field experience (e.g., museum trips, attending a play). | <ul style="list-style-type: none"> <input type="checkbox"/> About half of the school's teachers effectively and regularly infuse arts activities into core academic instruction to activate, engage and/or assess students. <input type="checkbox"/> Arts-infused instruction across the school incorporates most of the following art forms: visual arts, movement, music, and other means of creative expression (drama, speech, etc.). <input type="checkbox"/> School-wide events (performances, parent nights, Town Hall Meetings, etc.) are rarely (five to 10 times a year) arts-infused. <input type="checkbox"/> Students are occasionally (about once a month) exposed to significant works of art through school and classroom routines (music appreciation, featured artists, etc.). <input type="checkbox"/> More than three-quarters of students are exposed to significant works of art through at least one field experience (e.g., museum trips, attending a play). | <ul style="list-style-type: none"> <input type="checkbox"/> About three quarters of the school's teachers effectively and regularly infuse arts activities into core academic instruction to activate, engage and/or assess students. <input type="checkbox"/> Arts-infused instruction across the school incorporates all of the following art forms (but one or two may be more heavily emphasized than others): visual arts, movement, music, and other means of creative expression (drama, speech, etc.). <input type="checkbox"/> School-wide events (performances, parent nights, Town Hall Meetings, etc.) are sometimes (five to ten times a semester) arts-infused. <input type="checkbox"/> Students are exposed to significant works of art through weekly school and classroom routines (music appreciation, featured artists, etc.). <input type="checkbox"/> All students are exposed to significant works of art through at least one field experience (e.g., museum trips, attending a play). | <ul style="list-style-type: none"> <input type="checkbox"/> All of the school's teachers effectively and regularly infuse arts activities into core academic instruction to activate, engage and/or assess students. <input type="checkbox"/> Arts-infused instruction across the school incorporates all of the following art forms: visual arts, movement, music, and other means of creative expression (drama, speech, etc.). <input type="checkbox"/> School-wide events (performances, parent nights, Town Hall Meetings, etc.) are almost always arts-infused. <input type="checkbox"/> Students are exposed to significant works of art through daily school and classroom routines (music appreciation, featured artists, etc.). <input type="checkbox"/> All students are exposed to significant works of art through at least two field experiences (e.g., museum trips, attending a play). |

A Week in an Exemplary Arts-Infused Classroom

**Note that in an exemplary arts-infused classroom there are arts-infused activities taking place every day, but not every subject is arts-infused on a daily basis.*

| | Monday | Tuesday | Wednesday | Thursday | Friday |
|------------------------|---|---|---|---|--|
| Arrival | The musician of the week plays as students enter the room. | | | | |
| Morning Meeting | The morning message identifies the musician of the week and lists several 'fun facts' about the musician. | The morning message instructs students to listen for something special (e.g., a particular instrument, lyric, or musical technique) in the music of the musician of the week. | During the activity in Morning Meeting, student teams compete to identify all of the instruments they hear in a piece of music by the musician of the week. | During the share in Morning Meeting, students describe the mood of one of the musician of the week's pieces/songs using what they learned about describing mood in last month's poetry unit. During the activity in Morning Meeting, students play Pictionary to review the week's vocabulary words. | During the activity in Morning Meeting, the teacher explains what the Music Genome Project is and creates a new Pandora.com station based on the musician of the week. Students listen to some of the other pieces Pandora selects and try to determine why the Genome Project would link these pieces |
| Literacy | Students rehearse a tall tale play with actors from a local theater company (one of the school's arts partners) in preparation for performances at the Town Hall Meeting and upcoming Family Night. | | | | Students perform the tall tale play for the rest of the school during the Town Hall Meeting. |
| Math | Students begin class by singing a song about polygons written by one of their classmates. | | | | |
| | At the end of the class period, students spend a few minutes displaying geometric concepts (e.g., acute angles, parallel lines) with their bodies. | | | Students create a collage of polygons that have at least one common characteristic (e.g., at least one obtuse angle). Other students need to guess the 'rule' for each collage. | |
| Transitions | The musician of the week plays as students transition to new work stations, get in line, etc. | | | | |

| | Monday | Tuesday | Wednesday | Thursday | Friday |
|---------------------------|---|--|--|-----------------|---|
| Social Studies | Students listen to a piece of music from the Revolutionary War period as they complete their Do Now. | | | | |
| | | Students study Paul Revere's engraving of the Boston Massacre and pick out some of the historical facts that are visually represented in the engraving. For homework over the weekend, students are to create their own engravings (or drawings) of a historical event they studied that week. Students are responsible for ensuring their drawing includes representations of historical facts they have learned. | | | One of the actors from the theater company (see the literacy block) opens the social studies period by performing Patrick Henry's famous 'Give Me Liberty or Give Me Death' speech. |
| Science | Students read about the effects waves, wind, water and glacial ice have on the Earth's land surface. Then they create flip books to show what would happen over time to a coastline exposed to one of these elements. | | For their Do Now, students participate in a gallery walk, viewing 'before and after' photographs of eroded coastlines. | | |
| End of Day Routine | A student is selected to choose a former musician of the week the class will listen to during dismissal routines. | | | | |

Quick and Simple Ways to Infuse the Arts into Daily Instruction

| Language Arts |
|--|
| Before writing a written summary of a text, have students act it out. |
| Instead of using a graphic organizer to plan a paragraph or story, have students draw a picture of a topic they want to write about and identify the supporting details based on what they draw. |
| Have students play charades or Pictionary to review vocabulary words. |
| Have students identify significant aspects of a text's setting by creating a physical model of the setting (e.g., a diorama). |
| Have students identify creative storytelling techniques in music, and then try to replicate the techniques in their own writing. |
| Have students make a comic strip that summarizes a story, identifies the elements of plot (rising action, climax, resolution) and identifies literary techniques (foreshadowing, flashback) as captions for the comic strip's frames. |
| Have students draw pictures that represent similes and/or metaphors. Have students write the simile or metaphor as a caption for their picture. |
| Math |
| Have students recite their math facts or information about a math concept to the tune of a familiar melody. |
| Have students create art that incorporates geometry concepts (angles, polygons, etc.) they have learned about. |
| Use masking tape to create a large grid on the floor and have students create a 'dance' based on a list of coordinate pairs. |
| Challenge students to create a drawing that meets specific mathematical requirements (e.g., make two-thirds of the trees pines; make twice as many people as dogs, etc.) |
| To practice converting units of measurement, have students draw pictures of large objects to scale. |
| Science |
| Have students use movement/dance/drama to create a simulation of a concept they are learning about (e.g., evaporation, body systems, simple machines). |
| To learn the steps of the scientific method, have students create a series of tableaux or draw pictures representing each step. |
| Have students write speeches from the perspective of famous scientists describing the significance of their work. |
| Have students demonstrate the concepts behind a topic of study by creating a work of animation on the computer. |
| Social Studies |
| To review content, have students play charades – challenge them to silently act out the events or people they have studied and have the rest of the class guess what they are doing. |
| Have students create models/dioramas of famous moments in history with a written explanation of the details in their model. |
| Have students play charades or Pictionary to review vocabulary words. |
| Have students write a poem or speech from the perspective of a historical figure they are studying. |
| Play music from the time period students are studying. |
| Use a corner of the classroom to create a gallery of significant artwork from the period of study. |
| Have students create a travel brochure or commercial for a place they are studying. |
| Select an image (painting, photograph, cartoon, etc.) that illustrates various concepts from the unit of study. Show students the whole image for approximately 30 -45 seconds – no talking or writing – just to reflect on what they see in the context of their background knowledge. Then project one quarter of the image at a time (cropped with Photoshop or Paint) for approximately 90 seconds each. Have students write what they see in that quadrant – key objects, images, or phrases, and any symbols they might see. After all four quadrants have been displayed, then show the entire image again and have students analyze the image quadrant by quadrant, then draw overall conclusions (synthesis technique). |

Process for Creating Arts-Infused Lesson Plans

Step 1: Start with the objective you are trying to teach and determine how students can demonstrate they have mastered the objective.*

Step 2: Consider your students' learning styles and think about activities that align with their styles (e.g., kinesthetic learners can use dance to master objectives). Brainstorm how these activities could form a path to mastery that may differ from the standard approach your curriculum follows.

Step 3: Do some research for lesson ideas - don't try to reinvent the wheel!

- Reach out to your colleagues – you may find the arts specialist, arts partner or other general education teachers have some great ideas you can use.
- Sometimes state arts standards will help you make connections between arts skills and the objective you are trying to teach.
- There are many other resources that provide ideas for lessons – see the resources section in this toolkit.
- Look for arts infusion ideas in the curricula we already use at Lighthouse. Open Court Reading/Imagine It!, FOSS and Pearson's Core Knowledge offer ideas for activities that connect to the arts. Even if you feel that that the idea as presented in the teacher's guide is not the best, it might spark an idea for an activity that is more in line with the Lighthouse Academies arts infusion model.

*Note: Not every topic or objective is conducive to arts-infused instruction. Do not try to infuse art into a lesson if it will not improve student mastery or engagement in learning.

Using the Process to Develop an Arts-Infused Lesson

Example 1: Primary Social Studies

Objective: *SWBAT explain the ideas behind the celebration of holidays from various cultures.*

Mr. Garcia has identified this learning objective based on state standards. At the end of the unit, he wants students to be able to describe at least 5 holidays from different cultures, but he realizes that simply reading about the holidays in their social studies textbooks could result in students confusing the holidays and losing interest due to the monotony of the instructional strategy.

Instead, Mr. Garcia decides to take advantage of the many visual learners in his class to introduce the Indian holiday, Diwali. After a brainstorming session with a colleague, he plans a lesson in which students will make *diyas*, the small lamps traditionally used to celebrate Diwali. Mr. Garcia leads a discussion about the meaning of Diwali, and then he instructs students to decorate their lanterns with images that express any of the themes of Diwali – triumph of good over evil, gratitude, love, etc. Once students have decorated their lamps, each student presents his or her lamp to the class, explaining the reasons behind his or her artistic choices. This approach results in higher levels of student engagement and students retain the academic content because they have participated in a learning experience that challenges them to use their individual creativity to take ownership of their learning.

Using the Process to Develop an Arts-Infused Lesson

Example 2: Upper Elementary Math

Objective: *SWBAT use division to find quotients with remainders.*

Ms. Marco's students are struggling to master this objective, despite the many hours they have spent practicing division problems. She realizes that part of the problem is that students feel disconnected from the concept and are becoming frustrated because they are unable to successfully complete their work.

Ms. Marco knows her students enjoy being active, so she thinks about how she might help them grasp the concept of division using movement. After consulting the dance troupe that partners with her school, she develops the idea of creating 'division dances.' She breaks students into groups and assigns them simple division problems such as $7 \div 5$. Seven students in this group are responsible for creating a dance that shows what happens when they break 7 into groups of 5. Students are free to choose any style of dance, so long as it demonstrates the process of dividing a number into groups. Students are soon able to see and feel how two people will not fit into the group of five and are thus considered remainders – this must be shown in the dance. Each group creates several dances and then presents them to the rest of the class. The class is responsible for determining the division equation each dance represents. Ms. Marco uses the activity to help students understand the meaning of remainders in more difficult division problems that use two- and three-digit numbers. Ms. Marco finds that student achievement on the next division quiz has dramatically improved.

Sample Timeline for Rolling Out Toolkit in Schools

School leaders may share this toolkit with their staff before the start of the school year. Leaders may choose to roll out the components of the toolkit in parts. For example, the rollout process could follow this timeline:

PDI

- Staff reads and discusses the Lighthouse Academies Arts Infusion Statement
- Staff uses the Arts Infusion School Rubric to discuss and reflect on the school's arts infusion practices and to set goals for the school year
- Teachers review sample lessons and collaborate in teams to incorporate ideas into long-term planning

Fall PD Day

- Staff revisits the school rubric and discusses progress towards goals
- Teachers complete the Self Reflection on Arts Infusion Practices and set individual goals
- Teachers present best practices from their classrooms
- Teachers collaborate in teams to develop and refine arts-infused practices

Spring PD Day

- Staff revisits the school rubric to discuss progress towards goals and to set goals for the following school year
- Teachers complete the Self Reflection on Arts Infusion Practices and review individual goals from the fall
- Teachers present best practices from their classrooms
- Teachers collaborate in teams to develop arts-infused practices
- Staff selects Arts Infusion Leadership Committee to set agenda for arts infusion PD during the following school year

Lower Academy Math Lessons

Number Books

| |
|---|
| Connection to LHA Curriculum Program: <i>Saxon Math</i> |
| Desired Outcomes |
| Understandings (objectives)*: SWBAT represent the value of the numbers 1-10 using visual images. |
| Assessment Evidence |
| Performance task (arts-infused activity): Students will select a theme for a number book that will represent the values of the numbers 1- 10. |
| Learning Plan |
| Learning Activities: <ul style="list-style-type: none">• This project can be done in one or two class periods.• Show a model number book and read it with the children. Explain to children that today they will make their very own number book. For example, students may select the theme of animals (one elephant, two birds, etc.) but any theme will work.• Hand out strips of paper to each student (each student should get 10 strips – the smallest being 1 inch wide and the largest being 10 inches wide). Explain that each page needs to include three things: the numeral, the number written as a word and a drawing that represents the value of the number. Guide them through the process of creating their first page. Write the numbers on the board for students to reference as they continue their work independently.• When students have completed all ten pages, they will use colored construction paper to make a title page. Show the students how to write “My Number Book” and review author and illustrator. Explain to children that they are the author and illustrator of their own book.• Help the children put their pages in a pile with the cover and back at the beginning and end. Punch two holes and tie the yarn loosely to bind the book.• Students will be very excited to share their books, so organize a time when they can read their books to each other. The students should be able to read their own books. |
| Accommodation: Advanced students can write the name of what they drew (8 cats). Some students may need to use teddy bear counters as a manipulative to understand number value. The teacher may write the numbers and their written names on the board for students to reference. |
| Assessment: Students can assess themselves during a class lesson on revision. The teacher can lead them through the process of checking each page to make sure that the students completed each part |

of the assignment. A large version of the number book can be displayed for children to check their work against.

Does each page include the number, the word for the number, and pictures that correspond to the number? Does the student's book demonstrate understanding of number value?

Extensions: Students can make a number book for the numbers 11-20. Students can read the book *The Very Hungry Caterpillar* by Eric Carle, which follows a similar model, and create a book in his style using tissue paper collage. Students could make up a story using numbers, and the teacher could record it or help the child to write it.

Materials:

- Two pieces of colored construction paper for each child.
- White paper in various sizes (8x10 paper held horizontally, cut into strips varying from 1 inch wide to ten inches.)
- Hole punch
- Yarn

*Teachers should align objectives to their state standards.

Painting Combinations of 10

Connection to LHA Curriculum Program: *Saxon Math*

Desired Outcomes

Understandings (objectives)*:

SWBAT identify the different combinations of addends that make sums of 10.

Assessment Evidence

Performance task (arts-infused activity):

Students will create paintings that demonstrate combinations of addends that make sums of 10.

Learning Plan

Learning Activities:

Prerequisite Knowledge

- Children identify and understand numbers to ten. Children have experience combining addends to make sums.

Procedure for Teaching:

- In partners, present students with this story problem:

Malik has a pet store which sells dogs and cats. He only has room for 10 cages. Each cage fits one cat or dog. How many different ways could he fill his 10 cages with dogs and cats?

- Read the problem with the students. Ask, “What do we need to find out to solve this problem? What are some ways we can solve this problem?” Develop an understanding of the question with the students. Encourage them to think about all the different strategies they could use to solve the problem, such as drawing pictures, using manipulatives, or making a list. Give children time to work with their partners to explore the solutions to this problem on their own.
- Ask students to share their answers. Assess informally through inquiry whether students were able to find all the combinations of cats and dogs that would fill the pet shop.
- Share with students the idea of using linking cubes to show combinations. Use red to show dogs and blue to show cats. Create a blank table on the board with dogs written in red and cats written in blue. Model a first combination, 10 dogs and 0 cats. Show children how to record their combinations by coloring with crayons and writing the number sentence next to the row on the worksheet. Model a second combination, 9 dogs and 1 cat. Review the recording process with children. Ask children, “What

combination do you think you would do next? Why?"

- Allow children to find the remaining combinations with their partners. After completion, ask a pair to show their combinations to the class. Ask them to explain how they find all the combinations. Allow children to ask the demonstration pair other questions to clarify their thinking. Complete the blank table on the board as a class with all the ways to make 10. Talk with different pairs of children to assess their understanding. Ask questions to get children to explain their thinking.
- Tell children that they will now be creating a class pet store. Each pet will have 10 stripes, 10 spots, or a combination of stripes and spots. Give children a pre-cut paper dog or cat. On each cat or dog, ask children to create a combination of ten total spots and stripes. Encourage children to be creative, think big, and be imaginative about the kinds of stripes and spots the animals have. On the back of each cat or dog, ask students to write a number sentence that shows the number of spots and stripes on their pet.
- Ask children how they made 10 with the stripes and spots. Did we all have the same combinations? Did we make every combination as a class? How would this activity be different if we had to make 9 or 11?
- Tape children's cats and dogs to a long string. Display the class pet store around the room. Ask children informal assessment questions like, who can find the pet with 8 stripes and 2 spots? Are there any pets with 8 stripes and 3 spots? Why or Why not?

Accommodations

- Children who have special needs might not be able to sequentially find all the combinations of addends that make 10. Partner students who need more help with students who are adept at working in a sequential fashion. Emphasize the visual cueing of the colored cubes to show how the combinations differ.
- For children who are already proficient in all the ways of making 10, ask them to consider how the problem would be different if there were 11 cages. What combinations of dogs and cats would there be then? Would you use a different strategy to find the answer?

Assessment

Walk around with a clipboard and write anecdotal notes as they watch children use different addends to make 10. What strategies do children use to make 10? Do they use the manipulatives? Do they use their knowledge of doubles or doubles-plus-one facts? Do children understand the concept of zero and consider it as another addend to use to make 10?

Tips

- The preparation process for this lesson can be tedious. You can fold a stack of regular printer paper in half and draw a dog or cat on one side, and then cut it out. For a class of 20 children, this would mean making 200 dogs and 200 cats so that all of the children would be able to choose. Consider having the students draw their cats and dogs in their favorite combination

and cutting them out themselves.

- It is important to emphasize creativity and discuss different attributes of cats and dogs (possibly show pictures) before the children make their own. Many children may make 5 red dots and 5 blue dots and may not use their imagination to create unique animals. Other materials besides colored pencil might be more visually effective. Cutting and gluing construction paper or using stamps might work.

Materials:

- Red and blue linking cubes
- Crayons or markers
- Worksheet with 11 rows of ten 1 in. x 1 in. empty boxes
- 10 pre-cut paper dogs and cats for each student
- Colored pencils
- String
- Tape

*Teachers should align objectives to their state standards.

Connect the Dots: 1-100

Connection to LHA Curriculum Program: *Saxon Math*

Desired Outcomes

Understandings (objectives)*:

SWBAT write and identify numbers 1-100 in sequential order.

Assessment Evidence

Performance task (arts-infused activity):

Students will create watercolor paintings that connect the numbers 1-100 in sequential order.

Learning Plan

Learning Activities:

Pre Class Assignment

As a class, students practice counting to 100 using a hundred chart. Individually, students fill in their own hundred charts.

Prerequisites

- Students should have an understanding of place value and be able to write their numbers.
- The procedure for using watercolor paint (how to treat brushes kindly, how to rinse the brush between colors) should be specifically taught. Also, encourage students to create and discover new colors and to identify them.

Procedure for Teaching

- On large paper folded in half, students write the numbers 1-50 and one dot next to each numeral. Students may use their hundred charts as a reference.
- Emphasize spreading the numbers across the page. Use rulers and crayons to connect the numbers. This way, the students will gain practice using rulers and they can even measure their lines. Without rulers, the shapes will mostly be organic and students won't be able to identify many geometric shapes (see Extension).
- On the other side of the paper, students repeat the process with the numerals 51-100.
- Using watercolor paint, students transform their connect-the-dots into works of art by filling in the shapes they created with their connected dots. When the watercolor paint is applied to the crayon, it creates a watercolor relief as the wax of the crayon rises to the surface.
- Identify geometric and organic shapes. Emphasize using imagination to find images.

Accommodation

- Gifted students can be encouraged to write their numbers to create a picture or combination

of shapes.

- Students who need extra help may need to write the numbers 1-10 and then connect them before moving on to the next ten numbers to avoid frustration. They may use their hundred charts as a reference.

Assessment

- Are the numbers 1-100 written correctly?
- Are the numbers connected in sequential order?

Extensions: After the students connect the dots, they could find and label each geometric and organic shape. Also, students could connect the numbers by twos, fives and tens, using different colors. Finally, this activity could also help to introduce the concept of congruent lines and measurement.

Materials:

- Large paper
- Watercolor paint and brushes
- Crayons
- Blank hundreds charts
- Pencils

*Teachers should align objectives to their state standards.

11-20 Collage

Connection to LHA Curriculum Program: *Saxon Math*

Desired Outcomes

Understandings (objectives)*:

SWBAT...

- recognize the numbers eleven through twenty.
- write the numbers eleven through twenty.
- demonstrate the value of the numbers eleven through twenty.

Assessment Evidence

Performance task (arts-infused activity):

Create a colorful collage that demonstrates students' ability to recognize, write, and understand the value of the numbers eleven through twenty.

Learning Plan

Learning Activities:

Prerequisites :Students should have already mastered identifying, writing, and being able to display the value of the numbers one through ten. Students should also have had some exposure to the numbers eleven through twenty as this project is meant simply as a means of reinforcing their understanding of these numbers.

Procedure for Teaching:

- To set the room up for this activity, divide the room up into centers where the students can work in groups of four or five. At each center, place a variety of markers, a piece of paper divided into ten sections for each student, trays full of the collage materials, and bottles of glue.
- Once the room is set up, model the activity for the students. Take a piece of paper broken up into ten sections just like the ones that have been laid out for each student. Ask the students if anyone knows what two digits make up the number eleven. After one of the students answers correctly, model how to write the number by picking up a magic marker and writing it in the corner of the first section on the large paper. After you have done that explain to the students that you are going to write all of the numbers consecutively from twelve to twenty in the corners of the remaining boxes on the paper. Now ask one of the students to come up and count out eleven pieces of whatever collage material you are working with. Once a student has done this model gluing down all eleven pieces of collage material in the section of the paper with the eleven written in it. Explain to the students that in each section of their paper they will glue down however many pieces of collage material corresponds to the number they have written there. It may be necessary to model this with a couple of numbers before the students fully understand the instructions.
- Once you have completed the demo, divide the students among the work centers that have

been set up and let them begin the activity. Move around the room and watch as the students write numbers in the corner of each section of their paper. If you notice that a student is having trouble writing the numbers, or that a student is not writing the numbers in consecutive order help that student correct their work. Once a student has finished writing the numbers eleven through twenty correctly allow them to begin gluing down their collage materials. If you notice that the number of collage materials a student has glued down in a particular section doesn't correspond to the number written there try to help that student correct their work by adding or removing materials in that section.

Accommodation:

- Students who have not yet mastered the numbers one through ten may want to do this activity with those numbers before moving on to the numbers eleven through twenty.
- Students who complete this activity very quickly may want to try it with the numbers twenty-one through thirty, though it is recommended that they use either larger paper or smaller collage materials.

Assessment:

- Did the student form the numbers eleven through twenty correctly?
- Did the student write the numbers in consecutive order?
- Did the student correctly represent the value of each number with the collage materials?

Materials:

- Large pieces of paper divided into ten equal sections.
- A variety of colorful construction papers cut into small squares. There should be enough that every student can represent the value of each number between one and eleven.*
- Small bottles of glue for every student in the class.
- Trays to contain the cut up construction paper.
- Markers in a variety of colors.

** In place of construction paper teachers can provide a number of different materials for students to collage on their paper. For example, beans, beads, macaroni, string, or sequins.*

*Teachers should align objectives to their state standards.

Division Dance

Connection to LHA Curriculum Program: *Saxon Math*

Desired Outcomes

Understandings (objectives)*:

SWBAT explain and apply the concept of division.

Assessment Evidence

Performance task (arts-infused activity):

Students will create and participate in a dance that illustrates what happens when one number is divided into another.

Learning Plan

Learning Activities:

- Review the concept of division with the class.
- Break the class into groups of six. Let the students know that the six students in each group are a dance troupe. Each dance troupe is responsible for choreographing a dance that they will perform in front of the class.
- Ask for five volunteers to help you model working in a group to choreograph a dance.
- Tell the students that to help them choreograph the dance they will receive a series of division facts. On the board write: $6 \div 2 =$, $6 \div 3 =$, $6 \div 6 =$
- Tell the students that each division fact represents how the members of the troupe should be grouped during each section of the dance.
- Help your volunteers begin to work through choreographing the dance. Point out to them that on the board it says that in the first section of the dance your troupe of six should be divided into two groups. Ask them how many members should be in each group (three).
- Tell them that for the first section, starting in their group of six, they will create a motion with a beginning middle and end that illustrates how a group of six can be divided into two groups.
- Solicit ideas for the motion from the group members. Decide on one and perform it three times all together.
- Tell the students that they now have the first section of their dance. Now it's time to come up with the second step.
- Point out that the next division fact on the board is six divided by three. Tell them that this means we should divide the troupe of six members into three groups for the next section of the dance. Ask them how many members each of the three groups should have (two).
- Have students come up with a motion with a beginning, middle and end that illustrates how a group of six can be divided into three groups. Practice this motion three times. The troupe now has the second section of their dance completed.
- Help the model troupe choreograph the third and final section of their dance. Perform all three sections of the dance for the class.
- After answering any clarifying questions that the class may have, give each troupe their own sequence of division facts and assign them a section of the room to work in.

- Allow the class about fifteen minutes to choreograph their dances while you circulate the room and help each troupe individually.
- Once the dances have been choreographed, have each troupe perform in front of the class.
- While each troupe is performing have the students in the audience try to figure out and record the series of division facts the performing troupe was given.
- Have students write a few sentences explaining how the dances represent the concept behind division.
- To further connect the dance activity to the concept of division, have students write word problems for a given division equation or series of equations.

Materials:

- Instrumental music to play during dance performances (optional)
- Notebooks for the students to record division facts

*Teachers should align objectives to their state standards.

Butterflies for Doubles Facts Lesson Plan

Connection to LHA Curriculum Program: *Saxon Math*

Desired Outcomes

Understandings (objectives)*:

Students will learn doubles to 18 addition facts.

Assessment Evidence

Performance task (arts-infused activity):

Students working in small groups will decorate a set of nine butterflies, each one representing a double fact from 0-18.

Learning Plan

Learning Activities:

To prepare for this lesson, set up the classroom so that students are working in small groups. Four is a good number of students to have per group - this way each student can do a butterfly for two of the ten facts and then they can create the remaining butterfly collaboratively. One of the butterflies will only need to be cut out because it represents $0 + 0$. Each groups' work area should be covered in newspaper and have the following materials: Five pieces of construction paper, one butterfly stencil cut from oak tag about the size of half a sheet of $8\frac{1}{2}$ " by 11" paper, a variety of liquid tempera paints in containers suitable for finger-painting, scissors and pencils for each student, and paper towels for students to wipe off their hands.

- Explain to the students what the doubles facts are and that we will be working in groups creating butterflies to show the double facts to 18.
- Begin the activity by having students fold their $8\frac{1}{2}$ " x 11" paper into $8\frac{1}{2}$ " x $5\frac{1}{2}$ " halves.
- Next instruct the students to trace the butterfly stencil on to one half of the paper while keeping it folded and then pass it to the next person in their group. After all the students have traced the stencil instruct them to cut out the butterfly shape keeping the paper folded, cutting through both halves.
- When they are done each student should have two butterflies. Tell the first student in each group that finishes to repeat this process with the remaining sheet of construction paper. Now each group should have a total of ten butterflies.
- Next demonstrate for the students how the butterflies will help solve double fact problems. For example, using $5 + 5 = 10$ show students that if you dab five dots of paint on one of the butterflies wings and then while the paint is still wet, fold the butterfly in half, when you unfold the butterfly you will have five dots on each wing illustrating that five plus five is ten.
- After the demo, pass out a worksheet that requires students to solve double facts problems (Saxon Math 2 Fact Master 5A works well for this) and assign each student two problems, excluding $9 + 9$, which they will do together as a group, and $0 + 0$. Instruct the students to create butterflies for their assigned problems.

- Once all of the students have completed their two butterflies, have the group create the butterfly for $9 + 9$ together and share their butterflies with one another. Have students go on to complete the remaining sections of the worksheet on their own, referring to the butterflies if necessary.
- After the lesson is over, each set of butterflies can be strung together and hung in the classroom.

Accommodations

- Cut out extra butterflies, keeping in mind that certain students will have trouble completing this task in the allotted amount of time. Allow those you know will have trouble to attempt cutting in an effort to improve their skills, but do not let this hinder them from completing the rest of the activity.
- Make sure to vary the ability levels of the students in each group so that students with deficiencies in math can be assigned lower double facts such as $1+1$, $2+2$, $3+3$ and then they can benefit from the work of the more advanced students in the group.

Assessment:

- Did each student complete their butterflies with the correct number of dots on each wing?
- Did each student successfully complete the worksheet?
- Did each group successfully finish a complete set of double fact butterflies?

Extensions:

This activity may be utilized to teach doubling numbers greater than nine if so desired. However, it might be a good idea to have students use something finer than their finger to apply the paint as their will be a greater number of dots on each wing.

Materials:

- Saxon Math 2 lesson 5 or another double facts worksheet
- 8 1/2" by 11 construction paper in a variety of colors
- Liquid tempera paints
- Oak tag
- Pencils
- Smocks
- Newspaper

*Teachers should align objectives to their state standards.

Printmaking Multiplication

Connection to LHA Curriculum Program: *Saxon Math*

Desired Outcomes

Understandings (objectives)*:

SWBAT explain and apply the concept of multiplication.

Assessment Evidence

Performance task (arts-infused activity):

Students will use a simple printmaking technique to create a piece of artwork that helps them understand what happens when two numbers are multiplied together.

Learning Plan

Learning Activities:

Part One

- After reviewing the concept of multiplication with your students, tell them that they will be creating a piece of artwork that will help them visualize what is happening when they multiply two numbers together. Tell them that to do this they will be using an art form called printmaking and that printmaking is used to create multiples or to multiply the same image over and over again.
- Give each student a piece of Styrofoam and an index card with a number between 1 and 12.
- Model for the students how to pick a simple shape (circle, diamond, star etc.) and, using a pencil, carve the shape into the Styrofoam. Repeat carving the same shape into the Styrofoam until the number of shapes you've carved matches the number that's on your index card. For example, if you are carving triangles and your index card says five you should stop when you have carved five triangles.
- Make sure to explain that if the children have a low number on their cards like one or two they will carve their shapes larger to fill the space. However, if they have a higher number like eleven or twelve they will carve their shapes smaller to make sure they don't run out of room.
- It is also important that you explain to the students that they need to press hard enough with their pencils when carving into the Styrofoam to make a significant depression, but not so hard that they are pushing through to the other side.
- Allow the students to begin carving while you circulate the room and assist them.

Part Two

- Once the blocks are carved, hand out watercolor paint (or washable markers), brayers (if you have them), a brush, cup of water, and paper towel to each student. Along with these supplies distribute paper that is big enough for them to print their block of shapes at least five times with a little room to spare.
- Model covering the carved side of the Styrofoam with one color of paint, placing it face down on the paper and rolling the back of it with the brayer. If no brayers are available, simply press down with the back of your hand.
- Lift the Styrofoam off the paper, wipe the remaining paint off its surface with a paper towel,

and wash and dry your paintbrush.

- Now that you have made your first print, record your first multiplication fact in a notebook or on a separate piece of lined paper. For example if you are still using the five triangles from part one you would record $5 \times 1 = 5$ because you have printed five triangles once on your paper.
- Coat the carved side of the Styrofoam with a new color of paint and print the shapes again right next to the first print and record the new multiplication fact ($5 \times 2 = 10$).
- Tell the students they will print their Styrofoam shapes a total of five times using a different color each time and stopping to record the new multiplication fact after each print.
- Allow the students to begin printing while you circulate the room providing assistance when needed.
- To encourage students to apply what they learned by making the prints, have students draw pictures based on a multiplication word problem before they solve the problem.

Note: If you are using washable markers instead of watercolors, the students will cover the face of the Styrofoam with marker, use the brush and water to dampen the paper in the area they are printing (not soak), and place the Styrofoam face down on the dampened area.

Materials:

- Styrofoam rectangles (If you can't find these at an art or craft store you can cut them from lunch trays or use the flat part of a Styrofoam plate)
- Large paper heavy enough for use with wet mediums
- Watercolor paint or washable markers
- Paint brushes
- Paper towels
- Brayers
- Pencils
- Notebook or loose-leaf paper

*Teachers should align objectives to their state standards.

Lower Academy ELA Lessons

Alphabet Art Lesson

Connection to LHA Curriculum Program: *Open Court Reading (K-1)*

Desired Outcomes

Understandings (objectives)*:

SWBAT draw horizontal, vertical, and slanted lines to write and form the uppercase letters A, F, H, M, and N.

Assessment Evidence

Performance task (arts-infused activity):

Students will practice writing uppercase letters using a variety of media.

Learning Plan

Learning Activities:

- Begin the lesson by reviewing how we use lines to form some uppercase letters. Encourage all children to draw imaginary vertical lines from top to the bottom and imaginary horizontal lines from left to right. Explain that some lines we use to make letters are slanted. Have children draw imaginary slanted lines.
- Show children the uppercase letter cards A, F, H, M, and N. Have children touch the slanted lines from top to bottom. Have children touch the horizontal lines from left to right.
- Tell the children that they will practice writing and forming these uppercase letters using a variety of different materials.
- Move around the room introducing each center (see Materials section) and modeling how to use the materials to form the letters displayed there. Tell the children that when they finish forming the letters at that center they should raise their hands so you can come around and provide feedback on their work. Explain that once a child has successfully completed all the letters at that center they should put the materials back the way they found them and wait for the signal to move to the next center.
- Assign each of the children to a starting center and instruct them to begin the activity.
- After each child has finished each center, call the children back together. Ask, "Look at the letter cards, where do you see a slanted line? Where do you see a horizontal line?" Put children in pairs. Have children write the letters on each other's backs. Encourage children to guess the letter.

Accommodations: Children who need have special needs might not be able to transfer a visual cue to a piece of paper. For these children, provide a large copy of the letter for children to use the different materials to trace over. Children who are already proficient in writing these letters can explain the similarities and differences between the letters and can combine the letters to write and illustrate words.

Assessment: The teacher should walk around with a clipboard and write anecdotal notes as they watch children create letters at each center. Does the child write the vertical lines from top to bottom? Does the child write horizontal lines from left to right? Does the child know how to make slanted lines? What uppercase letters have they mastered? What letters do they need more practice?

Extensions: Children will practice identifying A, F, H, M, and N by cutting these letters out from magazines and finger tracing the letters to show how to write the horizontal, vertical and slanted lines. Children will use their knowledge of horizontal, vertical and slanted lines to write the uppercase letters I, L, V, W, X, Y, Z.

Materials:

- large letter cards
- string
- sand
- shaving cream
- dough for sculpting
- water for use on chalkboard
- dry erase markers and dry erase boards
- beads
- beans
- trays to contain materials

These materials are suggested but you can use any child-friendly medium appropriate for writing and forming letters. To ensure student engagement, at least five or six materials are recommended, but the more materials the better. Also, it is recommended that children use as many new materials (those not commonly used in class) as possible because this will help to keep them engaged in the activity.

*Teachers should align objectives to their state standards.

Blends and Digraph Pictures

Connection to LHA Curriculum Program: Open Court Reading

Desired Outcomes

Understandings (objectives)*:

SWBAT...identify common digraphs and blends in words in order to use this knowledge to decode new words.

Assessment Evidence

Performance task (arts-infused activity):Students will identify, decode and write common digraphs and blends. Students will demonstrate and apply their understanding of digraphs and blends to create a flipbook.

Learning Plan

Learning Activities:

- Introduce the featured digraph or blend of the day. For example, write Sh on the board. Then ask, “Does anyone know what sound this special letter combination makes?”
- In small groups, have students read a poem with the blend of the day. They will be word detectives and find all of the words with -sh.
- As a class, compile a master list of -sh words and post the list. From the list, students will choose four words to illustrate.
- Each student should have a piece of construction paper which they will fold in half once the long way and twice the short way. This will create a long book with four boxes. Using scissors, have students cut the boxes only to the middle of the book. This will create flaps that open. It is very important to clearly model the folding and cutting procedure.
- On the front of each flap, students will draw each of their chosen words. On the inside, students will write the word and a sentence using that word.
- Students will share their illustrations and play a guessing game. What -sh word is this?
- Students can use their flipbooks as a reference to study digraphs and blends.

Accommodations: For students who need extra help, the lists of class-generated words should be posted at the front of the room. For some students, writing the word and illustrating it may be challenging enough, and writing the sentence can be eliminated. Advanced students can be encouraged to use alliterations such as “short shark” or “shiny shell.”

Assessment:

Does the student’s work illustrate the digraph?

Do the words correspond with the pictures?

Is the digraph/blend used and spelled correctly in the student’s work?

Materials:

- Construction paper (1 sheet for each child.)

- Colored Pencils
- Scissors
- Poems with diagraphs and blends (www.scholastic.com has some poems that can be used for this activity.)

*Teachers should align objectives to their s

Cause and Effect Machine

Connection to LHA Curriculum Program: *Open Court Reading or Imagine It!*

Desired Outcomes

Understandings (objectives)*:

SWBAT identify the cause and effect of events within a story.

Assessment Evidence

Performance task (arts-infused activity):

Students will work in groups to create Rube Goldberg Machines with their bodies that demonstrate cause and effect.

Learning Plan

Learning Activities:

- Review the concept of cause and effect with the students, defining cause as “why something happens” and effect as “what happens.”
- Give the students some pairs of related events where it’s obvious which event is the cause and which is the effect. For example, “The girl studied hard for the test. The girl got an A on the test.” or “The boy stayed up past his bedtime. The boy woke up late for school.” Ask the students to identify the cause and effect for each pair.
- Show students examples of cartoonist Rube Goldberg’s work. Tell the students that Goldberg’s work often depicted very complicated machines that were designed to accomplish very simple tasks. Looking at one of Rube Goldberg’s machine cartoons, have the students try and figure out what the purpose or the effect of the machine is.
- Tell the students that Rube Goldberg became so famous for his machines that whenever someone makes a complicated machine that completes a simple task it’s called a Rube Goldberg Machine.
- Talk to the students about how Rube Goldberg Machines are great examples of cause and effect because within one machine we can find a number cause and effect relationships.
- View video clips from the internet that show Rube Goldberg Machines in action. Ask the students to identify cause and effect at different points in each machine.
- Tell the students that they will be working in groups to create Rube Goldberg Machines with their bodies.
- Call five students to the front of the room to model creating a machine. Line them up side by side across the front of the room facing the rest of the class.
- Tell the first student in the line that their job is to come up with a single motion, using a body part that ends by touching the student standing next to them.
- At this point it would be a good idea to generate a list, with the class, of body parts that are okay to touch people with and body parts that are not okay to touch. You should also discuss the amount of force the students are allowed to use when touching each other. No student should feel like they are being hit by their teammates during this activity.
- Allow the first student to demonstrate their motion. Ask the next student in line to think about how the first student’s motion might affect them. Ask the next student to come up

with their own motion based on this. Continue in this manner until all five students have their own motion to add to the group's machine. Encourage the students by telling them that the more creative they are with their movements, the more interesting their machine will be in the end.

- Have the students perform their machine together as a group. Have the audience identify the cause and effect relationship between specific students in the performing group.
- Break up the rest of the class into groups of four or five students. Assign each group an area to work in the room. Allow the students about ten minutes to come up with their motions and rehearse their machines.
- Have each group perform their machine for the class. After each group performs, have students identify the cause and effect relationship between specific students in the performing groups.
- If there is time at the end of the activity, see if all the group machines can be linked together to create one, whole class, Rube Goldberg Machine.
- To help students transfer this activity to identifying cause and effect in literature, have students draw a cartoon that illustrates the cause of an event in the text they are reading.

Materials:

- Rube Goldberg cartoons (go to Google's image search and enter his name. This will provide you with many examples)
- Rube Goldberg Machine video clips (you can find many examples on You Tube but this Honda commercial is excellent: http://www.youtube.com/watch?v=_ve4M4UsJQo)

*Teachers should align objectives to their state standards.

Abstract Expressionist Compare and Contrast

Adapted from the Color and Environment lesson plan found in the MOMA's teacher guide *Modern Art and Ideas 7: 1950-1969*

Connection to LHA Curriculum Program: *Open Court Reading or Imagine It!*

Desired Outcomes

Understandings (objectives)*:

SWBAT use a completed graphic organizer to produce a piece of writing that compares and contrasts two things.

Assessment Evidence

Performance task (arts-infused activity):

Students will create a Venn Diagram and a piece of writing that accurately compares and contrasts the elements of design found in two pieces of artwork.

Learning Plan

Learning Activities:

- Review the concept of comparison and contrast with your students. Explain to them that when we compare and contrast two or more things, we are looking for the similarities and differences between them.
- Tell the students that they will be comparing two pieces artwork from the abstract expressionist painters Mark Rothko and Barnett Newman.
- Give the students some background information about abstract expressionism. Tell them that it was a style of painting that was developed by artists in New York City during the 1950's-60's and it was responsible for making New York City the most important city in the art world at the time. Inform the students that the abstract expressionists were not concerned with painting figures, landscapes, still-lives or anything "representational" (artwork that depicts something easily recognizable). They were more interested in painting abstract compositions of shapes colors and lines. Tell them that another painter they might know, Jackson Pollack, was also an abstract expressionist.
- Display copies of Mark Rothko's *No.5/No.22* and Barnett Newman's *Vir Heroicus Sublimis* .
- Take suggestions from the class to generate a list of the elements of design you can look at to compare and contrast the two paintings. If necessary, guide the class in creating a list that contains the following elements
 - Line (straight, curved, zigzag, etc.)
 - Shape (circular, rectangular, triangular, etc.)
 - Direction (vertical, horizontal, diagonal)
 - Size (big, small, thick, thin, etc.)
 - Texture (smooth, rough, flat, bumpy, etc.)
 - Color (warm colors, cool colors, amounts of specific colors)
 - Value (light, dark)
- Have the students work alone or in groups to create a Venn Diagram or other graphic organizer that compares the similarities and differences between the two paintings.

- Bring the class together to create a class Venn Diagram that collects ideas from all of the students.
- Model for the students how to use the class Venn Diagram to write a paragraph or paragraphs comparing the two paintings.
- Circulate the room while students work independently writing their paragraphs.

Materials:

- Color and Environment lesson from MOMA's teacher guide *Modern Art and Ideas 7: 1950-1969* http://www.moma.org/modernteachers/files/MAI7_2.pdf
- Mark Rothko's *No.5/No.22*
- Barnett Newman's *Vir Heroicus Sublimis* (both images can be found by searching Google)
- Venn Diagram handouts
- Loose-leaf paper or writing notebooks

*Teachers should align objectives to their state standards.

Main Idea and Details Drawings

Connection to LHA Curriculum Program: *Open Court Reading or Imagine It!*

Desired Outcomes

Understandings (objectives)*:

SWBAT write a paragraph that contains a topic sentence and supporting details.

Assessment Evidence

Performance task (arts-infused activity):

Students will create a drawing that shows the details to support a topic sentence of their choosing. Students will use the drawing to write a well-organized paragraph with a topic sentence and at least three relevant supporting details.

Learning Plan

Learning Activities:

- After reviewing the concept of main idea and details, tell the students that just like a paragraph can have a main idea and details, a picture can as well. Inform the students that they will be given a choice of main ideas in the form of topic sentences. They will then create pictures that include visual details to support their topic sentence.
- Model this for the students by writing a topic sentence on the board. For example write, “On my road trip I saw some amazing cars.” Ask the students to tell you what kind of details would support the topic sentence (reasons why the cars were amazing).
- Begin drawing a scene on the board that includes at least three cars. Solicit ideas from the students about how to make the cars “amazing” (a car with wings, a car with two levels, etc.).
- Next, give the students a bank of topic sentences to choose from. Tell them to pick one that interests them and have them record it on a piece of paper or in a notebook. The topic sentences in the bank should leave room for the students to be very creative when coming up with supporting details. Here are some examples of topic sentences that can be used for this lesson:
 - The aliens were friendly, but they did many strange things.
 - All of my neighbors are really interesting people.
 - While visiting the far away land I witnessed the native people playing sports I had never seen before.
 - My favorite zoo has many weird, exotic animals in it.
 - The acrobats in the performance I saw last night did the most amazing tricks.
- Once students have recorded their topic sentences ask them to close their eyes and visualize the details they will include in their picture.
- Next, have the students begin their drawings while you circulate the room answering questions and checking on student progress. The amount of time you allot for the students to complete the drawing is up to you. However, if you are going to give the students a very limited amount of time, you should explain to them that the point of this activity is to do the drawing quickly and get the visual information on the page as fast as possible.
- After the drawings have been completed, use your model drawing to show students how to

write a paragraph about their picture that includes the topic sentence and at least three detail sentences to support it.

- Have students write paragraphs based on their own drawings.
- Have students use a rubric to evaluate their own paragraph and a partner's paragraph before collecting students' work.

Materials:

- Drawing materials (pencils, colored pencils, drawing paper)
- Notebook or loose-leaf paper for writing

*Teachers should align objectives to their state standards.

Making Inferences

Connection to LHA Curriculum Program: *Open Court Reading or Imagine It!*

Desired Outcomes

Understandings (objectives)*:

SWBAT make inferences about the material they read.

Assessment Evidence

Performance task (arts-infused activity):

Students will make inferences by looking at the art of Norman Rockwell. They will then create skits with embedded clues that will allow their classmates to make inferences about their performance.

Learning Plan

Learning Activities:

Part 1

1. Briefly give the students some background information about Norman Rockwell's life and career. You can find information on the Norman Rockwell Museum website, <http://www.nrm.org>.
2. Inform the students that they will be using Rockwell's work to practice making inferences. If needed, provide the students with a review of what this means.
3. Show the students one of the Norman Rockwell pieces listed in the materials section. Ask the students to give a one or two sentence explanation of what is going on in the picture. Ask them to list the clues that led them to make that inference.
4. Show the students the three remaining images listed below, give them time to make an inference about what is happening in each one and provide at least three clues that show why they made that inference.

Part 2

1. Discuss what it means to mime. Tell the students that a mime gives the audience clues using their movement so the audience can make inferences about what they are acting out.
2. Show clips of Marcel Marceau performing, which can be found on YouTube, and have the children make inferences about what he is acting out.
3. Tell the students that they will now be performing their own mime routine for the class to make inferences/ draw conclusion about.
4. Model picking an activity to mime. (*Ex: walking your dog*) and coming up with the visual clues you will give during your performance (*Ex: "Okay so first I'll pretend I'm picking up the leash and straightening it out. Next I'll call the dog by kneeling down and tapping my hands on my knees. Then I'll clip the leash on the dog's collar, pat it on the head, stand up and open the door. Then I'll pretend that the dog is pulling me out the door...etc."*)
5. Give the students about seven minutes to prepare their performance while you circulate the room and help individual children.
6. Establish a space in the room where the performances will take place and go over the expectations for both the performers and the members of the audience.
7. After each student performs, call on audience members to make inferences about what

activity the performer was miming and what clues they used to make that inference.

Part 3

1. To help students transfer the skill of making inferences back to comprehending a text, select a passage from their reading that lends itself to making inferences. Have students discuss what inferences they can make based on the reading and what clues they used to make the inference.

Materials:

Art by Norman Rockwell-

The Runaway

The Shiner

No Swimming

Girl Reading The Post

All these images can be found easily on the internet by searching Norman Rockwell and the title of the piece. I would recommend projecting these for the class if you have that option. If not than you could print the images out or get a book of his work.

Clips of Marcel Marceau performing from You Tube

*Teachers should align objectives to their state standards.

Sequence Dance

Connection to LHA Curriculum Program: *Open Court Reading or Imagine It!*

Desired Outcomes

Understandings (objectives)*:

SWBAT record the sequence in which a series of events takes place. They will also know that changing a sequence affects our understanding of the events that happen within it.

Assessment Evidence

Performance task (arts-infused activity):

Students will choreograph a dance and record the sequence of movements that happen in it. They will also learn, perform and re-sequence a dance choreographed by another group. Finally they will watch and record the steps in the re-sequenced version their dance.

Learning Plan

Learning Activities:

- Review the concept of sequence with the students. Tell them that in a story, a sequence is a series of events that happen in a particular order. Remind them that if one were to change the sequence of events in a story, the story would change and maybe not make sense. Demonstrate this for them by changing the sequence of events from a well-known story such as Goldilocks and discussing how this changes the story.
- Tell the students that we use sequencing in many things - not just in stories. Inform them that in dance the choreographer puts together a series of movements in a sequence to create a dance, and just like in a story, if the sequence of movements is changed, so is the dance.
- Explain to the students that today they will be working with a partner to choreograph a dance that they will then teach to another pair of students to perform. They, in turn, will also be expected to learn and perform the dance the other pair choreographed.
- Define “movement” to the students as a motion that has a beginning middle and end. Ask them to think of it as two poses and the motion you make to move from one to the other. Model a movement for the children. Pause during each phase of the movement to define its beginning, middle, and end.
- Give students examples of different types of movement. Show them low movements, high movements, fast movements, slow movements, smooth movements, sharp movements, etc.
- Give the children time to pair up or assign them partners. Ask each pair to move to a spot in the room where they are visible and have enough room to move safely.
- Once they are settled, tell them that each group will create five different movements. Each of the five movements must be given a one-word name. Suggest that the children use adjectives that describe the movement, as they will probably be easier to remember.
- Give the students time to create, name, and practice their five movements.
- Now instruct the students that they must put the movements into a sequence. Once they have their sequence, ask them to record the sequence on a piece of paper by writing the names of the movements in the order they should be performed. Have them use sequencing words such as first, next, then, etc.
- Have each pair teach their sequence of movements, or dance, to another pair of students

along with the names of the individual movements.

- Have each pair perform the dance they learned for the group that taught it to them.
- Then have each pair re-sequence the movements they were taught into a new dance
- Have the groups perform their re-mixed version for their partner pair while the partner pair records the new dance sequence using sequencing words.
- Bring the class back together into a whole group and ask the students to explain how changing the sequence of movements affected the dances they choreographed.
- To help students transfer their understanding of sequence to reading, you may have students create a dance that represents the sequence of events in a story they are reading.
- To further challenge students, have them select one event from the story to put out of order in their dance and see if the rest of the class can identify the sequencing problem.
- If your students are learning about flashback, you can adapt this activity to help students represent flashback through dance.

Materials:

*Teachers should align objectives to their state standards.

Lower Academy Science

Balance and Motion Mobiles Lesson Plan

| |
|--|
| Connection to LHA Curriculum Program: Science |
| Desired Outcomes |
| Understandings (objectives)*: SWBAT apply the principles of motion and balance to create mobiles. |
| Assessment Evidence |
| Performance task (arts-infused activity): Students will use weights and counterweights to balance their mobiles. |
| Learning Plan |
| Learning Activities: |
| Day One |
| <ul style="list-style-type: none">• Begin by asking students what they know about balance. Explain to students that artists also use balance.• Show examples of work by Alexander Calder and explain that a mobile is a type of art that balances.• Give each child a package of clay and allow them to experiment and discover the different shapes they can make. You may want to demonstrate methods of rolling and working with the clay. Direct the students to make more than four shapes, because they will be balancing them.• Once they have made their shapes, they will poke holes through them with their sticks. The teacher should string the shapes since most first graders will have difficulty tying and stringing. |
| Day Two: |
| <ul style="list-style-type: none">• The students will paint their shapes. Optional: Discuss color balance and how artists use color to balance an artwork. Show examples of balanced color schemes: warm and cool colors, etc. |
| Day Three: |
| <ul style="list-style-type: none">• The students will balance their shapes. The teacher should tie a pipe cleaner or string to the middle of each popsicle stick. On each child's desk, tape another popsicle stick for the students to balance their mobile on. Each shape should be tied to a paper clip. Students will use the paper clips to fasten their shapes onto their stick. |

- Before students begin, the teacher should demonstrate balancing, calling on children to help balance the model mobile. Review prior knowledge and balance vocabulary before allowing students to experiment and balance their mobiles.

Accommodation: To make the balancing more challenging, encourage students to make shapes of dramatically different sizes. For a student who struggles with the concept of balance, guide them to create shapes of similar sizes in even number.

Materials:

Crayola model magic: one package per student
Watercolor paints and brushes
String or yarn in bright colors
One stick (popsicle sticks work well) per student.
One pipe cleaner per student
Paper clips

*Teachers should align objectives to their state standards.

Classification Creatures

Connection to LHA Curriculum Program: *Literacy and/or science*

Desired Outcomes

Understandings (objectives)*:

SWBAT group things into fixed classes based on predetermined criteria.

Assessment Evidence

Performance task (arts-infused activity):

Students will produce a design template that shows animal names correctly paired with their classification. Also, students will produce a piece of artwork that represents body parts from animals in four distinct classes.

Learning Plan

Learning Activities:

- Review classification with your students, reminding them that when we classify we are organizing things into fixed groups based on predetermined criteria.
- Introduce students to, or remind them of, the different classes of animals. Ask them to name some and make a list on the board.
- Tell the students that for this activity they will be working with four animal classifications, mammals, birds, reptiles, and amphibians.
- Generate a list of attributes with the students for each classification of animal (birds have wings, lay eggs etc.)
- Display for students a large assortment of animal pictures that contain a number of images of animals in each classification. The images should be labeled with the names of the animals.
- Inform the students that in the mythology of many cultures there are stories of creatures with the body parts of multiple animals mixed together. Show them examples like the chimera, griffin or sphinx.
- Tell them that today they will be creating their own creature by combining the body parts of animals from different classes.
- Give them a handout to help them design their animal. The handout should have a grid composed of four rows and five columns. Label the rows with the animal classifications: mammal, bird, amphibian and reptile. Label the columns with body parts: head, body, arms or wings, legs, and tail. Students must use at least one body part from an animal in each classification. They will write the name of the animal in the box that corresponds to the correct body part and animal classification.
- Once the students have completed the design grid, provide them with paper and a variety art supplies to create a drawing, painting or sculpture of their animal. Allow them to use the animal photos you provided as reference for the different body parts.
- As an extension, once the artwork is finished you can hand out blank copies of the same grid the students used to design their creatures. Have each student pick another student's work that interests them and ask them to use the grid to identify the animals each of the body parts came from.

Materials:

- Animal pictures (in books, printouts, or projected)
- Examples of mythical mixed up creatures (sphinx, chimera, griffin)
- Art materials (either varied or limited depending on how much choice you want to provide the students with, but it might be a good idea to include at least one 2-D and one 3-D option)

*Teachers should align objectives to their state standards.

Lower Academy Social Studies

Geography Mosaics

Connection to LHA Curriculum Program: Social Studies

Desired Outcomes

Understandings (objectives)*:

SWBAT identify and describe distinguishing features of geographical areas (lesson example: Canadian provinces).

Assessment Evidence

Performance task (arts-infused activity): Students will produce a mosaic depicting a scene specific to a certain territory or province in Canada

Learning Plan

Learning Activities:

- After reading through lesson 3 of the Core Knowledge Canada unit, list the Canadian provinces and territories on the board and have students name examples of things found in each one.
- Assign or have students pick a province and inform the students that they will be making a mosaic image of something specific to their province or territory. (Students should have been introduced to the term mosaic in the previous lesson but explain exactly what a mosaic is again and show them a couple of examples of mosaics.)
- Model for the students how to create a simple pencil sketch of their image on their chipboard. As the students are doing this, circulate and make sure that all students are creating images specific to their province or territory. For example if a student is supposed to be doing a mosaic about Ontario, an image of the CN Tower would be appropriate while an image of a cowboy probably would not.
- Once students have completed their sketch, pass out strips of construction paper in the colors that they need to complete their image. It might be a good idea to limit the students to three or four colors to begin with as this is probably a new medium for them and too many colors at first might be overwhelming.
- Show the students how to cut their long strips of paper into small squares. The next step is to have the students apply glue to small areas of their chipboard using their glue sticks and applying their tiles. Make sure students are not trying to apply glue to each separate tile before applying them this will take forever and create a huge mess. As a finishing touch to the mosaics, give each student a small handful of tiles in assorted colors so they can add any small details they wish.

Assessment:

- Did the student create an image specific to their chosen or assigned Canadian province or territory?
- Did the student follow the directions on how to construct their mosaic?
- Could the student match his or her mosaic back to the province it was intended to represent?

Extensions: As a review of the lesson, have students present their mosaics to the class and demonstrate their knowledge of their province or territory. Another option for this extension would be to have students pair up and teach their partner about their province or territory and then have the partner present one thing about that province or territory to the class.

Materials:

- One small rectangular piece of cardboard or chipboard for each student to create their mosaic on
- A variety of colors of construction paper cut into strips that the students can cut down further to use as tiles
- Glue sticks
- Pencils
- Use Google Image Search to find visual references of the items discussed in the Pearson text
- Scissors

*Teachers should align objectives to their state standards.

Fantasy Map

Connection to LHA Curriculum Program: Social Studies

Desired Outcomes

Understandings (objectives)*:

SWBAT read a physical map and identify its parts.

Assessment Evidence

Performance task (arts-infused activity):

Students will create a physical map of an imaginary landmass that has all the features of a physical map of an actual place.

Learning Plan

Learning Activities:

- Distribute one piece of copy paper and a small index card to each student.
- Have each student orient the paper horizontally, place the index card vertically on top of the paper in the bottom right hand corner and trace it. The area inside the outline of the index card will be the map key.
- Next, instruct the students to draw three to five simple shapes (circle, triangle, square etc.) that take up almost all of the remaining space on the paper, leaving at least an inch between the drawing and the edge of the paper on each side. Each shape should be connected to at least one other. The reason to start with these shapes is because it helps the students create a coastline for their landmass that feels less contrived than if they were to draw an outline freehand.
- Now demonstrate for the students how to loosely draw an organic outline around the mass of shapes, leaving about an eighth of an inch between the shapes and the outline. Explain to students that by organic line, you mean a line that appears natural. It may be helpful if the students see examples of actual coastlines before attempting this step.
- Hand out another piece of copy paper to each student and ask them to copy the outline as well as the area set aside for the map key. Make sure that they do not trace the simple shapes.
The students now have their landmass and their map key on a new piece of paper.
- Now it is time to have the students start defining the land and adding bodies of water to their map.
- First have the students place at least one lake and one river on their map. The lake should be placed so that there is some space between the shore of the lake and the coastline of the landmass. Have the students color in the lake with a blue colored pencil. Rivers should be indicated by a blue line that runs from a lake to some point on the coastline.
- Next, have students indicate the elevation of the land through color. Have the students pick some areas toward the center of the landform and color them dark brown to indicate the highest elevations or mountain tops. The area around the coast should be colored dark green to indicate the lowest elevations. Fill the rest of the map light brown for lower high elevation areas and light green for higher low elevation areas.

- Adding in cities and roads is the next step. Have the students use small black dots to show cities and a black star for the capital city. Highways can be shown with thick black lines and secondary roads with thin black lines.
- The water around the landmass can be colored blue.
- Have the students fill in the symbols and labels in the map key.
- The students can come up with names for their cities and label them on the map.
- The title as well as the scale and the compass rose can be placed on the map around the outside of the landform.
- To assess whether students can transfer their knowledge of physical maps to other settings, have students read and answer questions about a physical map of the U.S. or of their state.

Materials:

- Copy paper
- Colored pencils
- Index cards
- Examples of physical maps

*Teachers should align objectives to their state standards.

Sculptures of Hindu Gods

Connection to LHA Curriculum Program: Social Studies

Desired Outcomes

Understandings (objectives)*:

SWBAT...

- Identify Hinduism as an important world religion.
- Identify aspects of Hinduism that separate it from other major world religions.
- Identify the three major Hindu gods by creating sculptures of them.

Assessment Evidence

Performance task (arts-infused activity):

Students will create a sculpture of one of the three main Hindu gods, Brahma, Vishnu, or Shiva. The sculptures will contain three physical characteristics or symbols unique to that god. Students will write a brief description of the god they chose to accompany their sculptures. The written descriptions will explain important facts about the god.

Learning Plan

Learning Activities:

- After reading about Hinduism (Core Knowledge Ancient India lesson 2 works well) with the students and presenting any supplementary materials you may have found relating to Hinduism, review the three major Hindu gods: Brahma, Vishnu, and Shiva. Focus on each god's specific physical attributes as well as the powers and responsibilities assigned to them and the symbols that represent these powers and responsibilities. Use reference materials such as statues and pictures of the gods while reviewing with the students.
- Explain to the students that they will be sculpting their own representations of one of the three main Hindu gods that include at least three physical attributes and/or symbols specific to the god that they choose.
- Pass out the sculpting materials and begin a guided discovery with the students where they practice making basic shapes such as spheres, cylinders, cubes, and wedges. Next, show the students what body parts can be made from these simple shapes, for example, a sphere can be easily formed into a head and a long cylinder can be bent into an arm.
- Once the students have gotten a chance to experiment with the materials, have them begin their sculptures. As they work circulate around the room and conference with each student about which of the gods they are sculpting and which attributes or symbols they are including to indicate their choice.
- While students wait for the sculptures to harden, have them write descriptions of the god to accompany their work. Make sure descriptions include the god's powers and responsibilities and the artistic choices they made to represent these powers and responsibilities.
- Once the sculptures have hardened, have students paint their sculptures with paint suitable for use with your modeling material.

Accommodation: Help students who are having difficulty create the basic shapes necessary to sculpt their god and then have the student create the details.

Assessment:

- Did the student create a sculpture of a Hindu god?
- Has the student included three physical characteristics or symbols unique to the god they have chosen?

During the classroom share does the student demonstrate a basic understanding of the three main Hindu gods (For example a student should be able to tell you that Brahma is the main god of the Hindu religion and is also the god of creation)?

Materials:

- Modeling material (Crayola Model Magic works well because it is self-hardening and can be painted with watercolors)
- Materials for painting (watercolor paint, brushes, cups of water, paper towels, etc.)

Info and visual references for each of the three main Hindu gods can be found at <http://www.sanatansociety.org>

*Teachers should align objectives to their state standards.

Upper Academy Math Lessons

Percentage Increase and Decrease of a Quantity

Mini-Advertisements

Connection to LHA Curriculum Program: UA-Mathematics

Desired Outcomes

Understandings (objectives)*: SWBAT calculate the percentage increase or decrease of a quantity

Assessment Evidence

Performance task (arts infused activity): Students will create thumbnail sketches that advertise a percentage increase or decrease of some quantity related to fictional product of their creation. The advertisement will include the original amount, the new amount and the percentage increase /decrease.

Learning Plan

- Introduce students to the formulas used to calculate percentage increase/decrease of a quantity.
 - Percentage increase= $(\text{new amount} - \text{original amount}) / \text{original amount}$
 - Percentage decrease= $(\text{original amount} - \text{new amount}) / \text{original amount}$
- Have the students practice using the formulas by working through a couple practice problems on the board.
- Explain to the students that advertisers often use percentages to highlight positive changes in their products or changes in the price of a product that benefit the consumer.
- Show students a few examples of advertisements that highlight percentage increase/decreases.
- Tell the students that they will be given a list of eight original amounts and eight new amounts that reflect an increase or decrease in the quantity of the original amount. They will then use these amounts to create small sketches, known as thumbnails, which advertise a percentage increase/decrease of a quantity related to products they make up.
- For example, when creating a thumbnail for a quantity increase students may want to advertise a percentage increase in the amount of product a customer gets for their money. If they are calculating a percentage decrease they may want to advertise a drop in the price of the product or a reduction in some unhealthy aspect of the product like fat or salt.
- Show students how to divide a sheet of drawing paper into eight equal rectangles arranged in two rows of four.

- Explain to students that they will create an advertisement in each of the eight rectangles, one for each of the quantity increases/decreases on their list. Each advertisement must have a drawing of the product, the original quantity, the new quantity and the percentage increase/decrease calculated.
- Once students have finished all eight advertisements they can go back and add color to each using colored pencils.

Materials:

- Drawing Paper
- List of eight quantity increases/decrease
- Examples of advertisements highlighting percentage increase/decreases
- Colored Pencils

*Teachers should align objectives to their state standards.

Artistic Data Visualization

Connection to LHA Curriculum Program: UA-Mathematics

Desired Outcomes

Understandings (objectives)*: SWBAT analyze, interpret and display data using an appropriate graph.

Assessment Evidence

Performance task (arts infused activity): Students will research or collect data on a topic of their choosing. They will then use this data to create a graph. The design and presentation of the graphs basic elements should aid in the understanding of the graph

Learning Plan

Learning Actives:

- Review the different types of graphs that are commonly used to display information and the types of information each graph is best suited to display.
 - Line graph- best for tracking changes in data over time
 - Bar graph- best for compare data between different groups
 - Pie graph- best for comparing parts to a whole
- Show the students an example of a basic bar graph, for example, a bar graph that compares the number of touchdowns scored by three different NFL teams in three different seasons. Discuss the graph with the students. Does the graph clearly display the information? Is it very interesting to look at? Could you tell what information this graph is displaying if we take away the title and the labels? The students will probably think that the graph is clear but not very interesting to look at. They will also probably say that they couldn't tell what information the graph is displaying without the title and labels.
- Explain to them that there are graphic designers who specialize in creating what are known as "infographics" or charts and graphs that present information in a way that is both easy to read and interesting to look at. Many times these infographics are designed to make it more immediately apparent to the viewer what data is being displayed. If you google "infographics" and go to images you will be presented with a number of great examples to show the class.
- Next, have the students brainstorm how they could redesign your example graph so that it's more visually pleasing and more immediately decipherable. In the case of the NFL graph, the students might suggest that you fill each bar with the logo and colors of the team it represents, or maybe the background and X and Y axis are labeled to look like the markings on a football field. Discuss the student's ideas by deciding which ones might improve the presentation of the data and which might just make the graph more confusing.
- Inform the students that they will be creating their own artistically enhanced graph based on data of their choosing that they either collect (ex. surveying people) or research. The students should choose to create either a bar, line or pie graph depending on which type of graph is

best suited to present the data they are working with. Data collection or research can take place outside of class time.

- Once the students have got their data they can begin creating their graphs. Supply the students with a variety of art supplies (colored pencils, markers, paint, paper for collage etc.) as well as rulers and graph paper for those that need it.
- When the graphs are complete have the students do a gallery walk of the graphs and critique each others work.

Materials:

- Example graphs
- Examples of creatively executed infographics
- Art supplies such as colored pencils, markers, collage paper etc.
- Graph paper
- Rulers

*Teachers should align objectives to their state standards.

Finding the Area of Complex Shapes

Connection to LHA Curriculum Program: UA-Mathematics

Desired Outcomes

Understandings (objectives)*: SWBAT compute the area of complex shapes by dividing them into more basic shapes.

Assessment Evidence

Performance task (arts infused activity): Students will construct and trace a complex shape using tangram pieces. Using the appropriate formulas to calculate the area of the basic shapes that make them up, they will find and record the total area of their complex shape as well as a shape created by another student.

Learning Plan

- Explain to students that they will be learning how to compute the area of complex shapes constructed from more basic shapes by their classmates. Tell them that to do this they must first know how to compute the areas of the more basic shapes they will be assembling.
- Review with the students how to find the area of the basic shapes found in a standard set of tangram pieces.
 - Square: $\text{area} = \text{length} \times \text{width}$
 - Triangle: $\text{area} = \text{base} \times \frac{1}{2} (\text{height})$
 - Parallelogram: $\text{area} = \text{base} \times \text{height}$
- Next give each student a piece of drawing paper and a set of tangram pieces.
- Instruct the students to create a complex shape on top of the paper using exactly five pieces from the seven-piece tangram set.
- Once they have completed constructing their complex shape have them use a pencil to trace the outline of the shape onto their drawing paper.
- Now give everyone another sheet of paper and a ruler. Have the students use this to trace each separate basic shape they used, calculate the area of each using the proper formula, and add them up to find the area of their complex shape. Make sure students show their work.
- The students will now trade the outlines of their complex shapes for someone else's.
- Using their tangram pieces they will try to reconstruct the complex shape they have been given inside the outline on the paper.
- After they have reconstructed the complex shape have them find and add together the areas of the basic shapes that make it up. Again, Make sure that each student shows their work.
- Now that they have the complex shapes total area they can check their work against the calculations of the shapes creator.

Materials:

- Pencils
- Drawing paper
- Tangram set for each student

It seems standard tangram sets contain seven pieces: two large triangles, one medium triangle, two small triangles, one square and a parallelogram. Sets can be cut out of cardboard by the students using templates found online if necessary.

- Rulers

*Teachers should align objectives to their state standards.

Upper Academy ELA Lessons

Change of Setting

Connection to LHA Curriculum Program: Upper Academy literacy

Desired Outcomes

Understandings (objectives)*:

SWBAT analyze the influence of setting on the problem and resolution in a story.

Assessment Evidence

Performance task (arts infused activity):

Students will produce a series of drawings that depict major events from a well known story taking place in a setting that is different from the commonly known version.

Learning Plan

- Review the definition of setting with the students as it relates to a story.
- Tell the students that for this project they will be doing a series of three drawings based on a commonly known story, such as a fairy tale. They will, however, be changing the setting of the story so that it takes place in a time or place that is vastly different from the one that is commonly known. Because of this they will need to alter many of the details in their drawings so that they fit in with the new setting.
- Give the students an example by altering a familiar story, like *Goldilocks and the Three Bears*.
- Inform the students that while there are a number of versions of the story, there is a setting for the story that is commonly recognized. Ask the students what that setting is. The students should reach the conclusion that the story takes place in the woods, outside of a small village, during a pre-modern era.
- Have the class generate a list of two major events that take place in the story and the story's resolution.
 - Goldilocks tries all three bowls of porridge and eats the one that's the right temperature.
 - Goldilocks tries sitting in three chairs and settles on the smallest one breaking it to pieces.
 - Goldilocks runs, screaming, out of the house and into the woods after the three bears discover her sleeping in their beds.
- Ask the students to come up with a new setting for the story by giving you a new time and place for the events of the story to happen. Tell them to make sure and pick an actual time and place from the past to the presents but not a time in the future because we won't be able to research a place that doesn't exist yet.
- Walk the students through the process altering the details of the pictures to fit the new setting. For example, if the students wanted to set the story in ancient China, the animals in the story could be pandas or tigers, the bowls could be full of rice, etc. (To help students make

connections to content they have learned earlier in the year, encourage students to select a new setting they have studied in social studies or during another literacy unit.)

Extension:

Follow up by having students write an explanation of how setting affects various plot elements in a story students are reading in class.

Materials:

Drawing materials

*Teachers should align objectives to their state standards.

Structure of Text PSA

| |
|--|
| Connection to LHA Curriculum Program: Upper Academy literacy |
| Desired Outcomes |
| Understandings (objectives)*: SWBAT Identify and analyze the structures of texts (e.g., textbooks, newspapers, technical manuals, novellas, novels, short stories, biography, essays, etc.) |
| Assessment Evidence |
| Performance task (arts infused activity): Students will create a satirical PSA that delivers accurate information about the structure of a particular type of text. |
| Learning Plan |
| Learning Activities: <ul style="list-style-type: none">• Discuss the structure of texts with the students. Talk about the different types of text that exist and why they are structured the way they are.• Tell the students that they will be working in groups to deliver the information to the class in way that is as entertaining as it is informative.• Break the class up into groups or let them choose a group of students they feel they will work well with.• Once groups have been established, assign each group a type of text to research. Explain that after the groups have researched their text and found examples to share with the class they will be creating what's known as a PSA or public service announcement. Ask the students if anyone has seen one and can explain what it is. If no one knows tell them that a PSA is a television or radio advertisement created for the benefit of the public and designed to change people's attitudes about important issues. For example they may have seen Public Services Announcements designed to get people to stop smoking or be more environmentally conscious. You may find it helpful to show the class an appropriate PSA, which can be easily found on You Tube.• Tell them that while a PSA is generally about a serious topic, and they certainly want to deliver the correct information about their groups text, sometimes if we assign life or death seriousness to something that is not a life or death situation it produces comical results. For example it might be funny if you, very seriously, told the class about someone who walked to school in a t-shirt and shorts in a snow storm because they didn't know where to locate the date on a newspaper and ended up reading the weather in the previous day's issue.• Distribute information to each group about their assigned text and a couple of examples for them to look at.• When they have had a chance to look at and discuss the materials you've given them, allow the groups time to come up with their PSA skits and rehearse them. When the skits are ready have each group perform them in front of the class. |

Materials:

- Handouts with information about the different types of texts and their structures
- Examples of different types of text
- Examples of a PSAs from You Tube
- Video camera for recording performances (optional)

*Teachers should align objectives to their state standards.

Word Choice Relay

Connection to LHA Curriculum Program: Upper Academy literacy

Desired Outcomes

Understandings (objectives)*:

SWBAT use varied word choice to make writing more engaging.

Assessment Evidence

Performance task (arts infused activity):

Students will participate in an improvisational theater game during which they will replace words in lines of dialogue, spoken by their classmates, with synonyms.

Learning Plan

Learning Activities:

- Talk to the students about the importance of varying the words they use in their writing. Explain to them that using the same words over and over when writing makes the writing seem repetitive and boring to the reader. Choosing synonyms instead of repeating words makes the writing more engaging.
- Tell students that to practice varying their word choices they will be playing a theater game involving improvisation, or acting without a script where the actors make up the scene as they go along.
- Break the class up into two groups. One group will be playing character A and the other will be playing character B. Give each student a number corresponding to the order in which they will perform. It's okay if there are an uneven number of students.
- Inform the students that even though this is improvised and they are making it up as they go along, they will need a setting and a situation to use as a starting point. Solicit ideas from the students. Try to settle on one that will allow the students a lot of room to be creative. For example, two scientists about to test the world's first time machine.
- Explain to the students that you will start them off by saying a line of dialogue as each of the characters. After you say your lines the first student in each group will come up and repeat the line you said for each of their respective characters, with the exception of one word of their choosing, which they will replace with a synonym. For example, if you start off by saying, "Ahoy, fellow scientist, the idea of traveling through time is so exciting, isn't it?" The student who's next in line for character A could come up and say "Ahoy, fellow scientist, the idea of traveling through time is so exhilarating, isn't it?"
- Once both students have repeated your lines, switching out one word for a synonym, they will each have a chance to continue the conversation by responding with their own original lines. The students should make sure to always answer with another question, this helps to keep the conversation moving. They will then be replaced by the next members in their groups who will repeat the process.
- After all of the students have had a chance to participate, end by discussing the activity and charting some of the sets of synonyms that were used.

- Have students revisit a piece of writing they are working on to revise their word choice to make their writing more engaging.

Materials:

- If a student gets stuck and can't think of a synonym you may want to have a thesaurus on hand for them to use.
- You may also want to pass out index cards so the students can write down the line the group member ahead of them spoke.

*Teachers should align objectives to their state standards.

“How-To” Pamphlet

Connection to LHA Curriculum Program: Upper Academy literacy

Desired Outcomes

Understandings (objectives)*:

SWBAT understand that authors write for different purposes, one of those purposes being to explain.
SWBAT write an expository text.

Assessment Evidence

Performance task (arts infused activity):

Students will create a “how-to” pamphlet clearly explaining in ten steps how to make a sculpture of an animal of their choosing. (Consider having students construct sculptures of objects that relate to things they are studying in other subjects. For example, students might create sculptures of a simple machine, or an event they have studied in social studies.)

Learning Plan

Learning Activities

Part One

- Briefly review with the students the different purposes for which an author might write.
- Tell them that in this activity they will be writing an expository text, or a text that’s purpose is to explain something. Tell them that the expository text they will be writing will take the form of an illustrated “how-to” pamphlet that tells the reader how to create a sculpture. Pass out some examples of manuals and discuss the format and features of how-to writing.
- Inform the students that in order to write the pamphlet they first must make the sculptures themselves.
- Provide the students with a number of different reference photos of objects they can choose from. Also, give them paper to take notes about each step.
- Give the students the following tips for sculpting and note taking before they begin:
 - The first step in any “how-to” should always be to gather materials. Make a list of all the materials someone will need to make this sculpture.
 - To begin your sculpture, look at the reference photo. Look at all the parts of the animal’s body and their sizes. Break your sculpting material up so that you have one piece of sculpting material of the appropriate size for each body part plus another piece set aside for smaller details.
 - Look at the basic shapes made by each of the animal’s body parts. Sculpt these shapes, add them to the sculpture and add the details at the end. Also, make note of these shapes to help describe each step in the “how-to.”
 - When taking notes on each step, make sure to use adjectives to be more clear and descriptive in your “how-to.”
 - Use adverbs in your notes to help describe how people should complete each step.
- Once you’ve given students the sculpting and note taking tips, pass out the sculpting materials and allow the students to begin their sculptures.
- While the students are sculpting circulate the room and give them feedback on their notes.

Part Two

- After the students have completed their sculptures, it's time to have them begin the final copies of their pamphlets.
- Show the students how they should lay out their pamphlet. On the board draw two horizontal rectangles that have been divided into three columns each. In each of the three columns in the first rectangle, which represents the front of their paper, there should be space set aside for two steps, one on top of the other, descriptive text and illustration. The first two columns in the second rectangle, which represents the back of the paper, should be broken up in the same way. The last column on the right should be reserved for the cover.
- Tell the students that when they are illustrating each step in their pamphlet, it is important that they draw exactly what they are describing in each step. For example, if they are describing rolling a piece of sculpting material into a ball they should draw hands rolling a ball. They should not include too much or too little visual information as it might be confusing to the reader.
- Distribute large pieces of white paper. Have the students hold the paper horizontally and then fold the paper into thirds so that it is divided into three columns.
- Allow the students to begin working on their final copies.
- Once all the steps have been written and illustrated, have the students make a cover with a title that describes what will be created, and a picture of what the final sculpture will look like.
- When the pamphlets are complete, as an extension, have the students trade their "how-to" with a classmate to see if they can use their instructions to recreate their sculpture.

Materials:

- Sculpting materials (Crayola Model Magic or air drying modeling clay)
- Loose-leaf or notebook paper of note taking
- Large, medium weight to heavy weight, plain white paper
- Animal reference images

*Teachers should align objectives to their state standards.

See CPA ELA Lessons: Picture Book Narrative

| |
|--|
| Connection to LHA Curriculum Program: CPA (Any core subject area with a suitable picture book) |
| Desired Outcomes |
| Understandings (objectives)*: SWBAT demonstrate comprehension by explaining a concept in greater detail. |
| Assessment Evidence |
| Performance task (arts-infused activity): Picture Book Narrative |

See CPA ELA Lessons: Character Trait Monologue

| |
|---|
| Connection to LHA Curriculum Program: Upper Academy literacy |
| Desired Outcomes |
| Understandings (objectives)*: SWBAT write a monologue for a character that demonstrates certain character traits through their words and actions. SWBAT identify evidence of these traits in a dramatic performance. |
| Assessment Evidence |
| Performance task (arts-infused activity): Students will create a character that possesses traits of their choosing and write a monologue that provides evidence of these traits through the character's words and actions. Students will observe each other's performances and record evidence from the performance that either supports or discredits the traits that are to be demonstrated by the characters. |

See CPA ELA Lessons: Greek and Latin Word Part Picto-Charades

| |
|---|
| Connection to LHA Curriculum Program: Upper Academy Literacy |
| Desired Outcomes |
| Understandings (objectives)*: SWBAT define commonly used Greek and Latin word parts. |
| Assessment Evidence |
| Performance task (arts-infused activity): Students will give clues to the meaning of Greek or Latin word parts through a performance or by drawing a picture. Students will accurately identify Greek and Latin word parts based on clues given in the form of a performance or drawn picture. |

See CPA ELA Lessons: Digital Analogy Collage

| |
|---|
| Connection to LHA Curriculum Program: Upper Academy Literacy |
| Desired Outcomes |
| Understandings (objectives)*: SWBAT write analogies and identify the relationships between the things being connected within the analogy. |
| Assessment Evidence |
| Performance task (arts-infused activity): Students will create an analogy by pairing images which correctly represent a relationship of their choosing. |

See CPA Lessons: Flashback/Foreshadowing Comic Strip

| |
|---|
| Connection to LHA Curriculum Program: Literacy |
| Desired Outcomes |
| Understandings (objectives)*: SWBAT identify examples of flashback and foreshadowing in a literary text. (Note: this lesson may be broken into two separate lessons – one for flashback and one for foreshadowing.) |
| Assessment Evidence |
| Performance task (arts-infused activity): Students will produce a one-page comic that utilizes flashbacks or foreshadowing effectively to tell a story. |

See CPA Lessons: Point of View Photos

| |
|---|
| Connection to LHA Curriculum Program: Literacy |
| Desired Outcomes |
| Understandings (objectives)*: SWBAT identify the point of view a story is being told from and write using the appropriate pronouns in both the first and third person points of view. |
| Assessment Evidence |
| Performance task (arts-infused activity): Students will use appropriate pronouns when writing captions for photos showing a single scenario being acted out from two points of view. |

Upper Academy Science Lessons

See CPA Science: Scientist Speeches

| |
|---|
| Connection to LHA Curriculum Program: Science |
| Desired Outcomes |
| Understandings (objectives)*: Students will be able to explain the significance of a scientific concept. |
| Assessment Evidence |
| Performance task (arts-infused activity): Students will deliver a persuasive speech from the perspective of the scientist who achieved a major scientific breakthrough in their field of study. |

See CPA Science: Digestive System Movement

| |
|--|
| Connection to LHA Curriculum Program: Science |
| Desired Outcomes |
| Understandings (objectives)*: Students will be able to explain the process of digestion in humans. |
| Assessment Evidence |
| Performance task (arts-infused activity): Students will act out the digestive process. |

See CPA Science: Hydrologic Cycle

This lesson can be adapted to fit other types of cycles.

| |
|---|
| Connection to LHA Curriculum Program: Earth Science |
| Desired Outcomes |
| Understandings (objectives)*: SWBAT identify and explain the stages of the hydrologic cycle. |
| Assessment Evidence |
| Performance task (arts-infused activity): Students will create flip books to represent stages of the hydrologic cycle. |

Upper Academy Social Studies Lessons

See CPA Social Studies: History Theatre

| |
|--|
| Connection to LHA Curriculum Program: CPA (or UA), primarily ELA or Social Studies |
| Desired Outcomes |
| Understandings (objectives)*: SWBAT create dramatic representations of a text or concept they are learning about. |
| Assessment Evidence |
| Performance task (arts-infused activity): Dramatic interpretation of a historical event. |

See CPA Social Studies: Comprehension 4 Square

| |
|--|
| Connection to LHA Curriculum Program: Social Studies (CPA or UA, though technique could be applied to other disciplines such as ELA or Science as well) |
| Desired Outcomes |
| Understandings (objectives)*: SWBAT analyze a work of art to make connections to a historical event or period. |
| Assessment Evidence |
| Performance task (arts-infused activity): Viewing Comprehension 4-Square |

See CPA Social Studies Lessons: Music Connections

| |
|--|
| Connection to LHA Curriculum Program: CPA History |
| Desired Outcomes |
| Understandings (objectives)*: The music from a particular time period can reveal a great deal about what the world was like at that time. |
| Assessment Evidence |
| Performance task (arts-infused activity): Use period songs to learn about conditions or feelings during a given time period. |

College Prep Academy ELA

Picture Book Narrative

| |
|---|
| Connection to LHA Curriculum Program: CPA (Any core subject area with a suitable picture book) |
| Desired Outcomes |
| Understandings (objectives)*: SWBAT demonstrate comprehension by explaining a concept in greater detail. |
| Assessment Evidence |
| Performance task (arts-infused activity): Picture Book Narrative |
| Learning Plan |
| Learning Activities: Find a young children’s picture book that relates to the topic in a unit of study. (Especially in the 1950s and 1960s, for example, it was common to have picture books about folk heroes like Daniel Boone or Lewis & Clark – these are ideal for history, but today there might be many connections possible to science, as well as obvious ELA parallels). Have students use their more in-depth knowledge to write words/captions (or if there are simple words, to augment them with greater detail and knowledge). The finished book should have text that is high school level to accompany the pictures. |
| Materials: Picture books relevant to the content or subject matter; materials for students to develop their own captions (possibly using post-it notes to “insert” captions). |

*Teachers should align objectives to their state standards.

Character Trait Monologue

Connection to LHA Curriculum Program: Upper Academy literacy

Desired Outcomes

Understandings (objectives)*:

SWBAT write a monologue for a character that demonstrates certain character traits through their words and actions.

SWBAT identify evidence of these traits in a dramatic performance.

Assessment Evidence

Performance task (arts-infused activity):

Students will create a character that possesses traits of their choosing and write a monologue that provides evidence of these traits through the character's words and actions. Students will observe each other's performances and record evidence from the performance that either supports or discredits the traits that are to be demonstrated by the characters.

Learning Plan

Learning Activities:

- Give students the definition of a monologue. Tell them that they will be creating a character from a list of character traits and using that list of traits to write a monologue where that character is telling a story about something that happened to them.
- Provide the students with a list of possible traits they could incorporate into their character. This link takes you to a rather extensive list of possible traits:
<http://cte.jhu.edu/techacademy/web/2000/kochan/charactertraits.html>
- Allow the students time to look over the list and encourage them to look up at least five words that they are unfamiliar with.
- Distribute a character planning sheet to the students. The sheet should have room for the character's name, age, a brief description of their background and room for five traits that describe the character. If you want you can also provide a space where the students can draw the character's picture.
- Tell the students to pick five traits from the list to fill out the planner. Make sure they know not to pick two traits that are the exact opposites of one another, for example: polite and rude.
- Model picking your own five character traits and giving examples that display evidence of them. For instance, if your character is supposed to be thoughtful, talk about how you could tell a story about helping an elderly person carry their groceries home from the store. If the character is patient, talk about how the elderly person was unable to walk very fast, but your character didn't mind and used the extra time to get to know them better.
- Once they have completed the planning sheet, have students begin writing their monologue. The monologue should be at least a page in length, relate a series of events that happened to the character and provide evidence of all five character traits without providing evidence to the contrary.
- Conference with individual students as the class works on the monologues.
- When the monologues are completed, have the students perform them for the class. Ask the

students to pay particular attention to the tone of their voice and the body language they are using during their performance. They should make sure that both are consistent with their character's traits.

- At the start of each performance, have each student announce the traits that their character will display during the monologue. The audience members should take note of this on a sheet that you provide them with that also contains a space for them to record any evidence of these traits they witness during the performance. Have the students share out what they saw at the end of each performance.

Materials:

Computers

Paper/pencils

*Teachers should align objectives to their state standards.

Greek and Latin Word Part Picto-Charades

Connection to LHA Curriculum Program: Upper Academy Literacy

Desired Outcomes

Understandings (objectives)*:

SWBAT define commonly used Greek and Latin word parts.

Assessment Evidence

Performance task (arts-infused activity):

Students will give clues to the meaning of Greek or Latin word parts through a performance or by drawing a picture. Students will accurately identify Greek and Latin word parts based on clues given in the form of a performance or drawn picture.

Learning Plan

Learning Activities:

- Give the students a selection of Greek and Latin word parts along with their definitions. Allow them time to look it over.
- Tell them that today they will be playing a game like Charades or Pictionary where their job is to draw and/or act out a word while the other students guess what it is.
- Give each student an index card with a Greek or Latin word part and a couple examples of words constructed using that word part. Make sure the students know not to share what's on their card with anyone else.

-audi-
(Latin, root)

audible, audience

- Tell the students that they will be given one minute to, silently and without writing words, draw and/or act out the meaning of both their example words while the other students try to guess the word part that the two examples have in common.
- Inform the students that before they begin their performance they can tell audience the word parts origin and what type of word part it is. For example; "Latin, root"
- Give the students a few minutes to think about the clues they want to give. As they are doing this, circulate the room to see if anyone needs clarification on the definition of either of their example words.
- Once everyone has had time to think about their clues begin letting the students come to the front of the room to draw and/or act them out. As they are doing this have the other students call out their guesses. Make sure that the performers know that once a minute is up or the

correct answer is given the performance stops.

- If the students are only seeing the word parts for the first time that day you may want to allow the audience to hold on to their list of definitions. However, if the students have worked with the word parts before you may want them to guess the answers from memory.

Materials:

- Index cards
- Chart paper or white board for drawing
- Markers
- List of word parts with their definitions and origin

*Teachers should align objectives to their state standards.

Digital Analogy Collage

Connection to LHA Curriculum Program: Upper Academy Literacy

Desired Outcomes

Understandings (objectives)*: SWBAT write analogies and identify the relationships between the things being connected within the analogy.

Assessment Evidence

Performance task (arts-infused activity):

Students will create an analogy by pairing images which correctly represent a relationship of their choosing.

Learning Plan

Learning Activities:

- Review analogies with the students. Tell them that analogies help us make connections between two things that may seem very different. Inform the students that in order to make an analogy we have to be able to establish the relationship between two things. Give the students an example where the relationship between the two things is obvious, like day is to night as up is to down. Ask the students to identify the relationship (the relationship is that the things are opposites).
 - Give some more examples that establish the following relationships commonly found in analogies:
 - Similar
 - Part/whole
 - Members of a group
 - Group name/group member
 - Change (one thing that changes into another)
 - Function
 - Quantity
- Have the students establish the relationship for each example and list them on the board.
- Tell the students they will be picking one of the common relationships listed on the board and building an analogy that demonstrates that relationship using pictures. The students will be using an internet search engine such as Google and a program that allows the students to paste images into a layout like Microsoft publisher.
 - To model the activity for the students, first pick a relationship. For example, function.
 - Next pick two things that have similar functions. Two things that are used for hitting are a hammer and a bat. Show the children how to search for images of these things using Google image search (make sure that it's set to "safe search" under preferences to keep inappropriate images from popping up). When you find each image copy and paste them into a publisher document one on top of another. Show them how to resize the images so that they can fit everything on one page.
 - Now find images of a nail and a ball because these are the things that you would hit with a hammer and a bat. Have the students copy and paste these images to the left of their partner images in the publisher document.

- Next show the students how to insert text boxes into the document so that they can add “is to” in between the pictures in each pair and “as” in between the two pairs.
- Encourage students to find images for as many pairs as they can think of that demonstrate the same relationship.
- Allow the students time to complete this activity while you circulate the room monitoring their image searches and answering questions.
- Once the analogies are complete, either print or display the images. Ask the students to identify the relationship present in each analogy.

Materials:

- Computers with internet access.
- Microsoft Publisher or a program with similar capabilities.
- Printer (optional)

*Teachers should align objectives to their state standards.

Flashback/Foreshadowing Comic Strip

Connection to LHA Curriculum Program: Literacy

Desired Outcomes

Understandings (objectives)*:

SWBAT identify examples of flashback and foreshadowing in a literary text. (Note: this lesson may be broken into two separate lessons – one for flashback and one for foreshadowing.)

Assessment Evidence

Performance task (arts-infused activity):

Students will produce a one-page comic that utilizes flashbacks or foreshadowing effectively to tell a story.

Learning Plan

Learning Activities:

- Review the concepts of flashback and foreshadowing. Allow the students to give examples of flashback or foreshadowing they may remember from books they have read or movies they have seen.
- Tell the students that they will be creating a one-page, nine panel comic that utilizes either a flashback sequence or foreshadowing to tell the story.
- Inform the students that if they are creating flashback comics it's as if they are beginning with the end of the story and then going back to tell how they got to that point. For example, if the students wanted to tell the story of a racecar driver winning an important race, they might start with a scene of the racecar driver being carried on the shoulders of the other members of his racing team, holding a large trophy while confetti falls all around him and the crowd cheers in the stands. The panel could feature a text box displaying the driver's internal monologue, saying something like, "As the crowd roared I couldn't help but smile to myself and think, just a short time ago I didn't even think I was going to finish the race - let alone lead my team to victory!" The second panel could show the driver blowing a tire and spinning out on the track. Explain to the students that they would use the other seven panels on the page to tell how the driver went from blowing a tire to squeaking out a first place victory.
- For those students creating foreshadowing comics, explain to them that foreshadowing can take a number of different forms. Foreshadowing can happen in dialogue. For example, if two characters were taking a trip somewhere and at a fork in the road one character says to the other, "Do you think we should check the map?" and the other character replies "Map? Who needs a map when you have my keen sense of direction?" This would foreshadow that the characters are probably going to go the wrong way. The narrator of a story can also create foreshadowing in their description of characters' surroundings. For example, if the narrator mentions that a character walks past a bush containing a pair of glowing red eyes this would foreshadow the character running into whatever creature those eyes belonged to later

in the story. In a movie or a comic book this type of foreshadowing is usually not done by a narrator but rather by giving the viewer or reader visual clues like showing the glowing red eyes. Have the students decide, before they begin their comics, what type of foreshadowing they will use.

- Have the students create rough drafts of their comics where they plan out what will take place in each panel.
- Once students have produced a satisfactory rough draft allow them to take drawing paper and begin their final product.
- To connect this activity to a specific text, have students use a graphic organizer to identify the elements of flashback or foreshadowing in the text.

Materials:

- Drawing paper
- Rulers
- Drawing materials
- Erasers

*Teachers should align objectives to their state standards.

Point of View Photos

| |
|--|
| Connection to LHA Curriculum Program: Literacy |
| Desired Outcomes |
| Understandings (objectives)*: SWBAT identify the point of view a story is being told from and write using the appropriate pronouns in both the first and third person points of view. |
| Assessment Evidence |
| Performance task (arts-infused activity): Students will use appropriate pronouns when writing captions for photos showing a single scenario being acted out from two points of view. |
| Learning Plan |
| Learning Activities: <ul style="list-style-type: none">• Review point of view with the students. Tell them that a story’s point of view is determined by who the narrator of the story is. If a story is being told from a first person point of view, the narrator is a character in the story. It’s like we are seeing the world through that character’s eyes. If the story is being told from a third person point of view the narrator is someone outside of the story. This means that the narrator can tell us about what any or all of the characters are thinking and feeling. (Upper Academy students may distinguish omniscient and limited third person points of view.)• Tell the students that in this activity they will be using photography to represent point of view visually.• Break the class into pairs and give each one a scenario. For example: <i>Two children are fighting over a piece of recess equipment.</i>• Allow the pairs to spread out around the room and explain to them that they should read their scenario and show the scene by posing in a tableaux, or frozen picture. Tell them to use the position of their bodies and facial expressions to convey what is going on and the emotions the characters are feeling.• Set up a station in the room where you can photograph each pair in their tableaux when they are ready.• When each group comes to the photo station take a picture of the pair in their tableaux. Then remove one of the characters from the scene and take a picture of the remaining character from what would be the removed character’s point of view.• Print both photos side by side on a single sheet of paper and give a copy to both students in the pair.• Above the photo showing one character, have the students write “First Person Point of View”• Above the photo showing both characters, have the students write “Third Person Point of View”• Explain to the students that they will be writing a caption for each picture using words appropriate for the point of view shown.• Review pronouns associated with the first person point of view (I, we, etc.)• Review pronouns associated with the third person point of view (he, she, etc.) |

- Make sure the students understand that in the picture labeled third person point of view, they can tell us what both characters are feeling. However, in the picture labeled first person point of view, they can only tell us what the character whose eyes we are seeing through is thinking and feeling.
- Give the students time to write their captions under each picture.
- When the students are finished display the photos and allow the students to constructively critique each other's work. Discuss how changing point of view affects the story that's being told.
- To have students transfer their understanding of point of view back to their work in literacy, ask students to identify the point of view the story they are currently reading is told in and to explain how that affects the reader's perception of the events and characters.

Materials:

- Digital camera
- Computer
- Printer (if it is not possible to immediately print the photographs, this lesson may be adjusted to using preprinted photographs supplied by the teacher)

*Teachers should align objectives to their state standards.

College Prep Academy Social Studies

Song Parody

| |
|---|
| Connection to LHA Curriculum Program: CPA (all Core Subject areas) |
| Desired Outcomes |
| Understandings (objectives)*: SWBAT write a parody to demonstrate understanding of a concept. |
| Assessment Evidence |
| Performance task (arts-infused activity): Song Parody |
| Learning Plan |
| Learning Activities: This activity could apply to all grade levels, since having students change the lyrics to a song they know to incorporate learning or themes from the unit is a pretty straightforward technique. This is a commonly used activity, but too often it occurs without structure (pick any song and write lyrics about a topic from class). Have students spend time brainstorming the content that belongs in the song before writing it. Create a rubric for students to use to understand the expectations for the completed song. |
| Materials: Blank song sheets and/or karaoke versions of selected tunes, if desired. |

*Teachers should align objectives to their state standards.

Music Connections

| |
|---|
| Connection to LHA Curriculum Program: CPA History |
| Desired Outcomes |
| Understandings (objectives)*: The music from a particular time period can reveal a great deal about what the world was like at that time. |
| Assessment Evidence |
| Performance task (arts-infused activity): Use period songs to learn about conditions or feelings during a given time period. |
| Learning Plan |
| Learning Activities: Play music from a time period students have been learning about. Provide students with the lyrics to the music and have them analyze the lyrics in small groups. Create a graphic organizer for students to fill in the big ideas of the song/time period and the lyrics that reveal these ideas. This lesson can also be conducted using visual arts instead of music. Extension: Have students consider how contemporary music or art reveals information about present-day life. |
| Materials: Art or music that will be used as the basis for content instruction |

*Teachers should align objectives to their state standards.

College Prep Academy Math

Art and the Golden Ratio

Connection to LHA Curriculum Program: CPA Math

Desired Outcomes

Understandings (objectives)*: explain the properties of the Golden Ratio and identify examples of it in nature.

Assessment Evidence

Performance task (arts-infused activity): SWBAT identify works of art that incorporate the Golden Ratio and create their own work of art that uses the Golden Ratio.

Learning Plan

This lesson was adapted from a lesson listed at
<http://www.princetonol.com/groups/iad/lessons/high/Grace-golden.htm>

Learning Activities:

- Show the PowerPoint presentation (see reference to website in materials section) to review the Golden Ratio and discuss its presence in nature and art.
- Tell students they will choose a Golden Ratio pattern in nature (see examples in PowerPoint) and create a work of art that includes the pattern.
- Students may use the layouts provided in the handout at the website listed below.
- Model tracing one of the styles of the Golden Ratio onto a sheet of large paper and then determine how to use it as a focal point in your work of art.
- Have students trace a Golden Ratio pattern and design their own pieces of art around it.
- Once they have finished their drawings, have students write an explanation of what the Golden Ratio is and how they used the Golden Ratio in their drawing.

Materials:

A large sheet of cardstock (or other large paper) for each student.

Markers/paints/crayons or any drawing instruments

PowerPoint presentation at <http://www.princetonol.com/groups/iad/lessons/high/Grace-golden.htm>

Make transparencies with the 4 different styles of the Golden Mean (see handout on website above) by either tracing them on transparencies, or by using a copy machine.

Other web resources:

- [Golden Number.net](http://www.goldennumber.net/) <http://www.goldennumber.net/>

- [Phi and the Golden Section in Art](#)- Resources by the "Phi Guy."
- [Golden Mean Art](#)- All the art on this blog was created using the golden mean.
- [Fibonacci Numbers and The Golden Section in Art](#)
- [Golden Mean Explained](#)- Wet Canvas' page with explanation and painting samples.
- [Golden Ratio in Art and Architecture](#)- The Golden Mean, Phi, the Divine Section, The Golden Cut, The Golden Proportion, The Divine Proportion, and tau(t) are covered.
- [Timeless by Design](#) site by Valrie Jensen - set of design templates (of which the golden section is one).
- [The Golden Age and the Golden Mean](#)- A page of excerpts from the book, [String, Straight-Edge, and Shadow](#)

*Teachers should align objectives to their state standards.

Tessellations

Connection to LHA Curriculum Program: CPA Math

Desired Outcomes

Understandings (objectives)*: analyze examples of tessellations to identify mathematical properties.

Assessment Evidence

Performance task (arts-infused activity): SWBAT create and analyze the properties of tessellations.

Learning Plan

This lesson was adapted to a lesson listed at
<http://www.shodor.org/interactivate/lessons/Tessellations/>

Learning Activities:

- Review the definition of a tessellation and show students some examples.
- Explore tessellations on the pages of the website listed above.
- Challenge students to analyze different properties of tessellations: geometric patterns, symmetry, etc.
- Have students use the data table worksheet found on the website listed above to determine which regular polygons can and cannot tessellate. Have students explain their answers for each polygon.

Materials:

Computer access

Activities and Worksheets from <http://www.shodor.org/interactivate/activities/Tessellate/>

*Teachers should align objectives to their state standards.

College Prep Academy Science

Scientist Speeches

| |
|---|
| Connection to LHA Curriculum Program: Science |
| Desired Outcomes |
| Understandings (objectives)*: Students will be able to explain the significance of a scientific concept. |
| Assessment Evidence |
| Performance task (arts-infused activity): Students will deliver a persuasive speech from the perspective of the scientist who achieved a major scientific breakthrough in their field of study. |
| Learning Plan |
| Learning Activities: <ul style="list-style-type: none">• Assign/have students choose a scientific concept they have been studying (consider posting a bank of choices for students to select from).• Explain that students will be writing speeches from the perspective of the scientists who introduced these concepts and that it is their job to convince the audience of the significance of the breakthrough.• Review the elements of persuasive writing.• Review the elements of a good speech (consider collaborating with the ELA teacher and/or referring to the websites below).• Allow students time in class or at home to research the scientist they will be acting as.• Provide students with a rubric of expectations for their speeches.• Have students work on their speeches in class, and give them time to rehearse with a partner.• Set aside time for students to deliver their speeches in class. Have audience members use the rubric to assess their classmates' speeches.• Consider having students deliver their speeches at a Town Hall Meeting or to a class of younger students. |
| Materials: <p>Samples of well-known and powerful speeches: http://www.americanrhetoric.com/top100speechesall.html Speech-writing tips: http://www.speechtips.com/ http://teacher.scholastic.com/writewit/speech/index.htm</p> |

*Teachers should align objectives to their state standards.

Digestive System Movement

Connection to LHA Curriculum Program: Science

Desired Outcomes

Understandings (objectives)*: Students will be able to explain the process of digestion in humans.

Assessment Evidence

Performance task (arts-infused activity): Students will act out the digestive process.

Learning Plan

*This activity was adapted from a lesson posted at:
http://www.accessexcellence.com/AE//AEC/AEF/1995/cave_digest.php

Set-up:

- Use tape to make two parallel lines (to represent the esophagus) on the floor, about 3 feet wide and the length of the classroom
- Create a food particle: place snacks in small Zip-loc bags (enough so the whole class can have one at the end of the lesson). Fill a large garbage bag with the snacks as well as newspaper and any other filler until the bag is full.
- Put the food particle at one end of the esophagus and a trash bin at the other.

Learning Activities:

PERISTALTIC MOVEMENT:

- Have students line up on both tape lines, face each other, and pass the bag to squeeze the food (filled large plastic bag) the length of the esophagus.

DIGESTION. Label and/or (instruct) the players:

- Molars (tear food apart-break plastic bag).
- Saliva (use spray bottle to squirt on food).
- Pancreatic juices (spray on food).
- Small intestines (absorb food, find plastic bags of candy and pass to blood).
- Blood (transports food, distribute the food to every cell/participant).
- Large intestine (reabsorbs moisture, sponge up water on the floor).
- Rectum (puts the waste papers in the trash can).

Suggestions:

Every student should have a part. Several students can play the same part or other parts can be

created. As the food comes to them, have the students tell what they are about to do, or narrate the action ("I am a grinding tooth and I crush food like I break this bag.") Limit the degree of destruction at each organ. Have the "nutrients" (M&M's) passed to the "blood" given to teacher when found and then returned to the "blood" for distribution to all participants after clean up.

Extension/Reinforcement:

It can be abbreviated and repeated with new "food "particles" until each has played every role. More details can be added for advanced students. Discussion can follow with the further explanations of diarrhea, constipation, gas, ulcers, appendicitis, bulimia, polyps, other conditions or foods.

Materials:

- Garbage bag
- Newspapers
- Ziploc bags
- Snacks
- Masking tape
- Markers and paper to label students (optional)
- Sponges
- Labeled spray bottles of water
- Trash can

*Teachers should align objectives to their state standards.

Hydrologic Cycle

This lesson can be adapted to fit other types of cycles.

| |
|--|
| Connection to LHA Curriculum Program: Earth Science |
| Desired Outcomes |
| Understandings (objectives)*: SWBAT identify and explain the stages of the hydrologic cycle. |
| Assessment Evidence |
| Performance task (arts-infused activity): Students will create flip books to represent stages of the hydrologic cycle. |
| Learning Plan |
| Learning Activities: |
| Prerequisites : Students should have already learned about the hydrologic cycle and its stages. This activity can be used to assess their understanding of the cycle. |
| Procedure for Teaching: <ul style="list-style-type: none">• Inform students that their understanding of the stages of the hydrologic cycle will be assessed based on flip books they will create on the computer (if this activity is not going to be used as an assessment, lead a brief discussion about the hydrologic cycle at the start of the lesson).• Introduce the computer program they will use to create the flip books (see Materials for suggestions).• Model and guide students in how to create a simple flip book using the program.• Have students work on their hydrologic cycle flip books. Students should use both text and illustration in their books.• When students finish their books, have them print and assemble them.• Consider having students use a rubric assess each others' books. Students' scoring and feedback comments can provide an additional form of assessment. |
| Assessment: <ul style="list-style-type: none">• Did the student include all stages of the hydrologic cycle in their flip book?• Did the student accurately represent the stages in both drawings and text?• Does the flip book effectively show an animated representation of the cycle (when printed and flipped)? |

Materials:

- A computer for each student.
- A program for creating flip books. ReadWriteThink has a good one.
<http://www.readwritethink.org/files/resources/interactives/flipbook/>

If there are not enough computers for each student to create a flip book, students may create books by hand.

*Teachers should align objectives to their state standards.

College Prep Academy Social Studies

History Theatre

| |
|--|
| Connection to LHA Curriculum Program: CPA (or UA), primarily ELA or Social Studies |
| Desired Outcomes |
| Understandings (objectives)*: SWBAT create dramatic representations of a text or concept they are learning about. |
| Assessment Evidence |
| Performance task (arts-infused activity): Dramatic interpretation of a historical event. |
| Learning Plan |
| Learning Activities: Have students act out a scene from a novel, an important event from history, or demonstrate a scientific principle kinesthetically. This is similar to Tableaux, but instead of a single pose, it might require a brief dialogue or acting out a scene. Students can either act out scenes literally or interpretatively. |
| Materials: Anchor text and any props desired during skits |

*Teachers should align objectives to their state standards.

Comprehension 4 Square

| |
|---|
| Connection to LHA Curriculum Program: Social Studies (CPA or UA, though technique could be applied to other disciplines such as ELA or Science as well) |
| Desired Outcomes |
| Understandings (objectives)*: SWBAT analyze a work of art to make connections to a historical event or period. |
| Assessment Evidence |
| Performance task (arts-infused activity): Viewing Comprehension 4-Square |
| Learning Plan |
| Learning Activities <p>The instructor should select an image (painting, photograph, cartoon, etc.) that illustrates various concepts from the unit of study. Ask students to draw a T-shape on a blank piece of paper. Show students the whole image for approximately 30 -45 seconds – no talking or writing – just to reflect on what they see in the context of their background knowledge. Then project one quarter of the image at a time (cropped with Photoshop or Paint) for approximately 90 seconds each. Have students write what they see in that quadrant – key objects, images, or phrases, and any symbols they might see. After all four quadrants have been displayed, then show the entire image again and have students analyze the image quadrant by quadrant, then draw overall conclusions (synthesis technique).</p> |
| Materials: Image on projector, divided into four quadrants that can be viewed together or separately; students will need to write in notebooks |

*Teachers should align objectives to their state standards.

CURRICULUM MAPS

4th Grade ELA Curriculum Map

Module 1

Reading for Literature

Reading is a complex process involving word recognition, comprehension, fluency, and motivation. Word recognition refers to the process of recognizing how written symbols correspond to spoken language. Comprehension is the process of making sense of words, sentences and connected text. Fluency is defined as the ability to read with speed, accuracy, and proper expression. In order to understand what they read, children must be able to read fluently whether they are reading aloud or silently. Fluent reading encompasses three key elements
 accurate reading of connected text at a conversational rate with appropriate expression (Hudson, Mercer, & Lane, 2000).

Motivation is described as a purpose for reading, interest in the content, and self-efficacy. Readers typically make use of background knowledge, vocabulary, grammatical knowledge, experience with text and other strategies to help them understand written text

Reading Objectives Include

- Students will read fluently and confidently a variety of texts for a variety of purposes
- Students will practice the behaviors of effective, strategic readers
- Students will demonstrate understanding of new vocabulary and concepts and use them accurately in reading, speaking, and writing.

Key Ideas and Details Enduring Understanding
 Readers use strategies to construct meaning.
 Readers use language structure and context clues to identify the intended meaning of words and phrases as they are used in text.
 Strategic readers can develop, select, and apply strategies to enhance their comprehension.

Essential Questions: Can you tell me the reasons why the character said ...in the story? Show me where you linked your thinking to the text. What are the most important events that happened in the story? How do you know? What is the theme of this text? Summarize the story from beginning to end in a few sentences. Can you tell me how the character is feeling is this part of the story? Explain why the character is feeling this way.

| Vocabulary | Strand | CCSS/AR SLEs | Resources/Strategies | Assessment |
|--|--------|---|---|---|
| poems, drama, prose rhythm, meter, character cast, setting, dialogue | RL.4.5 | Explain major differences between poems, drama, and prose, and refer to the structural elements of poems (e.g., verse, rhythm, meter) and drama (e.g., casts of characters, settings, descriptions, dialogue, stage directions) when writing or speaking about a text. AR.4.R.10.15 (R.10.4.15) AR.4.R.10.16 (R.10.4.16) AR.5.R.10.11 (R.10.5.11) Reading a variety of poetry for enjoyment, critical analysis, and evaluation: Read a variety of poetry, with emphasis on rhymed and patterned. AR.5.R.10.12 (R.10.5.12) Reading a variety of poetry for enjoyment, critical analysis, and evaluation: Describe the characteristics of rhymed and patterned poetry. | Imagine It/Open Court Green, Red and Blue Strands; Imagine It: America on the Move "Imigrant Children "; TLI Quiz Builders; A-Z Reading | Exit Slip, TLI quizzes Check for understanding Popcorn Calling Thumbs Up Thumb down |

Craft and Structure Enduring Understanding
 Assess how point of view or purpose shapes the content and style of a text.

Essential Questions: What do you do when you come to words or phrases you do not know? (use context)

| Vocabulary | Strand | CCSS/AR SLEs | Resources/Strategies | Assessment |
|--|--------|--|---|---|
| compare contrast point of view first-person third-person | RL.4.6 | Compare and contrast the point of view from which different stories are narrated, including the difference between first- and third-person narrations. | Imagine It/Open Court Green, Red and Blue Strands; Imagine It: America on the Move "Imigrant Children "; TLI Quiz Builders; A-Z Reading | Exit Slip, TLI quizzes Check for understanding Popcorn Calling Thumbs Up Thumb down |

JOB DESCRIPTIONS

LIGHTHOUSE ACADEMIES POSITION DESCRIPTION

We prepare our students for college through a rigorous arts-infused program.

CORE VALUES

Work hard. Get smart.
Graduate from college.

High expectations
equal results.

Nothing less
than excellence.

Today is the day
we make it happen.

Title: Director of Student Services

Reports To: Principal

VISION FOR POSITION

The Director of Student Services (DSS) is an exemplary program coordinator and effective manager responsible for ensuring all scholars realize their full potential. The DSS develops and monitors a comprehensive program of high-quality academic and socio-emotional services that meet each scholar's identified and targeted needs. The DSS establishes effective communication and accountability structures across school teams, manages the Title I, Special Education, and ELL Teams, monitors the Response to Intervention program, coordinates with outside service providers, and leads professional development. The DSS works collaboratively with the school leadership team to develop a school-wide culture of respect and achievement and a team culture grounded in common goals, mutual respect, empathy towards others, and an appreciation of diversity. The DSS is a next generation educator who is a critical thinker and innovative problem solver with a high level of emotional intelligence.

ESSENTIAL FUNCTIONS

The Director of Student Services is an instructional and strategic leader who works to create and enhance a culture of achievement and respect where high expectations and results are the norm. The Director of Student Services is responsible for demonstrating significant and measurable gains with all teachers and students. The Director of Student Services' actions must always be aligned with our mission, vision, and core values. The essential functions for a Director of Student Services are as follows:

INSTRUCTIONAL LEADERSHIP

Culture of Achievement and Respect

- Create and supervise the school's Response to Intervention program for students needing additional academic and/or social support; coordinate referral system with local, state and federal requirements.
- Manage, coach, and develop the school's Title I, Special Education, and ELL teams to implement a comprehensive program that ensures exceptional student achievement and monitor its effectiveness.
- Ensure that the school is in compliance with the requirements of *IDEA*, the *No Child Left Behind Act of 2001* and the *Rehabilitation Act of 1973*; complete all required reports with accuracy by identified submission dates; ensure confidentiality of student files.
- Develop and oversee the case management system for all students on IEPs and 504 Plans, including overseeing manifestation hearings. Coordinate the assessment program for students with identified accommodations as outlined in the IEP or 504 Plan.
- Manage and maintain the reporting system for all special education and related services programs.
- Manage the procurement of 3rd party services needed to support special education services; monitor and evaluate the effectiveness of these services.
- Collaborate with Director of Teacher Leadership to ensure that standards and skill sets addressed in lesson plans are being anchored into daily remediation.

Professional Development

- Serve on School Leadership Team; collaborate with team to determine services, programs, and intervention needs.
- Plan and lead staff learning experiences through grade level and school-wide meetings.
- Observe in classrooms and provide coaching and feedback to intervention teachers.
- Discuss strategies to use during intervention and model effective instructional strategies to use during small group instruction. Work with instructional staff to plan for and modify instruction of students with IEPs and 504 Plans.

- Ensure that all staff receive mandated professional development for working with students with IEPs and 504 Plans, as well as additional professional development that meets the differentiated instructional needs of individual students to fully support the academic and emotional growth of all students.
- Collaborate with other directors and regional leaders to share best practices and knowledge.

Data Analysis

- Collaborate with school leadership team to develop and monitor the school's strategic plan aligned with school and network goals.
- Use data systems to organize and analyze data used to inform decision making, program modification and planning for targeted, differentiated instruction.
- Meet regularly with intervention staff to increase their knowledge and use of data, as well as to discuss data trends to inform program implementation, modification and planning for targeted and differentiated instruction.
- Assist with the creation, completion and presentation of school reports, as well as required reports for the district and charter authorizer.

OPERATIONAL LEADERSHIP

Culture of Achievement and Respect

- Foster strong relationships with families and collaborate with school leadership team to provide on-going programming that reflects families' needs and interests.
- Initiate and maintain timely communication with families concerning student progress and to provide a clear picture of the curriculum and high expectations.
- Work collaboratively with families and other members of the community to involve them in academic activities, to support the success of a diverse student population and to bring in volunteers and additional resources.

Management

- Recruit, hire, train, and evaluate intervention staff in accordance with LHA policies and procedures.
- Create and monitor Special Education, Title I, and ELL staff's schedules.
- Monitor Special Education, Title I, and ELL budgets; maintain accurate records.
- Organize and update Special Education, Title I, and ELL required documents.
- Attend all Special Education, Title I, and ELL state conferences and mandatory meetings.
- Serve as liaison between the school and Special Education, Title I, and ELL Department of Education officials.

PROFESSIONALISM

- Collaborate with colleagues (leadership and school-wide meetings, professional development days, the professional development institute) to continuously improve personal practice, instruction, assessment, and student achievement, as well as the overall goals and mission of the school and the network.
- Access meaningful learning experiences (current theory, research, and developments in relevant academic disciplines, professional development opportunities, and ideas from colleagues and supervisors) and exercise judgment in accepting findings as valid for application in leadership and teacher improvement.
- Reflect critically upon leadership experience, identify areas for further professional development as part of a professional development plan that is linked to school and network goals, access meaningful learning experiences, and listen thoughtfully to other viewpoints and respond constructively to suggestions and criticisms.
- Use feedback to inform and update Individual Professional Development Plan.
- Fulfill all outlined and related functions professionally and thoroughly.

DESIRED QUALIFICATIONS

EDUCATION & EXPERIENCE:

- Five (5) years teaching experience with proven track record of raising student achievement scores
- Proven success in turning best practices into outstanding academic results
- Masters Degree in Education, Education Administration or Teaching

CORE COMPETENCIES:

- Mission Focused

- Driven towards Excellence
- Influential
- Relationship Builder
- Talent Manager
- Organized & Planned
- Creative
- Constant Learner

KNOWLEDGE & SKILLS:

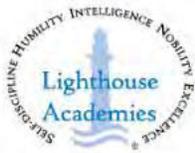

- Strong understanding of Special Education, intervention, Title I, and ELL best practices and regulations
- Ability to lead and manage adults to achieve desired outcomes
- Ability to analyze data to target instruction and inform decision making
- Ability to lead professional development for teachers and provide feedback
- Data managements tools, organizational tools, computer skills (Word, Excel, Access, PowerPoint and Outlook)

HUMAN RESOURCE INFORMATION

EVALUATION: Evaluation twice a year by Principal based on progress toward school goals, individual professional development plan and Vision of Excellence

EMPLOYMENT AND BENEFITS: Per company policy

CLASSIFICATION: Full-time, Administrative, and Exempt

Title: Director of Teacher Leadership

Reports To: Principal

VISION FOR POSITION

The Director of Teacher Leadership (DTL) is a deliberate coach and effective manager responsible for helping teachers and scholars realize their full potential. The DTL provides high-quality job embedded coaching and feedback to teachers so that they develop their skills at a fast rate. The DTL ensures that teachers design and execute an instructional program that develops mastery and skills above grade level expectations and meets the individual needs of each student. The DTL works collaboratively with the school leadership team to develop a school-wide culture of respect and achievement and a team culture grounded in common goals, mutual respect, empathy towards others, and an appreciation of diversity. The DTL is a next generation educator who is a critical thinker and innovative problem solver with a high level of emotional intelligence.

ESSENTIAL FUNCTIONS

The Director of Teacher Leadership is an instructional and strategic leader responsible for leveraging teacher performance to ensure students demonstrate significant and measurable results. The actions of Directors of Teacher Leadership must always be aligned with our mission, vision, and core values. The essential functions for Directors of Teacher Leadership are as follows:

INSTRUCTIONAL LEADERSHIP

Professional Development

- Coach, manage, and develop a group of approximately ten teachers to exceptional student achievement.
- Coach and develop teachers to establish the foundations for successful classrooms: ambitious vision and goals, purposeful long-term plans and unit plans, rigorous assessments, strong relationships, and positive classroom cultures.
- Observe teachers weekly to gather data on student learning and teacher proficiency to diagnose teachers' strengths and weaknesses constantly and determine strategies for improving their practice and improving student learning.
- Provide a wide variety of learning opportunities for teachers focused on analyzing student work, effective planning, targeted and differentiated instruction, as well as high expectations for classroom culture and behavior.
- Serve on School Leadership Team; collaborate with team to determine school-wide professional development, curriculum and assessment needs to meet all school goals.
- Provide professional development to implement the LHA education program; assist with the development of and oversee the school's new staff orientation; assist teachers in the development and realization of Individual Professional Development Plans.
- Monitor the implementation and effectiveness of the LHA education program.

Data Analysis

- Provide data to inform the development of the school's strategic plan aligned with school and network goals.
- Use data systems to organize and analyze student achievement data; ensure the validity and reliability of student data by attending to the rigor and alignment of assessments.
- Use data to inform decision making, to develop and modify curriculum, and to develop targeted and differentiated instruction.
- Meet with teachers regularly to discuss data trends; problem solve with teachers to prioritize the teacher actions that will most impact student performance.
- Assist with the creation, completion and presentation of school reports, as well as required reports for the district and charter authorizer.

Culture of Achievement and Respect

- Work with the school leadership team to implement the school's mission; coordinate work and collaborate with the LHA network.

- Assist with the creation of a school culture with staff, parents and students focused on strong academic achievement, fairness, respect and high expectations for behavior.
- Work collaboratively with families and other members of the community to involve them in academic activities, to support the success of a diverse student population, and to bring in volunteers and additional resources.
- Communicate respectfully and thoughtfully with parent/guardians remaining sensitive to different families' cultures, values and needs.

OPERATIONAL LEADERSHIP

- Recruit, hire, train, and evaluate teachers in accordance with LHA's overarching vision of excellent teaching.
- Collaborate with regional director of instruction, who supports school-based instructional roles, to learn about effective practices across the network, share best practices with other DTLs to use, and collaborate on group projects across the region.
- Coordinate all state and school-based assessments.
- Determine the need for curricular materials, assessment materials, and instructional resources; communicate ordering needs with School Operations Manager.

PROFESSIONALISM

- Collaborate with School Leadership Team and other DTLs to continuously improve personal practice, classroom instruction, assessment, and student achievement, as well as the overall goals and mission of the school and the network.
- Access meaningful learning experiences (current theory, research, and developments in relevant academic disciplines, professional development opportunities, and ideas from colleagues and supervisors) and exercise judgment in accepting findings as valid for application in leadership and teacher improvement.
- Reflect critically upon instructional leadership experience, identify areas for further professional development as part of a professional development plan that is linked to school and network goals, access meaningful learning experiences, and listen thoughtfully to other viewpoints and respond constructively to suggestions and criticisms.
- Use feedback to inform and update Individual Professional Development Plan.
- Fulfill all outlined and related functions professionally and thoroughly.

DESIRED QUALIFICATIONS

EDUCATION & EXPERIENCE:

- Proven track record of closing the opportunity gap
- Three to five (3-5) years teaching experience. Three (3) years of school leadership experience, including instructional coaching and collaborative leadership
- Masters Degree in Education, Education Administration or Teaching

CORE COMPETENCIES:

- Mission Focused
- Driven towards Excellence
- Influential
- Relationship Builder
- Talent Manager
- Organized & Planned
- Creative
- Constant Learner

KNOWLEDGE & SKILLS:

- Ability to lead and manage adults to achieve desired outcomes
- Ability to analyze teacher practice, provide compelling feedback, and translate that into action
- Strong understanding of rigorous, effective instruction
- Ability to analyze data to target instruction and inform decision making
- Experience designing and implementing curriculum and assessments aligned with Common Core State Standards
- Data managements tools, organizational tools, computer skills (Word, Excel, Access, PowerPoint and Outlook)

HUMAN RESOURCE INFORMATION

EVALUATION: Evaluation twice a year by Principal based on progress toward network goals, IPDP goals and core competencies

Title: School Operations Manager
Reports To: Principal

VISION FOR POSITION

The School Operations Manager (SOM) is the business operations leader for a school, managing all non-instructional functions, services, and staff so that the instructional team can maintain a concentrated focus on teaching and student achievement and maximize instructional time. The SOM ensures that the school is managed with operational excellence and fiscal prudence by creating, refining and implementing policies and systems while upholding the values of Lighthouse Academies. The SOM and his/her team work to create a culture of service and support. The SOM partners with the larger school leadership team to develop a school-wide culture of respect and achievement and a team culture grounded in common goals, mutual respect, empathy towards others, and an appreciation of diversity. The SOM is a member of the school leadership team.

ESSENTIAL FUNCTIONS

The School Operations Manager is an operational and strategic leader responsible for maintaining operational excellence and fiscal prudence. The actions of School Operations Manager must always be aligned with our mission, vision, and core values. The essential functions for School Operations Manager are as follows:

OPERATIONAL LEADERSHIP

Systems Development

- Implement school-wide non-instructional systems and procedures that ensure operational excellence within the school. Systems include but are not limited to: Transportation, Safety, National School Lunch Program, student information systems, procurement, compliance tracking, and budget management.

Compliance

- Capture and organize key school data with reliability for the creation and completion of various compliance reports (attendance, enrollment, staffing, etc).
- Manage and successfully complete all necessary compliance reporting to the Local, State, Federal Government, and LHA stakeholders.
- Ensure that all fire, life, and safety regulations and procedures are implemented ensuring the well being of all school staff and scholars.
- Support the Coordinator of Family and Community Partnerships to conduct the school's lottery and enrollment process with integrity and uniformity.

School Operations

- Update and maintain accurate student records and student data in student information system.
- Manage the daily execution of the school's national school lunch program.
- Ensure that the transportation needs of scholars are met with the budget.
- Oversee all school cleaning services and cleaning staff to ensure that the facility is well maintained and continues to be a source of pride in the community.
- Manage school's inventory process with external vendors.
- Manage school work order system.
- Support Charter Facilities Management with any facility related initiatives as needed.

Business

- Support the development, management, and maintenance of the procurement lifecycle, including but not limited to: vendor selection, account creation, purchase order management, materials requisitioning and receiving, inventory management, and invoice reconciliation and payment.
- With regional and national office support, maintain school's financial management system (QuickBooks).
- Support the Principal in the development and management of the annual budget to ensure that school meets its financial goals.

Information Technology

- Serve as on-site IT contact, including managing IT assets, assisting staff with IT issues as able, and serving as main touch-point to regional and national IT staff.
- Support the National Office in the administration of the E-Rate program.

Human Resources

- Process background check as required by state, authorizer and LHA policies and procedures.
- With regional and national office support, serve as human resource administrator as it relates to employee information and benefits.
- Maintain all employee files; update required HR paperwork and data systems.
- Oversee payroll administration.

TEAM LEADERSHIP

Management

- Recruit, hire, lead and manage larger school operations team. Staff could include: office manager, office assistants, non-instructional aides, janitorial and maintenance staff, transportation staff, and lunch services team.
- Meet with school leadership team regularly to discuss goals, progress towards goals, trends and challenges, areas for growth, and action plans.
- Create a culture of service and support developing team members to excel in their roles and ensuring the school maintains operational excellence.

Culture of Achievement and Respect

- Communicate respectfully and thoughtfully with parent/guardians remaining sensitive to different families' cultures, values and needs.
- Work with the school leadership team to implement the school's mission; coordinate work and collaborate with the LHA network.
- Assist in creating a school culture with staff, parents and students focused on strong academic achievement, fairness, respect and high expectations for behavior.
- Ensure staff members understand the procedures and have the resources to operate effectively.

PROFESSIONALISM

- Collaborate with colleagues to continuously improve personal practice and achieve overall goals and mission of the school and the network.
- Access meaningful learning experiences (professional development opportunities, and ideas from colleagues and supervisors) and exercise judgment in accepting findings as valid for application.

we make it happen.

Title: OFFICE ASSISTANT

Reports To: Principal

ESSENTIAL QUALITIES

The office assistant works with the principal and office manager. This person performs additional administrative support functions at a Lighthouse Academy. We are seeking an office assistant who will make the commitment to conduct their work with determination, integrity and purpose, embodying these essential qualities:

- Past experiences and actions reflect a commitment to the LHA mission, vision, core values
- A passion and ability to build and sustain the LHA K-12 model in a high need, urban environment
- Reflective, self-aware and adaptable to communication and work styles of others
- Sense of urgency and relentlessness resulting in a record of outstanding student achievement
- Critical thinker and problem solver who takes initiative
- Belief in the power of collaboration and works to build a collaborative culture with LHA network, community, staff, families and students

ESSENTIAL FUNCTIONS

The office assistants' actions must always be aligned with our mission, vision, core values and education program. The essential functions for our office assistant are as follows:

- Represents Lighthouse Academies by serving as the first point of contact when someone enters the school building or calls the school.
- Communicates professionally at all times and responds to all inquiries and requests within 24 hours.
- Serves as liaison between employees and those visiting or contacting the school by taking messages and setting up appointments.
- Assists Family Coordinator with copying and distributing information to families.
- Completes other clerical/administrative duties as required by the principal or office manager to manage the front office.

EXAMPLES OF WORK:

- Report absences to Parent Coordinator
- Answer phones and check voicemail
- Answer intercom calls from the classroom
- Welcome volunteers and visitors to the building and escort them to the appropriate place
- Maintain a log of requests for transportation changes
- Collect supply requests and give to Office Manager
- Give Student Transfer paperwork to Office Manager, Principal and Family Coordinator daily
- Copying and Filing

MINIMUM QUALIFICATIONS

EDUCATION: Associate's degree

EXPERIENCE, KNOWLEDGE & SKILLS:

- Experience providing the services required by this position, including at least one (1) year of experience working in a school environment.

- Must possess highly effective interpersonal skills to provide customer service.
- Experience using Microsoft Office Pro software and ability to effectively use word processing, spreadsheet, presentation, and database applications.
- Ability to complete written reports/correspondence.
- Working knowledge of standard office equipment including, but not limited to: PC, copier, fax machine, telephone, and local network and Internet searches.
- Excellent organizational skills.
- Demonstrated decision-making and problem solving skills.

HUMAN RESOURCE INFORMATION

Evaluation: Goal based with at least two (2) written evaluations an academic year conducted by Principal

EMPLOYMENT AND BENEFITS: Per company policy

CLASSIFICATION: Full-time, Administrative, Non-exempt

Title: LOWER ACADEMY TEACHER (K-4)

Reports To: Director of Teacher Leadership

ESSENTIAL QUALITIES

Lighthouse Academy (LHA) Lower Academy teachers are more than instructional staff members and classroom managers. They help transform children's lives by creating opportunities for a brighter future. We are seeking Lower Academy teachers who will make the commitment to teach with determination, integrity and purpose, embodying these essential qualities:

- Past experiences and actions reflect a commitment to the LHA mission, vision, core values
- A passion and ability to build and sustain the LHA K-12 model in a high need, urban environment
- Work in schools that demonstrates a sense of urgency and the relentless pursuit of high academic student achievement
- Reflective, self-aware and adaptable to communication and work styles of others
- Critical thinker and problem solver who takes initiative
- Belief in the power of collaboration and works to build a collaborative culture with LHA network, community, staff, families and students

ESSENTIAL FUNCTIONS

A Lighthouse Academy Lower Academy teacher works to create and enhance a culture of achievement and respect where high expectations and results are the norm. All teachers are responsible for demonstrating significant and measurable academic gains, each year, with the students they teach. All teachers' actions must always be aligned with our mission, vision, core values and education program. The essential functions for our teachers are as follows:

INSTRUCTION

I. PLANNING for INSTRUCTION

- Use the Common Core state standards to create rigorous, objective-driven, arts-infused lessons aligned with curriculum maps.
- Identify in each lesson what thinking skills will be explicitly taught and practiced; what physical, social, or content skills students will be able to do and how students will know if they can do it.
- Differentiate for individual students based on their unique learning needs so all students are appropriately engaged and challenged.
- Ensure students are engaged through activities and technology that accommodate various learning styles, personality styles, and the need for physical movement.

II. DELIVERY of INSTRUCTION

- Explicitly introduce learning objectives to activate students' prior knowledge as it relates to the objectives, and conclude the lesson by revisiting the learning objective and having students apply it in context.
- Present academic content through a variety of instructional strategies to reach all learners; including the use arts-infusion: chants, songs, visual arts and drama.
- Provide many and varied opportunities for students to achieve mastery while working to promote achievement by all students without exception.

ASSESSMENT

- Develop standards-aligned, measurable, ambitious big goals that will increase student opportunities for achievement; assess and track performance against these goals.
- Measure student achievement of, and progress toward, the learning objectives and big goals with formative and summative assessment tools.
- Provide ongoing and timely feedback to students on their progress towards meeting big goals by frequently checking for understanding and listening.

- Use data to reflect on effectiveness of lessons and student achievement progress in order to improve instruction and personal practice.
- Use data to update each student’s Individual Learning Plan.

LEARNING ENVIRONMENT

- Create a focused environment of fairness and respect that encourages students to take risks and strive to reach goals.
- Communicate and enforce high expectations and standards for behavior and academic performance, aligned with the LHA School Culture Guide and Responsive Classroom, to create a strong culture of achievement and respect.
- Establish, model, practice, and reinforce age-appropriate rules and logical consequences; create and consistently use individual behavioral management plans, as needed.
- Implement classroom procedures, systems, and routines that provide structure for students and maximize instructional time.

FAMILY and COMMUNITY RELATIONS

- Communicate respectfully and thoughtfully with parent/guardians remaining sensitive to different families’ cultures, values and needs.
- Initiate and maintain timely communication with all parents/guardians (through daily/weekly folders, notes home, weekly newsletters, phone calls, in-person meetings, home visits, conferences, report cards) concerning student progress and to provide a clear picture of the curriculum and high expectations.
- Work collaboratively with parents/guardians, families, and other members of the community to involve them in academic activities and to support the success of a diverse student population and to bring in volunteers and additional resources.

PROFESSIONALISM

- Collaborate with colleagues (grade level, vertical team and school-wide meetings, professional development days, the professional development institute) to continuously improve personal practice, classroom instruction, assessment, and student achievement, as well as the overall goals and mission of the school and the network.
- Access meaningful learning experiences (current theory, research, and developments in relevant academic disciplines, professional development opportunities, and ideas from colleagues and supervisors) and exercises judgment in accepting findings as valid for application in classroom practice and teacher improvement.
- Reflect critically upon teaching experience; identify areas for further professional development as part of a professional development plan that is linked to grade level, school, and network goals; access meaningful learning experiences; and listen thoughtfully to other viewpoints and respond constructively to suggestions and criticisms.
- Use feedback from Principal and Director of Teacher Leadership to update Individual Professional Development Plan.
- Fulfill all outlined and related functions professionally, timely and thoroughly.

MINIMUM QUALIFICATIONS

EDUCATION & EXPERIENCE:

- Bachelor’s degree required, Masters Degree preferred
- Minimum of two years teaching experience in an urban public school or charter school setting preferred
- Required state teaching certification/licensure; Highly Qualified status under No Child Left Behind
- Proven track record of raising student achievement scores in an urban environment
- Strong desire to work within an innovative, urban educational program

CORE COMPETENCIES:

- Mission Focused
- Driven towards Excellence
- Results Oriented
- Culturally Proficient
- Collaborative Colleague
- Constant Learner

KNOWLEDGE & SKILLS:

- Knowledge of or experience with Common Core State Standards or Understanding by Design preferred
- Ability to use data to inform instruction and decision-making related to student achievement
- Ability to turn best practices into high quality, goal-driven results
- Highly effective writing, oral and interpersonal skills to communicate with a varied audience
- Data managements tools, organizational tools, computer skills (Word, Excel, Access, PowerPoint and Outlook)

HUMAN RESOURCE INFORMATION

EVALUATION: Formal and informal (ongoing) observations; Progress toward standards outlined in Teacher Evaluation Framework, network goals, and Individualized Professional Development Goals

EMPLOYMENT AND BENEFITS: Per company policy **CLASSIFICATION:** Full-time, Academic, and Exempt

Title: MUSIC TEACHER

Reports To: Principal

ESSENTIAL QUALITIES

Lighthouse Academy (LHA) music teachers are more than instructional staff members and classroom managers. They help transform children's lives by creating opportunities for a brighter future. We are seeking music teachers who will make the commitment to teach with determination, integrity and purpose, embodying these essential qualities:

- Past experiences and actions reflect a commitment to the LHA mission, vision, core values
- A passion and ability to build and sustain the LHA K-12 model in a high need, urban environment
- Work in schools that demonstrates a sense of urgency and the relentless pursuit of high academic student achievement
- Reflective, self-aware and adaptable to communication and work styles of others
- Critical thinker and problem solver who takes initiative
- Belief in the power of collaboration and works to build a collaborative culture with LHA network, community, staff, families and students

ESSENTIAL FUNCTIONS

A Lighthouse Academy music teacher works to create and enhance a culture of achievement and respect where high expectations and results are the norm. All music teachers are responsible for demonstrating significant and measurable gains with the students they teach. All music teachers' actions must always be aligned with our mission, vision, core values and education program. The essential functions for our music teachers are as follows:

INSTRUCTION

I. PLANNING for INSTRUCTION

- Use the state standards to create a rigorous, objective-driven, arts-infused music program.
- Identify in each lesson what thinking skills will be explicitly taught and practiced; what physical, social, or content skills students will be able to do and how students will know if they can do it.
- Differentiate for individual students based on their unique learning needs so all students are appropriately engaged and challenged.
- Ensure students are engaged through activities and technology that accommodate various learning styles, personality styles, and the need for physical movement.
- Collaborate with classroom teachers to create interdisciplinary units that teach grade level content knowledge and skills through music.

II. DELIVERY of INSTRUCTION

- Explicitly introduce learning objectives to activate students' prior knowledge as it relates to the objectives, and conclude the lesson by revisiting the learning objective and having students apply it in context.
- Present content through a variety of instructional strategies to reach all learners.
- Provide many and varied opportunities for students to achieve mastery while working to promote achievement by all students without exception.
- Collaborates with core subject teachers to infuse music into core subjects as well as provide supplemental instruction through the use of music.

ASSESSMENT

- Develop standards-aligned, measurable, ambitious big goals that will increase student opportunities for achievement; assess and track performance against these goals.
- Measure student achievement of, and progress toward, the learning objectives and big goals with formative and summative assessment tools.

- Provide ongoing and timely feedback to students on their progress towards meeting big goals by frequently checking for understanding and listening.

Title: SPECIAL EDUCATION TEACHER

Reports To: Director of Student Services

ESSENTIAL QUALITIES

Lighthouse Academy (LHA) special education teachers are more than staff members and classroom managers. They help transform children's lives by creating opportunities for a brighter future. We are seeking a special education teacher who will make the commitment to teach with determination, integrity and purpose, embodying these essential qualities:

- Past experiences and actions reflect a commitment to the LHA mission, vision, core values
- A passion and ability to build and sustain the LHA K-12 model in a high need, urban environment
- Work in schools that demonstrates a sense of urgency and the relentless pursuit of high academic student achievement
- Reflective, self-aware and adaptable to communication and work styles of others
- Critical thinker and problem solver who takes initiative
- Belief in the power of collaboration and works to build a collaborative culture with LHA network, community, staff, families and students

ESSENTIAL FUNCTIONS

A Lighthouse Academy special education teacher provides direct services to students, consults with other professionals, discusses progress with parents, plans, delivers and evaluates instructional outcomes, and conducts the research needed to perform the essential functions of the position. Instruction is delivered in a classroom through an inclusion model and/or small group pull-out. The essential functions for our special education teachers are as follows:

- Implements the Lighthouse Academies, Inc. curriculum, which includes the incorporation of the arts in daily instruction.
- Collaborates with general education classroom teacher to modify curriculum to reach all learners.
- Writes goals and objectives for IEPs using state's special education software, such as ISTAR.
- Administers and interprets individual formal and informal assessments and measures student achievement of, and progress toward, their objectives and goals.
- Participates in IEP meetings and provides necessary documentation, as requested.
- Provides progress reports to parents as stated in the IEP, maintain timely communication with all parents/guardians concerning student progress and to provide a clear picture of the curriculum and high expectations.
- Communicates and enforces high expectations and standards for behavior, aligned with the LHA School Culture Guide and Responsive Classroom/DDMS, to create a strong culture of achievement and respect.
- Organizes and maintains, in student file, all required paperwork for all assigned students and ensures compliance with federal and state regulations.
- Follows through with parent and staff requests and provides consultations regarding students.
- Coordinates services for assigned students provided by itinerant staff or party providers.
- Accesses meaningful learning experiences (current theory, research, and developments in relevant academic disciplines, professional development opportunities, and ideas from colleagues and supervisors) and exercises judgment in accepting findings as valid for application in classroom practice and teacher improvement.
- Reflects critically upon teaching experience; identify areas for further professional development as part of a professional development plan that is linked to grade level, school, and network goals; access meaningful learning experiences; and listen thoughtfully to other viewpoints and respond constructively to suggestions and criticisms.

- Develops an Individual Professional Development Plan for approval by the school principal.

Examples of Work:

- Writes students IEP according to federal and state guidelines
- Writes lesson plans that correlate with the IEP
- Completes progress reports and assessment reports as required.
- Maintains students’ files with completed paperwork reflecting the essential components as determined by federal and state laws

MINIMUM QUALIFICATIONS

EDUCATION & EXPERIENCE:

- Bachelor’s degree required, Masters Degree preferred
- Minimum of two years teaching experience in an urban public school or charter school setting preferred
- Required state teaching certification/licensure; Highly Qualified status under No Child Left Behind
- Proven track record of raising student achievement scores in an urban environment
- Strong desire to work within an innovative, urban educational program

CORE COMPETENCIES:

- Mission Focused
- Driven towards Excellence
- Results Oriented
- Culturally Proficient
- Collaborative Colleague
- Constant Learner

KNOWLEDGE & SKILLS:

- Knowledge of or experience with Common Core State Standards or Understanding by Design preferred
- Ability to use data to inform instruction and decision-making related to student achievement
- Ability to turn best practices into high quality, goal-driven results
- Highly effective writing, oral and interpersonal skills to communicate with a varied audience
- Data managements tools, organizational tools, computer skills (Word, Excel, Access, PowerPoint and Outlook)
- Knowledge of applicable federal and state regulations and statutes.

Title: UPPER ACADEMY TEACHER (Departmentalized 5-8)

Reports To: Director of Teacher Leadership

ESSENTIAL QUALITIES

Lighthouse Academy (LHA) Upper Academy teachers are more than instructional staff members and classroom managers. They help transform children's lives by creating opportunities for a brighter future. We are seeking Upper Academy teachers who will make the commitment to teach with determination, integrity and purpose, embodying these essential qualities:

- Past experiences and actions reflect a commitment to the LHA mission, vision, core values
- A passion and ability to build and sustain the LHA K-12 model in a high need, urban environment
- Work in schools that demonstrates a sense of urgency and the relentless pursuit of high academic student achievement
- Reflective, self-aware and adaptable to communication and work styles of others
- Critical thinker and problem solver who takes initiative
- Belief in the power of collaboration and works to build a collaborative culture with LHA network, community, staff, families and students

ESSENTIAL FUNCTIONS

A Lighthouse Upper Academy teacher works to create and enhance a culture of achievement and respect where high expectations and results are the norm. All teachers are responsible for demonstrating significant and measurable academic gains, each year, with the students they teach. All teachers' actions must always be aligned with our mission, vision, core values and education program. The essential functions for our teachers are as follows:

INSTRUCTION

I. PLANNING for INSTRUCTION

- Use the Common Core state standards and instructional resources to create rigorous, objective-driven, arts-infused lessons aligned with curriculum maps.
- Identify in each lesson what thinking skills will be explicitly taught and practiced; what physical, social, or content skills students will be able to do and how students will know if they can do it.
- Differentiate for individual students based on their unique learning needs so all students are appropriately engaged and challenged.
- Ensure students are engaged through activities and technology that accommodate various learning styles, personality styles, and the need for physical movement.

II. DELIVERY of INSTRUCTION

- Explicitly introduce learning objectives to activate students' prior knowledge as it relates to the objectives, and conclude the lesson by revisiting the learning objective and having students apply it in context.
- Present academic content through a variety of instructional strategies to reach all learners; including the use arts-infusion: songs, visual arts, presentations and drama.
- Provide many and varied opportunities for students to achieve mastery while working to promote achievement by all students without exception.

ASSESSMENT

- Develop standards-aligned, measurable, ambitious big goals that will increase student opportunities for achievement; assess and track performance against these goals.
- Measure student achievement of, and progress toward, the learning objectives and big goals with formative and summative assessment tools.
- Develop standards-based performance tasks and curricular assessments.
- Provide ongoing and timely feedback to students on their progress towards meeting big goals by frequently checking for understanding and listening.
- Use data to reflect on effectiveness of lessons and student achievement progress in order to improve instruction and personal practice.

- Use data to update each student’s Individual Learning Plan.

LEARNING ENVIRONMENT

- Create a focused environment of fairness and respect that encourages students to take risks and strive to reach goals.
- Communicate and enforce high expectations and standards for behavior and academic performance, aligned with the LHA School Culture Guide and Developmental Design for Middle School, to create a strong culture of achievement and respect.
- Facilitate a daily homeroom; build classroom rapport and develop college mindset.
- Establish, model, practice, and reinforce age-appropriate rules and logical consequences; create and consistently use individual behavioral management plans, as needed.
- Implement classroom procedures, systems, and routines that provide structure for students and maximize instructional time.

FAMILY and COMMUNITY RELATIONS

- Communicate respectfully and thoughtfully with parent/guardians remaining sensitive to different families’ cultures, values and needs.

- Required state teaching certification/licensure; Highly Qualified status under No Child Left Behind
- Proven track record of raising student achievement scores in an urban environment
- Strong desire to work within an innovative, urban educational program

CORE COMPETENCIES:

- Mission Focused
- Driven towards Excellence
- Results Oriented
- Culturally Proficient
- Collaborative Colleague
- Constant Learner

KNOWLEDGE & SKILLS:

- Knowledge of or experience with Common Core State Standards or Understanding by Design preferred
- Ability to use data to inform instruction and decision-making related to student achievement
- Ability to turn best practices into high quality, goal-driven results
- Highly effective writing, oral and interpersonal skills to communicate with a varied audience
- Data managements tools, organizational tools, computer skills (Word, Excel, Access, PowerPoint and Outlook)

HUMAN RESOURCE INFORMATION

EVALUATION: Formal and informal (ongoing) observations; Progress toward standards outlined in Teacher Evaluation Framework, network goals, and Individualized Professional Development Goals

EMPLOYMENT AND BENEFITS: Per company policy

CLASSIFICATION: Full-time, Academic, and Exempt

LIGHTHOUSE ACADEMIES POSITION DESCRIPTION

We prepare our students for college through a rigorous arts-infused program.

VISION

All students will be taught by an outstanding teacher in a nurturing environment. Every student will achieve at high levels and develop the knowledge and values necessary for responsible citizenship and life long learning. The impact of our collaborative efforts will fundamentally change public education.

CORE VALUES

Work hard. Get smart.
Graduate from college.

High expectations
equal results.

Nothing less
than excellence.

Today is the day
we make it happen.

Title: ART TEACHER

Reports To: Principal

ESSENTIAL QUALITIES

Lighthouse Academy (LHA) art teachers are more than instructional staff members and classroom managers. They help transform children's lives by creating opportunities for a brighter future. We are seeking teachers who will make the commitment to teach with determination, integrity and purpose, embodying these essential qualities:

- Past experiences and actions reflect a commitment to the LHA mission, vision, core values
- A passion and ability to build and sustain the LHA K-12 model in a high need, urban environment
- Work in schools that demonstrates a sense of urgency and the relentless pursuit of high academic student achievement
- Reflective, self-aware and adaptable to communication and work styles of others
- Critical thinker and problem solver who takes initiative
- Belief in the power of collaboration and works to build a collaborative culture with LHA network, community, staff, families and students

ESSENTIAL FUNCTIONS

A Lighthouse Academy art teacher works to create and enhance a culture of achievement and respect where high expectations and results are the norm. All art teachers are responsible for demonstrating significant and measurable academic gains with the students they teach. All teachers' actions must always be aligned with our mission, vision, core values and education program. The essential functions for our teachers are as follows:

INSTRUCTION

I. PLANNING for INSTRUCTION

- Use the state standards and curriculum to create a rigorous and objective-driven arts program.
- Identify in each lesson what thinking skills will be explicitly taught and practiced; what physical, social, or content skills students will be able to do and how students will know if they can do it.
- Differentiate for individual students based on their unique learning needs so all students are appropriately engaged and challenged.
- Ensure students are engaged through activities and technology that accommodate various learning styles, personality styles, and the need for physical movement.
- Collaborate with classroom teachers to create interdisciplinary units that teach grade level content knowledge and skills through art

II. DELIVERY of INSTRUCTION

- Explicitly introduce learning objectives to activate students' prior knowledge as it relates to the objectives, and conclude the lesson by revisiting the learning objective and having students apply it in context.
- Present content through a variety of instructional strategies to reach all learners.
- Provide many and varied opportunities for students to achieve mastery while working to promote achievement by all students without exception.
- Collaborates with core subject teachers to infuse art into core subjects as well as provide supplemental instruction through the arts.

ASSESSMENT

- Develop standards-aligned, measurable, ambitious big goals that will increase student opportunities for achievement; assess and track performance against these goals.
- Measure student achievement of, and progress toward, the learning objectives and big goals with formative and summative assessment tools.
- Provide ongoing and timely feedback to students on their progress towards meeting big goals by frequently checking for understanding and listening.

- Use data to reflect on effectiveness of lessons and student achievement progress in order to improve instruction and personal practice.

LEARNING ENVIRONMENT

- Create a focused environment of fairness and respect that encourages students to take risks and strive to reach goals.
- Communicate and enforce high expectations and standards for behavior and academic performance, aligned with the LHA School Culture Guide and Responsive Classroom/DDMS, to create a strong culture of achievement and respect.
- Establish, model, practice, and reinforce age-appropriate rules and logical consequences; create and consistently use individual behavioral management plans, as needed.
- Implement classroom procedures, systems, and routines that provide structure for students and maximize instructional time.

FAMILY and COMMUNITY RELATIONS

- Communicate respectfully and thoughtfully with parent/guardians remaining sensitive to different families' cultures, values and needs.
- Initiate and maintain timely communication with all parents/guardians concerning student progress and to provide a clear picture of the curriculum and high expectations.
- Work collaboratively with parents/guardians, families, and other members of the community to involve them in activities and to support the success of the student.

PROFESSIONALISM

- Collaborate with colleagues (school-wide meetings, professional development days, the professional development institute) to continuously improve personal practice, instruction, assessment, and student achievement, as well as the overall goals and mission of the school and the network.
- Access meaningful learning experiences (current theory, research, and developments in relevant academic disciplines, professional development opportunities, and ideas from colleagues and supervisors) and exercises judgment in accepting findings as valid for application in classroom practice and teacher improvement.
- Reflect critically upon teaching experience; identify areas for further professional development as part of a professional development plan that is linked to grade level, school, and network goals; access meaningful learning experiences; and listen thoughtfully to other viewpoints and respond constructively to suggestions and criticisms.
- Use feedback to update Individual Professional Development Plan.
- Fulfill all outlined and related functions professionally, timely and thoroughly.

MINIMUM QUALIFICATIONS

EDUCATION & EXPERIENCE:

- Bachelor's degree required, Masters Degree preferred
- Minimum of two years teaching experience in an urban public school or charter school setting preferred
- Required state teaching certification/licensure; Highly Qualified status under No Child Left Behind
- Proven track record of raising student achievement scores in an urban environment
- Strong desire to work within an innovative, urban educational program

CORE COMPETENCIES:

- Mission Focused
- Driven towards Excellence
- Results Oriented
- Culturally Proficient
- Collaborative Colleague
- Constant Learner

KNOWLEDGE & SKILLS:

- Knowledge of or experience with Common Core State Standards or Understanding by Design preferred
- Ability to use data to inform instruction and decision-making related to student achievement
- Ability to turn best practices into high quality, goal-driven results
- Highly effective writing, oral and interpersonal skills to communicate with a varied audience
- Data managements tools, organizational tools, computer skills (Word, Excel, Access, PowerPoint and Outlook)

Exhibit A

Financial Management

1. Conference regularly with LHA personnel or school representative to address financial management issues.
2. Prepare LHA personnel and/or Treasurer for monthly Board meetings.
3. Maintain complete, accurate and compliant financial records within the framework of the Arkansas Financial Accounting Handbook chart of accounts as allowed within Arkansas Public School Computer Network (APSCN) based on information provided by the school.
4. Assist LHA personnel in adapting procedures and internal controls in areas related to the school's finances.
5. Utilize multiple staff in performing business office functions to ensure adequate segregation of duties.
6. Conduct weekly site visits unless otherwise instructed by LHA personnel.
7. Train LHA personnel, the Principal(s), Office Manager(s) and Board in school business and finance related topics when requested. (Maximum of 12 hours per year)
8. Assist LHA personnel to develop and maintain the annual budget with up to two revisions. (Initial budget work not to exceed 40 hours, each revision not to exceed 24 hours)
9. Prepare, analyze, and send monthly financial reports to LHA personnel and Board in advance of the monthly Board meetings.
10. Prepare cash flow statements and advise the LHA personnel and Board on cash flow and management.
11. Assist LHA personnel or his /her designee in communication with ADE on issues related to financial management.
12. Submit required financial management system cycle reports (cycles 1, 8, and 9) if requested.
13. Represent the school as the school Business Manager when needed (audits, State reviews, Special Ed Audits, Compensatory Audits, etc.) for transactions accounted for by Complete Consulting.
14. Assist the LHA personnel with compliance, management and reporting of revenues and expenses from all applicable fund sources.
15. Advise and assist LHA personnel on financial issues related to payroll.

Accounting services provided with Financial Management

1. Code and record financial transactions into APSCN using accurate and appropriate codes based on information provided by the school.
2. Provide training and assistance to the school in maintaining adequate documentation and support for all financial transactions. (Maximum of 6 hours per year)
3. Train school staff on proper procedures including cash handling and deposit procedures, record retention, expenditure approval, etc. (Maximum of 12 hours per year)

Exhibit A (continued)

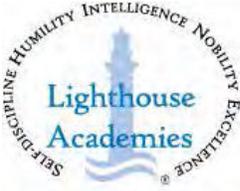

4. Enter Board approved budgets into APSCN.
5. Pay recurring bills, vendor invoices, and reimbursement requests monthly with school funds based on information provided by the school.
6. Code and record electronic deposits and other receipts based on information provided by the ADE and school.
7. Track income and expenditures based on information provided by the School.
8. Prepare journal entries necessary for accurate accounting as approved by LHA personnel.
9. Coordinate submission and processing of purchase orders and payment requests by authorized school personnel. Provide a payment request system as needed to better meet the needs of the school and ensure compliance.
10. Process and record payroll based on information provided by the school within APSCN.
11. Reconcile and remit all payroll taxes, monthly/quarterly reports and any other liabilities to the appropriate agencies.
12. Prepare and submit new hire reporting.
13. Maintain benefit management system based on information provided by the school.
14. Reconcile bank statements monthly.

Audit Preparation

1. Coordinate scheduling of audit activities with the school's audit firm.
2. Coordinate gathering, completing and submitting forms and school data required for the audit including:
 - a. Permanent file documents such as bylaws and articles of incorporation
 - b. Contracts including the school's lease agreement, transportation, food service and other agreements
 - c. Board minutes
 - d. Conflict of interest form, related party questionnaire, etc.
 - e. Bank confirmations and collateral confirmations
3. Assist school in gathering information as outlined on auditors PBC list.
4. Calculate annual revenue and expense accruals at June 30, reconcile accounts and prepare schedules and other required documentation for the auditors based on information provided by the school:
 - a. General fund state and federal aids and other receivables
 - b. Special Revenue fund state and federal revenue and receivable
 - c. Other Aggregate fund state and federal revenue and receivable
 - d. Prepare a list of payables at June 30 summarized by fund.
 - e. Prepare schedule of loan expense and loan payable and provide copies of all loan documents.
 - f. Reconcile payroll liability accounts

Exhibit A (continued)

- g. Prepare 941 salaries tie-out
- 5. Assist the auditors and school personnel to obtain compliance information.
- 6. Complete or assist with the completion of procedural documents.
- 7. Assist the auditors with APSCN data for the preparation of the Non-Profit's 990 filing.

LIGHTHOUSE ACADEMIES POSITION DESCRIPTION

We prepare our students for college through a rigorous arts-infused program.

we make it happen.

Title: COORDINATOR of FAMILY and COMMUNITY PARTNERSHIPS

Reports To: Principal

VISION FOR POSITION

The Coordinator of Family and Community Partnerships (CFCP) helps a school realize Lighthouse Academy's vision for family and community partnerships. The CFCP works to ensure that families and community members feel welcomed in the school, have a voice in decisions about the school, and are engaged in all aspects of running the school. In collaboration with the School Leadership Team and faculty, the CFCP works with families to develop a shared vision for scholar performance, establishes clear lines of communication, gathers insight on how to best work with scholars, provides volunteer opportunities, and helps families to support the learning at home. The CFCP partners with community organizations to provide scholars and families with vital resources and real-world opportunities that further develop them for college and careers. The CFCP creates opportunities for staff to engage with the local community and its leaders to develop a deep understanding of the community's history and culture.

ESSENTIAL FUNCTIONS

The Coordinator of Family and Community Partnerships works to create and enhance a culture of achievement and respect where high expectations and results are the norm. The Coordinator of Family and Community Partnerships' actions must always be aligned with our mission, vision, and core values. The essential functions for the Coordinator of Family and Community Partnerships are as follows:

FAMILY OUTREACH and PARTNERSHIPS

- Set and monitor progress towards monthly goals and benchmark for family engagement and community involvement in the school.
- Communicate respectfully and thoughtfully with parent/guardians remaining sensitive to different families' cultures, values and needs and help school staff do the same.
- Communicate with parents about high academic and behavioral expectations for students, as well as the school's policies and programs, through orientation, home visits, open houses, handbooks, etc.
- Serve on the School Leadership Team; collaborate with team to create a wide variety of parent volunteer and engagement opportunities.
- Organize and lead monthly parent workshops and family events that support the school's vision, mission and goals.
- Assist the school to achieve 95% student attendance (attendance data tracking, parent phone calls, home visits, working with attendance/truancy officers).
- Initiate and maintain timely communication with all parents/guardians (notes home, phone calls, in-person meetings) concerning school events and opportunities, including assisting with recruiting parent board members.
- Serve as the school's liaison with homeless families ensuring homeless children are receiving necessary education and related services.
- Work with school leadership team and faculty to understand and address parent feedback and concerns.
- Update and maintain school's webpage on a regular basis including the calendar and newsletters.
- Complete any related clerical/administrative support duties as required by the principal and LHA regional staff, including state, district and network reports.

COMMUNITY OUTREACH and PARTNERSHIPS

- Serve as a liaison with the community to identify and recruit students; actively market the school in the community through flyer distribution, presentations, community events, phone calls, and social media.
- Manage and track recruitment activities with student marketing work plan.

- Work collaboratively with families and community members to bring in volunteers and additional resources that support the school's goals.
- Develop and maintain relationships and partnerships with outside agencies and community-based organizations to further the mission of the school
- Maximize partnerships and outreach programs to link families to resources that help meet their needs and create an environment that is optimal for student learning at school and home.

PROFESSIONALISM

- Collaborate with colleagues to continuously improve personal practice and to support the achievement of the overall goals and mission of the school and the network.
- Access meaningful learning experiences (professional development opportunities, ideas from colleagues and supervisors) and exercise judgment in accepting findings as valid for application in practice and improvement.
- Reflect critically upon experience and practice; identify areas for further professional development as part of a professional development plan that is linked to professional growth and school/network level goals; access meaningful learning experiences; listen thoughtfully to other viewpoints and responds constructively to suggestions and criticisms.
- Use feedback to inform and update Individual Professional Development Plan.
- Fulfill all outlined and related functions professionally and thoroughly.

DESIRED QUALIFICATIONS

EDUCATION & EXPERIENCE:

- Experience with community outreach and organization, in immediate and surrounding community preferred
- Two to three years administrative experience in a school environment or teaching experience in a school environment
- Bachelor's Degree, with coursework in relevant areas preferred

CORE COMPETENCIES:

- Mission Focused
- Driven towards Excellence
- Influential
- Relationship Builder
- Organized & Planned
- Constant Learner

KNOWLEDGE & SKILLS:

- Effective interpersonal skills to provide high quality customer service
- Excellent organization skills; demonstrated decision-making and problem solving skills
- Demonstrated cultural competency with respect to school's student population
- Engaging and informative presentation style
- Working knowledge of school administrative systems and student information systems
- Data managements tools, organizational tools, computer skills (Word, Excel, Access, PowerPoint and Outlook)

B. EXECUTIVE SUMMARY

Provide the mission statement of the proposed school.

Applicant Response:

CCLCS will prepare students for college through a rigorous arts-infused program. The mission of Lighthouse Academies is to prepare our students for college through a rigorous arts-infused program. Our network goals measure our progress toward achieving this mission. These goals focus on preparing our students academically for college.

The vision is that all students will be taught by highly effective teachers (teachers whose students make gains of 20% more per year than average) in a nurturing environment and will achieve at high levels. Each student will develop the knowledge, skills and values necessary for responsible citizenship and life-long learning. CCLCS will do whatever it takes to make the opportunity for success in college happen for all of the CCLCS scholars. The impact of our collective efforts will fundamentally change public education.

CCLCS will be a thriving K-12 school providing rigorous academic instruction as well as the support in developing essential skills and qualities to be successful college students and ultimately productive, contributing community members in North Little Rock. CCLCS will be a beacon of hope for the students of North Little Rock and provide them with truly high quality choice in education.

Briefly describe the key programmatic features that the school will implement in order to accomplish the mission.

Applicant Response:

The Lighthouse Academies' model is a three-pronged approach -- Rigorous Academics, Social Development and Arts Infusion. Each focus area is powerful on its own, but together they promote learning and comprehension on an extraordinary scale. The model depends on high quality teachers, relentless school leaders, and pervasive culture of achievement and respect amongst students and staff. *College Focus*. It is our job to make college real and attainable for all of our scholars, which is why college is a focus that permeates our school culture. Our rigorous programs provide students with the academic and social foundation necessary for success in college. *Standards-Driven, Rigorous, Research-Based Curricular Programs*. The LHA education model is anchored in the grade level Common Core State Standards (CCSS) for English Language Arts, Mathematics and Literacy in History/Social Studies, Science and Technical Subjects collectively these define what students should know and be able to do at each particular grade level. The model offers a longer day and longer year to provide more time on instruction.

C. NARRATIVE DESCRIPTION OF THE PROPOSED CHARTER SCHOOL

The applicant for the proposed charter school, if approved by the authorizer, agrees to operate the educational program described below in accordance with the provisions described within this document, Arkansas Code Annotated §6-23-101 et seq., the State Board of Education Rules Governing Charter Schools, and the attached assurances.

Provide a narrative description of the various components of the proposed charter school by responding to the following prompts:

1. Describe the results of the public hearing, which was held for the purpose of assessing support for the establishment of this public charter school. Provide copies of supporting evidence.

Attach documentation to demonstrate that each of the following requirements of Arkansas Code Annotated §6-23-302 was met:

- A. The notice of the public hearing was published on a weekly basis for at least three (3) consecutive weeks prior to the date of the hearing in a newspaper having general circulation in the school district in which the school will likely be located.
- B. The notice of the public hearing was not published in the classified or legal notice section of the newspaper.
- C. The last publication date of the notice was no less than seven days prior to the public meeting.
- D. Within seven calendar days following the first publication of the notice of the public hearing, emails announcing the public hearing were sent to the superintendent of each of the school districts from which the open-enrollment public charter school is likely to draw students for the purpose of enrollment and the superintendent of any district that is contiguous to the district in which the open-enrollment public charter school will be located.

Applicant Response:

A public hearing was held on July 18, 2013 from 6:30 P.M. to 7:30 P.M at the First Baptist Main in North Little Rock, Arkansas. There were approximately 35 people in attendance at the meeting. The meeting was presided over by Ms. Susan Forte, Board Chairman, and included a presentation on the Lighthouse school model by the Lighthouse (LHA) national and regional leadership and the school leadership team from Jacksonville Lighthouse Charter School and Pine Bluff Lighthouse Charter School. The presentation focused on the LHA's school model as well as 45 minutes for a question and answer session. The questions during this time included a request for more information about arts infusion, funding for the school, parent participation, and the school's proposed location. At the conclusion of the question and answer session, Ms. Forte asked the audience if they felt more information was needed to make a decision regarding their support of the proposed school. No further information was requested and all of those in attendance signed the petition in favor of opening the Capitol City Lighthouse Charter School. No one present spoke in opposition to the proposed school.

The notice of the public hearing was published in the Arkansas Democrat Gazette on June 27, July 4 and July 11 in the Arkansas news section. See Attachment B for ad copy and invoices reflecting publication dates. Emails

were sent to superintendents of affected school districts notifying them of the hearing.

Additional supporting documentation is also included in Attachment B.

2. Describe the governing structure of the open-enrollment charter school, including board composition, selection process, and responsibilities. Also describe the role of the administrators, faculty, parents, students, and community members in the leadership and decision-making of the school. As part of your response, answer the following specific questions:
 - A. Identify what individual, job position(s), or entity(s) will have final decision-making authority for the school in the areas of (1) finance and purchasing; (2) student discipline; (3) hiring and firing of staff; and (4) hiring and firing of the school director or superintendent.
 - B. Specify how the final decision-maker(s) identified in response to (A)(3) will be selected or elected, including (1) length of term, (2) method of selection or election, and (3) who will have the authority to participate in the selection or election process.
 - C. Explain how and to what extent the school's leadership will be accountable to parents.

Applicant Response:

Lighthouse Academies of Central Arkansas, Inc. was incorporated as a nonprofit on June 9, 2011, applied for 501 (c) 3 status on December 19, 2012 and will do business as Capitol City Lighthouse Charter School (CCLCS). Note: the articles were first filed as Lighthouse Academies of Little Rock, and then on November 13, 2012, the name was officially changed to Lighthouse Academies of Central Arkansas.

Composition of the Board of Trustees

The school will be governed by a Board of Trustees. The founding board represents a wide range of experience in education, business nonprofit management and community development. Founding Board members were selected from interested citizens in the Central Arkansas area. All Board members share the vision and belief in the mission of the school and have the skills to provide oversight and direction to the school. Members of the governing board have expertise in education, community development, finance, fund-raising and school operations. The founding board members are:

Susan Forte is the President/CEO of HOUSEABOUTIT, INCORPORATION

Ms. Forte leads in the developing of communities; lead in implementing educational programs. She works closely with the Board of Director on all administrative decisions and activities and with staff to develop and establish individual goals and objectives against established goals and standards for improving the overall of the company. She administers CDBG Grant funds for small cities in Arkansas; administer training to/for small cities; organize community organizations to work in their community; Aid in workforce development; Assist small and emerging small start-up businesses; administer city assessments.

Kara Smith currently serves as the Director of Community Partnerships for the Teach For America-Arkansas region. In this role, she works closely with district administrators, community partners and local organizations, as well as many Teach For America supporters across the Arkansas Delta. Prior to joining Teach For America staff, Kara attended the University of Tennessee and received a bachelor's degree in Public Relations. After quickly learning that education is her passion and life's work, Kara moved to New York City to teach fourth and fifth grades in the South Bronx. She eventually made her way back to the south and is now proud to call the state of Arkansas her home. Kara holds a Masters of Teaching from Pace University and is currently completing the Walton Leader Scholar educational leadership program through Arkansas Tech University.

Kareem Moody has been working on the frontlines in the battle to save our nation's youth for the past fifteen years. The former Youth Initiative Project (gang) coordinator has worked with a number of young people in the areas of intervention and prevention. Mr. Moody is respected throughout the state as a collaborator on a number of youth focused committees and initiatives. The author of *Raise them up: the real deal on reaching unreachable*

kids, Kareem Moody is an example of beating the odds. The Henderson State University Alum and former "at risk" youth formerly served as the program director for Positive Atmosphere Reaches Kids (P.A.R.K.), one of Arkansas most celebrated after school programs. He is the Director of Student Success at Pulaski Technical College.

Marsha R. Davis is a Vice President with Centennial Bank and has served as a financial officer in banking for 34 years. Ms. Davis is a member of Mt. Zion Baptist Church where she interprets for the non-hearing. She is the mother of two children, a rising senior and a daughter who attends Agnes Scott College in Decatur Georgia. She has served in past years on the board of Youth Home, UALR Alumni Association, and Horace Mann Magnet PTSA Treasurer for 6 years and the Parent Board Member of Arkansas Commitment.

Lenisha Broadway is the Vice President of LHA Arkansas She served as the Regional Director of the Southern Region for two years. Ms. Broadway served as the principal at Ridgeroad Middle Charter School in North Little Rock, AR, for five years, and as the Assistant Principal for the four years prior. Prior to that, Ms. Broadway taught special education for four years. She is also a field facilitator for the FISH! Program of best practices in social and emotional learning, character education, classroom management and human behavior. Ms. Broadway earned her B.S.E. in Special Education and M.S.E. in Education from the University of Central Arkansas.

Phillis Nichols.Anderson, Ed.D has been an educator since 1986. Dr. Nichols.Anderson began her career as a classroom teacher in Arkansas, where she taught secondary English, journalism, and communications teacher for over a decade. Dr. Nichols.Anderson also served as a middle and high school administrator in the Little Rock School District, District of Columbia Public Schools, in Washington, D.C., Prince George's County Public Schools in Maryland and in the Pulaski County Special School District. Dr. Anderson is a Senior Vice President for Lighthouse Academies, Inc. and oversaw the opening of the Southern region and the opening of JLCS, JLCS-Flightline, and PBLCS. She manages school budgets and oversees the management of LHA schools in Arkansas, Oklahoma, New York, and Washington, D.C. which consist of three Vice Presidents, two Regional Operations Managers; nine principals and over 100 teachers and staff members.

Responsibilities of the Board of Directors

The Board of Directors is a group of volunteers who have legally established themselves as an organization for the purpose of creating and operating a charter school. The Board of Trustees is accountable for ensuring that federal and state funds are used to operate the school in compliance with the charter and all applicable legal requirements. Additionally, the Board is legally and morally responsible to the school's students and families, the community and the government for the direction, financial health and effectiveness of the school. To carry out its responsibilities, the Board exercises the ultimate governing authority over the operation of the school.

Governance

The Board of Directors exercises its responsibility and authority over school operations through the function of "governance" - the act of steering an organization by making decisions on matters of fundamental importance to its overall direction. Governance is the process whereby strategic direction is established, leaders are selected, authority is delegated, organizational health is safeguarded and performance is monitored. This process includes planning and policy-making, general oversight and the fulfillment of legal responsibilities and fiduciary obligations.

The Board only has authority to govern as a group. By its very nature, a board is a collective and has no existence or authority other than as a collective. No individual member of the Board has the authority to make decisions for or on behalf of the Board, except to the extent delegated by the Board and legally permissible.

Shared Authority

The nature of the Board's governance role must be understood in the context of an institutional partnership with LHA. LHA is a growing network of public charter schools. Each school contributes to and learns from the other schools. Each school is organized to support the implementation of the LHA school design. While the Board has the ultimate responsibility for and authority over the school, LHA has a distinct and equally important role to play in the success of the school. The success of the school ultimately depends on each partner's clear understanding of its own and other partners' roles. A summary of each party's responsibilities is below

Board of Directors

The Board's governance role requires that the Board perform the following functions:

- *Strategic Oversight:* Through the charter application, the Board adopts and upholds the LHA mission and vision for the school.
- *Operational Oversight:* The Board oversees the operations of the school, while delegating day-to-day operational authority to LHA.
- *Financial Oversight:* The Board ensures that the school remains a financially viable entity by overseeing the school's financial condition.
- *Personnel:* The Board approves all employment compensation at the school, including benefits, through approval of the annual budget.
- *Contracts:* The Board, in consultation with LHA, approves all major contracts.
- *Consultant Support:* Trustees use their individual skills, knowledge, expertise and/or community relationships to support the school.
- *Community Relationships:* The Trustees act as advocates and representatives of the school in creating and maintaining relationships with the community and other stakeholders.

Lighthouse Academies

LHA is the institutional partner of the Board of Directors. Although its technical relationship with the Board is that of a service provider, the success of any LHA school depends on a true partnership between the Board and LHA. In this partnership, LHA works closely with both the Board and the principal to provide guidance, training and support to ensure that each may carry out its respective responsibilities in the most effective manner. The essential functions of LHA include the following:

- *Principal Recruitment and Management:* LHA recruits, screens and proposes principal candidates to the Board in order to obtain the Board's opinion of each candidate. LHA develops, manages, and evaluates the school leader.
- *Staff:* LHA employs the staff, including hiring, determining compensation and bonus, assigning persons to roles, and terminating.
- *Curriculum:* LHA provides the school with the Lighthouse Academies Curriculum™, which includes curriculum guides for each grade and/or core subject, required materials and assessment systems.
- *Manuals and Handbooks:* LHA provides the school with Operations and Procedure Manuals, a School Culture Guidebook, a Personnel Handbook and a Student and Family Handbook.
- *Evaluation & Assessment:* LHA creates an accountability plan for the school and provides the Board information and data to facilitate the evaluation by the Board of the performance of the principal, the students and the school.
- *Operations Assistance and Oversight:* LHA provides day-to-day assistance with and oversight of the implementation of the school's education and staff development programs.
- *Administrative Support:* LHA provides administrative support including purchasing, financial management and human resources services.
- *Budget:* LHA develops the annual school budget with the principal for approval by the Board.
- *Professional Development:* LHA provides the school with initial pre-opening staff development and ongoing staff development for the school's administrators.
- *Marketing:* LHA develops an initial marketing plan for recruiting and enrolling students using methods best suited to the local community.

Required Attributes of Directors

An effective Board of Directors is essential to the success of the school at every step. In addition to the expertise, skills, knowledge and relationships that the Trustees bring to the school, the Trustees must possess the right personal characteristics and attitudes for the job. Trustees with the following attributes will be able to work most effectively amongst themselves, and with LHA and the school leadership, to successfully meet the challenges that the school will face.

- Passionate and unwavering commitment to the school's mission.
- Shared vision for the school and the steps required to realize that vision.
- Expectation that all children can and will realize high levels of academic achievement.
- Belief in the LHA school design and curriculum as the best means of accomplishing the school's mission and realizing its vision.

- Understanding of the promises contained in the school's charter.
- Understanding of the distinction between the roles and responsibilities of each person and entity involved.
- Willingness to volunteer for one or more Board committees and the ability to contribute appropriate time and energy necessary to follow through on assigned tasks.
- Ability to work within a team structure.
- Willingness to participate in annual Board development training.
- Specific knowledge, experience, and/or interest in at least one element of governance for the school.
- Focused on results.
- Commitment to a partnership based on mutual trust and respect among the Board, the principal and LHA.

Meetings of the Board of Directors

Meetings of the Board shall be open to the school community and the public to ensure members of the community are able to communicate their concerns to the Board. Staff shall be encouraged to attend Board meetings.

Any person may speak at an open meeting of the Board. The Board may restrict the length of time permitted to each speaker at a meeting, provided the time restriction is reasonable, is applied to all speakers not members of the Board, and is intended only to limit the length of the meeting. A person may present comments, feedback, suggestions, or complaints in writing to the Trustees. Each Director shall read the document prior to the next Board meeting, assuming that the document is delivered to the Board Secretary seven days before the next meeting. If such a document is delivered to the Secretary in a language other than English, the Secretary shall arrange for its translation within a reasonable amount of time.

The Director shall discuss any feedback regarding the governance, operations, or policy of the School. A determination shall be made by the Director whether or not a change is needed at the School. To the fullest extent allowed by law, all such discussion shall take place in an open meeting.

Role of Administrators and Others

The Principal will function as the school's instructional leader, freed up from much of the bureaucratic and financial "legwork" of running a school due to the partnership with LHA. This role will set the tone for the entire school.

The principal is also responsible for the day-to-day management of the school, and reports to the Vice President of the region. The principal will deal with employee issues and advise and make recommendations to the Board concerning those issues. The principal will work with the staff to ensure that the established discipline policy is enacted as written; this, like all policy implementation, may include training, modeling, and extra supervision. He or she will work with the Board and staff to determine a budget that will provide the greatest benefit for the students. The principal will meet with and counsel parents and students on issues that have been referred to him or her by the faculty. The principal will perform any other duties that are requested and approved by the Board.

The Director of Teacher Leadership (DTL) will be responsible for leading professional development and teacher development. Working closely with the principal to develop the vision and plan for professional development, the DTL will lead the day-to-day implementation of ongoing, on-site professional development activities. This person will spend the majority of his or her day in classrooms, meeting with teachers to discuss classroom data and giving feedback on how to improve the delivery of instruction. By focusing on in-classroom activities and feedback, the DTL will create and develop a rigorous and engaging teaching staff. The DTL will encourage, observe, and coach teachers. The DTL, as a key member of the school leadership team, reinforces the tone set by the principal and the focus on instruction.

Teachers and parents can always speak to the principal and DTL about leadership, curriculum, professional development, or other operational decisions. The principal will have the final say about the management of the school, but he or she will strive to make decisions that take into account the input of all the members of the school community. While we believe that the principal must have the autonomy and flexibility to make the key decisions that make for an excellent school, part of excellent leadership is listening to the diverse voices that make up the school - students, parents, and teachers alike. The principal and DTL may create structures, such as a faculty leadership team, parent council, or student council, that allow for more formal participation in decision-making.

3. Give the mission statement for the proposed charter school.

Applicant Response:

CCLCS will prepare students for college through a rigorous arts-infused program. The mission of Lighthouse Academies is to prepare our students for college through a rigorous arts-infused program. Our network goals measure our progress toward achieving this mission. These goals focus on preparing our students academically for college.

The vision is that all students will be taught by highly effective teachers (teachers whose students make gains of 20% more per year than average) in a nurturing environment and will achieve at high levels. Each student will develop the knowledge, skills and values necessary for responsible citizenship and life-long learning. CCLCS will do whatever it takes to make the opportunity for success in college happen for all of the CCLCS scholars. The impact of our collective efforts will fundamentally change public education.

CCLCS will be a thriving K-12 school providing rigorous academic instruction as well as the support in developing essential skills and qualities to be successful college students and ultimately productive, contributing community members in North Little Rock. CCLCS will be a beacon of hope for the students of North Little Rock and provide them with truly high quality choice in education.

4. Describe the educational need for the school. Include the innovations that will distinguish the charter from other schools.

Applicant Response:

Typically, students who enroll in LHA charter schools are two to three years behind academically, and some have had poor school attendance records. The LHA model is designed to help these students catch up and reach proficiency level. During this time, the students become “Lighthouse Scholars” who are prepared for success in our rigorous high school program (the LHA College Prep Academy) that, in turn, prepares them for success in college. We exist because there is a staggering achievement gap in America today that results in lifetime income inequalities that significantly affect the quality of life for a disproportionate number of people of color. Only by breaking the cycle of poverty will we truly transform children's lives.

Consider the following facts:

- Every 34 seconds a child is born into poverty. (States of America's Children 2011, Children's Defense Fund, p.XV.). Approximately 15.5 million children are growing up in poverty and 31.9 million in low-income families in the United States. There is a disproportionate percentage of African American children (64% or 6.5 million) and Latino/Hispanic children (63% or 10.7 million) compared to 31% (12.2 million) of white children. In addition, African American and Latino/Hispanic children are more than twice as likely to live in a low-income family (National Center for Children in Poverty, Basic Facts About Low-income Children, 2010, February 2012).
- Only 8% of students growing up in low-income families graduate from a four-year college by age 24 compared to 82% of those from high-income families. (*Postsecondary Education Opportunity*, “Bachelor's Degree Attainment by Age 24 by Family Income, Quartiles” 1970 to 2009).
- Nearly 80 percent or more of Black and Hispanic public school students in the fourth, eighth and 12th grades are unable to read or do math at grade level compared to 50 percent or more of White children (Children's Defense Fund, States of America's Children 2011).

- Every 8 seconds a high school student drops out of school (States of America's Children 2011, Children's Defense Fund, p.XV). The Averaged Freshman Graduation Rate is 75.5% (AFGR), but only 63.5% for African Americans and 65.9% Latino/Hispanics compared to 83% for White children (U.S. Department of Education, National Center for Education Statistics, Common Core of Data).
- Only 68.1% of high school seniors go on to college the following year with again a lower percentage of African Americans at 61.4% and Latino/Hispanics at 59.6% compared to 68.6% of Whites (United States Department of Labor, Bureau of Labor Statistics, College Enrollment and Work Activity of 2010 High School Graduates, USDL-11-0462, released April 8, 2011).
- Overall, 57% of those who attend four-year colleges and universities graduate within six years; however, again there is a gap, with 61% of White students graduating, but only 39% of African Americans and 49% of Latino/Hispanic (IPEDS First Look: Enrollment in Postsecondary Institutions, Fall 2009; Graduation Rates, 2003 and 2006 Cohorts; and Financial Statistics Fiscal Year 2009).

What this adds up to is a lifetime of income disparity based on education and race. Children born to families at the lower end of the income scale have a particularly hard time improving their economic position relative to their parents' (2011 Kids Count Data Book, The Annie E. Casey Foundation, p.8, credit to Isaacs, J., Sawhill, I., and Haskins, R. (2008). Getting Ahead or Losing Ground: Economic Mobility in America. Economic Mobility Project, Pew Charitable Trusts www.economicmobility.org/reports_and_research/mobility_in_america). Children who grow up in low-income families are less likely to successfully navigate life's challenges and achieve future success. The younger they are and the longer they are exposed to economic hardship, the higher the risk of failure (2011 Kids Count Data Book, The Annie E. Casey Foundation, p.8).

Arkansas is not free from these statistics. In the January 14, 2010 edition of Education Week Arkansas ranked 47th out of the 52 states on a Chance For Success Index. The index takes into account early childhood education, K-12 education preparation, adult educational attainment and workforce outcomes. Three key differentiating factors are: high school graduation rates; enrollment in post secondary education and post secondary degrees.

The area where we propose to open includes three school systems where key indicators show that the "chance for success" indicators are very low for large portions of the student population. 40% of the children in North Little Rock live in poverty. Data show that only an average 16% of high school graduates are prepared for success in college. In Pulaski County School District, the graduation rate is 66% with 62% of those students requiring remediation, leaving only 4% prepared for college. In Little Rock School District 82% graduate with 62% of those students requiring remediation leaving only 20% prepared for college. In North Little Rock School District, 73.3% of students graduate but 52% of those students require remediation leaving only 21.3 of those students prepared for college. 35% of African American students do not graduate and 37% of poor students fail to earn a high school diploma. Only 17% of the residents hold a Bachelors degree or higher (Source: Arkansas Department of Education).

North Little Rock School District has two Priority Schools and nine Focus Schools.

CCLCS, like all Lighthouse schools, will take a three pronged approach of Rigorous Academics, Social Development, and Arts Infusion. Each focus area is powerful on its own, but together they promote learning and comprehension on an extraordinary scale. Arts Infusion is an innovative and powerful approach to teaching that enhances student learning and increases student engagement in education. We believe arts-infused instruction is an effective way to activate student interest, engage students in learning activities and assess students' understanding of content and concepts. Every day at CLLCS, we will infuse art activities and techniques into the teaching of all core subjects. See question 5 for more on Arts Infusion as part of the overall model.

5. Describe the educational program to be offered by the charter school.

Applicant Response:

We have developed a research-based program founded on these essential elements of the LHA Education Model to ensure all students are prepared to graduate from college. It is a three-pronged approach of Rigorous Academics, Social Development, and Arts Infusion. Each focus area is powerful on its own, but together they promote learning and comprehension on an extraordinary scale. The core elements of this design which foster high student achievement and success include: College Preparatory Curriculum, More Time on Instruction, Assessment and Data-Driven Instruction, Standards-Based Planning and Delivery, Coaching and Development.

The Lower Academy (K-4) focuses on building solid academic skills in reading, writing and mathematics in order to prepare students for the rigorous Upper Academy (5-8) and College Prep (9-12) programs. Once students enter the Upper Academy and continue in the College Prep Academy, the focus is on application of skills and developing their ability to collaborate and solve more complex problems and complete more expansive projects.

College Preparatory Curriculum

For many of the students in the North Little Rock community, college has not been a reality. It will be our job at CCLCS to make college real and attainable for all of our scholars. Our rigorous curricular programs will provide students with the academic, cultural, and social foundation in order to be prepared for college. In addition, college will be a focus that permeates our school culture. All classrooms will be named for colleges and universities and in most cases, that of their teacher. Upper and College Prep Academy students will participate in annual college visits. All students will have formal and informal ways to learn about college (e.g., guest speakers, discussions with teachers). Upper and College Prep Academy students will participate in annual college visits.

More Time on Instruction

Educating our students is urgent work and we will have a lot of ground to make up. To ensure that every child masters the work necessary to prepare them for college, CCLCS will provide more time on task. This means a longer school year (190 instructional days) and a longer school day (8 hours). This extended school day and school year will equate to over 350 more hours of instruction for the students at CCLCS each year.

Assessment and Data-Driven Instruction

The benefits of using assessments to drive instructional decisions at the school and classroom level are well known and widespread. In the 90-90-90 Schools: A Case Study, Douglas Reeves identifies the focus on student data from frequent assessments as a key characteristic of schools with high performance and high poverty and minority populations. In order for a teacher to meet the needs of each individual student, it is critical for a teacher to have a clear picture of what the student knows and does not know. Reeves' study concludes that schools that achieved significant academic improvements provided frequent performance feedback to students (Reeves, Douglas. *Accountability in Action: A Blueprint for Learning Organizations* (2nd ed.). Denver, CO: Advanced Learning Centers, Inc., 2000). In addition, research shows that frequent assessments and timely data ensure teachers are planning and teaching strategically. (Datnow, A., Park, V. & Wohlstetter, P. "Achieving with Data: How High-Performing School Systems Use Data to Improve Instruction for Elementary Students." Los Angeles: Center on Educational Governance, University of Southern California, 2007). This is why students at CCLCS will be assessed regularly and will receive ongoing feedback on their progress.

Data from assessments and teacher observations will drive instruction in the classroom at CCLCS. Through the use of varied standardized and curricular assessments, teachers are well informed on the instructional priorities for each student. All students are assessed during the first weeks of school to determine baseline data that guides planning and instruction. Assessments throughout the year - both curricular and standardized - are utilized to monitor individual student and classroom progress.

Teachers at CCLCS will use interim assessments and state assessments, but in order to target instruction effectively, teachers will regularly administer, analyze and use curricular and teacher generated assessments. Grade level and staff team meetings will focus on using the results from the above assessments to set classroom goals, group students for small group instruction, and plan effective supplemental instruction to meet the needs of all students.

In order to ensure our students meet their learning goals, the Lighthouse Academies model includes varied

assessments that provide valuable information about student achievement. These include (but are not limited to) daily checks for understanding, frequent teacher-created assessments, network-wide interim assessments and state assessments. Ongoing analysis of data is a regular practice of CCLCS teachers and leaders.

Standards-Based Planning and Instructional Resources

Standards guide instructional planning and delivery at Lighthouse Academies schools. LHA provides schools with a common scope and sequence upon which teachers develop unit and lesson plans. Teachers use the Understanding by Design framework, which supports the backwards planning process. Through this process, teachers design units by identifying the most important learning goals that students will meet and what type(s) of evidence will effectively demonstrate students' mastery. Once they have done this, teachers strategically plan learning activities that will support students' ability to reach the major goals of the units.

Lighthouse Academies teachers use various instructional resources to ensure students can learn the content and skills they need to meet the standards. Teachers collaboratively develop their own curricular materials. At times, teachers may use programs to supplement these materials. These secondary resources may include National Geographic's Reach for Reading, Pearson's Reading Street, McGraw Hill My Math, Big Ideas Learning's Big Ideas Math, College Board's Springboard for ELA and Math as well as high-quality online resources.

Coaching and Development

Professional development is a cornerstone of our model as we operate on the principle that we are all learners. We believe the education program is only as good as the teachers teaching it. Therefore we will invest significant time both before and during the school year to provide intensive professional development opportunities for all staff members. A minimum of 160 hours will be scheduled into the school year to address the needs of our teachers and staff to continually develop our skills and knowledge and demonstrate our commitment to nothing less than excellence - we continually strive to learn more. The emphasis on professional development stems from research that states that "the most effective way to increase the achievement of our students is to improve the quality of teaching" (Sparks and Hirsh, 2000, p.4).

Focusing on professional development over an extended period of time will allow team members to focus on specific strategies, receive feedback on their actions, reflect on areas for growth, and implement newly learned strategies, starting the cycle over once again. Porter et al. (2000) also state that the quality of teacher instruction is intensified through focused professional development that includes reform type professional development (e.g., teacher networks or teacher study groups) rather than workshop or conference participation, consistency with teachers' goals, other activities, materials and policies, alignment of instructional materials, student assessments, and policies to professional development, and "collective participation in professional development by a group of teachers or other educators from the same subject, grade, or school", which provide a broader base of understanding at the local implementation level, not only for teachers, but also for principals and others who can provide instructional support. For more information and detailed description of our professional development model, please refer to Curriculum and Instruction which follows.

Social-Emotional Development

Lighthouse Academies believes the social curriculum is as important as the academic curriculum. We believe there is a set of qualities (S.H.I.N.E. qualities) and competencies that all children need in order to be successful through college and life.

S.H.I.N.E. Qualities: Self-Discipline, Humility, Intelligence, Nobility, Excellence

Core Competencies

- Effective Communication demonstrated by their ability to read, speak, listen and write with clarity, accuracy, authenticity and conviction across various domains.
- Self-Direction and Self-Management demonstrated by their ability to take initiative with their learning and work; ask and answer questions, and understand that they are ultimately responsible for their future.
- Critical Thinking as demonstrated by their ability to problem solve, make decisions and consider multiple strategies and perspectives when answering questions, approaching challenges and interacting with others.
- Active Community Membership demonstrated by their ability to identify and make positive contributions to the many different kinds of communities of which they are a part.

The foundation of the social curriculum is the school-wide use of the Responsive Classroom® (K-4); Developmental Designs (DD) (5-8) and Advisory (CPA) approaches. The Responsive Classroom (RC) and Developmental Designs (DD) approaches are both student-centered, research-based methods for teaching students the skills, and not just the rules, to be successful at CCLCS and ultimately, in college and life. RC and DD require the integration of social and academic learning all day every day. They are based on the belief that the better the relationships in a school, the more successful the students can be, both academically and socially. In *Improving the Odds*, University of Minnesota researchers found that a strong community, clear expectations in a non-punitive atmosphere, and interactive, engaging academics support the development of connectedness to schools (Hagedorn, Christopher (2008) *Developmental Designs*. Minneapolis, MN p. 8). In addition, in a study led by University of Virginia's Curry School of Education focusing on the effects of Responsive Classroom in urban schools, researchers concluded that the Responsive Classroom approach is associated with better academic and social outcomes for elementary school children (Rimm-Kaufman PhD., Sara Social and Academic Learning Study on the Contributions of Responsive Classroom 2006). The RC/DD approach is comprised of six basic components - morning meeting, classroom organization, rules and logical consequences, guided discovery, academic choice time, and assessment and reporting - each of which play a specific role in making each classroom and the overall school safe and productive.

The foundations developed in the K-8 program through RC/DD are continued in the College Prep Academy through the Advisory program. Well-facilitated and regular advisory periods are associated with reduced dropout rates, the development of a student sense of belonging, and enhanced student-teacher relationships (Mandy Savitz-Romer, Joie Jager-Hyman, and Ann Coles, "Removing Roadblocks to Rigor: Linking Academic and Social Supports to Ensure College Readiness and Success." *Pathways to College Network*, April 2009). The advisory period provides opportunities for every student to be known well by at least one adult in the building, allows for student-advisor weekly check-ins and goal monitoring, and provides opportunities for advisory students to develop a close network of peers for support and encouragement. Advisory periods will provide opportunities for students to learn key academic and non-academic skills that are necessary for students' success in and ease of transition to college.

Arts Infusion

Arts infusion is a powerful approach to teaching that enhances student learning and increases student engagement in education. We believe arts-infused instruction is an effective way to activate student interest, engage students in learning activities and assess students' understanding of content and concepts. Every day at CCLCS, we will infuse art activities and techniques into the teaching of all core subjects. Arts infusion increases student engagement and helps develop a deeper understanding of core concepts, ultimately leading to increased student achievement. We will work collaboratively with local arts partners (AP) and identify a school-based arts infusion specialist to support this element of the design. We believe arts-infused instruction is a key lever to increase student engagement, and thus, increase student achievement. Arts-infused instruction is:

- **A better way to engage students (activator)**
Research shows that the study of art and music is linked to higher test scores.
- **A better way to teach the research-based curricula (reinforces and extends learning)**
Teachers and visiting artists plan lessons that include artistic techniques and demonstrations in all subject areas.
- **An alternative way to assess student understanding of content and concepts**
Teachers use exemplars to facilitate group feedback focused on work products, not students.

The focus on engagement and the arts is particularly effective within the community we will serve. Students who are need of additional academic support or just learning English, often lack confidence in the classroom and so they are less active participants. This limits their ability to learn. Through the use of arts, its focus on presentation, and the fact that all students are encouraged to participate, we will increase all students' interaction and thus more effectively serve previously marginalized children. Studies show that art increases student engagement in education (E.B. Fiske (Ed.), "Champions of Change: The Impact of the Arts on Learning." Arts Education Partnership, available at <http://artsedge.kennedy-center.org/champions/pdfs/ChampsReport.pdf>). The act of creating art makes the learning and application of core content less abstract, more personally relevant and inherently, more interesting. Research shows that the arts play a key role in brain development (Sylvester, Robert. "Art for the Brain's Sake." *Educational Leadership*. Volume 56, Number 3. November 1998. Page 32., Sinatra, R. (1986). "Visual Literacy Connections to Thinking, Reading and Writing." New York: Charles C.

Thomas) and the College Entrance Examination Board reports that students who participate in art do better in academics than other students (See "The College Board, Profile of College-Bound Seniors National Report for 2001, 2002 and 2004" located at the web site of the National Association for Music Education, <http://www.menc.org/information/advocate/sat.html>). Moreover, the arts have been shown to be particularly effective in reaching economically disadvantaged students who are most at-risk of disengaging from school (Ibid).

CCLCS will partner with local arts partners to infuse art activities and techniques into teaching. The school will partner with organizations like these in order to bring their skills to our students and to help our faculty learn about the resources available in the community in which they teach. Classroom teachers, with the support of an arts-infusion specialist, will use the art techniques they learn from local arts partners to infuse the arts into classroom instruction where appropriate. These connections with working artists make our education program's basis in the arts more robust and meaningful than it could be without them. These links also serve as ways to get to know more parents since they help CCLCS become a true member of the arts community in North Little Rock.

Curriculum and Instruction

The LHA Education model is anchored in the grade level state standards, grade level expectations, and the Common Core State Standards (English Language Arts, Mathematics and Literacy in History/Social Studies, Science and Technical Subjects), which define what students should know and be able to do at each particular grade level. The standards are the destination for the year - where we want all of our scholars to arrive. Teachers will use state grade level expectations and state standards with the Common Core State Standards as the basis of their instructional planning.

The standards and grade level expectations will serve as the basis for objective-based unit and lesson planning. Upon approval of the charter, a comprehensive scope and sequence aligning Arkansas and Common Core State Standards with the Lighthouse programs will be completed. The process for completing the development of a scope and sequence will include collaboration between the school leaders and the Lighthouse Academies Research, Design and Strategy Team. The overall scope and sequence will be completed by April 2014, prior to hiring instructional staff. Teachers and leaders will work together in the spring and through the professional development institute to align these plans to both the Arkansas grade level expectation and Common Core State Standards and will use these as a basis for unit and lesson planning.

6. List the specific measurable goals in reading, reading comprehension, mathematics, and mathematic reasoning based on the state mandated assessments, and any other assessment tools if used, for improving student academic achievement for each year of the public charter school’s initial five-year period. For each goal, include the following:
- The tool to be used to measure the academic performance;
 - The level of performance that will demonstrate success; and
 - The timeframe for the achievement of the goal.

Applicant Response:

We will evaluate the success of our program based on the Lighthouse Academies Network goals as well as school specific goals. The Research, Design, and Strategy team supports Lighthouse Academies' schools to achieve LHA goals by designing tools, resources, and trainings on effective best practices and researching innovations to improve our practices. The RDS team's priorities and key deliverables are driven by the schools' performance, reflect the need for excellence across all LHA schools, and represent the greatest levers to achieve desired outcomes. The RDS team works in collaboration with regional and school leaders to provide consultation services and strategic recommendations.

The Lighthouse Academies Network goals for CCLCS are listed below. These goals will be monitored and reported upon each year in the Lighthouse Academies Annual Report, as well as in the CCLCS Annual Report.

Goal #1: Scholars will take rigorous courses.

Each College Prep Academy (CPA) scholar will have the opportunity to take AP courses over the course of their high school career. College readiness will be tracked progressively from 7th grade by student performance on assessments such as: Readiness, PSAT, SAT, Explore Testing, and ACT.

Goal #2: Scholars will learn at an accelerated rate.

Part 1 (high average growth among all scholars): For both math and reading, CCLCS K-8 scholars will achieve an average of at least 120% (1.2 years) of their projected growth on the NWEA MAP assessments each year. Growth will be measured between the fall and spring terms and also from one spring term to the next.

Part 2 (highly accelerated growth for scholars who are behind): For both math and reading, those K-8 CCLCS scholars whose baseline score falls in the bottom quartile according to national norms will achieve an average of at least 150% (1.5 years) of their projected growth on the NWEA MAP assessments each year. Growth will be measured between the fall and spring terms and also from one spring term to the next.

Goal #3: External indicators will show that our scholars are academically on track for college success.

Part 1 (meeting AR and shifting to meeting Common Core State standards): The school will meet the Annual Measureable Objective set by the state and/or will reduce its non-proficient population in ELA and Math by 15% each year.

Part 2 (high achievement on nationally-normed assessments):

Grades K-8: At least 75% of K-8 scholars who have attended the school for three years in participating schools will be in the top quartile on the NWEA MAP reading assessment and at least 75% of K-8 scholars will be in the top quartile on the math assessment in the spring. This goal will apply to scholars who have both a fall and spring NWEA score, indicating that they were enrolled in the school for at least a full academic year.

Grades 9-12: All scholars will take the EXPLORE/PLAN/ACT/or SAT series of assessments. Annually at least 75% of scholars will meet the college readiness benchmarks on these exams.

Goal #4: Are scholars will graduate on time.

100% of scholars enrolled at CCLCS since at least 9th grade will graduate high school in 4 years; 90% of scholars who enroll in CCLCS after 9th grade will graduate high school in 4 years and 100% of scholars who join us after 9th grade will graduate high school in 5 years.

Goal #5: 100% of 12th grade graduates are accepted to at least one four-year college.

Progress monitoring is approached as a problem solving process for CCLCS with specified target and goals and expected outcomes. Based on a scholar's performance towards meeting these goals, adjustments are made in the supports being provided on an ongoing basis. At CCLCS progress monitoring has multiple components which include:

- Establishing academic goals for the schools and for each scholar
- Providing vehicles for understanding how scholars and the school are progressing toward established goals
- Creating opportunities to identify students potentially at risk for academic failure
- Communicating data in ways that clearly describe the impact of interventions to students, parents, teachers, administrators and our community.

We will use several methods to communicate progress towards our goals to the community, parents and scholars. Our strategies are comprised of:

- A monthly dashboard prepared by the Principals for the Board of Directors that includes enrollment, withdrawal, discipline and academic data. The report also includes the number of teacher observations conducted and a description of any professional development provided.
- A monthly Dashboard prepared by the Principals to track scholars' performance on Interim Assessments, attendance rates, parental support through conference attendance and parent, teacher and student satisfaction rates
- Regular printed reports on NWEA and Interim Assessment student performance provided to parents and discussed during parent conferences.

Families are also continually engaged to ensure that our mission is carried through into the home. We build a two-way communications line with the parents by:

- Starting each year by signing of a three way compact that articulates both the opportunities and expectations tied to attending a Lighthouse School.
- Conducting home visits in the summer where staff are taking the arts, our expectations and resources into the community and the homes of our scholars.
- Following up during the school year with weekly school to parent communications and monthly family meetings.

Each of these interactions is framed by the mission of our school and carries with it our school culture and values.

7. Describe the process that will be used to develop and align the curriculum with the Arkansas Curriculum Frameworks and the curriculum requirements of the Common Core State Standards as adopted by the State Board of Education.

Applicant Response:

The LHA curriculum is aligned with national standards. The LHA curriculum has been aligned to the Common Core Standards and Arkansas Curriculum Frameworks at Jacksonville Lighthouse Charter School and Pine Bluff Lighthouse Charter School. These guides will be used by staff at Capitol City Lighthouse Charter School. The three schools will collaborate on curriculum and professional development. New leaders and teachers in North Little Rock will be paired with “thought partner” at Jacksonville and Pine Bluff Lighthouse schools through in person meetings and web based tools.

The Common Core alignment process links grade level mastery objectives to state standards so that as students master specific course objectives, they are mastering state standards. The steps in the alignment process are as follows:

- Common Core and Arkansas Frameworks crosswalks are reviewed and studied to understand the shifts.
- These crosswalks are used as part of the pre-opening professional development where teachers ‘unpack’ the standards to gain a complete picture of the learning expectations for their students.
- Teachers then work in teams using LHA Curriculum guides to complete their grade level crosswalks as a means of learning what they will teach.
- Specific training on the instructional program is then provided.
- Demonstration lessons taught by members of the staff and the LHA Education Team help put it all together.

Ongoing professional development and coaching by the Director of Teacher Leadership is used to support teachers in the implementation of the education program.

Here is a sample from our grade 3 English Language Arts crosswalk:

Common Core Standard CC.3.R.L.1, Key Ideas and Details:

- Ask and answer questions to demonstrate understanding of a text, referring explicitly to the text as the basis for the answers.
 - matches to 5 AR State standards including AR.3.R.9.6 (R.9.3.6), Using questioning and monitoring to make meaning: Question the author’s purpose.

Crosswalk matches all standards for each grade.

8. Describe the manner in which the school will make provisions for the following student services, even in those areas for which a waiver is requested:

- A) Guidance program;

Applicant Response:

The comprehensive developmental school counseling program provides education, prevention and intervention services, which are integrated into all aspects of children's lives. Early identification and intervention of children's academic and personal/social needs is essential in removing barriers to learning and in promoting academic achievement. The knowledge, attitudes and skills that students acquire in the areas of academic, career and personal/social development during these elementary years serve as the foundation for future success.

Our school design, which calls for enrolling students in Kindergarten and having them remain enrolled in the school through 12th grade, is intended to give CCLCS greater control over each student's preparation for the subsequent grade. In addition, our strong academic program and talented, caring teachers coupled with a culture that values academic focus and achievement, will close some gaps that our entering students may have in academic or social development.

We will ensure that each new student completes relevant standardized and school-specific assessments upon enrollment, to help teachers know what that student has learned already. CCLCS will also carefully review any data available in students' files from their previous schools and talk with parents or guardians to supplement this information.

The social curriculum, as guided by the Responsive Classroom (RC) and Developmental Designs for Middle School (DDMS), is the core of our guidance program. This approach to teaching and learning supports schools in becoming caring communities in which social and academic learning are fully integrated throughout the day, and in which students are nurtured to become strong and ethical thinkers.

Each day begins in a morning meeting, which serves as a transition from home to school, helps students to feel welcome and known and sets the tone for the day. Over time, this meeting also creates a climate of trust, increases students' confidence and investment in learning, provides a meaningful context for teaching and practicing academic skills encourages cooperation and inclusion and improves children's communication skills. In the upper academy, these meetings take place during an 'advisory' period each day and can be focused on certain themes such as friendship, safety, making choices or our SHINE qualities.

The Responsive Classroom (RC) and Developmental Designs (DD) approaches are both student-centered, research-based methods for teaching students the skills, and not just the rules, to be successful at CCLCS and ultimately, in college and life. RC and DD require the integration of social and academic learning all day every day. They are based on the belief that the better the relationships in a school, the more successful the students can be, both academically and socially. In *Improving the Odds*, University of Minnesota researchers found that a strong community, clear expectations in a non-punitive atmosphere, and interactive, engaging academics support the development of connectedness to schools (Hagedorn, Christopher, 2008, *Developmental Designs*. Minneapolis, MN p.8). In addition, in a study led by University of Virginia's Curry School of Education focusing on the effects of Responsive Classroom in urban schools, researchers concluded that the Responsive Classroom approach is associated with better academic and social outcomes for elementary school children (Rimm-Kaufman PhD., Sara *Social and Academic Learning Study on the Contributions of Responsive Classroom 2006*). The RC/DD approach is comprised of six basic components - morning meeting, classroom organization, rules and logical consequences, guided discovery, academic choice time, and assessment and reporting - each of which play a specific role in making each classroom and the overall school safe and productive.

The foundations developed in the K-8 program through RC/DD are continued in the College Prep Academy through the Advisory program. Well-facilitated and regular advisory periods are associated with reduced dropout rates, the development of a student sense of belonging, and enhanced student-teacher relationships. (Mandy Savitz-Romer, Joie Jager-Hyman, and Ann Coles, "Removing Roadblocks to Rigor: Linking Academic and Social Supports to Ensure College Readiness and Success." Pathways to College Network, April 2009).

The advisory period provides opportunities for every student to be known well by at least one adult in the

building, allows for student-advisor weekly check-ins and goal monitoring, and provides opportunities for advisory students to develop a close network of peers for support and encouragement.

B) Health services;

Applicant Response:

The school will comply with all state laws regarding staffing in this area. The nurse will manage all distribution of medication, train staff as needed to keep students safe (food allergies, etc.), manage student medical information in full compliance with all relevant privacy statutes, and advise the principal in the creation of necessary medical policies.

The nurse may also teach some health education. He or she will coordinate with local agencies, hospitals, physicians, and organizations that have as their missions to improve children's or community health in order to make sure that all students have access to the care that they need.

C) Media center;

Applicant Response:

The school will not have a media center when it opens, and we have applied for a waiver from the staffing requirement. Instead, the school will open a computer lab so that students have access to the internet for basic research. Each classroom will have a library of leveled books that support the LHA curriculum.

D) Special education;

Applicant Response:

CCLCS will adhere to all Arkansas and federal requirements regarding Child Find to meet the State's requirements. This will ensure that all potentially disabled children, including those attending private schools, highly mobile children with disabilities, such as migrant and homeless children, who may be in need of special education and related services are identified, located and evaluated. Children attending CCLCS who are suspected of being a child with a disability are referred to the Special Education Pupil/Evaluation Team.

To the maximum extent allowed by each student's individualized education plan (IEP) and all applicable federal laws, including the Individuals with Disabilities Act (IDEA), CCLCS will educate students with disabilities in the least restrictive environment, with their non-disabled peers. Special classes, separate schooling, or other removal of students with disabilities from the regular educational environment will occur only if the nature or severity of the disability is such that education in regular classes with the use of supplementary aids and services cannot be achieved satisfactorily.

To the maximum extent appropriate, students with disabilities will also be expected to participate in, and where appropriate, receive credit for, non academic, extracurricular and ancillary programs and activities with all other students. Students with disabilities will receive all notices concerning school-sponsored programs, activities and services. To this end, we will use many of the techniques of school-based problem solving. We believe that we can address many learning issues by building in supports for students such as daily reports on student work completion or behavior, homework contracts, and collaboration between instructional staff. Such work will help to align our service delivery by making classroom teachers active participants in determining and providing services to their students, and by allowing teachers to address more individual needs within the context of classroom activities and teaching practices.

CCLCS will implement Response to Intervention (RTI) as our method to identify students who are under performing. RTI provides early academic intervention, frequent progress monitoring and researched based interventions.

RTI is a system of tiered interventions for students who are not meeting standards. Tier 1 is universal intervention, or an agreed upon set of interventions for all students that are employed to assist with learning

differences that are represented in every classroom. If students do not demonstrate adequate progress as a result of these interventions, they are moved to Tier 2. In Tier 2, students receive more intensified interventions with a course of pre-established check points to determine if progress is being made. If progress is not demonstrated, students are then moved to Tier 3. In Tier 3, interventions will be very intense and they will likely include increased instructional time. Again, the student will be provided progress benchmarks and check-ins at regular 6-8 week intervals using a pre-determined assessment. If progress is not made, it will be recommended that the student may need additional support as a result of a special learning need and should be referred to testing for possible disabilities. If progress is made, a committee will ascertain whether or not the student can be successful if the intensive supports are gradually reduced. The ultimate goal is to assess whether or not the student can be placed on a different learning trajectory and be independently successful without intensive supports. Tier 1 and Tier 2 programs may include (but are not limited to):

- ***Kaleidoscope- Literacy INTERVENTION PROGRAM*** used in place of core reading program for students in 2nd - 6th. Published by SRA and aligned with Open Court; Published by SRA. For students 2 or more years behind grade level.
- ***Read Naturally: Grades 3-8: Computer based Supplemental - in addition to core program.*** Specifically for fluency and comprehension development
- **AIMS Math Resources**
- **Online instructional support programs such as IXL and Khan Academy.**

Year to year, the choice of programs may vary based on the need of the school and the training of the general and special educators providing the interventions.

E) Transportation;

Applicant Response:

LHA has significant experience with all phases of the RFP and contracting processes. LHA will lease one or more buses and periodically employ a driver(s) for the purposes of providing transportation for field study. The school may decide to provide daily transportation to and from school in the future. We will, at all times, comply with any requirements for transportation written into our students' IEPs.

F) Alternative education, including Alternative Learning Environments;

Applicant Response:

It is the intention and commitment of the founders of CCLCS to educate all students who choose our school. We will make necessary accommodations for students who need support beyond that provided by the general curriculum accommodation program. The guidance program, our devotion to parallel cultures of respect and achievement, and our arts infusion all help us connect with students who are struggling and make them successful. We will seek to meet individual needs with individual plans as needed. At times, this may include steps such as providing students with an aide, making space available for small groups, or offering extra help.

If a student's needs are such that his or her special education team recommends an out-of-district placement, we will follow all laws to ensure that the student's rights are always protected.

G) English Language Learner (ELL) instruction

Applicant Response:

CCLCS will offer a program that serves students identified as students of limited English proficiency in English.

H) Gifted and Talented Program.

Applicant Response:

CCLCS will offer an academic program that is rigorous in nature and will meet the needs of all learners through high expectations for all. The school will address the varied needs of all students through differentiation built into the master schedule. Students will receive intervention or enrichment based on a variety of measures including their ACTAPP, NWEA, norm referenced assessments and formative assessments. Enrichment differentiation will exceed or meet the state's instructional minute requirement. Teachers will receive appropriate training in gifted education and rigor and relevance. We request a waiver from this requirement. Please see section 20, part 6 below.

9. Describe the geographical area to be served by the charter. List all school districts within the geographical area likely to be affected by the open-enrollment public charter school.

Applicant Response:

We will be an open enrollment school; therefore, we could draw students from anywhere in the state. The school will be located in North Little Rock. The contiguous school districts are North Little Rock School District, and Pulaski County Special School District. The maximum enrollment in the first seven years of the charter will be 750 students. All students will be new to the open enrollment charter school in 2014. The school will use a random lottery; therefore, the number of transfers from other public school districts is unknown at this time. The numbers of transfers from private schools and home schooled students are also unknown. In all instances, the race and sex of the future students is unknown. However, based on the demographics of the area we do anticipate that 70% of enrolled students will qualify for free and reduced lunches.

The school will implement the enrollment criteria and procedures outlined in the application. (Question 11)

There are 24,380 students enrolled in the Little Rock School District, and 9,119 students enrolled in North Little Rock School District, and 17,126 enrolled in Pulaski County School District. There are more than 50625 public school children in the area. The school will enroll approximately 388 students in 2013-14; therefore there will be a small percentage of children transferring from other public schools to this public school.

10. Describe the plan for the school officials to provide an annual report to parents, the community, and the authorizer that demonstrates the progress made by the charter school during any previous academic year in meeting its academic performance objectives. (*See ADE Rules Governing Standards for Accreditation of Arkansas Public Schools and School Districts.*)

Applicant Response:

Accountability is of vital importance to a high-functioning school. CCLCS will ensure that its program is fully accountable to all stakeholders in a variety of ways. However, the primary method of gathering academic data will be through multiple measures that include testing, surveys, and rubrics that apply to specific assignments.

The principal will use data from all of these assessments to prepare an annual report to be released to all parents and interested community members. The report will include progress toward annual goals, including test data from the school and will compare each year's efforts and progress to the school's earlier marks. The school will publish an Annual Report in compliance with ADE Rules reflecting academic progress for the previous year and progress towards meeting network goals.

11. Describe the enrollment criteria and student admission, recruitment and selection processes for the proposed public charter school.

Applicant Response:

In accordance with federal laws, no student will be denied admission to CCLCS based on race, ethnicity, national origin, gender, disability, aptitude, or athletic ability. The school shall be open to any child who is eligible under the laws of the State of Arkansas for admission to a public school, and the school shall ensure compliance with all applicable anti-discrimination laws governing public schools, including Title VI of the Civil Rights Act and the laws of the State of Arkansas. New students will be admitted each year without regard to prior measures of achievement or aptitude, athletic ability, disability, handicapped condition, ethnicity, race, creed, gender, national origin, religion, or ancestry.

In the event that more students apply to the school than can be accommodated under the terms of the charter, CCLCS will use a random, anonymous student selection method. This method will be a lottery conducted by one or more of the Trustees. The names of all students who have submitted applications with parent/guardian signatures shall be written on identical pieces of paper, one name per piece of paper, and shall each be folded in an identical manner. Names for each grade level shall be placed in separate containers. Beginning with the highest grade level, names will be drawn one at a time. If a child's name is drawn, and that child has younger siblings in the lottery, the names of the younger sibling shall be immediately placed on the enrollment list provided there is space available in the appropriate grade level. This process shall be open for all applicants and community members to witness. As allowed by law, we will also hold no more than ten percent of available seats each year for children of the founders as defined in the Arkansas Department of Education Rules and Regulations Governing Charter Schools.

In year two and thereafter, first preference will be given to returning students, who will automatically be assigned a space within the school. The next preference will be given to siblings of students already enrolled in the school. For definition purposes, "siblings" are two or more children that are related either by 1) birth, by means of the same father or mother, or 2) by legal adoption. Step-siblings will be considered siblings as well.

Check which of the following enrollment preferences, as permissible in Arkansas Code Annotated §6-23-306(14)(C), would be allowed at the charter school.

- Children of founding members of the charter school
- Siblings of enrolled students
- No enrollment preferences (No other boxes may be checked in order to select this option.)

It is affirmed that a random, anonymous student selection method will be utilized in the event that more students apply for admission to the open-enrollment public charter school than can be accommodated under the terms of the charter, except as allowed for in Arkansas Code Annotated §6-23-306(14)(C).

- Yes
- No

If it is believed that the use of a weighted lottery is required by federal court or administrative order, explain and furnish a copy of the order.

Applicant Response:

A weighted lottery is not necessary.

12. Summarize the job descriptions of the school director and other key personnel. Specify the qualifications to be met by professional employees (administrators, teachers, counselors, etc.) of the program. List the types of administrative positions, teaching positions, and support positions for the school.

Applicant Response:

In the first year of operation, the school will hire the following key managerial and operational personnel:

- Principal
- Director of Teacher Leadership (DTL)
- School Operations Manager
- Counselor

In subsequent years, an additional Director of Teacher Leaders and administrative support staff (e.g. additional administrative assistants or food service workers) will also be added based on need. The school leader may also choose to hire a Teacher Leader Fellow (TLF) in year 2 of the school or beyond. TLFs are lead teachers who take on a leadership role in certain areas or with discrete projects. Teacher Leader Fellows are teachers with strong track records who are interested in pursuing school leadership. They work closely with the school leadership team to build their capacity as school leaders while also adding value to the school as a whole.

The Board has contracted with Lighthouse Academies to provide business and education services. Lighthouse Academies will contract with a local accounting firm to provide accounting services to the school. To insure appropriate controls the Board will contract with an independent auditor to conduct an annual audit.

Day to Day Roles and Responsibilities

The administrative team has very distinct and specific roles and responsibilities to ensure the seamless operations of the school.

Principal

The principal of CCLCS will be an instructional, operational and strategic leader who works to create and enhance a culture of achievement and respect where high expectations and results are the norm. The principal will be responsible for demonstrating significant and measurable academic gains, each year, with all students. Principal responsibilities in serving as instructional leader, include collaborating closely with the Director of Instruction to determine professional development needs of the school to meet all network and school related goals and meet the individual needs of staff members (both instructional and non-instructional). Principals will assist and guide them with the development of the Individual Professional Development Plan and evaluate progress toward individual and school goals. The principal will be responsible for the monitoring and managing school culture and operations to ensure a safe, orderly and conducive learning environment is established and maintained. The principal will work with the Lighthouse Academies recruitment team to recruit and select all instructional staff and is responsible for evaluating both instructional and administrative support staff annually.

Director of Teacher Leadership

The director of teacher leadership (DTL) will be the instructional coach of the school. The DTL will work daily with all instructional staff on the planning, implementation and evaluation of a rigorous arts-infused program. The DTL will conduct learning walks, observe classrooms, lead grade level meetings and provide feedback to instructional staff to support teachers to constantly hone their skills and work on moving the school closer to the terms of its charter as they complete necessary work. The DTL will also work closely with all student data from internal and external assessments in order to help plan future training or curriculum modifications.

School Operations Manager

The school operations manager (SOM) will be more than operational managers and administrative support. The office manager will work to create and enhance a culture of achievement and respect where high expectations

and results are the norm. The essential functions for our SOMs are administrative and operational support as well as family and community relations. The SOM will support the operational management by ensuring all operational policies and procedures are executed effectively. Responsibilities include but are not limited to: maintaining student information data (and data management systems), human resource data, management of payroll and payroll systems as well as record keeping such as managing invoices, cash management and procurement of supplies and resources necessary for operations. The SOM will capture and organize key school data for creation and completion of all district, state and network reports as needed. The SOM will also support student recruitment and ongoing communication with families in collaboration with the administrative team.

Counselor

A Lighthouse Academy school counselor provides support services to students. Support services include referrals, counseling, assessment, diagnostics, and report writing. This work takes place at the school site. All school counselors' actions must always be aligned with our mission, vision, core values and education program. The essential functions for our school counselors are as follows: Completes assessments, referrals, and counseling with students; consults with other professional staff, outside agencies and other organizations; serves as a member of school based teams to provide support to students and confidential guidance to staff; counsels students individually or in groups; meets with staff to discuss strategies for certain student(s); communicates progress and developments with parents as needed; serves on the school 's Response to Intervention Team. The counselor will develop and manage programs to increase family involvement in the education program including a parent resource center; communicate with families about academic and behavioral expectations for students, including policies and program available as well as work with the leadership team to create varied opportunities for parents to volunteer within the school. He/she will also assist administrative staff with achieving high student attendance including tracking attendance data, calling families and conducting home visits as needed.

Qualifications

Overall, the school will seek staff members who are committed to, and relentless in, the pursuit to close the achievement gap and provide opportunities for students who have had little to no opportunity. In looking at specific attributes, Lighthouse Academies has summarized these into what we have termed the six essential qualities when recruiting and hiring school leaders and hiring instructional support staff. These six essential qualities are:

- Past experiences and actions reflect a commitment to the LHA mission, vision, core values
- A passion and ability to build and sustain the LHA K-12 model in a high need, urban environment
- Work in schools that demonstrates a sense of urgency and the relentless pursuit of high academic student achievement
- Reflective, self-aware and adaptable to communication and work styles of others
- Critical thinker and problem solver who takes initiative
- Belief in the power of collaboration and works to build a collaborative culture with LHA network, community, staff, families and students

Hiring Policies and Procedures

All school employees will embody the six essential qualities as outlined above as well as these additional attributes and experiences:

- Experience in urban education
- Evidence of closing the achievement gap
- Experience or interest in arts-infusion
- Desire to build strong relationships with students and their families
- Data-driven and results-driven

The specific qualifications of school leaders (principal and director of instruction) include:

- At least five years of teaching experience

- Three to five years in education administrative role or instructional leadership
- Master's degree in field of education, preferably administration

The hiring team will employ a standard interview and hiring protocol. The regional vice president will work closely with the Lighthouse Academies director of recruitment to develop a pool of candidates. At the beginning of the selection process, the Lighthouse Academies Recruitment team will conduct resume reviews in an effort to identify candidates who embody the desired essential qualities, attributes and qualifications. With a pool of candidates assembled they, will conduct a phone interview designed to verify whether the candidate fits the profile outlined above. Candidates who advance are invited to meet with the board for the in-person interview process that will include preparation and presentation of a model lesson, lesson reflection and feedback session, presentation of track record of closing the achievement gap and a formal interview with a team. The Board of Directors will conduct interviews for the finalists. The school leader recruitment, interview, and hiring process is one that is informed by lessons learned from other Lighthouse network schools and is assisted by the director of recruitment for Lighthouse Academies. Part of the role of the Lighthouse Academies Recruitment Team is to backwards plan the selection process from a refined and clearly articulated vision of our ideal candidate which is captured in the Principal Vision of Excellence and the Principal Position Description. They also work closely with hiring managers to coordinate the interview process and provide feedback.

13. Explain how the school will conduct its business office. Tell about business office personnel and describe the process by which the school governance will adopt an annual budget.

Applicant Response:

The school will hire a full-time School Operations Manager. The essential functions of these positions are detailed above in Question 12. LHA provides a detailed procedure manual that details processes and internal controls for all of the school's business functions including procurement, contracting with 3rd parties, payroll and benefit management. Many of these systems are web based and are accessed through the Prism, the LHA intranet.

The required budget worksheet has been completed by LHA's finance team which is included as **Attachment F**. The budget for 2013-2014 will be reviewed each month by the Board as part of the school's financial report.

The LHA finance team has also prepared a conservative four-year budget forecast. Going forward, annual budgets will be drafted by the principal, reviewed by LHA, and approved by the CCLCS Board of Trustees each year at the May Board meeting.

14. Describe the manner in which an annual audit of the financial and programmatic operations of the school will be conducted. If the school wishes to request that the authorizer allow a licensed accountant or licensed certified public accountant, rather than the Legislative Auditor, to perform the first-year audit, identify the accountant by name, firm, address, and phone number. The named accountant must meet the requirements of ADE Rules Governing Publicly Funded Educational Institution Audit Requirements, including the prohibition on auditors providing non-audit services (such as accounting or consulting services) to auditees. A school's preference as stated in this application may not be changed without prior approval of the authorizer.

Applicant Response:

An annual certified audit of the financial condition and transactions of the open-enrollment public charter school as of June 30 each year will be prepared by a licensed certified public accountant in public practice in good standing with the Arkansas State Board of Public Accountancy; Lisa Stephens and Company is the preferred auditor. The audit will be prepared in accordance with auditing standards generally accepted in the United States and Government Auditing Standards issued by the Comptroller General of the United States, and will contain any other data as determined by the Arkansas State Board of Education. The audit will be completed and filed by the auditor with the Arkansas Department of Education and the Arkansas Division of Legislative Audit within nine (9) months following the end of the fiscal year.

15. It is affirmed that the public charter school will participate in the Arkansas Public School Computer Network, as required by state statute and by State Board of Education rule, for reporting **both education data and financial data**, including grant funds or private donations received directly by the charter school.

- Yes
- No

16. Describe the facilities to be used. Give the present use of the facility. If the facility to be used for the school is a facility of a school district, describe the terms established by the local school board of the district stipulating the relationship between the proposed public charter school and the district pertaining to the use of the facility. Attach a copy of the agreement, signed by the president of the local school board, the chair or president of the governing body of the proposed open-enrollment public charter school, and the chief operating officer of the proposed charter. If the facility is not operated by a school district, attach a copy of the Facilities Utilization Agreement, signed by the entity owning or operating the facility and the chief operating officer of the proposed charter. A proposed lease may also be submitted but is not required. Please note that any lease or other debt must be approved by the Commissioner of Education.

Applicant Response:

The proposed facility is located at 1800 North Maple Street, North Little Rock, Arkansas. The proposed facility is currently not in use but previously had been used as commercial space by a not for profit entity. The facility is currently owned by Regions Bank.

The facility is on a 44, 520 square foot lot (1.022 acres). The building is four floors with 30,256 gross square footage.

Lighthouse Academies of Central AR, Inc. an Arkansas nonprofit that has applied for 501 (c) 3 status from the IRS has signed a Memorandum of Agreement with Charter Facilities AR LLC (CFM LLC) a nonprofit subsidiary of Charter Facilities Inc. CFM LLC will acquire and up fit the facility for use as a school and lease the facility to Lighthouse Academies of Central AR, Inc. CFM Inc. has successfully developed charter school facilities in Jacksonville and Pine Bluff, AR.

The current President and CEO of CFM Inc. is the President and CEO of Lighthouse Academies Inc. the charter management company employed by Lighthouse Academies of Central AR, Inc.

The facility will include general purpose classrooms; specialty rooms for art and music. A multipurpose room will be used for indoor physical activity, assemblies and lunch. A warming kitchen will be added for the food service program. Administrative office space will be provided. The building will be wired for administrative instructional use.

The building will meet ADA and life safety codes. The work required includes addition of handicapped accessible bathrooms and water fountains. The elevator may need to be upgraded. A new fire alarm and horn light system is needed. Although not required an in room phone / PA system will be added.

There are no establishments that sell alcohol within 1,000 feet of the site.

The local zoning authority has advised us that we will need to apply for a conditional use classification within the current C-3 zoning for the area. Application will be sent in August.

Identify the owner(s) of the proposed facility and describe their relationship, if any, with:

- (1) Members of the local board of the public school district where the proposed open-enrollment public charter school will be located,
- (2) Employees of the public school district where the proposed open-enrollment public charter school will be located,
- (3) The eligible entity sponsoring the open-enrollment public charter school, or
- (4) Employees/directors/administrators of the sponsoring entity or proposed open-enrollment public charter school.

Applicant Response:

Lighthouse Academies of Central AR, Inc. an Arkansas nonprofit that has applied for 501 (c) 3 status from the IRS has signed a Memorandum of Agreement with Charter Facilities AR LLC (CFM LLC) a nonprofit subsidiary of Charter Facilities Inc. CFM LLC will acquire and up fit the facility for use as a school and lease the facility to Lighthouse Academies of Central AR, Inc. CFM Inc. has successfully developed charter school facilities in Jacksonville and Pine Bluff, AR.

There is no relationship between the owner and any of the above-mentioned parties.

The facility will comply with all requirements for accessibility in accordance with the Americans with Disabilities Act (ADA) and Individuals with Disabilities Education Act (IDEA) and all other state and federal laws and local zoning ordinances.

- Yes
 No

If the facility does not currently meet these requirements, provide a list of items that will need to be addressed to bring the facility into compliance. Also include a statement of permissible uses for the facility from the local zoning authority, and whether there are any alcohol sales within 1,000 feet of the facility.

Applicant Response:

There are no establishments that sell alcohol within 1,000 feet of the site.

The local zoning authority has advised us that we will need to apply for a conditional use classification within the current C-3 zoning for the area. Application will be sent in August.

17. For each and every individual specifically identified by name in Section A of the application (the contact person, chief operating officer, board members, and other individuals), identify any family or financial relationship which may exist between that individual and:
- (A) Any other individual specifically identified by name in Section A of the application;
 - (B) Any individual or entity with whom the sponsoring entity or charter school has contracted, or intends to contract, to provide any services or products for the proposed charter school; and/or
 - (C) The owner(s) of the facilities to be used.

For the purpose of this standard, an individual has a financial relationship with another individual or entity if he or she:

- (1) Receives compensation or benefits directly or indirectly from the entity or individual;
- (2) Is an officer, director, partner, employee, or owner of more than 5% of the shares of an entity that is a corporation, partnership, sole proprietorship, or LLC; and/or
- (3) Has a family member (spouse, sibling, parent or child, or the spouse of a sibling, parent, or child) who is an officer, director, partner, employee, or owner of more than 5% of the shares of an entity that is a corporation, partnership, sole proprietorship, or LLC.

Applicant Response:

Not Applicable for any individuals mentioned in Section A.

Explain the procedures to be followed if a conflict of interest is identified. The procedures must ensure that all actions are in the best interest of the school and the students at the school.

Applicant Response:

A “conflict of interest” is a situation in which financial or other personal considerations may compromise, or have the appearance of compromising, a Director's judgment in administration and oversight of the charter school. All decisions made by the Board of Directors must be free of the undue influence of outside interests.

The mere appearance of a conflict may be as serious and potentially damaging as an actual affectation of judgment. Reports of conflicts based on appearances can undermine public support of the Academy in ways that may not be adequately restored even when the mitigating facts of a situation are brought to light. Apparent conflicts, therefore, should be evaluated and managed with the same vigor as known conflicts.

A conflict of interest may arise in regards to the Director's own business interests, interests of family members or even interests of others whose relation to the Director is likely to unduly sway the judgment of the Director.

Full disclosure is vital to preventing and resolving conflict situations. Full disclosure of relevant information and the establishment of a public record are in the best interest of both the Academy and the Director. Such disclosure must occur immediately upon learning of a real or perceived conflict of interest, and disclosure of all relevant facts must continue as long as the matter remains pertinent to the well being of the Academy.

Each Director is responsible for disclosing potential conflicts of interest. Disclosure shall be made to the other Directors, to the Principal of the Academy and to the Charter Management Organization (CMO), if any. If a Director learns of a conflict of interest more than forty-eight hours prior to a regular meeting of the Board of Directors, the Director should make the full disclosure via other written means at once. Such written means may be via electronic mail, facsimile or mail. Disclosure shall include the type of potential conflict, a description of all parties involved, the potential financial interests and rewards, possible violations of state and federal requirements, and any other information, which the Director feels necessary to evaluate the disclosure.

The information shall then be evaluated by the other Directors, the Principal and the CMO. The President of the Board, or other officer if the conflict is presented by the President, may seek legal counsel from the CMO or other attorney regarding the situation. The evaluation should include a consideration of state and federal requirements. No decisions regarding the matter about which there may be a conflict may be made until a vote is taken by the Directors regarding the conflict of interest.

Presented below are sample questions for use in evaluating potential conflicts of interest. The list is not inclusive and other questions related to special circumstances should be added as appropriate.

Has all relevant information concerning the conflict of interest been acquired (i.e., has there been full disclosure)?

- Do the Director's relevant financial interests suggest the potential for conflicts or the appearance of conflicts or bias?
- Is there any indication that the Director in his or her role as a Director has improperly favored any outside entity or appears to have incentive to do so?
- Has the Director inappropriately represented the Academy to outside entities?
- Is the Director involved in a situation that might raise questions of bias, inappropriate use of Academy assets, or other impropriety?
- Could the Director's circumstances represent any possible violation of federal or state requirements?
- Could the situation withstand public scrutiny?

At the next Board meeting or by unanimous written consent, the Directors shall vote as to the resolution of the conflict of interest. One situation may demand the use of more than one option listed below. This list of possible resolutions is not intended to be comprehensive:

- Public disclosure of all relevant information;
- Voting on a contract without any input from the Director with the conflict;
- Barring one or more vendors from servicing the Academy;

- Severance of outside relationships that pose conflicts;
- Resignation of the Director or removal of the Director from the Board; and
- Reimbursement by the Director to the Academy for excess expenses incurred and indirect costs incurred as a result of the conflict of interest.

After the vote by the Directors, the Secretary shall prepare and the President shall execute a final written decision which designates the conflict of interest and the resolution(s) to be taken and what further action is permissible, permissible with certain clearly specified conditions, or not permissible.

18. Describe the manner in which the school will make provisions for food services. State whether the proposed charter school will apply to participate in the federal National School Lunch program or other federal nutrition programs.

Applicant Response:

The school will seek out a local vendor to supply hot and cold nutritious meals for all students every day at a reasonable cost through the RFP process. The nurse will consult with the vendor to ensure that menus are healthy and that foods that may trigger any severe allergies are either left out or easy to identify. While the specifics of the menus can only be developed once the nurse is hired and the vendor selected, in general, students will have milk, fruit and an entrée each day, and there will always be a vegetarian option to include students with dietary restrictions. Students who need free or reduced price lunches will have them provided. The school plans to participate in the National School Lunch Program. The school plans to offer breakfast, lunch and an after-school snack through contracted services with a local vendor. The budget assumes 60% of the students enrolled would qualify for free and reduced priced meals as indicated in the calculation of NSLA funding and Title 1 funding. Any student who does not qualify for a free or reduced price lunch will pay for lunch and for breakfast per meal, per day and the after-school snack at cost. The school will use the process outlined in the Arkansas Department of Education School Eligibility Manual to determine eligibility.

19. Describe how the parents or guardians of the enrolled students and other members of the community will be involved with the school to positively impact the charter school's educational programs.

Applicant Response:

CCLCS is committed to involving each parent as a partner in his or her child's education. Maintaining family engagement on an ongoing basis throughout the school year is an important part of a home-school connection which is essential for preparing students for success in college. We believe that reaching our mission is possible through the ongoing involvement of families. CCLCS will support student success by aligning the expectations between the school and the home. CCLCS will have a fully time Family Coordinator on staff, who will work collaboratively with the school leadership and staff to create and enhance a culture of achievement and respect where high expectations and results are the norm. The school will have an 'open door' policy to encourage families to feel welcome and become active members of the school community. In addition, the school will provide multiple opportunities and varied structures to foster the family partnership. These include but are not limited to:

- A **Family, Student and School Compact** which details expectations for the school, families and students. The more aligned the school and students' homes are in regards to student expectations at school, the stronger the experience and more successful the student will be.
- **Home Visits** welcome families into the education process, educate teachers about their students and families and help the school begin the process of family involvement. It also provides a forum to answer family questions and confirming the student's enrollment.
- An **Annual Summer Orientation** provides a forum for families to learn about the school's academic program, tour the school building and receive the *Student-Family Handbook*. All new students, families and staff participate in an orientation to welcome them to the LHA community.
- **Weekly Communication** from both the school leader and classroom teacher provides ongoing updates on school events, classroom instruction and individual student progress.
- **Monthly Family Meetings** for families include information about how families can help students at home as well as some cultural education for families.
- **Quarterly Family-Student-Teacher Conferences** are opportunities for teachers to meet with the student and his/her family to discuss progress in school.

In addition to the aforementioned opportunities for families to be involved with the school, parents have the opportunity to be involved with the CCLCS board, volunteer in the school and organize school events. At least one parent who serve on the Board. Many other board members are members of the local community as well.

20. List the provisions of Title 6 of the Arkansas Code Annotated (Education Code), State Board of Education rules, and sections of the *Standards for Accreditation of Arkansas Public Schools and School Districts* from which the public charter school seeks to be exempted in order to meet the goals of the school. Identify the specific statute, rule, or standard requested to be waived by title and section number if applicable. **Provide a brief description of the rationale for each waiver requested.**

Applicant Response:

In order to implement the LHA school program fully and effectively, we wish to make full use of our autonomy as a proposed charter school. We will be best able to serve the children and families at the CCLCS with the following waivers:

1. **We request a waiver from Ark. Code Ann. §§ 6-15-1004 (concerning qualified teachers in every classroom); 6-17-301 (concerning employment of certified personnel); 6-17-309 (concerning certification to teach particular grade of subject matter); 6-17-401 (concerning teacher licensure requirement); 6-17-902 (concerning definition of teacher); 6-17-919 (concerning warrants void without valid teaching license and contract); Section 15.03 of the ADE Rules Governing the Standards for Accreditation of Public Schools and School Districts; the ADE Rules Governing Waivers for Substitute Teachers; and the ADE Rules Governing Parental Notification of an Assignment of a Non-Licensed Teacher.”**

CCLCS requests this set of waivers because we seek to provide a unique program. We will use an innovative, research-based program which builds upon the benefits afforded by the arts to help children succeed in the core subjects and develop their craftsmanship and their appreciation for the musicians, painters, sculptors, and other masters whose works make up part of the canon.

Finding teachers who are passionate about their teaching and about music and arts, who have deep knowledge of how to teach core subjects and the fine and performing arts, and who are excited to do so in a new school is always a challenge. We ask to be allowed to recruit the best teachers, whether they have received their experience in a private school or have taken a non-traditional path to the classroom.

All of our teachers will be Highly Qualified and will need to meet specific and rigorous LHA network hiring standards. However, within those requirements, we want our principal to have the autonomy to hire the best possible teachers, even if some of those candidates' qualifications do not include an Arkansas license. The school will be committed to recruiting and hiring quality staff members.

In addition to attending college fairs at state universities, we recruit from national organizations and sites including: Idealist; National Alliance for Public Charter Schools; US Charter Schools: School Spring; National Educators Employment Review; Accomplished Teacher (National Board); Smartbrief of Educators; Teachers of Color, and Special Education Teachers. For the 2013-14 school year, at Jacksonville Lighthouse Charter School, these efforts yielded over 300 applicants from 25 states. The school will participate in the state's Pathwise program which is designed to advance teacher learning and provides a series of professional development activities that will successfully prepare novice teachers to acquire a standard license. Working artists, experienced private school teachers, and teachers who are drawn from out of state to our schools' distinctive mission and pedagogy compliment in-state hires at each LHA school, and this mix is part of what helps us offer an excellent program. We ask that we be allowed to hire qualified, talented, and dedicated educators even if they are not licensed in Arkansas.

Additional waivers relating to payment of certified teachers are requests so that we are able to appropriately compensate non-certified but Highly Qualified teachers.

2. **We request a waiver from Ark. Code Ann § 6-10-106 (uniform date for beginning and end of school year) and Ark. Code Ann. § 6-16-102 (length of school day);**

Lighthouse's model uses more time on instruction to accelerate student achievement. A longer school year, 190 instructional days, requires that the start date and end of date of school is extended.

3. **We request a waiver from Ark. Code Ann. § 6-13-601 et seq., (school district boards of directors - generally) and Ark. Code Ann. § 6-14-101 et seq. (school board elections);**
4. **We request a waiver from Ark. Code Ann. §§ 6-17-2201 et seq. and 6-17-2401 et seq. Minimum teacher compensation schedule.**

This requirement is quite straightforward. We request a waiver from the specific salary minimum and salary schedule set by the State of Arkansas. We propose to use the LHA compensation policy, which includes a salary schedule and is intended to be competitive in the marketplace and fair to all employees. Using this schedule will ensure that the school is able to pay teachers fairly and also balance its budget. Since, as a charter school, we bear the additional cost of rent and up fit for a facility, we must be quite conservative in our budgeting.

5. We request a waiver from the following rules governing standards for accreditation:

7.02.2 Each school district shall provide and publish, in a newspaper with general circulation in the district before November 15 of each school year, a report to the public detailing progress....

We intend to provide a great deal of information to our parents and community. However, a report published by November 15 of our first year would only have data based on roughly eight weeks of school. Given the demands of the start-up period and this lack of data, we request permission to publish the required reports referred to in 7.02.2 beginning in our second year of operation.

7.03.1 Each school board, prior to November 15 of each year, shall hold a public meeting, at a time and place convenient for a majority of the school patrons and employees, to review and discuss its annual report detailing progress toward accomplishing its district's program objectives, accreditation standards, and proposals to correct deficiencies.

We request a waiver from this rule because we have requested a waiver from the report to which it refers. Again, we will not have enough data by this time to draw any conclusions. We propose instead to hold a "State of the School" meeting at roughly the same time. At this meeting, the principal will share anecdotal reports on the school's progress towards implementing the CCLCS program as detailed in the charter. We propose to begin holding the specific meeting described in 7.03.1 in our second year.

6. 8.01 Each school district shall form a coalition ... to develop and implement a ... plan for ... involvement in the delivery of ... youth services....

We request a waiver from this rule because we will do the same work in a different way. CCLCS represents the coming together of parents, different agencies and institutions, and business and industry, as stated in the text of the rule, to improve options and support for youth in Pulaski County. Community members will sit on the school's board, and its existence will improve the delivery of services to children. It is our contention that forming an additional body would be redundant and could limit the effectiveness of that body as well as the board and management of the school.

7. 10.02 CLASS SIZE AND TEACHING LOAD

We believe that the research on the benefits of reducing class size is mixed. While there are studies that suggest class sizes of less than 20 do improve student achievement, other studies question the validity of this data. Total enrollment will not exceed 750 for grades K-12. Class size at CCLCS will not exceed 22 in K and 25 in all other grades except that the school may adjust the class size by 10% without exceeding the charter if circumstances require. We believe that data driven differentiated instruction will ensure that the needs of all children are being met.

8. 15.01 Each school district shall employ a full-time superintendent when enrollment exceeds three hundred.

CCLCS will employ a full-time Principal, Director of Teacher Leadership and School Operations Manager. This

team will have a great deal of support from LHA and a local contractor for Business Management services. LHA regional staff will prepare documents for the Board and for the Arkansas Department of Education, conduct recruitment and fundraising efforts, and interface with the same stakeholders traditionally courted by superintendents. The position would be both costly and redundant to our model and we request a waiver from this rule.

9. Ark. Code Ann. § 6-25-101 et seq. concerning School Library Media Services and Section 16.02 of the ADE Rules Governing Standards for Accreditation of Arkansas Public Schools and School Districts.”

We request a waiver from this rule because while we will purchase classroom libraries but will be unable to support a media center in the school's opening years. Start-up expenses, combined with the conservative budgeting that makes that start-up period much more likely to go smoothly, prevent us from investing in the media center and library professionals in the school's first few years. We would like the principal and Board, along with LHA, to have the autonomy to make all staffing decisions in a way that best supports our arts-infused program.

10. Ark. Code Ann. §§ 6-20-2208(e)(6) (Monitoring of Expenditures), 6-42-101 et seq. (Gifted & Talented Children - General Prohibitions), and Sections 18.01 - 18.03 of the ADE Rules Governing the Standards for Accreditation of Arkansas Public Schools and School Districts

CCLCS is as committed to providing support for gifted/talented and academically advanced students, just as it is to providing support for students who are lagging academically. Our educational program design is supportive of this population in several ways. We will gather data and write a simple learning contract that addresses areas of need with specific goals and strategies. Students may receive tutoring or extra coaching, or regular assignments may be enriched to better challenge and engage students. Gifted students may be asked to produce more complex pieces of writing, to incorporate arts to a greater depth, or to present work in a more challenging or individualized way. An adult in the school - usually the classroom teacher - will be assigned to track each student's progress and report to parents/guardians frequently. Because the learning contract can call for goals to be established in all subject areas, students who are advanced in one or two areas will not be held back in those subjects because of weaknesses in other areas. Conversely, we will not allow students to focus on their strengths and ignore areas where skill deficits exist. However, we do not have the capacity to hire a specific gifted-and-talented teacher but offer an academic program that will meet their needs. Thus, we request a waiver from the requirement to follow specific guidelines in providing appropriate levels of challenge to gifted and talented children.

21. Describe the potential impact of the proposed public charter school on the efforts of affected public school district(s) to comply with court orders and statutory obligations to create and maintain a unitary system of desegregated public schools.

Applicant Response:

CCLCS is a public, open-enrollment charter school created to bring excellent educational opportunities to all children. We will adhere to all applicable federal laws and all civil rights laws. We are an open-enrollment school that we may draw students from anywhere in the state. At full enrollment, the school will reach 750 students over a five year period. CCLCS expects to enroll students from local school districts, private schools and home schools. The impact appears to be very small.

The local school district may lose state student funding when students leave but they also lose the expense of educating those students. In those simple terms, the amount of per-pupil money left for districts to educate the remaining students doesn't change at all. While the district loses out on state funding that travels with the student, they keep 100% of all local funding. Most of the students who transfer to charter schools also live in the district where their parents pay taxes. The tax support remains in the district. Charter schools across the country are also having a positive effect on traditional public school districts. Under the right circumstances, charter schools can be very effective learning labs for traditional public schools. The attitudes of many leading administrators of traditional public schools are changing to reflect the idea that charter schools, by promoting accountability and positive competition, can be drivers for much needed change. In fact, qualitative research shows that many administrators are looking to charter schools for models to increase their focus on customer service, parent engagement and communication.

22. Identify the two or three key individuals responsible for this application. Discuss the experience and qualifications of each. Explain what the founders are doing or will do to ensure the success of the charter school when others are in leadership roles.

Applicant Response:

Dr. Phillis Nichols Anderson is Senior Vice President responsible for schools in Arkansas, Oklahoma, New York and Washington, D.C. She has led the fastest growing region in the Lighthouse Network. During this period, she opened Jacksonville Lighthouse Charter School, and then led the expansion of the school on the Little Rock Air Force base. The Air Force base campus is one of a select number of charter schools on active military bases. Dr. Anderson also led the opening of Pine Bluff Lighthouse Charter School. Pine Bluff Arkansas is one of the highest need communities in the state. When Pine Bluff Lighthouse opened in 2011, it was the only charter school in the community. Dr. Anderson began her career as a classroom teacher in Arkansas, where she taught secondary English, journalism, and communications for over a decade. She has experience as an administrator in some of the most challenging school districts across the country including Washington, D.C.; Prince George's County, Maryland; and Little Rock Public Schools. Dr. Anderson is a product of the University of Arkansas system receiving her Bachelor's degree from UAPB and her Master's and Doctorate degrees in Educational Leadership from UALR. She also attended the Charter School Institute at Harvard University. Dr. Anderson will continue to oversee the region and support the school leaders as needed.

Lenisha Broadway is the Regional Vice President responsible for Arkansas. Ms. Broadway served as the principal at Ridgeroad Middle Charter School in North Little Rock, AR, for five years, and as the Assistant Principal for the four years prior. Prior to that, Ms. Broadway taught special education for four years. She is also a field facilitator for the FISH! Program of best practices in social and emotional learning, character education, classroom management and human behavior. Ms. Broadway earned her B.S.E. in Special Education and M.S.E. in Education from the University of Central Arkansas.

Lisa Clay is the Community Development Associate for Lighthouse Academies, Inc. She is responsible for new business development support, national marketing and local marketing support. She will support the local marketing efforts for CCLCS allowing for a smooth recruitment process and an active community role. She has been working with Lighthouse schools for more than seven years. Ms. Clay holds a B.A. from the University of Rochester and a M.S. from Boston University.

ATTACHMENT A: EVIDENCE OF ELIGIBLE ENTITY

An application (Form 1023) for Exemption under Section 501(c)(3) for Lighthouse Academies of Central Arkansas, Inc. was submitted In January 2013. The application was sent via UPS and received by the IRS on January 14, 2013. Proof of receipt from UPS is included below. Also attached is letter from Cox, Sargeant & Burns, P.C. indicating that the IRS confirmed by phone receipt of application. We have also submitted a request to have the application expedited.

Form 1023 Checklist (Revised June 2006)

COPY

Application for Recognition of Exemption under Section 501(c)(3) of the Internal Revenue Code

Note. Retain a copy of the completed Form 1023 in your permanent records. Refer to the General Instructions regarding Public Inspection of approved applications.

Check each box to finish your application (Form 1023). Send this completed Checklist with your filled-in application. If you have not answered all the items below, your application may be returned to you as incomplete.

- Assemble the application and materials in this order:
 - Form 1023 Checklist
 - Form 2848, *Power of Attorney and Declaration of Representative* (if filing)
 - Form 8821, *Tax Information Authorization* (if filing)
 - Expedite request (if requesting)
 - Application (Form 1023 and Schedules A through H, as required)
 - Articles of organization
 - Amendments to articles of organization in chronological order
 - Bylaws or other rules of operation and amendments
 - Documentation of nondiscriminatory policy for schools, as required by Schedule B
 - Form 5768, *Election/Revocation of Election by an Eligible Section 501(c)(3) Organization To Make Expenditures To Influence Legislation* (if filing)
 - All other attachments, including explanations, financial data, and printed materials or publications. Label each page with name and EIN.
- User fee payment placed in envelope on top of checklist. DO NOT STAPLE or otherwise attach your check or money order to your application. Instead, just place it in the envelope.
- Employer Identification Number (EIN)
- Completed Parts I through XI of the application, including any requested information and any required Schedules A through H.
 - You must provide specific details about your past, present, and planned activities.
 - Generalizations or failure to answer questions in the Form 1023 application will prevent us from recognizing you as tax exempt.
 - Describe your purposes and proposed activities in specific easily understood terms.
 - Financial information should correspond with proposed activities.
- Schedules. Submit only those schedules that apply to you and check either "Yes" or "No" below.

| | | | |
|------------|--|------------|--|
| Schedule A | Yes ___ No <input checked="" type="checkbox"/> | Schedule E | Yes ___ No <input checked="" type="checkbox"/> |
| Schedule B | Yes <input checked="" type="checkbox"/> No ___ | Schedule F | Yes ___ No <input checked="" type="checkbox"/> |
| Schedule C | Yes ___ No <input checked="" type="checkbox"/> | Schedule G | Yes ___ No <input checked="" type="checkbox"/> |
| Schedule D | Yes ___ No <input checked="" type="checkbox"/> | Schedule H | Yes ___ No <input checked="" type="checkbox"/> |

- An exact copy of your complete articles of organization (creating document). Absence of the proper purpose and dissolution clauses is the number one reason for delays in the issuance of determination letters.
 - Location of Purpose Clause from Part III, line 1 (Page, Article and Paragraph Number) Page 2, Article 5
 - Location of Dissolution Clause from Part III, line 2b or 2c (Page, Article and Paragraph Number) or by operation of state law Page 2, Article 6
- Signature of an officer, director, trustee, or other official who is authorized to sign the application.
 - Signature at Part XI of Form 1023.
- Your name on the application must be the same as your legal name as it appears in your articles of organization.

Send completed Form 1023, user fee payment, and all other required information, to:

Internal Revenue Service
P.O. Box 192
Covington, KY 41012-0192

If you are using express mail or a delivery service, send Form 1023, user fee payment, and attachments to:

Internal Revenue Service
201 West Rivercenter Blvd.
Attn: Extracting Stop 312
Covington, KY 41011

Department of the Treasury
Internal Revenue Service

**Application for Recognition of Exemption
Under Section 501(c)(3) of the Internal Revenue Code**

OMB No. 1545-0056
Note: If exempt status is approved, this application will be open for public inspection.

Use the instructions to complete this application and for a definition of all **bold** items. For additional help, call IRS Exempt Organizations Customer Account Services toll-free at 1-877-829-5500. Visit our website at www.irs.gov for forms and publications. If the required information and documents are not submitted with payment of the appropriate user fee, the application may be returned to you.

Attach additional sheets to this application if you need more space to answer fully. Put your name and EIN on each sheet and identify each answer by Part and line number. Complete Parts I - XI of Form 1023 and submit only those Schedules (A through H) that apply to you.

Part I Identification of Applicant

| | | | |
|--|--|---|---|
| 1 Full name of organization (exactly as it appears in your organizing document) Lighthouse Academies of Central Arkansas, Inc. | | 2 c/o Name (if applicable) Lighthouse Academies, Inc. | |
| 3 Mailing address (Number and street) (see instructions) 251 North First Street | | Room/Suite | 4 Employer Identification Number (EIN) 46-1471087 |
| City or town, state or country, and ZIP + 4 Jacksonville, AR 72076 | | 5 Month the annual accounting period ends (01 - 12) 06 | |
| 6 Primary contact (officer, director, trustee, or authorized representative) a Name: Dr. Phillis Nichols Anderson | | b Phone: 501-374-5001 | |
| | | c Fax: (optional) | |
| 7 Are you represented by an authorized representative, such as an attorney or accountant? If "Yes," provide the authorized representative's name, and the name and address of the authorized representative's firm. Include a completed Form 2848, <i>Power of Attorney and Declaration of Representative</i> , with your application if you would like us to communicate with your representative. | | <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No | |
| 8 Was a person who is not one of your officers, directors, trustees, employees, or an authorized representative listed in line 7, paid, or promised payment, to help plan, manage, or advise you about the structure or activities of your organization, or about your financial or tax matters? If "Yes," provide the person's name, the name and address of the person's firm, the amounts paid or promised to be paid, and describe that person's role. | | <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No | |
| 9a Organization's website: The organization does not yet have a website. | | | |
| b Organization's email: (optional) | | | |
| 10 Certain organizations are not required to file an information return (Form 990 or Form 990-EZ). If you are granted tax-exemption, are you claiming to be excused from filing Form 990 or Form 990-EZ? If "Yes," explain. See the instructions for a description of organizations not required to file Form 990 or Form 990-EZ. | | <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No | |
| 11 Date incorporated if a corporation, or formed, if other than a corporation. (MM/DD/YYYY) | | 6 / 9 / 2011 | |
| 12 Were you formed under the laws of a foreign country? If "Yes," state the country. | | <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No | |

For Paperwork Reduction Act Notice, see page 24 of the instructions.

Cat. No. 17133K

Form **1023** (Rev. 6-2006)

Part II Organizational Structure

You must be a corporation (including a limited liability company), an unincorporated association, or a trust to be tax exempt. (See instructions.) **DO NOT file this form unless you can check "Yes" on lines 1, 2, 3, or 4.**

- 1 Are you a **corporation**? If "Yes," attach a copy of your articles of incorporation showing **certification of filing** with the appropriate state agency. Include copies of any amendments to your articles and be sure they also show state filing certification. Yes No
- 2 Are you a **limited liability company (LLC)**? If "Yes," attach a copy of your articles of organization showing certification of filing with the appropriate state agency. Also, if you adopted an operating agreement, attach a copy. Include copies of any amendments to your articles and be sure they show state filing certification. Refer to the instructions for circumstances when an LLC should not file its own exemption application. Yes No
- 3 Are you an **unincorporated association**? If "Yes," attach a copy of your articles of association, constitution, or other similar organizing document that is dated and includes at least two signatures. Include signed and dated copies of any amendments. Yes No
- 4a Are you a **trust**? If "Yes," attach a signed and dated copy of your trust agreement. Include signed and dated copies of any amendments. Yes No
- b Have you been funded? If "No," explain how you are formed without anything of value placed in trust. Yes No
- 5 Have you adopted **bylaws**? If "Yes," attach a current copy showing date of adoption. If "No," explain how your officers, directors, or trustees are selected. Yes No

Part III Required Provisions in Your Organizing Document

The following questions are designed to ensure that when you file this application, your organizing document contains the required provisions to meet the organizational test under section 501(c)(3). Unless you can check the boxes in both lines 1 and 2, your organizing document does not meet the organizational test. **DO NOT file this application until you have amended your organizing document.** Submit your original and amended organizing documents (showing state filing certification if you are a corporation or an LLC) with your application.

- 1 Section 501(c)(3) requires that your organizing document state your exempt purpose(s), such as charitable, religious, educational, and/or scientific purposes. Check the box to confirm that your organizing document meets this requirement. Describe specifically where your organizing document meets this requirement, such as a reference to a particular article or section in your organizing document. Refer to the instructions for exempt purpose language. Location of Purpose Clause (Page, Article, and Paragraph): **Page 2, Article 5**
- 2a Section 501(c)(3) requires that upon dissolution of your organization, your remaining assets must be used exclusively for exempt purposes, such as charitable, religious, educational, and/or scientific purposes. Check the box on line 2a to confirm that your organizing document meets this requirement by express provision for the distribution of assets upon dissolution. If you rely on state law for your dissolution provision, do not check the box on line 2a and go to line 2c.
- 2b If you checked the box on line 2a, specify the location of your dissolution clause (Page, Article, and Paragraph). Do not complete line 2c if you checked box 2a. **Page 2, Article 6**
- 2c See the instructions for information about the operation of state law in your particular state. Check this box if you rely on operation of state law for your dissolution provision and indicate the state:

Part IV Narrative Description of Your Activities

Using an attachment, describe your *past, present, and planned* activities in a narrative. If you believe that you have already provided some of this information in response to other parts of this application, you may summarize that information here and refer to the specific parts of the application for supporting details. You may also attach representative copies of newsletters, brochures, or similar documents for supporting details to this narrative. Remember that if this application is approved, it will be open for public inspection. Therefore, your narrative description of activities should be thorough and accurate. Refer to the instructions for information that must be included in your description.

Part V Compensation and Other Financial Arrangements With Your Officers, Directors, Trustees, Employees, and Independent Contractors

- 1a List the names, titles, and mailing addresses of all of your officers, directors, and trustees. For each person listed, state their total annual **compensation**, or proposed compensation, for all services to the organization, whether as an officer, employee, or other position. Use actual figures, if available. Enter "none" if no compensation is or will be paid. If additional space is needed, attach a separate sheet. Refer to the instructions for information on what to include as compensation.

| Name | Title | Mailing address | Compensation amount (annual actual or estimated) |
|--------------|-------|-----------------|--|
| See attached | | | |
| | | | |
| | | | |
| | | | |
| | | | |

Part V Compensation and Other Financial Arrangements With Your Officers, Directors, Trustees, Employees, and Independent Contractors (Continued)

b List the names, titles, and mailing addresses of each of your five highest compensated employees who receive or will receive compensation of more than \$50,000 per year. Use the actual figure, if available. Refer to the instructions for information on what to include as compensation. Do not include officers, directors, or trustees listed in line 1a.

| Name | Title | Mailing address | Compensation amount (annual actual or estimated) |
|-------------|-------|-----------------|--|
| None | | | |
| | | | |
| | | | |
| | | | |
| | | | |

c List the names, names of businesses, and mailing addresses of your five highest compensated independent contractors that receive or will receive compensation of more than \$50,000 per year. Use the actual figure, if available. Refer to the instructions for information on what to include as compensation.

| Name | Title | Mailing address | Compensation amount (annual actual or estimated) |

| | | | |
| | | | |

The following "Yes" or "No" questions relate to *past, present, or planned* relationships, transactions, or agreements with your officers, directors, trustees, highest compensated employees, and highest compensated independent contractors listed in lines 1a, 1b, and 1c.

- 2a** Are any of your officers, directors, or trustees **related** to each other through **family or business relationships**? If "Yes," identify the individuals and explain the relationship. Yes No
 - b** Do you have a business relationship with any of your officers, directors, or trustees other than through their position as an officer, director, or trustee? If "Yes," identify the individuals and describe the business relationship with each of your officers, directors, or trustees. Yes No
 - c** Are any of your officers, directors, or trustees related to your highest compensated employees or highest compensated independent contractors listed on lines 1b or 1c through family or business relationships? If "Yes," identify the individuals and explain the relationship. Yes No
-
- 3a** For each of your officers, directors, trustees, highest compensated employees, and highest compensated independent contractors listed on lines 1a, 1b, or 1c, attach a list showing their name, qualifications, average hours worked, and duties.
 - b** Do any of your officers, directors, trustees, highest compensated employees, and highest compensated independent contractors listed on lines 1a, 1b, or 1c receive compensation from any other organizations, whether tax exempt or taxable, that are related to you through **common control**? If "Yes," identify the individuals, explain the relationship between you and the other organization, and describe the compensation arrangement. Yes No
-
- 4** In establishing the compensation for your officers, directors, trustees, highest compensated employees, and highest compensated independent contractors listed on lines 1a, 1b, and 1c, the following practices are recommended, although they are not required to obtain exemption. Answer "Yes" to all the practices you use.
 - a** Do you or will the individuals that approve compensation arrangements follow a conflict of interest policy? Yes No
 - b** Do you or will you approve compensation arrangements in advance of paying compensation? Yes No
 - c** Do you or will you document in writing the date and terms of approved compensation arrangements? Yes No

Part V Compensation and Other Financial Arrangements With Your Officers, Directors, Trustees, Employees, and Independent Contractors (Continued)

- d** Do you or will you record in writing the decision made by each individual who decided or voted on compensation arrangements? Yes No
- e** Do you or will you approve compensation arrangements based on information about compensation paid by **similarly situated** taxable or tax-exempt organizations for similar services, current compensation surveys compiled by independent firms, or actual written offers from similarly situated organizations? Refer to the instructions for Part V, lines 1a, 1b, and 1c, for information on what to include as compensation. Yes No
- f** Do you or will you record in writing both the information on which you relied to base your decision and its source? Yes No
- g** If you answered "No" to any item on lines 4a through 4f, describe how you set compensation that is **reasonable** for your officers, directors, trustees, highest compensated employees, and highest compensated independent contractors listed in Part V, lines 1a, 1b, and 1c.
-
- 5a** Have you adopted a **conflict of interest policy** consistent with the sample conflict of interest policy in Appendix A to the instructions? If "Yes," provide a copy of the policy and explain how the policy has been adopted, such as by resolution of your governing board. If "No," answer lines 5b and 5c. Yes No
- b** What procedures will you follow to assure that persons who have a conflict of interest will not have influence over you for setting their own compensation?
- c** What procedures will you follow to assure that persons who have a conflict of interest will not have influence over you regarding business deals with themselves?
- Note:** A conflict of interest policy is recommended though it is not required to obtain exemption. Hospitals, see Schedule C, Section I, line 14.
-
- 6a** Do you or will you compensate any of your officers, directors, trustees, highest compensated employees, and highest compensated independent contractors listed in lines 1a, 1b, or 1c through **non-fixed payments**, such as discretionary bonuses or revenue-based payments? If "Yes," describe all non-fixed compensation arrangements, including how the amounts are determined, who is eligible for such arrangements, whether you place a limitation on total compensation, and how you determine or will determine that you pay no more than reasonable compensation for services. Refer to the instructions for Part V, lines 1a, 1b, and 1c, for information on what to include as compensation. Yes No
- b** Do you or will you compensate any of your employees, other than your officers, directors, trustees, or your five highest compensated employees who receive or will receive compensation of more than \$50,000 per year, through non-fixed payments, such as discretionary bonuses or revenue-based payments? If "Yes," describe all non-fixed compensation arrangements, including how the amounts are or will be determined, who is or will be eligible for such arrangements, whether you place or will place a limitation on total compensation, and how you determine or will determine that you pay no more than reasonable compensation for services. Refer to the instructions for Part V, lines 1a, 1b, and 1c, for information on what to include as compensation. Yes No
-
- 7a** Do you or will you purchase any goods, services, or assets from any of your officers, directors, trustees, highest compensated employees, or highest compensated independent contractors listed in lines 1a, 1b, or 1c? If "Yes," describe any such purchase that you made or intend to make, from whom you make or will make such purchases, how the terms are or will be negotiated at **arm's length**, and explain how you determine or will determine that you pay no more than **fair market value**. Attach copies of any written contracts or other agreements relating to such purchases. Yes No
- b** Do you or will you sell any goods, services, or assets to any of your officers, directors, trustees, highest compensated employees, or highest compensated independent contractors listed in lines 1a, 1b, or 1c? If "Yes," describe any such sales that you made or intend to make, to whom you make or will make such sales, how the terms are or will be negotiated at arm's length, and explain how you determine or will determine you are or will be paid at least fair market value. Attach copies of any written contracts or other agreements relating to such sales. Yes No
-
- 8a** Do you or will you have any leases, contracts, loans, or other agreements with your officers, directors, trustees, highest compensated employees, or highest compensated independent contractors listed in lines 1a, 1b, or 1c? If "Yes," provide the information requested in lines 8b through 8f. Yes No
- b** Describe any written or oral arrangements that you made or intend to make.
- c** Identify with whom you have or will have such arrangements.
- d** Explain how the terms are or will be negotiated at arm's length.
- e** Explain how you determine you pay no more than fair market value or you are paid at least fair market value.
- f** Attach copies of any signed leases, contracts, loans, or other agreements relating to such arrangements.
-
- 9a** Do you or will you have any leases, contracts, loans, or other agreements with any organization in which any of your officers, directors, or trustees are also officers, directors, or trustees, or in which any individual officer, director, or trustee owns more than a 35% interest? If "Yes," provide the information requested in lines 9b through 9f. Yes No

Part V Compensation and Other Financial Arrangements With Your Officers, Directors, Trustees, Employees, and Independent Contractors (Continued)

- b** Describe any written or oral arrangements you made or intend to make.
- c** Identify with whom you have or will have such arrangements.
- d** Explain how the terms are or will be negotiated at arm's length.
- e** Explain how you determine or will determine you pay no more than fair market value or that you are paid at least fair market value.
- f** Attach a copy of any signed leases, contracts, loans, or other agreements relating to such arrangements.

Part VI Your Members and Other Individuals and Organizations That Receive Benefits From You

The following "Yes" or "No" questions relate to goods, services, and funds you provide to individuals and organizations as part of your activities. Your answers should pertain to *past, present, and planned* activities. (See instructions.)

- 1a** In carrying out your exempt purposes, do you provide goods, services, or funds to individuals? If "Yes," describe each program that provides goods, services, or funds to individuals. Yes No
- b** In carrying out your exempt purposes, do you provide goods, services, or funds to organizations? If "Yes," describe each program that provides goods, services, or funds to organizations. Yes No
- 2** Do any of your programs limit the provision of goods, services, or funds to a specific individual or group of specific individuals? For example, answer "Yes," if goods, services, or funds are provided only for a particular individual, your members, individuals who work for a particular employer, or graduates of a particular school. If "Yes," explain the limitation and how recipients are selected for each program. Yes No
- 3** Do any individuals who receive goods, services, or funds through your programs have a family or business relationship with any officer, director, trustee, or with any of your highest compensated employees or highest compensated independent contractors listed in Part V, lines 1a, 1b, and 1c? If "Yes," explain how these related individuals are eligible for goods, services, or funds. Yes No

Part VII Your History

The following "Yes" or "No" questions relate to your history. (See instructions.)

- 1** Are you a **successor** to another organization? Answer "Yes," if you have taken or will take over the activities of another organization; you took over 25% or more of the fair market value of the net assets of another organization; or you were established upon the conversion of an organization from for-profit to non-profit status. If "Yes," complete Schedule G. Yes No
- 2** Are you submitting this application more than 27 months after the end of the month in which you were legally formed? If "Yes," complete Schedule E. Yes No

Part VIII Your Specific Activities

The following "Yes" or "No" questions relate to specific activities that you may conduct. Check the appropriate box. Your answers should pertain to *past, present, and planned* activities. (See instructions.)

- 1** Do you support or oppose candidates in **political campaigns** in any way? If "Yes," explain. Yes No
- 2a** Do you attempt to **influence legislation**? If "Yes," explain how you attempt to influence legislation and complete line 2b. If "No," go to line 3a. Yes No
- b** Have you made or are you making an **election** to have your legislative activities measured by expenditures by filing Form 5768? If "Yes," attach a copy of the Form 5768 that was already filed or attach a completed Form 5768 that you are filing with this application. If "No," describe whether your attempts to influence legislation are a substantial part of your activities. Include the time and money spent on your attempts to influence legislation as compared to your total activities. Yes No
- 3a** Do you or will you operate bingo or **gaming** activities? If "Yes," describe who conducts them, and list all revenue received or expected to be received and expenses paid or expected to be paid in operating these activities. **Revenue and expenses** should be provided for the time periods specified in Part IX, Financial Data. Yes No
- b** Do you or will you enter into contracts or other agreements with individuals or organizations to conduct bingo or gaming for you? If "Yes," describe any written or oral arrangements that you made or intend to make, identify with whom you have or will have such arrangements, explain how the terms are or will be negotiated at arm's length, and explain how you determine or will determine you pay no more than fair market value or you will be paid at least fair market value. Attach copies or any written contracts or other agreements relating to such arrangements. Yes No
- c** List the states and local jurisdictions, including Indian Reservations, in which you conduct or will conduct gaming or bingo.

Part VIII Your Specific Activities (Continued)

4a Do you or will you undertake **fundraising**? If "Yes," check all the fundraising programs you do or will conduct. (See instructions.) Yes No

- mail solicitations
- phone solicitations
- email solicitations
- accept donations on your website
- personal solicitations
- receive donations from another organization's website
- vehicle, boat, plane, or similar donations
- government grant solicitations
- foundation grant solicitations
- Other

Attach a description of each fundraising program.

b Do you or will you have written or oral contracts with any individuals or organizations to raise funds for you? If "Yes," describe these activities. Include all revenue and expenses from these activities and state who conducts them. Revenue and expenses should be provided for the time periods specified in Part IX, Financial Data. Also, attach a copy of any contracts or agreements. Yes No

c Do you or will you engage in fundraising activities for other organizations? If "Yes," describe these arrangements. Include a description of the organizations for which you raise funds and attach copies of all contracts or agreements. Yes No

d List all states and local jurisdictions in which you conduct fundraising. For each state or local jurisdiction listed, specify whether you fundraise for your own organization, you fundraise for another organization, or another organization fundraises for you.

e Do you or will you maintain separate accounts for any contributor under which the contributor has the right to advise on the use or distribution of funds? Answer "Yes" if the donor may provide advice on the types of investments, distributions from the types of investments, or the distribution from the donor's contribution account. If "Yes," describe this program, including the type of advice that may be provided and submit copies of any written materials provided to donors. Yes No

5 Are you **affiliated** with a governmental unit? If "Yes," explain. Yes No

6a Do you or will you engage in **economic development**? If "Yes," describe your program. Yes No

b Describe in full who benefits from your economic development activities and how the activities promote exempt purposes.

7a Do or will persons other than your employees or volunteers **develop** your facilities? If "Yes," describe each facility, the role of the developer, and any business or family relationship(s) between the developer and your officers, directors, or trustees. Yes No

b Do or will persons other than your employees or volunteers **manage** your activities or facilities? If "Yes," describe each activity and facility, the role of the manager, and any business or family relationship(s) between the manager and your officers, directors, or trustees. Yes No

c If there is a business or family relationship between any manager or developer and your officers, directors, or trustees, identify the individuals, explain the relationship, describe how contracts are negotiated at arm's length so that you pay no more than fair market value, and submit a copy of any contracts or other agreements.

8 Do you or will you enter into **joint ventures**, including partnerships or **limited liability companies** treated as partnerships, in which you share profits and losses with partners other than section 501(c)(3) organizations? If "Yes," describe the activities of these joint ventures in which you participate. Yes No

9a Are you applying for exemption as a childcare organization under section 501(k)? If "Yes," answer lines 9b through 9d. If "No," go to line 10. Yes No

b Do you provide child care so that parents or caretakers of children you care for can be **gainfully employed** (see instructions)? If "No," explain how you qualify as a childcare organization described in section 501(k). Yes No

c Of the children for whom you provide child care, are 85% or more of them cared for by you to enable their parents or caretakers to be gainfully employed (see instructions)? If "No," explain how you qualify as a childcare organization described in section 501(k). Yes No

d Are your services available to the general public? If "No," describe the specific group of people for whom your activities are available. Also, see the instructions and explain how you qualify as a childcare organization described in section 501(k). Yes No

10 Do you or will you publish, own, or have rights in music, literature, tapes, artworks, choreography, scientific discoveries, or other **intellectual property**? If "Yes," explain. Describe who owns or will own any copyrights, patents, or trademarks, whether fees are or will be charged, how the fees are determined, and how any items are or will be produced, distributed, and marketed. Yes No

Part VIII Your Specific Activities (Continued)

- 11** Do you or will you accept contributions of: real property; conservation easements; closely held securities; intellectual property such as patents, trademarks, and copyrights; works of music or art; licenses; royalties; automobiles, boats, planes, or other vehicles; or collectibles of any type? If "Yes," describe each type of contribution, any conditions imposed by the donor on the contribution, and any agreements with the donor regarding the contribution. Yes No
-
- 12a** Do you or will you operate in a **foreign country or countries**? If "Yes," answer lines 12b through 12d. If "No," go to line 13a. Yes No
- b** Name the foreign countries and regions within the countries in which you operate.
- c** Describe your operations in each country and region in which you operate.
- d** Describe how your operations in each country and region further your exempt purposes.
-
- 13a** Do you or will you make grants, loans, or other distributions to organization(s)? If "Yes," answer lines 13b through 13g. If "No," go to line 14a. Yes No
- b** Describe how your grants, loans, or other distributions to organizations further your exempt purposes.
- c** Do you have written contracts with each of these organizations? If "Yes," attach a copy of each contract. Yes No
- d** Identify each recipient organization and any **relationship** between you and the recipient organization.
- e** Describe the records you keep with respect to the grants, loans, or other distributions you make.
- f** Describe your selection process, including whether you do any of the following:
- (i)** Do you require an application form? If "Yes," attach a copy of the form. Yes No
- (ii)** Do you require a grant proposal? If "Yes," describe whether the grant proposal specifies your responsibilities and those of the grantee, obligates the grantee to use the grant funds only for the purposes for which the grant was made, provides for periodic written reports concerning the use of grant funds, requires a final written report and an accounting of how grant funds were used, and acknowledges your authority to withhold and/or recover grant funds in case such funds are, or appear to be, misused. Yes No
- g** Describe your procedures for oversight of distributions that assure you the resources are used to further your exempt purposes, including whether you require periodic and final reports on the use of resources.
-
- 14a** Do you or will you make grants, loans, or other distributions to foreign organizations? If "Yes," answer lines 14b through 14f. If "No," go to line 15. Yes No
- b** Provide the name of each foreign organization, the country and regions within a country in which each foreign organization operates, and describe any relationship you have with each foreign organization.
- c** Does any foreign organization listed in line 14b accept contributions earmarked for a specific country or specific organization? If "Yes," list all earmarked organizations or countries. Yes No
- d** Do your contributors know that you have ultimate authority to use contributions made to you at your discretion for purposes consistent with your exempt purposes? If "Yes," describe how you relay this information to contributors. Yes No
- e** Do you or will you make pre-grant inquiries about the recipient organization? If "Yes," describe these inquiries, including whether you inquire about the recipient's financial status, its tax-exempt status under the Internal Revenue Code, its ability to accomplish the purpose for which the resources are provided, and other relevant information. Yes No
- f** Do you or will you use any additional procedures to ensure that your distributions to foreign organizations are used in furtherance of your exempt purposes? If "Yes," describe these procedures, including site visits by your employees or compliance checks by impartial experts, to verify that grant funds are being used appropriately. Yes No

Part VIII Your Specific Activities (Continued)

- | | | | |
|-----------|--|--|---|
| 15 | Do you have a close connection with any organizations? If "Yes," explain. | <input checked="" type="checkbox"/> Yes | <input type="checkbox"/> No |
| 16 | Are you applying for exemption as a cooperative hospital service organization under section 501(e)? If "Yes," explain. | <input type="checkbox"/> Yes | <input checked="" type="checkbox"/> No |
| 17 | Are you applying for exemption as a cooperative service organization of operating educational organizations under section 501(f)? If "Yes," explain. | <input type="checkbox"/> Yes | <input checked="" type="checkbox"/> No |
| 18 | Are you applying for exemption as a charitable risk pool under section 501(n)? If "Yes," explain. | <input type="checkbox"/> Yes | <input checked="" type="checkbox"/> No |
| 19 | Do you or will you operate a school ? If "Yes," complete Schedule B. Answer "Yes," whether you operate a school as your main function or as a secondary activity. | <input checked="" type="checkbox"/> Yes | <input type="checkbox"/> No |
| 20 | Is your main function to provide hospital or medical care ? If "Yes," complete Schedule C. | <input type="checkbox"/> Yes | <input checked="" type="checkbox"/> No |
| 21 | Do you or will you provide low-income housing or housing for the elderly or handicapped ? If "Yes," complete Schedule F. | <input type="checkbox"/> Yes | <input checked="" type="checkbox"/> No |
| 22 | Do you or will you provide scholarships, fellowships, educational loans, or other educational grants to individuals, including grants for travel, study, or other similar purposes? If "Yes," complete Schedule H. | <input type="checkbox"/> Yes | <input checked="" type="checkbox"/> No |

Note: Private foundations may use Schedule H to request advance approval of individual grant procedures.

Part IX Financial Data

For purposes of this schedule, years in existence refer to completed tax years. If in existence 4 or more years, complete the schedule for the most recent 4 tax years. If in existence more than 1 year but less than 4 years, complete the statements for each year in existence and provide projections of your likely revenues and expenses based on a reasonable and good faith estimate of your future finances for a total of 3 years of financial information. If in existence less than 1 year, provide projections of your likely revenues and expenses for the current year and the 2 following years, based on a reasonable and good faith estimate of your future finances for a total of 3 years of financial information. (See instructions.)

A. Statement of Revenues and Expenses

| Type of revenue or expense | Current tax year | 3 prior tax years or 2 succeeding tax years | | | (e) Provide Total for (a) through (d) |
|---|--|---|---|---|---------------------------------------|
| | (a) From <u>1/1/12</u> To <u>11/30/12</u> | (b) From <u>7/1/14</u> To <u>6/30/15</u> | (c) From <u>1/1/15</u> To <u>6/30/16</u> | (d) From <u>7/1/16</u> To <u>6/30/17</u> | |
| 1 Gifts, grants, and contributions received (do not include unusual grants) | 0 | 150,000 | 150,000 | 150,000 | 450,000 |
| 2 Membership fees received | | | | | |
| 3 Gross investment income | | | | | |
| 4 Net unrelated business income | 0 | 300 | 400 | 500 | 1,200 |
| 5 Taxes levied for your benefit | | | | | |
| 6 Value of services or facilities furnished by a governmental unit without charge (not including the value of services generally furnished to the public without charge) | | | | | |
| 7 Any revenue not otherwise listed above or in lines 9-12 below (attach an itemized list) | | | | | |
| 8 Total of lines 1 through 7 | 0 | 150,300 | 150,400 | 150,500 | 451,200 |
| 9 Gross receipts from admissions, merchandise sold or services performed, or furnishing of facilities in any activity that is related to your exempt purposes (attach itemized list) | 0 | 1,586,844 | 1,712,164 | 2,028,421 | 5,327,429 |
| 10 Total of lines 8 and 9 | 0 | 1,737,144 | 1,862,564 | 2,178,921 | 5,778,629 |
| 11 Net gain or loss on sale of capital assets (attach schedule and see instructions) | | | | | |
| 12 Unusual grants | | | | | |
| 13 Total Revenue Add lines 10 through 12 | 0 | 1,737,144 | 1,862,564 | 2,178,921 | 5,778,629 |

| 16 | Total Liabilities (add lines 12 through 15) | 16 0 |
| Fund Balances or Net Assets | | |
| 17 | Total fund balances or net assets | 17 0 |
| 18 | Total Liabilities and Fund Balances or Net Assets (add lines 16 and 17) | 18 0 |
| 19 | Have there been any substantial changes in your assets or liabilities since the end of the period shown above? If "Yes," explain. | <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No |

Part X Public Charity Status

Part X is designed to classify you as an organization that is either a **private foundation** or a **public charity**. Public charity status is a more favorable tax status than private foundation status. If you are a private foundation, Part X is designed to further determine whether you are a **private operating foundation**. (See instructions.)

- 1a** Are you a private foundation? If "Yes," go to line 1b. If "No," go to line 5 and proceed as instructed. If you are unsure, see the instructions. Yes No
- b** As a private foundation, section 508(e) requires special provisions in your organizing document in addition to those that apply to all organizations described in section 501(c)(3). Check the box to confirm that your organizing document meets this requirement, whether by express provision or by reliance on operation of state law. Attach a statement that describes specifically where your organizing document meets this requirement, such as a reference to a particular article or section in your organizing document or by operation of state law. See the instructions, including Appendix B, for information about the special provisions that need to be contained in your organizing document. Go to line 2.
- 2** Are you a private operating foundation? To be a private operating foundation you must engage directly in the active conduct of charitable, religious, educational, and similar activities, as opposed to indirectly carrying out these activities by providing grants to individuals or other organizations. If "Yes," go to line 3. If "No," go to the signature section of Part XI. Yes No
- 3** Have you existed for one or more years? If "Yes," attach financial information showing that you are a private operating foundation; go to the signature section of Part XI. If "No," continue to line 4. Yes No
- 4** Have you attached either (1) an affidavit or opinion of counsel, (including a written affidavit or opinion from a certified public accountant or accounting firm with expertise regarding this tax law matter), that sets forth facts concerning your operations and support to demonstrate that you are likely to satisfy the requirements to be classified as a private operating foundation; or (2) a statement describing your proposed operations as a private operating foundation? Yes No
- 5** If you answered "No" to line 1a, indicate the type of public charity status you are requesting by checking one of the choices below. You may check only one box.
 The organization is not a private foundation because it is:
- a** 509(a)(1) and 170(b)(1)(A)(i)—a church or a convention or association of churches. Complete and attach Schedule A.
 - b** 509(a)(1) and 170(b)(1)(A)(ii)—a **school**. Complete and attach Schedule B.
 - c** 509(a)(1) and 170(b)(1)(A)(iii)—a **hospital**, a cooperative hospital service organization, or a medical research organization operated in conjunction with a hospital. Complete and attach Schedule C.
 - d** 509(a)(3)—an organization supporting either one or more organizations described in line 5a through c, f, g, or h or a publicly supported section 501(c)(4), (5), or (6) organization. Complete and attach Schedule D.

Part X Public Charity Status (Continued)

- e 509(a)(4)—an organization organized and operated exclusively for testing for public safety.
- f 509(a)(1) and 170(b)(1)(A)(iv)—an organization operated for the benefit of a college or university that is owned or operated by a governmental unit.
- g 509(a)(1) and 170(b)(1)(A)(vi)—an organization that receives a substantial part of its financial support in the form of contributions from publicly supported organizations, from a governmental unit, or from the general public.
- h 509(a)(2)—an organization that normally receives not more than one-third of its financial support from gross investment income and receives more than one-third of its financial support from contributions, membership fees, and gross receipts from activities related to its exempt functions (subject to certain exceptions).
- i A publicly supported organization, but unsure if it is described in 5g or 5h. The organization would like the IRS to decide the correct status.

6 If you checked box g, h, or i in question 5 above, you must request either an **advance** or a **definitive ruling** by selecting one of the boxes below. Refer to the instructions to determine which type of ruling you are eligible to receive.

- a **Request for Advance Ruling:** By checking this box and signing the consent, pursuant to section 6501(c)(4) of the Code you request an advance ruling and agree to extend the statute of limitations on the assessment of excise tax under section 4940 of the Code. The tax will apply only if you do not establish public support status at the end of the 5-year advance ruling period. The assessment period will be extended for the 5 advance ruling years to 8 years, 4 months, and 15 days beyond the end of the first year. You have the right to refuse or limit the extension to a mutually agreed-upon period of time or issue(s). Publication 1035, *Extending the Tax Assessment Period*, provides a more detailed explanation of your rights and the consequences of the choices you make. You may obtain Publication 1035 free of charge from the IRS web site at www.irs.gov or by calling toll-free 1-800-829-3676. Signing this consent will not deprive you of any appeal rights to which you would otherwise be entitled. If you decide not to extend the statute of limitations, you are not eligible for an advance ruling.

- b **Request for Definitive Ruling:** Check this box if you have completed one tax year of at least 8 full months and you are requesting a definitive ruling. To confirm your public support status, answer line 6b(i) if you checked box g in line 5 above. Answer line 6b(ii) if you checked box h in line 5 above. If you checked box i in line 5 above, answer both lines 6b(i) and (ii).
- (i) (a) Enter 2% of line 8, column (e) on Part IX-A, Statement of Revenues and Expenses. _____
- (b) Attach a list showing the name and amount contributed by each person, company, or organization whose gifts totaled more than the 2% amount. If the answer is "None," check this box.
- (ii) (a) For each year amounts are included on lines 1, 2, and 9 of Part IX-A, Statement of Revenues and Expenses, attach a list showing the name of and amount received from each **disqualified person**. If the answer is "None," check this box.
- (b) For each year amounts are included on line 9 of Part IX-A, Statement of Revenues and Expenses, attach a list showing the name of and amount received from each payer, other than a disqualified person, whose payments were more than the larger of (1) 1% of line 10, Part IX-A, Statement of Revenues and Expenses, or (2) \$5,000. If the answer is "None," check this box.

7 Did you receive any unusual grants during any of the years shown on Part IX-A, Statement of Revenues and Expenses? If "Yes," attach a list including the name of the contributor, the date and amount of the grant, a brief description of the grant, and explain why it is unusual. Yes No

Part XI User Fee Information

You must include a user fee payment with this application. It will not be processed without your paid user fee. If your average annual gross receipts have exceeded or will exceed \$10,000 annually over a 4-year period, you must submit payment of \$750. If your gross receipts have not exceeded or will not exceed \$10,000 annually over a 4-year period, the required user fee payment is \$300. See instructions for Part XI, for a definition of **gross receipts** over a 4-year period. Your check or money order must be made payable to the United States Treasury. User fees are subject to change. Check our website at www.irs.gov and type "User Fee" in the keyword box, or call Customer Account Services at 1-877-829-5500 for current information.

- 1 Have your annual gross receipts averaged or are they expected to average not more than \$10,000? Yes No
If "Yes," check the box on line 2 and enclose a user fee payment of \$300 (Subject to change—see above).
If "No," check the box on line 3 and enclose a user fee payment of \$750 (Subject to change—see above).
- 2 Check the box if you have enclosed the reduced user fee payment of \$300 (Subject to change).
- 3 Check the box if you have enclosed the user fee payment of \$750 (Subject to change).

I declare under the penalties of perjury that I am authorized to sign this application on behalf of the above organization and that I have examined this application, including the accompanying schedules and attachments, and to the best of my knowledge it is true, correct, and complete.

Schedule B. Schools, Colleges, and Universities

If you operate a school as an activity, complete Schedule B

Section I Operational Information

- 1a** Do you normally have a regularly scheduled curriculum, a regular faculty of qualified teachers, a regularly enrolled student body, and facilities where your educational activities are regularly carried on? If "No," do not complete the remainder of Schedule B. Yes No
- b** Is the primary function of your school the presentation of formal instruction? If "Yes," describe your school in terms of whether it is an elementary, secondary, college, technical, or other type of school. If "No," do not complete the remainder of Schedule B. Yes No
- 2a** Are you a public school because you are operated by a state or subdivision of a state? If "Yes," explain how you are operated by a state or subdivision of a state. Do not complete the remainder of Schedule B. Yes No
- b** Are you a public school because you are operated wholly or predominantly from government funds or property? If "Yes," explain how you are operated wholly or predominantly from government funds or property. Submit a copy of your funding agreement regarding government funding. Do not complete the remainder of Schedule B. Yes No
- 3** In what public school district, county, and state are you located?
- 4** Were you formed or substantially expanded at the time of public school desegregation in the above school district or county? Yes No
- 5** Has a state or federal administrative agency or judicial body ever determined that you are racially discriminatory? If "Yes," explain. Yes No
- 6** Has your right to receive financial aid or assistance from a governmental agency ever been revoked or suspended? If "Yes," explain. Yes No
- 7** Do you or will you contract with another organization to develop, build, market, or finance your facilities? If "Yes," explain how that entity is selected, explain how the terms of any contracts or other agreements are negotiated at arm's length, and explain how you determine that you will pay no more than fair market value for services. Yes No

Note. Make sure your answer is consistent with the information provided in Part VIII, line 7a.

- 8** Do you or will you manage your activities or facilities through your own employees or volunteers? If "No," attach a statement describing the activities that will be managed by others, the names of the persons or organizations that manage or will manage your activities or facilities, and how these managers were or will be selected. Also, submit copies of any contracts, proposed contracts, or other agreements regarding the provision of management services for your activities or facilities. Explain how the terms of any contracts or other agreements were or will be negotiated, and explain how you determine you will pay no more than fair market value for services. Yes No

Note. Answer "Yes" if you manage or intend to manage your programs through your own employees or by using volunteers. Answer "No" if you engage or intend to engage a separate organization or independent contractor. Make sure your answer is consistent with the information provided in Part VIII, line 7b.

Section II Establishment of Racially Nondiscriminatory Policy

Information required by Revenue Procedure 75-50.

- 1** Have you adopted a racially nondiscriminatory policy as to students in your organizing document, bylaws, or by resolution of your governing body? If "Yes," state where the policy can be found or supply a copy of the policy. If "No," you must adopt a nondiscriminatory policy as to students before submitting this application. See Publication 557. Yes No
- 2** Do your brochures, application forms, advertisements, and catalogues dealing with student admissions, programs, and scholarships contain a statement of your racially nondiscriminatory policy? Yes No
- a** If "Yes," attach a representative sample of each document.
- b** If "No," by checking the box to the right you agree that all future printed materials, including website content, will contain the required nondiscriminatory policy statement.
- 3** Have you published a notice of your nondiscriminatory policy in a newspaper of general circulation that serves all racial segments of the community? (See the instructions for specific requirements.) If "No," explain. Yes No
- 4** Does or will the organization (or any department or division within it) discriminate in any way on the basis of race with respect to admissions; use of facilities or exercise of student privileges; faculty or administrative staff; or scholarship or loan programs? If "Yes," for any of the above, explain fully. Yes No

Dr. Phillis Nichols.Anderson
Lighthouse Academies, Inc.
1661 Worcester Road, Suite 207
Framingham, MA 01701

Dear Dr. Nichols.Anderson:

The application for recognition of exemption on Form 1023 for Lighthouse Academies of Central Arkansas, Inc. was received by the Internal Revenue Service ("IRS") on January 14, 2013. Attached is confirmation of delivery. Yesterday, I confirmed with the IRS by telephone that the application was received in January 2013. The IRS said acknowledgement of the application will be sent within 7 to 14 days. On July 9, 2013, we also filed a request with the IRS to have the application expedited. To date, we have received no response to that request.

Please do not hesitate to contact me if you have any questions.

Very truly yours,

Russell Cox

STATE OF ARKANSAS

House of Representatives

August 2, 2013

Arkansas State Board of Education
4 Capitol Mall
Little Rock, Arkansas 72201

Dear Board Members,

I am writing to express my support for the expansion of Lighthouse Academies, Inc. in Arkansas to the North Little Rock area, and its mission to prepare students for college through a rigorous arts-infused program.

The arts are a powerful set of disciplines to use in the effort to narrow the gap between low socio-economic status students, who are not highly involved in the arts, and their higher socio-economic status peers. This arts-infused program has brought students, families, and communities together through a common sense of pride throughout other areas of our state.

Our state has developed standards for student achievement in arts education, but school districts are not required to provide instruction in the arts disciplines. Studies show that students with high levels of involvement in the arts improve their performance at school in many ways. The arts are also a means of reaching students not currently being reached, such as those at risk of not learning to their full potential.

Quality public charter schools, like the proposed Capitol City Lighthouse Charter, should be afforded the opportunity to expand to reach more children in need, and the district in which I serve. As a board member, you are in the unique position to craft policy, implement change, and fund schools that encourage administrators and educators to improve the quality and delivery of instruction. Please support this strong arts-infused education program.

Thank you for all that you do on behalf of the state of Arkansas.

Sincerely,

A handwritten signature in blue ink that reads "Eddie L. Armstrong".

Eddie L. Armstrong

It is with great pleasure that I write this letter of support for Capital City Lighthouse Charter application. The board of Capital City and the staff of Lighthouse Academy have already proven themselves to be an integral part of the Central Arkansas educational community and I wholeheartedly endorse their application to provide families in North Little Rock an additional education option.

As a business leader in this area, I feel it is very important for children and families to have quality educational choices. Lighthouse has provided those choices in Jacksonville, Pine Bluff and many other cities across the country. I am confident that their endeavor in North Little Rock will only serve to strengthen our community and help us to produce stronger scholars, more college graduates and ultimately better employees and business owners. I urge you to approve this application with the children and families of my community in mind.

Sincerely,

Shedrick Warren III

From: Dr. D.L. Richardson, Pastor
RE: Support

To Whom It May Concern:

I am honored to be afforded the opportunity to share a word of support for the great service your organization is doing in the community especially through higher education. I believe that higher education is one of the major pillars to success in this 21 century and your organization has been a proven advocate in this arena through your educational programs. As you invest in our young men and women through scholastic achievement, I am convinced that it succors in making a difference in their lives as well as the lives of others.

It's rewarding to know that there are organizations such as Capitol City Public Charter that offer a nurturing environment with highly effective teachers who are committed to sharing knowledge, skill, and values necessary for developing responsible citizenship in our young people.

Thank you for your commitment to life-long learning and I pray you will continue to be a visible and generous partner of advanced education.

In His Name,

D.L. Richardson, Ph.D.

William L. Robinson, Pastor

July 26, 2013

Arkansas Department of Education
State Board of Education
Four Capitol Mall
Little Rock, Arkansas 72201

To the Board of Education Members:

Greetings to you on this blessed day. I am writing to support the initiative of expansion to North Little Rock, Arkansas of the Capitol City Lighthouse Charter School. As an advocate, of all children should receive an above average education, this charter school will assist the regular schools through smaller class sizes and more intense teaching/study plans.

Not all children can learn appropriately using the same lesson plan so there should be options in place. After reviewing the materials that I received; this plan will help the student and parent prepare for the next level and not remain comfortable within their present group. Assessments and additional learning tools will help meet the student's individual learning standards.

The "LHA" Program will, if given the opportunity, be an asset to the educational programs already in place. Let's coordinate with the other schools and give them an opportunity to provide a fulfilled learning environment. If I may be of assistance to you, please call me immediately at (501) 375-3145.

Sincerely,

Pastor William L. Robinson

July 24, 2013

Arkansas State Board of Education
4 Capitol Mall
Little Rock, Arkansas 72201

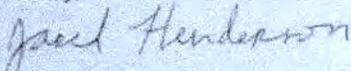

Dear Board Members,

I am writing to you to express my support for the expansion of Lighthouse Academies, Inc. in Arkansas to the Capitol City area.

Lighthouse Academy (LHA) schools in Jacksonville and Pine Bluff are doing a tremendous job meeting the needs of students and families in these communities. LHA provides a rigorous education to all students, with the ultimate goal of preparing each child for college and beyond. The expansion to the Capitol City should not only do the same for children in the North Little Rock area, but also provide more choice to parents and guardians in our community.

All in all, quality public charters such as Lighthouse Academies should be afforded the opportunity to expand to reach more children in this area of the state, and as a partner in this work, and as a citizen that has met Lighthouse school leaders and numerous Lighthouse teachers, I strongly support the expansion of this charter network.

Sincerely,

Jared K. Henderson

**OPEN-ENROLLMENT PUBLIC CHARTER SCHOOL
FACILITIES UTILIZATION AGREEMENT**

Lessor(Owner): Charter Facility Management AR LLC

Lessee(Tenant): Lighthouse Academies of Central AR, Inc.

Any information regarding affiliation, family ties, or other relationships between the Lessor (Owner) and Lessee (Tenant) must be disclosed with the facilities lease agreement.

Describe the present use of the facility:

The building is vacant. It was an office building.

Address of Premises: 1800 North Maple Street, North Little Rock, AR 72114

Square Footage: 30,256 square feet

Terms of Lease: 5 yrs, 3 5 yr renewal options, purchase option

Rental Amount: \$29,000 per month

Contingency: The terms of this agreement are contingent upon

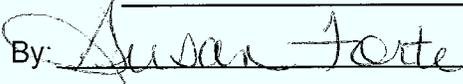

Lighthouse Academies of Central Arkansas, Inc.
Sponsoring Entity

receiving a charter to operate an open-enrollment public charter school approved by the authorizer by August of 2013

Statutory Language Concerning No Indebtedness:

No indebtedness of any kind incurred or created by the open-enrollment public charter school shall constitute an indebtedness of the State of Arkansas or its political subdivisions, and no indebtedness of the open-enrollment public charter school shall involve or be secured by the faith, credit, or taxing power of the state or its political subdivisions. An open-enrollment public charter school shall not incur any debt, including any lease, without the prior review and approval of the Commissioner of Education.

Lessee: Lighthouse Academies of Central AR, Inc.

By:  Date 8/27/13

Lessor: Charter Facility Management AR LLC

By:  Date 8/27/13

**2013 APPLICATION
OPEN-ENROLLMENT PUBLIC CHARTER SCHOOL
STATEMENT OF ASSURANCES**

The signature of the president of the board of directors of the proposed public charter school's sponsoring entity certifies that the following statements are and will be addressed through policies adopted by the sponsoring entity and policies to be adopted by the public charter school; and, if the application is approved, that the sponsoring entity, governing body, administration, and staff of the open-enrollment charter shall abide by them:

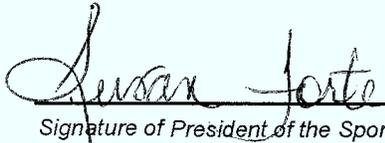

1. The information submitted in this application is true to the best of my knowledge and belief, and this application has been sent to the superintendent of all the districts from which we intend to draw students.
2. The open-enrollment public charter school shall be open to all students, on a space-available basis, and shall not discriminate in its admission policy on the basis of gender, national origin, race, ethnicity, religion, disability, or academic or athletic eligibility, except as follows: the open-enrollment public charter school may adopt admissions policies that are consistent with federal law, regulations, or guidelines applicable to charter schools. The charter may provide for the exclusion of a student who has been expelled from another public school district.
3. In accordance with federal and state laws, the open-enrollment public charter school hiring and retention policies of administrators, teachers, and other employees shall not discriminate on the basis of race, color, national origin, creed, sex, ethnicity, sexual orientation, mental or physical disability, age, ancestry, or special need.
4. The open-enrollment public charter school shall operate in accordance with federal laws and rules governing public schools; applicable provisions of the Arkansas Constitution; and state statutes or regulations governing public schools not waived by the approved charter.
5. The open-enrollment public charter school shall not use the moneys that it receives from the state for any sectarian program or activity, or as collateral for debt.

However, open-enrollment public charter schools may enter into lease-purchase agreements for school buildings built by private entities with facilities bonds exempt from federal taxes under 26 USCS 142(a) as allowed by Arkansas Code Annotated § 6-20-402. No indebtedness of an open-enrollment public charter school shall ever become a debt of the state of Arkansas.

6. The open-enrollment public charter school shall not impose taxes or charge students tuition or fees that would not be allowable charges in the public school districts.
7. The open-enrollment public charter school shall not be religious in its operations or programmatic offerings.

8. The open-enrollment public charter school shall ensure that any of its employees who qualify for membership in the Arkansas Teacher Retirement System or the State and Public School Employee Insurance Program shall be covered under those systems to the same extent a qualified employee of a traditional school district is covered.
9. The employees and volunteers of the open-enrollment public charter school are held immune from liability to the same extent as other public school district employees and volunteers under applicable state laws.
10. The open-enrollment public charter school shall be reviewed for its potential impact on the efforts of a public school district or public school districts to comply with court orders and statutory obligations to create and maintain a unitary system of desegregated public schools.
11. The open-enrollment public charter school shall comply with all health and safety laws, rules and regulations of the federal, state, county, region, or community that may apply to the facilities and school property.
12. The applicant confirms the understanding that certain provisions of state law shall not be waived. The open-enrollment public charter school is subject to any prohibition, restriction, or requirement imposed by Title 6 of the Arkansas Code Annotated and any rule and regulation approved by the State Board of Education under this title relating to:
 - (a) Monitoring compliance with Arkansas Code Annotated § 6-23-101 *et seq.* as determined by the Commissioner of the Department of Education;
 - (b) Conducting criminal background checks for employees;
 - (c) High school graduation requirements as established by the State Board of Education;
 - (d) Special education programs as provided by this title;
 - (e) Public school accountability under this title;
 - (f) Ethical guidelines and prohibitions as established by Arkansas Code Annotated § 6-24-101 *et seq.*, and any other controlling state or federal law regarding ethics or conflicts of interest; and
 - (g) Health and safety codes as established by the State Board of Education and local governmental entities.

13. The facilities of the public charter school shall comply with all requirements for accessibility for individuals with disabilities in accordance with the ADA and IDEA and all other state and federal laws.
14. Should the open-enrollment public charter school voluntarily or involuntarily close, the applicant confirms the understanding that any fees associated with the closing of the school including, but not limited to, removal of furniture, equipment, general expenses, etc., are the sole responsibility of the sponsoring entity. No indebtedness of any kind incurred or created by the open-enrollment public charter school shall constitute an indebtedness of the state or its political subdivisions, and no indebtedness of the open-enrollment public charter school shall involve or be secured by the faith, credit, or taxing power of the state or its political subdivisions. Upon dissolution of the open-enrollment public charter school or upon nonrenewal or revocation of the charter, all net assets of the open-enrollment public charter school, including any interest in real property, purchased with public funds shall be deemed the property of the state, unless otherwise specified in the charter of the open-enrollment public charter school. If the open-enrollment public charter school used state or federal funds to purchase or finance personal property, real property or fixtures for use by the open-enrollment public charter school, the authorizer may require that the property be sold. The state has a perfected priority security interest in the net proceeds from the sale or liquidation of the property to the extent of the public funds used in the purchase.

RE: Notification of Charter Authorizing Panel Decision
Young Adult Magic Johnson Bridgescape Academy of Crittenden County

Dear Ms. Wilson:

On November 21, 2013, the Charter Authorizing Panel concluded the hearing, that began on November 14, 2013, about the open-enrollment charter application for the Young Adult Magic Johnson Bridgescape Academy of Crittenden County. The panel denied the charter application. Ark. Code Ann. § 6-23-702(b)(2)(A) allows charter applicants and affected school districts to request that the State Board of Education review a final decision of the Charter Authorizing Panel. A request must state the specific reasons that the board should review the decision.

Ark. Code Ann. § 6-23-703(a) requires the State Board of Education to consider requests for review of Charter Authorizing Panel decisions at its next meeting after the decisions are made. Therefore, a review request must be submitted, via email, no later than 12:00 p.m. on Friday, November 22, 2013, in order for the request to be included on the State Board of Education agenda for the meeting on December 9, 2013. Email the request to ade.charterschools@arkansas.gov. Be advised that the decision of whether to review a Charter Authorizing Panel decision is discretionary. See Ark. Code Ann. § 6-23-702(b)(3).

If you have any questions, I may be reached by phone at (501) 683-5312 or by email at mary.perry@arkansas.gov.

Sincerely,

Mary Perry, Coordinator

Commissioner Tom Kimbrell
Arkansas Department of Education
Four Capitol Mall, Room 304-A
Little Rock, AR 72201

Re: Young Adult Magic Johnson Bridgescape Academy

Dear Dr. Kimbrell,

Sally Wilson has asked me to write this letter to answer a request for information. She told me that at your November 14th Charter School Authorizing Panel hearing, you asked her to contact Mid-South Community College and verify the availability of our secondary technical skills courses to future students at the proposed Young Adult Magic Johnson Bridgescape Academy in Sunset.

At present, our secondary center courses are made available to all area high school students in the county on a space available/appropriate placement basis. Consequently, providing that your Panel approves YAMJBA as a public high school and that there are appropriate slots available within the MSCC program, the answer is yes.

Sincerely,

A stylized, handwritten signature in black ink, appearing to read 'G. Fenter'.

Dr. Glen Fenter
President

Community Letter of Support for Young Adult Magic Johnson Bridgescape Academies

Submission Date: November 14, 2013

Dear Arkansas Department of Education, ADE

We wish to express our support for the charter school applications for the Young Adult Magic Johnson Bridgescape Academies of Crittenden County and Mississippi County as posted on the ADE website and on the sponsoring non-profit's website, www.ocbainc.com.

Our Arkansas Delta area has a significant population of young adults who are at risk or who have already dropped out of school. These underserved students deserve every opportunity we can provide them to re-engage them in high school, earn their diploma and receive the educational, social and technical skills necessary to be successful, productive members of our society. We believe that a Magic Johnson Bridgescape Academy would be of great benefit to the children, families and local community.

The Young Adult Magic Johnson Bridgescape Academies, which would enroll students up to age 22, is a blend of one-on-one and group instruction, infused with interactive online offerings specifically tailored for each individual student. According to their website, <http://magicjohnsonbridgescape.com/>, there are 17 Magic Johnson Bridgescape Academies, in 5 states. As with these academies, the local Academy will be staffed with on-site education teams to assist students in their daily studies using EdisonLearning's online *eCourses* providing much needed flexibility for the students. According to their website <http://edisonlearning.com/about-edisonlearning>, EdisonLearning has nearly 20 years of experience working in partnership with schools, districts and states across the United States to improve student outcomes in some of the most challenging urban and rural areas.

We believe that Magic Johnson Bridgescape Academy/EdisonLearning model has the vision, capacity and educational model necessary to successfully re-engage at-risk students and improve overall student outcomes in our neighborhood. The engagement of the community is a vital component and EdisonLearning would be committed to community partnerships and has existing partnerships that would lend themselves to additional supports and wrap-around services for our youth.

Please consider approving these schools. Sincerely,

Sen. David Burnett, Arkansas Senate
Rep. Ann Clemmer, Arkansas House
Rep. Monte Hodges, Arkansas House
Rep. Wes Wagner, Arkansas House
Ralph Wilson, Jr., Circuit Judge
Barbara Halsey, Circuit Judge
Lee Fergus, Circuit Judge
Fred Thorne, Crittenden Co District Judge
Kirby Massey, Mayor of Sunset
Dickie Kennemore, Mayor City of Osceola
James Sanders, Mayor of Blytheville
Ammi Tucker, Executive Director, Osceola /South Miss. County Chamber of Commerce
Lauren Isbell, Community/Development Officer, Southern Bancorp Community Partners
D.C. Barnes, District Supervisor, Juvenile Department, 2nd Judicial Division

Woody Wheeless, Crittenden County Judge
Scott Ellington, Prosecuting Attorney
Mike Allen, Crittenden County Sheriff
Gary Kelley, Marion Chief of Police
Dave Bradley, Workforce Investment Board
Sandra Brand, Osceola City Council
Sherry Holliman, Marion City Council
Tom Montgomery, Juvenile Public Defender
Brian Williams, Deputy Public Defender
Ken Kennemore, Miss County Quorum Court
Tamika Jenkins, Community Organizer

Importance: High

Hello Dave,

I am working with Sally Wilson and her team to get a charter school in Marion. It is the Magic Johnson Bridgescape Academy. The target group is youth and young adults who are high school drop outs or at-risk of dropping out of high school. I know that this school would be a great asset to our community and a great referral source for the local workforce centers and Title I programs. Please see the attached letter of support that we have developed. If you are in agreement and would like to offer your support, please respond to this email and we will add your name, title and company name to the letter.

Kingdom Blessings,

Anita Adams

2013-2014 Application Cycle

Young Adult Magic Johnson Bridgescape Academy of Crittenden County

Summary

Young Adult Magic Johnson Bridgescape Academy of Crittenden County Charter School

| | |
|---------------------------------------|--|
| Grade Level(s): | 9-12 |
| Student Enrollment Cap: | 250 |
| Name of the Sponsoring Entity: | Osceola Communication, Business and Arts, Inc. |
| IRS Status | 501(c)(3) Non-Profit Status |
| Address: | 383 Highway 77 North Sunset, AR, 72364 |

Mission Statement

The Charter School will implement the Magic Johnson Bridgescape model, a specialized program focused on dropout prevention and recovery for students in grades 9-12 who have dropped out of school or who are at-risk of dropping out of school. The mission of Magic Johnson Bridgescape is to provide an alternative graduation path for those who are at risk through dropout intervention services that include a self-paced quality education in a personalized environment with a focus on successful postsecondary transitions. The program is grounded in the belief that every student, given the right tools, support and environment, is capable of exceeding their expectations. This vision is incorporated in a program that is student-focused and providing individuals an opportunity to earn a high school diploma in an environment that their schedule, life circumstances and learning needs.

The Magic Johnson Bridgescape model provides a student-centered, blended learning, community-integrated model which creates a positive and safe learning environment focused on improving attendance and student achievement. Through a strategic alliance with Magic Johnson Enterprises, Magic Johnson Bridgescape draws on EdisonLearning's nearly twenty year history of school improvement success and educational innovation and the proven track record, passion, and leadership of Magic Johnson Enterprises to address the specific needs of students who are at-risk of not graduating or who have already dropped out of school.

Information on the School District in Which the Charter Would Be Located

Marion School District

60.66% free and reduced-price lunch (2012-2013)

Needs Improvement District (ESEA 2012) – Graduation Rate and Mathematics

Issues that Remain Unresolved as Determined by the Charter Internal Review Committee

- Low expectations and goals for a student population that needs accelerated learning
- Lack of clarity as to if Edison's eCourses are have already been aligned to the Arkansas Curriculum Frameworks or will be aligned to the frameworks
- The basic principles of ALE would need to be restructured to implement the program as proposed
- The ability to meet the needs of gifted and talented students
- The use of a Home Language Survey as an assessment at the time of enrollment to provide information on the language proficiency of English language learners
- Requiring a family income form or National School Lunch Program form for enrollment
- The lack of an explanation about the method for determining management fees

- At least half of the sponsoring entity board being comprised of individuals with the same last name
- The lack of the following units of study from the proposed course provider: oral communication, journalism, art, instrumental music, vocal music, 9 units of career and technical courses, advanced placement courses
- No clear explanation of the maximum number of students per teacher
- No content knowledge required for teachers

Documentation Provided in Support of the Charter

Petitions (available for review)

137 signatures

Requested Waivers

Note from legal staff:

The Charter Authorizing Panel should examine each waiver requested by the applicant. Particular attention should be paid to the following waiver requests which traditionally have either not been granted or have warranted additional discussion by the authorizer:

- **Ark. Code Ann. § 6-15-213 Arkansas Smart Core Incentive Funding Program**
 - The applicant requests a waiver of offering the required 38 units. This statute is not applicable to the 38 units and waiver of the statute does not appear to be necessary.
- **Standards for Accreditation 9.03.4 38 Units of Credit**
 - Traditionally, this waiver has only been granted as charters phase in grades (i.e., the charter will offer all 38 units by the time it has its first 12th grade class) or when the charter will still meet the content requirements of all 38 courses through embedded courses.
- **Standards for Accreditation 10.02 Class Size and Teaching Load**
 - The applicant indicates that the overall teacher to student ratio will be 1:13. If this is the maximum ratio, no waiver is needed. If some classes will have a class size which exceeds the maximum allowed in this standard, the maximum class size should be disclosed.
- **Standards for Accreditation 14.03 Clock Hours for Unit of Credit**
 - The Panel lacks the authority to grant a waiver of graduation requirements. However, in the past the authorizer has granted a waiver of the 120 clock hour requirement upon satisfaction that the charter will adhere to full curriculum alignment with Arkansas Frameworks.

From Ark. Code Ann.

ADE

Evaluation and

Applicant

Responses

Young Adult Magic Johnson Bridgescape Academy of Crittenden County
Sunset, Arkansas

YOUNG ADULT MAGIC JOHNSON BRIDGESCAPE ACADEMY OF CRITTENDEN COUNTY

| | |
|-------------------------------------|--|
| Sponsoring Entity: | Osceola Communication, Business, and Arts, Inc. (OCBA) |
| IRS Status: | Recognized non-profit entity |
| Grade Levels: | 9-12 |
| Student Enrollment Cap: | 250 |
| Address of Proposed Charter: | 383 Highway 77 North, Sunset, AR 72364 |

PRE-APPLICATION MATERIALS

The Arkansas Department of Education requires that all applicants submit a Letter of Intent, outlining a general description of the proposed charter school.

Evaluation Criteria:

A response that meets the standard will guarantee that:

- A Letter of Intent was filed with Arkansas Department of Education on time and included all the necessary information.

Meets the Standard

PART B EXECUTIVE SUMMARY

The Arkansas Department of Education requires all applicants to include an executive summary.

Evaluation Criteria:

A response that meets the standard will present:

- A mission statement (with content to be evaluated for Prompt #3 of Part C); and
- The key programmatic features of the proposed charter school.

Meets the Standard

C-1 PUBLIC HEARING RESULTS

All proposed school design teams must conduct a public hearing before applying for an open-enrollment charter school, to assess support for the school's establishment. Applicants are asked both to document the logistics of the hearing and to include a narrative of the hearing results.

Evaluation Criteria:

A response that meets the standard will present:

- A thorough description of the results of the public hearing;
- Evidence of public support exhibited at the hearing;
- Documentation of required notices published to garner public attention to the hearing; and
 - Published on a weekly basis for at least three consecutive weeks prior to the date of the hearing in a newspaper having general circulation in the school district in which the school will likely be located
 - The notice of the public hearing was not published in the classified or legal notice section of the newspaper.
 - The last publication date of the notice was no less than seven days prior to the public meeting.
- Documentation of required notices of the public hearing to superintendents of districts from which the proposed school is likely to draw students and to superintendents of districts that are contiguous to the district in which the charter school would be located
 - Within seven calendar days following the first publication.

Meets the Standard

C-2 GOVERNING STRUCTURE

The Governing Structure section should explain how the school will be governed. It should present a clear picture of the school's governance processes and composition, what responsibilities various groups and people will have and the relationships among the groups.

Evaluation Criteria:

A response that meets the standard will present:

- Documentation of proper legal structure of the governing board and sponsoring entity;
- A comprehensive description of the planned relationship between the governing board of the school and governing board of the sponsoring entity;
- A clear description of the governing board's roles and responsibilities;
- Adequate policies and procedures for board operation, including board composition, member term length, and member selection;
- A clear, sensible delineation of roles and responsibilities in relation to governance and school management; and
- A reasonable plan for involving parents, staff, students and community in the decision-making of the school.

Partially Meets the Standard - MEETS THE STANDARD (BASED ON RESPONSE)

Concerns and Additional Questions:

- Explain how one becomes a member of OCBA and the role afforded to a member.

Membership to the non-profit corporation is open to the public and very inclusive. For at least two years, OCBA's website has had the following statement posted:

"You are invited to join our OCBA, Inc., non-profit organization. E-mail your name and address to ocbainc@yahoo.com. A membership packet will be sent to you. Please complete the form and return the membership information along with your \$50 annual dues to OCBA, Inc. According to the Corporation by-laws, the officers of OCBA, Inc. are elected by the Corporation members. *Announcing, the Corporation is waiving the dues the rest of the year."
(www.ocbainc.com/ocba-non-profit.html).

Specifically, the OCBA by-laws in Article III, also posted on the non-profit's website (www.ocbainc.com/ocba-bylaws.html), state the following on membership:

1. Any individual who subscribes to the purposes and basic policies of the Corporation may become a member of the Corporation subject only to compliance with the provisions of the Bylaws, application to the Corporation, approval by its Board and payment of the annual dues. Membership in the Corporation shall be available without regard to race, color, creed, sex or national origin.
2. Only the following persons may become a member of the Corporation.
 - a. Must reside in Arkansas or a state contiguous to Arkansas.
 - b. Must be 18 years or older.

Additionally, the attendees of Charter School's August 2013 Public Meeting for the Young Adult Magic Johnson Bridgescape were invited to join the non-profit. Slide 22 of the attached PowerPoint presentation includes this invitation.

- Explain if the Program Director and Director of Achievement will be employees of Edison. If they are Edison employees, explain why salaries are budgeted for the positions separate from management fees.

Both the Program Director and the Director of Achievement will be employees of EdisonLearning; however, since the Program Director and Director of Achievement will spend a significant amount of time onsite at the Young Adult Magic Johnson Bridgescape Academy, 1 FTE and 0.125 FTE respectively, their salaries are included in the school's proposed budget.

- Explain if the OCBA board will approve the student handbook as it is stated that the "school board" will approve the handbook, but "Board" is used in all other parts of this response.

The "school board", the "Board" and the "OCBA Board" are the same, and will approve the student handbook.

- Explain the ways in which parents, staff, and community will be involved in making decisions about the school.

All parents, staff, adult-age students and supportive citizens are encouraged to join the OCBA non-profit corporation. A local Advisory Committee of parents, staff, students and community volunteers will be appointed by the Program Director to support the Charter School and the Board. Though the group will not have governing power, the Board will consider suggestions from the Advisory Committee.

C-3 MISSION STATEMENT

The Mission Statement should be meaningful and indicate what the school intends to do, for whom, and to what degree.

Evaluation Criteria:

A response that meets the standard will present:

- A mission statement that is clear and succinct.

Meets the Standard

C-4 EDUCATIONAL NEED

The Educational Need section should explain the need for a charter school in the proposed location and the innovative educational option offered by the charter school.

Evaluation Criteria:

A response that meets the standard will present:

- A description of the educational need for the charter school substantiated with valid and reliable data, and
- A description of the innovations that would distinguish the charter from other schools.

Partially Meets the Standard - MEETS THE STANDARD (BASED ON RESPONSE)

Concerns and Additional Questions:

- Confirm the understanding that there may be reasons other than dropping out of school for ninth graders not to graduate.

Young Adult Magic Johnson Bridgescape Academy understands that there may be reasons other than dropping out of school for ninth graders not to graduate. The anticipated population is students who want to graduate but find the various obstacles that can interfere with academic progress overwhelming. This includes students who are falling behind or struggling with coursework, disengaging from learning in the traditional setting, working to support themselves or family members, gifted and talented, or pregnant or parenting.

- Describe the workforce solutions that will be provided by Magic Johnson Enterprises.

As described in the application, through the Young Adult Magic Johnson Bridgescape Academy, students

will have access to job readiness and mentorship resources to assist in career preparation and post-secondary planning. The program will partner with local businesses, civic organizations, and non-profits to create career platforms for students, providing workplace exposure and training and Magic Johnson Enterprises will leverage its other businesses and local partnerships to help identify internships and job opportunities for graduates.

Magic Johnson Enterprises has also developed a Career Development Rubric and a robust Career Exploration/Job Readiness course with a comprehensive and clearly defined scope and sequence. The course is comprised of 39 lessons. Below are some sample topics:

- Careers Available to Individuals with High School Diplomas
 - Careers Available to Individuals with Two-Year Associate Degrees
 - Careers Available to Individuals with Bachelor's Degrees
 - Education Level and Earning Potential
 - Which Industries Are Growing and Which Jobs Will Be Available When I Graduate
 - Essential Professional Skills: Teamwork and Interpersonal Interactions
 - Essential Professional Skills: Planning, Organizing, and Managing Multiple Priorities
 - Essential Personal Attributes: Responsibility and Reliability
 - Business Etiquette
- **Name the Arkansas businesses and social organizations that are partners with Magic Johnson Enterprises.**

At this time, Young Adult Magic Johnson Bridgescape Academy does not have any partnerships established with Arkansas business and social organizations; however, once approved the Academy will form partnerships with local businesses and organizations leveraging Magic Johnson Enterprises large network of community organizations and corporate relationships.

Magic Johnson Bridgescape has been successful in identifying the necessary community partners to create a network of external social agencies to provide the needed resources and services for the students. For example, in the metropolitan Columbus area, the Academy has partnered with the Youth Empowerment, Mothers Helping Mothers, Franklin County Children Services, the Ohio Department of Youth Services, Ohio Health, and the American Red Cross.

More recently, Magic Johnson launched a new organization, Friends of Magic, which is a network of individuals, foundations and companies whose mission is to provide Magic Johnson Bridgescape Academy students who are at risk or have dropped out the resources and assistance they need to not only graduate high school, but the opportunity to build their future through educational resources, internships and real world experiences. This organization was launched in Chicago to support the two Academies that opened in the fall.

Members of Friends of Magic reflect the unique business and community landscape of the surrounding area of the Magic Johnson Bridgescape Academy and are selected on a national level to support program expansion and awareness. The primary purpose of Friends of Magic is to serve as a community and business extension of the Magic Johnson Bridgescape Academy, provide vital resources to support the growth and expansion of Magic Johnson Bridgescape, ensure that each academy has the support it needs to enhance the success of every student and to support the individual career development path of each student through internship opportunities, mentoring, and educational field experiences.

- Explain the ways in which achievement of the guiding goals will be measured.

The guiding goals of the Young Adult Magic Johnson Bridgescape Academy will be measured through twice annual Quality Assurance reviews, which will be conducted by the OCBA Board and EdisonLearning to ensure fidelity to the program and to inform future program revisions in efforts towards continuous improvement of student performance and achievement.

These guiding goals are incorporated into the entire Young Adult Magic Johnson Bridgescape Academy program, including the life skills instruction, the core values instruction, the study skills instruction, the collaborative learning opportunities, and the advisory program.

- Name the community leaders who requested additional career and technical education.

The following community leaders have requested additional career and technical education opportunities:

- Crittenden County Judge Woody Wheelless requested high school business and career educational programming to align with the county's proposed business incubator program.
- Crittenden County Sheriff Mike Allen requested high school technical educational programming for juvenile and young adult inmates in his county jail.
- With announcement of the Big River Steel mill coming to South Mississippi County, the Osceola/South Mississippi County Chamber of Commerce Director Ammi Tucker expressed the need for as much high school level steel industry career training and education as possible. And Dr. Robert Gunter, Deputy Director of Career and Technical Education, Arkansas Department of Career Education, suggested that the school, if approved, apply for a model C&TE program in Steel Technology.

C-5 EDUCATIONAL PROGRAM

The Educational Program section should describe the educational foundation of the school and the teaching and learning strategies that will be employed.

Evaluation Criteria:

A response that meets the standard will present:

- A clear description of the proposed educational program, including but not limited to the foundational educational philosophy and curricular and instructional strategies to be employed;
- Specific reasons that the school would be viable; and
- A description of the length of school day and school year that meets minimum state requirements.

Partially Meets the Standard - MEETS THE STANDARD (BASED ON RESPONSE)

Concerns and Additional Questions:

- Confirm the understanding that every digital course must be offered from a provider approved by the Arkansas Department of Education and must meet or exceed curriculum standards and requirements established by the Arkansas State Board of Education in accordance with all laws, rules, and procedures promulgated to ensure access to quality digital learning content and online blended learning.

Young Adult Magic Johnson Bridgescape Academy understands that under current law every digital course must be offered from a provider approved by the Arkansas Department of Education and must meet or exceed curriculum standards and requirements established by the Arkansas State Board of Education in accordance with all laws, rules, and procedures promulgated to ensure access to quality digital learning content and online blended learning. As such, Young Adult Magic Johnson Bridgescape Academy's curriculum provider, EdisonLearning, will complete the Digital Learning Provider Application required by the Arkansas Department of Education pursuant to the Emergency Rules Governing the

Digital Learning Act of 2013, dated September 9, 2013.

- Provide the “Blended Learning Pedagogical Model for Magic Johnson Bridgescape Academies” and explain how the model will be used to meet the needs of the charter school students.

Attached please find the “Blended Learning Pedagogical Model for Magic Johnson Bridgescape Academies.” The Blended Learning Pedagogical model demonstrates the four different modes of blended learning (Foundational, Conceptual, Collaborative, and Personal) that may be utilized at the Young Adult Magic Johnson Bridgescape Academy to ensure students achieve academic success. Specifically, it describes the teacher actions and student actions necessary for each of these modes of learning, which may be employed by the instructional staff to meet the individual and group needs of students.

- Provide the projected amount of time each day that a student will be involved on online learning.

The amount of time a student spends each day working on the online coursework will depend on the student’s IGP and the student’s need for one-on-one or small group tutoring or other supplemental instruction. As indicated in the sample schedule, a student may spend during any session between 2 hours and 45 minutes to 3 hours and 30 minutes on the online coursework.

- Confirm that each student will attend one session per day.

Each student attending the Young Adult Magic Johnson Bridgescape Academy will attend one session per day.

- Explain if the sessions are four hours in length as is stated in the response and on the generic sample schedule or four and a half hours in length as is stated on the 2014-2015 calendar.

The sessions are four hours in length; the reference on the calendar was incorrect. The Young Adult Magic Johnson Bridgescape Academy proposes two four-hour sessions each day, an extended school year, and mastery- based learning opportunities to provide flexibility for students.

- Explain if student will be required to attend school during the summer.

Young Adult Magic Johnson Bridgescape Academy will operate on an extended school year, but at this time, the Academy does not plan to offer a traditional summer program.

- Provide the number of days in the summer term and the length of the school day during the summer term.

Not applicable.

C-6: ACADEMIC ACHIEVEMENT GOALS

The Academic Achievement Goals section should define the performance expectations for students and the school as whole.

Evaluation Criteria:

A response that meets the standard will present:

- Specific goals in:
 - Reading;
 - Reading Comprehension;
 - Mathematics; and
 - Mathematics Reasoning;

- Goals that are clear, measurable and data-driven;
- Goals on improving student achievement; and
- Valid and reliable assessment tools for measuring each of the defined goals.

Partially Meets the Standard

Concerns and Additional Questions:

- Explain how and when annual measurable objectives on state assessments will be met if an annual increase of 2% achieving proficiency, the established goal, occurs each year.

This goal based on the assumption that the Young Adult Magic Johnson Bridgescape Academy will meet the AMOs as required and in addition to meeting the AMOs, the Academy will increase the percentage of enrolled students demonstrating proficiency by 2% every year. If, however, the AMOs are not met after the first year of operation, then the goal would be adjusted as needed to meet the AMOs within the required timeline.

When determining baseline goals (achievement, graduation, attendance) for the population of students, it is necessary to understand that these students have become disengaged from the learning process and cannot be measured against traditional high school students.

- Explain when the school will expect to exceed state graduation rates if the goal is an increase in graduation rates of 2% per year.

Based on EdisonLearning's experience with similar charter schools focused on dropout prevention and recovery and implementing the Magic Johnson Bridgescape model, for the first baseline year, a graduation rate of approximately 60% should be expected. Each year thereafter this graduation increases due to the increased capacity of the staff and the increased academic momentum of students. For example, as students progress through the academic program, they begin to understand how attendance and focus impacts their progress in earning credits and making graduation an achievable goal. Based on this 2% goal, the Young Adult Magic Johnson Bridgescape Academy should exceed state graduation rates in approximately 10 years or the 2024-25 school year; however, based on the factors described above the increase may accelerate faster than 2% annually.

- Confirm the understanding that with a goal of 55% attendance and a 2% increase in attendance each year, the charter will have a 75% attendance rate in 2024-2025.

Young Adult Magic Johnson Bridgescape Academy understands that with a goal of 55% attendance and a 2% increase in attendance each year, the school will have a 75% attendance rate in 2024-2025. Young Adult Magic Johnson Bridgescape Academy will work with our students to ensure they understand that it is their commitment to be in attendance and use their time wisely. The program has developed a daily, weekly, and monthly goals and progress tracker that assists students in accurately projecting course completion dates and ultimately graduation timeline.

- Explain the meaning of the following, "In addition to the state assessment required under law and State Board of Education regulations, within the Charter School student assessment and testing will be administered throughout the academic year in order to improve the instructional program at the Charter School; assess the progress of individual students in relation to standards; and assess the progress of the students within the curriculum."

In the Young Adult Magic Johnson Bridgescape Academy model, assessment is used to continually monitor student progress (e.g., whether they are understanding key concepts) and to inform instructional needs (e.g., if a students or group of students is not understanding a key concept, the teacher will organize one-on-one tutoring session or a small group instructional time). Within the online

coursework, students take daily assessments for each lessons and unit exams. Teachers use data from eSchoolware to pull reports on individual students to identify the need for intervention and remediation and then develop lessons to support that need. Additionally, students participate in ongoing assessment of Lexile growth.

- Provide the name of the diagnostic reading assessment to be administered to students upon enrollment at the charter.

Young Adult Magic Johnson Bridgescape Academy will use the Achieve3000 Level Placement Test to determine Lexile levels at the time of enrollment. Based on this determination, students are then placed in Achieve3000's online program and Lexile growth is tracked monthly to monitor growth.

- Provide the name of the reading assessment to be administered annually to measure growth. Achieve3000 is used annually measure growth.

- Provide the process used to determine that assessment items in Edison's eCourses correlate to Arkansas Curriculum Frameworks. Explain when this occurred and provide the names, affiliations, and credentials of those who made the determinations.

EdisonLearning's eCourses are aligned to the Arkansas Curriculum Framework through a two-step process. The first is a completed by teachers certified in the subject area they are assigned. The teachers are tasked with mapping each lesson and assessment item in the eCourses to a set of skills and standards called the Global Attribute List (GAL). The GAL was developed from several highly rated state standards lists and designed to be a core alignment tool for the eCourses content. After the content and assessments are mapped to the GAL, a partner company, EdGate Correlation Services, aligns the GAL skills to each of the fifty state standards and the Common Core State Standards. The advantage of this process is that the correlations are updated as any changes occur to the Arkansas State Standards and EdisonLearning receives a weekly data update of the correlations. This two step process ensures that the eCourses correlation to the Arkansas Curriculum Frameworks is both accurate and current.

- Explain what standards are referenced in the following, "...assess the progress of individual students in relation to standards..."

This reference refers to the Arkansas Curriculum Framework and/or Common Core State Standards, as applicable. EdisonLearning's online curriculum is structured based on a modular design with lessons limited to one or two standards based on objectives that are clear and attainable students maintain focus and motivation by accomplishing achievable goals in each lesson, a technique which has been shown to foster success in online learning. Each lesson is accompanied by an assessment that tests mastery of lesson content and includes a host of interactive multimedia features that support the diverse needs of students as well as reinforce key concepts in the curriculum.

Further, EdisonLearning's eSchoolware learning and content management system allows teachers and staff to review student results, grades, time-on-task, and incorporate notes on achievement of student goals. When students are identified as struggling within a content area they will be provided the individualized assistance needed to master the material and move on. Individual or small group instruction is driven by student needs as identified through progress monitoring and will be provided as needed, both formally and informally. Small group instruction will be provided not only to address remediation needs but also to provide enrichment, specifically in the area of character education to promote good citizenship and decision making skills as well as to develop core values that include compassion, integrity, justice, and responsibility.

- Remove the reference to meeting adequate yearly progress (AYP) as determinations of AYP no longer occurs in Arkansas.

As the Arkansas Department of Education has received a waiver from ESEA/NCLB by the United States Department of Education, all references to AYP are removed.

- Confirm the understanding, that during the first year of operation, the charter's annual measurable objectives (AMOs) will be based on the state AMOs, and that in following years, the charter's AMOs will be based upon the academic performance of the students who attend the charter.

Young Adult Magic Johnson Bridgescape Academy understand that during the first year of operation, the Academy's AMOs will be based on the state AMOs, and that in following years, the Academy's AMOs will be based upon the academic performance of the students who attend the Academy.

C7: CURRICULUM DEVELOPMENT AND ALIGNMENT

The Curriculum Development and Alignment section should define the process by which the design team developed (or chose) the curricular program of the school and illustrate alignment with Arkansas Curriculum Frameworks and Common Core State Standards.

Evaluation Criteria:

A response that meets the standard of a curricular development and alignment program will present:

- Evidence that the curriculum aligns with, or a sound plan and timeline for aligning the curriculum with, the Arkansas Department of Education's content standards, benchmarks and performance standards.
- Evidence that the applicant is prepared to implement the requirements and timeframe of the Common Core State Standards.

Partially Meets the Standard

Concerns and Additional Questions:

- Explain the inconsistency in the statement that Edison's "eCourses curriculum is fully-aligned to the Arkansas Curriculum Frameworks" and the statement that modifications can be made "to address changes in standards and any gaps in curriculum that do not currently meet standards."

EdisonLearning's eCourses are aligned to the Arkansas Curriculum Framework through a two-step process. The first is completed by teachers certified in the subject area they are assigned. The teachers are tasked with mapping each lesson and assessment item in the eCourses to a set of skills and standards called the Global Attribute List (GAL). The GAL was developed from several highly rated state standards lists and designed to be a core alignment tool for the eCourses content. After the content and assessments are mapped to the GAL, a partner company, EdGate Correlation Services, aligns the GAL skills to each of the fifty state standards and the Common Core State Standards. The advantage of this process is that the correlations are updated as any changes occur to the Arkansas State Standards and EdisonLearning receives a weekly data update of the correlations. This two step process ensures that the eCourses correlation to the Arkansas Curriculum Frameworks is both accurate and current.

Through the process described above, the eCourses content and assessments are comprehensively mapped to the Arkansas Curriculum Frameworks, but there are commonly state-specific skills that do not directly correlate to the existing "off-the-shelf" eCourses. To address these occurrences, the modular structure of the eCourses content allows for custom organizations of lessons to develop a

scope and sequence tightly aligned to the complete set of framework skills. Additionally, any gaps can be filled through new lesson development or through the modification of existing lessons to ensure that the requisite skills are covered and students are well served.

- Confirm the understanding that aligning ADE course codes with Edison’s eCourses does not ensure an alignment of content standards.

The Young Adult Magic Johnson Bridgescape Academy understands that aligning ADE course codes with EdisonLearning’s eCourses does not ensure an alignment of content standards.

Although EdisonLearning’s eCourses content and assessments are comprehensively mapped to the Arkansas Curriculum Frameworks, there are commonly state-specific skills that do not directly correlate to the existing "off-the-shelf" eCourses. To address these occurrences, the modular structure of the eCourses content allows for custom organizations of lessons to develop a scope and sequence tightly aligned to the complete set of framework skills. Additionally, any gaps can be filled through new lesson development or through the modification of existing lessons to ensure that the requisite skills are covered and students are well served.

- Explain how there is alignment between ADE course codes and Edison’s eCourses when a waiver is requested from the required 38 courses because, “The EdisonLearning curriculum does not have a Journalism course nor all of the arts courses...”

As described above, there is alignment between the eCourses offered by EdisonLearning and the Arkansas Curriculum Framework; however, EdisonLearning does not offer all of the required 38 courses. As such, a waiver has been requested from teaching the 38 courses.

C-8: STUDENT SERVICES

The Student Services section should describe how the school will address specific services for its student body.

Evaluation Criteria:

A response that meets the standard will describe the ways in which the following services will be provided to students even in those areas for which a waiver is requested:

- A guidance program that will serve all students;
- A health services program that will serve all students;
- A plan for a media center for use by all students;
- Sound plans for educating special education students that reflect the full range of programs and services required to provide such students with a high quality education;
- A transportation plan that will serve all **eligible** students;
- An alternative education plan for eligible students, including those determined to be at-risk and to offer access to one or more approved Alternative Learning Environments;
- A plan to serve students who are English language learners; and
- Plans for offering access to one or more approved Alternative Learning Environments; and
- Plans for a gifted and talented program for eligible students.

Partially Meets the Standard - MEETS THE STANDARD (BASED ON RESPONSE)

Concerns and Additional Questions:

Health Services

- Explain the ways in which daily responsibilities for student health issues will be handled and by whom.

As there will not be a licensed nurse on staff, the entire instructional and operational staff will be responsible for the safety and well-being of the students. Specifically, for the day-to-day student health issues, the Guidance Counselor and Office Manager will ensure that first aid supplies and station are onsite. Additionally, members of the staff will be trained in emergency procedures, including CPR. If any student health issue arises outside of the basic first aid needs, the student will be referred to the local health clinic. As such, the Guidance Counselor will work on forming partnerships with the local health clinic and any local health agencies. In any emergency situation, the local emergency agency will be called immediately.

Special Education Services

- Confirm the understanding that students who need special education services may enroll in the charter without an Individualized Educational Program (IEP) and that charter staff will have to ensure appropriate assessment and appropriate development of IEPs to meet all state and federal regulations.

Young Adult Magic Johnson Bridgescape Academy understanding that students who need special education services may enroll in the school without an Individualized IEP and that Academy staff will have to ensure appropriate assessment and appropriate development of IEPs to meet all state and federal regulations.

- Confirm that understanding that it cannot be predetermined that a student with an IEP will be served in the general program with accommodations and that the charter will be prepared to offer a full continuum of special education services to meet the needs of any student who may enroll.

Young Adult Magic Johnson Bridgescape Academy understands that it cannot be predetermined that a student with an IEP will be served in the general program with accommodations. The school will be prepared to offer a full continuum of special education services to meet the needs of any student who may enroll.

- Confirm that the charter will comply with Child Find.

Young Adult Magic Johnson Bridgescape Academy will comply with Child Find.

Transportation Services

- Confirm the understanding that transportation will be provided when a student's IEP indicates that transportation should be provided.

Young Adult Magic Johnson Bridgescape Academy understands that transportation will be provided when a student's IEP indicates that transportation should be provided.

Alternative Education Services

- Confirm the understanding that creating an ALE consortium and serving as the lead school will require additional information and approvals from the Arkansas Department of Education.

Young Adult Magic Johnson Bridgescape Academy understands that creating an ALE consortium and serving as the lead school will require additional information and approvals from the Arkansas Department of Education.

English Language Learner Services

- Provide the names of the assessments to be administered to English language learners.

At the time of enrollment in the Young Adult Magic Johnson Bridgescape Academy, a Home Language Survey will be administered.

- Explain the ways in which subject matter will be introduced so that it can be understood by ELL students.

In addition to the text-to-speech tools that include a Spanish translator and the English to Spanish and picture dictionaries within the online curriculum, the ELL Teacher working with the instructional staff will create anticipatory guides when introducing new subject matter so that key vocabulary is identified, support online curriculum with necessary intervention and remediation, and provide strategies to best support students' needs. Further, based on its extensive experience working with ELL populations, EdisonLearning has developed targeted and specific professional development to provide for instructional staff working with ELL students to share best practices and maximize student achievement.

- Explain who will provide teachers with information on the language proficiency of ELL students and the source of the information that will be provided.

The ELL teacher will provide the instructional staff information on the language proficiency of ELL students based on Home Language Survey, which is administered time of enrollment

Gifted and Talented Services

- Explain how gifted and talented students will be identified.

Young Adult Magic Johnson Bridgescape Academy requests a waiver on Gifted and Talented programming as this charter school is focused on dropout prevention and recovery; however, if the waiver is not granted, gifted and talented students will be identified through their IEPs, which are requested at the time of enrollment.

- Explain which teachers will serve gifted and talented students and describe specific training that the teachers will receive in meeting the needs of gifted and talented students.

If the waiver is not granted, all instructional staff will serve all students as the Magic Johnson Bridgescape model was developed to individualize educational plans and challenge students where they are. Students work with online curriculum which is self paced so that students capable of working at an accelerated pace can complete courses and earn credits more quickly than peers. Additionally, extended learning opportunities through collaborative projects and personal learning will enrich the learning experience for all students, including those identified as gifted and talented.

- Explain how the social and emotional needs of gifted and talented students will be met.

If the waiver is not granted, gifted and talented students will participate with their peers in learning opportunities designed to support their social and emotional needs. Through the Core Learning Skills instruction, students learn to identify new interpersonal skills acquired and practice those individually and with peers. Through the advisory program students participate in learning about themselves and their place in the world, problem solving, personal growth, and working as a member of a team.

- Confirm the understanding that gifted students can be at-risk of dropping out or former dropouts.

Young Adult Magic Johnson Bridgescape Academy understands that gifted students can be at-risk of dropping out or former dropouts. Gifted students are particularly at risk of not being challenged in school and thus become disengaged, may feel different and ostracized, or be bullied. For a variety of reasons, all kids are at risk of becoming disengaged with the learning process and environment.

C-9: GEOGRAPHICAL SERVICE AREA

The Geographical Service Area section must outline the impact of a new school opening within the current public education system.

Evaluation Criteria:

A response that meets the standard will present:

- The specific geographical area that would be served by the charter school; and
- Information on the school districts likely to be affected by charter school, including data on the expected number of students to transfer to the charter school.

Meets the Standard

C-10: ANNUAL PROGRESS REPORTS

The Annual Progress Reports section should define how the academic progress of individual students and the school as a whole will be measured, analyzed, and reported.

Evaluation Criteria:

A response that meets the standard will present:

- A timeline for data compilation and completion of an annual report to parents, the community and the Charter Authorizing Panel that outlines the school's progress; and
- A plan for dissemination of the annual report to appropriate stakeholders.

Meets the Standard

C-11: ENROLLMENT CRITERIA AND PROCEDURES

The Enrollment Criteria and Procedures section should describe how the school will attract and enroll its student body, including any criteria for admission and enrollment. Applicants must also provide assurances for a random, anonymous lottery selection process.

Evaluation Criteria:

A response that meets the standard will present:

- A student recruitment plan that will provide equal opportunity for all parents and students to learn about and apply to the school;
An enrollment and admissions process that is open, fair, and in accordance with applicable law; and
- A process for, and a guarantee of, a random, anonymous lottery process should there be more student applications than can be accommodated under the terms of the charter.

Partially Meets the Standard

Concerns and Additional Questions:

- Confirm that the school will be open-enrollment, that all Arkansas students are eligible to apply, and that the charter will accommodate any student who applies.

Young Adult Magic Johnson Bridgescape Academy will be an open-enrollment charter school. All Arkansas students are eligible to apply and the charter will accommodate any student who applies. Admission to the school will not be unlawfully restricted on the basis of intellectual ability, measures of achievement or aptitude, athletic ability, gender, disability, race, creed, national origin, religion, or any other ground that would be unlawful.

- Explain how students who do not have access to a computer will enroll if it is a requirement to enroll online.

If a student does not have access to a computer, a student may meet with the Enrollment Coordinator in-person or call an Enrollment Specialist. It is not a requirement that students enroll online, although students can also find information about the school and the enrollment process on the website. Students will have the opportunity to meet with an Enrollment Coordinator at events or at a designated site to learn more about the program and to complete the enrollment process. Students can also call an Enrollment Specialist at the Enrollment Contact Center in Knoxville, TN. The Enrollment Specialists are trained on program specifics and can provide information about the enrollment process and provide support for completion of the process.

- Explain what is meant by, “any other official documents needed to hand off the student's application to the school for review.”

The following chart details the documents needed for enrollment.

| Document or Policy Form | Required | Copy Document and Submit | Sign Policy Form, Copy and Submit |
|---|----------|--------------------------|-----------------------------------|
| Student Enrollment Agreement | X | | x |
| Request for Records | X | | x |
| Student Service Intake Form | X | | x |
| Image and Recording Release | X | | x |
| Home Language Survey | X | | x |
| FERPA Consent Form | X | | x |
| Family Income Form or NSLP form | X | | x |
| Student Birth Certificate or Triand | X | X | |
| Proof of Residency (Triand, utility bill, mortgage or lease that has current date and matches address given on enrollment application.) | X | X | |
| Student Immunization Record | X | X | |
| Current progress report, unofficial transcript, report card or Triand | X | X | |
| | | | |
| Required only if applicable to student: | | | |
| Copy of (unexpired) IEP (Individualized Education Plan) and Evaluation Report | | X | |
| Copy of (unexpired) 504 Accommodation Plan | | X | |
| Copy of guardianship/custodial papers | | X | |

- Explain the enrollment process that the “Charter School will hold” after receiving enrollment information.

The Enrollment Coordinator for the Young Adult Magic Johnson Bridgescape Academy will coordinate the enrollment of each student. The Enrollment Coordinator and/or Student Recruiters will be trained on how to enroll a student and will meet with the student at a central location to work through the enrollment process. Necessary documents like a student’s birth certificate will be obtained during the process and follow-up with each potential student will be made until their enrollment is completed and all required documents have been received.

In the event, the number of applications exceeds the number of available seats in the program, a lottery drawing will be held and students not drawn in the initial lottery will have their names placed on a waitlist. As openings in the program become available, students will be contacted by school staff regarding available spots.

Once all documents are received and the student is enrolled, the creation of the IGP will begin. This process is described in more detail in response to the following questions.

- Explain what academic assessment will be administered to new students to assess basic skills.

Upon enrollment in the school, students will take a reading assessment (Achieve 3000) in order to determine any skill gaps that may be barriers to success. Once identified, students will be prescribed a remediation track to address specific needs. In EdisonLearning’ experience working with this specific population of students, reading is the primary challenge and students basic reading skills improve, their success in eCourses improve.

- Explain the process for developing an individual graduation plan (IGP) and identify all who are involved in the development of the plan.

At Young Adult Magic Johnson Bridgescape Academy, differentiating program and instructional needs begins at the time of enrollment when students complete an initial assessment to determine any skill gaps that may be barriers to success. Once gaps are identified, students will be prescribed a reading and/or math remediation track to address specific needs. All historical data (*i.e.*, transcripts, IEPs, state assessment results) and any other available records and data will be reviewed by the teachers and staff who will collaborate with the student and parent or guardian (if available) to create the student’s IGP.

Teachers and staff will regularly monitor progress of their students according to the IGP on about a weekly basis and adjust any expectations or conduct conferences to determine interventions and remediation that may be needed to keep the student on track to graduate. The IGP is the roadmap that leads to a diploma and is intended to be a prescriptive yet fluid document, regularly revised and updated based on student progress and needs.

C-12: STAFFING PLAN

The Staffing Plan section should describe the job duties of the school director and other key personnel. This section should also describe the professional qualifications which will be required of employees.

Evaluation Criteria:

A response that meets the standard will present:

- A job description for the school director and other key personnel, including but not limited to an operations director, board members, teachers, etc.;
- An outline of the professional qualifications required for administrators, teachers,

counselors, etc.;

- A staffing plan that clearly outlines both the types and numbers of positions to be filled at the school and salary scales for such positions, and
- The staffing plan presented in this section matches the staff members noted in the budget.

Partially Meets the Standard

Concerns and Additional Questions:

- Explain how the positions of Program Director and Director of Achievement are regional positions. Describe the region served.

As mentioned above, the Program Director and the Director of Achievement are EdisonLearning employees. The Program Director will be a dedicated FTE for the Academy. The Director of Achievement will be a regional position serving more than one Academy (as indicated in the budget for the Young Adult Magic Johnson Bridgescape Academy, the Director of Achievement is 0.125 FTE). Whereas the Program Director is the instructional and operational leader of the Academy day-to-day, the Director of Achievement ensures fidelity to the Magic Johnson Bridgescape model with a focus on student achievement and success.

- Explain if the Program Director and Director of Achievement will be employees of Edison. If they are Edison employees, explain why salaries are budgeted for the positions separate from management fees.

Both the Program Director and the Director of Achievement will be employees of EdisonLearning; however, their salaries are itemized in the budget to help recognize the costs for personnel.

- Provide the qualifications that are required for the following positions:
 - Director of Achievement;
 - School Operations Manager;
 - Program Director;
 - Special education teacher (must be licensed in special education);
 - Paraprofessional;
 - Guidance counselor
 - Enrollment coordinator; and
 - Office manager.

Attached, please find the job descriptions, including qualifications, for the above mentioned positions.

- Provide the line in the budget that reflects the office manager position.

The Office Manager is included in the budget under Maintenance and Operation, line 74.

C-13: BUSINESS AND BUDGETING PLAN

The Business and Budgeting Plan section should describe how the charter school will organize its business office and manage its fiscal responsibilities.

Evaluation Criteria:

A response that meets the standard will present:

- An appropriate plan for managing procurement activities;
- A description of the personnel who will perform business duties, including the requisite qualifications of any proposed personnel;
- A realistic timeline and process by which the governance structure will review and adopt an annual budget;

- A balanced two-year budget estimate that accurately reflects the revenue currently available to the school and expenditures for program implementation and does not rely on one-time grants or other funds that are not presently guaranteed, and
- A budget that includes costs for all personnel, programs, and expenses described in other sections of the application.

Partially Meets the Standard

Concerns and Additional Questions:

- It is stated that the budget does not include funds that are not presently guaranteed, but revenue for Title I and IDEA are included in the budget. This revenue should be removed from the budget.

This revenue has been removed from the attached revised budget.

- Explain how the management fee of \$100,000 per year was determined.

The \$100,000 management fee was determined by OCBA, Inc. and EdisonLearning based on the following reasoning.

Typically, for the management of a charter school such as Young Adult Magic Johnson Bridgescape Academy, EdisonLearning charges a flat fee of \$250,000 per year. In developing the budget for the 2013 Application, it was clear that for Year 1 and Year 2, the revenue would not support this flat fee; therefore OCBA and EdisonLearning decided to reduce the management fee to \$100,000 with the understanding that once the Academy has been established, the management fee may be increased to the original amount.

- Explain how it is appropriate for budget in the charter application for the Young Adult Magic Johnson Bridgescape Academy of Mississippi County to be identical to budget included in this application.

It is appropriate that the budgets for the two Young Adult Magic Johnson Bridgescape Academies are identical as the applications propose the same program, the same population of students, the same staffing model, etc. It should be noted, however, that this is just a proposed budget and that based on certain factors (e.g., facility rental and staffing costs), the actual budgets may differ.

C-14: FINANCIAL AND PROGRAMMATIC AUDIT PLAN

The Financial and Programmatic Audit Plan section should provide the procedure and timeline by which an annual audit will be conducted. This section should also include an outline for the information that will need to be reported to ADE and the community.

Evaluation Criteria:

A response that meets the standard will present:

- A sound plan for annually auditing school's financial and programmatic operations. If the application names an accountant other than the Division of Legislative Audit to perform the first-year audit, the named accountant meets the requirements of Arkansas Department of Education Rules Governing Publicly Funded Educational Institution Audit Requirements and is not listed on any ineligibility list maintained by ADE or the Division of Legislative Audit.

Partially Meets the Standard - MEETS THE STANDARD (BASED ON RESPONSE)

Concerns and Additional Questions:

- Provide the procedures and timeline by which the annual audit will be conducted.

The annual audit will be scheduled each year by year's end (June 30th). If the charter for the Young Adult Magic Johnson Bridgescape Academy is approved, the school will utilize the Arkansas School Board

Association’s model policy program and adopt an audit plan policy similar to the Arkansas School Board Association’s Policy 1.18 School Audit. A draft of a model policy is included below:

1.18—SCHOOL AUDIT

The School’s annual audit serves as an important opportunity for the School’s Board to review the fiscal operations and health of the district. As such, it is vital Board members receive sufficient explanation of each audit report to enable the members to understand the report’s findings and help them better understand the school’s fiscal operations. The school shall have an audit conducted annually within the timelines prescribed by law. The audit shall be conducted by the Division of Legislative Audit or through the audit services of a private certified public accountant(s) approved by the Board.

The Board shall review each annual audit at the first regularly scheduled board meeting following the receipt of the audit if the District received the audit prior to ten (10) days before the regularly scheduled meeting. If the audit report is received less than ten (10) days prior to a regularly scheduled board meeting, the board may review the report at the next regularly scheduled board meeting following the ten (10) day period.

The Director of Achievement and/or Program Director shall present sufficient supporting background information relating to the report’s findings and recommendations which will enable the Board to direct the Director of Achievement or Program Director take appropriate action in the form of a motion or motions relating to each finding and recommendation contained in the audit report. Actions to be taken will be in sufficient detail to enable the Board to monitor the School’s progress in addressing substantial findings and recommendations and subsequently determine that they have been corrected. The minutes of the Board’s meeting shall document the review of the audit’s findings and recommendations along with any motions made by the Board or actions directed to be taken by the Director of Achievement or designee.

The Board of Directors is responsible for presenting the audit’s findings each year to the public.

Legal References: A.C.A. § 6-1-101(d)(1)(2)(3)
A.C.A. § 6-13-620(6)(F)

C-15: ARKANSAS PUBLIC SCHOOL COMPUTER NETWORK ASSURANCES

The Arkansas Public School Computer Network (APSCN) Assurances section should provide documentation of the applicant’s understanding of and participation in the required state finance and educational data reporting system.

Evaluation Criteria:

A response that meets the standard will present:

- Assurance that the charter school will participate in APSCN and will comply with all state statutory requirements regarding the APSCN finance and educational data reporting system.

Meets the Standard

C-16: FACILITIES

The Facilities section should identify and describe the facilities to be used by the school, any changes to be made to the facilities, and the owners of the facilities.

Evaluation Criteria:

A response that meets the standard will present:

- An identified facility appropriate to meet the needs of the school over the term of its charter;
- A realistic plan for remodeling or adapting a facility, if necessary, to ensure that it is appropriate and adequate for the school's program, the school's targeted population, and the public;
- Evidence that the school understands the costs of securing and improving a facility and has access to the necessary resources to fund the facility plan; and
- A sound plan for continued operation, maintenance, and repair of the facility.

For schools that will be using district-owned facilities, a response that meets the standard will present:

- Documentation that the school district and charter school officials are in agreement over the use of the facility and its equipment.

For schools that will NOT be using district-owned facilities, a response that meets the standard will present:

- Documentation that the property owner and school are in agreement over the use of the facility and its equipment;
- A statement of the facilities' compliance with applicable codes; and
- A detailed outline of any relationships between the property owner and:
 - Members of the local board of the public school district where the charter school will be located;
 - The employees of the public school district where the charter school will be located;
 - The sponsor of the charter school; and
 - Employees, directors and/or administrators of the charter school.

Partially Meets the Standard**Concerns and Additional Questions:**

- Confirm the understanding that the charter is responsible for all compliance with federal, state, and local facility laws and ordinances and that ADE does not inspect the facility.

Young Adult Magic Johnson Bridgescape Academy understands that it is responsible for compliance with all federal, state, and local facility laws and ordinances. Young Adult Magic Johnson Bridgescape Academy also understands that the ADE do not inspect the facility.

C-17: CONFLICTS OF INTEREST

The Conflicts of Interest section should identify any potential conflicts of interest among the individuals involved with the proposed charter school and explain how conflicts will be addressed.

Evaluation Criteria:

A response that meets the standard will present full disclosure of any potential conflicts of interest and explain how conflicts, if any, will be addressed.

Partially Meets the Standard**Concerns and Additional Questions:**

- Provide the names of all members of OCBA, Inc.

The names of all members of OCBA, Inc. are as follows: Tracy Adams, BJ Bowles, Beau Butler, Teresa Coburn, Ray Fulmer, Sharon Nesbitt, Don Wilson, Lance Wilson, Mary Ann Wilson, Miller Wilson, Ralph Wilson, and Sally Wilson.

- Explain the relationship between Anita Farley-Adams and Tracy Adams.

Anita Farley-Adams and Tracy Adams were previously married and are now divorced.

- **Explain the conflict of interest policy for school employees.**

If the charter for the Young Adult Magic Johnson Bridgescape Academy is approved, the Academy will utilize the Arkansas School Board Association’s model policy program and adopt an employee conflict of interest policy similar to the Arkansas School Board Association’s Policy 3.54 Licensed Personnel Ethics. Below is a draft of the model policy.

DRAFT 3.54—LICENSED PERSONNEL ETHICS

Public school employees are, and always have been, held to a high standard of behavior. Staff members are reminded that whether specific sorts of contacts are permitted or not specifically forbidden by policy, they will be held to a high standard of conduct in all their interactions with students and adults. Failure to create, enforce and maintain appropriate professional and interpersonal boundaries with students could adversely affect the school’s relationship with the community and jeopardize the employee’s employment with the district. The Arkansas Department of Education Rules Governing the Code of Ethics for Arkansas Educators requires school staff to maintain a professional relationship with each student, both in and outside the classroom. The Board of Education encourages all staff to read and become familiar with these rules. Conduct in violation of the Rules Governing the Code of Ethics for Arkansas Educators may be reported to the Professional License Standards Board (PLSB) and may form the basis for disciplinary action up to and including termination.

LEGAL COMMENT

Provide a copy of the conflict of interest policies for OCBA and Magic Johnson Bridgescape/Edison Learning. The procedures must ensure that all actions are in the best interest of the school and students at the school.

OCBA, Inc. approved a Conflict of Interest policy in 2007. This policy was included in the application package to the IRS when the tax-exempt non-profit status was awarded to OCBA, Inc. The Conflict of Interest policy is posted on the non-profit’s website, (www.ocbainc.com/uploads/6/7/3/8/6738253/bylaws__2011_2.pdf)(see pages 12-14). A copy of this policy is also attached.

Furthermore, if the charter for the Young Adult Magic Johnson Bridgescape is approved, the school will utilize the Arkansas School Board Association’s model policy program and adopt a Board Conflict of Interest policy similar to the Arkansas School Board Association’s Policy 1.17 Nepotism. A draft policy of the model policy is below.

All the actions of OCBA and EdisonLearning are in the best interest of the Academy and students at the Young Adult Magic Johnson Bridgescape Academy.

As OCBA’s management organization and curriculum provider, EdisonLearning will not have a separate conflict of interest policy, but will according to the management agreement, act in the best interest of the school and its students.

DRAFT 1.17—NEPOTISM

Definitions: Family or family member means: An individual’s spouse; Children of the individual or children of the individual’s spouse; The spouse of a child of the individual or the spouse of a child of the individual’s spouse; Parents of the individual or parents of the individual’s spouse;

Brothers and sisters of the individual or brothers and sisters of the individual's spouse; Anyone living or residing in the same residence or household with the individual or in the same residence or household with the individual's spouse; or Anyone acting or serving as an agent of the individual or acting or serving as an agent of the individual's spouse.

Initially employed means: Employed in either an interim or permanent position for the first time or following a severance in employment with the school; A change in the terms and conditions of an existing contract, excluding; Renewal of a teacher contract under A.C.A. § 6-17-1506; Renewal of a noncertified employee's contract that is required by law; or Movement of an employee on the salary schedule which does not require board action.

New Hire of School Board Member's Relative as School Employee

The school shall not initially employ a present board member's family member for compensation in excess of \$5,000 unless the district has received approval from the Commissioner of the Department of Education. The employment of a present board member's family member shall only be made in unusual and limited circumstances. The authority to make the determination of what qualifies as "unusual and limited circumstances" rests with the Commissioner of the Department of Education whose approval is required before the employment contract is effective, valid, or enforceable.

Initial employment for a sum of less than \$5,000 per employment contract or, in the absence of an employment contract, calendar year does not come under the purview of this policy and is permitted.

The board member whose family member is proposed for an employment contract, regardless of the dollar amount of the contract, shall leave the meeting until the voting on the issue is concluded and the absent member shall not be counted as having voted.

Exception: Substitutes

Qualified family members of board members may be employed by the school as substitute teachers, substitute cafeteria workers, or substitute bus drivers for a period of time not to exceed thirty (30) days per fiscal year. A family member of a school board member having worked as a substitute for the school in the past does not "grandfather" the substitute. The 30 day maximum limit is applied in all cases.

Existing Employees Who Are Family Members of School Board Members—Raises, Promotions or Changes in Compensation

Any change in the terms or conditions of an employment contract including length of contract, a promotion, or a change in the employment status of a present board member's family member that would result in an increase in compensation of an amount that is equal to or greater than that provided for by law, and that is not part of a state mandated salary increase for the employee in question, must be approved by the Commissioner of the Department of Education before such changes in the employment status is effective, valid, or enforceable.

Qualifications for Running for School Board Member Unchanged

The employment status of a citizen's family member does not affect that citizen's ability to run for, and, if elected, serve the school board provided he/she meets all other statutory eligibility requirements.

Legal Reference: A.C.A. § 6-24-102, 105

C18: FOOD SERVICES

This section should describe how the school will address food services for its student body.

Evaluation Criteria:

A response that meets the standard will present:

- A food service plan that will serve all eligible students.
- A management plan that reflects a clear understanding of federal law and requirements if the charter school plans to participate in the National School Lunch program.

Partially Meets the Standard - MEETS THE STANDARD (BASED ON RESPONSE)

Concerns and Additional Questions:

- Confirm that the charter will follow federal procurement regulations 7 CFR 3016 and 3019 with regard to procurement of a food service vendor/management company using open and free competition.

Young Adult Magic Johnson Bridgescape Academy will follow federal procurement regulations 7 CFR 3016 and 3019 with regard to procurement of a food service vendor/management company using open and free competition.

- Confirm the understanding that the information provided is not a comprehensive food service management plan.

Young Adult Magic Johnson Bridgescape Academy understand that the information provided in the 2013 Application for Open Enrollment Charter School is not a comprehensive food service management plan.

- Remove the references to §20-7-124 and §20-7-135 as these statutes do not apply to food service management plans.

As §20-7-124 and §20-7-135 do not apply to food services management plans, these reference are removed.

- Explain how the charter will make provisions for food services and procure a food service management company.

After further research, it may be more practical for the Young Adult Magic Johnson Bridgescape Academy to contract with a food vendor who can provide meals that meet the meal pattern and caloric level requirements at a fixed price. The school will follow federal procurement regulations 7 CFR 3016 and 3019 with regard to procurement of a food service vendor using open and free competition. Plus, when selecting a vendor, the school will look at vendor menus and consider quality and price. The school will hire staff to handle the meals and will attend the all day Child Nutrition training in May. The salary for child nutrition staff and the line item for the food vendor are included in the attached, revised budget.

C19: PARENTAL INVOLVEMENT

The Parental Involvement section should describe how parents or guardians of enrolled students, the school employees, and other members of the community will make a positive impact on the school and its educational program.

Evaluation Criteria:

A response that meets the standard will present:

- A plan for involving parents and guardians in the school's education programs; and
- A proposal that involves the parents of students, employees and the broader community in carrying out the terms of the charter.

Partially Meets the Standard - MEETS THE STANDARD (BASED ON RESPONSE)

Concerns and Additional Questions:

- Explain the ways in which parents, staff, and community will be involved in making decisions about the school.

The attached draft Parent Involvement Action Plan outlines the involvement of parents, staff and community in the decision-making of the Young Adult Magic Johnson Bridgescape Academy.

Additionally, all parents, staff, adult-age students and supportive citizens are encouraged to join OCBA. Also a local Advisory Committee of parents, staff, students and community volunteers will be appointed by the Program Director to support the school and the OCBA Board. Though the group will not have governing power, the Board will consider suggestions from the Advisory Committee.

Finally, a policy similar to the draft included below will be adopted

PARENTAL INVOLVEMENT POLICY

Even though the Young Adult Magic Johnson Bridgescape Academy targets adult for enrollment, the school realizes that some underage students will be enrolled. That being the case, the school encourages parental involvement in all facets of the underage students' education. The following is brief summary of the school's Parental Involvement Plan. If you have any questions about these district goals, please contact (*name of parent coordinator*) , Program Director at (870) 555-5555. The School will foster effective parental involvement strategies and support partnerships among school, parents, and the community to improve student achievement. The School will provide coordination, assistance, and support necessary to assist schools in planning and implementing effective parental involvement. The School will build the capacity in each of its schools for strong parental involvement. The School will partner with parents to conduct ongoing evaluation of the content and effectiveness of parental involvement initiatives so as to increase parental participation. The School will involve parents in the joint development of the district Title I application under section 1112 (Arkansas Comprehensive School Improvement Plan).

- Describe the workforce solutions that will be provided by Magic Johnson Enterprises.

As described in the application, through the Young Adult Magic Johnson Bridgescape Academy, students will have access to job readiness and mentorship resources to assist in career preparation and post-secondary planning. The program will partner with local businesses, civic organizations, and non-profits to create career platforms for students, providing workplace exposure and training and Magic Johnson Enterprises will leverage its other businesses and local partnerships to help identify internships and job opportunities for graduates.

Magic Johnson Enterprises has also developed a Career Development Rubric and a robust Career Exploration/Job Readiness course with a comprehensive and clearly defined scope and sequence. The course is comprised of 39 lessons. Below are some sample topics:

- Careers Available to Individuals with High School Diplomas
- Careers Available to Individuals with Two-Year Associate Degrees
- Careers Available to Individuals with Bachelor’s Degrees
- Education Level and Earning Potential
- Which Industries Are Growing and Which Jobs Will Be Available When I Graduate
- Essential Professional Skills: Teamwork and Interpersonal Interactions
- Essential Professional Skills: Planning, Organizing, and Managing Multiple Priorities
- Essential Personal Attributes: Responsibility and Reliability
- Business Etiquette

• Name the businesses in Crittenden County that are partners with Magic Johnson Enterprises.

As mentioned above, at this time, Young Adult Magic Johnson Bridgescape Academy does not have any partnerships established with Crittenden County businesses and social organizations; however, once approved the Academy will form partnerships with local businesses and organizations leveraging Magic Johnson Enterprises large network of community organizations and corporate relationships.

Magic Johnson Bridgescape has been successful in identifying the necessary community partners to create a network of external social agencies to provide the needed resources and services for the students. For example, in the metropolitan Columbus area, the Academy has partnered with the Youth Empowerment, Mothers Helping Mothers, Franklin County Children Services, the Ohio Department of Youth Services, Ohio Health, and the American Red Cross.

More recently, Magic Johnson launched a new organization, Friends of Magic, which is a network of individuals, foundations and companies whose mission is to provide Magic Johnson Bridgescape Academy students who are at risk or have dropped out the resources and assistance they need to not only graduate high school, but the opportunity to build their future through educational resources, internships and real world experiences. This organization was launched in Chicago to support the two Academies that opened in the fall.

Members of Friends of Magic reflect the unique business and community landscape of the surrounding area of the Magic Johnson Bridgescape Academy and are selected on a national level to support program expansion and awareness. The primary purpose of Friends of Magic is to serve as a community and business extension of the Magic Johnson Bridgescape Academy, provide vital resources to support the growth and expansion of Magic Johnson Bridgescape, ensure that each academy has the support it needs to enhance the success of every student and to support the individual career development path of each student through internship opportunities, mentoring, and educational field experiences.

C-20: WAIVERS

The Waivers section should discuss all waivers requested from local or state law.

Evaluation Criteria:

A response that meets the standard will present:

- Each law, rule, and standard by title, number, and description for which a waiver is requested;
- A rationale for each waiver request; and
- An explanation of the way that each waiver would assist in implementing the educational program of the charter and/or fulfilling the charter’s mission.

Partially Meets the Standard - DOES NOT MEET THE STANDARD (BASED ON RESPONSE)

Concerns and Additional Questions:

Legal Comments

Generally:

Brief, but specific rationale other than “the school requests a waiver” for each waiver should be included.

Requested Waivers:

- **Ark. Code Ann. § 6-15-902(c)(3)(B) Weighted Concurrent Credit**
 - **The applicant should explain why a waiver from the ADE approval process for weighted credit for concurrent credit classes is necessary.**
 - Upon re-reviewing this statute, a waiver is not requested.
- **Ark. Code Ann. § 6-16-102 School Day Hours**
 - **The applicant should explain why this waiver is necessary including how many hours each student will attend each day and how the applicant intends to track attendance when students complete some coursework remotely.**
 - This waiver is necessary to implement the flexible, Magic Johnson Bridgescape model. This Academy is designed for students who have either at-risk of dropping out of school or who have dropped out already, so the model is built around providing flexibility to students while still engaging them in the learning process. There will be two four-hour sessions each day (a morning session and an afternoon session) and each student will attend one four-hour session each day at the brick and mortar facility, a blended learning environment where student will work on their online coursework and receive direct instruction from teachers. Only if a student has demonstrated engagement in the learning process can the student access the coursework outside of the brick & mortar facility and then only if they are also attending one session per school day. In other words, coursework completed remotely is not a substitute for coursework completed onsite. If necessary, attendance online can be tracked using EdisonLearning’s eSchoolware system which tracks log-ins and time on task.
- **Ark. Code Ann. § 6-18-211 Mandatory Attendance Grades 9-12**
 - **The applicant should explain how many hours each student will attend each day and how the applicant intends to track attendance.**
 - This waiver is necessary to implement the Magic Johnson Bridgescape model. Each student will attend one four-hour session each day. Attendance will be tracked based on actual physical attendance at the Young Adult Magic Johnson Bridgescape Academy.
- **Ark. Code Ann. § 6-18-223 and ADE Rules Governing Concurrent Credit**
 - **The applicant should explain why this waiver is necessary. The concurrent credit program is an optional program available to all public high schools that wish to participate. Schools who participate in the concurrent credit program are required to follow the ADE Rules Governing Concurrent College and High School Credit for Students Who Have Completed the Eighth Grade.**
 - Upon re-reviewing this statute, a waiver is not requested.
- **Ark. Code Ann. § 6-24-106 Administrators**
 - **The applicant should explain why this waiver is necessary. This statute deals with ethical obligations for administrators who have direct or indirect interests in transactions with the public educational entity employing him or her. Traditionally, ethical obligations are not waived.**
 - Upon re-reviewing this statute, a waiver is not requested.
- **Ark. Code Ann. § 6-47-406 Distance Learning**
 - **The applicant should explain why this waiver is necessary. This statute is a permissive statute**

for public schools to offer distance learning courses to private and home school students. The applicant is required to accept students for enrollment regardless of the district where the student resides. If the applicant is proposing an entirely virtual school, the application should reflect its virtual nature throughout.

- Upon re-reviewing this statute, a waiver is not requested. Young Adult Magic Johnson Bridgescape Academy is not a full-time virtual school, but rather a blended learning school where students work on online coursework and with direct instruction at a physical location with the teacher.

- **ADE Rules Governing Distance Learning**

- **The applicant should explain why this waiver is necessary.**
- Upon re-reviewing these rules and the emergency rules, a waiver is not requested. However, it should be noted that the Young Adult Magic Johnson Bridgescape offers online coursework in a blended learning environment, i.e., students complete their coursework onsite with supplemental direct instruction from a teacher on the campus.

- **38 Units**

- **The applicant should clarify whether the required 38 units will be offered.**
- The Young Adult Magic Johnson Bridgescape Academy requests to not teach the required 38 units annually. First, the courses that students are enrolled in will depend on their Individual Graduation Plan and the coursework that they have already completed. Second, EdisonLearning does not currently offer all 38 units; specifically EdisonLearning catalog does not currently offer the following courses: a full unit of oral communication, 1 unit journalism, 1 unit of art, 1 unit of instrumental music, 1 unit of vocal music, 9 units of Career and Technical Education or Advanced Placement core courses.

- **Standards for Accreditation 10.01.2 190 Days Teacher/Administrator Contracts**

- **The applicant should explain its staffing plan for part-time and adjunct teachers.**
- Upon re-reviewing this statute, a waiver is not requested.

- **Standards for Accreditation 10.02 Class Size and Teaching Load**

- **The applicant should explain its why this waiver is necessary. Typically, a waiver for class size and teaching load is only granted if the applicant proposes a specific alternative maximum teacher-student ratio.**
- Due to the flexible nature, individualized instructional path, and open classroom design of the Young Adult Magic Johnson Bridgescape Academy, one teacher may oversee more students that this standard allows. For example, some of the instructional staff may be overseeing the majority of students in the main learning lab, while other members of the instructional staff are providing individual or small group instruction. However, the overall teacher to student ratio proposed in the application is much lower than this 1:13 (7.75 instructional staff to 100 students)

- **Standards for Accreditation 14.03 Graduation Requirements**

- **The authorizer lacks authority to grant a waiver for graduation requirements.**
- Upon re-reviewing this statute, a waiver is not requested.

- **Standards for Accreditation 16.01.3 Guidance and Counseling**

- **The applicant should confirm that it will comply with all other statutes and rules governing guidance counseling other than assigning an appropriately certified counselor for every 450 students.**
- The Academy confirms that it will comply with all other statutes and rules covering guidance counseling other than assigning an appropriately certified counselor for every 450 students.

- **Standards for Accreditation 16.03.1 and 16.03.2 Health and Safety Services**

- **The applicant should explain why this waiver is necessary if it intends to provide a health services program through a contracted provider. The applicant did not budget any expenditures for health services.**
- The Academy requests the waiver of employing a licensed nurse. The school will provide daily health services through trained staff on-site, will have a health station on-site and budgeted for equipment in the attached proposed budget on Line 123. The school will utilize local or regional health agencies for health services required by ADE for high school students, such as vision screening and budgeted for the services in the attached proposed budget on Line 124.
- **Standards for Accreditation 21 Auxiliary Services**
 - **Based on the application, it does not appear this waiver is necessary.**
 - Unless required in a specific student's IEP, the Young Adult Magic Johnson Bridgescape Academy does not intend to offer transportation services.

Waivers Not Requested:

- **ADE Rules Governing the Superintendent Mentoring Program**
 - The applicant requested a waiver of Ark. Code Ann. § 6-17-427. In order to effectuate this waiver, the applicant must request a waiver of the accompanying rules.
 - As the Program Director will be the instructional and operational leader, a waiver is requested from these rules.
- **ADE Rules Governing Educator Licensure**
 - **It appears the applicant is requesting a waiver of teacher and administrator licensure. In order to effectuate this waiver, the applicant must request a waiver of these rules.**
 - A waiver is requested from the ADE Rules Governing Educator Licensure. But the Academy will use highly qualified teachers as determined by federal requirements.
- **Alternative Learning Environments**
 - **The applicant requested a waiver of Ark. Code Ann. § 6-48-101 et. seq. In order to effectuate this waiver, the applicant should also request a waiver of Ark. Code Ann. § 6-15-1005(b)(5) and Section 4.00 of the ADE Rules Governing the Distribution of Student Special Needs Funding.**
 - Upon re-reviewing this statute, a waiver is not requested for Ark. Code Ann. § 6-48-101 et. seq. and Ark. Code Ann. § 6-15-1005(b)(5). But the Academy requests waivers from following subsections in Section 4.00, ADE Rules Governing the Distribution of Student Special Needs Funding.
 - The Academy has already requested a waiver for Teacher licensure. Using the same rationale, the Academy also requests a waiver for 4.02.1.2 teacher licensure for ALE. The Academy will use highly qualified teachers in ALE as required by federal requirements.
 - The Academy has already requested a waiver for 10.02-Class size/teaching load in traditional classes. The Academy also requests a waiver for 4.02.1.4 Student/teacher ratio.
 - The Academy has already requested a waiver for Ark. Code Ann. § 6-16-102 School Day Hours School day. Along the same rationale, the Academy requests a waiver for the part of 4.03.3 that gives the formula for the ALE day as the number of hours taught in an eligible ALE each day "divided by 6 hours." We wish for the formula to be "divided by 4 hours".
 - The rule seems to limit ALE funding to courses taught only through direct instruction. If so, the Young Adult Magic Johnson Bridgescape Academy wishes to be able to fund our ALE students in our blended learning environment.
- **Gifted and Talented**
 - **The application requested a waiver of the Gifted and Talented Program Approval Standards**

and Section 18.0 of the Standards for Accreditation. In order to effectuate this waiver, the applicant should also request a waiver of Ark. Code Ann. § 6-42-101 et seq.

- To effectuate the waiver from Gifted and Talented Program Approval Standards, a waiver is requested from Ark. Code Ann. § 6-42-101 et seq.

- **Media Services**

- The applicant requested a waiver of Section 16.02 of the Standards for Accreditation. In order to effectuate a waiver of library media services, the applicant should request a waiver of Ark. Code Ann. § 6-25-103 and 104.
- To effectuate the waiver of Section 16.02 of the Standards for Accreditation, a waiver is requested from Ark. Code. Ann. § 6-25-103 and 104.

C-21: DESEGREGATION ASSURANCES

The Desegregation Assurances section should describe the applicant's understanding of applicable statutory and regulatory obligations to create and maintain a unitary system of desegregated public schools.

Evaluation Criteria:

A response that meets the standard will present:

- Assurance that the charter school will comply with all applicable federal and state statutory and regulatory requirements regarding the creation and maintenance of desegregated public schools; and
- An outline of the potential impact of the proposed charter school on those desegregation efforts already in place in affected public school districts.

Partially Meets the Standard - MEETS THE STANDARD (BASED ON RESPONSE)

Concerns and Additional Questions:

Legal Comments

The applicant should describe any desegregation obligations of the affected public school district(s) and how the applicant determined it will not impact any court order or statutory obligations.

There are no desegregation obligations in the affected public school district(s), therefore there will be no court order or statutory obligations.

C-22: SUSTAINABILITY OF THE PROGRAM

The Sustainability section should describe the applicants' plan to ensure continued success of the charter school over time.

Evaluation Criteria:

A response that meets the standard will present:

- The names, experience, and qualifications of the individuals responsible for the application; and
- The plan to ensure the sustainability of the charter in the future.

Partially Meets the Standard - MEETS THE STANDARD (BASED ON RESPONSE)

Concerns and Additional Questions:

- Provide details of the plan to ensure the sustainability of the charter in the future.

To ensure success for the Young Adult Magic Johnson Bridgescape Academy when others are in leadership roles, OCBA, Inc. is focusing its efforts and its partnership with EdisonLearning on two critical components: strong fiscal responsibility and increasing academic success. These two components will be negotiated in the management agreement to ensure that regardless of who is in the leadership role, the school is financially solvent and that students are continuing to excel and graduate from the Young Adult Magic Johnson Bridgescape Academy.

The OCBA Board will ultimately be responsible to ensure that the school is operationally and financially viable and as a result has spent significant time vetting its proposed educational partner and program. Both OCBA and EdisonLearning understand that building and sustaining a supportive relationship between the OCBA Board EdisonLearning's Program Director is imperative for the ongoing success of the school both financially and academically. Accordingly, several steps will be taken to ensure all parties work together to provide effective and sound leadership including well-defined and understood roles and responsibilities, a fair evaluation system, and clear policies. The roles and responsibilities will be clearly articulated in the final negotiated management agreement. Steps that have been or will be taken to ensure sustainability of the school include:

- Preparation of the OCBA Board
 - The Board understands that they are serving at-risk students and have a passion for providing alternative opportunities for students in their communities to earn a high school diploma.
 - The Board collectively has a shared vision of what educational success will mean for the school and the students. This will allow for consistent academic oversight of the school.
 - The Board will also be diligent with financial oversight.
- Capacity and Composition of the OCBA Board
 - The Board is established and has been serving the community for years.
 - The Board is composed of members with diverse perspectives with the skills, time and experience necessary to oversee a successful school.
 - The Board members are objective.
 - The Board members have connections to and a deep understanding of the community they are planning on serving.
- Governance Structure aligned with best practices
- Clear delineation of the authority and duties of the OCBA Board, Program Director, and EdisonLearning
- Regularly reporting to the OCBA Board by EdisonLearning
- Accurate and timely budget development and monitoring process
- Continuous evaluation by the OCBA Board of the services provided by EdisonLearning

REQUIRED ATTACHMENTS

- Provide the daily schedule with specific courses for the Young Adult Magic Johnson Bridgescape Academy of Crittenden County.

The daily schedule depends on the individual student's IGP and the courses that they need to graduate. Due to the flexible nature of the program, different students may be working on different courses at different times. Additionally, a student may choose to focus time on one course over another. Combining the IGP and the flexibility provided in the blended learning environment, each student is working on their own coursework at their own pace; however, the students progress and pace is monitored by the instructional staff who provide individual and group instruction as necessary and ensure students are effectively moving towards completing the courses outlined in their IGP.

In lieu of a daily schedule with specific courses, below are examples of how students may utilize their time at the Academy.

For example, on Tuesday during the eCourses: Core Content time designated in the sample schedule from 10:00 to 11:30 in the first session:

- Student A may work on American Literature (English 11) for the full hour and a half.
- Student B may work on Algebra 1 for a full hour, then for the last half hour working with the teacher and a small group of students on key algebra concepts.
- Student C may work half the time working on Biology and half the time working on Geometry.

OTHER

Provide copies of the following documents referenced in the application:

- Newspaper articles written by reporter of *The Evening Times*
- Signed attendance sheets from the public hearing
- The PowerPoint presentation used at the public hearing
- The agreement between OCBA and EdisonLearning for the Magic Johnson Bridgescape program

At this time, OCBA, Inc. and EdisonLearning have not entered into a formal agreement to establish the Young Adult Magic Johnson Bridgescape Academy. Upon approval of the charter by the Arkansas Department of Education, OCBA, Inc. and EdisonLearning will negotiate the management agreement. Attached is a sample agreement

- Graphs about shrinking graduating classes presented at public hearing
- A description of the Blended Learning Pedagogical Model for Magic Johnson Bridgescape Academies
- Samples of forms and policies pertaining to admission
- The purchasing and procurement policy
- The professional development plan
- The concurrent credit matrix- Since the school is requesting a waiver from being required to teach the 38 units, the waiver request involving the matrix for concurrent credit courses is withdraw and this matrix is no longer applicable.
- The EdisonLearning course catalog

ADDITIONAL ATTACHMENTS

- Parental Involvement Action Plan
- OCBA, Inc. Conflict of Interest Policy
- Revised Budget
- Job Descriptions

JOB DESCRIPTIONS

Director of Achievement

Role: Director of Achievement

Direct Reports: Program Directors

Job Summary:

The main responsibility of this position is managing the primary focus of student achievement in schools. The role also ensures excellence in service delivery of all EdisonLearning products by collaborating and partnering with district and charter school boards, driving consistently superior achievement gains and profitability within assigned sites. As required, this role will manage client relationships as well as the operational/financial/budgetary/legal management of the schools.

Main Responsibilities:

Achievement Management

- Monitor student achievement data to ensure students are performing highly
- Supervise, observe, evaluate and assess program managers and principals from an instruction, school culture and school operations perspective. This is done by visiting schools and attending leadership team meetings
- Work collaboratively with local district superintendents and assistant superintendents to leverage influence in supervision and evaluation of the principals in schools where the principal reports to the district.
- Formalize and execute customized professional development training modules specific to clientele and work closely with district officials to create a plan and set measurable goals for program implementation
- Support and monitor professional development plans of teachers
- Develop and annually adjust the school's support plans (mid-year for intensives); identify areas of focus and improvement for particular schools and codify how Edison will support schools to make improvements in these specific areas
- Develop, conduct and participate in all Edison Achievement Conferences (i.e. HQ Quarterly Meetings, Summer Institutes, Edison Leadership Development Academy, Instructional Leadership Conferences, Client Conferences)
- Prepare academic reports and attend board meetings in order to provide academic and financial updates on the sites. Ensure monthly academic and financial reports are submitted to headquarters. Prepare reports for specific school boards when requested
- Develop and facilitate regional principal & program managers meetings by putting together the agenda and providing professional development
- Attend regional meetings called by SVP Solutions in order to provide updates and keep the SVP Operations informed of developments within school achievement management

Client Relationship Management

- Work with schools and SVP Solutions to ensure that charters and all contracts, and client contracts are renewed as directed by the business
- Prepare reports for school boards when requested, keeping clients informed of academic and financial results in schools
- Attend school district meetings when requested, staying abreast of local issues and building relationships with client

Operations/ Financial/ Budgetary/ Legal Management

- Participate in HQ Meetings that supplement the monthly calls to build morale and school culture while developing short and long-term school plans
- Supervise and support principals' implementation of financial and operating activities,
- Proactively resolve school operational issues in conjunction with the School Operations Manager
- Maintain awareness of requirements dictated by teachers' unions for specific school districts (i.e. contractual requirements, process for grievances, school policies, etc.)
- Supervise principals' ongoing budget and financial planning processes to ensure revenue, enrollment and expense targets are met (Managed Schools only)

Key Relationships:

Internal: Supervises, observes, assesses and supports principals to effectively manage achievement in schools. Utilizes the Education Department for support when needed. Works with the Finance, Human Resources, Enrollment and Legal to support schools as needed.

External: Manages relationships with Edison's customers and constituency groups for their assigned sites (District Superintendents, District Boards, Charter Boards)

Key Behavioral Competencies:

- Demonstrated ability to collaborate with team members located across multiple geographies and organizational levels
- Strong written and oral communication skills, extensive experience building client relationships
- Demonstrates drive and commitment that inspires others to achieve results
- Anticipates and creatively addresses obstacles to achievement of goals
- Adept at dealing with changes in work schedules and assignments caused by developments the external environment
- Identifies and gains the support of key people by understanding and addressing their needs and concerns; builds strong working relationships; shares information and seeks input of others where appropriate
- Creates opportunities to bring teams and/or cross-functional teams together to collaborate on Edison initiatives

Requirements:

- Mastery level knowledge of Standards-Based Instruction and Assessment; knowledge and experience with what makes good school organizations, familiarity with state and federal standards
- Experience identifying good instruction, diagnosing problems and making effective recommendations in a school setting
- Familiarity with assessment methods and data analysis
- Administrative certification preferred
- Minimum 10 years experience in K-12 education
- Master's Degree
- Proficient in Microsoft Office (i.e. Outlook, Word, Excel, and Power Point)
- Candidate must live in the region in which he/she will work or relocate to that region

Preferences:

- Minimum 5 years experience as a building administrator (principal/assistant principal) or comparable educational supervisory position
- Demonstrated knowledge of budget management, finance, and operating procedures to support P & L of up to \$20 million

Program Director

Direct Reports: Teachers, Office Manager, Counselors, Paraprofessionals, Enrollment Coordinator

Job Summary:

The Program Director is responsible for providing the instructional, operational and administrative leadership necessary to ensure the success of the school including primary responsibility for achievement and financial performance. The Director is the overall leader of the school, with a dominant focus (estimated at 75% of time spent) on instructional leadership. The Director will be held accountable for the continuous improvement of the school and its staff and for increased student achievement.

Main Responsibilities:

Achievement Management

- Implement School Organizational Structure including culture, staffing, scheduling Ensure teachers receive appropriate and relevant training in curriculum, learning environment, and state requirements
- Implement and monitor student achievement (ecourse completions, consistent attendance rates, personal/social curriculum achievement, progress monitoring of individual graduation plans)
- Recruit, select and hire school staff (teachers and school-based support staff)
- Ensure effective implementation of student support systems
- Engage parents in a collaborative effort for implementing and planning of school programs (parent meetings)
- Complete and present the annual school progress report to EdisonLearning, district and/or charter board and school community
- Support and monitor PD plans of teachers and school support staff
- Supervise and evaluate staff to ensure quality instruction and student achievement

Financial Management

- Ensure revenue, enrollment and expense targets are met (profit and loss)
- Ensure facility and operational services are effective
- Steward of company assets

Relationship Management

- Build/maintain client relationships (i.e. Board leadership, superintendents, authorizers, community leadership, political leaders, etc.)
- Develop and maintain positive community and parent relationship

Compliance Management

- Oversee compliance to federal, state, local and contractual requirements

Facility Management

- Lead the day to day operations of the program to ensure students and teachers work in a environment that is safe, clean and conducive to learning.

Key Relationships:

Internal: Regional Vice President of Operations, Executive Director – Education Service Lead, Vice President of Center Operations and other EdisonLearning Support

External: EdisonLearning’s customers and constituency groups, Charter Boards and Districts, Parents

Key Behavioral Competencies:

- Uses different behaviors as necessary to achieve desired outcomes; able to amend own behavior to influence and gain acceptance
- Shift priorities to address changes in events or assigned goals
- Inspires groups of individuals to work together to achieve a common purpose; promotes a culture of open communication and respect
- Actively establishes and promotes best practices for EdisonLearning work processes and standards
- Analyzes reasons behind results, takes actions to address failures and seeks to improve outcomes
- Never accepts excuses for breaches of ethics, values or regulations and confronts potentially unethical behavior in others
- Develops and uses subtle strategies to influence others in order to achieve organization objectives; anticipates reactions and works hard to find common ground between stakeholders within opposing views
- Coaches employees and team members on ways to enhance their level of performance and develop their skills
- Encourages constructive feedback and a culture that provides opportunities for development. Attracts, assesses, develops, motivates and retains a diverse workforce that drives results
- Engages young adults in the learning process, promoting academic and life skill growth; provides a model for at-risk youth through EdisonLearning’s core values

Background:

- Master’s Degree in Curriculum and Instruction or Master’s Degree in a specialty area such as Secondary Education or Educational Administration & Supervision / Ed Leadership
- Minimum of 5 years teaching experience
- Minimum of 5 years experience in instructional leadership including at least two years as an assistant principal
- Administrative Certification
- Relevant experience with student population
- Knowledge of teacher evaluation and observation methods
- Knowledge of various instruction and teaching methodologies
- Excellent organizational, planning and implementation skills
- Proficiency in Microsoft Excel, PowerPoint, Word and Outlook

School Operations Manager

Reports to: Director of Achievement -**Direct Reports:** None

Primary Function:

Oversees operational performance at a cluster of Magic Johnson Bridgescape centers, through undertaking or managing, finance, administration and general school operations. The School Operations Manager is an EdisonLearning employee. This is a year round position which requires some travel.

Principal Duties and Responsibilities:

Center Operations

- Responsible for site level procurement of supplies, materials, equipment, and inventory management
- Local manager for Transportation, Facilities Maintenance, Security and other 3rd party service contracts, ensuring ongoing monitoring and implementation of contracts
- Work with enrollment coordinators and Enrollment Manager to track and manage student enrollment campaign budgets and assist in meeting enrollment targets
- Work with center personnel to maintain integrity and accuracy of Student Records, including maintenance and tracking of attendance and retention
- Work with center staff to manage reporting and data tracking for all Special Education programs
- Prepare reports on center operations and attend board meetings
- Respond to and resolve routine internal and external inquiries with students, parents, and employees

Financial Administration

- Develop the annual budget for each center, working with the Program Director and Controller
- Responsible for center level budget monitoring and management
- Review monthly financial reports and update monthly financial estimate templates
- Work with the board Treasurer and Controller to provide financial data and meet reporting deadlines
- Support board Treasurer with all Federal, State, Local grant applications and reporting
- Provide financial oversight including invoice approval
- Manage AP and payroll processes
- Assist in coordination with the board Treasurer and Controller, year-end audits as well as any center audits from State or Federal agencies

People Management/HR responsibilities

- Partner with the EdisonLearning Human Resources department to implement policies and procedures at centers (e.g., compensation; paid time off days; all aspects of recruitment - screening, state specific background checks, etc.)
- Oversee the processing of all new hire paperwork Responsible for maintenance of personnel files for all employees
- Responsible for tracking Teacher Certification status
- Lead in orientation of new hires
- Participate in Employee Relations issues with Program Directors and EdisonLearning Human Resources

Key Relationships

Internal: Center Staff (teachers, Program Directors, School Receptionist), all support functions within EdisonLearning (Finance, Human Resources, Site Services, etc.), Senior Directors of Achievement, Controller, and Alternative Education Solution leaders.

External: Charter Boards, Board Treasurer, State Department of Education, Third party-vendors, Community Leaders, and Parents.

Key Behavioral Competencies:

- Demonstrates persistence in overcoming and removing obstacles that impact goal achievement
- Understands the importance of confidentiality when dealing with sensitive information
- Demonstrates a drive, commitment and sense of urgency that inspires others to achieve results
- Implements and monitors relevant work procedures in line with defined internal and external standards
- Proactively approaches others with a view to engaging in dialogue and building strong working relationships
- Recognizes people who may be of critical importance to achievement of one's objectives and involves them to get their input
- Requests input from others to work towards a more effective outcome
- Holds employees/colleagues accountable for achieving results and publicly acknowledges effective performance
- Proven experience multitasking

Background:

- Demonstrated success in monitoring budgets of \$5 million to \$10 million
- Demonstrated success in managing contracts of up to \$500,000
- Experience in charter or educational arena a plus, particularly in educational administration and or grant tracking and reporting
- Previous exposure to staffing processes and general HR procedures
- Independently and effectively manage operations and facilities
- Knowledge of audit procedures
- Skilled in interpreting and managing Service Level Agreements and contracts for outsourced services
- Skilled in use of MS Excel or other financial and organizational modeling software
- Demonstrated ability to manage staff of up to 5-10 exempt and nonexempt employees
- BS in Business, Accounting or Finance

Enrollment Coordinator

Reports To: Program Director

Direct Reports: Not Applicable

Job Summary:

The Enrollment Coordinator leads implementation efforts for local student enrollment. The Enrollment Coordinator is required to give frequent presentations and build/maintain relationships on behalf of the program. Excellent presentation, communication and organizational skills are required. This position requires travel throughout a region to make presentations to civic groups, religious organizations, parents, students and other audiences identified through market research. The Enrollment Coordinator will lead teams of student and staff recruiters for promotion at school and community events. Knowledge of local school systems is desired. The Enrollment Coordinator will enroll students at each site, meeting with family and student to ensure a smooth transition to the program. This position will also be responsible for monitoring FTE counts and the ramp up activities to ensure appropriate and representative attendance during this critical time.

Main Responsibilities:

➤ **Administrative**

- Enroll students at each site, meeting with family and student to ensure a smooth transition to the program.
- Monitor FTE counts and the ramp up activities to ensure appropriate and representative attendance during this critical time.

➤ **Promotion**

- ≠ Lead and coordinate implementation of defined local recruitment and enrollment initiatives
- ≠ Proactively identify and develop opportunities to promote applicable enrollment efforts
- ≠ Cultivate interest in the program through dynamic involvement with local civic organizations, religious groups, community groups, and other relevant organizations and clubs
- ≠ Participate actively in local Chambers of Commerce, business, professional, and education organizations as determined through market research and administrative leads
- ≠ Build a database of contacts through local and regional involvement

➤ **Campaign Management**

- ≠ Prepare program of events and timetables for promotional events
- ≠ Recruit and supervise teams of Student Recruiters engaged in canvassing, attending school and community events, etc.
- ≠ Plan and manage for material needs at promotional events
- ≠ Provide operational updates and reports as needed

➤ **Professional Responsibilities**

- ≠ Learn the program design and product advantages
- ≠ Adhere to and enforce EdisonLearning and district policies and procedures
- ≠ Represent the program and the company in a positive and professional manner at all times
- ≠ Communicate with colleagues and supervisors on a regular basis and participate in internal meetings as scheduled

Key Relationships:

Internal: Program Director, VPES, and Charter Board Members.

External: Parents/Guardians, Students, Community Organizations

Key Behavioral Competencies:

- ≠ Excellent interpersonal and communication skills, and ability to converse comfortably with business, community, and education leaders at all levels
- ≠ Focus on details and accuracy
- ≠ Prioritize activities in a multi-task position
- ≠ Operate with a sense of urgency and accountability
- ≠ Meet deadlines
- ≠ Seek assistance when confronting obstacles to achievement of goals
- ≠ Ability to develop appropriate relationships with students in an alternative setting

Background:

- ≠ BA or BS in a relevant field
 - ≠ At least one year of relevant experience in sales, business development/marketing, or public relations
 - ≠ Strong written and verbal skills
 - ≠ Knowledge of regional social, political, and economic issues preferred
 - ≠ Knowledge of K-12 public education preferred
 - ≠ Ability to create multimedia presentations in PowerPoint required
 - ≠ Bilingual in English and Spanish preferred; may be required in specified regions
 - ≠ Must possess a local Driver's License and a clear driving record
 - ≠ Proficiency with Microsoft Excel, Word, Outlook, PowerPoint and internet applications required
 - ≠ Proficiency with multimedia communication tools, such as discussion boards, webinars, email, instant messaging, digital photography preferred
-

Teacher

Reports to: Program Director
Direct Reports: Not Applicable

Job Summary:

As a member of a teaching team, the teacher will be responsible for facilitating student learning in an instructional technology learning environment and supplementing computer-based instruction with direct instruction as needed. He or she uses a variety of instructional methodologies and curriculum resources to teach content and skills to students in small- or pull-out group instruction. The teacher regularly meets with students to advise and plan for students' individual learning plans, providing coaching and mentoring in an advisory capacity.

The teacher works as a team member to meet the needs of all students. Because building relationships is a critical component of this learning environment, the team works together to identify student needs that may be barriers to success. Teachers collaborate with team members to analyze different means of meeting student needs and communicates with students, parents, and other team members about student progress and plan for next steps.

Main Responsibilities:

- ≠ Implement EdisonLearning, school and district policies and procedures;
- ≠ Work closely with teachers and other colleagues to develop and build teaching skills;
- ≠ Collaborate with colleagues on curriculum, student needs and assessment;
- ≠ Contribute to a culture of professionalism among team members;
- ≠ Monitor academic progress of students in their coursework
- ≠ Monitor student progress towards graduation
- ≠ Maintain ongoing communication with parents, staff, and community;
- ≠ Become proficient in the use of computer based instruction and software;
- ≠ Manage the learning environment and coach students as an advisor and mentor;

Key Behavioral Competencies:

- ≠ Generally asks relevant and insightful questions to establish facts
- ≠ Seeks to understand key decision making issues and characteristics when guided by others
- ≠ Shows increasing understanding of EdisonLearning work processes and standards
- ≠ Thinks to ask questions about actions required to produce expected results
- ≠ Expresses interest in taking on varied projects and tasks to develop new skills in most situations
- ≠ Develops and maintains positive working relationships with co-workers by being punctual, collaborative, and maintaining a pleasant work attitude
- ≠ Shows that understands accepted professional conduct within the EdisonLearning environment by acting honestly and openly and responding positively to any feedback on professional conduct
- ≠ Establishes appropriate and supportive relationships with students

Background:

- ≠ Bachelor of Arts or Bachelor of Science degree required
- ≠ Appropriate teacher certification required
- ≠ Minimum of 2 years of teaching experience required
- ≠ Evidence of educational experiences after college (fellowships, summer study, or graduate course work to pursue greater depth in a subject area, specific instructional methodology, curriculum development, special education, technology, etc.) preferred
- ≠ Evidence of working knowledge and comfort level with instructional technology
- ≠ Experience working with student population in some capacity preferred

Guidance Counselor

Reports to: Program Director

Direct Reports: N/A

Job Summary:

The Counselor is a critical member of the Comprehensive Support Team, championing the behavioral, social/emotional and mental health needs of students in support of student achievement across the program. They take a leadership role in providing professional development within the school to create a solid understanding of the psychosocial development of students and the influences of family, community, and cultural differences on student achievement. They are a crucial voice in determining, planning and supporting the implementation of interventions, particularly related to the behavioral/social/emotional issues of students. Within this unique and alternative setting, it is critical that specific student needs be identified and met early on in an effort to provide students a support system that is often lacking outside of this environment.

Main Responsibilities:

- Provide leadership as a standing member of the Comprehensive Support Team;
- Provide leadership as a standing member of the Learning Team;
- Evaluate program wide behavioral data to identify trends and promote universal, small group and individual responses;
- Conduct small-group or 1:1 intervention/counseling at Tier II and Tier III, in response to needs identified by the Comprehensive Support Team and or Individual Education Plans (IEPs);
- Evaluate student progress specific to behavioral, emotional, and mental health concerns and the effects on academic progress;
- Participate in conducting functional behavior assessments and developing, implementing and monitoring behavioral intervention plans for students identified in need;
- Assist parents/guardians in effectively participating in their child's education and strengthening their parenting skills;
- Engage parents/guardians as partners on behalf of their children through phone, email, notes, conferences, home visits, etc., both directly and by supporting the efforts of classroom teachers;
- Form a consortium of service providers to deliver a wide variety of services to the school community based on identified program and student needs;
- Act as point of contact for outside organizations working with students and their families to ensure coordination of services to best meet students' needs;
- Work in collaboration with the office staff to produce reports in order to analyze attendance trends and ensure appropriate action is taken as needed;
- Work directly with individual teachers, house teams, and families to ensure the timely attendance of every child;
- Work in collaboration with the special education team to coordinate services and communication with parents of students with special needs;
- Lead the crisis response team for students in critical need (e.g. suicide ideation, self-harm, family crisis, homelessness, etc.)

Key Relationships:

Internal: Program Staff

External: Community outreach resources, local businesses for employment opportunities, social service organizations and outside service providers

Key Behavioral Competencies:

- Demonstrates a drive, commitment and sense of urgency that inspires others to achieve results
- Identifies, analyzes and discusses decision making alternatives with multiple stakeholders
- Resolves requests and complaints in a timely manner, demonstrating a high level of commitment to meeting requirements within policy and compliance guidelines
- Makes frequent and regular contact with clients to keep them informed and to learn of any new issues or challenges that can impact expected outcomes
- Works closely with direct client contacts to establish relationships, starting to establish credibility by demonstrating fairness, equity and consistency in transactions
- Recognizes people who may be of critical importance to achievement of one's objectives and involves them to get their input
- Uses considerable judgment and initiative to determine the approach or action to take in non-routine situations
- Shifts priorities to address changes in events or assigned goals
- Brings ideas for service delivery improvements to the attention of others and pursues these ideas through to resolution or completion
- Maintains a pleasant attitude being tactful and courteous with all program personnel, students and visitors
- Responds to information request in a cooperative, courteous, and timely manner
- Is attentive, patient and fair with students

Background:

- A Master's of Social Work or Master's in Counseling degree
- Appropriate state licensure
- Clinical experience with at-risk children
- Strong communication skills; ability to work collaboratively with teachers/staff
- Experience developing and managing community-based initiatives or school-business partnerships

Special Education Teacher

Reports to: Program Director

Direct Reports: N/A

Job Summary:

The Special Education Teacher is responsible for implementing and ensuring compliance to established policies, procedures and/or regulations; and addressing other duties and processes required to maintain the school's program of services. Responsibilities include, but are not limited to: providing student interventions and modifications to the academic program as needed; managing the school's special education programs and services; developing related goals, objectives and recommending policies; planning, implementing and working with staff in evaluating the special education programs and services; acting as a liaison with other district staff, serving as a resource of information regarding special education programs and services; and ensuring that procedures are appropriate in relation to policies required by state and federal regulatory requirements.

Main Responsibilities:

- ≠ Maintain educational records for students with disabilities (e.g., IEPs, evaluation reports, staffing forms, eligibility forms, meeting summary notes, IEP progress reports, etc.) across multiple sites in one city/region
- ≠ Ensure that all students with disabilities have a current IEP.
- ≠ Maintain all LEA special education profile data on IDEA Part B and Part C (if applicable) indicators for Department of Education State Performance Plan (SPP) reporting.
- ≠ Coordinate the provision of special education services and related services per the students' IEPs.
- ≠ Ensure that all IEPs adhere to least restrictive environment (LRE) and free appropriate public education (FAPE) guidelines as specified in IDEA regulations and state guidelines.
- ≠ Ensure that all initial referrals for special education services are completed within 60 days (calendar or school depending on state) from the date parental consent is obtained.
- ≠ Collaborate with regular education personnel on Response to Intervention/Comprehensive Student Services initiatives.
- ≠ Provide school leadership team regularly with the following: reports on issues regarding special education services, progress monitoring data for students with disabilities, and special education compliance data.
- ≠ Collaborate with school personnel (e.g., administration, regular education teachers, special education teachers, etc.) on special education service models (i.e., monitoring; collaboration or consultation; co-teaching or team teaching; facilitated instruction; direct instruction.).
- ≠ Coordinate progress monitoring of students with disabilities (e.g., CBM, Benchmark Assessment System, etc.).
- ≠ Communicate regularly with Regional Special Education Director on IDEA, FAPE, LRE, and IEP successes and challenges at assigned school(s).
- ≠ Maintain accurate and current inventory on instructional and curricular resources and materials. Replenish inventory as needed.

Key Relationships:

Internal: Core Content Teachers

External: School District Special Education Compliance Officer

Key Behavioral Competencies:

- ≠ Developing Others
 - Encourages constructive feedback and a culture that provides opportunities for development. Attracts, assesses, develops, motivates and retains a diverse workforce that drives results.
 - Helps others to secure resources and provides guidance in decision making and problem solving
- ≠ Courageous Leadership

- Addresses difficult issues; puts self on line to deal with important problems; stands firm when necessary.
- Analyzes reasons behind results, takes action to address failures and seeks to improve outcomes
- ≠ Collaboration
 - Willingly cooperates and works collaboratively towards solutions which generally benefit all involved parties; works cooperatively with others to accomplish company objectives; promotes collaboration and partnerships.
 - Gives credit and recognition to others who have contributed towards team or group goals; respects different opinions, seeking them out to challenge thinking and enhance collaborative efforts
 - Works collaboratively to creatively problem solve with staff to meet students' unique needs in a technology- based instructional learning environment
- ≠ Organization
 - Maintains accurate records across multiple sites
 - Plans and organizes for a schedule that requires flexibility and structure to serve students at multiple sites

Background Requirements:

- Minimum of 3 to 5 years special education teaching experience required
 - Bachelor of Arts or Bachelor of Science degree required
 - Appropriate special education teacher certification required
 - Demonstration of mastery in specified area/s of the curriculum required
 - Demonstration of teaching techniques and classroom management skills (i.e., effective instructional strategies, articulate communication of information, positive interactions with students, and overall organization of learning environment), as seen during a classroom observation by a partnership principal required
 - Evidence of educational experiences after college (fellowships, summer study, or graduate course work to pursue greater depth in a subject area, specific instructional methodology, curriculum development, special education, technology, etc.) preferred
-

Office Manager

Reports To: Program Director

Direct Reports: Not Applicable

Job Summary:

The Office Manager will play a key support role, serving as the focal point for communication by mail, telephone and in person. The Office Manager will manage the flow of information, both within the school and between the school and the state, and will be responsible for maintaining all school records. To be effective, the Office Manager must be organized and efficient, familiar with all necessary office equipment, including computers and computer programs for word processing, databases, and spreadsheets. Equally important is the role of the Office Manager as representative of the program. He or she must be flexible, personable, able to communicate the program's mission and vision, and possess the program's core values.

Main Responsibilities:

- ≠ Responsible for creating and maintaining a welcoming and efficient front office that emphasizes organization, professionalism, courtesy, flexibility, and teamwork
 - Greet and announce all visitors appropriately
 - Use proper telephone etiquette and direct calls appropriately to school staff
 - Provide needed assistance and communicate effectively with Director and all staff
 - Be attentive, patient and fair with students
 - Treat parents as valued and respected customers
- ≠ Maintain all records, including schedule, student waitlist (using applicable EdisonLearning systems/software), attendance records, and calendar
- ≠ Responsible for recording, tracking and following up on student tardiness, absences
- ≠ Collect student related data (including demographics, financial data, test results, attendance) and provide it to the state, which uses the data to determine per pupil funding for the school
- ≠ Collect all student data and manage free and reduced lunch program components for the school, which impacts school funding
- ≠ Perform basic Accounts Payable and Accounts Receivable functions in the routine course of daily operations
- ≠ Provide and/or manage standard operations, including, but not limited to:
 - Student entrance/exit procedures
 - Safety and emergency procedures/guidelines
 - Correspondence and schedule for Director
 - Business related processes as assigned by Director and/or Enrollment Coordinator (purchasing/expenses, invoices, shipping and receiving, etc.)
 - Coordination of volunteer hours/participation
 - Responsibility for all voicemail administration including setting up new mailboxes and changing site voicemail greeting for vacations, snow days, etc.

Key Relationships:

Internal: Site faculty and staff.

External: School visitors. Outside vendors, contractors.

Key Behavioral Competencies:

- ≠ Thinks ahead to set up requirements in advance. Prepares effective program of activities; timetabling; etc.
- ≠ Consistently tries new and different approaches to doing work
- ≠ Demonstrates a strong sense of urgency by prioritizing and following through on commitments
- ≠ Identifies potential obstacles to goal achievement and seeks assistance in addressing these obstacles
- ≠ Detail oriented and ability to multi-task
- ≠ Demonstrates ability to develop appropriate relationships with students in an alternative setting

Background:

- ≠ High school diploma required; postsecondary training or schooling preferred
 - ≠ Familiarity with office equipment such as computers, typewriters, fax machines, calculators, and photocopiers, as well as word processing and spreadsheet programs required school district database maintenance preferred
 - ≠ Minimum of 3 years of experience in office management or in a secretarial position preferred with responsibilities including basic bookkeeping
-

Paraprofessional

Reports to: Program Director

Direct Reports: N/A

Job Summary:

The Paraprofessional, as a member of the instructional team, works under the supervision of the classroom teacher and the principal. This person primarily works in classroom, assisting the teacher in implementing instruction and related services. Such assistance may include: providing instructional assistance, guiding additional practice opportunities, re-teaching, and monitoring behavior.

Main Responsibilities:

- ≠ Meet Paraprofessional requirements as established by state and local mandates;
- ≠ Implement school and district policies and procedures;
- ≠ Establish and maintain solid working relations with colleagues;
- ≠ Participate in planning sessions with the learning team;
- ≠ Provide support and assistance to students;
- ≠ Demonstrate creativity, flexibility, and perseverance in dealing with challenging learning, behavioral, family, and classroom situations;
- ≠ Provide strategic instruction within the classroom for students who are in need of support learning core curriculum;
- ≠ Provide support and supervision of students as assigned (during transitions, in special classes, during lunch, etc.);
- ≠ Assist in the administration and scoring of assessments used to monitor individual progress;
- ≠ Assist with paperwork and clerical duties as needed.

Key Behavioral Competencies:

- Demonstrates the ability to work effectively under the direction of others;
- Demonstrates a willingness to assume all responsibilities assigned which are appropriate for the position.
- Demonstrates initiative, always keeping in mind the best interest of the students and the program
- Willingly cooperates and works collaboratively towards solutions which generally benefit all involved parties; works cooperatively with others to accomplish company objectives; promotes collaboration and partnerships.
- Gives credit and recognition to others who have contributed towards team or group goals; respects different opinions, seeking them out to challenge thinking and enhance collaborative efforts
- Works collaboratively to creatively problem solve with staff to meet students' unique needs in a technology- based instructional learning environment

Background Requirements:

- Meets NCLB requirements: Has obtained a HS diploma or GED and:
 - o Completed two years of full-time study at an institution of higher education (48 semester hours in some states and 60 in others); or
 - o Obtained an associate's degree; or
 - o Meets rigorous standards of quality and demonstrates through a formal assessment the knowledge of, and the ability to assist in, reading, writing or mathematics.
- Meets appropriate age, diploma and certification requirements as defined by the state.

A new day in Sunset?

The former school in Sunset could become home to the Young Crittenden County.

Charter school proposed for young adults

By Gary Meece
news@theeveningtimes.com

If a nonprofit group from Osceola can find its way through the required legal maze, a charter school aimed at young adults ages 18-21 could be opening soon in the old Phelix school in Sunset.

One of the requirements is a public meeting, and so the public is being invited to hear about the Young Adult Magic Johnson Bridgescape Academy in a meeting at Marion City Hall on Monday, Aug. 26, at 6 p.m.

With a slogan of "Build a Bridge to Graduation and Beyond," Magic Johnson Bridgescape will be offering "Blended Learning for Dropout Recovery and Prevention" through an agreement with Osceola nonprofit OCBA Inc. Bridgescape runs similar schools in five other states; the nonprofit OCBA is also hoping to open a similar charter school for Mississippi County on the outskirts of Osceola. OCBA, formerly known as Osceola Communication, Business and Arts Inc., lost its state charter for an established charter school in Osceola in March 2011 after the state Education Board determined that the dropout-recovery school had veered from its original mission.

Sally Wilson, OCBA president and a college engineering instructor married to Circuit Judge Ralph Wilson, is among the nonprofit members hoping to bring the new kind of school to Crittenden County. The public charter school, which is eligible for over \$6,000 per student in state education funding per year, would be targeted at nongraduates, offering a high school diploma and work skills training.

Wilson explained that schools now are required to use a "justed cohort rate," which tracks students through high school, previously used "completion rate." Wilson offered figures showing that, for example, in the Class of 2012, that of 924 students entered Crittenden County schools, 683 graduated. The nonprofit figured that the lost economic benefit from the failure of those hundreds to graduate was as much as \$2.6 million annually.

"Nationwide we have a huge percentage of young people who drop out of school, and those numbers are even higher for students of color living in poverty," said Wilson. "Nowadays if you don't have a diploma, so many doors are closed to you that it's just impossible. But once they're out of school, the statistics show they work. Wilson described the plan as one of "reengagement" with innovative delivery of education."

There are three school districts in Crittenden County — Marion, and Earle — and any charter school applicant must notify their intent to open a school.

"I understand where they would resist a school where they don't want it. This will be a public school but the name of the school is Young Crittenden County. This says it all. Those are the students we are after," said Wilson.

The Magic Johnson program would recommend directors to do all the teacher training and provide curriculum and student support. Edison-Learning.

The former school in Sunset could become home to the Young Adult Magic Johnson Bridgescape Academy of Crittenden County.

Wilson explained that schools now are required to use a formula called the “adjusted cohort rate,” which tracks students through high school instead of the previously used “completion rate.” Wilson offered figures showing that, for example, in the Class of 2012, that of 924 students entered in 10th grade in Crittenden County schools, 683 graduated. The nonprofit further calculates that the lost economic benefit from the failure of those hundreds to graduate could be as much as \$2.6 million annually.

“Nationwide we have a huge percentage of young people not finishing high school, and those numbers are even higher for students of color and for those living in poverty,” said Wilson. “Nowadays if you don’t have a high school diploma, so many doors are closed to you that it’s just impossible to get ahead. But once they’re out of school, the statistics show they won’t go back.”

Wilson described the plan as one of “reengagement” with schoolwork, “offering innovative delivery of education.”

There are three school districts in Crittenden County — Marion, West Memphis and Earle — and any charter school applicant must notify the superintendents of their intent to open a school.

“I understand where they would resist a school where they might lose students. This will be a public school but the name of the school is Young Adult. That says it all. Those are the students we are after,” said Wilson.

The Magic Johnson program would recommend directors for the two campuses, do all the teacher training and provide curriculum and student tests developed by Edison-Learning.

CHARTER SCHOOL

Continued from Page 1

The schools would offer "overage" students a year-round, day- and evening-education program. Students could enroll full- or part-time in a blend of classroom work and online study. Students could enroll in classes offering college credit and gain jobs training while working toward a high school diploma.

The plan is to structure hours and classes to appeal to young adults who are no longer interested in traditional classwork. Flexible hours with a daytime schedule of work skills training allow students to hold down other jobs or meet other obligations. The daily start time at noon is designed to discourage enrollment by those under 18, since such students technically would be truants by not being in school in the mornings. Students generally would not be enrolled full-time but only about one-CHRISTMAS

Continued from Page 1

tions. Bids were solicited with two sets of specifications. One with the traditional Christmas tree, decorations for the park and the maintenance of the lighting and displays. The other with plans to purchase a tree outright that can be used by the city for years to come. "That one would be more expensive this year," said Johnson. "But it would be a one-time expense, since we would be able to keep using the tree year after of year."

At the July 19 A & P meeting, Office of Economic Development Project Manager Krystle Sheals, who has largely taken up the reins of spearheading the city's Christmas plans, said that last year's budget, while much lower than Christmas 2011, still allowed for an adequately festive display.

"I think it went pretty well," said Sheals. "Was it quite as much in the neighborhood when the city was funding a

third time, with state funding scaled accordingly.

Classes generally would be in the evenings. Students fill out their own paperwork and are otherwise considered as adults.

A cap of 250 students is planned, with budgets in place for about 120 students. The Sunset school was closed a number of years ago when the Sunset district was incorporated into the Marion district. The building would be leased from a group of investors who own the building, including Marion attorney Jimbo Hale.

The process to approval is long and detailed with strict requirements and deadlines on such matters as letters of intent and communication with local officials.

Around the state, nine organizations are planning 11 new charter schools.

All have until Sept. 3 to submit detailed applications to

operate the schools.

If all planners follow through with the applications and are approved by the Department of Education's Charter School Counsel, the state could have as many as 28 open-enrollment charter schools and charter-school systems in 2014-15. There will be 17 open-enrollment charters operating in the new school year.

Act 509, adopted this year, designates the Department of Education to authorize charter schools, rather than the state Board of Education. The agency's decisions may still be reviewed by the Education Board upon request by the charter-school planners, a state board member or an affected school district.

For more information about the Crittenden proposal, contact Sally Wilson at 870-822-0574 or e-mail ocbainc@yahoo.com

over that part of the operation at their own expense.

"They seemed to have no problem with it," she said. "There was a bit of a learning process, they said, but they seemed open to coming back this year."

Sheals said she plans to touch base with the company and see if that interest remains.

"We just need to remember," said City Councilwoman Ramona Taylor, "that our goal with the A & P Commission is

to foster tourism. I know we have funded the decorations around the city with the idea that it could bring in visitors, and I know it does do that, but we need to continue to look at how many people it actually does bring in and keep an eye on how much we are spending on it. I'm not saying we shouldn't support it. It's a wonderful thing for the city. I just think, going forward, we should take a look at it."

Sunset charter school proposal may sound familiar

Osceola group back with an over-18 focus

By Gary Meece
news@theeveningtimes

When a nonprofit group from Osceola had their proposal for a charter school in West Memphis rejected in 2011, the group's president, Sally Wilson, promised she would be back with another proposal.

This week, Wilson, president of OCBA, presented plans for The Young Adult Magic Johnson Bridgescape Academy to be located in Sunset at the former Phelix school.

The charter school proposes to offer a flexible curriculum to young adults ages 18-21 who have dropped out of school without a diploma.

Wilson and her nonprofit group made a similar effort to establish a "diploma school" for West Memphis in 2011 but the state Board of Education turned down the application for the school. The diploma schools were designed to target students at risk of dropping out by offering them individualized instruction.

The Diploma School of Jonesboro and The Diploma School of West Memphis were proposed by Osceola Communication, Business and Arts, now known as OCBA. The group previously had been granted a charter in Mississippi.

charter revoked for failing to meet Board of Education criteria and for "recruiting" students away from public schools.

Wilson argued then that Arkansas was facing "a dropout crisis," citing an report that more than 11,000 Arkansas high school seniors failed to graduate in 2011.

The administrations of both the Jonesboro and West Memphis school districts opposed Wilson's 2011 applications.

Jon Collins, who was then West Memphis High School principal and now is the superintendent of the West Memphis system said in 2011 that the charter school proposal offered that was not already available in the district and had no community support.

CHARTER SCHOOL

Continued from Page 1
port. Collins was out of town yesterday and not available for comment on the latest proposal.

Charter school applicants are required to notify superintendents of the local schools of their plans.

Don Johnston, superintendent for Marion schools, said Thursday that he had not received a copy of the latest proposal and could not comment on it.

Earle Superintendent Rickey Nix was not in his office Thursday.

Wilson's latest proposal for a charter school, which would be eligible for state funding on a per-student basis, differs in a number of respects from the 2011 proposal, primarily in that it is aimed at those who have already dropped out instead of 11th- and 12th-graders at risk of dropping out.

visit www.westmemphis.com, or contact the Office of Economic Development at 870-732-8500.

Also, the State Board of Education no longer is empowered to authorize charter schools. Instead, Act 509, adopted this year, gives the Department of Education that authority. The agency's decisions still may be reviewed by the Board of Education upon request by the charter-school planners, a state board member or an affected school district.

Meeting on charter school tonight

At Marion City Hall at 6 p.m.

By Gary Meece
news@theeveningtimes.com

A nonprofit group from Osceola will offer a proposal at a public hearing tonight for a charter school aimed at young adults ages 18-21 to be opened in the old Phelix school in Sunset. The public is being invited to hear about the

Young Adult Magic Johnson Bridgescape Academy in a meeting at Marion City Hall this evening at 6 p.m.

With a slogan of "Build a Bridge to Graduation and Beyond," Magic Johnson Bridgescape will be offering "Blended Learning for Dropout Recovery and Prevention" through an agreement with Osceola nonprofit OCBA Inc. Bridgescape runs similar schools in five other states; the nonprofit OCBA is also hoping to

open a similar charter school for Mississippi County on the outskirts of Osceola. OCBA, formerly known as Osceola Communication, Business and Arts Inc., lost its state charter for an established charter school in Osceola in March 2011 after the state Education Board determined that the dropout-recovery school had veered from its original mission.

Sally Wilson, OCBA president and a college instructor married to Circuit Judge Ralph Wil-

son, is among the nonprofit members hoping to bring the new kind of school to Crittenden County. The public charter school, which is eligible for over \$6,000 per student in state education funding per year, would be targeted at nongraduates, offering a high school diploma and work skills training.

There are three school districts in Crittenden County — Marion, West Memphis and Earle. See CHARTER SCHOOL on Page 3

— and any charter school applicant must notify the superintendents of their intent to open a school.

The Magic Johnson program would recommend directors for the two campuses, do all the teacher training and provide curriculum and student tests developed by Edison Learning.

The schools would offer "overage" students a year-round, day- and evening-education program. Students could enroll full- or part-time in a blend of classroom work and online study. Students could enroll in classes offering college credit and gain jobs training while working toward a high school diploma.

The plan is to structure hours and classes to appeal to young adults who are no longer interested in traditional classwork.

RAISES

Continued from Page 1

agreed.

"I think we gave more than we should have this year as a whole," Jackson said. "But we did what we did."

Councilman Kelly O'Neal said he is concerned that there are some city workers who are earning more than they would be paid in the private sector for the same job.

"Somewhere along the line it has got to stop," O'Neal said. "I'm just concerned that at this rate we're going to price

Flexible hours with a daytime schedule of work skills training allow students to hold down other jobs or meet other obligations. The daily start time at noon is designed to discourage enrollment by those under 18, since such students technically would be truants by not being in school in the mornings. Students generally would not be enrolled full-time but only about one-third time, with state funding scaled accordingly.

Classes generally would be in the evenings. Students fill out their own paperwork and are otherwise considered as adults.

A cap of 250 students is planned, with budgets in place for about 120 students. The Sunset school was closed a number of years ago when the Sunset district was incorporated into the Marion district.

ourselves into being like Detroit."

Councilman Cliff Wood said at his job he is required to evaluate each employee, score them and then decide how much of a raise to give each individual employee based on his available budget.

"I'm all for merit raises," Wood said. "We could go back to each department and say you have three percent to work with."

Holliman said she likes the idea of giving each depart-

The building would be leased by a group of investors.

The process to approval is long and detailed with strict requirements and deadlines on such matters as letters of intent, communication with local officials.

Around the state, nine organizations are planning 11 new charter schools.

All have until Sept. 3 to submit detailed applications to operate the schools.

If all planners follow through with the applications and are approved by the Department of Education's Charter School Counsel, the state could have as many as 28 open-enrollment charter schools and charter-school systems in 2014-15. There will be 17 open-enrollment charters operating in the new school year.

Act 509, adopted this year, designates the Depart-

ment head a figure to work with based on the budget set by the city council, but doesn't want the council to be put in the position of having to micromanage too much of the budget.

"I think this discussion (of raises) should go from the department head to the mayor, and from the mayor to us," Holliman said.

Councilman David Bigger said he would be in favor of leaving it up to the department heads to decide.

ment of Education to authorize charter schools, rather than the state Board of Education.

The agency's decisions may still be reviewed by the Education Board upon request by the charter-school planners, a state board member or an affected school district.

The Osceola group, in its earlier corporate identity, made a similar proposal a few years ago to open a charter school in West Memphis aimed at potential dropouts. That proposal was rejected.

For more information about the Crittenden proposal, contact Sally Wilson at 870-822-0574 or e-mail ocbainc@yahoo.com

"I don't have a problem trusting our department heads to make some decisions based on the total money we give them," Bigger said.

O'Neal said he also favors that idea, but believes the council needs more time to deliberate before making changes.

"I like giving each department head a lump sum," O'Neal said. "But I'd like to have more time to discuss this."

Resolution Monday afternoon to allow Mayor Bill Johnson to apply for an adaptive sports field at Tilden Rogers Park. Plans are to install a 100-foot wide field at the south end of the complex behind the current machine-pitch field and I-40 service road. Plans include the installation of an additional field to accommodate the increased number of players the Boys and Girls Club has

Sports field in play

Program has really led the way in trying to secure funding for this project. Now with some funding for the matching portion of the grant that we are applying for, we think we have a pretty good chance of getting it approved."

The adaptive sports field, as explained by City Engineer Phillip Sorrell, would "have the look of a regular baseball field with a special composite surface that would accommodate children with disabilities both mental and physical and allow them to play a game of ball modified to fit their needs, whether it be a wheelchair, some other type of device or an on-field assistant."

Parker said the city is seeking a \$250,000 grant from the Department of Tourism. He noted that the funding, if approved, would have a 50-50 matching component. That matching com-

Support voiced for charter plan

Over 30 show up to hear proposed Phelix reboot

By Mark Randall
mrrandall726@hotmail.com

Over 30 residents turned out for a public meeting in Marion on Monday to hear about a proposed charter school in Crittenden County by a group aimed at getting young adults back on the path to earning a high school diploma.

"Having more than 25 people show to a meeting like this is outstanding," said Sally Wilson, president of OCBA Inc., an Osceola nonprofit group that is looking to establish the school.

OCBA Inc. is applying to the state to open two Magic Johnson Bridgescape Academies — one in Crittenden County in the old Phelix school in Sunset and one in Mississippi County near Osceola.

The proposed academies would be targeted at non-graduates ages 18-21 and would offer high school diploma and work training skills. The program is designed to appeal to these "overage" students who are no longer interested in traditional classwork by offering full-time and part-time day and evening classes with flexible hours using a blend of

Sally Wilson

tion. Bridgescape runs similar charter schools in five other states.

Wilson said the numbers clearly show there is a need for this type of program in Crittenden County.

Of the 876 10th-graders in the Class of 2013, only 617 made it to the 12th grade. Graduation figures have not yet been released by the Dept. of Education.

"What we're seeing here in Crittenden County is we're losing around 250 young people between the 10th grade and those walking across that stage at graduation," Wilson said. "We are targeting those young people who have been left behind. We know we are losing those students."

Wilson said high school dropouts can expect to earn more than \$250,000 less than

CHARTER SCHOOL

Continued from Page 1

those with a high school diploma or college degree over their lifetimes. It costs Crittenden County as much as \$2.6 million in lost economic benefit from those hundreds who failed to graduate.

"In my generation, if you graduated with a high school diploma and had a strong back, you could make a living," Wilson said. "That's different nowadays with young adults. If they don't have the foundation of knowledge that comes from earning a high school diploma, they never really get the chance."

"Studies found out that when a young person doesn't get a high school diploma the difference between two young people - one who gets a high school diploma and the other does not - the difference is over \$5,000 a year in loss of salary every year for the rest of their life. They will never catch up."

Wilson said this is not a criticism of the local school districts.

Every 26 seconds in the U.S. a young person drops out of school.

"This is not even a Delta issue," Wilson said. "This is a nationwide issue."

Mike Malone of Edison Learning, which developed the student tests, said the program is designed to give those students a second chance.

"These are not a group of students who are unmotivated and really don't care about

their education," Malone said. "Many of them have experienced an event in their lives that has led them to find continuing to attend school difficult - whether they had a child as a student, or did not have the personal attention that they needed, or they fell in with the wrong crowd that doesn't value education, or whether they have family needs where they needed to contribute to the family's livelihood or had a parent who is incarcerated."

The proposed school would have an enrollment cap of 250 students.

The Magic Johnson program would recommend directors for the two campuses, do all the teacher training, and provide curriculum and student tests developed by Edison Learning.

Malone said the academy is a "bricks and mortar" school where 80 percent of the coursework is done on computer.

Applicants meet with a counselor who evaluates their transcripts, determines what classes they need, and helps put together a schedule to get them on a path to earn their high school diploma.

Students then proceed at their own pace on their coursework which is monitored by instruc-

tors and evaluated along the way.

Teachers do not have to be state certified, but Wilson said the goal is to eventually have instructors who are all certified.

"They all have to be highly qualified," Wilson said.

Malone said students saw gains of 13.8 to 23.5 percent in the core areas in testing scores.

The program had a 69 percent graduation rate for 2012-2013 and increased graduation rate by 5 percent from 2011-2012 to 2012-2013.

"This is a different kind of school," Wilson said. "This is geared toward a high school diploma. This is not a GED program. It will be a fully certified diploma that meets all Arkansas educational standards. And it will be a public school that has to meet all of the same accreditation standards of any Arkansas Public school."

Wilson said Arkansas Education Department will vote on their charter application in early November.

If approved, they will open the school's doors in August.

"This will hopefully reach out to more students and get them back into school," Wilson said.

POWERPOINT PRESENTATION

MAGIC JOHNSON BRIDGESCAPE ACADEMIES

INTRODUCTION

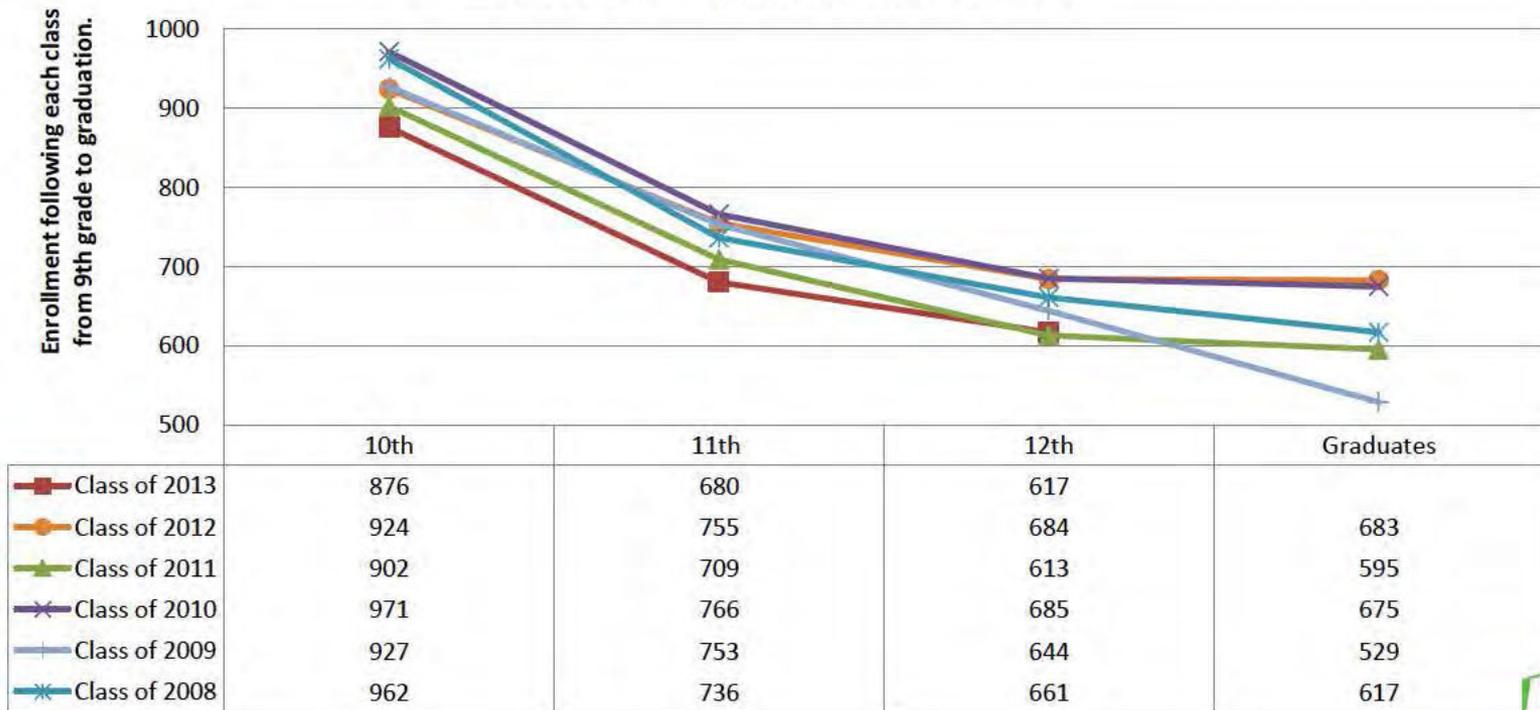

- Welcome
- Presenters:
 - Sally Wilson, OCBA President
 - Mike Malone, EdisonLearning
- Please sign the attendance sheet
- Please register any objections to this charter application on the “I oppose” sheet.

INTRODUCTION: OCBA AND EDISONLEARNING

- Osceola Communication, Business and Arts, Inc. (OCBA), a local non-profit, is applying to the ADE to establish two new charter schools: The Young Adult Magic Johnson Bridgescape Academies.
 - One academy in South Mississippi County.
 - One academy in Crittenden County.
- OCBA has experience with charter applications and is dedicated to working with the youth in the community.
- In partnership with EdisonLearning, OCBA will provide at-risk youth in the local community an alternative path to obtain a high school diploma.

NATIONAL SOLUTION: AMERICA'S PROMISE ALLIANCE

Under the leadership of Founding Chairman General Colin Powell and current Chair Alma Powell, the America's Promise Alliance has become the nation's largest partnership dedicated to improving the lives of young people.

In the U.S., every 26 Seconds a student drops out of school.

AMERICA'S PROMISE ALLIANCE

LOCAL SOLUTION: OCBA IN ARKANSAS

- America's Promise Alliance launched the Grad Nation campaign in 2010 to raise awareness and inspire action.
- Grad Nation is now a large and growing movement of dedicated individuals, organizations, and communities working together to end America's Dropout Crisis.
- OCBA is an America's Promise GradNation Community organization and is the only one in Arkansas.

OCBA members have attended the GradNation Summit for the last two years.

ECONOMIC IMPACT

- Benefits from graduating more students include increased earnings and spending, increased home sales, new jobs, increased gross state product and state tax revenue.
- GradNation reports that the annual loss of economic benefit for each non-graduate in Arkansas is **\$10,780**:
 - \$5,339 loss of additional annual income
 - \$4,195 loss of additional annual spending
 - \$1,246 loss of additional annual investment
- The economic benefit not gained in Crittenden County could be:
 - **\$2.6 million annually** for 241 non-graduates of the Class of 2012
 - **\$3.3 million annually** for 307 non-graduates of the Class of 2011
- The economic benefit not gained in South Mississippi County could be:
 - **\$2.4 million annually** for 221 non-graduates of the Class of 2012
 - **\$2.3 million annually** for 207 non-graduates of the Class of 2011

WHY EDISONLEARNING?

- Nearly 20 years experience partnering with districts and charter boards to serve at-risk students and accelerate student achievement.
- Collaborates with organizations such as Magic Johnson Enterprises and America's Promise Alliance to create programs designed to prepare future generations of young people to be contributing members of their community.

MAGIC JOHNSON BRIDGESCAPE (MJB)

Magic Johnson Bridgescape Academies provide an alternative graduation path for students who are at risk through dropout intervention services that include a self-paced, high-quality education in a personalized environment with a focus on successful postsecondary transitions.

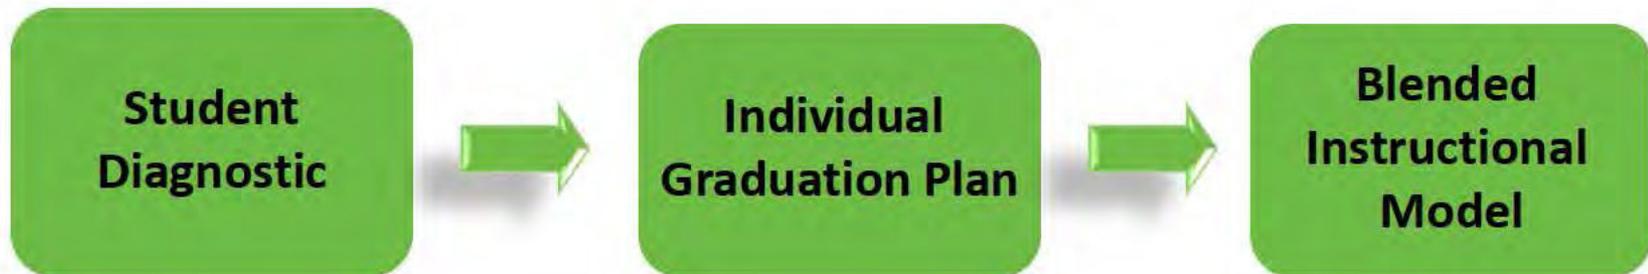

Build a Bridge to
Graduation
and **Beyond**

MJB: KEY FEATURES

- **Flexible Scheduling:** Two four-hour sessions are offered each day to meet the demands of individual student circumstances.
- **Individual Graduation Plan:** A plan is developed that addresses not only the state graduation requirements but also each student's academic and personal goals.
- **Blended Instructional Model:** Students are enrolled in eCourses (proprietary online curriculum) designed to engage students while also working with highly motivated teachers and paraprofessionals onsite.
- **Counseling and Coaching:** Teachers, paraprofessionals, and counselors create the safety net students need to succeed both in school and beyond graduation.
- **Post-Graduation Preparation:** Students receive support and resources to prepare for life after graduation, including college, military, or work.

MJB: INSTRUCTIONAL MODEL

Student diagnostic provides the foundation for the differentiated instruction plan designed to ensure student success.

Teachers and paraprofessionals confer with the student to devise a unique curriculum that bridges the gap between the student and graduation, while incorporating their post graduation goals.

Primary curriculum provided online through eCourses with additional direct one-on-one and small group instruction for students.

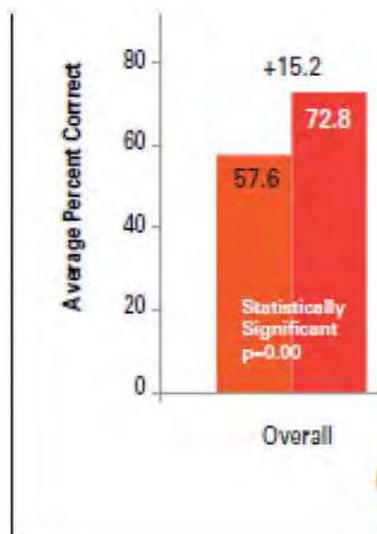

MJB: CURRICULUM

- **Self-Guided and Self-Paced:** Students can work on their own schedule.
- **Personalized:** Allow individualization and customization based on specific student needs and include a host of interactive multimedia features that support diverse learners.
- **Comprehensive and High School (9-12) Curriculum:** Courses are aligned to state standards and Common Cores State Standards.
- **Modular:** Consistent unit and lesson structure allowing students to maintain focus and motivation by accomplishing achievable goals in each lesson.
- **Dynamic Platform:** A game-like interface and visual display of progress

MJB: CURRICULUM EFFECTIVENESS

- In an independent analysis of 221 students who completed Mathematics and English/Language Arts eCourses, at-risk students demonstrated increased mastery of course content—in both Mathematics and English/Language Arts subject areas—with **gains of 13.8 to 23.5 percentage points among previously unsuccessful students.**

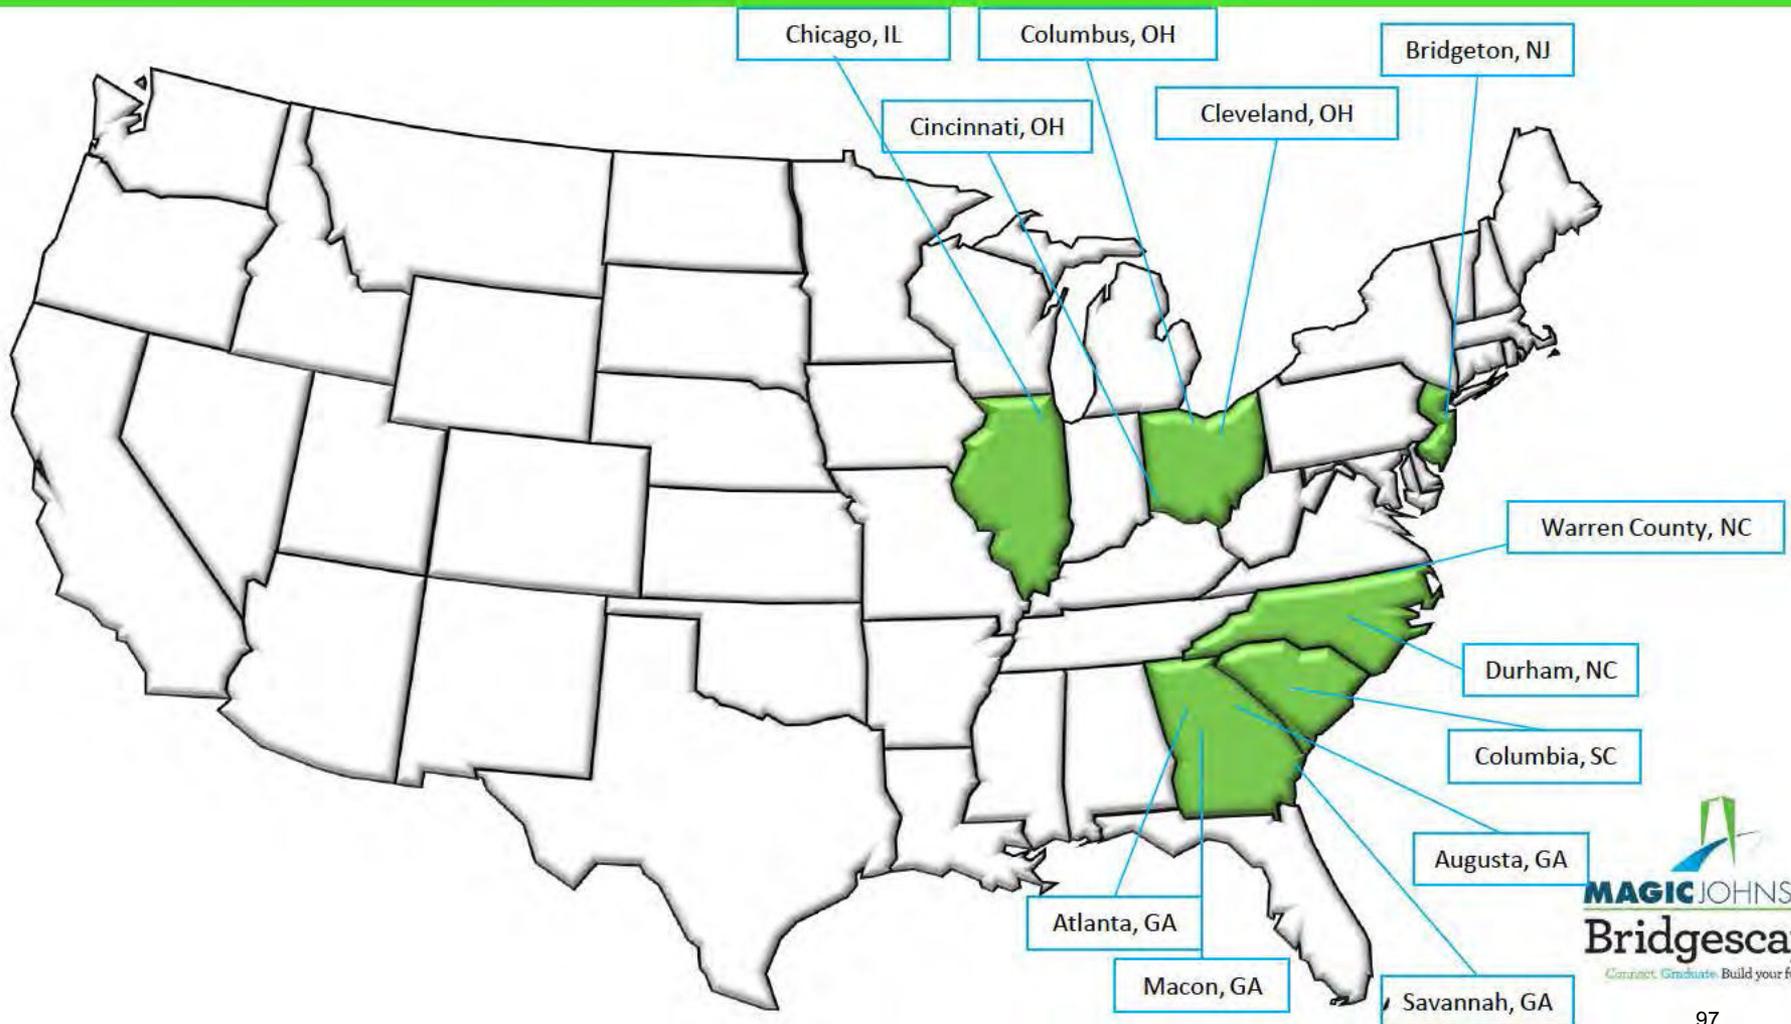

MJB: BENEFITS OF MJE ALLIANCE

- Magic Johnson Enterprises (MJE) is the #1 urban brand with a strong network of government and corporate relationships in 22 states and 98 cities
- The strategic alliance with MJB has the following benefits:
 - Offers students MJE’s Career Development Rubric and Career Exploration / Job Readiness eCourse
 - Provides students connections to workforce solutions and partner businesses; students graduating from MJB are eligible for high school to workplace or high school to college resources
 - Grants graduating students the opportunity to apply for exclusive scholarships through Magic Johnson Foundation’s Taylor Michaels Scholarship
 - Connects MJB to the “Friends of Magic” Volunteer Network

MJB: LOCATIONS NATIONWIDE

MJB: DEMOGRAPHICS

| Average Age | 17.9 Years Old |

MJB: PERFORMANCE RESULTS

Graduation Rates

- Our combined **graduation rate is 69%** for the 2012-13 school year.
- We increased our total graduation rate by 5% from the 2011-12 school year to 2012-13 school year across all programs.
- Notably, in Durham, North Carolina, for the 2012-13 school year, 100% of eligible seniors graduated and 3 underclassmen also graduated as a result of accelerated coursework. Similarly in Bridgeton, New Jersey, the graduation rate was 100% and 4 underclassmen graduated

Retention Rates

- In New Jersey and North Carolina, for the 2011-12 school year, the end of year retention rates at each of the programs were 76% and 89%, respectively.
- In Ohio, between the 2010-11 and 2011-12 school years, the retention rate increased at each of the programs between 27% and 63%.

Federal and State Reporting

- In Ohio, 8 of the 10 programs met AYP for the 2011-12 school year

MJB: TESTIMONIALS

“This is a unique and innovative educational program. Our school district will continue to advance our belief that every student – given the right tools, support and environment – is capable of exceeding expectations and completing a high school education. We fully intend to prepare every student to continue onto college, attend vocational school, or enter the workforce.”

- ***Superintendent Eric J. Becoats,***
Durham Public Schools

“It makes you feel good because you know you learned a lot, and you can move to the next step...and become something bigger in life. If it weren't for this place I probably wouldn't be in school right now.”

- ***Jashar D., Student***

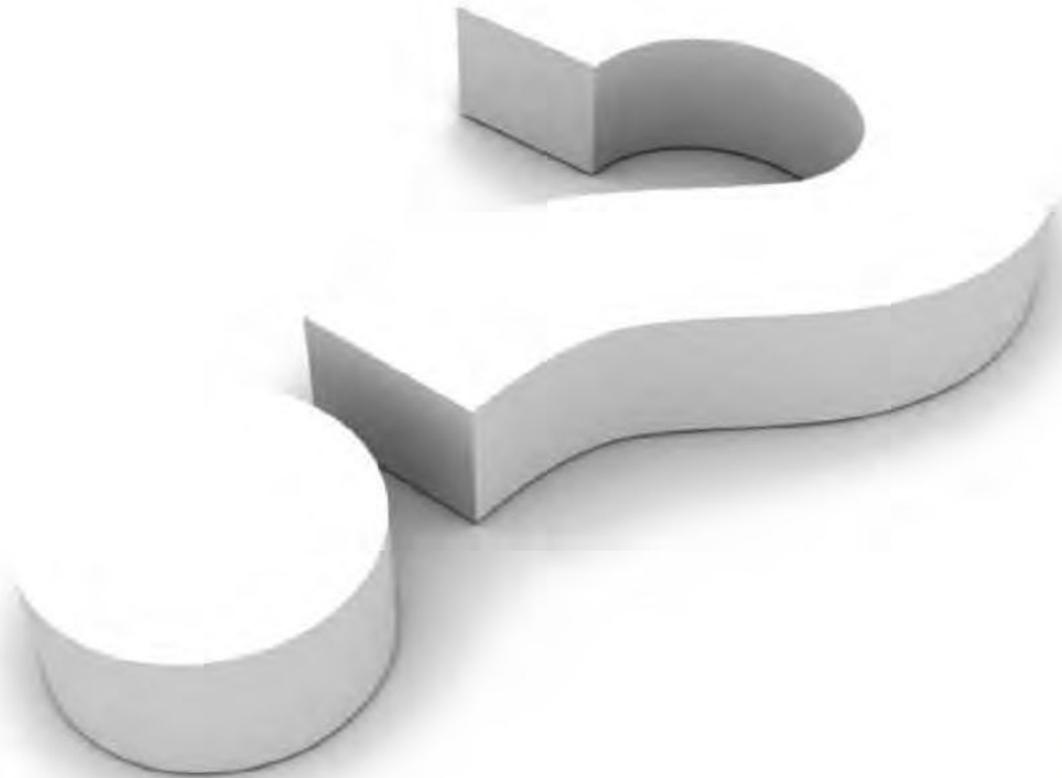

APPROVAL PROCESS AND SCHOOL GOVERNANCE

- ADE will vote on the charter applications in early November.
- OCBA will partner with EdisonLearning to establish Magic Johnson Bridgescape Academies in Crittenden and South Mississippi Counties.
- In the Young Adult Magic Johnson Bridgescape Academy application, OCBA will retain governance of the school and continue to serve as its school board.

HOW CAN YOU HELP?

- Sign the attendance sheet at the door.
- Join our non-profit corporation!
 - Membership is free through the end of the year.
 - Please let us know in the “comment” column of the sign in sheet or e-mail us at OCBAinc@yahoo.com.
- If you know of a student who would be interested in enrolling, please complete a Student Interest Form.
- Check out www.youngadultacademy.org.
- Share the information with your friends!

QUESTIONS

SAMPLE MANAGEMENT AGREEMENT

PROFESSIONAL SERVICES AGREEMENT BETWEEN

OCBA, Inc.

AND

EDISONLEARNING, INC.

THIS AGREEMENT (the “Agreement”) is made and entered into as of the __ day of _____ 2013, by and between **EDISONLEARNING, INC.**, a Delaware corporation (“EdisonLearning”), and **OCBA, Inc.** (“Charter Holder”), a nonprofit corporation organized and existing under the laws of the State of Arkansas (the “State”). EdisonLearning and the Charter Holder agree to the terms set forth below and in the appendices, exhibits and schedules attached hereto and incorporated herein.

WITNESSETH

WHEREAS, the Charter Holder has proposed establishing a charter school in accordance with the applicable provisions of the State Charter Law (as defined below) to meet the educational needs of students resident in the State;

WHEREAS, the Charter Holder desires to engage EdisonLearning to provide certain alternative educational services featuring flexible scheduling, a blended learning environment, self-paced learning options, and career and workforce readiness training to high school students to assist with learning acceleration towards graduation;

WHEREAS, EdisonLearning’s product, Magic Johnson Bridgescape™, is designed to provide alternative educational services, including flexible scheduling, a blended learning environment, self-paced learning options, and career and workforce readiness to high school students; and

WHEREAS, EdisonLearning desires to provide its Magic Johnson Bridgescape Academy, which means and includes the services described herein, to Charter Holder, subject to the terms and conditions of this Agreement.

WHEREAS, the Charter Holder, having carefully studied and evaluated EdisonLearning’s products and services, as well as several other curricular and school design options, and having determined that implementing the Magic Johnson Bridgescape™ program under the Charter Holder’s supervision and control would be beneficial to the students in its Charter School, adopts, to the extent permitted by law, EdisonLearning’s Magic Johnson Bridgescape™ program as the Charter Holder’s own educational model for the Charter School; and

WHEREAS, the Charter Holder has determined that the benefits associated with retaining EdisonLearning include, without limitation, (i) a research-based curriculum, web-based software platform for a school design that takes advantage of technology to provide a quality education and learning environment online; (ii) unique and comprehensive professional development and curriculum support

programs; (iii) an assessment and accountability system; and (iv) support services including human resource services, assistance with principal and staff recruiting, financial management and reporting, school start-up, procurement, technology, communications and legal services; and

WHEREAS, EdisonLearning and the Charter Holder understand that EdisonLearning will at all times be subject to the authority of the Charter Holder and accountable to the Charter Holder in the performance of EdisonLearning's obligations under this Agreement;

NOW, THEREFORE, in consideration of the mutual covenants and agreements herein set forth, EdisonLearning and the Charter Holder do hereby agree as follows:

ARTICLE 1

DEFINITIONS

- 1.1 "Academic Year" shall mean the dates which the Educational Services under this Agreement will be available to Enrolled Students as more fully set forth in Section 5.3 of this Agreement. Educational Services shall be offered pursuant to a school calendar that is comparable to that required for other public schools in Arkansas except that Students may continue to report attendance during scheduled school holidays to the extent permitted under Arkansas law.
- 1.2 "Annual Budget" shall mean the annual budget agreed to by EdisonLearning and the Charter Holder as more fully described in Section 8.5 of this Agreement.
- 1.3 "Board" shall mean the board of directors of the Charter School.
- 1.4 "Charter Agreement" shall mean the agreement between the Chartering Authority and the Charter School. Following the final version of the Charter Agreement shall be attached hereto as Exhibit 2 as may be amended from time to time.
- 1.5 "Charter Application" shall mean the Charter School Application as approved by the Chartering Authority in 2013, which, following the Effective Date, shall be attached hereto (in CD Format) as Exhibit 1.
- 1.6 "Chartering Authority" shall mean OCBA, Inc..
- 1.7 "Charter Holder" shall mean OCBA, Inc..
- 1.8 "Charter Law" shall mean Arkansas Public Charter Schools Act of 1999. .
- 1.9 "Charter School" shall mean Young Adult MJ Bridgescape Academy, as authorized by the Chartering Authority.
- 1.10 "Educational Program" shall have the meaning set forth in Section 5.1.
- 1.11 "Eligible Students" shall mean students residing within the State of Arkansas eligible to enroll at the Charter School as defined by State law pursuant to the procedures set forth in the Charter Application and Section 4.2 of this Agreement.

- 1.12 “Enrolled Students” shall mean those Students who meet the requirements for Eligible Students and have requested and been accepted for enrollment in the Charter School.
- 1.13 “External Public Funding” shall mean the funding received by the Charter School from Federal, State and local sources as more fully set forth in Section 8.1 of this Agreement.
- 1.14 “License Agreement” shall mean the agreement entered into between the Charter Holder and EdisonLearning for the Charter School’s access to the Educational Program.
- 1.15 “Magic Johnson Bridgescape Services”, “Services” or “Educational Program” shall mean the services set forth in Section 5.1 hereof.
- 1.16 “Management Fee” shall mean the fee paid to EdisonLearning for the provision of Professional and Administrative Management Services as more fully set forth in Section 8.4 of this Agreement.
- 1.17 “Operating Cost” shall mean those certain costs paid by EdisonLearning on the Charter School’s behalf as more fully set forth in Article 8.
- 1.18 “Professional and Administrative Management Services” shall mean those services provided by EdisonLearning to the Charter School in connection with the Charter School’s operations as more fully set forth in Article 6 of this Agreement.
- 1.19 “School Calendar” shall have the meaning set forth in Section 5.3 of this Agreement.
- 1.20 “Student” is a student enrolled at the Charter School.
- 1.21 “Student Records” shall have the meaning set forth in Section 5.8 of this Agreement.
- 1.22 “Term” shall have the meaning set forth in Article 3 of this Agreement.

ARTICLE 2

RELATIONSHIP; AUTHORITY

2.1 Charter Agreement. This Agreement is contingent upon Charter Holder being granted a charter by the Chartering Authority to organize and operate a Charter School pursuant to the Charter Law. The Charter Agreement and all terms and conditions contained therein are hereby incorporated by reference into this Agreement.

2.2 Governance. The Charter Holder is governed by a Board of Directors (“Board”), which is responsible for overseeing the operations of the Charter School. Charter Holder shall provide written notice to EdisonLearning of any changes in the composition of the Board no later than five (5) business days following such change. Charter Holder anticipates having no less than ten (10) board meetings each calendar year, and that an EdisonLearning representative(s) may attend the monthly meetings.

2.3 Appointment. Under the Charter Agreement and the Charter Law, the Board is vested with all powers necessary or desirable for carrying out the Charter Holder’s program, including, but not limited to, the power to contract with an educational management company to provide educational programs and management services. Acting under and in the exercise of such powers, the Charter Holder hereby contracts with EdisonLearning, to the extent permitted by law, for the provision of EdisonLearning’s education program and management services for the Charter School, subject to the terms and conditions set forth in this Agreement and the Charter Agreement, and further subject to the oversight of the Board. EdisonLearning acknowledges that this Agreement is subject to the terms of the Charter Agreement and the Charter Holder agrees to notify EdisonLearning of any proposed changes to the Charter Agreement within five (5) days after becoming aware of such proposed changes, and to provide to EdisonLearning with any amendments to the Charter Agreement that would take effect during the Term within five (5) days after becoming aware of such amendments.

2.4 Authority. Subject at all times to the oversight and authority of the Board as provided herein, Charter Holder hereby authorizes EdisonLearning, in performing its duties and fulfilling its obligations under this Agreement during the Term, to take such actions as are necessary or desirable in EdisonLearning’s reasonable judgment to properly and efficiently operate the Charter School on behalf of the Charter Holder, consistent with federal and State law and subject to the terms and conditions of the Charter Agreement.

ARTICLE 3

TERM AND RENEWAL

3.1. Term. The term of this Agreement (“Term”) shall commence on the date first above written and end on _____, unless terminated earlier or extended in accordance with the terms and conditions set forth herein. The Term shall include five (5) school years, each commencing on or about August 15 and ending on or about the following June 30; provided, however, that in no event shall the Term of this Agreement exceed the term of the Charter Agreement.

3.2. Renewal. The parties agree that this Agreement shall automatically renew for an additional five (5) year term (subject to mutually-agreed upon changes to terms and conditions set forth herein) unless notice of intent not to renew is given by January 1st of the academic year in which this Agreement is set to expire; provided, however, that in no event shall the Term of this Agreement exceed the term of the Charter Agreement.

ARTICLE 4

CHARTER SCHOOL; ADMISSIONS AND RECRUITMENT

4.1. Charter School. Beginning with the 2014-15 Academic Year, EdisonLearning shall provide the services contemplated by this Agreement to Enrolled Students at the Charter School, which shall be a high school comprising grades 9-12. For planning and budgeting purposes, the parties believe expected enrollment for the first five (5) years to be as follows:

| <u>School Year</u> | <u>Expected Enrollment</u> |
|--------------------|----------------------------|
|--------------------|----------------------------|

2014-2015 _____ students

2015-2016 _____ students

2016-2017 _____ students

2017-2018 _____ students

4.2. Admissions and Recruitment. Admission to the Charter School shall be in accordance with the enrollment procedures required of charter schools as defined by State law and as more fully set forth in the Charter Application. Enrollment is open to all State residents on a nondiscriminatory basis. EdisonLearning shall manage the recruitment of students for the Charter School. EdisonLearning shall plan and administer the recruitment process (including, for example, management of publicity, waiting lists or admission lotteries).

ARTICLE 5

EDUCATIONAL SERVICES; SCHOOL CALENDAR

5.1. Educational Program. Pursuant to the terms of the License Agreement, EdisonLearning shall provide the Charter School with a complete educational program through its EdisonLearning *Magic Johnson Bridgescape™* - a proprietary, trademarked alternative education program, for all eligible students, including students who: (i) are not high school graduates; (ii) are of an age that is not less than nor greater than the age permitted to attend high school under applicable State law; (iii) are legal residents of the State; (iv) have been identified as at risk of dropping out of school or have already dropped out of school; and (v) meet any other requirement under applicable State law. EdisonLearning shall:

- Provide an alternative educational program that combines online curriculum with face-to-face instruction for individual students and small groups;
- Develop an annual Individual Graduation Plan for each student based on transcripts, diagnostic assessments, academic history and personal/professional goals, allowing for differentiated instruction;
- Focus on skill development in math, writing and test preparation;
- Utilize a curriculum that is aligned to Arkansas State Standards and Common Core State Standards;
- Provide instruction in core content in the following areas:
 - English and Literature
 - Math
 - Science
 - Social Studies
 - Electives

In furtherance of supporting the Charter School's students, EdisonLearning shall:

- Provide training to the staff in how to provide instruction and support to students, including the creation of the Individual Graduation Plan and identification of short- and long-term goals.
- Provide personalized counseling and coaching to students through the learning team.
- Allow students to progress at their own pace, while being continually monitored and supported with daily assessments and interventions.

- Provide life skills training, employability skills development, and employment assistance.
- Promote development of personal and social skills.
- Identify service providers for additional student support needs
- Partner with community groups to provide local support and opportunities.

5.2. Student Assessments; Standardized Tests. All Enrolled Students will receive an initial diagnostic test and take routine ongoing assessments through the EdisonLearning *Magic Johnson Bridgescape*™ to measure students' achievement against State standards. All Enrolled Students shall be required to participate in State standardized tests as required by State law for all State public schools, in a face to face secure testing environment.

5.3. School Calendar The Charter School shall operate from 7:30 a.m. to 5:00 p.m. for at least 180 days per year, and shall offer at least two four-hour learning sessions per day. Each session shall include approximately __ students.

5.4. Special Education and Related Services. As a Local Education Agency ("LEA"), the Charter Holder is responsible for providing special education services to its students. EdisonLearning shall provide these special education services on behalf of and subject to the supervision of the Charter Holder. EdisonLearning shall identify students with special needs, develop student Individual Education Plans ("IEP's"), and determine appropriate placements, as necessary. Charter School students requiring special education services shall be served in conformity with their IEPs. The Charter Holder and EdisonLearning shall work together to ensure compliance with the requirements of IDEA, Section 504 of the Rehabilitation Act, and the Americans with Disabilities Act. EdisonLearning may subcontract all or any portion of such services to a public or private subcontractor, a school district, intermediate unit, or vocational technical schools, subject to Section 16.4 of this Agreement.

5.5. Bilingual and Limited English Proficiency (LEP) Education. EdisonLearning shall provide appropriate bilingual and/or LEP education services to the limited English proficient students in the Charter School consistent with the requirements of federal law and with those requirements of State law that have not been waived by operation of the Charter Agreement. EdisonLearning may subcontract all or any portion of such services to a public or private subcontractor, subject to Section 16.4 of this Agreement.

5.6. State Curriculum Requirements. EdisonLearning shall implement its Educational Program in a manner that is consistent with the Charter Agreement and State law, including requirements regarding content and subjects of instruction, unless the Charter School is exempt from such requirements under the Charter Law or any such requirements are waived by State authorities.

5.7. Rules and Regulations. The Charter Holder hereby authorizes EdisonLearning to adopt and enforce such rules, regulations and procedures applicable to the day to day operations of the Charter School that do not conflict with federal or State laws, rules, regulations or policies that have not been waived, including rules and regulations concerning student attendance, standards of conduct, discipline, compulsory attendance and calendar, all subject to the continuing oversight of the Charter Holder. The Charter School shall comply with all applicable federal and State laws concerning the welfare, safety and health of students. If EdisonLearning or the Charter Holder identifies any federal or State rules or regulations that substantially inhibit the implementation of the Educational Program at the Charter School, then the Charter Holder shall, with EdisonLearning's assistance, apply for and support any available waiver of such rules or regulations.

5.8. Student Records. Except to the extent expressly waived by the federal or State authorities, the operation of the Charter School shall comply with all applicable federal and State laws, concerning the maintenance and disclosure of student records (defined as tests, assessments, attendance records and other information entered into the Student’s cumulative informational file- the “Student Records”). The Charter Holder hereby designates those employees and agents of EdisonLearning who assist in the operation of the Charter School under this Agreement as having a legitimate educational interest such that they are entitled to access to education records under the Family Educational Rights and Privacy Act, 20 U.S.C. §1232g. EdisonLearning, its officer, agents and employees shall comply with the Family Educational Rights and Privacy Act at all times.

5.10. Reports to the Board. EdisonLearning shall provide the Board monthly and quarterly (as applicable) with information regarding the academic performance of the Charter School that the Board requires in order to timely file such reports as may be required by the Chartering Authority and other governmental authorities. Additionally, upon reasonable notice, EdisonLearning shall make available to the Board additional reports and information that the Board may require from time to time.

5.11. Assessment of Success. EdisonLearning agrees that the Charter Holder may measure the success of the Charter School on the basis of improvements in a student’s academic achievement relative to his/her historical academic record, and by measures of parent and student satisfaction. Said performance shall be measured in accordance with the performance evaluation systems set out in Appendix A¹, and such other assessment strategies as may be agreed to in writing by EdisonLearning and the Board. EdisonLearning shall administer any and all tests required under State law as more fully set forth in the Charter Application.

ARTICLE 6

PROFESSIONAL AND ADMINISTRATIVE MANAGEMENT SERVICES

In addition to the Educational Program and related services set forth above, EdisonLearning shall provide the following professional and administrative management services: marketing and enrollment support services; finance and budget management and reporting; facilities and lease management and support; purchasing, contracting and vendor management assistance; State reporting and compliance support; school design and improvement review; payroll and benefit administration; staff recruitment and screening; training of instructional and administrative staff; human resources assistance; policy design and implementation; school law-related legal services; technical support and maintenance; and asset management support.

ARTICLE 7

CHARTER SCHOOL FACILITY;

CAPITAL RESOURCES & SERVICES

¹ This Appendix shall contain the final agreed Performance Criteria.

7.1. Charter School Facility. The Charter Holder shall secure and deliver in consultation with EdisonLearning, at its sole cost and expense, space for each site of the Charter School to be operated by EdisonLearning. The Charter Holder shall obtain, at its sole cost and expense, all required permits and approvals, and shall be responsible for any renovations necessary to accommodate each such site and shall be responsible for all utilities, security, cleaning, maintenance, and other services required to operate and maintain such site. The Charter Holder shall determine and provide, at its sole cost and expense, ancillary services to each such site, including food service and transportation.

7.2. Technology, Curriculum & Furniture.

(a) **School Technology.** The EdisonLearning shall procure, deliver and install all technology and equipment for the Charter School required for EdisonLearning to implement its technology platform at the Charter Holder's expense. The Charter Holder shall consult with EdisonLearning and make such acquisitions and purchases as are agreed upon, in accordance with EdisonLearning's recommendations to ensure that the equipment purchased is suitable for the needs of the students and meets the specifications required by the Educational Program. At the Charter Holder's request, EdisonLearning shall be available to provide logistical assistance in identifying suppliers and procuring the required technology and equipment. Such technology and equipment purchased by the Charter Holder shall be purchased consistent with the Charter Holder's procedures on competitive bidding and conflicts of interest, and shall be the property of the Charter Holder, subject to the provisions of Section 13.3 herein.

(b) **Curriculum, Materials and Other Property.** EdisonLearning shall consult with the Charter Holder and acquire and purchase all curriculum, materials and other property that the parties agree upon for the Charter School and approved by the Board in accordance with EdisonLearning's requirements and recommendations at the Charter Holder's expense. At the Charter Holder's request, EdisonLearning shall be available to provide logistical assistance in identifying suppliers and procuring all required materials and other property.

(c) **Furniture and Fixtures.** EdisonLearning shall consult with the Charter Holder and procure, deliver and install all furniture and fixtures for the Charter School Facility at the Charter Holder's expense. The Charter Holder shall make such acquisitions and purchases in consultation with EdisonLearning to ensure that the furniture and fixtures purchased are suitable for the needs of the Charter School. At the Charter Holder's request, EdisonLearning shall be available to provide logistical assistance in identifying suppliers and procuring the required furniture and fixtures. Such furniture and fixtures purchased by the Charter Holder shall be the property of the Charter Holder, subject to the provisions of Section 11.3 herein.

(d) **Asset Leasing.** The Charter Holder may enter into equipment leasing transactions with independent leasing companies, or with EdisonLearning directly, for the provision of school technology, curriculum, materials and furniture and fixtures. Any lease payments made pursuant to such equipment leasing transactions shall be considered an Operating Cost. Ownership of assets leased through such transactions shall be subject to the terms of the lease agreement. Any leases must be approved by the Board in accordance with its policies regarding competitive bidding and conflicts of interest. EdisonLearning may enter into an authorized asset lease on behalf of the Charter Holder with the approval of a majority of the Board, and, upon termination of this Agreement, the Charter Holder shall assume the lease in its own name, or if not permitted by the Lessor to do so, shall pay to EdisonLearning the remaining lease payments pursuant to Section 13.3 herein.

7.3. Transportation. Upon a Charter School student's request, EdisonLearning shall, at Charter Holder's expense, provide transportation for special education students whose IEPs so require under Federal law.

ARTICLE 8

FINANCIAL

8.1. (a) Application for State and Other Public Funding. The Charter Holder shall comply with the requirements, terms, and conditions of the Charter Law for the purpose of receiving or maintaining the Charter Holder's eligibility to receive from the State the per pupil funding for each Enrolled Student attending the Charter School. The Charter Holder shall also comply with the requirements, terms, and conditions of any External Public Funds (e.g., Federal, State and local funds designated for particular purposes such as Title I and special education) to which the Charter School or its Students may be entitled. All such external funds and per pupil funding are referred to herein, collectively, as the "External Public Funds." EdisonLearning shall, on behalf of, and with the approval of, the Charter Holder and consistent with the Charter, report enrollment and attendance data to the Chartering Authority and State Department of Education in conjunction with the Charter School as required under the Charter Agreement and Charter Law in order to allow the Charter School to receive the External Public Funds to which it is entitled. Charter Holder shall apply for External Public Funds on a timely basis. EdisonLearning and the Charter Holder shall cooperate in applying for External Public Funds and any other federal, State or local aid, funds or resources for which the Charter School or its Students may be eligible, and Charter Holder shall ensure that its employees provide EdisonLearning with all required information and documentation in a timely manner in order for EdisonLearning to fulfill its duties under this Section 8.1 as well as supply to EdisonLearning copies of any communications received in relation to the receipt of any External Public Funds. Upon reasonable advance request, EdisonLearning shall provide evidence to the Board that the Charter School is in compliance with the requirements, terms and conditions associated with the External Public Funds, and shall provide all reports, data, and information reasonably necessary for the Charter School to meet any reporting, certification or other requirements for such funding. Upon reasonable advance notice, EdisonLearning will make available to the Charter Holder or the Chartering Authority any information deemed necessary by either of them for formulating a budget, quarterly reports or financial audits or other information or documents related to the Charter School's operations.

(b) Monthly Financial Statements. EdisonLearning, at the direction of the fiscal officer of the Charter Holder, shall provide monthly financial statements to the Charter Holder. These statements shall reflect the Charter School's entire financial operation, including an itemized accounting of all amounts paid to EdisonLearning or otherwise paid for the goods and services paid by EdisonLearning on the Charter Holder's behalf, which amounts shall be itemized in a manner that clearly corresponds with those categories provided in the Charter School's Annual Budget or this Agreement. The monthly financial statements shall also include EdisonLearning's working forecasts for any remaining quarters in the then-current fiscal year. In order to properly prepare such financial statements, Charter Holder shall provide EdisonLearning with copies of its monthly bank statements no later than twenty (20) days after the end of each month.

8.2. Expenditures on behalf of the Charter Holder. (a) Except as otherwise provided in this Agreement, EdisonLearning shall use the External Public Funds remitted by the Charter Holder to EdisonLearning in accordance with Section 8.3 below, to pay the costs as approved by the Charter Holder associated with operating the Charter School as set forth in this Agreement and in accordance with the Annual Budget pursuant to Section 8.5 below. Such costs shall include all expenses incurred by, or on behalf of, the Charter School, including without limitation personnel and non-personnel costs related to instruction, technology/licensing costs, assessments, facilities support costs, start-up costs, capital reimbursement, insurance, the Management Fee and other administrative costs ("Operating Costs"). Operating Costs shall not include the out-of-pocket general administrative, legal, and accounting expenses of the Charter Holder as set forth in the Annual Budget for which the Charter Holder shall be responsible for paying ("Charter Holder Costs"). The parties acknowledge that because the State and other public

funding sources may make payments to the Charter Holder in arrears, certain Operating Costs may be paid by EdisonLearning prior to the payment of certain External Public Funds by the Charter Holder to EdisonLearning (such event shall constitute a "Shortfall"). The Charter Holder shall seek to cover such Shortfall by applying for funds under any State loan programs available for such purpose, and to the extent such funds are not available, EdisonLearning may, upon request of the Board, lend the Charter School funds to cover such Shortfall (each such loan shall constitute a "Working Capital Advance"). Working Capital Advances shall be repaid by the Charter School immediately upon funds becoming available to the Charter School. The Charter Holder acknowledges that each Working Capital Advance shall constitute a loan to the Charter Holder which shall be evidenced by this Section 8.2 and neither a promissory note nor other documentation shall be required to evidence the obligation to repay Working Capital Advances that are approved by the Board. Other types of loans to, or investments in, the Charter Holder or the Charter School by EdisonLearning shall be evidenced by appropriate documentation. In the case of investments, such documentation shall explain how the investment shall be treated on the books of the Charter Holder and shall clearly state EdisonLearning's expected return on equity.

(b) If EdisonLearning elects to make a Working Capital Advance, such Working Capital Advance may accrue interest at a rate equal to the lesser of fifteen percent (15%) per annum or the maximum rate allowed by law. Such interest shall not apply, however, if the Working Capital Advance is necessary because the Chartering Authority has refused to forward External Public Funds to the Charter Holder, or there are other circumstances beyond the control of Charter Holder that result in External Public Funds not being forwarded to Charter Holder. Upon termination or expiration of this Agreement, the amounts payable to EdisonLearning under all Working Capital Advances then outstanding, shall become immediately due and payable, and the Charter Holder shall reimburse EdisonLearning for any outstanding Working Capital Advances immediately upon the termination or expiration of this Agreement.

8.3. Remittance of External Public Funds to EdisonLearning. (a) The Charter Holder shall maintain two (2) bank accounts; one of which shall be designated a Board account and the other an Operating Account (the "Operating Account") where the Board shall ensure that all External Public Funds are deposited. With respect to the Operating Account, to the extent that Charter Holder at any time has outstanding a Working Capital Advance and/or a Start Up Loan, the Board shall direct its bank to install an automatic "sweep" whereby funds received in the Operating Account shall immediately be swept into an account designated by EdisonLearning in an amount not to exceed the aggregate outstanding amount (including accrued and unpaid interest) with respect to such Working Capital Advance(s) and/or Start Up Loan(s). Should the Charter Holder cancel the aforementioned "sweep" without good cause, EdisonLearning may in its sole discretion cease paying the Charter School's Operating Expenses until such time as the Charter Holder reinstates the "sweep." Additionally, should the Charter Holder cancel the "sweep" and not reinstate same within ten (10) days, EdisonLearning shall have the right to terminate this Agreement immediately.

(b) **Monitoring of Funds; Bank Statements.** The Charter Holder shall monitor monthly transactions of those expenditures paid by EdisonLearning on behalf of the Charter Holder. EdisonLearning shall expend the funds it receives from the Charter Holder in compliance with the terms and conditions, if any, applicable to those funds and as more fully described in this Agreement. The Charter Holder shall ensure that EdisonLearning receives a copy of all of Charter Holder's bank statements (for the Board account, Operating account and any other accounts Charter Holder may establish). Each calendar month during the Term, EdisonLearning will provide a reconciliation (one month in arrears) of the amounts owed to EdisonLearning after taking into account the parties' obligations hereunder and under Section 8.2.

8.4. EdisonLearning's Management Fee. In consideration for the variety of Professional and Administrative Management Services provided by EdisonLearning under this Agreement, the Charter

Holder shall pay to EdisonLearning a management fee of \$100,000 per academic year of the Charter School (the "Management Fee"), until such time as the Holder has sufficient resources to pay the customary Management for of \$250,000 as determined by EdisonLearning. For the avoidance of doubt, the Management Fee does not cover any Operating Costs (including the per Enrolled Student cost for use of the EdisonLearning *eCourses* and any ancillary services provided by EdisonLearning) which shall be billed separately pursuant to the License Agreement). For the purposes of this Section 8.4, any funds donated to the Charter Holder for charitable purposes as set forth in Section 8.7 shall not be considered External Public Funds for the purposes of this Section, nor shall it include any revenues that are collected by the School for a specific purpose and intent that by Law cannot be used for this purpose.

In the event revenue received as External Public Funds falls sufficiently below the Annual Budget (as described more fully in Section 8.5 below) that the Charter Holder is unable to pay the Management Fee in total during a particular year, the Charter Holder shall be permitted to carryover the unpaid Management Fee to the next academic year with the understanding that, (a) the unpaid Management Fee from the prior year shall be paid prior to payment of the current year Management Fee; and (b) in any event, the carried-over unpaid Management Fee must be paid in full by the completion of that next academic year, subject to payment of senior creditors or other legal obligations. EdisonLearning will seek repayment of the Management Fee from the Charter Holder's funds, not from individual members of the Board. In the event there is an unpaid Management Fee upon termination of the Agreement for any reason, the unpaid Management Fee shall be paid to EdisonLearning within sixty (60) days of such termination.

8.5. Budgets. (a) EdisonLearning shall assist the Board in developing an annual budget to approve (including by providing a draft budget with assumptions to the fiscal officer of the Charter Holder), which shall be in reasonable detail and consistent with requirements of the Charter Application, for the Charter School prior to the opening of the School (the "Annual Budget"). The annual budget shall include funds required for Board operations, insurance, meetings, and training apart from calculation of the Management Fee. The Board shall approve an annual budget that includes full payment of the Management Fee and academic and technological resources sufficient to support the targeted enrollment set forth in the Charter Application and any and all debt service, lease commitments, or other financial obligations to EdisonLearning. The Annual Budget for each subsequent year shall be approved annually by the Board by the 30th of June, except for the first year, as the budget has already been approved in connection with the negotiation of this Agreement. The Board's expenditures on behalf of the Charter School shall not in the aggregate exceed the approved budget without prior notice to EdisonLearning. To the extent any expenditures by the Board that are made either (i) without prior notice to EdisonLearning; or (ii) with prior notice to but against the recommendation of EdisonLearning result in a budget deficit for the Charter School in a given fiscal year, then the Charter Holder, not EdisonLearning, shall bear full responsibility for such budget deficit. The Board and EdisonLearning agree that the budget already approved for the first year will form the basis for future Annual Budgets, subject to austerity reductions in public funds. EdisonLearning shall be prohibited from incurring expenditures in excess of Board approved budgeted amounts without prior approval of the Board.

(b) **Budget Targets.** The Charter Holder acknowledges that it has the obligation to meet its Management Fee obligations as set forth in Section 8.4. Therefore, if actual funds reasonably projected to be paid as Operating Costs are lower than those projected in the Annual Budget, the Edison Learning shall use commercially reasonable efforts to implement all reasonable measures to reduce such amounts or to increase enrollment to offset such shortfall, provided that any such measures shall comply with all applicable laws and the Charter Agreement. If EdisonLearning is unable to cure a budget variance by the end of the fiscal year in which such variance occurs through the measures described in the preceding sentence, EdisonLearning shall have the right to terminate this Agreement without liability or penalty to the Charter Holder. In the event of termination of this Agreement pursuant to this Section 6.5,

such termination shall be effective at the end of the school year in which the failure to cure the budget variance by the Charter Holder occurs. Should the State reduce the per pupil funding more than 15% below the amount set for the 2012-13 Academic Year, EdisonLearning may, in its sole discretion, terminate this Agreement.

8.6. Financial and Business Records. (a) EdisonLearning shall, on behalf of the Charter Holder, maintain accurate financial and business records pertaining to the operation of the Charter School. All financial reports provided or prepared by EdisonLearning shall be in a format prescribed by State law, the Chartering Authority, the State education department or the Charter Agreement (whichever controls), or if not prescribed, in GAAP approved format. EdisonLearning agrees to maintain such records at all times during the Term of this Agreement. Upon the termination or expiration of this Agreement, EdisonLearning agrees to transfer, or transfer control of, such records to the Charter Holder. EdisonLearning also agrees that, consistent with applicable federal and State laws and regulations concerning the maintenance and disclosure of such records, the Charter School's financial records shall be made available to any person consistent with State law, or any appropriate regulatory agency entitled by law to review such records. EdisonLearning also acknowledges that all financial statements and records pertaining to the Charter School are subject to an independent annual audit. Such independent annual audit shall include fees paid to EdisonLearning. Charter Holder shall submit any information it maintains that is relevant to the audit, in a timely manner in order to allow the audit to be completed prior to the date required mandated by applicable law. EdisonLearning shall cooperate fully with the independent auditor and fiscal officer selected, hired or retained by the Board and make available to such independent auditor and fiscal officer all financial and other records pertaining to the Charter School in its possession as requested in a timely manner.

8.7. Start-up Capital. If required, EdisonLearning may, in its sole and absolute discretion, provide the Charter Holder with a start-up capital loan (the "Start Up Loan") at zero (0) percent solely for the purpose of funding purchases of fixtures and equipment, and, prior to July 1, 2014, expenses related to personnel and enrollment operations. The Charter Holder shall repay the Start Up Loan (if any) less an amount commensurate with shortfalls in enrollment, as early as possible during the 5-year term of the charter as the Charter Holder is able to do so based on net cumulative cash flow.

8.8. External Funding Source Applications. (a) The parties recognize that EdisonLearning's Educational Program provides programs and services that are supplemental to the prevailing area public schools' educational programs and that as such EdisonLearning, on behalf of the Charter Holder, may seek external revenue sources (such as competitive grants) to assist in the provision of these enriched programs. EdisonLearning and the Charter Holder shall jointly be responsible for all compliance and reporting requirements connected with any grant that is applied for jointly the Board with assistance of EdisonLearning.

(b) The Charter Holder may also solicit and receive grants and donations for its own use consistent with the mission of the Charter School provided that EdisonLearning's prior approval shall be required for any grants or donations that require implementation of specific programs or the purchase of specific assets for the Charter School, so as to ensure consistency with the Educational Program. If no prior approval is required, the Charter Holder shall still provide notice to EdisonLearning within five (5) business days of its submission of a grant application. Additionally, with respect to any grant applied for by the Charter Holder (whether with or without EdisonLearning's prior approval required), the Charter Holder shall be solely responsible for the receipt and administration of the funds and EdisonLearning shall not be responsible for any assurances made by the Charter Holder nor shall EdisonLearning be responsible for any compliance or reporting requirements connected with a grant initiated by the Charter Holder.

ARTICLE 9

PERSONNEL

9.1. Personnel Responsibilities. The program director of the Charter School (the “Program Director”) at the Charter School shall be an EdisonLearning employee and the other education personnel of the Charter School, including all teachers, shall be employees of the Charter Holder, unless otherwise mutually agreed upon by Charter Holder and EdisonLearning. The salary and employee benefit expenses of the Program Director and teachers shall be expenses of the Charter School. Notwithstanding anything contained herein to the contrary EdisonLearning shall have the responsibility to determine staffing levels in the Charter School and to select, evaluate, assign, and discipline all Charter School personnel consistent with applicable federal and state laws, rules, and regulations (unless waived by appropriate authorities).

9.2. Teacher/Administrator Credentials. All teachers shall be State certified and highly qualified (as defined by the No Child Left Behind Act of 2001 or subsequent applicable legislation) and all administrators shall be properly certified and credentialed, unless waivers from State law have secured. All employees of the Charter School shall undergo criminal background checks as required by State law.

9.3. Employee Salaries and Benefits. EdisonLearning shall, on behalf of the Charter Holder, administer payroll including payment of salaries, fringe benefits and employment taxes of Charter School employees working at the Charter School.

9.4. Training. In order to implement the EdisonLearning Educational Design, EdisonLearning shall provide training in its methods, curriculum, program, and technology to all Charter School instructional personnel prior to the initial opening of the Charter School and thereafter on a regular basis. Such training may be held onsite or offsite, at locations selected by EdisonLearning. EdisonLearning shall also provide ongoing professional development programs throughout the school year.

9.5. Personnel Policies. (a) EdisonLearning shall recommend for adoption by the Board policies concerning the recruitment, assignment, promotion, discipline and termination of personnel and the methods and standards for evaluating performance.

(b) EdisonLearning and the Charter Holder shall ensure that the Charter School complies with applicable Federal and State laws concerning employee welfare, safety and health.

(c) EdisonLearning and the Charter Holder shall ensure that the Charter School complies with all applicable Federal and State laws and regulations concerning the maintenance and disclosure of employee records.

(d) EdisonLearning and the Charter Holder shall not illegally discriminate against any employee or applicant for employment on the basis of race, creed, color, sex, national origin, religion, ancestry, age, disability, marital status, citizenship, veteran status, or sexual orientation in its recruitment, selection, training, utilization, compensation, termination or other employment-related activities.

9.6. Non-solicitation of Employees.

(a) During the Term of this Agreement, and for two (2) years after its expiration or termination, the Charter Holder agrees that it shall not solicit EdisonLearning’s employees.

(b) During the Term of this Agreement, and for two (2) years after its expiration or termination, EdisonLearning agrees that it shall not solicit the Charter Holder's employees.

ARTICLE 10

PROPRIETARY INFORMATION; INTELLECTUAL PROPERTY

10.1. Proprietary Information. Charter Holder acknowledges that EdisonLearning has proprietary interests core to its businesses, and, as such, of significant value. Except for such proprietary interests which EdisonLearning licenses from third parties (collectively, the "Licensed Material"), EdisonLearning owns and shall own all existing, and hereafter created, proprietary rights, including without limitation copyrights, trademark rights, patent rights, trade secret rights, and any other intellectual or industrial property rights throughout the world, with respect to: EdisonLearning *eCourses*TM, any improvements and/or derivative works thereto and all copies or portions thereof, whether or not incorporated into or used in connection with any other products, including without limitation software materials; and all instructional materials, training materials, curriculum and lesson plans, and any other materials, teaching methodologies, school management methodologies or derivative works thereto, that are developed by EdisonLearning, its employees within the scope of any scope of any such person's employment at the Charter School, and agents or subcontractors within the scope of any such person's work at the Charter School, except for a teacher's individual lesson plans which were prepared solely by the teacher, without any input from any EdisonLearning employees, agents or subcontractors, and were not based in any way on any EdisonLearning-provided materials (collectively, the "Proprietary Information"). EdisonLearning shall have the sole and exclusive right to license any of its Proprietary Information to third parties. The Charter Holder shall take all measures reasonably necessary to protect the Proprietary Information and the Licensed Material from being disclosed to or used by any third party without EdisonLearning's prior written approval, which may be withheld in its sole and absolute discretion. Charter Holder shall require all Charter School personnel or agents to agree in writing that they shall not disclose to any third party, publish, copy, transmit to any third party, modify, alter or utilize the Proprietary Information or the Licensed Material without EdisonLearning's prior written consent. Nothing in this paragraph shall be construed to prevent a teacher from using lesson plans or other instructional material which s/he has developed for his or her own use, either within or outside the Charter School, provided that such materials do not incorporate any EdisonLearning Proprietary Information or Licensed Material or otherwise violate the intellectual property rights of third parties. Nothing herein contained shall be construed in a manner that would cause the Charter Holder to act or fail to act in a manner that would cause the Charter Holder to be in violation of any State open records law.

10.2. Name of Charter School; Changes. The name of the Charter School shall be "Young Adult MJ Bridgescape Academy." In recognition of the fact that EdisonLearning owns the rights to the use of the name "Bridgescape", "MJ", "Magic Johnson", "MJB" and other derivations thereof and has agreed to license the name of the Charter School to the Charter Holder for the sole purpose of this Agreement, should this Agreement terminate for any reason, Charter Holder warrants and represents that it shall, no later than thirty (30) days after such termination, change the name of the Charter School to another name not containing any reference to "Bridgescape", "MJ", "Magic Johnson", "MJB" and other derivations thereof.

ARTICLE 11

REPRESENTATIONS AND UNDERTAKINGS

11.1. Representations and Warranties of the Charter Holder. The Charter Holder represents and warrants to EdisonLearning that

(a) The Charter Holder is a nonprofit corporation duly organized, validly existing, and in good standing under the laws of the State. The Charter Holder represents that it has all requisite authority under State law and pursuant to its organizational documents, including the Charter Agreement, to execute, deliver and perform this Agreement,

(b) The execution, delivery and due performance of the terms of this Agreement shall not violate or constitute a default under, nor shall it conflict with, any other agreement to which the Charter Holder is a party.

(c) The execution and delivery of this Agreement has been authorized by the Board, and Charter Holder has taken all requisite action necessary to duly execute and deliver this Agreement.

(d) This Agreement constitutes a legal, valid and binding obligation of the Charter Holder enforceable against it in accordance with the terms hereof.

(e) The Charter Agreement shown attached as Exhibit 1 has not been amended since the date thereof, and the Charter Holder has no knowledge of any changes to the Charter Agreement under consideration by the Chartering Authority.

(f) There is no known pending or threatened litigation against the Charter School or the Charter Holder.

(g) There are no material contracts by which the Charter School is bound; and

(h) The Charter School is in good standing with the Chartering Authority and is not aware of any material issues which might affect such good standing.

11.2. Undertakings of the Charter Holder. The Charter Holder undertakes to:

(a) Comply with all Federal and State laws, including, without limitation, all requirements necessary to maintain its status as a non-profit corporation in good standing under the laws of the State, as well as any such requirements for obtaining and maintaining its status as a tax exempt organization under Section 501(c)(3) of the United States Internal Revenue Code of 1986, as amended.

(b) Comply with all material aspects of the Charter Agreement.

(c) At all times during the term hereof appoint two members of the Board as President and Treasurer, respectively, and, Charter Holder shall take reasonable measures to ensure that the President or Treasurer, respectively, shall be available by phone or, if necessary, in person (or in their stead other Board members shall be designated to perform such responsibilities) at normal business hours during the Term and such persons shall be responsive within a reasonable time when contacted by EdisonLearning.

(d) The Board understands that overseeing the academic, fiscal and operational components of a charter school is an important responsibility. Upon execution of this Agreement, the Board agrees to seek out and obtain a regular program of board training that includes, at a minimum, intensive training for new Board members and periodic enhancement training for all Board members. The cost of Board training will be included in each annual budget. At the request of the Board, EdisonLearning shall provide the Board a list of board training resources. Board training is a material term of the Agreement and failure of the Board to consistently seek and obtain such training may be considered a breach of this Agreement.

11.3. Representations and Warranties of EdisonLearning. EdisonLearning represents and warrants that

(a) EdisonLearning is a corporation duly organized validly existing, and in good standing under the laws of the State of Delaware, and is (or will, within the time allowed by law, become) duly authorized and qualified to do business in the State of Arkansas, with lawful power and authority to enter into this Agreement, acting by and through its duly authorized officers.

(b) EdisonLearning represents and warrants that the Agreement constitutes a legal, valid and binding obligation of EdisonLearning enforceable against it in accordance with the terms hereof.

(c) The execution, delivery and due performance of this Agreement shall not violate or constitute a default under, nor shall conflict with, any other agreement to which EdisonLearning is a party.

(d) There is no pending or threatened litigation against EdisonLearning that would materially affect EdisonLearning's ability to execute, deliver and duly perform this Agreement.

(e) There are no contracts with third parties which would materially affect EdisonLearning's ability to perform its obligations under this Agreement.

11.4. Undertaking of EdisonLearning.

(a) Comply with all Federal and State laws, including, without limitation, all requirements necessary to maintain its status as an out-of-state corporation authorized to do business in the State of Arkansas;

(b) Comply with all aspects of the Charter Agreement applicable to EdisonLearning, if any;

(c) At all times during the term hereof, EdisonLearning shall designate a Regional General Manager and/or designee who shall be available by phone or, if necessary, in person (or in his or her stead other EdisonLearning employees shall be designated to perform such responsibilities) at normal business hours during the Term and such persons shall be responsive when contacted by the Charter Holder.

ARTICLE 12

INDEMNIFICATION

12.1. Legal Representation and Costs.

(a) Except as expressly provided herein or in connection with insurance coverage required to be provided in this Agreement by either party for the benefit of the other, each party shall be responsible for its own legal representation and legal costs.

(b) Except where there is an actual or potential conflict of interest, the Charter Holder and EdisonLearning shall fully cooperate with legal counsel for one another in connection with any legal claim asserted against either of them.

12.2. Challenges to the Legality of this Agreement.

(a) Should any claim, demand, or suit be filed against the Charter Holder which arises out of any claim that this Agreement or any part thereof is in violation of law, or of any constitutional provision, statute, law, rule, contract, or collective bargaining agreement binding upon the Charter Holder, the Charter Holder agrees to promptly notify EdisonLearning and shall actively seek its assistance and participation in the defense of such claim.

(b) Should any claim, demand, or suit be filed against EdisonLearning which arises out of any claim that this Agreement or any part thereof is in violation of law, or of any constitutional provision, statute, law, rule, contract, or collective bargaining agreement binding upon the Charter Holder, EdisonLearning agrees to promptly notify the Charter Holder and shall actively seek its assistance and participation in the defense of such claim.

12.3. Indemnity to Property or Persons.

(a) EdisonLearning shall defend, indemnify, save and hold harmless the Charter Holder, the Charter School and their employees, officers, directors, subcontractors and agents (collectively for purposes of this section, "Charter Holder") from and against any and all claims, demands, suits, costs, judgments, or other forms of liability to third parties, actual or claimed, including attorney fees, for injury to property or persons, occurring or allegedly occurring in, on or about the Charter School to the extent arising from the negligent, grossly negligent or reckless actions and omissions or willful misconduct committed by EdisonLearning by any of its employees, officers, directors, subcontractors, agents or by Charter Holder employees while assigned to and working under the supervision of EdisonLearning during the term of this Agreement or any renewal thereof. Upon written notice from the Charter Holder within five (5) business days, EdisonLearning shall defend the Charter Holder in any such action or proceeding brought thereon

(b) The Charter Holder shall indemnify and save and hold harmless EdisonLearning, its employees, officers, directors, subcontractors and agents (collectively for purposes of this section, "EdisonLearning") from and against any and all claims, demands, suits, costs, judgments or other forms of liability to third parties, actual or claimed, including attorney fees, for injury to property or persons, to the extent occurring or allegedly occurring from the negligent, grossly negligent or reckless actions and omissions or willful misconduct committed by the Charter Holder or by any of its employees, officers, directors, subcontractors, or agents (including claims, demands, suits or other forms of liability actual or claimed of whatsoever kind or character including attorney's fees), unless the alleged action, omission or misconduct is alleged to have been committed by Charter Holder employees assigned to EdisonLearning's supervision in the Charter School. Upon written notice from EdisonLearning within five (5) business days, the Charter Holder shall defend EdisonLearning in any such action or proceeding brought thereon.

12.4. No Waiver. The foregoing provisions shall not be deemed a relinquishment or waiver of any kind of applicable limitations of liability to third parties provided or available to any of the parties under applicable state governmental immunities laws.

ARTICLE 13

DEFAULT AND TERMINATION

13.1. Charter Holder Termination for Cause. (a) The Charter Holder may terminate this Agreement for cause prior to the end of the Term for any of the reasons set forth in Paragraph 8.3(a) or in subparagraphs (1) or (2) below:

(1) If EdisonLearning materially breaches any of the material terms and conditions of this Agreement and fails to remedy such breach within 90 days after receipt of written notice that EdisonLearning is in breach and that the Charter Holder intends to terminate this Agreement if the breach is not cured within 90 days or any additional time agreed to by the Board; or

(2) If there occurs an enactment, repeal, promulgation or withdrawal of any Federal, State, or local law, regulation, or court or administrative decision or order which, after exhausting all possible appeals, results in a final judgment or finding that this Agreement or the operation of the Charter School in conformity with this Agreement, would violate the Charter Holder's responsibilities, duties or obligations under the State or Federal constitutions, statutes, laws, rules or regulations.

(b) The following procedures shall apply to any termination pursuant to Section 13.1(a)(2) above. The Charter Holder shall give EdisonLearning written notice of its intent to terminate this Agreement at least 90 days prior to the effective date of termination stated in the notice. The cause for termination shall immediately be submitted to the Board President and EdisonLearning's Chief Executive Officer, or their respective designees, for consideration and discussions to attempt to resolve the matter. If these representatives are unable to resolve the matter, then termination shall become effective in accordance with the Charter Holder's termination notice.

(c) Unless the alleged default under Section 11.1(a)(1) above is cured within 90 days of the date of the notice described in that Section, termination shall become effective in accordance with the Charter Holder's termination notice.

(d) Notwithstanding the foregoing, any termination will not become effective until the end of a school year unless, in the sole discretion of the Charter Holder, there are unusual and compelling circumstances which would justify the disruption to the educational program and the students which would be caused by a mid-year termination, and the Charter Holder and EdisonLearning must fulfill their obligations set forth in this Agreement until the effective date of termination. The failure of EdisonLearning to pay the Operating Expenses of the Charter School pursuant to the provisions of Section 8.3(a) of this Agreement shall constitute an "unusual or compelling" circumstance warranting a mid-year termination.

(e) The Charter Holder agrees, in the event of termination, to return and/or destroy (as instructed by EdisonLearning) any and all copies of Licensed Material and Proprietary Information, as such terms are defined in Section 10.1 above, and change its corporate name and the name of the Charter School as set forth in Section 10.2 above.

(f) EdisonLearning agrees that, in the event of termination pursuant to this section, EdisonLearning will return to the Charter Holder any and all student records, faculty records and staff records in its possession to extent permitted under Federal or State law.

13.2. EdisonLearning Termination for Cause.

(a) In addition to the causes of termination set forth in Section 8.5(b) of this Agreement, EdisonLearning may terminate the Agreement for cause prior to the end of the Term, in accordance with the procedures set forth in subsection (b) below, for any of the reasons set forth in subparagraphs (1), (2), (3), or (4) below:

(1) If the Charter Holder fails to adopt a reasonable budget, personnel policies, curriculum, program or similar recommendations of EdisonLearning with respect to the Charter School, which EdisonLearning reasonably determines to be necessary for the implementation of the Educational Program at the Charter School;

(2) If the Charter Holder fails to pay when due any monetary obligation of the Charter School as required by the provisions of this Agreement, and such obligation remains unpaid for a period of 30 days after receiving written notice of the delinquent payment from EdisonLearning;

(3) If the Charter Holder materially breaches any of the material non-monetary provisions of this Agreement and fails to remedy such breach within 90 days after receipt of written notice of such breach from EdisonLearning or any additional time agreed to by EdisonLearning;

(4) A material reduction in the funding or revenue for the Charter School (defined as reduction of more than 15% from the 2012-13 per pupil funding amount);

(5) The enactment, repeal, promulgation or withdrawal of any federal, state, or local law, regulation, or court or administrative decision or order which has a material adverse effect on EdisonLearning's ability to operate the Charter School in accordance with its budget or the Educational Program; or

(6) If the Charter Holder, or any of its employees or agents, willfully breaches its obligations under Section 10.1 hereof.

(b) The following procedures shall apply to any termination pursuant to Section 13.3(a)(1), (2), (4), and (5): EdisonLearning shall give the Board written notice of its intent to terminate this Agreement at least 90 days prior to the effective date of the termination stated in the notice. The cause of termination shall immediately be submitted to the Board President and EdisonLearning's Chief Executive Officer, or their respective designees, for consideration and discussions to attempt to resolve the matter. If these representatives are unable to resolve the matter, then termination shall become effective in accordance with EdisonLearning's termination notice unless the alleged default is cured within 90 days of the date of the notice.

(c) Notwithstanding the foregoing, any termination will not become effective until the end of a school year unless, in the sole discretion of EdisonLearning, there are unusual and compelling circumstances that justify the disruption to the educational program and the students which would be caused by to a mid-year termination and EdisonLearning and the Charter Holder must fulfill their obligations set forth in this Agreement until the effective date of termination. The failure of Charter

Holder to pay EdisonLearning pursuant to the provisions of Section 8 of this Agreement shall constitute an “unusual or compelling” circumstance warranting a mid-year termination.

(d) In the case of a termination pursuant to Section 13.2(a)(2), termination shall be effective upon notice provided that the cure period specified above has lapsed without cure. In the case of a termination pursuant to Section 13.2(a)(6), termination shall be effective immediately upon the delivery of notice, provided that EdisonLearning has reasonable grounds to believe that the provisions of Section 10.1 have been violated.

(e) EdisonLearning agrees that, in the event of termination pursuant to this section, EdisonLearning will return to the Charter Holder any and all student records, faculty records and staff records in its possession to extent permitted under Federal or State law.

13.3. Fees and Expenses Due Upon Termination; Disposition of EdisonLearning-owned Assets.

Upon the termination or expiration of this Agreement for any reason, the Charter Holder shall pay to EdisonLearning within thirty (30) days of such termination or expiration, all amounts due to EdisonLearning hereunder, including, but not limited to, amounts owed in respect of the Management Fee, Operating Costs and amounts due under EdisonLearning-assumed leases (if any) pursuant to Section 7.1(d) above. If the termination is for cause under Section 13.1, the Charter Holder shall pay to EdisonLearning within sixty (60) days of such termination or expiration, all amounts due to EdisonLearning hereunder, subject to the claims of any senior creditors. To the extent EdisonLearning has placed any of its own assets in the School during the Term, upon termination of this Agreement for any reason, the Charter Holder shall pay to EdisonLearning the Net Book Value of such assets as of the date of termination as reflected by the records of the Charter Holder. All assets purchased by the Charter Holder shall remain the property of the Charter Holder upon termination, or as may otherwise be required by applicable Law.

13.4. Remedies. The sole remedies for breaches of this Agreement shall be specific performance of the obligations outlined herein or termination of this Agreement in accordance with Sections 13.1 and 13.2, except for any breach of any obligation to make monetary payments to the other party.

ARTICLE 14

INSURANCE

14.1. Liability Insurance.

(a) EdisonLearning shall secure and maintain, at the Charter Holder’s expense, for the protection of EdisonLearning and its officers, directors, employees, agents and volunteers, and Charter Holder and its officers, directors, employees, agents and volunteers, insurance covering liability arising out their performance of the duties set forth in this Agreement as set forth in the attached Appendix B. Such insurance policies shall be issued by an insurance company or companies selected by EdisonLearning and licensed to do business in the State. Except as otherwise agreed in writing by the Charter Holder and EdisonLearning, all such insurance coverage shall be primary insurance, and shall be occurrence based insurance and not claims made insurance. The Charter Holder will be named an additional insured on EdisonLearning’s commercial general liability, automobile liability and crime insurance policies, but such additional insured status shall only extend coverage to the Charter Holder for its liability for the negligent or intentional acts or omissions of EdisonLearning in performing under this Agreement.

(b) The Charter Holder shall secure and maintain, at its expense, for the protection of the Charter Holder and its officers, directors, employees, students, teachers and volunteers, insurance covering solely the Charter Holder's liability arising out its performance of its duties under this Agreement as set forth in Charter Application and the attached Appendix B. Such insurance policies shall be issued by an insurance company or companies selected by Charter Holder and licensed to do business in the State. Except as otherwise agreed in writing by the Charter Holder and EdisonLearning, all such insurance coverage shall be primary insurance, and, shall be occurrence based insurance and not claims made insurance. EdisonLearning will be named an additional insured on the Charter Holder's commercial general liability, automobile liability and crime insurance policies, but such additional insured status shall only extend coverage to EdisonLearning for its liability for the negligent or intentional acts or omissions of Charter Holder in performing under this Agreement

(c) The Charter Holder shall require that its contractors, if any, providing services to the Charter School shall name EdisonLearning as an additional insured under their respective commercial general liability and automobile liability insurance policies for personal injury and property damage; and if such services are provided directly by the Charter Holder rather than by contracted service, then EdisonLearning shall be named as an additional insured under the Charter Holder's insurance policies.

(d) The insurance policies maintained by each party pursuant to this Agreement shall be endorsed to state that coverage shall not be suspended, voided, cancelled, or reduced, in coverage or limits, except after thirty days prior written notice to EdisonLearning and the Charter Holder. The parties shall furnish one another certified copies of the insurance policies or else Certificates of Insurance which demonstrate compliance with this Agreement.

14.2. Hazard Insurance.

(a) EdisonLearning shall maintain property insurance for all ancillary property and other personal property provided by EdisonLearning (if any) at the school site(s). EdisonLearning shall secure from its insurers waivers of subrogation as against the Charter Holder with respect to damages to EdisonLearning's property at the site(s), and shall otherwise hold the Charter Holder harmless against liabilities arising out of any such damages.

(b) The Charter Holder shall maintain property insurance for the site(s) and for all ancillary property on the site provided by the Charter Holder. The Charter Holder shall secure from its insurers waivers of subrogation as against EdisonLearning and its facilities managers, with respect to damages to the site(s), and shall otherwise hold EdisonLearning and its facilities managers, and their respective offices, employees and agents, harmless against liabilities arising out of any such damages.

15.3. Workers' Compensation Insurance. Each party shall secure and maintain workers' compensation insurance covering its employees, and the amounts necessary for funding of workers' compensation insurance for employees of the Charter Holder shall be reflected in the annual budget.

15.4. Coordination of Risk Management. The parties shall coordinate risk management activities with one another. This will include the prompt reporting of any and all pending or threatened claims, filing of timely notices of claim, cooperating fully with one another in the defense of any claims and complying with any defense and reimbursement provisions of state governmental immunity laws and applicable insurance policies. Regardless of whether or not EdisonLearning provides insurance for the Charter Holder, EdisonLearning shall give the Charter Holder prompt written notice of each legal claim made against it arising out of its operation of the School. Similarly, the Charter Holder shall promptly notify EdisonLearning in writing of any claim against EdisonLearning, the Charter School or the Charter Holder arising out of or relating to the School or EdisonLearning, and shall cooperate fully with EdisonLearning

in the defense of any claims. Neither EdisonLearning nor the Charter Holder shall compromise, settle, negotiate or otherwise affect any disposition of any claim or potential claims asserted against it to the extent such claims are insured or indemnified by or through the other party without the approval of the other party.

ARTICLE 16

MISCELLANEOUS

16.1. Alternative Dispute Resolution. The parties agree to cooperate in good faith in all actions relating to the Agreement, to communicate openly and honestly, and generally to attempt to avoid disputes in connection with the Agreement. If, nevertheless, a dispute should arise in connection with the Agreement, the parties agree to use their best efforts to resolve such dispute in a fair and equitable manner and without the need for expensive and time-consuming litigation. Except as otherwise set forth in Article 13 of this Agreement, in the event any dispute arises between the Charter School and EdisonLearning concerning this Agreement, it shall be resolved in accordance with the alternate dispute resolution procedure that is set forth in Appendix C hereto. If a dispute arises over the amount of funds that the Charter Holder is to remit to EdisonLearning, the Charter Holder shall remit all funds that are not in dispute to EdisonLearning and hold the disputed funds in escrow until such time as the amount in dispute shall be resolved in accordance with Appendix C.

16.2. Force Majeure. Neither party shall be liable if the performance of any part or all of this contract is prevented, delayed, hindered or otherwise made impracticable or impossible by reason of any strike, flood, riot, fire, explosion, war, act of terrorism, act of God, sabotage, accident or any other casualty or cause beyond either party's control, and which cannot be overcome by reasonable diligence and without unusual expense.

16.3. Independent Contractor Status. The parties to this Agreement intend that the relationship between them created by this Agreement is that of an independent contractor, and not employer-employee. No agent, employee, or servant of EdisonLearning shall be deemed to be the employee, agent or servant of the Charter Holder except as expressly acknowledged in writing by the Charter Holder.

16.4. Subcontracting. EdisonLearning reserves the right to subcontract any and all services specified in this Agreement to public or private subcontractors, as permitted by law. However, except as delineated in the Charter Application and this Agreement, EdisonLearning shall not subcontract the management, oversight or operation of the teaching and instructional program, except as specifically permitted herein or as expressly agreed to in writing by the Charter Holder.

16.5. No Third Party Beneficiary Rights. No third party, whether a constituent of the Charter Holder or otherwise, may enforce or rely upon any obligation of, or the exercise of or failure to exercise any right of, the Charter Holder or EdisonLearning in this Agreement. This Agreement is not intended to create any rights of a third party beneficiary.

16.6. Appendices, Exhibits and Schedules. The parties agree to the terms and conditions of this Agreement and the Appendices and Exhibits attached hereto and incorporated herein by reference.

16.7. Entire Agreement. This Agreement and the Appendices and Exhibits hereto shall constitute the full and complete agreement between the parties. All prior representations, understandings and agreements are merged herein and are superseded by this Agreement.

16.8. Construction and Enforcement. The Agreement shall be construed and enforced in accordance with the laws of the State of Arkansas.

16.9. Amendments. This Agreement may be altered, amended, changed or modified only by agreement in writing executed by EdisonLearning and the officer of the Board authorized to so execute by action of the Board on behalf of the Charter Holder.

16.10. Section Headings. The section headings shall not be treated as part of this Agreement or as affecting the true meaning of the provisions hereof. The reference to section numbers herein shall be deemed to refer to the numbers preceding each section.

16.11. Invalidity of Provisions of this Agreement. If, for any reason, any provision hereof shall be determined to be invalid or unenforceable, the validity and effect of the other provisions hereof shall not be affected thereby.

16.12. Assignment. This Agreement shall not be assigned by either party without the prior written consent of the other party, provided that EdisonLearning may, without consent of the Charter Holder, delegate the performance but not responsibility for such duties and obligations of EdisonLearning as specifically set forth herein.

16.13. No Waiver. No waiver of any provision of this Agreement shall be deemed or shall constitute a waiver of any other provision. Nor shall such waiver constitute a continuing waiver unless otherwise expressly stated.

16.14. Survival. All representations, warranties and indemnities made herein shall survive termination of this Agreement.

16.15. Notices. All notices required or permitted by this Agreement shall be in writing and shall be either personally delivered or sent by nationally-recognized overnight courier, facsimile or by registered or certified U.S. mail, postage prepaid, addressed as set forth below (except that a party may from time to time give notice changing the address for this purpose). A notice shall be effective on the date personally delivered, on the date delivered by a nationally-recognized overnight courier, on the date set forth on the receipt of a telecopy or facsimile, or upon the earlier of the date set forth on the receipt of registered or certified mail or on the fifth day after mailing.

16.16. Confidentiality. To the extent permitted under Section 149.13 or any successor statute thereto (the “Arkansas Public Records Law”) and any other State or Federal law or regulations, Charter Holder and EdisonLearning shall treat all of the terms of this Agreement confidentially and shall not disclose the terms hereof to any third party other than as required by Federal and State law and by the Chartering Authority. To the extent that Charter Holder wishes to disclose this Agreement to an educational consultant, academic or university, auditor or accountant, the Charter Holder agrees to require such consultant to execute a non-disclosure agreement in a form acceptable to EdisonLearning. Notwithstanding the above, the Charter Holder and EdisonLearning agree not to provide a copy of this Agreement to a Board member or prospective Board member of any existing or prospective charter school.

APPENDIX A Performance Criteria

APPENDIX B Insurance

APPENDIX C Alternative Dispute Resolution

EXHIBIT 1 Charter Application

EXHIBIT 2 Charter Agreement

DRAFT

APPENDIX A**Performance Criteria**

[This Appendix shall contain the final agreed Performance Criteria agreed upon by OCBA and the Charter Holder.]

DRAFT

APPENDIX B

Insurance

EdisonLearning shall secure and maintain the following minimum insurance at Charter Holder's expense:

- Commercial general liability insurance with limits of one million dollars (\$1,000,000) per occurrence and two million dollars (\$2,000,000) aggregate;
- Automobile liability insurance of one million dollars (\$1,000,000);
- Workers' Compensation insurance with Statutory primary coverage and at least five hundred thousand dollars (\$500,000) of Employer's Liability coverage;
- Employee dishonesty insurance with limits of at least five hundred thousand dollars (\$500,000);
- Umbrella liability coverage of \$5,000,000 in excess of the primary commercial general liability, automobile liability and employer's liability insurance policies.
- EdisonLearning will also arrange for Educators' Legal Liability and Employment Practices Liability insurance with limits of two million dollars (\$2,000,000) each claim and two million dollars (\$2,000,000) aggregate.

Charter Holder shall secure and maintain the following minimum Insurance:

- Workers' Compensation insurance with Statutory primary coverage and at least one million dollars (\$1,000,000.00) of Employer's liability coverage; and
- Commercial general liability insurance with limits of one million dollars (\$1,000,000) per occurrence;
- Property insurance with limits of two hundred fifty thousand dollars (\$250,000) of business personal property coverage, five hundred thousand dollars (\$500,000) of EDP coverage and one million dollars (\$1,000,000) of loss of income/extra expense coverage;
- Umbrella coverage of ten million (\$10,000,000);

APPENDIX C

Alternative Dispute Resolution

1. The Charter Holder and EdisonLearning agree that the existence and details of a dispute notwithstanding, both parties shall continue without delay their performance hereunder, except for any performance which may be directly affected by such dispute.
2. Any and all disputes which cannot be resolved informally shall be settled by final and binding arbitration administered by JAMS pursuant to its Comprehensive Rules and Procedures, except as otherwise expressly provided herein or agreed to in writing by the parties, or to the extent inconsistent with the requirements of State law. The arbitration shall take place in the city in which the Charter Holder is located and that judgment upon the award rendered by the arbitrator may be entered in any court having jurisdiction thereof, in accordance with State laws.
3. EdisonLearning shall advance the reasonable fees and expenses of the neutral arbitrator. The arbitrator shall have authority to determine, at the conclusion of the arbitration, whether the Charter Holder shall have any obligation to reimburse EdisonLearning for all, for one-half, or none of the fees and expenses of the neutral arbitrator that were advanced by EdisonLearning. All other fees and expenses of each party, including without limitation, the fees and expenses of its counsel, witnesses and others acting for it, arbitrators not jointly appointed, shall be paid by the party incurring such costs.
4. The arbitrator(s) shall have no authority to add to, delete from, or otherwise modify any provision of this Agreement or the EdisonLearning *eAcademy*[™], or to issue an award having such effect.

GRAPHS - SHRINKING GRADUATING CLASSES

Crittenden County's Graduating Classes between 2008 and 2013

Note: The graduation numbers for the class of 2013 have not yet been posted on the ADE Data Center website. The links to the ADE Data Center are <https://adedata.arkansas.gov/statewide/Counties/EnrollmentByGrade.aspx?year=23&search=crittenden&pagesize=10> and <https://adedata.arkansas.gov/statewide/Counties/Graduates.aspx?year=22&search=crittenden&pagesize=10>

\$10,780 = THE **ANNUAL LOSS OF ECONOMIC BENEFIT FOR EACH NON-GRADUATE IN ARKANSAS**

This loss of economic benefit is broken down as: \$5,339 loss of additional annual income for each non-graduate, \$4,195 loss of additional annual spending for each non-graduate, and \$1,246 loss of additional annual investment for each non-graduate.

Using these values, the economic benefit **not gained** from Crittenden County's 241 non-graduates of the Class of 2012 could be as much as **\$2.6 million annually**.

And the economic benefit **not gained** from Crittenden County's 307 non-graduates of the Class of 2011 could be as much as **\$3.3 million annually**.

\$10,780 = THE ANNUAL LOSS OF ECONOMIC BENEFIT FOR EACH NON-GRADUATE IN ARKANSAS

This loss of economic benefit is broken down as: \$5,339 loss of additional annual income, \$4,195 loss of additional annual spending, and \$1,246 loss of additional annual investment.

*The dropout crisis is not just an Arkansas issue. It is a nationwide issue. But when considering efforts to improve the economy, it can be one of the easiest fixes and could transform Arkansas. For instance, by halting, statewide, the dropout crisis for just one year, for just one class of non-graduates (let's use the 8,898 non-graduates from 2011 as example), we can boost the Arkansas economy annually by about **\$96 million**. Multiply that amount yearly over those non-graduates' lifetimes and the economic gain would be astonishing. Multiply similar lifetime benefits for every graduating class in the future and this economic benefit could transform Arkansas.*

BLENDDED LEARNING PEDAGOGICAL MODEL

MJBA Blended Learning Pedagogical Model

Foundational eCourse Learning

Teacher Actions:

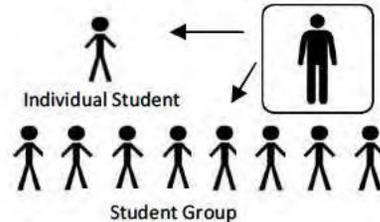

FOUNDATIONAL GUIDE (FG)

- Analyzes data on course progression to identify students with less seat time and slow course progression
- Fluent knowledge of eCourse functionality and the way courses are structured
- Roves and monitors the lab: prompts students to use the available tools in the system to support learning
- Reinforces online rules around working in the lab e.g. listening to music
- Targets support for students identified in the system as having less seat time, slower progress or excessive retesting without recourse to re-teaching resources
- 1 to 4 hour sessions
- 1 FG to 60 to 100 students

Student Actions

- Engages in eCourse Platform: online, independent learning
- Uses eCourse tools and personal learning strategies when they get stuck
- Accesses re-teaching online material when they score below their expected outcomes

Foundational & Conceptual Learning

Teacher Actions

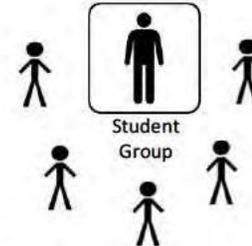

RESPONSIVE TUTOR (RT)

- Subject Specific Foundational and Conceptual knowledge and skill development
- Analyzes data within a subject area
- Pulls together groups (up to 10) on the basis of common difficulties
- Typically/ Frequently uses Teacher-Group-Student(T-G-S)- Response style pedagogy i.e. metacognitive modeling, group responses, individual responses and student self assessment
- Pedagogy focuses on the EFLT Power Themes
- Typically 20 minute sessions
- 1 RT to up to 10 students

Student Actions

- Overcomes learning hurdles due to intervention by the teacher
- Engages in open, honest dialogue about their learning
- Reflects on and recognizes the impact on their learning when they change their learning strategy
- Accesses high quality resources that assist in their learning

Collaborative Conceptual Learning

Teacher Actions

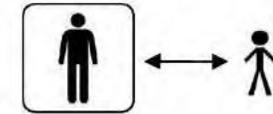

Project Mentor (PM)

- Relates Conceptual content and 21st Century skills across the curriculum in creative ways through student led, collaborative projects
- Links projects to core values, core learning skills & Literacy CCSS across subjects (writing, speaking & listening)
- Launches project – lays out the challenge in terms of questions, expectations and criteria
- Uses mainly non directive questions- How would you...? Who will be responsible for what...? Explain how/ why you did..?
- Checks in on student progress and collaborative teaming skill development
- Six 1 hour sessions over a three week span –with two projects over 9 weeks
- 1 PM to Four Student Groups made up of 4 to 5 students each

Student Actions

- Engages in open, honest dialogue about their learning
- Self and Peer assesses against CLS at the beginning & end of project
- Draws on and articulates connections between subject area content within the overall project big concepts in Common Core
- Performs a group role and holds others accountable for theirs

Personal Learning

Teacher Actions

LEARNING COACH (LC)

- Focuses on Personal Development of Student
- Develops impactful relationship between the student, the school and the family
- Assists student with academic and personal goal development and intended outcomes
- Builds student capacity to organize themselves for college and career
- Reviews student outcome data
- Conducts 1 on 1 personal meetings with students
- Links student actions to student outcomes
- 1 LC to 25 students

Student Actions

- Sets themselves stretching goals based on their understanding of where they are and where they need to be
- Takes ownership of their learning and tracks their own performance
- Are confident, purposeful and resilient
- Want to do their best, are motivated and challenged

Student Enrollment Statement of Understanding

- My enrollment is contingent on following the rules.
- I understand that my parent(s) are responsible for arranging my transportation to and from school.
- I understand that I must follow the dress code guidelines.
- I understand that I must follow the technology policies.
- I understand that backpacks and oversize handbags are not permitted in the classroom.
- I understand that random searches of my personal property may be conducted.
- I understand that the school is not responsible for any lost, stolen, or damaged property, such as jewelry, electronics, etc.
- I understand that I may not loiter on any business property within a block of the program facility.
- I understand that I may not be on the program grounds without a staff member/escort.
- I understand that I am required to respect the rights and privileges of other students, teachers, and all staff employees.
- I understand that if I do not follow the rules and regulations of the program, I may be subject to expulsion from this program.
- I understand that consequences may be imposed by the staff for misconduct outside of the school campus which affects the school's learning environment. This includes, but is not limited to, misconduct within a 200-yard radius of the campus and misconduct that takes place in a virtual context.

I am committed to meeting the following goal:

Student:

My signature signifies my willingness to comply with each item and acknowledges I have read the Parent-Student Handbook and support the rules and expectations outlined herein.

Student Signature

Date

Parent:

My signature signifies my understanding that my child's failure to comply will result in consequences as outlined by the Student Code of Conduct and acknowledges I have read the Parent-Student Handbook and support the rules and expectations outlined herein.

Student First and Last Name: _____

Home Language Survey

The Office of Civil Rights (OCR) and the Department of Education require that school districts and charter schools identify English Language Learner (ELL) students in order to provide appropriate language instructional programs for them. Young Adult Magic Johnson Bridgescape Academy has selected the Home Language Survey as the method for determining if the student is a language-minority student.

Student's First and Last Name *Grade*

1. What is/was the student's first language? _____

2. Does the student speak a language(s) other than English? Yes No
(Do not include languages learned in school.)

If yes, specify the language(s): _____

3. What language(s) is/are spoken in your home? _____

4. Has the student attended school in the United States in the past 3 years?..... Yes No
If yes, complete the following:

| Name of School | State | Dates Attended |
|----------------|-------|----------------|
| | | |
| | | |
| | | |

Parent/Guardian/Emancipated/Adult Student's Signature *Date*

Young Adult Magic Johnson Bridgescape Academy has the responsibility under the federal law to serve students who are limited English proficient and need English instructional services. Given this responsibility, Young Adult Magic Johnson Bridgescape Academy has the right to ask for the information it needs to identify English Language Learners (ELLs). As part of the responsibility to locate and identify ELLs, Young Adult Magic Johnson Bridgescape Academy may conduct screenings or ask for related information about students who are already enrolled in the school as well as from students who enroll in the school in the future.

Young Adult Magic Johnson Bridgescape Academy uses the ELDA as its screening tool. The school must administer the ELDA to a student during the enrollment process so that a student's enrollment status can be determined.

Family Educational Rights and Privacy Act (FERPA) - For your records.

Annual Notice of Rights under the Family Educational Rights and Privacy Act (FERPA)

Young Adult Magic Johnson Bridgescape Academy protects the confidentiality of personally identifiable information regarding its eligible, thought to be eligible and protected handicapped students (if not protected by IDEA) in accordance with the Family Educational Rights and Privacy Act of 1974 (FERPA) and implementing regulations as well as IDEA and its implementing regulations.

Education records are records that are directly related to the student, including computer media and videotape, which are maintained by an educational agency or by a party acting for the agency. "Educational agency", for purposes of this notice, means Bridgescape™ Academy. For all students, the educational agency maintains education records which include but are not limited to:

Personally identifiable information is confidential information that includes but is not limited to the students' name, name of parents and other family members, the address of the student or student's family, and personal information or personal characteristics which would make the student's identity easily traceable.

Directory information is information contained in an education record of a student which would not generally be considered harmful or an invasion of privacy if disclosed. It includes but is not limited to, the student's name, address, telephone number, electronic mail address, photograph, date and place of birth, major field of study, grade level, enrollment status (e.g., undergraduate or graduate, full-time or part-time), participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, degrees, honors and awards received, and the most recent previous educational agency or institution attended.

The Family Educational Rights and Privacy Act (FERPA) afford parents and students over 18 years of age ("eligible students") certain rights with respect to the student's education records. They are: Parents have the right to inspect and review a child's education record. Young Adult Magic Johnson Bridgescape Academy will comply with a request to inspect and review education records without unnecessary delay and before any meeting regarding and IEP or any due process hearing, but in no case more than 45 days after the request has been made. Requests should be submitted in writing, indicating the records the parents wish to inspect, to the school principal or other designated school official. Parents have the right to a response from the school to reasonable requests for explanations and interpretations of the records. Parents have the right to request copies of the records. While Young Adult Magic Johnson Bridgescape Academy cannot charge a fee to search for or to retrieve information, it may charge a copying fee as long as it does not effectively prevent the parents from exercising their right to inspect and review the records. Parents have the right to appoint a representative to inspect and review their child's records. If any education record contains information on more than one child, parents have the right only to inspect and review the information relating to their child.

If parents think information in an education record is inaccurate, misleading or violates the privacy or other rights of their child, they may request amendment of the record. Requests should be in writing and clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading. Young Adult Magic Johnson Bridgescape Academy will decide whether to amend the record and will notify the parents in writing of its decision.

Family Educational Rights and Privacy Act (FERPA) – For your records.

If Young Adult Magic Johnson Bridgescope Academy refuses to amend a record it will notify the parents of their right to a hearing to challenge the disputed information. Additional information regarding the hearing procedures will be provided to the parents or eligible student when notified of the right to a hearing.

Young Adult Magic Johnson Bridgescope Academy will inform parents when personally identifiable information is no longer needed to provide educational services to a child. Such information must be destroyed at the request of the parents. Parents have a right to receive a copy of the material to be destroyed. However, a permanent record of a student's name, address, and telephone number, his or her grades, attendance record, classes attended, grade level completed, and year completed may be maintained without the limitation. "Destruction" of records means physical destruction or removal of personal identifiers from information so that the information is no longer personally identifiable.

The school will provide, upon request, a listing of the types and locations of education records maintained, the school officials responsible for these records, and the personnel authorized to see personally identifiable information. Such personnel receive training and instruction regarding confidentiality. The school keeps a record of parties obtaining access to education records, including the name of the party, the date access was given, and the purpose for which the party is authorized to use the records.

Parents have the right to consent or refuse to consent to disclosure of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent.

"Consent" means: the parent (s) have been fully informed regarding the activity requiring consent, in their native language or other mode of communication; they understand and agree in writing to the activity; and they understand that consent is voluntary and maybe revoked at any time, information may be disclosed without consent to school officials with legitimate educational interests. A school official is a person employed by the school, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); state agency representative, person or company with whom the school has contracted to perform a special task (such as an attorney, auditor, medical consultant, or therapist); or a parent or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility. Directory information may be released without parent consent. Parents have the right to refuse to let an agency designate any or all of the above information as directory information.

Upon written request, Young Adult Magic Johnson Bridgescope Academy discloses education records without consent to officials of another school district in which a student seeks or intends to enroll.

Parents have a right to file a complaint with the U.S. Department of Education concerning alleged failures by Young Adult Magic Johnson Bridgescope Academy to comply with the requirements of FERPA. Complaints may be filed with the Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, S.W., Washington, D.C. 20202-4605.

Family Educational Rights and Privacy Act (FERPA) Consent Form

The Family Educational Rights and Privacy Act (FERPA) afford parents and students over 18 years of age (“eligible students”) certain rights regarding the student’s education records. One of those rights is the right to consent to disclosures of personally identifiable information contained in the student’s education records. In compliance with FERPA, Young Adult Magic Johnson Bridgescape Academy has designated categories of record as directory information consistent with applicable law. For more information on the FERPA policy, see the immediately preceding information listed in this Enrollment Policy Packet or refer to the Young Adult Magic Johnson Bridgescape Academy’s Parent/Student Handbook.

Young Adult Magic Johnson Bridgescape Academy and its designated curriculum provider, EdisonLearning, Inc., have found that to best serve the student’s education needs, it is necessary to disclose a student’s name and address to the following classes of vendors that provide important services related to your student’s education. In all cases, these vendors will have agreed to ensure the confidentiality of the student’s name and address and not to use the information for purposes other than that contracted for the student’s educational needs.

- Companies that enter the student information into a computer database for use by school officials
- Other contractors and subcontractors that Young Adult Magic Johnson Bridgescape Academy or EdisonLearning, Inc. identifies as necessary to providing online education services

To best serve the student, Young Adult Magic Johnson Bridgescape Academy requests the following consent to disclose the student’s name and address to the specified class of contractors.

I hereby agree that my student’s name and address be provided to the above identified contractors to ensure that Young Adult Magic Johnson Bridgescape Academy can best meet my student’s education needs.

PURCHASING
AND
PROCUREMENT
POLICY

7.5—PURCHASES OF COMMODITIES

Purchases shall be made in accordance with State laws and procurement procedures governing school purchases that are deemed to be in the best interest of the School and are the result of fair and open competition between qualified bidders and suppliers.

Definitions

“Commodities” are all supplies, goods, material, equipment, computers, software, machinery, facilities, personal property, and services, other than personal and professional services, purchased on behalf of the School.

“Specifications” means a technical description or other description of the physical and/or functional characteristics of a commodity.

“Purchasing official” means the board of directors of the school or designated employees of the school with the authority to contract or make purchases on behalf of the school.

A purchase order shall be issued for all purchases of commodities and professional services. Purchases of commodities with a purchase price equal or exceeding \$5,000 but less than \$10,000 require prior approval of the designated agent of the School unless an emergency exists in which case the Superintendent may waive this requirement.

Purchases of commodities with a purchase price equal or exceeding \$10,000 require prior approval of the purchasing official unless an emergency exists in which case the Program Director may waive this requirement. Any waiver shall be reported to the Board at its next regular meeting. Purchase orders equal or exceeding \$10,000 shall require two signatures, one being the superintendent or the director’s designee.

Purchase orders equal or exceeding \$50,000 shall require Board approval prior to issuance unless an emergency exists in which case the Program Director may waive this requirement. Any waiver shall be reported to the Board at its next regular meeting.

The school will not solicit bids or otherwise contract for a sum greater than \$25,000 with vendors that are on the “excluded parties list” if the contract is to be paid from federal grant funds.

All purchases of commodities in which the estimated purchase price equals or exceeds \$10,000 shall be procured by soliciting bids. The board shall accept bids submitted electronically by email or fax for any and all school purchases, unless specified to be submitted by other means or methods, and except those bids which have been specified to have a designated date upon which the bids shall be opened. Specifications shall be devised for all commodities to be bid that are specific enough to ensure uniformity of the bid and yet not so restrictive that it would prevent competitive bidding. The bid specifications shall not include the name or identity of any specific vendor. The Board reserves the right to reject all bids and to purchase the commodity by negotiating a contract. In such an instance, each responsible bidder who submitted a bid shall be notified and given a reasonable opportunity to negotiate.

Bids shall be awarded after careful examination of the details of the bid to determine the best overall value to the School. In instances where the low bid was not accepted a statement of the reasons shall be attached to the bid. Bidders submitting written bids shall be notified in writing of the bid award. Any competitive bid submitted to the school in response to a solicitation for bids for the purchase of a

commodity shall be accompanied by the form contained in Section 7.5F which shall be signed and notarized by the agent of the bidder. The procedure for opening and awarding of bids shall be as prescribed by the Board.

The following commodities may be purchased without soliciting bids provided that the Program Director determines in writing that it is not practical to use other than the required or designated commodity, and a copy of this statement is attached to the purchase order:

- Commodities in instances of an unforeseen and unavoidable emergency;
- Commodities available only from the federal government;
- Utility services;
- Used equipment and machinery;
- Commodities available only from a single source.

Prospective bidders, offerors, or contractors may appeal to the school's director if they believe the school failed to follow school bidding and purchasing policy or state law.

Any award of a contract shall be subject to revocation for ten (10) working days or, if an appeal is received, after resolution of the appeal. This shall give prospective bidders, offerors, or contractors the opportunity to appeal the bid award if they believe the facts warrant an appeal. Any appeal shall be in writing by certified mail and received by the school office, "attention to the superintendent" within seven (7) calendar days following the initial and revocable award of the contract.

If the school receives an appeal of a bid award, they shall notify in writing those prospective bidders, offerors, or contractors who have made a written request to the school for notification of opportunities to bid that an appeal has been submitted.

The notification shall state

- That the contract award has been halted pending resolution of the appeal and could be revoked;
- The reasons for the appeal;
- That the recipient of the letter may respond to the protested issues identified in the appeal;
- The date the decision on the appeal will be made and notification sent;
- That if the appeal is upheld, the bidding process will be re-opened;
- That if the bidding process is re-opened, changes will be made to the request for bids as necessary to satisfy the reasons for upholding the appeal.

The sole authority to resolve any appeal made relating to this policy shall rest with the director. The director's decision shall be final and conclusive. In the event the school upholds an appeal, the sole responsibility of the school to the aggrieved bidder or bidders shall be the re-opening of the bidding process.

7.5F—COMMODITIES BIDDER AFFIDAVIT
YOUNG ADULT MAGIC JOHNSON BRIDGESCAPE ACADEMY

I, _____, hereby
state:

I am a duly authorized agent of _____, the bidder submitting the competitive bid which is attached to this statement, I certify the facts as detailed below pertaining to the non-existence of collusion among and between bidders and school officials, as well as to the facts pertaining to the giving or offering of things of value to government personnel in return for special consideration in the awarding of any contract pursuant to the bid to which this statement is attached.

I am fully aware of the facts and circumstances surrounding the making of the bid to which this statement is attached and have been personally and directly involved in the proceedings leading to the submission of the bid. Neither the bidder nor anyone subject to the bidder’s direction or control has been a party: To any collusion among bidders in restraint of freedom of competition by agreement to bid at a fixed price or to refrain from bidding; To any collusion with any school official or employee as to quantity, quality, or price in the prospective contract, or as to any other terms of the prospective contract; or In any discussions between bidders and any school official concerning exchange of money or other thing of value for special consideration in the awarding of a contract.

I hereby guarantee that the specifications outlined in the bid shall be followed as specified and that deviations from the specifications shall occur only as part of a formal change process approved by the Board of Directors of the school.

Dynamic Online Courses for
use in virtual, blended, &
traditional learning
environments

EdisonLearning eCourses™ at a Glances

Multisensory Engagement

eCourses are delivered with multimedia features that address diverse student needs, support literacy, and reinforce key concepts. Features such as interactive **demonstrations**, **games**, **videos**, **virtual science labs**, **forums** and a **text-to-speech tool** engage students and support multiple learning modalities.

In the Research Center (high school) and Learning Land (middle school), which are **avatar-based virtual worlds**, students communicate and collaborate with classmates and teachers, share and discuss art, play games that reinforce key academic concepts, participate in virtual science labs, and access a number of other multimedia resources that enrich their studies.

Above: Middle School students' virtual daily assignment book.

Flexible Structure

The content of eCourses is based on a **modular design**. Each lesson contains instruction in prerequisite knowledge. Lessons include learning objectives that are clear and attainable, and each one ends with an assessment. Courses are organized into four parts per year with assessments throughout to measure mastery.

Research & Experience

EdisonLearning uses proven methodologies to deliver the most engaging and innovative courses on the market. EdisonLearning teachers and experts developed eCourses using **best practices based on over a decade** of online learning experience and 20 years of experience driving achievement in brick and mortar schools.

eCourses have undergone a rigorous independent review process by Dr. Paul Kim, Assistant Dean and Chief Technology Officer at the Stanford University School of Education. Dr. Kim, a prominent leader in the online learning industry, reviewed and tested all high school courses for quality, usability, and effectiveness. Researchers from Robert Morris University reviewed and tested all middle school courses.

Differentiating Features

- Unique focus on STEM
- Multiple learning modalities
- Individual student customization
- State standards alignment
- Print and PDF course texts
- Real-time progress tracking
- Consistent structure and design
- Accessible cloud-based delivery platform
- Assessments to measure mastery
- Accredited by AdvancED and NWAC
- Recommended for accreditation by MSA-CES
- Approved by the NCAA

Above: Students can access the Writing Center to have their essays assessed.

EdisonLearning High School eCourses

EdisonLearning offers more than 100 high school courses with over 8,100 individual lessons. Each course is available in a variety of formats, which are designed to meet the needs of different types of students (see below). Subject areas include all core subjects, as well as a variety of world languages and electives. The courses offer various types of engagement, such as essential instruction, need-to-know course preparation, re-teaching and extension activities, and Discovery Education™ videos. Instructional tools include embedded assessments, alerts and interventions, grading and attendance, and announcements and messaging. Multisensory engagement tools include flash and Discovery Education™ videos, an interactive student center, customized and printable textbooks, messaging, digital notebooks, forums, and blogs.

EdisonLearning offers the following types of course formats:

Traditional

Who it's for: Self-motivated students who are comfortable in a self-directed online learning environment.

What it is: Students are self-guided through the course. The performance alert system will notify the instructor when it may be necessary to intervene or provide additional support.

Special features:

- Daily assessments
- Quizzes/unit exams
- Open response assessment items
- Performance monitoring via interventions
- Diagnostic exam availability

Available courses: All courses are offered in this format.

Lessons per semester course: 90

Competency-Based

Who it's for: High-performing students who are eager to explore lesson content in more detail.

What it is: Lessons in this type of course are longer to provide students with more in-depth content. Additionally, students must demonstrate mastery of the standards that comprise a lesson in order to progress to the next lesson.

Special features:

- Course player
- Guided learning path
- Lesson gating
- Open response items
- Self-remediating performance monitoring
- Diagnostic exam availability

Available courses: All courses (except for world languages) are offered in this format.

Lessons per semester course: 90

Foundation

Who it's for: Students who desire structured delivery of lesson content.

What it is: Each course is designed to ensure that students master the foundational skills and knowledge that are critical building blocks for upper-level courses. Foundation eCourses provide a guided learning path and are ideal for high-achieving and struggling students alike.

Special features:

- Course player
- Guided learning path
- Lesson gating
- Open response items
- Self-remediating performance monitoring
- Diagnostic exam availability

Available courses: Fifteen core subject area courses in English/Language Arts, Math, Science, and Social Studies are offered in this format.

Lessons per semester course: 70

System-Graded

Who it's for:

- Self-directed students who wish to work independently
- Students who wish to supplement their instruction in a classroom-based course

What it is: The assessments for these courses do not include open-response items that require teacher grading.

Special features:

- Course player
- Guided learning path
- Lesson gating
- Self-remediating performance monitoring

Available courses: Select Math, Science, Social Studies, and elective courses are offered in this format.

Lessons per semester course: 90

EdisonLearning Middle School eCourses

EdisonLearning offers 22 middle school courses, including core courses and electives. Courses are delivered via EdisonLearning's proprietary Course Player, which is an easy-to-use and highly interactive course platform. Yearlong courses are broken into four parts and semester-long courses are broken into two parts. Teachers have access to various instructional tools, such as embedded assessments, grading and attendance, and announcements and messaging. Multisensory engagement tools include flash and education videos, an interactive student center, customized printable textbooks, and activity workbooks.

EdisonLearning's middle school eCourses include the following differentiating features:

Individualized Learning Experience

While the student is learning online, the course delivery platform monitors student responses on assessments. A student's responses are one component of the data supplied to a proprietary algorithm that identifies the student's Learning Zone.

If the Learning Zone indicates that the student will benefit from concept reinforcement or additional activities, the software automatically delivers these to the student. If the student is completing the required learning activities with ease, the software delivers enrichment content that will challenge the student.

By identifying students' Learning Zones, EdisonLearning curricula keep students engaged and make success attainable for a broad spectrum of learners.

State-of-the-Art Writing Center

The Writing Center helps students improve the quality of their writing. Students can submit their essays for review to the Writing Center, which is powered by a software program that checks the essay for elements of good writing and makes suggestions for improvement. After a student makes the suggested improvements and submits the revised essay, the system can read the essay to the student, if desired, which helps the student detect errors. When satisfied with the essay, the student submits it to the teacher for the course.

Common Core Standards Alignment

The framework of each curriculum is built according to Common Core Standards. The courses have been developed to meet or exceed the standards of traditional curricula.

Highly Structured, Predictable Environment

Each day, the student begins work by starting with the online MyDay interface. MyDay visually highlights the student's activities for that day, outlining the assignments in each content area and delineating the student's responsibilities.

Engaging, Interactive Curriculum

An introductory video presents the key concepts of each lesson. The video appeals to students who learn best through audio or visual means.

The MyBook application presents information in an on-screen text format. Students can draw, write, circle, trace, and highlight in their MyBook. These activities appeal to the kinesthetic learner and help keep all students engaged.

Online companion workbooks use puzzles, matching activities, and upbeat language to reinforce and enrich the online curricula.

EdisonLearning's web-based middle school curricula incorporate social elements in a fun, safe environment and give all students an opportunity to succeed.

High School—English

World Literature I (English 9)

By examining great works of literature from around the world, students will develop the skills to analyze and respond to various forms of literature, including essay, poetry, short story, and drama. The course begins by exploring some highly influential ancient pieces, and works its way forward to present day literature. Throughout this process students will see that although language and customs change, human beings today have many of the same experiences, ideas, and feelings that they had thousands of years ago. With that knowledge, students can relate to and learn from both ancient and modern authors, and can then share what they learn with those around them. Students will have the opportunity to practice different skills, including reading and analysis, speaking and listening, grammar, writing, and vocabulary. Students will also learn how to use various tools for review and to reinforce understanding. At the completion of this course, students will have gained both a knowledge of and appreciation for works of world literature, and will have increased their skills in reading, analysis, grammar, writing, and vocabulary.

Prerequisite: None

Format: T/C/F

Length: Semester/Year

World Literature II (English 10)

In World Literature II, students will continue expanding their knowledge of great works of world literature from ancient to modern times. In addition to drama, essay, and poetry, this course will include such genres as folktale, epic, and biography. Students will develop the skills to analyze and respond to the literature in greater depth, as well as gain a greater understanding of how language and customs change. Students will recognize the similarities and differences in human beings today and throughout history. Students will practice reading and analysis, speaking and listening, grammar, writing, and vocabulary. The students will also learn how to use various tools for review and understanding. At the completion of this course, students will have gained both a knowledge of and appreciation for works of world literature, and will have increased their skills in reading, analysis, grammar, writing and vocabulary.

Prerequisite: None

Format: T/C/F

Length: Semester/Year

American Literature (English 11)

Through this survey of American Literature, students will be able to understand and appreciate American history to its fullest. By incorporating history into literary studies, literature comes alive and holds more meaning for students. Students will read, analyze, and interpret a variety of genres, such as poetry, drama, folktale, and biography. They will be challenged to interpret each piece of literature soundly, and handle literary techniques skillfully; they will have the opportunity to relate much of what they read to the world that surrounds them. After the completion of this course, students will have increased their vocabulary skills, improved their grammar, usage, sentence structure, diction, and punctuation, and, finally, enhanced their reading, speaking, listening, and writing skills.

Prerequisite: None

Format: T/C/F

Length: Semester/Year

High School—English, continued

British Literature (English 12)

British literature has had a long-term influence on American culture and its variety of literary forms. By exploring British literature in this course, students will gain the tools to become active readers; critical and logical thinkers; and clear, concise writers. The instruction will offer a variety of strategies to help students develop the reading and writing skills necessary for success in any discipline. Each unit will follow a pattern designed to enhance existing reading comprehension, writing abilities, and speaking and listening skills, while offering a variety of British literature and providing ample opportunity to develop a deeper overall vocabulary. A written assignment, an exercise in organization, and an oral presentation in podcast form will also be part of the weekly process. After the completion of this course, students will have gained an understanding of British literature, and increased their vocabulary skills in reading comprehension, speaking, listening, and writing.

Prerequisite: None

Format: T/C/F

Length: Semester/Year

SAT® Critical Reading & Writing

This course is designed to help students prepare for the critical reading and writing portions of the SAT. In addition to gaining test-taking strategies, students will learn reading comprehension skills, including inferring ideas, understanding tone and intention, and identifying the meaning and the important and non-important parts of a piece of writing. Students will also learn about comma usage, case, identifying and creating complete sentences, and writing sentences that are concise and have subject-verb agreement. Finally, students will understand how to apply correct grammatical structure to sentences, recognize and understand modifiers and idioms, and develop a piece of writing in response to an essay question. At the completion of this course, students will have gained both a knowledge of and appreciation for the concepts included in the critical reading and writing sections of the SAT®.

Prerequisite: None

Format: T/C

Length: 9-week

High School—Mathematics

| | |
|---------------------|---|
| General Math | <p>The goal of this course is to motivate students while helping them establish a strong foundation for success in developmental and consumer mathematics. The course leads students along a journey through basic mathematics and its applications, focusing on whole numbers, integers, decimals, and percent. Throughout this journey, the course highlights building mathematics skills to help students make sense of the mathematics they encounter each day. The students will use these basic concepts in the application of wages, banking, interest, credit, and consumer costs. At the completion of this course, students will have gained both a knowledge of and appreciation for mathematics and problem solving that will prepare them for their futures.</p> |
| | <p>Prerequisite: None Format: T/C/S Length: Semester/Year</p> |
| Pre-Algebra | <p>Pre-Algebra is designed to help students make a successful transition from arithmetic to algebra. The course focuses on basic concepts of arithmetic and the applications of mathematics. Students will learn about integers, fractions, decimals, expressions, equations, ratios, proportions and percents, inequalities, graphing, probability and statistics, and geometry. The course highlights the math skills that help students make sense of the mathematics they encounter each day. At the completion of this course, students will have gained both a knowledge of and appreciation for algebra and problem solving that will prepare them for future courses.</p> |
| | <p>Prerequisite: None Format: T/C/F/S Length: Semester/Year</p> |
| Algebra I | <p>This course takes students on a journey through algebraic concepts and applications. The course focuses on linear equations, inequalities, functions, graphing, systems of equations, polynomials, factoring, quadratic equations, probability, statistics, rational expressions, roots, and radicals. Throughout this journey, students will build critical thinking skills and problem-solving techniques that are required to help students grasp algebraic fundamentals. At the completion of this course, students will have gained both knowledge of and appreciation for algebra and the problem-solving skills they gain in this course will prepare them for future courses.</p> |
| | <p>Prerequisite: None Format: T/C/F/S Length: Semester/Year</p> |
| Geometry | <p>Through real-world examples and problems, the course encourages students to see how geometry is useful in everyday life. The course is organized as a journey through geometry and its many applications. The course focuses on parallel lines, perpendicular lines, triangles, circles, polygons, area, volume, similarity, trigonometry, geometric reasoning, and proofs. Throughout this journey, the course highlights building critical-thinking skills, and problem-solving techniques required to help students grasp geometric concepts. At the completion of this course, students will have gained both knowledge of and appreciation for geometry and problem solving that will prepare them for future courses.</p> |
| | <p>Prerequisite: Algebra I Format: T/C/F/S Length: Semester/Year</p> |

High School—Mathematics, continued

Algebra II

Students will continue their algebraic journey, gaining increasingly advanced knowledge and skills in algebra. They will focus on linear functions, linear systems, matrices, quadratic functions, polynomial functions, polynomials, exponential functions, logarithmic functions, rational functions, radical functions, conic sections, probability, statistics, sequence, series, and trigonometric functions. Students' critical thinking skills and problem-solving techniques will develop throughout the course. By the end of this course, students will have gained both knowledge of and appreciation for algebra and problem solving that will prepare them for future courses.

Prerequisite: Algebra I

Format: T/C/F/S

Length: Semester/Year

Trigonometry

This course explores the concepts and the applications of trigonometry in order to provide students with a solid foundation in the subject and an awareness of its many practical uses. For example, trigonometry is used to solve real-life problems in areas such as engineering, physics, construction, and design. In the course, students will investigate graphs, linear functions, quadratic functions, trigonometric functions, analytical trigonometry, analytical geometry, vectors, and advanced functions. Students will develop their critical thinking skills and problem solving techniques so that they succeed in understanding and applying trigonometric principals. At the completion of this course, students will have gained both knowledge of and appreciation for trigonometry and problem solving that will prepare them for future courses.

Prerequisite: Algebra II

Format: T/C

Length: Semester

Pre-Calculus

Pre-Calculus helps students gain the knowledge they will need for success in Calculus and other high school math courses. The course focuses on linear, rational, polynomial, exponential, and logarithmic functions; systems of equations; systems of inequalities; matrices; trigonometry; series; sequence; probability; vectors; and analytical geometry. Students will improve their critical thinking skills and their problem solving techniques. At the completion of this course, students will have gained both knowledge of and an appreciation for Pre-Calculus and problem solving that will prepare them for future courses.

Prerequisite: Algebra II

Format: T/C

Length: Semester/Year

Calculus

This course is designed to provide students with a solid foundation in calculus. The course guides students through calculus by focusing on functions, graphs, limits, differentiation, integration, parametric functions, and polar functions. Students' critical thinking skills and problem-solving techniques develop as they work through this course. At the completion of this course, students will have gained knowledge of and appreciation for calculus and its applications.

Prerequisite: Pre-Calculus

Format: T/C

Length: Semester/Year

High School—Mathematics, continued

Probability

In this course, students will take a comprehensive and engaging look at the field of probability. First, they will learn about the basic terms, types, theories and rules of probability. Next, the course covers random outcomes and normal distributions, as well as binomial probabilities. Finally, students will learn about geometric probability, sampling distribution, how to understand populations, and the central limit theorem. At the completion of this course, students will have gained both a knowledge of and appreciation for the field of probability and how it is useful in everyday life.

Prerequisite: None

Format: T/C

Length: 9-week

Statistics

This course opens students' eyes to the many uses of statistics in the real world—from sports and the weather to health and politics. Students will learn about topics including basic concepts, graphs used to represent data, and ways to analyze data. They will explore statistical relationships, including the use of correlations, residuals and residual plots, and scatter plots. Finally, students will learn how to model nonlinear relationships using exponential and logarithmic functions and how to design a sample to produce the correct type of data (observational vs. experimental). At the completion of this course, students will have gained both knowledge of and appreciation for the field of statistics and its importance.

Prerequisite: None

Format: T/C

Length: 9-week

SAT[®] Mathematics

This course helps students prepare for the mathematics portion of the SAT[®] by equipping them with the knowledge and strategies needed to succeed on the test. Students will learn about basic mathematical theories and operations, including rational numbers, integers, methods to solve counting problems, and the characteristics of sequences and series of numbers. Students will learn how to use algebra to solve problems, including polynomial functions, linear equations and inequalities, and variation. The final unit covers geometrical shapes and how to calculate the area and perimeter of polygons and the circumference of circles. Students will also learn to solve for missing angles and sides of triangles, and understand lines, similar figures, and ratios. At the completion of this course, students will have gained both a knowledge of and appreciation for the concepts included in the SAT[®] Math exam.

Prerequisite: None

Format: T/C

Length: 9-week

High School—Science

Physical Science

Physical Science is an interactive and engaging course that covers the sciences of chemistry and physics. The course begins with a unit on the nature of science and a review of measurement and its importance. The study of chemical principles then begins, exposing students to topics such as the properties of matter, the structure of the atom, the formation of bonds, and the properties of solutions. The course then moves to the science of physics, describing the topics of motion, force, work, and energy. Students in the course are asked to apply their knowledge of these topics through problems, explanations, and graphs, while maintaining their interest through engaging activities and explorations. Hands-on lab activities are found frequently throughout the course to reinforce the material and to give the students an opportunity to apply their knowledge through experiments and activities.

Prerequisite: None

Format: T/C/F/S

Length: Semester/Year

Earth Science

Earth Science is the combined study of geology, physics, chemistry, and biology as they impact our Universe; the Earth's internal processes; and the structure and relationships of the natural world. This interactive and engaging course will provide students with the core knowledge of Earth's natural systems and place in the Universe. Included in this course is a study of the Earth's air, water, and physical processes that shape the physical world. This course also focuses on how human civilization has impacted the balance of nature. Students will gain knowledge of the most modern science behind topics such as continental drift, fossil dating, the cause of the seasons, natural disasters, ocean ecosystems, and alternative energy sources. At the completion of this course, students will have gained an appreciation for and understanding of Earth Science, and will have laid the groundwork for future studies in science.

Prerequisite: None

Format: T/C/F/S

Length: Semester/Year

Biology

The science of biology is a large, complex, and constantly changing subject. This course will provide students with a broad and interactive experience covering the main topics of biological science. Students will be exposed to topics ranging from the process of science to cell reproduction to the diversity of life. Students will also learn about the chemical components of life, the process of energy conversion, and life's functions. The course will explore the subjects of genetics and evolution, incorporating the latest scientific research to support the students' learning. Finally, the course covers ecology in order to raise student awareness of the many challenges and opportunities of the modern biological world. Throughout the course, students will complete lab activities that reinforce the material and give them an opportunity to apply their knowledge through interactive experiments and activities.

Prerequisite: None

Format: T/C/F/S

Length: Semester/Year

Chemistry

Chemistry is an important science that challenges students to apply their studies in previous sciences to new theories, models, and problems. The course begins with a discussion of the history and importance of chemical principles, moves through the various models of the atom and chemical reactions, explores relationships among liquids, gases, and solids, and investigates the role of energy in these relationships. The course ends with a unit on organic chemistry, a branch of the science that focuses on the molecules that are important to living things. At the completion of this course, students will have gained a basic knowledge of and appreciation for the field of chemistry, and its importance. Lab activities are found throughout the course in order to reinforce the material and provide an opportunity for students to apply their knowledge through hands-on experiments and activities.

Prerequisite: Algebra I

Format: T/C/F/S

Length: Semester/Year

High School—Science, continued

Physics

Although physics can be a challenging science, this is an incredibly engaging and rewarding course designed to provide students with an overview of both the traditional subject matter as well as the latest, most modern research in the field today. Beginning with Newtonian Mechanics, students will learn that every object is acted upon by multiple and predictable forces. The course moves on to cover fluid mechanics and the relationships between matter and energy as the laws of thermodynamics are investigated. The course also covers the topics of electricity and magnetism and explores the various models used to explain and apply these universal forces. Students also learn the characteristics of waves and the basics of optics before the final set of lessons on atomic physics. Here, the students will review the characteristics of the atom and its elemental particles; students will also apply their knowledge to modern physics. At the completion of this course, students will have a knowledge of and appreciation for the field of physics and its applications.

Prerequisite: Algebra II

Format: T/C

Length: Semester/Year

Astronomy

Students will take a fascinating journey through the cosmos and learn the basic concepts involved in the study of astronomy. The course begins with a study of the celestial objects closest to home, scanning the solar system to provide students with an overview of the planets, moons, asteroids, and comets that revolve around the sun. The course then moves beyond the solar system to cover the characteristics of the galaxy – the Milky Way. Students will be amazed to learn the sheer size of this system and of other galaxies nearby. They will also be in awe of what they learn about the formation and death of stars, supernovas, black holes, and even theoretical wormholes. Finally, the course reaches to the edges of time and space to investigate the properties of the Universe as a whole. Theories explaining the very beginnings of existence and the expansion of the Universe will be covered. Students will also learn about Einstein's theory of relativity and time travel and the search for extra-solar planets. At the completion of this course, students will have gained both a knowledge of and appreciation for the field of astronomy and its importance.

Prerequisite: None

Format: T/C

Length: 9-week

Life Science

This survey of the biological sciences will introduce students to the structure and function of living things and the natural relationships that exist on Earth. The course begins with the definition of life and a discussion of how living things are classified and organized by scientists. Students will then work through material that presents the molecular building blocks of organisms, both microscopic and macroscopic views of life, the diversity and universality of species, and the characteristics of various groups of life. The course culminates with a unit on evolution, asking students to apply what they learned about the natural world to the complex relationships and environmental factors that have shaped the ever-changing species sharing the world today. At the completion of this course, students will have a basic knowledge and understanding of the biological sciences that will set them up for success in future science courses concerning the natural world.

Prerequisite: None

Format: T/C/S

Length: Semester

Superstars of Science

Superstars of Science will help students appreciate the accomplishments and impact upon today's society made by the most influential scientists in history. From scientists who lived in Ancient Greece to those who are still alive and working today, students will take a journey to meet 45 superstar scientists from all over the world. This timeline structure allows students to see how science is cumulative in nature and how the discoveries and inventions of every scientist are influenced by past breakthroughs. It is commonly said that every great scientist stands on the shoulders of those in the past, and this course explores that concept. The biography of each scientist, one per lesson, includes not only their contributions to their field, but also the context of their work at the time and the reaction of the world to their groundbreaking ideas. At the completion of this course, students will have an understanding of the work of important scientists and their cumulative impact on modern science.

Prerequisite: None

Format: T/C

Length: 9-week

High School—Science, continued

Environmental Science

Environmental Science, sometimes referred to as Ecology, is the study of the relationships and interdependence of organisms and their connection to the non-living, or abiotic, factors in the natural world. This course provides students with a profile of the living relationships, abiotic factors, human influences, and current state of Earth's ecosystems. The course begins with a review of science as a process and the general components of Earth's structure that impact life. It then progresses through a study of the living groups and their relationships to one another, focusing on the balance achieved by nature through these relationships. Populations are explored and examples of unchecked growth and rapid extinction are provided in the context of their effect on ecosystems. A unit is dedicated to aquatic ecosystems, the organisms that live there, and the impact that human beings have had on the delicate balance and complex systems found there. The influence of energy extraction, production, and use is covered, and the course ends by examining the positive influence humans can have on the environment through conservation and sound management practices. At the completion of this course, students will have an understanding of and appreciation for environmental science and its impact on their daily lives.

Prerequisite: None

Format: T/C

Length: Semester

Epidemiology

Epidemiologists investigate the causes of disease and other public health problems in an effort to prevent them from spreading. This course introduces students to the field of epidemiology, including the basic concepts related to infectious disease, specializations in epidemiology, and study design. Students will learn about the specific parts of an epidemiology study and why they are important. Finally, students will learn how to understand epidemiologic studies, including types of sampling, selection bias, standardization, confidence intervals, and evidence-based research. At the completion of this course, students will have gained both knowledge of and appreciation for the field of epidemiology and its impact on the world they live in.

Prerequisite: None

Format: T/C

Length: 9-week

Natural Disasters

Around the globe, natural disasters are a seemingly daily occurrence. This course provides an overview of the different types of catastrophic forces of nature and their impact on the populations that they strike. The course will give students a greater understanding of what causes natural disasters and what effect they have; students will also investigate what can prevent such disasters. The first unit covers land-based events, detailing how scientists predict and react to avalanches, earthquakes, volcanic eruptions, mudslides, and fires. The second unit focuses on catastrophic events that begin in the ocean and atmosphere, describing the impact of flooding, hurricanes, blizzards, and droughts. The final unit of the course explains how disease spreads and how quickly it can impact the world's population. This last unit of this course focuses on potential catastrophic impacts from comets and asteroids. At the completion of this course, students will have an understanding of natural disasters and their impact on the world.

Prerequisite: None

Format: T/C

Length: 9-week

Forensics

Students will be introduced to the field of forensics, through a comprehensive and engaging look at related careers, laboratories, crime scene processing, evidence, and the impact of media on criminal investigations and trials. Students will learn about specific techniques used in crime scene investigation, including autopsy, fingerprint analysis, DNA fingerprinting, and other types of evidence and analysis important to solving crimes. Finally, students will be introduced to a variety of specialized forensic sciences, analyze specific case studies, and learn about the Innocence Project and Freedom Project. At the completion of this course, students will have gained both knowledge of and appreciation for the field of forensics and its application.

Prerequisite: None

Format: T/C

Length: 9-week

High School—Science, continued

Genetics

Through this introduction to the field of genetics, students will learn about the theories of Darwin and Wallace; the concepts of adaptation, genotype and phenotype; and basic concepts related to cells, DNA, and RNA. Students will also learn about Gregor Mendel, his pioneering work in genetic variation, and the basic concepts that have been developed since. Finally, students will learn about applications of genetics, including metagenomics, genetically modified organisms, DNA technologies, genetic testing, and other clinical and non-clinical applications of the technology. At the completion of this course, students will have gained both knowledge of and appreciation for the field of genetics and its application.

Prerequisite: None

Format: T/C

Length: 9-week

Stem Cells

The diverse and rapidly changing field of stem cell research comes alive for students in this course. Students learn about the different types of stem cells, how stem cells were discovered and their importance to research, and the goals, challenges, and controversies in the field. Students will learn about human and mouse embryonic stem cells and a variety of stem cells found in different parts of the body, as well as the potential clinical applications of these cells to human medicine. Finally, students will learn about stem cell research models. At the completion of this course, students will have gained both knowledge of, and appreciation for, stem cells and their potential impact on human health.

Prerequisite: None

Format: T/C

Length: 9-week

Biotechnology

This course is designed to provide students with a comprehensive and engaging look at the field of biotechnology. Students will explore the history of biotechnology and advances in the field, as well as basic information about biotechnology laboratories and careers. Students will learn about chemistry and the units of measurement used in biotechnology, as well as basic biology of the cell, DNA, RNA, and proteins. Finally, students will learn about applications of biotechnology in the research lab and in industry, including enzymes, techniques, plasmids, and other key biotechnologies. At the completion of this course, students will have gained both knowledge of and appreciation for the field of biotechnology and its impact on the world around them.

Prerequisite: None

Format: T/C

Length: 9-week

Introduction to Technological Sciences

Students enrolling in this course will learn about three main fields of technological science: engineering, biotechnology, and information technology. The first unit of the course surveys 15 distinct sub-fields of engineering, exploring the science background, real world applications, and career opportunities in aerospace, nuclear, software, and other types of engineering. The second unit involves the study of cutting-edge biotechnology topics such as gene therapy, bioengineering crops, and biodegradation. The last unit of the course focuses on the study of informational technology, covering computer networking, data storage, and the encryption of data to provide secure communication. At the completion of this course, students will have a general knowledge of and appreciation for technological sciences and their applications.

Prerequisite: None

Format: T/C

Length: 9-week

Science of Computing

Students in this course will survey the past, present, and future of computer technology. They will explore fascinating and enlightening topics, such as the fact that Stonehenge may actually have been used as a type of computer. The course explores inventions such as the abacus and advancements such as the microprocessor that have made today's technology possible. Students will also learn about the science behind the hardware and software used today. Topics like algorithms, operating systems, and networks are described in detail and placed into context as tools for human innovation. Finally, the course looks to the future, introducing students to foreseeable improvements to current technology and visionary breakthroughs like artificial intelligence, quantum security, and biological processors.

Prerequisite: None

Format: T/C

Length: 9-week

High School—Science, continued

Sports Medicine

In this course, students will explore how to keep “the human machine” in optimal condition. They will learn about various aspects of sports medicine, including careers, basic concepts, and techniques. The course examines the human body and different types of training programs. Students will also learn about sports injuries and how they are treated so that athletes are able to compete again. At the completion of this course, students will have gained both a knowledge of and an appreciation for the field of sports medicine and its applications.

Prerequisite: None

Format: T/C

Length: 9-week

Sports Science

Modern day sports and the world-class athletes who excel at them take center stage in this journey through sports science. This course provides students with a survey of the impact of physics, biomechanics, and physiology on 14 modern sports. The first unit will describe the role physics plays in a variety of sports, from the aerodynamics involved in auto racing to the force behind a boxer’s right hook. The next unit investigates the biomechanics of these sports, discussing concepts like the contortion of a gymnast’s body and the cause of tennis elbow. The last unit focuses on the limits of the human body, describing the energy used by cyclists during a mountain climb through the Alps and the reaction time required to hit a 90 miles per hour fastball. Overall, the course presents engaging information that will forever change the way students look at world-class athletes and competition.

Prerequisite: None

Format: T/C

Length: 9-week

High School—Social Studies

World History

World History takes students on a journey through the historical events that have shaped the modern world. The material is organized sequentially, exploring history from 1400 AD to the present day. The course focuses on the leaders of the world's most influential countries and the impact that their decisions and innovation had on the populace. Topics covered include the Renaissance, the French Revolution, the Industrial Revolution, and the World Wars. At the completion of this course, students will be enlightened to the relationship between past events and the characteristics of the present-day world.

Prerequisite: None

Format: T/C/F/S

Length: Semester/Year

Early American History

From the impact of the early Spanish explorers through the Civil War, this course explores the key events of European exploration and colonization of the Americas. Students will learn about the establishment of the United States as an independent country, the importance of the U.S. Constitution, and the impact of the Constitution on the continued development of the country. At the completion of this course, students will have gained both a knowledge of and appreciation for the early history of the United States.

Prerequisite: None

Format: T/C

Length: 9-week

American History

From the end of the Civil War in 1865 to the height of the Cold War in 1980, this course takes students on a journey through the key events that have shaped America as a nation since that divisive and destructive Civil War. The journey begins with the Reconstruction, a period of great transition and opportunity to heal a broken nation. It passes through the great migration westward and explores how the Industrial Revolution and waves of immigration fueled the flames of the American spirit today. The course details the challenges America faced and how equality did not come freely for populations of American Indians, African Americans, immigrants, and women. Students will learn how the core values of the founding fathers eventually prevailed and led to the Women's Suffrage and Civil Rights Movements. The impact of war is closely investigated in the course, with units covering the role of the United States in World War I, World War II, the Korean War, and the Vietnam War. Throughout this journey, the course highlights the great political, industrial, military, and human rights leaders who shaped America into a beacon of hope. At the completion of this course, students will have gained both a knowledge of and appreciation for the events and people who have impacted the growth of a nation.

Prerequisite: None

Format: T/C/F/S

Length: Semester/Year

U.S. Government

This stimulating course offers students a comprehensive examination of the U.S. government. Students will explore the evolution of American democracy from its birth in the 18th century to the expansive role of the federal, state, and local administrations of today. Topics such as changes to the Constitution, the function of Supreme Court, the structure of Congress, and the importance of the media are investigated in order to give students a well-supported background of the reasons for and responsibilities of government. The relationship between the political parties and lobbyists is detailed, as well as the processes of monitoring and funding federal elections. Finally, students will learn about the roles of state and local governments and the direct impact these organizations have on our daily lives. At the completion of this course, students will have a knowledge of and appreciation for the workings and history of the U.S. government and its impact on American Society.

Prerequisite: None

Format: T/C/F/S

Length: Semester/Year

High School—Social Studies, continued

World Geography

This course illustrates the world's geographical division, the documentation of the land and water masses by topographers and geographers, and the differences between Earth and the other planets in our solar system. Not only will the course discuss the world's physical traits, but it also highlights cultural differences between countries. While each country has its different norms, they all contribute to the world's international relations. Studying geography allows students to determine energy usage and how to make the most of our planet without abusing its resources. Each section of World Geography can be examined historically, culturally, physically, and economically, offering students a diverse knowledge and understanding of the world.

Prerequisite: None

Format: T/C

Length: Semester/Year

Macroeconomics

In this Macroeconomics course, students will study the branch of economics that deals with the performance, structure, and behavior of a national or regional economy as a whole. Along with microeconomics, macroeconomics is one of the two most general fields in economics. Macroeconomists study aggregated indicators such as GDP, unemployment rates, and price indices in order to understand how the whole economy functions. Upon completing this course, students will recognize the events and people who have impacted the growth of macroeconomics.

Prerequisite: None

Format: T/C/S

Length: Semester

Microeconomics

The field of microeconomics explores the economic decisions made by individual and groups. In this course, students will learn all about the basic structure of economics and how it affects world events and the everyday lives of people. The course will cover basic economic concepts, including supply and demand and consumer theory. Students will also explore traditional, command, and market economies, and take a look at the role of governments in different economies. Upon completing this course, students will have a better understanding of personal finance, the role and process of taxation, and the risks and rewards of investment.

Prerequisite: None

Format: T/C/S

Length: Semester

Psychology

The study of psychology shows students how their senses, perceptions, emotions, and intelligence influence the way they think, feel, and learn. In this course, students will learn about the field of psychology, including the concepts and tools used to assess intelligence, sensation and perception, memory, motivation and emotion, and learning. At the completion of this course, students will have gained both knowledge of and appreciation for psychology and how it affects everyone.

Prerequisite: None

Format: T/C

Length: Semester

Sociology

The field of sociology explores the development, dynamics, and structure of society, and its connections to human behavior. It examines the ways in which groups, organizations, communities, social categories (such as class, sex, age, or race), and various social institutions (such as kinship, economic, political, or religious) affect human attitudes, actions, and opportunities. In this course, students will learn about the concepts and tools used to understand individuality, social structure, inequality, family structure, education, economics, politics, and social change. At the completion of this engaging course, students will have gained both a knowledge of and appreciation for sociology and how it affects everyone.

Prerequisite: None

Format: T/C

Length: Semester

High School—World Languages

Spanish I

Spanish I introduces students to the Spanish language. Within each unit, 14 of the lessons present new information including useful vocabulary and grammatical structures, and introduce relevant cultural information. The last lesson of each unit is focused on practice and review. Each unit builds on the previous, so it is important to complete the course sequentially. This introductory course provides a solid foundation for students to build proficiency in listening, speaking, reading and writing, and will provide students with basic skills and contextual information for using Spanish in their lives daily, with travel, or in their professions.

Prerequisite: None

Format: T

Length: Semester/Year

Spanish II

Students will be immersed in the Spanish language, while learning cultural aspects of Spanish-speaking countries. The course offers students a comprehensive and engaging profile of the Spanish language, while building upon what content was learned in Spanish I. The course will provide them with a comprehensive review of Spanish grammar while increasing the detail with which they use the language. At the completion of this course, students will have gained both a knowledge of and appreciation for the Spanish culture, including the events and people that have impacted its growth.

Prerequisite: Spanish I

Format: T

Length: Semester/Year

Spanish III

In this level three Spanish course, students will take what they learned in their previous Spanish courses and apply it in conversation. Students will explore cultural aspects of Spanish-speaking countries ranging from schools and careers to sports and authors. At the completion of this course, students will have built on their previous skills, and will be able to express themselves through conversation in Spanish.

Prerequisite: Spanish II

Format: T

Length: Semester/Year

Spanish IV

From the Caribbean to South America, Mexico to Spain, students continue their exploration of Spanish and Latin American language and culture. The course is designed to provide students with an advanced knowledge and deep appreciation of the many Spanish-speaking peoples and countries around the world. At the completion of this course, students will have gained the knowledge and skills to speak, read, and write in the Spanish language with basic fluency.

Prerequisite: Spanish III

Format: T

Length: Semester/Year

French I

Students will explore the French language and culture in this comprehensive and engaging introduction to French. Students will start by learning how to pronounce the alphabet and numbers; by the end of the course, students will be able to carry on a conversation in French and will have gained both a knowledge of and appreciation for the French people, culture, and language. Through this course students will have built a foundation for further study of the French language.

Prerequisite: None

Format: T

Length: Semester/Year

High School—World Languages, continued

French II

In French II, students continue their virtual educational tour through France and other French-speaking countries and regions. This second level French course takes a historical perspective in teaching the language. Students will learn not only about the French language, but they will also learn about famous people who speak the language. At the completion of this course, students will have gained a deeper knowledge of and appreciation for the French culture and the French language.

Prerequisite: French I

Format: T

Length: Semester/Year

French III

This course continues building students' vocabulary, grammar, and communication skills in order to improve their ability to speak, read, and write in French. Students will take what they learned in their previous French courses and learn to apply it in conversation. At the completion of this course, students will have built on their previous skills, and will be able to express themselves through conversation in French.

Prerequisite: French II

Format: T

Length: Semester/Year

French IV

In this level four French course, students will apply the knowledge they gained in their previous French courses to become true Francophones. Students will explore exciting eras of French history, from the Crusades to the Renaissance to modern day, learning about famous authors and historical figures along the way. The course is designed to provide students with an advanced knowledge and deep appreciation of the French language and culture. At the completion of the course, students will have gained the knowledge and skills to speak, read, and write in the French language with basic fluency.

Prerequisite: French III

Format: T

Length: Semester/Year

Chinese I

In Chinese I, students will be introduced to the basics of Chinese language and culture. Students will start by learning to pronounce the alphabet and numbers, and continue on to develop the vocabulary and phrases to be able to describe themselves and others. The course will focus on the most essential information needed to communicate in the Chinese language. By the end of the course, students will be able to carry on a conversation in Chinese and will have gained both knowledge of and appreciation for the Chinese people, Chinese culture, and the Chinese language.

Prerequisite: None

Format: T

Length: Semester/Year

Chinese II

Chinese II is organized as a journey through the different regions of China, allowing students to build upon the foundation they gained in Chinese I. Students will be immersed in the language, while learning various cultural aspects of China. The course will provide students with a comprehensive review of Chinese vocabulary and common expressions, while adding to their knowledge by increasing the detail with which they use the language. At the completion of this course, students will have gained both knowledge of and appreciation for the Chinese language, including the events and people that have impacted its growth.

Prerequisite: Chinese I

Format: T

Length: Semester/Year

High School—World Languages, continued

German I

This course is designed to provide students with a comprehensive and engaging look at the German language and culture. Students will start off this first level German course by learning how to pronounce the alphabet and numbers, and will end by carrying on a conversation in German. The course will focus on the most essential information needed to communicate in the German language. At the completion of this course, students will have gained both knowledge of and appreciation for the German people and the German language.

Prerequisite: None

Format: T

Length: Semester/Year

German II

German II takes students on a journey through the German language, building upon the content learned in German I. Students will be immersed in the language, while learning cultural aspects of German-speaking countries. The course will provide students with a comprehensive review of German grammar while adding to their knowledge by increasing the detail with which they use the language. At the completion of this course, students will have gained both knowledge of and appreciation for the German language, including the events and people that have impacted its growth.

Prerequisite: German I

Format: T

Length: Semester/Year

High School—Electives

| | |
|--|--|
| Fitness | <p>This Fitness course is all about the latest ways to lead an active, healthy life. The course will provide up-to-date information to help students in establishing healthier lifestyles and a better understanding of the close relationship between physical activity, nutrition, and overall health. This course will support and encourage students to develop an individual optimum level of physical fitness, acquire knowledge of physical fitness concepts, and understand the importance of a healthy lifestyle. At the completion of this course, students will have gained both knowledge of and appreciation for fitness and how it affects everyone.</p> |
| | <p>Prerequisite: None Format: T/C Length: Semester</p> |
| Health | <p>This course is organized as a journey through health and wellness today. Today, the term health no longer means just the absence of illness. Instead, health refers to the overall well-being of your body, your mind, and your relationships with other people. The course shows students how to lead healthy lives, and includes such topics as disease, mental health, drug use, and reproductive health. At the completion of this course, students will have gained both knowledge of and appreciation for health and wellness and how it affects everyone.</p> |
| | <p>Prerequisite: None Format: T/C/S Length: Semester</p> |
| Life Skills | <p>Life Skills is a comprehensive career-development course for high school students making the transition to life after high school. The course shows students the steps to choosing a career, conducting a job search, selecting the right college, applying to college, and getting financial aid. From maintaining a healthy body and a safe home to finding and keeping a job, this course prepares young adults for a successful life after high school. At the completion of this course, students will have gained both knowledge of and appreciation for these important life skills.</p> |
| | <p>Prerequisite: None Format: T/C/S Length: Semester</p> |
| Introduction to Music Theory | <p>In this course, students will be immersed in the world of music. The course is designed to provide students with a comprehensive and engaging look at music theory. They will learn about various aspects of music theory, including the different types of musical staves. Students will also learn about notes, scales, chords, and harmonies. At the completion of this course, students will have gained knowledge of and appreciation for music theory.</p> |
| | <p>Prerequisite: None Format: T/C Length: Semester</p> |
| Introduction to Office Applications | <p>Learning how to use Microsoft Office applications equips students with important skills for both school and career. In this course, students will learn the basics of the following Office Applications: Microsoft® Word, Excel®, Access®, and PowerPoint®. Students will learn how to use each application in detail and how to make the applications work for them. At the completion of this course, students will have gained both a knowledge of and appreciation for Microsoft® Office and how they can use these applications.</p> |
| | <p>Prerequisite: None Format: T/C Length: Semester</p> |

High School—Electives, continued

Introduction to OpenOffice Applications

Introduction to OpenOffice Applications teaches students how to use the OpenOffice.org™ word processing and presentation applications, Write and Impress. In addition, students learn the benefits of the OpenOffice environment. The first part of the course covers the basics of OpenOffice Writer, including how to create, save, and customize Writer documents. The skills learned through class assignments enable students to complete real-world OpenOffice Writer tasks. Students learn document management, how to edit and proofread documents, and how to change the appearance of text. The next part of the course teaches students to use OpenOffice Impress, the OpenOffice application that helps users create and manage multimedia presentations. Students practice creating, saving, and customizing Impress presentations for school and personal use. The course also covers creating, editing, and sequencing slides as well as producing corresponding handouts.

Prerequisite: None

Format: T/C

Length: Semester/Year

HTML

Students can gain basic HyperText Markup Language (HTML) web design and programming skills in this introduction to HTML. Students will learn about the basic elements required to build a website, including lists, tables, frames, and other web design elements. They will practice designing and using cascading style sheets to enhance a webpage. Finally, students will learn and apply basic web design and layout principles, including testing and publishing a website. At the completion of this course, students will have gained both knowledge of and appreciation for HTML and its use for web design and programming.

Prerequisite: None

Format: T/C

Length: 9-week

JAVA™

In this course, students will be introduced to the JAVA™ programming language and its use in programming. Students will learn about the JAVA™ language, how programs work, basic programming tools used to design web applications, and how to write a basic program. Students will learn about arrays, objects, creating behavior with methods, forming an inheritance hierarchy, and designing and creating subclasses and superclasses. Finally, students will apply what they have learned to build user interfaces and use input and output streams to move data. At the completion of this course, students will have gained both knowledge of and appreciation for the JAVA™ programming language.

Prerequisite: None

Format: T/C

Length: 9-week

Chemical Engineering

This course offers students a comprehensive and engaging look at the field of chemical engineering. Students will learn the basic concepts used in chemical engineering, including systems of units, the periodic table of the elements, molecules, compounds, bonding, temperature and pressure. Students will learn about chemical systems and reactions, including stoichiometry, open and closed systems, multiple components systems, and chemical reactions. Finally, students will understand gases and gas laws, pressure, systems, energy, and enthalpy. At the completion of this course, students will have gained both knowledge of and appreciation for the field of chemical engineering and its growing importance in today's society.

Prerequisite: None

Format: T/C

Length: 9-week

High School—Electives, continued

Computer Engineering

The study of psychology shows students how their senses, perceptions, emotions, and intelligence influence the way they think, feel, and learn. In this course, students will learn about the field of psychology, including the concepts and tools used to assess intelligence, sensation and perception, memory, motivation and emotion, and learning. At the completion of this course, students will have gained both knowledge of and appreciation for psychology and how it affects everyone.

Prerequisite: None

Format: T/C

Length: 9-week

Electrical Engineering

Students can learn all about electrical engineering in this introduction to the field. The course covers the basic concepts used in electrical engineering, including an introduction to electricity, circuits, energy, work, power, the components of circuits, and some simple applications of electricity. Students will learn basic circuit concepts, including series and parallel circuits, laws of electricity, and how circuits are used. Finally, students will learn about real life applications of circuits, including everyday items such as on/off switches. At the completion of this course, students will have gained both knowledge of and appreciation for the field of electrical engineering and its many applications.

Prerequisite: Algebra I

Format: T/C

Length: 9-week

Mechanical Engineering

This course will introduce students to the field of mechanical engineering and its many applications in the world today. Students will learn the basic concepts used in mechanical engineering, including systems of units, vectors, forces, moments, force systems, couples, and equilibrium problems. Students will learn about the methods of joints and sections, define centroids, explain distributed loads, explain center of mass and axes, and state the Pappus-Guldinus theorems. Finally, students will learn about dry friction, beams, cables, load distribution, pressure, and potential energy. At the completion of this course, students will have gained both knowledge of and appreciation for the field of mechanical engineering and its importance.

Prerequisite: Algebra I

Format: T/C

Length: 9-week

7th & 8th Grade eCourses™

EdisonLearning's Middle School product offering leverages the innovative course player delivery technology used in our Competency-Based and Foundation eCourses.

The latest educational research shows that middle school students learn best in a highly structured, predictable environment that is individualized and allows students to exercise "student choice." Educational research also shows that today's middle school students are "digital natives" and as users demand a degree of digital sophistication that is unique to the present generation.

Some of the major features of EdisonLearning Middle School eCourses include:

Common Core Standards, Recognized Goals

The framework of each curriculum consists of Common Core Standards. The courses have been developed to meet or exceed the standards of traditional curricula.

A Highly Structured, Predictable Environment

Each day the student begins his or her work by starting with the online MyDay interface. MyDay tells the student what he or she will do that day, outlining the assignments in each content area. MyDay clearly lists the student's responsibilities.

Engaging Curriculum That Appeals to a Variety of Learning Styles

An introductory video presents the key concepts of each lesson. The video appeals to students who learn best through audio or visual input.

The MyBook application presents information in on-screen text format. Students draw, write, circle, trace, and highlight in MyBook. These activities appeal to the kinesthetic learner and keep all students engaged.

Online companion workbooks use puzzles, matching activities, and upbeat language to reinforce and enrich the online curricula.

Individualized for Students

While the student is learning online, the course-delivery platform monitors student responses on assessments. A student's responses are one component of data supplied to a proprietary algorithm that identifies the student's Learning Zone.

If the Learning Zone indicates that the student will benefit from concept reinforcement or additional activities, the software automatically delivers these to the student. If the student is breezing through activities with ease, the software delivers enrichment content that will challenge the student.

By identifying students' Learning Zones, EdisonLearning curricula keep students engaged and make success attainable for a broad spectrum of learners.

Providing State-of-the-Art Tools That Help Students Help Themselves

In the Writing Center, students may submit their essays for review by the software. A student identifies essay type and reports the number of paragraphs in the essay. The Writing Center system checks the essay for elements of good writing and makes suggestions about how the student can improve the essay. After a student has made the suggested improvements and submitted the revised essay, the system will read the essay to the student, if desired. When the student is satisfied with his or her work, the student submits the essay to a human grader.

Middle School—English/Language Arts

English/ Language Arts 7

From poetry to novels, folklore to myth, this course introduces students to various style of writing from ancient times to present. Students read literature appropriate to the 7th-grade level while learning to analyze literature. Through this analytical process, the students are able to use these skills creatively to enhance their own writing. The course focuses on different elements of reading and the creation of specific types of essays.

Part 1

The first part of the course focuses on the elements of fiction. Students learn how characters, setting, and plot contribute to literary fiction. The curriculum provides students with opportunities to identify and explain the components of fiction as well as to use them creatively in their own written work. Students also learn the steps of the writing process. Knowing and understanding the process prepares students to write the essays they will create throughout the course. In Part 1, students write narrative essays.

Part 2

Students experience and learn about different types of poetry focusing on the figurative and descriptive language common in poetry. The lessons encourage active use of the concepts presented; students identify and analyze poetic elements during reading. In addition, students learn about the themes and characteristics of myth and folklore. Students apply the analytical skills learned by studying poetry related to myths and various types of folktales—forms that, like poems, tend to be short and condensed. As students write their own descriptive essays, the curriculum prompts them to apply the techniques of poetic language to create vivid images.

Part 3

In Part 3, students learn about grammar and genre. Part 3 stresses the importance of basic grammatical skills: the ability to identify the parts of speech and use them correctly and effectively. In addition, students learn about basic stylistic elements: slang, sentence variety, and transitions. Students learn to identify specific genres of writing. The lessons show students how to research and organize non-fiction and apply what they have learned about grammar and style while producing objective informational essays.

Part 4

The curriculum helps students expand what they have learned about character, setting, and plot, applying the expanded concepts to longer texts, such as novels. Students learn active reading and research skills that enable them to recognize bias and the techniques of persuasion in different genres, such as biographical writing. Students apply their new skills as they write persuasive essays based on their own beliefs or opinions.

Prerequisite: None

Length: Semester/Year

Middle School—English/Language Arts, *continued*

English/ Language Arts 8

Students continue their exploration of various genres in order to further build their skills in reading, writing, literary analysis, and comprehension. In addition to poetry, essay, myth, and folklore, students will also examine genres such as biography, memoir, and drama. The course focuses on different elements of reading and the creation of specific types of essays. The curriculum is designed to enable students to demonstrate their individuality through writing reflective and persuasive essays based on their own thoughts and ideas.

Part 1

Students focus on the elements of narrative writing, learning about plot, theme, and historical setting. Students review the steps of the writing process, making connections between each stage of writing and a well-formed final product. Students write narrative essays, applying the elements of fiction to their own writing.

Part 2

This part of the curriculum helps students analyze poetry, myth, and folklore. Students learn about specific types of poetry and traditional texts, discovering the unique characteristics of each. By studying figurative language, students enhance their ability to analyze literary works and to improve their own writing. Students write informational essays. The curriculum stresses that solid research is a component of the genre.

Part 3

In Part 3, students learn how authors use various organizational methods and visual features to organize texts and how readers can use these components to enhance understanding. Students improve their ability to recognize biased language. Students write persuasive essays based on their own thoughts and opinions.

Part 4

Students learn the characteristics of several literary genres -- observational essays, memoirs, and biography -- with an emphasis on drama. Students discover the conventions of play writing and see how drama employs the elements of fiction. Students learn the active-reading skills of conclusion drawing and note-taking and apply these skills to grade-level texts. Students learn writing techniques that allow them to show their individuality and share their feelings and ideas thoughtfully. Students apply these techniques by writing a reflective essay.

Prerequisite: None

Length: Semester/Year

Middle School—Mathematics

Math 7

Throughout the journey of Math 7, students learn about rational numbers and integers and how to apply them. The curriculum explains exponents, variable expressions, rates, ratios, proportions, percentages, and probabilities and applies them to everyday situations. Equations and inequalities are presented as problem-solving tools. Students learn to use graphs, charts, and diagrams as means to reading, interpreting, and displaying data. The curriculum introduces a number of geometric shapes and solids in the context of figuring volumes, areas, and perimeters. This course teaches math skills essential to adult life and lays the groundwork for future mathematics classes.

Part 1

Students begin by working with rational numbers and integers. They then learn to apply numbers in the context of absolute value, powers and exponents, prime factorization, and greatest common factor. The next step is to learn to write and convert decimals, fractions, and percentages and to add and subtract numbers with like denominators, the lowest common multiple, and the lowest common denominator. With these skills students learn to combine rational numbers in a variety of ways: addition, subtraction, multiplication, and division; by using the additive inverse; by regarding rational numbers as distance; and by using the order of operations. Students then learn the rules of exponents, including negative and zero. They learn to apply the order of operations and various properties -- of addition, subtraction, multiplication, and division -- to variable expressions.

Part 2

The second part begins by helping students recognize variable expressions in different contexts. Students convert words to expressions and vice versa. The curriculum teaches students to solve variable expressions, two-step equations, equations with variables on both sides, and multistep equations by using addition, subtraction, multiplication, division, and grouping. The activities apply skills to real-life situations. Part 2 shows how to use rates, ratios, and proportions to compute tax, percentage of error, commission, and interest. Students learn how to graph ordered pairs as well as graph and write linear equations.

Part 3

Activities surrounding proportions, rate of change, and variation are the focus of the beginning of Part 3. This part then transitions into work with congruent and similar figures. Students work with triangles, angles, circles, quadrilaterals, and polygons. They find the area and perimeter of various shapes and objects. Students work with composite figures and learn to find the area and perimeter of complex figures composed of simple figures (triangles, angles, circles, quadrilaterals, and polygons). Students learn the fundamentals of scale drawings and how to reproduce and compute lengths and areas.

Part 4

Part 4 introduces students to solids and how to compute the volumes and surface areas of prisms, cylinders, pyramids, cones, and spheres. Students will transition to stem-and-leaf and box-and-whisker plots and histograms and learn how to use these tools in real life. From the topics of collecting and interpreting data from graphs, graph interpretation, and misleading graphs, Part 4 moves to the topics of sampling and populations. These topics lead to applications involving probability, likely and unlikely outcomes, permutations, combinations, and compound events. Students learn to represent these concepts by using Venn diagrams and charts.

Prerequisite: None

Length: Semester/Year

Middle School—Mathematics, continued

Math 8

By showing students how to apply math knowledge to real-life situations, this course helps students see that mathematics is one of the most powerful tools in life. The 8th-grade curriculum begins by introducing scientific notation, the order of operations, squares and cubes, conversions, and exponents. The student uses these and other concepts to solve a variety of equations and to apply equations to cones, cylinders, and pyramids. Students learn about the huge role that the Cartesian plane plays in problem solving and in displaying data involving slope, transformations, and parallel and perpendicular lines. The curriculum introduces the Pythagorean Theorem as an essential problem-solving tool. This course helps students see how concepts connect and can be applied to every-day situations.

Part 1

Students review scientific notation and exponent properties and then apply their knowledge to simplify and compare fractions by using multiplication, division, addition, and subtraction. Students use the order of operations and absolute values as tools for ordering and expressing rational numbers as improper fractions and mixed numbers. The curriculum guides students in using rational numbers to model real-life situations. For example, students use radicals, perfect squares, and square roots as problem-solving tools. Part 1 reviews percentages and proportions, applying concepts to conversion factors and emphasizing English-measure and metric applications.

Part 2

Students begin Part 2 by solving various types of linear equations and applying them to real life scenarios. The students use square roots and cube roots, and problem solving includes square and cube variation. Next the curriculum guides students in applying their ability to find perimeter, area, surface area, and volume to triangles, circles, quadrilaterals, prisms, cones, and spheres. Discussion of the Cartesian plane leads to the ability to work with scale drawings, dilations, and graphs. Students use the point-plotting method to graph common functions. In addition, students learn how to work with and graph two-variable linear equations.

Part 3

Students begin Part 3 by identifying number patterns and sequences. They then compute arithmetic and geometric mean and find missing terms. Part 3 connects these ideas to the concept of slope, showing students how to compute rate of change, find intercepts, graph linear functions, and describe the action of a line. Part 3 then moves to a discussion of parallel and perpendicular lines. Students learn to solve linear equations in a variety of ways and use linear equations in everyday situations. This leads to the topic of inequalities -- their various forms and applications. Part 3 concludes by showing students the properties of parallel lines cut by a transversal and helping them to see how this topic applies to the Pythagorean Theorem and the properties of triangles.

Part 4

Part 4 takes up the theme of triangles, going into depth about their properties. Students learn about congruence and similarity and apply their knowledge to problem solving. The next topic is the Cartesian plane. Building on concepts learned in Part 3, students work with translations, reflections, rotations, symmetry, transformations, and similarity. Students make predictions and correlations by using pie charts, bar graphs, histograms, scatter plots, and other linear models. The topic of prediction leads into a discussion of probability. Students work with independent and dependent events, odds, combinations, permutations, and factorials.

Prerequisite: None

Length: Semester/Year

Middle School—Mathematics, continued

Middle School Algebra

Gaining a strong foundation in Algebra will set students up for success in future math courses at both the middle school and high school levels. This course provides students with a fundamental understanding of the concepts of algebra, and covers the following topics: sets of real numbers, algebraic expressions and the properties that simplify them, linear equations and inequalities, functions, slope, equation writing, systems of equations, exponents, factoring, quadratics, transformations, inverse functions, exponential and logarithmic functions, data organization, and basic statistics.

Part 1

Part 1 covers the basic topics of algebra that students must master. They first learn about the different sets of real numbers and the order of operations. Students then learn about translating phrases into expressions and sentences into equations. They learn about the different properties that can be used to simplify expressions. The next topic is linear equations. Students learn to write and solve linear equations that include terms on one side and both sides and linear equations that include decimals and fractions. The last section of Part 1 covers linear inequalities, which students learn to solve and graph. Students learn how to graph solution sets on a number line and to write solutions in interval notation. Part 1 also teaches students to solve and apply absolute-value inequalities.

Part 2

Students begin Part 2 by identifying functions and graphing relationships, including relationships with a limited domain and those with the domain of all real numbers. These activities provide the solid foundation essential for success in the remainder of the course. In addition, students graph linear equations and inequalities by finding and plotting ordered-pair solutions. Students briefly examine the graphs of sine and cosine before delving into the study of slope. Part 2 emphasizes the concept of slope by presenting the many ways of finding slope and then helping students apply these means to writing the equations of lines.

Part 3

The third part of this course begins with systems of equations. Students learn many different ways to solve systems of equations -- substitution, addition, elimination, and graphing -- and then use their knowledge to solve problems. The next topic is systems of inequalities and ways to solve them. Students learn the rules for using and defining exponents as they simplify exponential expressions. Part 3 shows students how to use a variety of methods to simplify polynomials. The final section of Part 3 teaches students different methods of factoring, including the use of the greatest common factor (GCF) and grouping. In this context, students examine binomials and trinomials.

Part 4

Students learn to factor the differences of two squares as well as how to solve quadratic equations by factoring. Part 4 emphasizes analysis of quadratic functions and shows students how to determine domain and range, minimum and maximum, zeros, and axis of symmetry. Students then use the quadratic formula, graphing, and factoring to solve quadratic equations. From this point students learn to apply transformations to polynomial functions. After an introduction to inverses and one-to-one functions, students examine exponential and logarithmic functions. The remainder of Part 4 provides an overview of statistics. Topics include organizing and analyzing data; making stem-and-leaf plots; finding mean, mode, and median; making box-and-whisker plots; and recognizing misleading graphs.

Prerequisite: None

Length: Semester/Year

Middle School—Science

Science 7

Science 7 brings together some of the most interesting sciences—general, physical, earth, and life science. Themes covered in detail are the scientific process, the properties of matter and energy, the characteristics of light and sound, the structure of Earth and the atmosphere, the processes of fossilization and natural selection, and the organization of the biosphere. Students explore these themes through an engaging, interactive experience.

Part 1

The course starts by explaining the scientific process and showing students why science is important. Students learn common measurement systems and how to convert from one to another. They learn the essentials of lab safety. Part 1 details the steps of the scientific method, and students have opportunities to apply what they learn. Part 1 provides an overview of the major branches of science before introducing students to the subject of matter. The curriculum explains the characteristics of atoms and elements and continues by describing the chemical and physical properties of matter and its phases.

Part 2

From matter, the curriculum moves to the types of energy and how energy is transferred. Part 2 then focuses on mass, gravity, and weight, introducing Newton's Laws of Motion and the concept of work. The focus shifts to the properties of waves. Students learn about electromagnetic waves and the electromagnetic spectrum. The emphasis in this section is on the properties of visible light. Part 2 concludes with an in-depth study of Earth's atmosphere; weather; and geology, including the rock cycle.

Part 3

Part 3 begins by examining geologic time and the geologic eras of Earth. Students study plate tectonics and Earth's crust, learning about the causes of earthquakes, mountains, and volcanoes. Paleontology is the next topic: The curriculum explains fossil formation and the importance of the fossil record, transitioning to a survey of taxonomy and the animal kingdom.

Part 4

Students begin Part 4 by learning about adaptation, natural selection, and the theory of evolution. The topics of genetics and mutation follow naturally. Students learn how traits are passed from one generation to the next and how mutation leads to variation within a population. The curriculum leads students through an examination of an ecosystem, showing how food webs work and the roles that different organisms play. The curriculum stresses the importance of conserving Earth's limited natural resources.

Prerequisite: None

Length: Semester/Year

Middle School—Science, continued

Science 8

Chemistry, biology, physical science, and astronomy take the spotlight in Science 8. Students focus in detail on the composition of matter, chemical bonding, the systems of the body, the structure and function of different types of cells, motion and gravity, and the seasons. The curriculum helps students think about the universe by teaching classical mechanics as well as presenting the most up-to-date revelations about the galaxies, constellations, solar systems, planets, and moons.

Part 1

The course starts by defining atoms and elements. The course then describes how the characteristics of atoms relate to the organizing principles of the periodic table. Students learn about atomic orbitals and electron shells and apply this knowledge to the topics of chemical bonding, chemical equations, and compounds. The phases of matter is the next theme. Students learn how matter can change from one state to another. They discover the different types of solutions and the factors that affect solubility.

Part 2

Part 2 begins by reviewing temperature scales and differentiating temperature from heat. Students examine the role of energy in chemical reactions and learn to classify reactions as either exothermic or endothermic. The curriculum focuses on oxidation and reduction reactions and emphasizes the differences between acids and bases. A core understanding of chemistry helps students in their next phase of study: learning about the biology of the human body. Students learn about the digestive, endocrine, cardiovascular, respiratory, skeletal, muscular, excretory, and nervous systems; the scientific principles that relate to each system; and how specific disorders interfere with systemic function.

Part 3

The third part of the course starts by examining the cycles of the natural world: the water, carbon, and nitrogen cycles. Students survey life from the viewpoint of cell function, studying prokaryotic cells and the types of eukaryotic cells (fungus, protist, plant, and animal cells). Students learn how cellular structures relate to the functions of photosynthesis and respiration. After studying asexual and sexual cell reproduction, students understand the role of genes and genetic mutation in nature.

Part 4

The final part of this curriculum emphasizes physical science and astronomy. Students begin by exploring classical mechanics: Newton's Three Laws of Motion and the Law of Universal Gravitation. Then students study planetary motion and the orbit of Earth around the Sun. Students learn to relate characteristics of the Moon to lunar phases, tides, and eclipses. The curriculum describes the Sun and other stars, helping students grasp the concept of electromagnetic radiation. Students learn about the history of NASA and manned space flight, including the lunar missions. Finally, the course brings students up-to-date, providing an overview of recent discoveries about the solar system, galaxy and universe.

Prerequisite: None

Length: Semester/Year

Middle School—Social Studies

Social Studies 7

History, government, economics, sociology, geography, and anthropology all come together in this comprehensive and engaging social studies course. The curriculum begins with geography and climates and then covers prehistory, classical civilizations, and feudalism. After discussing the Crusades, the Mongol tribes, and the Ottoman Empire, the curriculum emphasizes the development of the nation state and modern society. The student understands the impact of international conflict from the Seven Years War to the end of the Cold War. The course provides students with an interactive experience that describes the physical and historical world and encourages students to draw parallels to the present day.

Part 1

The curriculum begins with geography, including map and globe skills, and introduces issues pertaining to oceans, continents, and climates. These concepts make students familiar with the backdrop against which human history has played. Students learn about the formation and role of government. They see how government developed from prehistory through the first human civilizations of Mesopotamia and Egypt.

Part 2

Part 2 begins with the New Kingdom of Egypt and traces ancient civilizations to classical empires, ending with medieval Europe. Students study the development of new spirituality in the Middle East, the growth of dynasties in the Far East, and the formation of Mesoamerican civilization. They discover how feudal Europe began to move toward the Renaissance. Part 2 helps students see how modern culture arose from ancient and classical civilizations.

Part 3

Part 3 shows the role that invasion, war, and occupation played in the development of the modern nation. Students learn about the Crusades, Genghis Kahn and the Mongol tribes, and the Ottoman Empire. The curriculum connects these events and people to a new way of thinking about political identity. Students discover how the Renaissance, the scientific revolution, and the Protestant Reformation were built upon the ideals of humanism and constitutional forms of government. The curriculum helps students realize that, as Europe moved toward greater individual freedoms, geographic exploration led to imperialism abroad and nationalism at home.

Part 4

Part 4 begins with the development of modern nations and their quest for overseas colonies. The competition for colonies and extreme nationalism led to international conflicts on a global scale. From the Seven Years War in Europe and North America to the end of the Cold War, the curriculum covers world conflict in depth. In addition, this section traces the rise of the Industrial Revolution; the labor and progressive movements and civil rights; the economics of a modern society; and the dawn of the Information Age.

Prerequisite: None

Length: Semester/Year

Middle School—Social Studies, *continued*

Social Studies 8

In Grade 8 social studies, students will focus on the history of North America and, in particular, the history of the United States. Students will examine the American experience by studying the earliest Native American tribes, learning about the colonial and revolutionary periods, understanding the nation's growing pains, and considering the role of the United States as a twentieth-century superpower. The course provides students with an understanding of the major events and trends of American history.

Part 1

Before Europeans knew that North America existed, thriving indigenous civilizations dotted the continent. The curriculum helps students understand Europeans' impact on the indigenous peoples as well as on present-day United States. Students learn how colonial life led to the colonists' first attempts at self-government. The curriculum shows that the road to independence was neither smooth nor clean, with slavery and revolution being a part of the American experience.

Part 2

Beginning with the Revolutionary War and continuing through the founding documents, students study the difficult process of creating a new nation. This part of the curriculum shows how the first presidents established traditions and how the United States expanded its borders and fought a second war with England.

Part 3

Part 3 shows how growing pains accompanied the expansion of US borders. Students study how resource issues led to the removal of indigenous peoples, wars with neighbors, and annexations. Part 3 chronicles the admittance of new states and the Mexican-American War, and it examines issues relating to slavery and the beginning of the Civil War.

Part 4

Students learn about the Civil War and see how the war helped America become an industrial powerhouse. As America's might grew, so did its role in international conflict. Students examine America's role in the Spanish-American War, World War I, World War II, and the Cold War. In addition, students examine American society of the 1920s and '30s and trace the reasons for and outcomes of the civil rights movement.

Prerequisite: None

Length: Semester/Year

Middle School—Electives

Discovering World Languages

In this course, students begin their discovery of the world of language through a set of fun and engaging online activities. An interactive environment called Saga contains learning activities that focus on solving puzzles that incorporate basic vocabulary and grammar for the world language the student is enrolled in.

In the Saga virtual environment, students travel to different world cities and famous landmarks acting as espionage recruits. Their objective is to complete puzzles at important landmarks in order to obtain the trace evidence necessary to complete their assigned mission. Every puzzle solution provides a new clue to the whereabouts of the targeted suspect.

In each activity, an audio translator tool is available. The translator persona, named Lexi, has access to major vocabulary terms and phrases needed to solve the puzzles. Vocabulary can be searched in either English or the world language, and each term and phrase is read aloud so users can hear how the word or phrase is pronounced. This tool is key to a discovery-based program as the students can find definitions and listen to pronunciations as needed to solve the puzzles.

There is unlimited time and an unlimited number of attempts at each puzzle, making the game impossible to lose, as long as the player keeps trying. As they become more familiar with the vocabulary and basic grammar skills, they will gain confidence in solving the puzzles. Using the process of elimination as the puzzles are completed, the students will eventually locate the target and solve the activity. Students will receive a certificate of completion for each of the discovery courses they finish.

The following four languages are available to students in the Discovering World Languages offering:

- Discovering Spanish
- Discovering French
- Discovering Chinese
- Discovering German

Prerequisite: None

Length: Semester

My Classroom Project

My Classroom is an interdisciplinary project-based curriculum that enables middle school students to experiment with and develop collaborative social communication skills in an educational environment. This team-based course is built around Core Learning Skills, which are designed to foster the growth of each student's social communication skills. The team projects in My Classroom are designed to measure each student's growth in the Core Learning Skills and apply students' understanding of the material during the 9-week course.

For each My Classroom project, students participate in one of four roles on the My Classroom projects. The roles include a mathematician, journalist, historian, and scientist. In each project segment, a student may choose any role, but each student must choose each role at least once in every subject. After choosing a role within the team, the student receives a list of the weekly objectives, the Core Learning Skills to be emphasized, and the tasks to be completed. As each student completes the weekly activities, his or her work is saved and compiled with that of teammates, to produce one theme-based 9-week project.

Prerequisite: None

Length: 9-week

Middle School—Electives, continued

Health & Fitness

The terms “health” and “fitness” refer to the overall well-being of body, mind, and relationships. This course provides up-to-date information in order to:

- Increase students’ understanding of the interrelationship of physical activity, nutrition, and overall health
- Help each student create or improve a healthful lifestyle

The course emphasizes health and health-related decision-making, nutrition and food choices, and the importance of a healthful lifestyle. Lessons encourage each student to set goals relating to optimal fitness level. Health and Fitness provides a comprehensive overview of the way the human body works and the ways in which daily decisions impact health.

Part 1

Part 1 introduces students to the essential concepts of health and wellness. Students learn to define health and wellness and the importance of setting goals related to well being. The lessons show students how to recognize peer pressure that could lead to poor decision-making, and students learn the strategies of conflict resolution. Part 1 focuses on the benefits of exercise and physical activity and highlights the challenges of avoiding unhealthy behaviors. Part 1 arms students with an understanding of nutrition, food labels, and dietary guidelines.

Part 2

The second part of Health and Fitness helps students develop an appropriate exercise plan and summarizes how physical activity affects different body systems. Part 2 details key exercise concepts: cross training, overload, and flexibility. After a survey of the major body systems and common ailments, Part 2 emphasizes the importance of self-esteem and emotional well-being.

Prerequisite: None

Length: Semester/Year

Introduction to OpenOffice Applications

Introduction to OpenOffice Applications teaches students how to use the OpenOffice.org™ word processing and presentation applications, Write and Impress. In addition, students learn the benefits of the OpenOffice environment.

Part 1

Part 1 covers the basics of OpenOffice Writer, including how to create, save, and customize Writer documents. The skills learned through class assignments enable students to complete real-world OpenOffice Writer tasks. Students learn document management, how to edit and proofread documents, and how to change the appearance of text.

Part 2

Part 2 teaches students to use OpenOffice Impress, the OpenOffice application that helps users create and manage multimedia presentations. Students practice creating, saving, and customizing Impress presentations for school and personal use. It covers creating, editing, and sequencing slides as well as producing corresponding handouts.

Prerequisite: None

Length: Semester/Year

PARENTAL INVOLVEMENT PLAN

The school shall –

- Establish a positive, welcoming atmosphere so that parents will always feel welcome
- Designate a staff member to serve as the Parent Facilitator whose duties are as follows:
 - ✓ Provide a communication line for teachers and parents.
 - ✓ Provide teacher training designed to encourage parental involvement for staff.
 - ✓ Undertake efforts to foster parental participation in the school.
- Develop a system of communication with the parents that consists of the following:
 - ✓ Foster a parent mass email list so that information can be distributed throughout the year.
 - ✓ Send out monthly newsletters and monthly calendars.
 - ✓ Send out interim reports each grading periods.
 - ✓ Maintain a user-friendly website (www.ocbainc.com or www.youngadultacademy.org) with a wealth of information.
 - ✓ Update the school's announcements on the school website about twice a month.
- Implement a campus leadership advisory team and encourage parents, students, community members and teachers to be a part of this Team.
 - ✓ Some of the responsibilities include a review and recommendation for course of study and local graduation requirements.
 - ✓ Changes to the School's discipline policies
 - ✓ Recommend improvements to the School's student wellness program.
- Implement and support a type of PTO and encourage all to join and participate.
- Prepare family kits that will be distributed at the first of the year that may include:
 - ✓ The School's Parental Involvement Plan
 - ✓ Important school information on school policies and procedures.
 - ✓ Recommended roles of parents, students, teachers and administration.
 - ✓ Information on ways a parent can become involved in our school and in the education of his/her student.
 - ✓ A calendar of activities to encourage parental involvement.
 - ✓ A communication process that allows parents, teachers and administrators to communicate in a productive two-way manner.
 - ✓ A process for resolving parental concerns, including who to approach first and how to develop a solution.
 - ✓ Provide tip sheets for parents on how to foster their student's success in school.
- Encourage communication with parents by scheduling at parent-teacher conferences.
To provide opportunities for parents, students, teachers and counselors to dialogue so that everyone is working toward the same goal of meeting each student's needs.
- Provide student orientation each year to help students and their families make a smooth transition into the next term at the school.
- Hold Open Houses -
 - ✓ Fall Open House will encourage parents to meet the teachers, administrators and staff.
 - ✓ Spring- "Come Check Us Out" is designed for prospective students to see what the school has to offer. (Preferably in February)
- Plan various activities throughout the school year that will be beneficial to families and will encourage parental involvement.
- Provide a Parent Center.
- Purchase magazines and books and other informative material that will be housed in the Parent Center and will be available for check-out by the parents.

- Provide a quarterly “State of the School” address that will be presented at each of our campus leadership team meetings.
- Schedule “Parents Make the Difference” evenings on various subjects that will give an overview of the following:
 - ✓ What students are learning.
 - ✓ How students will be assessed.
 - ✓ What parents should expect for their student’s education.
 - ✓ Understanding of Core graduation requirements
 - ✓ How parents can assist and make a difference in their student’s education.
 - Family Science Night
 - The School Health Fair
 - Drug, Alcohol, and Safety Awareness Workshops
 - PTO Meetings
- Survey the parents, so that the school can more effectively meet their needs.
- Encourage local businesses to serve in an advisory capacity.

The teachers shall -

- Provide a positive classroom atmosphere that is conducive to learning.
- Provide students with meaningful classroom instruction on a daily basis.
- Provide course information to Parents at Open House.
- Encourage parents to keep open communication lines to enhance their students’ success.
- Provide interim reports to all students each of the four nine-week grading periods.
- Post students’ grades to the grade site at least once a week.

The parents shall -

- Encourage teachers, counselors and administrators to keep open communication lines to enhance their students’ success.
- Review the monthly calendar that is provided by the school.
- Review their student’s planner/organizer every class.
- Attend parent conferences and workshops and school activities.
- Contact the school if there is an issue that needs to be resolved.
- Become an involved parent at the school. Be involved in one or more of the following ways
 - ✓ Parent/Teacher Organization (PTO), Mentoring or Volunteering at the school
 - ✓ Campus leadership team or Advisory Committee
 - ✓ Drug and Alcohol Task Force.
- Provide a quiet place at home for students to complete their homework and/or study.
- Monitor your student’s learning and provide assistance when needed.
- Monitor your student’s progress as follows:
 - ✓ Review online grade site weekly.
 - ✓ Review the monthly letter and calendar.
 - ✓ Contact the teachers on a regular basis.
 - ✓ Utilize the school’s website for important updates and information
 - ✓ Review the interim reports and the report cards.
- Abide by the school’s parent agreement
- Read "Choosing Civility, the 25 Rules of Considerate Conduct"
- Encourage their student to abide by the rules at school and at home.

Shared Responsibilities for High Student Academic Achievement

Parent-Student-Teacher-Compact

School Mission: The mission of the school is to provide a school organization that encourages high integrity, high performance, and focuses on all our students to excel both academically and ethically in all school and outside life related endeavors. Through the combined efforts of students, faculty, parents, and the community, our students will learn to set and achieve goals that will ensure they are productive citizens in a multicultural and technological society.

School Agreement

The entire school staff will share the responsibility for improved student achievement; therefore we will do the following:

- Hold parent/teacher conferences
- Send frequent reports to parents on their student’s progress.
- Provide opportunities for parents to volunteer and participate in their student’s class and observe classroom activities.
- Provide an environment conducive to learning.
- Respect the student, their parents and the diverse culture of the school.

School/Teacher Signature _____

Parent/guratinan agreement

I want my teenager to reach his/her full academic potential; therefore I will do the following to support my teen’s learning:

- Have an on-going communication with the school; including parent-teacher conferences and volunteering.
- See that my student attends school regularly and is punctual
- Supports the school staff and respects cultural differences of others.
- Establishes a time and place for homework and checks it regularly.
- Monitor television and movie viewing.
- Will help to make positive use of extra curricular time

Parent/Guardian Signature _____

Student Agreement

It is important that I do the best I can; therefore I will do the following:

- Come to school each day on time with my homework completed and have the supplies that I need
- Always try to work to the best of my ability
- Believe that I can learn and I will learn
- Conform to the rules of conduct and my school
- Show respect for my school, myself, and other students, and have consideration for cultural differences.

Student Signature _____

CONFLICT OF INTEREST POLICY

Conflict of Interest Policy

Article I Purpose

The purpose of the conflict of interest policy is to protect this tax-exempt organization's, Osceola Communication, Business and Arts, Inc., hereby known as OCBA Inc. or "The Entity" (per Arkansas Department of Education RESOLUTION's Legal Comments), interest when it is contemplating entering into a transaction or arrangement that might benefit the private interest of an OCBA Inc. officer or director or might result in a possible excess benefit transaction. This policy is intended to supplement but not replace any applicable state and federal laws governing conflict of interest applicable to nonprofit and charitable organizations.

Article II Definitions

1. **Interested Person.** Any director, principal officer, or member of an OCBA Inc. committee with governing board delegated owners, who has a direct or indirect financial interest, as defined below, is an interested person.
2. **Financial Interest.** A person has a financial interest if the person has, directly or indirectly, through business, investment, or family;
 - a. An ownership or investment interest in any entity with which OCBA Inc. has a transaction or arrangement,
 - b. A compensation arrangement with OCBA Inc. or with any entity or individual with which OCBA Inc. has a transaction or arrangement, or
 - c. A potential ownership or investment interest in, or compensation arrangement with, any entity or individual with which OCBA Inc. is negotiating a transaction or arrangement.
Compensation includes direct or indirect remuneration as well as gifts or favors that are not insubstantial.

A financial interest is not necessarily a conflict of interest. Under Article III, Section 2, a person who has a financial interest may have a conflict of interest only if the appropriate OCBA Inc. governing board or committee decides that a conflict of interest exists.

Article III Procedures

1. **Duty to Disclose**
In connection with any actual or possible conflict of interest, an interested person must disclose the existence of the financial interest and be given the opportunity to disclose all material facts to the OCBA Inc. directors and members of committees with governing board delegated powers considering the proposed transaction or arrangement.
2. **Determining Whether a Conflict of Interest Exists**
After disclosure of the financial interest and all material facts, and after any discussions with the interested person, he/she shall leave the OCBA Inc. governing board or committee meeting while the determination of a conflict of interest is discussed and voted upon. The remaining OCBA Inc. board or committee members shall decide if a conflict of interest exists.

3. Procedures for Addressing the Conflict of Interest

- a. An interested person may make a presentation at the OCBA Inc. governing board or committee meeting, but after the presentation, he/she shall leave the meeting during the discussion of, and the vote on, the transaction or arrangement involving the possible conflict of interest.
- b. The chairperson of the OCBA Inc. governing board shall, if appropriate, appoint a disinterested person or committee to investigate alternatives to the proposed transaction or arrangement.
- c. After exercising due diligence, the OCBA Inc. governing board or committee shall determine whether OCBA Inc. can obtain with reasonable efforts a more advantageous transaction or arrangement from a person or entity that would not give rise to a conflict of interest.
- d. If a more advantageous transaction or arrangement is not reasonably possible under circumstances not producing a conflict of interest, the OCBA Inc. governing board or committee shall determine by a majority vote of the disinterested directors whether the transaction or arrangement is in OCBA Inc.'s best interest, for its own benefit, and whether it is fair and reasonable. In conformity with the above determination it shall make its decision as to whether to enter into the transaction or arrangement.

4. Violations of the Conflict of Interest Policy

- a. If the OCBA Inc. governing board or committee has reasonable cause to believe its member has failed to disclose actual or possible conflicts of interest, it shall inform the member of the basis for such a belief and afford the member an opportunity to explain the alleged failure to disclose.
- b. If, after hearing the member's response and after making further investigation as warranted by the circumstances, the OCBA Inc. governing board or committee determines the member has failed to disclose an actual or possible conflict of interest, it shall take appropriate disciplinary and corrective action.

Article IV Records of Proceedings

The minutes of the OCBA Inc. governing board and all committees with board delegated powers shall contain:

- a. The names of persons who disclosed or otherwise were found to have a financial interest in connection with an actual or possible conflict of interest, the nature of the financial interest in fact existed.
- b. The names of the persons who were present for discussions and votes relating to the transaction or arrangement, the content of the discussion, including any alternatives to the proposed transaction or arrangement, and a record of any votes taken in connection with the proceedings.

Article V Compensation

- a. Pursuant to Arkansas School Board member laws concerning compensation, a voting member of the OCBA Inc. governing board may not receive compensation, directly or indirectly, from OCBA Inc. for services

- b. A voting member of any OCBA Inc. committee whose jurisdiction includes compensation matters and who receives compensation directly or indirectly, from OCBA Inc. for services is precluded from voting on matter pertaining to that member's compensation.
- c. No voting member of the OCBA Inc. governing board or any committee whose jurisdiction includes compensation matters and who receives compensation, directly or indirectly, from OCBA Inc., either individually or collectively, is prohibited from providing information to any committee regarding compensation.

Article VI
Annual Statements

Each director, principal officer and member of an OCBA Inc. committee with governing board delegated powers shall annually sign a statement which affirms such person:

- a. Has received a copy of the conflicts of interest policy,
- b. Has read and understands the policy,
- c. Has agreed to comply with the policy, and
- d. Understand OCBA Inc. is charitable and in order to maintain its federal tax exemption it must engage primarily in activities which accomplish one or more of its tax-exempt purposes.

Article VII
Periodic Reviews

To ensure OCBA Inc. operates in a manner consistent with charitable purposes and does not engage in activities that could jeopardize its tax-exempt status, periodic reviews shall be conducted. The periodic reviews shall, at a minimum, include the following subjects:

- a. Whether compensation arrangements and benefits are reasonable, based on competent survey information and the result of arm's length bargaining.
- b. Whether partnerships, joint ventures, and arrangements with management organizations conform to OCBA Inc.'s written policies, are properly recorded, reflect reasonable investment or payments for goods and services, further charitable purposes and do not result in **inurement**, impermissible private benefit or in an excess benefit transaction.

Article VIII
Use of Outside Experts

When conducting the periodic reviews as provided for in Article VII, OCBA Inc. may, but need not, use outside advisors. If outside experts are used, their use shall not relieve the OCBA Inc. governing board of its responsibility for ensuring periodic reviews are conducted.

2013-2014 Application Cycle

Application

**Young Adult Magic Johnson Bridgescape Academy of Crittenden County
Sunset, Arkansas**

RECEIVED

Arkansas Department of Education
Charter and Home School Office
Sep 03, 2013

ARKANSAS DEPARTMENT OF EDUCATION

2013 Application Open-Enrollment Public Charter School

Deadline for Receipt of Submission: Tuesday, September 3, 2013, 4:00 p.m.
Applications will not be accepted after this time.

Name of Proposed Charter School:

Young Adult Magic Johnson Bridgescape Academy of Crittenden

Any application that is substantially incomplete will not be forwarded to the authorizer for consideration. An application will be considered substantially incomplete if it does not provide enough information to enable staff at the Arkansas Department of Education to provide a meaningful review.

**ARKANSAS DEPARTMENT OF EDUCATION
2013 APPLICATION
OPEN-ENROLLMENT PUBLIC CHARTER SCHOOL**

A. GENERAL INFORMATION

Name of Proposed Charter School: Young Adult Magic Johnson Bridgescape Academy of Crittend

Grade Level(s) for the School: 9-12 Student Enrollment Cap: 250

Name of Sponsoring Entity: Osceola Communication, Business and Arts, Inc

The applicant is an "eligible entity" under the following category (check one):

- a public institution of higher education;
- a private nonsectarian institution of higher education;
- a governmental entity; or
- an organization that is nonsectarian in its programs and operations, and is, or will be, exempt from taxation under Section 501(c)(3) of the Internal Revenue Code. (A copy of the entity's letter from the IRS reflecting tax exempt status or a copy of the entity's application for 501(c)(3) status must be included with the application. Articles of incorporation or a letter acknowledging non-profit status from the Secretary of State will not suffice.) To be eligible, an entity must hold or have applied for 501(c)(3) status at the time this charter application is filed. The entity must receive formal tax exempt status under §501(c)(3) of the Internal Revenue Code of 1986 prior to the first day of its operation with students.

Non-profit entities without the required Internal Revenue Service documentation are not eligible to be awarded charters; therefore, any applications submitted without the proper documentation will not be reviewed.

Name of Contact Person: Sally Wilson

Address: 851 W. Semmes City: Osceola

List the current K-12 student enrollment of the district where the proposed public charter school would be located.

4110 (Total District Enrollment)

List the school districts from which the charter school expects to draw students.

Earle School District Marion School District West Memphis School District

Hughes School District East Poinsett School District Marked Tree School District

So. MS County School District _____ _____

B. EXECUTIVE SUMMARY

Provide the mission statement of the proposed school.

Applicant Response:

The Charter School will implement the Magic Johnson Bridgescape model, a specialized program focused on dropout prevention and recovery for students in grades 9-12 who have dropped out of school or who are at-risk of dropping out of school. The mission of Magic Johnson Bridgescape is to provide an alternative graduation path for those who are at risk through dropout intervention services that include a self-paced quality education in a personalized environment with a focus on successful postsecondary transitions. The program is grounded in the belief that every student, given the right tools, support and environment, is capable of exceeding their expectations. This vision is incorporated in a program that is student-focused and providing individuals an opportunity to earn a high school diploma in an environment that fits their schedule, life circumstances and learning needs.

The Magic Johnson Bridgescape model provides a student-centered, blended learning, community-integrated model which creates a positive and safe learning environment focused on improving attendance and student achievement. Through a strategic alliance with Magic Johnson Enterprises, Magic Johnson Bridgescape draws on EdisonLearning's nearly twenty year history of school improvement success and educational innovation and *the proven track record, passion, and leadership of Magic Johnson Enterprises to address the specific needs of students who are at-risk of not graduating or who have already dropped out of school*

Briefly describe the key programmatic features that the school will implement in order to accomplish the mission.

Applicant Response:

The Charter School will serve students who want to move forward academically and graduate but find the obstacles overwhelming. This includes students who are pregnant or parenting, working to support themselves or family members, falling behind or struggling with coursework, or disengaging from learning in the traditional setting.

In order to adequately support the population of students, the Magic Johnson Bridgescape program combines several key components: a blended instructional model that includes direct instruction and online learning, an individualized instruction path, and the counseling and behavioral coaching necessary to earn a high school diploma and achieve success beyond graduation. These components work together so that the program focuses on the whole student and not just the student's academic coursework.

Through the blended learning environment, high school students will be able to experience an abbreviated non-traditional school day and maximize the online coursework to focus on specific areas of need. Additionally, through a combination of the individualized instructional path and coaching and counseling, students will receive a roadmap to receive their high school diploma and the counseling to support not only that effort, but to also make post-secondary plans.

C. NARRATIVE DESCRIPTION OF THE PROPOSED CHARTER SCHOOL

The applicant for the proposed charter school, if approved by the authorizer, agrees to operate the educational program described below in accordance with the provisions described within this document, Arkansas Code Annotated §6-23-101 et seq., the State Board of Education Rules Governing Charter Schools, and the attached assurances.

Provide a narrative description of the various components of the proposed charter school by responding to the following prompts:

1. Describe the results of the public hearing, which was held for the purpose of assessing support for the establishment of this public charter school. Provide copies of supporting evidence.

Attach documentation to demonstrate that each of the following requirements of Arkansas Code Annotated §6-23-302 was met:

- A. The notice of the public hearing was published on a weekly basis for at least three (3) consecutive weeks prior to the date of the hearing in a newspaper having general circulation in the school district in which the school will likely be located.
- B. The notice of the public hearing was not published in the classified or legal notice section of the newspaper.
- C. The last publication date of the notice was no less than seven days prior to the public meeting.
- D. Within seven calendar days following the first publication of the notice of the public hearing, emails announcing the public hearing were sent to the superintendent of each of the school districts from which the open-enrollment public charter school is likely to draw students for the purpose of enrollment and the superintendent of any district that is contiguous to the district in which the open-enrollment public charter school will be located.

Applicant Response:

The Young Adult Magic Johnson Bridgescape Academy of Crittenden County public hearing was held at 6:00 on Monday, August 26, 2013 in the Marion City Hall, 14 Military Road in Marion, Arkansas.

The notices ran in the local paper, The Evening Times, on August 8, August 14 and August 19. The last notice on Monday, August 19 was seven days prior to the public meeting. The size of each notice was 3.5" by 3" and ran on the page with general news. The notice read: "You are invited to a meeting to hear about a proposed charter school. Young Adult Magic Johnson Bridgescape Academy. Monday, August 26, 6:00pm, Marion City Hall. For more details e-mail ocbainc@yahoo.com". **Copies of the three notices are attached.**

The superintendents from all districts where the school is more likely to draw students and the districts contiguous to the Marion School District were invited to attend via e-mail on August 13, 2013. The names and schools of the superintendents invited are as follows:

Mr. Don Johnston, Marion School District;

Mr. Jon Collins, West Memphis School District;
Mr. Rickey Nicks, Earle School District;
Mr. Jimmy Wilkins, Hughes School District;
Mr. Michael Pierce, East Poinsett County School District;
Mrs. Annesa Thompson, Marked Tree School District;
Mr. Gary Masters, South Mississippi County School District

A copy of the e-mail, with the superintendents' contact information visible in the "To:" space is attached.

The Public Meeting was a complete success. Over 30 people attended the meeting including two circuit judges, the juvenile court chief officer, a city councilwoman, the city attorney, local church leaders and school teachers. Mark Randall, a reporter from the local paper attended and wrote a lengthy article that appeared on the front page of the local newspaper, The Evening Times two days after the meeting. The headline for article read, "Support Voice for charter plan." **The article written by the reporter is available to ADE.**

The Public Meeting began at 6:10. Sally Wilson, the President of Osceola Communication Business and Arts, Inc, or OCBA, welcomed the attendees, reminded everyone to sign the attendance sheet. **The signed attendance sheets are available to ADE.** Wilson invited those in attendance who oppose the charter application register their opposition on the "I oppose" sheet.

Wilson gave a brief introduction of OCBA and explained how America's Promise Alliance and GradNation matched OCBA with the Magic Johnson Bridgescape Academy. Wilson also showed the educational need and the large number of non-graduated in the county. Mike Malone, from Indiana, gave the history of EdisonLearning, and explained the educational program and the record of proven success.

Wilson and Mike Malone from EdisonLearning used a PowerPoint presentation.

The 25 minutes powerpoint presentation lasted about 25 minutes included the following topics. A question and answer period followed. The powerpoint presentation included:

- 1) The relationship between OCBA and Magic Johnson Bridgescape Academies/EdisonLearning
- 2) The dropout crisis data for Crittenden County
- 3) OCBA and MJBA's relationship with America's Promise Alliance and GradNation
- 4) The loss of economic impact in Crittenden County by the non-graduates
- 5) EdisonLearning fact sheet
- 6) EdisonLearning student demographics
- 7) Introduction Magic Johnson Bridgescape, MJB and its 17 campuses in five states
- 8) The school's key features, instructional model and curriculum
- 9) The Magic Johnson Bridgescape success rate
- 10) The benefits of the MJB alliance
- 11) A national map showing the Magic Johnson Bridgescape locations
- 12) MJB demographics and performance results
- 13) The Arkansas charter school approval process and timeline
- 14) An invitation to help and how to get involved

The slide showing the dropout crisis showed the dropping enrollment of the cohort groups in the last six graduating classes in Crittenden County. As an example, the combined Crittenden County class of 2011, had 902 students in its 10th grade class count but only 595 seniors graduated 2 ½ years later. The source of this data is the ADE Data Center county enrollment. Furthermore, the loss of economic impact from each graduate per year is \$10,780. This amount totals to \$3.3 million annually for 303 non-graduates from the class of 2011 alone. **A copy of the powerpoint presentation is available to ADE.**

A question and answer period followed with very good questions. The meeting concluded at 7:00.

The attendees appeared supportive of the proposed school. No one voiced opposition to the school and no one signed the "I oppose" sheet. **The "I oppose" sheet is available for ADE review.**

The meeting date was presented in three separate front-page articles in The Evening Times. The articles were

very informative and ran on August 8th, August 9th and August 26th. **Copies of the articles are available to ADE.**

The meeting was promoted to local leaders. On the Friday, before the meeting, and Monday, the day of the meeting, Sally Wilson and Mike Malone visited several community leaders to share information about the charter school proposal, including the city mayor, the county sheriff, the county mayor, the city police chief, the public defender, the juvenile intact officers, the deputy prosecuting attorney, the circuit clerk and the pastors or staff of three large churches. The feedback from the visits was positive. Most of those visited offered to write letters of support for the charter school proposal.

As a result of the meeting and extensive publicity and promotion, area citizens showed their support for the charter school application by signing a petition of support. **Five sheets of the Petition of Support are attached.** To date, there are at least **six additional sheets of the Petition.** **These additional petition sheets are available to ADE.**

2. Describe the governing structure of the open-enrollment charter school, including board composition, selection process, and responsibilities. Also describe the role of the administrators, faculty, parents, students, and community members in the leadership and decision-making of the school. As part of your response, answer the following specific questions:
 - A. Identify what individual, job position(s), or entity(s) will have final decision-making authority for the school in the areas of (1) finance and purchasing; (2) student discipline; (3) hiring and firing of staff; and (4) hiring and firing of the school director or superintendent.
 - B. Specify how the final decision-maker(s) identified in response to (A)(3) will be selected or elected, including (1) length of term, (2) method of selection or election, and (3) who will have the authority to participate in the selection or election process.
 - C. Explain how and to what extent the school's leadership will be accountable to parents.

Applicant Response:

Legal Structure

The non-profit corporation Osceola Communication, Business and Arts Inc., (hereafter referred to as OCBA) is the sponsoring entity of the charter school application. OCBA has a governing board (hereafter referred to the Board) pursuant to its bylaws. The bylaws is posted on the website, <http://www.ocbainc.com> . If the Charter School is approved, this Board will govern the school and will be the ultimate governing body of the charter school.

Non-profit status since 2007

OCBA is a non-profit corporation that is nonsectarian in its programming and operations, and is exempt from taxation under Section 501(c)(3) of the Internal Revenue Code. OCBA was founded in 2007 by a group of volunteers dedicated to raising funds for educational efforts and making application for open-enrollment public schools. OCBA was approved by the U. S. Department of the Treasury in 2007. The Internal Revenue Service issued determination letter, which verifies the OCBA's tax exempt status, is attached. OCBA is governed according to its bylaws that have already been approved by the IRS.

Governing Board's Roles and Responsibilities

The Board will control the operation of the proposed Charter School and make all decisions regarding the school. The Board will have final decision-making authority for the Charter School in the areas of finance, purchasing, student discipline, hiring and firing of staff, and hiring and firing of the Program Director and Director of Achievement.

If the charter is approved, the OCBA Board will enter into an agreement with EdisonLearning for the Magic Johnson Bridgescape program. Items in the agreement will include; recommendation for the school's directors, professional development of the teachers and staff, student recruitment, evaluating and assessing student, curriculum delivery, providing support services to the students, etc. **A sample of the agreement can be made available for ADE review**

OCBA will be responsible for fund raising and grant writing for the proposed Charter School. OCBA will incur any debt for the establishment and maintenance of the proposed Charter School. OCBA members abide by all federal rules governing non-profit boards and foundation. Should the Charter School close or be closed, all assets or funds (after debts paid) collected by OCBA on behalf of the Charter School will be returned to the state.

Policies and Procedures for Board Operation and Board election

Pursuant to its bylaws, the OCBA Board is elected to office by the OCBA members at the Annual Meeting held on the third Tuesday in September. OCBA membership is open to everyone dedicated to the mission of the Charter School.

The length of the terms for Board officers is two years. An officer is limited to two consecutive terms in the same office. The Board officers are a President, Vice President, Secretary, and Treasurer. The President presides over the Board meetings. The Secretary maintains minutes of the meetings. The Vice President acts in the President's absence. The Treasurer is responsible for overseeing the finances. If the charter is approved and pursuant to school law, the Board, during its September meeting will pass a resolution identifying the dispersing officer and alternate dispersing officer and file the resolution with the county treasurer and Department of Finance Administration. Pursuant to the OCBA bylaws, if a charter school application is approved, another board member will be elected making the board composition five members. This Board position will become the chairman of an Advisory Committee for the school. The Advisory Committee will not have governing powers but can help to advise the Board in matters concerning the charter school.

The Board will join the Arkansas School Board Association (ASBA) and will utilize the ASBA model policy program. The Board will adhere to requirements of local Board of Directors in Arkansas, including Arkansas' code of ethics for board members, avoiding nepotism and adhering to freedom of information, FOI. The Board members must attend training that is determined by the Corporation members at the Annual Meeting. The Board will oversee a long range plan for the Charter School.

The Board policies, using the ASBA model policy program, identify the specific day-to-day operations of the school and will be reviewed and approved by the Board each year and posted on the school website. **Drafts of the School Board's policy, Student Handbook, Personnel Handbook can be available for review by the ADE staff.**

Delineation

EdisonLearning will recommend a qualified person for the Program Director and the Director of Achievement to the Board. The Program Director will recommend names for campus personnel to the Board to hire, renew, not renew and terminate.

The Board will vote to hire, renew, not renew and terminate all the school employees and consultants. The Board will issue all employee contracts and post the contracts on the school website pursuant to Arkansas law.

The Program Director, serving as the school's business manager. The description of personnel who will perform business duties is in Section C13, Business and Budget Planning of this application.

The Program Director will be responsible for student discipline and will oversee all disciplinary issues related to rules and regulations that are laid out in the student handbook. Per state rules and school policy, if the Director wishes to suspend a student for longer than 10 days, the Director must seek approval by the Board for expulsion. The school board will approve a student handbook, based upon the ASBA model policies, that includes a section on student discipline. The Program Director will ensure that the rules and regulations are carried out and adhered to accordingly.

Plan for Involving Parents, Staff, Students and Community in the Decision-Making of the Charter School

A draft **Parent Involvement Plan** outlines the involvement of parents, staff and community in the decision-making of the Charter School. All parents, staff, adult-age students and supportive citizens are encouraged to join the OCBA non-profit corporation.

A local Advisory Committee of parents, staff, students and community volunteers will be appointed by the Program Director to support the Charter School and the Board. Though the group will not have governing power, the Board will consider suggestions from the Advisory Committee.

3. Give the mission statement for the proposed charter school.

Applicant Response:

The Charter School will implement the Magic Johnson Bridgescape model, a specialized program focused on dropout prevention and recovery for students in grades 9-12 who have dropped out of school or who are at-risk of dropping out of school. The mission of Magic Johnson Bridgescape is to provide an alternative graduation path *for those who are at risk through dropout intervention services that include a self-paced quality education in a personalized environment with a focus on successful postsecondary transitions.* The program is grounded in the belief that every student, given the right tools, support and environment, is capable of exceeding their expectations. This vision is incorporated in a program that is student-focused and providing individuals an opportunity to earn a high school diploma in an environment that fits their schedule, life circumstances and learning needs.

The Magic Johnson Bridgescape model provides a student-centered, blended learning, community-integrated model which creates a positive and safe learning environment focused on improving attendance and student achievement. Through a strategic alliance with Magic Johnson Enterprises, Magic Johnson Bridgescape draws on EdisonLearning's nearly twenty year history of school improvement success and educational innovation and the proven track record, passion, and leadership of Magic Johnson Enterprises to address the specific needs of students who are at-risk of not graduating or who have already dropped out of school

4. Describe the educational need for the school. Include the innovations that will distinguish the charter from other schools.

Applicant Response:

Filling a Critical Need

Through its involvement with America's Promise Alliance, <http://www.americaspromise.org>, and the GradNation initiative, OCBA is aware of the need for innovative education to address the dropout crisis in the U.S., in Arkansas and in the Arkansas Delta. Nationwide, a student drops out of school every 26 seconds. The numbers of students leaving Arkansas schools can be studied using the ADE Data Center October 1st enrollment counts and graduation numbers. A typical illustration is an analysis of the statewide enrollment data from the class of 2011. The class of 2011 had 37,819 members in its 9th freshman class. The enrollment of this class dropped to 35,853 the next year, in their sophomore year. By the time the class of 2011 graduated, the number had dropped to 28,921 students.

For that class in Crittenden County, there were 902 sophomores but only 595 graduates in 2011.

For the same class in Mississippi County, there were 747 freshmen but only 536 graduates in 2011.

Studying the ADE Data Center enrollments over the past few years, there appears to have been shrinkage in the graduating classes of about 200 students per year in Mississippi County schools and about 250 students per year in Crittenden County schools. If these numbers are indicative of the number of non-graduates each year, *there could be 800 non-graduates between the ages of 18 and 22 living in Mississippi County, and about 1,000 non-graduates of the same age living in Crittenden County.* These non-graduates are the primary target group for the Young Adult Magic Johnson Bridgescape Academy.

This ADE data, from the last few years, was entered into line graphs. These graphs were presented at the public meetings and **are available to ADE.**

Innovations

OCBA recognizes that there is a need for an educational program to allow students to reach their potential in a non-traditional high school structure. OCBA proposes using EdisonLearning's Magic Johnson Bridgescape program; a scalable, cost-effective dropout prevention and recovery solution.

The Magic Johnson Bridgescape program will be different from the current comprehensive high schools and Alternative Learning Environments offered in area schools. The program provides a blended learning environment, where each student follows an individualized instructional path and is continually supported through coaching and counseling in order to earn a high school diploma and explore post graduation options.

The guiding goals for the Magic Johnson Bridgescape program are:

- Provide a challenging, enriching, and meaningful curriculum;
- Establish an environment that is safe and conducive to learning;
- Respect and celebrate a diverse community of learners;
- Assist students in developing good coping and problem solving skills that will allow them to meet challenges in a positive manner;
- Provide students with the tools necessary to achieve academic success, thus building the skills and confidence needed to become productive and contributing members of society; and
- Prepare students for post-secondary options including workforce readiness through Magic Johnson Enterprises workforce solutions and resources.

In the Magic Johnson Bridgescape model, differentiating program and instructional needs begins at the time of enrollment when students complete an initial assessment to determine any skill gaps that may be barriers to success. Once gaps are identified, students will be prescribed a reading and/or math remediation track to address specific needs. All historical data (*i.e.*, transcripts, IEPs, state assessment results) and any other available records and data will be reviewed by the teachers and staff who will collaborate with the student and parent or guardian (if available) to create the student's Individual Graduation Plan (IGP). Remediation, if needed, is included as a component of the IGP. Furthermore, students will be enrolled in an online career preparation course that will allow them to identify individual strengths and skills and to investigate employment and career options.

The blended instructional model gives students the opportunity to work at their own pace, take advantage of flexible scheduling, and learn through a variety of instructional methods. EdisonLearning's proprietary online coursework (eCourses) is designed to personalize the learning experience. eCourses are self-guided and self-paced, enabling students to complete coursework at their own pace, while fully monitored and supported with daily assessments and interventions. Structured based on a modular design with lessons limited to one or two standards based on objectives that are clear and attainable, students maintain focus and motivation by accomplishing achievable goals in each lesson, a technique which has been shown to foster success in online learning. Each lesson is accompanied by an assessment that tests mastery of lesson content and includes a host of interactive multimedia features that support the diverse needs of students as well as reinforce key concepts in the curriculum.

The eSchoolware learning and content management system allows teachers and staff to review student results, grades, time-on-task, and incorporate notes on achievement of student goals. When students are identified as struggling within a content area they will be provided the individualized assistance needed to master the material and move on. Individual or small group instruction is driven by student needs as identified through progress monitoring and will be provided as needed, both formally and informally. Small group instruction will be provided not only to address remediation needs but also to provide enrichment, specifically in the area of character education to promote good citizenship and decision making skills as well as to develop core values that include compassion, integrity, justice, and responsibility.

Teachers and staff will regularly monitor progress of their students according to the IGP on at least a weekly basis and adjust any expectations or conduct conferences to determine interventions and remediation that may be needed to keep the student on track. Progress Monitoring Logs are kept at the program location and notes are made regularly so that information can be shared among the team.

Further, focused on the student as an individual, the teachers, paraprofessionals, and counselors offer more than instructional and academic guidance, but a support network that enhances the student experience with life skills coaching, post-graduation planning and goal setting and measurement to ensure that every student has a clear path to graduation and beyond. Assistance with job placement and job training is available, many times working with community groups to provide local support and opportunities. One such resource is Magic Johnson Enterprises, which will provide students connections to workforce solutions and partner businesses. Students graduating from Magic Johnson Bridgescape programs are eligible for high school to workplace or high school to college resources. Through the program, students will have access to job readiness and mentorship resources to assist in career preparation and post-secondary planning. The program will partner with local businesses, civic organizations, and non-profits to create career platforms for students, providing workplace exposure and training and Magic Johnson Enterprises will leverage its full service staffing business and its other businesses and local partnerships to help identify job opportunities for graduates. The Magic Johnson Foundation will offer scholarship opportunities for students who graduate from the Magic Johnson Bridgescape programs.

The research on preventing dropouts by the U.S. Department of Education identifies key strategies for effective programs including creating more personalized learning environments for students; providing extra support and academic enrichment for struggling students; assigning adult advocates to students deemed to be at risk of dropping out; and providing rigorous and relevant instruction to engage students in learning. The blended learning environment, individualized instructional path, and counseling and coaching offered through the Magic Johnson Bridgescape programs are based on the U.S. Department of Education's recommendations.

The targeted student population for the Magic Johnson Bridgescape program is students who want to move forward academically and graduate but find the obstacles overwhelming. This includes students who are pregnant or parenting, working to support themselves or family members, falling behind or struggling with coursework, or disengaging from learning in the traditional setting. In order to adequately support these students, the teachers and staff, including a qualified guidance counselor, focus on the whole student and not just the student's academic coursework. In focusing on the whole student, at the time the student is enrolled in a Magic Johnson Bridgescape program, the teachers and staff and specifically the counselor determine the social and emotional needs of the individual students. These needs will inform the IGP to determine the supports needed for success. As the student progresses through the program, the social and emotional needs will be continually monitored by all staff members. To provide these supports, the guidance counselor will identify the necessary community partners and create a network of external social agencies to provide the needed resources and services for the students. For example, in the metropolitan Columbus area, the program has partnered with the Youth Empowerment, Mothers Helping Mothers, Franklin County Children Services, the Ohio Department of Youth Services, Ohio Health, and the American Red Cross. If a student is hungry, doesn't have a place to stay, or is lacking basic needs, we strive to identify those needs and the agencies or support network that can meet these and thus eliminate barriers to learning.

Based on our experience in serving similar student populations, the main social and emotional needs of students who have dropped out of school or who are at-risk of dropping out of school are the basic necessities which are not always available in poorer communities (food, clothing, and shelter) and the issues that plague today's students (drug and alcohol abuse, bullying, gang activity). Magic Johnson Bridgescape works with students to address and ensure that to the best of our abilities their needs are satisfied so that they can learn.

Career and Technical Education

Responding to the community leaders' requests for additional career and technical education, OCBA may apply for a pilot program through Arkansas Career and Technical Education. The courses of study considered include Steel Technology and/or Logistics/Warehousing.

Distinguishing characteristics

It is not just our extensive experience of both OCBA and EdisonLearning that will set the Charter School apart from other schools, but the Magic Johnson Bridgescape's model's ability to still focus on the student's needs

through practical research-based strategies, and more modern, involved ways of instructional support.

5. Describe the educational program to be offered by the charter school.

Applicant Response:

Description of educational program

The Charter School will offer both a direct instruction and online educational program. The online courses are provided through Edisonlearning's proprietary eCourses, self-guided and self-paced online high school curriculum *that enables students to complete coursework at their own pace, while being fully monitored and supported with daily assessments and interventions.*

The primary source of curriculum is online coursework provided through EdisonLearning's proprietary eCourses, which are designed to personalize the learning experience. The courses are self-guided and self-paced, enabling students to complete coursework at their own pace, while fully monitored and supported with daily assessments and interventions. Each lesson is also accompanied by an assessment that tests mastery of *lesson content. An online PDF textbook is also included with each course that serves as a companion guide to the content presented in each lesson.*

Viable education program

The online coursework is designed to allow for individualization and customization based on specific student needs and includes a host of interactive multimedia features that support these diverse needs as well as reinforce key concepts in the curriculum. Features such as interactive demonstrations, interactive games, videos, and virtual science labs make courses *engaging and support learning. Not only do students work at their own pace and focus on the learning components of each lesson that resonate with their own particular learning style, but the Foundation eCourses require that students demonstrate mastery (i.e., receive a score of 80% or better) of the current lesson's assessment in order to advance to the next lesson. Additionally since students in alternative education may be struggling readers, Foundation eCourses are designed to support reluctant or struggling, while still maintaining the same academic rigor. Further audio programming components of the online curriculum, such as the text to speech functionality, allow lessons to be heard as well as read to support struggling readers and English Language Learners.*

The eCourses are delivered through an engaging and competency-based platform called Course Player. This system delivers content to students in a linear fashion one learning object at a time and presents material appropriate to each learning modality. For example, visual learners will find comfort in direct video instruction covering examples and lesson objectives. Auditory learners are accommodated through text-to-speech software available for all textual content. Kinesthetic learners will be drawn to activities that require drag-and-drop tools, model building, laboratory simulations and other online manipulatives embedded into the curriculum.

In addition to their online learning, students will engage with teachers offering direct instruction for remediation, intervention, and enrichment, which may include, but is not limited to:

- Direct Instruction
- Project Based Learning
- Small Group
- One-on-One Support
- Cooperative Learning
- Role Play
- K-W-L
- Simulations

A description of the **Blended Learning Pedagogical Model for Magic Johnson Bridgescape Academies is available to ADE.**

School day and calendar

The length of the school year exceeds the state requirements. There are 178 days of instruction scheduled between early August and late May. Additionally there is a term scheduled for the summer. The school is

requesting a waiver on the start and ending days to accommodate this extended year. The school day has two four-hour blocks, one scheduled for the morning and one for the afternoon. An additional block in the evening will be offered as needed. The school is also requesting waiver for the length of school day to accommodate this extended day. **The calendar and daily/weekly schedule are attached.**

6. List the specific measurable goals in reading, reading comprehension, mathematics, and mathematics reasoning based on the state mandated assessments, and any other assessment tools if used, for improving student academic achievement for each year of the public charter school's initial five-year period. For each goal, include the following:
 - The tool to be used to measure the academic performance;
 - The level of performance that will demonstrate success; and
 - The timeframe for the achievement of the goal.

Applicant Response:

For the population of students that the Charter School proposes to serve, the Charter School' goals focus on student achievement and student engagement.

Student Achievement:

- Based on the overall average of students demonstrating proficiency (in reading, reading comprehension, mathematics, and mathematics reasoning), the percentage of enrolled students demonstrating proficiency on the mandated state assessment, as applicable, will increase at least 2% each year.
- The percentage of students meeting 100% of their IGP goals will increase by at least 2% each year.
- The Charter School's annual graduation rates will increase at least 2% each year.
- The Charter School's average ACT or COMPASS scores will increase at each year. And the number of students attaining the ACT minimum benchmark of 18 for English and 22 for Math (or equivalent COMPASS) will increase each year.

Student Engagement:

- The Charter School will average at least 55% attendance each school year for all students.
- The attendance rate will increase at least 2% each year for all students.
- As demonstrated through anonymous student surveys, at least 90% of students will recommend the Charter School to their peers.

In addition to the state assessment required under law and State Board of Education regulations, within the Charter School student assessment and testing will be administered throughout the academic year in order to improve the instructional program at the Charter School; assess the progress of individual students in relation to standards; and assess the progress of the students within the curriculum. Regular and systematic measures of learning are useful guides for parents, teachers, students, and community members as indicators of individual and group attainment of state and district standards.

Assessment tools

Upon enrollment in the school, students will take a diagnostic reading assessment in order to determine any skill gaps that may be barriers to success. Once identified, students will be prescribed a remediation track to address specific needs. The teachers and staff will regularly monitor progress of their students and adjust any expectations or conduct conferences to determine interventions and remediation that may be needed to keep the student on track. Students will also take an annual reading diagnostic assessment to measure growth. The creation of the IGP also includes a review of any state assessment data and/or academic improvement plans, AIP, to help inform each individual student's academic goals.

Further, individual assessment items within the eCourses are correlated to the Arkansas Curriculum Frameworks and the Common Core State Standards. Teachers continually monitor student progress in the eCourses and intervene as needed. For example, if a student's assessment across a particular standard dips below

proficiency, a teacher may point the student back to the portion of the course or to a web resource that presents the material in another way, or provide tutoring sessions with the individual student or a small group.

All assessments are designed so that the results are used by the teachers and staff to evaluate instructional practices and to initiate appropriate educational support for students in order to improve the instructional program; assess the progress of individual students in relation to standards; and assess the progress of the students within the curriculum.

The Charter School will also create, implement and sustain its Arkansas Comprehensive School Improvement Planning (ACSIP) model annually. This planning and fund distribution design will help school leaders develop a comprehensive school improvement plan. The plan will be used in our applications for federal programs administered by the ADE, under No Child Left Behind (NCLB), in addition to Student Special Use Funds. The plan will include priorities based on the school's greatest needs. The plan will identify the performance of student subgroups if the subgroup did not meet the achievement level necessary for Adequate Yearly Progress. The improvement plan will be submitted electronically by October 1st or by the date determined by ADE.

7. Describe the process that will be used to develop and align the curriculum with the Arkansas Curriculum Frameworks and the curriculum requirements of the Common Core State Standards as adopted by the State Board of Education.

Applicant Response:

In developing the eCourses, EdisonLearning synthesized best practices from over a decade of online education experience and nearly two decades of experience driving student achievement in brick-and-mortar schools. The curriculum was developed by teachers with backgrounds in both the brick-and-mortar and online education communities to deliver an achievement-driven and engaging solution for both students and teachers. The eCourses solution was validated through a rigorous independent review process spearheaded by Dr. Paul Kim, Assistant Dean and Chief Technology Officer at Stanford University School of Education. This review process ensured that the usability and design of the courses effectively serves a broad population of students' needs and learning styles.

Aligned with ADE content standards and Common Core Standards

EdisonLearning's eCourses curriculum is fully-aligned to the Arkansas Curriculum Frameworks, the Common Core State Standards, and a global set of standards produced by EdisonLearning. Since the eCourses are developed in-house, EdisonLearning's Curriculum Team can make necessary modifications to address changes in standards and any gaps in curriculum that do not currently meet standards. The eCourses are modular in nature. Each lesson is freestanding and builds in prerequisite knowledge, objective-based instruction and assessment pools that do not depend on or refer to previous or future lessons. This feature allows for any alignment gaps to be filled with content from the EdisonLearning repository of more than 8,000 unique lessons. This alignment process ensures that every standard is covered by both the instructional content and assessment items comprising the curriculum.

EdisonLearning is accredited as a Learning Service Provider by the Middle States Association Commission on Elementary and Secondary Schools (MSA-CESS). EdisonLearning is also accredited as a Distance Education School by the Northwest Accreditation Commission (NWAC), an accreditation division of AdvancED. For NCAA initial-eligibility core-course requirements, EdisonLearning has an approved course list that meets the requirements for establishing the initial-eligibility certification.

Annual curriculum review

During the school's staff annual curriculum review and alignment, the staff will verify that standards, benchmarks and performance standards are addressed in the appropriate manner, such as lesson plans, pacing guides, etc. The staff also ensures that best practices are used and recommends improvements.

A table showing the alignment of ADE course codes with the EdisonLearning's eCourses can be provided to ADE.

8. Describe the manner in which the school will make provisions for the following student services, even in those areas for which a waiver is requested:

A) Guidance program;

Applicant Response:

As a part of the Magic Johnson Bridgescape program, the teachers, paraprofessionals, and counselors offer more than instructional and academic guidance, but a support network that enhances the student experience with life skills coaching, post-graduation planning and goal setting and measurement to ensure that every student has a clear path to graduation and beyond.

The Charter School's Guidance Counselor will have the main responsibility for providing these services. For experience and skills, the Counselor will have a Master's of Social Work or Master's in Counseling, appropriate state credentials, clinical experience with at-risk children, strong communication skills, ability to work collaboratively with teachers/staff, and experience developing and managing community-based initiatives or school-business partnerships.

B) Health services;

Applicant Response:

The Charter School requests a waiver for the school nurse requirement. The Charter School will use the local Health Department or health consortium to deliver the required health services such as vision Screenings.

C) Media center;

Applicant Response:

The Charter School requests a waiver the media center. Students will have access to video library at the Charter School. Students will also have access to public libraries in the area communities.

D) Special education;

Applicant Response:

All students enrolled in the Charter School who are eligible for special education services will have a current Individualized Education Plan (IEP) that reflects their educational needs and services. The Charter School will be responsible for ensuring that each eligible student's IEP is fully implemented. The Charters School will provide special education and related services both directly and under contract with outside providers. The Charter School will offer a continuum of special education services per the services defined in the IEPs of all enrolled students with disabilities.

Students with an IEP will be served in the general Magic Johnson Bridgescape program and all accommodations written into the plan will be provided. Teachers and staff will ensure that the program meets the student's needs and/or accommodations according to his or her IEP.

Postsecondary transition will be a consideration for students with IEPs and as with regular education students, Teachers and will include appropriate postsecondary goals based upon age-appropriate transition assessments related to training, education, employment and, if appropriate, independent living and the transition services including a course of study needed to assist the student in reaching those goals.

E) Transportation;

Applicant Response:

The Charter School requests a waiver from the transportation requirements. Should the need for transportation be deemed necessary to address, monies may then be budgeted to allow students the ability to use public transportation.

F) Alternative education, including Alternative Learning Environments;

Applicant Response:

The Charter School's focus will be dropout prevention and recovery and as such anticipates offering an Alternative Learning Environment. The Magic Johnson Bridgescape program is an intervention program designed to remove traditional barriers that student encounter in school. Students will be assessed at entry and *provided intervention services based on their individualized IGP. The Charter School may pursue a consortium with area schools and serve as an ALE lead school site.*

G) English Language Learner (ELL) instruction

Applicant Response:

English Language Learners (ELL) will be identified early in the application process in order to provide timely access to ELL services. A Home Language Survey and other assessments will be completed for all students to guide the teachers in developing an appropriate educational program. The Charter School will be responsible for ensuring that ELL students and their families are served pursuant to all applicable state and federal laws.

Services for ELL students will be provided by appropriately qualified teachers in classroom settings, small groups, and/or individual tutoring sessions. The focus of instruction for ELL students will be teaching subject matter. However the subject matter will be introduced in a way that can be understood by the ELL students. Teachers will be provided information on the language proficiency of ELL students and adjust instruction accordingly.

Additionally, for ELL students, audio programming components of the online curriculum can be heard as well as read to support language learners. With the text-to-speech tool, a student is able to play an audio reading while the student reads the instructional material or replay it at their leisure to support their learning style. The online curriculum also has over 1200 multimedia items including virtual science labs and demonstrations to deliver visual, concrete explanations of abstract concepts

H) Gifted and Talented Program.

Applicant Response:

The Charter School requests a waiver from this requirement. As the Charter School is focused on at-risk students by offering a dropout prevention and recovery program, the Charter School does not anticipate offering a Gifted and Talented Program.

9. Describe the geographical area to be served by the charter. List all school districts within the geographical area likely to be affected by the open-enrollment public charter school.

Applicant Response:

As outlined in Section C4: Education using the ADE Data Center class enrollments and graduation numbers, there appears to have been, over the last few years, a shrinkage in the graduating classes of about 250 students per year in Crittenden County schools. If these numbers are indicative of the number of non-graduates each year, there could be about 1,000 non-graduates between the ages of 18 and 21 years old living in Crittenden County. These non-graduates are the primary target group for the Young Adult Magic Johnson Bridgescape Academy. Therefore there should be a very small number of students transferring from Crittenden County schools to the charter school.

This ADE data, from the last few years, was entered into line graphs. These graphs were presented at the public meetings and **are available to ADE.**

The Charter School's 200 students will most likely be Crittenden County residents, and come from within the district boundaries of Marion School District, West Memphis School District and Earle School District.

According to the 2012-13 enrollment information housed on the Department of Education Data Center's website, the districts in Crittenden County contain 3,027 students in grades 9-12.

The map attached shows the geographic areas listed above.

10. Describe the plan for the school officials to provide an annual report to parents, the community, and the authorizer that demonstrates the progress made by the charter school during any previous academic year in meeting its academic performance objectives. (See *ADE Rules Governing Standards for Accreditation of Arkansas Public Schools and School Districts*.)

Applicant Response:

Timeline for Annual Report to Parents and Community

By November 15 or a date determined by state law, the Charter School will publish an annual report to the public in the local newspaper. The report will detail the school's progress toward goals, accreditation status and proposals to correct deficiencies.

The Board will hold a public meeting by November 15, or by the date determined by state law, to review and discuss the annual report detailing the school's progress toward goals, accreditation status and proposals to correct deficiencies. Documentation of this meeting may include minutes of the meeting, the agenda including progress toward goals.

Performance report card

The Board will publish the school's performance report card in the local newspaper pursuant to §6-15-2006(b).

Probationary status notification

In the unfortunate event that the school be placed on probationary status, the school will publish the report immediately on the school's website and will run the status report in the local newspaper for two weeks pursuant to §6-15-205.

Report to the ADE Charter School Office

The school will provide a progress report and updated data to the ADE Charter school office by the deadline determined by ADE.

ACSIP

The Charter School will develop, with appropriate staff and community participation a comprehensive plan. The school's goals shall be compatible with state and national education goals and shall address local needs. The plan shall be filed with and reviewed by Department annually on October 1st or the date determined by ADE. The ACSIP will be viewable to the public through the ADE website or the Charter School's website.

11. Describe the enrollment criteria and student admission, recruitment and selection processes for the proposed public charter school.

Applicant Response:

As an open-enrollment charter school, the Charter School will enroll all eligible Arkansas students, provided that the program may accommodate the students.

Student recruitment plan

The Charter School will utilize EdisonLearning's Enrollment Department for student recruitment and admission services. EdisonLearning's Enrollment Department offers expertise in enrolling schools throughout the country, and consists of seasoned marketing professionals, enrollment managers, support staff, and an Enrollment Service Center which manages all phone calls, follow up calls, and document processing for the Magic Johnson Bridgescape programs. The Enrollment Department will design and produce brochures, posters, direct mail postcards, banners, promotional items for giveaway, advertising for local newspapers and transit systems and radio spots. The budget for this recruitment is reflected in the attached budget template.

Students are required to complete an enrollment application online to initiate the enrollment process. Applicants will then receive a call from an enrollment specialist to review their application, discuss their eligibility for the program obtain parental or legal guardian approval and explain the admissions requirements. Eligible students are then emailed or mailed a policy packet to fill out with state mandated information, which must then be returned with proof of residence, and any other official documents needed to hand off the student's application to the school for review. The Charter School will hold an enrollment process that is open, fair and in accordance with applicable law. EdisonLearning will manage all student contact information according to FERPA guidelines.

Open, fair admissions process and public lottery

If more applicants enroll in the school than are spaces available a public lottery will be held to draw for the names of students that will fill the school. The names of the students not selected will be saved in the event a selected student relinquishes his/her slot. If an opening comes available, another name will be pulled, by random selection, from that lottery pool. In the years that follow, existing students wishing to return for the next year are not required to enter the lottery pool. Returning students are required to complete an "intent to return" to the Charter School.

Newly enrolled students are assigned a Learning Coach who provides the student the initial support and resources to promote student success. The Learning Coach provides the student with the Code of Conduct and Student Handbook, including the Statement of Understanding, reviews a Note Taking and Study Skills Tutorial, and provides a Student Orientation Packet. In the course of the orientation, new students complete a Cyber Essentials Course that helps familiarize students with the eCourses and provides an overview on how to navigate the eCourses. Students complete a New Student Worksheet to help identify why the student has dropped out of their prior school or program, what are their ultimate goals, and what they need to succeed at the Charter School. Students also complete an Academic Assessment to assess his or her basic skills. These tools are used to develop an IGP that is tailored to meet each student's unique learning needs and career goals.

Samples of these forms and policies can be made available to ADE.

Check which of the following enrollment preferences, as permissible in Arkansas Code Annotated §6-23-306(14)(C), would be allowed at the charter school.

- Children of founding members of the charter school
- Siblings of enrolled students
- No enrollment preferences (No other boxes may be checked in order to select this option.)

It is affirmed that a random, anonymous student selection method will be utilized in the event that more students apply for admission to the open-enrollment public charter school than can be accommodated under the terms of the charter, except as allowed for in Arkansas Code Annotated §6-23-306(14)(C).

- Yes
- No

If it is believed that the use of a weighted lottery is required by federal court or administrative order, explain and furnish a copy of the order.

Applicant Response:

N/A

12. Summarize the job descriptions of the school director and other key personnel. Specify the qualifications to be met by professional employees (administrators, teachers, counselors, etc.) of the program. List the types of administrative positions, teaching positions, and support positions for the school.

Applicant Response:

Director of Achievement - The main responsibility of this part-time regional position is managing EdisonLearning's primary focus of student achievement in schools. The role, which will be similar to that of a superintendent, also ensures excellence in service delivery of all Magic Johnson Bridgescape by collaborating and partnering with district and charter school boards to drive consistently superior achievement gains. As required, this role will manage relationships as well as the operational/financial/budgetary/legal management of the Magic Johnson Bridgescape program. The Director of Achievement should be experienced in school finance and familiar with APSCN's Financial Management System (FMS). The Director of Achievement will oversee responsibilities, ACSIP development and submission, Technology Plans & E-rate, Federal Programs Coordinator, Schedule the Annual Audit by year's end, School Budget by Sept 30th, Monthly financial reports, APSCN Financial Cycle reports, Security Policy, Salary schedules, Annual Report by Aug 31, Arkansas Retirement System, State and Public School Employee insurance Program, Procurement and bidding, Statewide Information System, SIS, EDGAR, Equipment inventory, NSLA, Initial and Annual Tier 1 training, Write grant applications, Work financials with Educational Coop, Promotional events

School Operations Manager - The Schools Operations Manager, a regional position, akin to the Director of Achievement. Whereas the Director of Achievement ensures that the academic pieces are being implemented with fidelity, the School Operations Manager ensures that the operations/financial pieces are being implemented with fidelity

Program Director - The Program Director is responsible for providing the instructional, operational, and administrative leadership necessary to ensure the success of the school including primary responsibility for achievement and financial performance. The Program Director, which will be similar to that of a school principal, is the overall leader of the school, with a dominant focus on instructional leadership. The Program Director will be held accountable for the continuous improvement of the school and its staff and for increased student achievement. The Program Director should be experienced with school administration and APSCN's SMS (student side) and FMS (financial side). And preferably, should have at least a master's degree and be experienced in managing a charter school. The Program Director will oversee responsibilities such as Standards of Accreditation, Statewide Information System, SIS, Board relations and policies-including discipline, Compliance to this Charter, Charter renewal, Long range planning, Quality Management System, Legal issues, Monitor ADE Commissioner's memos, Ensure all ADE reports are filed, Statement of Assurances by October 15th, Maintain job descriptions and employee contracts, Research and Development, Teacher training, Highly Qualified assurance, NSLA, Food services and nutrition, Liaison with Educational coop, Curriculum and Instruction, Testing and Assessments, Creating Master Schedule in APSCN, Initial and Annual Tier 1 training, Equity compliance report and assurance, ALE Reports & Program description, APSCN Student Management System, Cognos, Triand, APSCN Cycle reports, Manage student data, Required website postings (such as Student Handbook, Salary Schedule, Personnel Policies by September 15th, Parent Involvement Plan, Annual School Performance Report, Board meetings and information, Contracts). The Program Director is also responsible for control student records and transcripts, Control schedules and grades, Report attendance, Set student and staff discipline per Board Policy, Manage staff, Record staff professional development, Review student handbook, Evaluate transfer students' credits, Set up Parent Center, Arrange building inspections, Conduct safety and fire drills, Ensure compliance with IDEA, Ensure criminal background for staff, Ensure child mistreatment checks, Comply with Special Education, Schedule Parent Teacher Conference, Recruit targeted student, Enroll and retain students, Plan Closing Achievement Gap efforts, Encourage community involvement, Oversee graduation and diplomas, Delegate student functions and activities, Review lesson plans or pacing guides, Recruit and recommend teachers, Evaluate teachers, Observe classrooms, Serve as Instructional leader, Serve as Office of Teacher Quality, Plan Minority Teacher Recruitment, Parent Involvement Plan requirements, Purchase goods up to \$10,000 or amount set by the Board and ADE.

Teacher - The budget reflects that 4 teachers, a part time ALE teacher and part-time ELL teacher will be hired in the first and second years. As a member of a teaching team, the teacher will be responsible for facilitating student learning in an instructional technology learning environment and supplementing computer-based

instruction with direct instruction as needed. He or she uses a variety of instructional methodologies and curriculum resources to teach content and skills to students in small- or pull-out group instruction. The teacher regularly meets with students to advise and plan for students' IGPs, providing coaching and mentoring in an advisory capacity. The teacher works as a team member to meet the needs of all students. Because building relationships is a critical component of this learning environment, the team works together to identify student needs that may be barriers to success. Teachers collaborate with team members to analyze different means of meeting student needs and communicates with students, parents, and other team members about student progress and plan for next steps.

The Charter School requests the waiver on teacher certification, but the teachers must meet the highly qualified teacher status requirements. The School will use certified teachers as the ACTAAP Test Coordinator and to administer the state mandated assessments as required by ADE. All staff members will uphold the professional code of ethics and conflict of interest.

Special Education Teacher - The budget reflects that one special education teacher will be hired in the first and second years. The Special Education Teacher is responsible for implementing and ensuring compliance to established policies, procedures and/or regulations; and addressing other duties and processes required to maintain the school's program of services. Responsibilities include, but are not limited to: providing student interventions and modifications to the academic program as needed; managing the school's special education programs and services; developing related goals, objectives and recommending policies; planning, implementing and working with staff in evaluating the special education programs and services; acting as a liaison with other district staff, serving as a resource of information regarding special education programs and services; and ensuring that procedures are appropriate in relation to policies required by state and federal regulatory requirements.

Aide/Paraprofessional - The budget reflects that two aides will be hired in the first and second years. The Aide or Paraprofessional, as a member of the instructional team, works under the supervision of the Program Director. This person primarily works in classroom, assisting the teacher in implementing instruction and related services. Such assistance may include: providing instructional assistance, guiding additional practice opportunities, re-teaching, and monitoring behavior.

Guidance Counselor - The budget reflects that one counselor will be hired in the first and second year. The qualified Guidance Counselor champions the behavioral, social/emotional and mental health needs of students in support of student achievement across the program. They take a leadership role in providing professional development within the school to create a solid understanding of the psychosocial development of students and the influences of family, community, and cultural differences on student achievement. They are a crucial voice in determining, planning and supporting the implementation of interventions, particularly related to the behavioral/social/emotional issues of students. Within this unique and alternative setting, it is critical that specific student needs be identified and met early on in an effort to provide students a support system that is often lacking outside of this environment. The Guidance Counselor will be trained (most likely at the educational cooperative) and appropriately qualified with APSCN student side.

Enrollment Coordinator - The budget reflects that one will be hired in the first and second years. The Enrollment Coordinator develops a student recruitment strategy, recruits students who are at-risk or who have dropped out of schools and maintains student enrollment.

Office Manager - The budget reflects that one will be hired in the first and second years. The Office Manager will play a key support role, serving as the focal point for communication by mail, telephone and in person. The Office Manager will manage the flow of information, both within the school and between the school and the state, and will be responsible for maintaining all school records. To be effective, the Office Manager must be organized and efficient, familiar with all necessary office equipment, including computers and computer programs for word processing, databases, and spreadsheets. Equally important is the role of the Office Manager as representative of the program. He or she must be flexible, personable, able to communicate the program's mission and vision, and possessed of the same EdisonLearning core values. The Office Manager will be trained (most likely at the educational cooperative) and qualified to enter financial data and coding in APSCN information. The OfficeManager will also be trained to enter Cycle data into APSCN.

13. Explain how the school will conduct its business office. Tell about business office personnel and describe the process by which the school governance will adopt an annual budget.

Applicant Response:

Business Office and managing fiscal responsibility

The Charter School will have a formal business office with the Program Director acting as the campus business manager. This Program Director will work with the local education cooperative(s) in composing and preparing the school's annual budget and financial reports for the Board's input and approval. The upcoming year's annual budget will be created and approved by the Board on or prior to September 30 or the date determined by ADE.

The Program Director will have the decision-making authority in finance and purchasing, in consultation with the school director, for purchases under \$10,000 or the amount set by statute. Any purchase or financial decision over that amount must be approved by the Board. The Program Director will prepare the monthly statements of finances and present them to the Board for approval. The Program Director will be responsible for maintaining financial records and ensure the information is provided to the auditor for the annual school audit.

Additional financial responsibilities are listed under the job descriptions in the Staffing Plan in Section C12 of this application.

Procurement Policy

The Charter School has a draft of the purchasing and procurement policy. **This draft policy can be made available to ADE upon request.** The policy includes bidding procedures.

Annual Budget Timeline

Upon approval of the Charter School, the ADE Public School Finance and Administrative Support Section will *provide technical assistance. At that time, a detailed budget will be developed specific to the terms of the Charter.* That budget will also meet the data reporting requirements of the Arkansas Public School Computer Network

Two-year Budget Estimate

The Budget Worksheet has been developed for application purpose. It is formatted to expedite the application *process and does not include funds that are not presently guaranteed and does not include one-time grants* such as the Charter School Program implementation grant. **The sample two-year budget worksheet is attached.**

Budgeting for student enrollment

Year One: Enrollment - 200 students

Year Two: Enrollment - 200 students

The "Number of Students" is the number of students expected to be enrolled in the open-enrollment public charter school. *The student numbers including addition of students by year and or grade is clearly be defined in the application's budget page.*

All public schools in Arkansas receive "foundation funding," a set amount of money per student based upon average daily membership, the amount determined necessary to provide all students with an adequate education.

14. Describe the manner in which an annual audit of the financial and programmatic operations of the school will be conducted. If the school wishes to request that the authorizer allow a licensed accountant or licensed certified public accountant, rather than the Legislative Auditor, to perform the first-year audit, identify the accountant by name, firm, address, and phone number. The named accountant must meet the requirements of ADE Rules Governing Publicly Funded Educational Institution Audit Requirements, including the prohibition on auditors providing non-audit services (such as accounting or consulting services) to auditees. A school's preference as stated in this application may not be changed without prior approval of the authorizer.

Applicant Response:

Annual Audit

OCBA has previously worked with Hudson Cisne, a Little Rock auditing firm, and therefore will ask Hudson Cisne to conduct the Charter School's first-year audit. Their contact information is listed below.

Hudson Cisne & Co. LLP
Rami Kassissieh, CPA
11412 Huron Lane
Little Rock, AR 72211 (501)2 21-1000

The audit will be carried out after the end of the school year. The fee for the audit will be \$10,000. This amount is reflected in the attached budget worksheet in year two.

Information needed to be reported to ADE

The schedule of statutes required by ADE to be addressed in independent auditor's report on compliance include;

Bidding & Purchasing commodities
School officials prohibited from Sales
Collateralization & Investments
Deposit of Funds
District Finances
Bonded & non-bonded Debt,
District School Bonds
Petty Cash,
Investment of Funds
Management of Schools
Board of Directors
District Treasurer - Warrants
Management letter for Audit
Nonrecurring Salary Payments
Revolving Loan Fund
Salary Laws
School Elections
Teachers and Employees
Personnel Policies
Employment & Assignment
Teacher's License Requirement
Contracts
Certification Requirements
Fair dismissal Act
Sick leave policies
Teacher Salaries, the Minimum Foundation Program Aid Act
Teacher Salary Fund
Trust Funds

Use of Contractors, Improvement, Contracts
Use of District M & O Millage (N/A)

Information Reported to the Community

The audit will be posted on the Charter School's website

15. It is affirmed that the public charter school will participate in the Arkansas Public School Computer Network, as required by state statute and by State Board of Education rule, for reporting **both education data and financial data**, including grant funds or private donations received directly by the charter school.

Yes

No

16. Describe the facilities to be used. Give the present use of the facility. If the facility to be used for the school is a facility of a school district, describe the terms established by the local school board of the district stipulating the relationship between the proposed public charter school and the district pertaining to the use of the facility. Attach a copy of the agreement, signed by the president of the local school board, the chair or president of the governing body of the proposed open-enrollment public charter school, and the chief operating officer of the proposed charter. If the facility is not operated by a school district, attach a copy of the Facilities Utilization Agreement, signed by the entity owning or operating the facility and the chief operating officer of the proposed charter. A proposed lease may also be submitted but is not required. Please note that any lease or other debt must be approved by the Commissioner of Education.

Applicant Response:

A former school building

The proposed Charter School will be housed on the former Phelix (High) School Building in Sunset, Arkansas. The facility is vacant but still meets the needs of the proposed school. There are 30 classrooms in the building, but the Charter School plans to use 10 classrooms in the first and second years. The Charter School will pay rent only for the space used, but the owners will allowed the school to add classrooms as needed.

Facilities and maintenance budget

The attached budget worksheet reflects the following line items, annually; \$30,000 for rent, \$20,000 for supplies and materials, \$12,000 for utilities, \$24,000 for phone/internet, \$24,000 for custodial, \$26,000 for facility maintenance.

The Board is experienced with safety and health inspections needed for the facility including the requirements for Fire Marshall's approval. This approval must be in hand before the school can open. The organizers are experienced with meeting Arkansas health and safety requirements, certificates of occupancy, and compliance with IDEA.

Facilities use form

The ADE supplied **Facilities Use form has been signed and is attached**. The building owners understand and invite representatives from ADE to visit the site within the next couple of months.

If the charter is approved, OCBA acknowledges that the lease or a loan for equipment purchase must be approved by the Commissioner of Education.

Identify the owner(s) of the proposed facility and describe their relationship, if any, with:

- (1) Members of the local board of the public school district where the proposed open-enrollment public charter school will be located,
- (2) Employees of the public school district where the proposed open-enrollment public charter school will be located,
- (3) The eligible entity sponsoring the open-enrollment public charter school, or
- (4) Employees/directors/administrators of the sponsoring entity or proposed open-enrollment public charter school.

Applicant Response:

The building is owned by Big Cypress Land Company, LLC, who principals are James Hale, Richard Williford and Mark Bell. There are no relations with the property owners and those listed in (1), (2) and (3). There is no school staff at this time.

The facility will comply with all requirements for accessibility in accordance with the Americans with Disabilities Act (ADA) and Individuals with Disabilities Education Act (IDEA) and all other state and federal laws and local zoning ordinances.

- Yes
 No

If the facility does not currently meet these requirements, provide a list of items that will need to be addressed to bring the facility into compliance. Also include a statement of permissible uses for the facility from the local zoning authority, and whether there are any alcohol sales within 1,000 feet of the facility.

Applicant Response:

IDEA

The Charter School's proposed facility will comply with all requirements for accessibility in accordance with the Americans with Disabilities Act (ADA) and Individuals with Disabilities Education Act (IDEA) and all other state and federal laws. The facility will be inspected by staff of the ADE or its designee prior to any State Board of Education action on the application. If during the ADE inspection, a nonconformance is discovered, the Charter School will repair or fix the facility to meet the requirement.

The land for the school is on farmland and is suitable for a school building. No liquor stores or sales are within 1000 feet of the facility.

17. For each and every individual specifically identified by name in Section A of the application (the contact person, chief operating officer, board members, and other individuals), identify any family or financial relationship which may exist between that individual and:

- (A) Any other individual specifically identified by name in Section A of the application;
- (B) Any individual or entity with whom the sponsoring entity or charter school has contracted, or intends to contract, to provide any services or products for the proposed charter school; and/or
- (C) The owner(s) of the facilities to be used.

For the purpose of this standard, an individual has a financial relationship with another individual or entity if he or she:

- (1) Receives compensation or benefits directly or indirectly from the entity or individual;
- (2) Is an officer, director, partner, employee, or owner of more than 5% of the shares of an entity that is a corporation, partnership, sole proprietorship, or LLC; and/or
- (3) Has a family member (spouse, sibling, parent or child, or the spouse of a sibling, parent, or child) who is an officer, director, partner, employee, or owner of more than 5% of the shares of an entity that is a corporation, partnership, sole proprietorship, or LLC.

Applicant Response:

There are no relationships as described in Question 17.

(B) If approved, OCBA plans to contract with Magic Johnson Bridgescape/EdisionLearning to manage the school. *Any conflict of interest will be addressed through a management agreement between the Board and any other organization involved with the school.* The OCBA bylaws includes a policy for Conflict of Interest. If approved, the Board will also approve and abide by a Conflict of Interest policy.

Explain the procedures to be followed if a conflict of interest is identified. The procedures must ensure that all actions are in the best interest of the school and the students at the school.

Applicant Response:

There are no conflicts of interest among the individuals involved with this proposed Charter school. There is no family or financial relationship between any of the those listed. The bylaws of the non-profit ensure that there are no conflicts of interest.

Draft of Conflict of Interest Policy

The Board will utilize the ASBA model policy program and adopt a Conflict of Interest Policy that ensures that all actions are in the best interest of the school and the students at the school. A draft of a procedure:

Board members believe that school board membership is an act of public service and as such no monetary reward is expected by the individual members. Further, the Board strives to avoid any impropriety or appearance of impropriety in its use of school funds. In accordance with statute the Board will not purchase supplies, equipment or personal services from any member of the Board, or from a firm or corporation in which a Board member has a significant interest unless such purchases are made on the basis of open competition bids or quotations requested through public advertising.

OCBA, Inc also includes a Conflict of Interest statement in its bylaws.

18. Describe the manner in which the school will make provisions for food services. State whether the proposed charter school will apply to participate in the federal National School Lunch program or other federal nutrition programs.

Applicant Response:

Food service for all eligible students

The Charter School apply for the Federal Free- and Reduced-Priced breakfast, lunch programs administered by the U.S. Department of Agriculture, and will adhere to all applicable requirements including, but not limited to: meal pricing, determination of eligibility, nutritional value and reporting requirements.

It is the intention of the Charter School to bid out the food service, for the first year or two, to Food Service Management Companies. Meal plans will meet both the National School Lunch Program (NSLP) standards, as well as those guidelines set by the United States Department of Agriculture. Any and all food service subsidy revenues received from the Federal and State meal programs shall be used exclusively for the purpose of providing meals to eligible students, and for no prohibited purpose. Typically, students from households with incomes at or below 130% of the poverty level are eligible for free meals, while students from households with incomes between 130 percent and 185 percent of the poverty level are eligible for reduced-price meals. The Charter School Board will set all meal prices for both students and adults and will ensure those meal prices are also compliant with all state and federal regulations.

Food Service Management Plan

The school will develop a full Management Plan, pursuant to §§20-7-124, 20-7-135. The Plan includes the following components:

1. Program Management

Child Nutrition program; The application process and deadlines

19. Describe how the parents or guardians of the enrolled students and other members of the community will be involved with the school to positively impact the charter school's educational programs.

Applicant Response:

Parent Involvement in educational programs

Parent and community involvement is essential in establishing a strong foundation for a school. For the population of students who traditionally enroll in Edison Learning's Magic Johnson Bridgescape Academies, the student's parent or guardian is not always the person supporting the student to achieve their academic and career goals. For that reason, teachers and staff of the Charter School will work with each student to identify the adults in their lives who positively influence the student's life and will support the student. The Charter School has a draft Parent Involvement Plan and will involve the parents and community in the development of the final Parent Involvement Plan by October 1st or the date determined by ADE. The Parent Involvement Plan will be posted on the school's website by October 21st or the date determined by ADE.

The Charter School will seek to involve parents/guardians and the community throughout the start up process. The Charter School will ask for parent/guardian and community volunteers to help with outreach, and other efforts such as student activities, field trips, and community partnerships that will enrich the experiences of the students. Parents/guardians, students, and community members will be encouraged to promote the school to their contacts, to refer friends, and to help the school establish mutually beneficial relationships and partnerships with community organizations and local businesses.

Continued involvement

The Charter School will seek to involve parents and the community throughout the development process. As the Charter School will bring together the community, including parents, business people, educators, and community leaders to serve on a Advisory Committee. This OCAB Board will encourage the Advisory Committee to provide feedback throughout the school year. As previously discussed, one of the Charter School's primary focuses will be to serve students who are at risk of or who have already dropped out of school and foster a conducive learning environment that will lead to the student graduating. It is imperative to have a whole-child approach to education and as a result parent and guardian involvement will be an integral component of the learning process. Parent and guardian satisfaction will be gauged by conducting twice-annual parent satisfaction surveys.

The OCBA and Magic Johnson Bridgescape staff will also identify and engage with community organizations that provide services and opportunities for at-risk youth. This outreach to local organizations will increase awareness in the community for the drop-out recovery and re-engagement services that the Magic Johnson Bridgescape program will provide. One such resource is Magic Johnson Enterprises, which will provide students connections to workforce solutions and partner businesses. Students graduating from the Magic Johnson Bridgescape programs are eligible for high school to workplace or high school to college resources. Through the program, students will have access to job readiness and mentorship resources to assist in career preparation and post-secondary planning. The program will partner with local businesses, civic organizations, and non-profits to create career platforms for students, providing workplace exposure and training and Magic Johnson Enterprises will leverage its full service staffing business and its other businesses and local partnerships to help identify job opportunities for graduates. Magic Johnson Enterprises currently has a strong network of government and corporate relationships in 22 states and 98 cities. Further, the Magic Johnson Foundation will offer scholarship opportunities for students who graduate from the Magic Johnson Bridgescape program. To date, the Magic Johnson Foundation has awarded scholarships to 386 students with an 87% graduation rate. Currently, there are 137 scholarship recipients attending 96 colleges and universities.

Student Services Annual Report SurveyThe Charter School will also participate in the Student Services Annual Report Survey as required by ADE.

20. List the provisions of Title 6 of the Arkansas Code Annotated (Education Code), State Board of Education rules, and sections of the *Standards for Accreditation of Arkansas Public Schools and School Districts* from which the public charter school seeks to be exempted in order to meet the goals of the school. Identify the specific statute, rule, or standard requested to be waived by title and section number if applicable. **Provide a brief description of the rationale for each waiver requested.**

Applicant Response:

The Charter School respectfully requests waivers from the following provisions of Title 6 of the Arkansas Code Annotated (Education Code), State Board of Education rules, and sections of the Standards for Accreditation of Arkansas Public Schools and School District in order to meet the goal of the Charter School and offer the Magic Johnson Bridgescape program.

Waivers from Title 6 of Arkansas Code Annotated (Education Code)

§6-10-106 Uniform dates for beginning and end of school year. The school operated on an extended school year

§6-13-109 Licensure requirements for School Superintendents. The school will hire a Director that has been interviewed and recommended by the Magic Johnson Bridgescape Academy partnership therefore the school requests the waiver on superintendent's requirements.

§6-13-608 Length of Director's terms - The Board is elected pursuant to the nonprofit bylaws posted on the nonprofit's website, <http://www.ocbainc.com>

§6-13-611 Vacancies Generally - The Board is elected pursuant to the nonprofit bylaws

§6-13-616(a) Qualifications of Directors -Board is elected pursuant to the nonprofit bylaws. None of the Board members shall be eligible for employment in the charter school

§6-13-619 Meetings & Removing Directors- The Board will follow the nonprofit bylaws for removing and replacing Board members

§6-13-620 (i) Powers and duties - The school will not hire a Superintendent but will hire and will evaluate annually a Director of Achievement and a Program Director to share the duties identified as those of a Superintendent.

§6-13-630 Election by Zone and at Large - The Board is elected pursuant to the nonprofit bylaws

§6-13-633 Vacancy- The Board is elected pursuant to the nonprofit bylaws

§6-13-634 School District Board of Directors - The Board is elected pursuant to the nonprofit bylaws. Per these bylaws, the charter school will have (the odd number of) five members on its Board

§6-14-101 through 6-14-122 General Election Laws-School Boards - The Board is elected pursuant to the nonprofit bylaws, <http://www.ocbainc.com> .

§6-15-213 38 units. The EdisonLearning curriculum does not have a Journalism course nor all of the arts courses therefore the school requests a waiver to teach 38 units

§6-15-902 (c)(3)(B) Weighted credit for concurrent credit - The School will award weighted credit for 2nd year (sophomore) level concurrent credit college courses that a student is using for a core course graduation requirement.

§6-15-1004 Qualified teachers in every public school classroom - The School will use highly qualified teachers

as determined by federal requirements.

§6-15-2302 (b) General Business Manager - The school will hire and train qualified staff through its partnership with *Magic Johnson Bridgescape/EdisonLearning*. The staff entering financial data into APSCN will be trained, probably at the local educational cooperative, Crowley's Ridge Coop.

§6-16-102 School Day - The School will hold classes during the day for more than six hours per day and will hold classes in the evening as the interest increases for night classes. Therefore the school will hold classes for more than six hours a day. But in the Magic Johnson Bridgescape Academy model, students are allowed to complete some of their coursework away from the campus, therefore the school requests a waiver on the school day.

§6-16-103 Course of Study - (c)(1) Mail the courses to be taught to every parent. The school will mail the letter to the students who are 18 years or older instead of their parents.

§6-16-124 Arkansas History-Required Social Studies course. The school will not require students missing this half credit up if they did not take the course in 7th or 8th grade.

§6-17-111 Duty-free lunch - The staff may be needed to eat with the students during lunch.

§6-17-114 Daily Planning Period - The teachers will not have a paid daily planning period.

§6-17-203 and §6-17-205 Committee for each school district (Personnel Policy Committee) and Organization - The board will adopt personnel policies, using the ARSBA model policy, but school will not have a personnel policy committee

§6-17-204 (b)(2)(A) Incorporating into teachers' contract. Voting by personnel policy committee - The school will not have a personnel policy committee.

§6-17-302(a) Public school principals-Qualifications and responsibilities - The school will use a Program Director instead of a principal. Many of the Director's responsibilities are listed in the Job Description section of this application.

§6-17-309(a)(1) Certification - Teachers teaching out of area. The school is requests teacher certification waiver for classroom teachers and substitute teachers

§6-17-401 Teacher's license requirement - The teachers will teach multiple subjects. But the School will use only highly qualified teachers as determined by federal requirements.

§6-17-427 School superintendent monitoring. The school seeks the waiver on superintendent monitoring for its campus leader, the Program Director

§6-17-418 Teacher certification - Arkansas history - The School will use highly qualified teachers as determined by federal requirements.

§6-17-702 Arkansas History in-service Training - The school will provide professional development according to the professional development plan used by Magic Johnson Bridgescape/Edisonlearning

§6-17-704 thru §6-17-705 Professional Development Plan and credit - The school will provide professional development according to the professional development plan used by Magic Johnson Bridgescape/Edisonlearning. **A copy of the Professional Plan in use at other sites in the U.S. is available to ADE**

§6-17-901 through 6-17-922 AR Teachers' Salary Law - The school requests waiver from the AR Teacher's Salary Law

§6-17-1501 through 6-17-1510 Subchapter 15 Teacher Fair Dismissal. Employees will be afforded constitutional due process in all dismissals.

§6-17-1702 through 6-17-1705 Subchapter 17 Public School Employee Fair Hearing Act. Employees will be afforded constitutional due process in all dismissals.

§6-18-211(a) and (b)(1), *Mandatory attendance. In the Bridgescape model, students are allowed to complete school work at home. The school requests the waiver requiring its students in grades 9-12 to attend a full day.*

§6-18-223 Credit for college classes. School students can substitute college classes for additional high school requirements per the sample concurrent credit matrix that is available to ADE. The School will pay the students' college tuition, fees and books for the dual enrolled college courses.

§6-24-106 Administrators

The school directors will have at least a Bachelor's degree and a business background. Most of the administrator's responsibilities are listed in Section 12 of this application. The salary is commensurate with performance, years of experience and level of graduate college work

§6-47-406 (1), (2)(A), (f)(1) Virtual school. The school seeks waivers to offer distance learning to students outside of the district where the charter school is located, to allow student to take the distance learning course off-campus (except the state tests and assessments must be taken on site), to expand the potential students to those who have dropped out of school or are at serious risk of leaving their high school.

§6-48-101 through §6-48-104 Direct instruction is primary education component in ALE. Plus ALE participate in school wide activities. The school requests to be able to offer its Edison Learning eCourses in the ALE setting.

Waivers from SBE Rules and Regulations

Business Manager Qualifications. The staff entering financial data into APSCN (FMS) will have training provided by the local educational cooperative or similar provider.

Concurrent Credit Classes. The school will pay for the concurrent credit classes

Distance Learning. The home schooled or private school students may enroll in the school distantly. The students would be required to come to the charter school only to take state test and assessments.

Gifted and Talented Program Approval Standards. The School will focus on basic academic, skills and workforce preparedness.

Mandatory Attendance in Grades 9 through 12. In the Magic Johnson Bridgescape Academy model, the students are allowed to complete some of their coursework away from the campus. The school seeks the waiver requiring 350 minutes of instruction per day

Personnel Policies and Salary Schedules, The school will award pay and pay increases based upon performance not years of service. The school will post the personnel policies and financial data on its website as required in Section 9

Professional Development The school will use the Magic Johnson Bridgescape Academies professional development plan. A copy of the Profession Development used at MJBA is available to ADE.

Waivers from Standards for Accreditation

In the rules concerning parents, the school requests that the students, 18 years and older, be able to act in the role of the parent, such as rule 9.03.1, 12.04 and other rules requiring a parent signature or approval.

Standard IV (CURRICULUM)

Rule 9.03.1.2 The school requests the waiver to teach the 38 units. The EdisonLearning curriculum does not include a Journalism course, some of arts courses.

Rule 9.03.04 38 units. *The school requests waiver from teaching the 38 units, from requiring a minimum of laboratory experience of 20%, and from requiring 9 units of sequenced CTE courses in 3 occupational areas* The School will schedule all 38 units on its Master Schedule in ASPCN but if the full or half course is not needed by any student for graduation, the course will not have to be taught. **The EdisonLearning course catalog is available to ADE.**

Standard V (INSTRUCTION)

Rule 10.01.2 190 day contract for teachers. *The School will use adjunct and part time teachers*

Rule 10.01.3 Ten days of professional development. The Magic Johnson Bridgescape Academies have an established **professional development plan. It is available to ADE.**

Rules 10.02.5 Class Size and Teaching Load. With the Magic Johnson Bridgescape model a teacher may need to teach more students than this rule allows.

Standard IX (GRADUATION REQUIREMENTS)

Rule 14.03 Clock time. The school requests a waiver for the 120 clock hours for 1 unit and 60 clock hours for ½ unit. In the Magic Johnson Bridgescape Academy model the students are allowed to complete some of their coursework away from the campus therefore this waiver is requested.

Standard X (PERSONNEL)

Rules 15.01 through 15.02 School District Superintendent and Principal. The school requests the Director of Achievement and the Program Director not be required to be licensed

Rule 15.03.1 to Rule 15.03.3 Licensure and Renewal. *The school requests this waiver for all staff including substitute teachers. Teachers will meet highly qualified status as required by federal guidelines.*

Rule 15.04 Professional Development and In-Service Training. The school is requesting a waiver form the professional development requirements. The School will use part time and adjunct faculty and the will be scheduled to teach at different and various school sessions during the year. The faculty will be trained in accordance with the existing Magic Johnson Bridgescape Academy professional development plan. Professional development records will be maintained by the school. The school has a **sample professional development plan used at other Magic Johnson Bridgescape locations available to ADE.**

Standard XI. (SUPPORT SERVICES)

Rule 16.01.3 Guidance and Counseling. The School will use a qualified counselor to advise students and to provide counseling services

Rule 16.02 Media Services. *The School will utilize local libraries, and the EdisonLearning eCourse program in place of an on-site library*

Rule 16.03.1 and 16.03.2 Health. The School will use contracted services to provide the health program

Standard XIII (GIFTED AND TALENTED EDUCATION) School students will focus upon the basic courses.

Standard XVI (AUXILIARY SERVICES) The school will not transport students.

21. Describe the potential impact of the proposed public charter school on the efforts of affected public school district(s) to comply with court orders and statutory obligations to create and maintain a unitary system of desegregated public schools.

Applicant Response:

The Charter School will not impact any court order or statutory obligations.

22. Identify the two or three key individuals responsible for this application. Discuss the experience and qualifications of each. Explain what the founders are doing or will do to ensure the success of the charter school when others are in leadership roles.

Applicant Response:

Sally Wilson, OCBA President and Founder

Wilson was a member of the Osceola School Board from 2002 through 2009, attended ARSBA training and received outstanding school board member recognition. Since 1999, Wilson has helped numerous groups write charter applications, some successful and some not. In 2007, she helped OCBA, Inc write the OCABS charter application that the State Board approved. Wilson worked as the OCABS School Director in its start up year and in its second year. In its start up year, OCABS received full accreditation from ADE, without any probationary items or any citations. In the second year, OCABS had an on-site review and was one of few schools in the area to receive full accreditation without any probationary items or citations. During the same two years, Wilson served on the Arkansas Public School Resource Committee. Wilson has been a presenter at the Charter School conference. Wilson has a bachelor's degree in Engineering and consults and teaches for area community colleges' technical programs. In 2006, Wilson was the lead instructor of the ADTEC team that created the Advanced Manufacturing course of study for Arkansas Career and Technical.

Michael Malone

Michael Malone is the Regional Vice President of Development for EdisonLearning. A former Assistant Superintendent, Michael has twenty-five years of executive experience in K-12 education spanning positions in large urban districts, a non-profit education reform partnership, and two for-profit educational management companies. In his current position, Michael works with school districts and charter school boards to implement high achieving and innovative school designs, such as Magic Johnson Bridgescape. For example, Michael worked in Cleveland, Columbus, and Cincinnati, Ohio, to develop and implement ten Magic Johnson Bridgescape Academy charter schools.

The Magic Johnson Bridgescape Academy Management Team

Jodie Beckley

Jodie Beckley is the Senior Vice President of Alternative and School Improvement Solutions. A life-long educator, Jodie taught Spanish for 10 years at the elementary, middle, and high school levels in Wichita, Kansas before she joined EdisonLearning in 1996 to start up one of the first Junior Academies in our system. She then became a principal and moved to Michigan to open Edison-Oakland Public School Academy, which served 840 Detroit students in grades K-8 and her school earned a "Golden Apple Award" – Michigan's highest recognition for outstanding achievement gains on the state's high-stakes test at that time. Since 2002, Jodie has held a number of positions, including Vice President of Education Services and Regional General Manager.

Chris Wilberding

Chris Wilberding is the Vice President of Operations for Alternative Education Solutions and has extensive experience in management of operations. Mr. Wilberding began his career as a social studies teacher and coach prior to operating alternative schools and programs for students at risk of dropping out of school.

Jennifer Parker

Jennifer Parker is the Executive Director and Education Service Lead for Alternative Education Solutions and as such is responsible for developing the educational models and designing the implementation model for the Magic Johnson Bridgescape Academies. A former middle and high school English teacher, Ms. Parker transitioned to administration and has served as Program Director for schools serving at-risk, and

behaviorally and learning-challenged students at the elementary, middle and high school levels. Additionally, Ms. Parker has supervised schools regionally, serving as an Executive Director for multiple school programs in the state of Florida. In these roles she has gained a wide range of experience in curriculum development, school management, training and professional development. Ms. Parker's background in curriculum, instruction, and training is key to Magic Johnson Bridgescape's success.

Natalie Williams

Natalie Williams is the Vice President, Strategic Alliances and Operational Excellence. Ms. Williams is responsible for managing strategic alliances to ensure they deliver value to both partners and achieve stated goals. As the primary liaison with Magic Johnson Enterprises, Ms. Williams' work with "Friends of Magic" and community partners is critical to the success of Magic Johnson Bridgescape. Ms. Williams also supports operational excellence through the management of regional staff training and the evaluation of client relationships.

Sponsoring Entity, OCBA, Inc

OCBA, Inc is the sponsoring entity of this charter school application. OCBA members have experience with successfully governing a charter school in 2008, 2009 and 2010. During this time the school won accolades for careful compliance to its charter and state requirements. Per the OCABS charter, OCBA delegated governance of the school to newly formed group, called the OCABS Board that was designed to be elected from the school's families. Unfortunately the new group hired administrators that did not comply with the intent of the charter and ultimately the school was closed.

In this charter application, the governance of the school will remain with OCBA, Inc. And to help ensure the long-term success of the school, OCBA will enter into contract with Magic Johnson Bridgescape EdisonLearning to manage the school.

America's Promise Alliance and GradNation

All of the organizations are involved with America's Promise Alliance and the GradNation initiative. Magic Johnson Bridgescape has 17 academies in five states. EdisonLearning works with about half a million students across the globe.

OCBA, Inc.'s Determination Letter

The "eligible entity" is an organization that is nonsectarian in its programs and operations, and is exempt from taxation under Section 501(c) (3) of the Internal Revenue Code (provide evidence). A copy of the entity's letter from the IRS reflecting tax exempt status.

Dear Applicant:

We are pleased to inform you that upon review of your application for tax exempt status we have determined that you are exempt from Federal income tax under section 501(c)(3) of the Internal Revenue Code. Contributions to you are deductible under section 170 of the Code. You are also qualified to receive tax deductible bequests, devises, transfers or gifts under section 2055, 2106 or 2522 of the Code. Because this letter could help resolve any questions regarding your exempt status, you should keep it in your permanent records.

Organizations exempt under section 501(c)(3) of the Code are further classified as either public charities or private foundations. We determined that you are a public charity under the Code section(s) listed in the heading of this letter.

Please see enclosed Publication 4221-PC, Compliance Guide for 501(c)(3) Public Charities, for some helpful information about your responsibilities as an exempt organization.

Bad Boy Mowers will add 200 jobs

Arkansas News Bureau

LITTLE ROCK — A Batesville company that manufactures riding lawn mowers and utility vehicles said Wednesday it will add more than 200 jobs over the next three to five years.

Bad Boy Mowers said it has completed a \$7.5 million expansion of its 650,000 square-foot plant in Batesville that will allow it to mass and the weeds are so bad that it's hard to see the stop

Intimidator multi-terrain vehicle to Arkansas State University Chancellor Tim Hudson on Wednesday.

The company said it is adding 10 new models of multi-terrain and utility terrain vehicles, bringing the total number it produces to 16. The company said the expansion will bring its total employment in Arkansas to 550.

Bad Boy Mowers began operating in Diaz in 1998 and moved to Batesville in 2008. "We can't get some of that taken care of now,"

the college provides training designed to lead to professional licensures and/or certifications as well.

The cost of attending college does not have to break the bank. MSCC's tuition for Crittenden County residents is only \$90 a credit hour, one of the lowest rates in the tri-state area. The out-of-county cost is just \$110 per hour and applies to all other Arkansas counties as well as DeSoto County, Miss.; Fayette County, Tenn.; Marshall County, Miss.; Shelby County, Tenn.; Tate County, Miss.; Tipton County, Tenn.; and Tunica County, Miss.

MSCC offers financial assistance and scholarships to

qualified students, and it's not too late to apply. All transfer students planning to seek financial aid must submit an official transcript from ALL previous colleges attended before receiving monetary assistance.

For more information about opportunities at Mid-South Community College, visit the campus at 2000 West Broadway in West Memphis, call the Admissions Office at (870) 733-6728, email admissions@midouthcc.edu, or see the college's website at www.midouthcc.edu.

CHARTER SCHOOL

Continued from Page 1
The schools would offer "average" students a year-round, day- and evening-education program. Students could enroll full- or part-time in a blend of classroom work and online study. Students could enroll in classes offering college credit and gain jobs training while working toward the tree year after of year."

At the July 19 A & P meeting, Office of Economic Development Project Manager Krystle Sheals, who has largely taken up the reins of spearheading the city's Christmas plans, said that last year's budget, while much lower than Christmas 2011, still allowed for an adequately festive display.

"I think it went pretty well," said Sheals. "Was it quite as much in the neighborhood when the city was funding a lot of the decorations? No, but the residents put up very nice displays on their own."

In the past, the city had partially funded decorating the homes surrounding Worthington Park as part of creating a holiday-themed route for those partaking in the horse-drawn carriage rides offered at Christmas time. The carriage rides were originally planned for part of last year's cut-backs, but instead Sheals negotiated to have the company that furnishes the rides to take

third time, with state funding scaled accordingly.

Classes generally would be in the evenings. Students fill out their own paperwork and are otherwise considered as adults.

A cap of 250 students is planned, with budgets in place for about 120 students. The Sunset school was closed a

operate the schools.

If all planners follow through with the applications and are approved by the Department of Education's Charter School Council, the state could have as many as 28 open-enrollment charter schools and charter school systems in 2014. There will be 17 open-enroll

Submitted ballot repeal marriage ban

Beebe criticizes Martin's hiring of outside counsel

Arkansas News Bureau

LITTLE ROCK — Gov. Mike Beebe on Tuesday said the flap over Secretary of State Mark Martin's hiring of outside counsel without prior approval has made all of the state's constitutional officers look bad and compared it to former state Treasurer Martha Shoffner's legal troubles.

Martin called Beebe's comments "slanderous rhetoric." "It's like the Shoffner thing," Beebe told reporters. "Any time you've got a statewide constitutional officer that does something like this, it really causes all of us to look like we've got problems."

A Pulaski County circuit judge ruled Monday that Martin had

outside counsel can be punished with a fine of \$200 to \$2,000 and removal from office upon conviction.

Shoffner is scheduled to stand trial in federal court on March 3 on six counts of extortion, one count of attempted extortion and seven counts of accepting a bribe as an agent of state government. She is accused of accepting \$36,000 in bribes to steer most of the state's bond business to one broker.

Beebe said Tuesday, "The trust of the people in their elected officials is something that you have to constantly try to promote. And you know, sometimes it doesn't work. Sometimes you see things like what happened to our treasurer

does not allow recognition of civil unions or other relationships substantially similar to marriage from other states.

The proposal would neither legalize same-sex marriage in Arkansas nor force religious institutions to acknowledge or perform such marriages, but would allow the state to recognize any relationships that do not violate Arkansas laws or statutes.

Arkansans for Equality submitted its proposal a day after the U.S. Supreme Court struck down the Clinton-era Defense of Marriage Act, which defined marriage as a union between one man and one woman. The ruling makes same-sex married couples eligible for federal benefits, but the nation's highest court left it to individual

states to decide who can marry.

The justices, in a separate but related case, cleared the way for same-sex marriage in California without establishing a constitutional right for gays to marry in all states.

Last month, Arkansas Initiative for Marriage Equality submitted wording to McDaniel's office for a proposed ballot measure that would repeal Amendment 83 and legalize same-sex marriage in the state.

Also, a same-sex Arkansas couple married in Idaho filed a lawsuit in Pulaski County Circuit and three same-sex couples filed suit in federal court lawsuit, all claiming the state's gay marriage ban violates their constitutional rights.

"Did you really offer to do what this guy said?"
"No."
"So you are saying a guy would lie about this?"
"I didn't talk to the guy."
"You had two cents in your pocket when you were picked up. The police said you propositioned this guy. When did you go to jail?"
"Day before yesterday. I was just trying to get home. I live in Bay."
"Let her out at 8 a.m. in the morning."
A phone went off in the courtroom.
"Give your phone to the bailiff. Turn it off and sit it here

"You don't know who a man was that was in your house with your kids? I don't believe you. That could be a case for abuse if there is someone in your house when you aren't there and your kids are. Are you out of the house?"
"I left July 16."
"Did you return the key?"
"No. I left it at home."
"You left the keys at home when you knew you could be put in jail over this? \$50 plus costs. Now you have time to go home and get the key and come back up here. I will issue a warrant if you don't come back."

Subject: Young Adult MJ Bridgescape Academy: Please attend public meeting on Aug 26 for this Open-enrollment Public Charter School application

**Dear Superintendents,
Please attend our Public meeting!
Monday, August 26, 2013, 6:00 pm
Marion City Hall
14 Military Road
Marion, AR**

**The purpose of this meeting is to present information
about**

**a proposed new charter school,
Young Adult Magic Johnson Bridgescape Academy
of Crittenden County.**

**For more details, e-mail ocbainc@yahoo.com or call me,
Sally Wilson 870-822-0574**

Crittenden County Residents Only!!!

Petition to Start a Charter School

The Young Adult Magic Johnson Bridgescape Academy of Crittenden County will target these non-graduates, offering a full high school diploma and work skills training. Since this school will be a public charter school, there is no cost to the student or to the community.

We, the undersigned, are concerned citizens who urge our leaders to act now to support "The Young Adult Magic Johnson Bridgescape Academy of Crittenden County".

receiving a charter to operate an open-enrollment public charter school approved by the authorizer by August of 2014

Statutory Language Concerning No Indebtedness:

No indebtedness of any kind incurred or created by the open-enrollment public charter school shall constitute an indebtedness of the State of Arkansas or its political subdivisions, and no indebtedness of the open-enrollment public charter school shall involve or be secured by the faith, credit, or taxing power of the state or its political subdivisions. An open-enrollment public charter school shall not incur any debt, including any lease, without the prior review and approval of the Commissioner of Education.

**2013 APPLICATION
OPEN-ENROLLMENT PUBLIC CHARTER SCHOOL
STATEMENT OF ASSURANCES**

The signature of the president of the board of directors of the proposed public charter school's sponsoring entity certifies that the following statements are and will be addressed through policies adopted by the sponsoring entity and policies to be adopted by the public charter school; and, if the application is approved, that the sponsoring entity, governing body, administration, and staff of the open-enrollment charter shall abide by them:

1. The information submitted in this application is true to the best of my knowledge and belief, and this application has been sent to the superintendent of all the districts from which we intend to draw students.
2. The open-enrollment public charter school shall be open to all students, on a space-available basis, and shall not discriminate in its admission policy on the basis of gender, national origin, race, ethnicity, religion, disability, or academic or athletic eligibility, except as follows: the open-enrollment public charter school may adopt admissions policies that are consistent with federal law, regulations, or guidelines applicable to charter schools. The charter may provide for the exclusion of a student who has been expelled from another public school district.
3. In accordance with federal and state laws, the open-enrollment public charter school hiring and retention policies of administrators, teachers, and other employees shall not discriminate on the basis of race, color, national origin, creed, sex, ethnicity, sexual orientation, mental or physical disability, age, ancestry, or special need.
4. The open-enrollment public charter school shall operate in accordance with federal laws and rules governing public schools; applicable provisions of the Arkansas Constitution; and state statutes or regulations governing public schools not waived by the approved charter.
5. The open-enrollment public charter school shall not use the moneys that it receives from the state for any sectarian program or activity, or as collateral for debt.

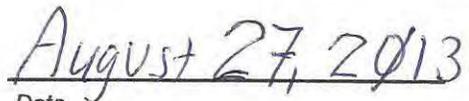

However, open-enrollment public charter schools may enter into lease-purchase agreements for school buildings built by private entities with facilities bonds exempt from federal taxes under 26 USCS 142(a) as allowed by Arkansas Code Annotated § 6-20-402. No indebtedness of an open-enrollment public charter school shall ever become a debt of the state of Arkansas.

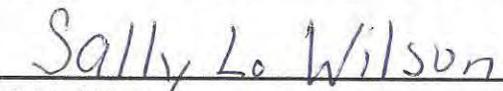

6. The open-enrollment public charter school shall not impose taxes or charge students tuition or fees that would not be allowable charges in the public school districts.
7. The open-enrollment public charter school shall not be religious in its operations or programmatic offerings.

8. The open-enrollment public charter school shall ensure that any of its employees who qualify for membership in the Arkansas Teacher Retirement System or the State and Public School Employee Insurance Program shall be covered under those systems to the same extent a qualified employee of a traditional school district is covered.
9. The employees and volunteers of the open-enrollment public charter school are held immune from liability to the same extent as other public school district employees and volunteers under applicable state laws.
10. The open-enrollment public charter school shall be reviewed for its potential impact on the efforts of a public school district or public school districts to comply with court orders and statutory obligations to create and maintain a unitary system of desegregated public schools.
11. The open-enrollment public charter school shall comply with all health and safety laws, rules and regulations of the federal, state, county, region, or community that may apply to the facilities and school property.
12. The applicant confirms the understanding that certain provisions of state law shall not be waived. The open-enrollment public charter school is subject to any prohibition, restriction, or requirement imposed by Title 6 of the Arkansas Code Annotated and any rule and regulation approved by the State Board of Education under this title relating to:
 - (a) Monitoring compliance with Arkansas Code Annotated § 6-23-101 et seq. as determined by the Commissioner of the Department of Education;
 - (b) Conducting criminal background checks for employees;
 - (c) High school graduation requirements as established by the State Board of Education;
 - (d) Special education programs as provided by this title;
 - (e) Public school accountability under this title;
 - (f) Ethical guidelines and prohibitions as established by Arkansas Code Annotated § 6-24-101 et seq., and any other controlling state or federal law regarding ethics or conflicts of interest; and
 - (g) Health and safety codes as established by the State Board of Education and local governmental entities.

13. The facilities of the public charter school shall comply with all requirements for accessibility for individuals with disabilities in accordance with the ADA and IDEA and all other state and federal laws.
14. Should the open-enrollment public charter school voluntarily or involuntarily close, the applicant confirms the understanding that any fees associated with the closing of the school including, but not limited to, removal of furniture, equipment, general expenses, etc., are the sole responsibility of the sponsoring entity. No indebtedness of any kind incurred or created by the open-enrollment public charter school shall constitute an indebtedness of the state or its political subdivisions, and no indebtedness of the open-enrollment public charter school shall involve or be secured by the faith, credit, or taxing power of the state or its political subdivisions. Upon dissolution of the open-enrollment public charter school or upon nonrenewal or revocation of the charter, all net assets of the open-enrollment public charter school, including any interest in real property, purchased with public funds shall be deemed the property of the state, unless otherwise specified in the charter of the open-enrollment public charter school. If the open-enrollment public charter school used state or federal funds to purchase or finance personal property, real property or fixtures for use by the open-enrollment public charter school, the authorizer may require that the property be sold. The state has a perfected priority security interest in the net proceeds from the sale or liquidation of the property to the extent of the public funds used in the purchase.

RE: Notification of Charter Authorizing Panel Decision
Young Adult Magic Johnson Bridgescape Academy of Mississippi County

Dear Ms. Wilson:

On November 21, 2013, the Charter Authorizing Panel concluded the hearing, that began on November 14, 2013, about the open-enrollment charter application for the Young Adult Magic Johnson Bridgescape Academy of Mississippi County. The panel denied the charter application. Ark. Code Ann. § 6-23-702(b)(2)(A) allows charter applicants and affected school districts to request that the State Board of Education review a final decision of the Charter Authorizing Panel. A request must state the specific reasons that the board should review the decision.

Ark. Code Ann. § 6-23-703(a) requires the State Board of Education to consider requests for review of Charter Authorizing Panel decisions at its next meeting after the decisions are made. Therefore, a review request must be submitted, via email, no later than 12:00 p.m. on Friday, November 22, 2013, in order for the request to be included on the State Board of Education agenda for the meeting on December 9, 2013. Email the request to ade.charterschools@arkansas.gov. Be advised that the decision of whether to review a Charter Authorizing Panel decision is discretionary. See Ark. Code Ann. § 6-23-702(b)(3).

If you have any questions, I may be reached by phone at (501) 683-5312 or by email at mary.perry@arkansas.gov.

Sincerely,

Mary Perry, Coordinator
Charter and Home Schools Office

Charter Authorizing Panel
Arkansas Department of Education
Four Capitol Mall
Little Rock, AR 72201

RE: Young Adult Magic Johnson Bridgescape Academy of Mississippi County

Dear Members of the Charter Authorizing Panel,

The Young Adult Magic Johnson Bridgescape Academy of Mississippi County is a proposed open-enrollment charter school, which will implement a specialized program focused on dropout prevention and recovery for students in grades 9-12 who have dropped out of school or who are at-risk of dropping out of school. The mission of Magic Johnson Bridgescape is to provide an alternative graduation path for those who are at risk through dropout intervention services that include a self-paced quality education in a personalized environment with a focus on successful postsecondary transitions. The program is grounded in the belief that every student, given the right tools, support and environment, is capable of exceeding their expectations. This vision is incorporated in a program that is student-focused and providing individuals an opportunity to earn a high school diploma in an environment that fits their schedule, life circumstances, and learning needs.

After receiving technical assistance from the Arkansas Department of Education (ADE), the Young Adult Magic Johnson Bridgescape Academy respectfully requests a waiver of the requirement found in Sections 9.03.1.2 and 9.03.4 of the ADE's Rules Governing Standards for Accreditation of Arkansas Public Schools and Districts (revised July 2009) to offer and teach the 16 units beyond the 22 units required for high school graduation on the Smart Core and Core Curriculum.

As described in the charter application, each student at the Young Adult Magic Johnson Bridgescape Academy will have an Individual Graduation Plan (IGP). The IGP is the roadmap that leads to a diploma and is intended to be a prescriptive yet fluid document, regularly revised and updated based on student progress and needs. At its core, the IGP will include the necessary requirements to receive a high school diploma in Arkansas (the 22 units of the Smart Core and Core Curriculum). These courses will be offered using EdisonLearning's online curriculum. Attached please find a copy of EdisonLearning's eCourses Course Catalog, which describes the variety of core, STEM, World Language and elective course offerings available to students.

The Young Adult Magic Johnson Bridgescape Academy will offer and teach all of the 22 units required by the Rules Governing Standards of Accreditation. Additionally, the Young Adult Magic Johnson Bridgescape Academy will, through EdisonLearning eCourse offerings and cooperative agreements with community colleges and other public schools, offer its students, upon their request, any of the other courses which comprise the 38 units.

The Young Adult Magic Johnson Bridgescape Academy also requests a waiver from the requirements to offer Advance Placement courses pursuant to 9.03.4.11. If a student request to take an Advanced Placement course, the Academy will make such course available.

Further, the Young Adult Magic Johnson Bridgescape Academy requests a waiver from the Alternative Learning Environment (ALE), specifically Ark. Code Ann. § 6-48-101 et seq., Ark. Code Ann. § 6-15-1005(b)(5) and Section 4.00 of the ADE Rules Governing the Distribution of Student Special Needs Funding.

Osceola Communications, Business and Arts, Inc. and EdisonLearning appreciate the technical assistance provided by the ADE and appreciate the consideration of the Charter Authorizing Panel in reviewing these waiver requests.

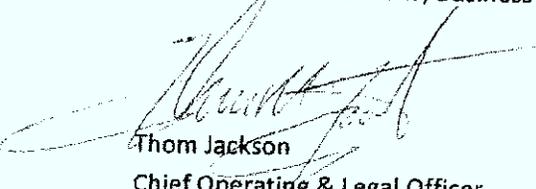

Sincerely,

Sally Wilson

November 19, 2013

Commissioner Tom Kimbrell
Arkansas Department of Education
Four Capitol Mall, Room 304-A
Little Rock, AR 72201

Re: Young Adult Magic Johnson Bridgescape Academy

Dear Dr. Kimbrell,

I have been contacted by Sally Wilson regarding the Young Adult Magic Johnson Bridgescape Academy. Per your request from the November 14th Charter School Authorizing Panel hearing, I would like to verify the availability of our secondary technical skills courses to future students, should the Panel approve this charter. Our secondary center courses are currently made available to all area high school students in Mississippi County at a rate of \$3,250 per full-time enrollment (FTE), therefore students at the Young Adult Magic Johnson Bridgescape Academy in Osceola would be allowed to enroll in these courses for the same tuition cost, as well.

Please contact me if you have any questions or require additional information.

Sincerely,

Dr. James Shemwell
President

Community Letter of Support for Young Adult Magic Johnson Bridgescape Academies

Submission Date: November 14, 2013

Dear Arkansas Department of Education, ADE

We wish to express our support for the charter school applications for the Young Adult Magic Johnson Bridgescape Academies of Crittenden County and Mississippi County as posted on the ADE website and on the sponsoring non-profit's website, www.ocbainc.com.

Our Arkansas Delta area has a significant population of young adults who are at risk or who have already dropped out of school. These underserved students deserve every opportunity we can provide them to re-engage them in high school, earn their diploma and receive the educational, social and technical skills necessary to be successful, productive members of our society. We believe that a Magic Johnson Bridgescape Academy would be of great benefit to the children, families and local community.

The Young Adult Magic Johnson Bridgescape Academies, which would enroll students up to age 22, is a blend of one-on-one and group instruction, infused with interactive online offerings specifically tailored for each individual student. According to their website, <http://magicjohnsonbridgescape.com/>, there are 17 Magic Johnson Bridgescape Academies, in 5 states. As with these academies, the local Academy will be staffed with on-site education teams to assist students in their daily studies using EdisonLearning's online *eCourses* providing much needed flexibility for the students. According to their website <http://edisonlearning.com/about-edisonlearning>, EdisonLearning has nearly 20 years of experience working in partnership with schools, districts and states across the United States to improve student outcomes in some of the most challenging urban and rural areas.

We believe that Magic Johnson Bridgescape Academy/EdisonLearning model has the vision, capacity and educational model necessary to successfully re-engage at-risk students and improve overall student outcomes in our neighborhood. The engagement of the community is a vital component and EdisonLearning would be committed to community partnerships and has existing partnerships that would lend themselves to additional supports and wrap-around services for our youth.

Please consider approving these schools. Sincerely,

Sen. David Burnett, Arkansas Senate
Rep. Ann Clemmer, Arkansas House
Rep. Monte Hodges, Arkansas House
Rep. Wes Wagner, Arkansas House
Ralph Wilson, Jr., Circuit Judge
Barbara Halsey, Circuit Judge
Lee Fergus, Circuit Judge

Subject: Letter of Support Needed
Importance: High

Hello Dave,

I am working with Sally Wilson and her team to get a charter school in Marion. It is the Magic Johnson Bridgescape Academy. The target group is youth and young adults who are high school drop outs or at-risk of dropping out of high school. I know that this school would be a great asset to our community and a great referral source for the local workforce centers and Title I programs. Please see the attached letter of support that we have developed. If you are in agreement and would like to offer your support, please respond to this email and we will add your name, title and company name to the letter.

Kingdom Blessings,

Anita Adams

Sally Longo Wilson

Hi Sally -
Can you put me down as a community member or organizer?
You are welcome to use my name - but I don't want to support on behalf of economic development, just myself.

Thank you

2013-2014 Application Cycle

Young Adult Magic Johnson Bridgescape Academy of Mississippi County

Summary

Young Adult Magic Johnson Bridgescape Academy of Mississippi County Charter School

| | |
|---------------------------------------|--|
| Grade Level(s): | 9-12 |
| Student Enrollment Cap: | 250 |
| Name of the Sponsoring Entity: | Osceola Communication, Business and Arts, Inc. |
| IRS Status | 501(c)(3) Non-Profit Status |
| Address: | Highway 140 at I-55 Osceola, AR 72370 |

Mission Statement

The Charter School will implement the Magic Johnson Bridgescape model, a specialized program focused on dropout prevention and recovery for students in grades 9-12 who have dropped out of school or who are at-risk of dropping out of school. The mission of Magic Johnson Bridgescape is to provide an alternative graduation path for those who are at risk through dropout intervention services that include a self-paced quality education in a personalized environment with a focus on successful postsecondary transitions. The program is grounded in the belief that every student, given the right tools, support and environment, is capable of exceeding their expectations. This vision is incorporated in a program that is student-focused and providing individuals an opportunity to earn a high school diploma in an environment that their schedule, life circumstances and learning needs.

The Magic Johnson Bridgescape model provides a student-centered, blended learning, community-integrated model which creates a positive and safe learning environment focused on improving attendance and student achievement. Through a strategic alliance with Magic Johnson Enterprises, Magic Johnson Bridgescape draws on EdisonLearning's nearly twenty year history of school improvement success and educational innovation and the proven track record, passion, and leadership of Magic Johnson Enterprises to address the specific needs of students who are at-risk of not graduating or who have already dropped out of school.

Information on the School District in Which the Charter Would Be Located

South Mississippi County School District

77.11% free and reduced-price lunch (2012-2013)

Needs Improvement District (ESEA 2012) - Mathematics

Issues that Remain Unresolved as Determined by the Charter Internal Review Committee

- The misstatement of the judge and sheriff of Mississippi County
- Low expectations and goals for a student population that needs accelerated learning
- Lack of clarity as to if Edison's eCourses are have already been aligned to the Arkansas Curriculum Frameworks or will be aligned to the frameworks
- The basic principles of ALE would need to be restructured to implement the program as proposed
- The ability to meet the needs of gifted and talented students
- The use of a Home Language Survey as an assessment at the time of enrollment to provide information on the language proficiency of English language learners
- Appropriately serving the needs of gifted and talented students

- Requiring a family income form or National School Lunch Program form for enrollment
- The lack of an explanation about the method for determining management fees
- At least half of the sponsoring entity board being comprised of individuals with the same last name
- The lack of the following units of study from the proposed course provider: oral communication, journalism, art, instrumental music, vocal music, 9 units of career and technical courses, advanced placement courses
- No clear explanation of the maximum number of students per teacher
- No content knowledge required for teachers

Documentation Provided in Support of the Charter

Petitions (available for review)

109 signatures

Requested Waivers

Note from legal staff:

The Charter Authorizing Panel should examine each waiver requested by the applicant. Particular attention should be paid to the following waiver requests which traditionally have either not been granted or have warranted additional discussion by the authorizer:

- **Ark. Code Ann. § 6-15-213 Arkansas Smart Core Incentive Funding Program**
 - The applicant requests a waiver of offering the required 38 units. This statute is not applicable to the 38 units and waiver of the statute does not appear to be necessary.
- **Standards for Accreditation 9.03.4 38 Units of Credit**
 - Traditionally, this waiver has only been granted as charters phase in grades (i.e., the charter will offer all 38 units by the time it has its first 12th grade class) or when the charter will still meet the content requirements of all 38 courses through embedded courses.
- **Standards for Accreditation 10.02 Class Size and Teaching Load**
 - The applicant indicates that the overall teacher to student ratio will be 1:13. If this is the maximum ratio, no waiver is needed. If some classes will have a class size which exceeds the maximum allowed in this standard, the maximum class size should be disclosed.
- **Standards for Accreditation 14.03 Clock Hours for Unit of Credit**
 - The Panel lacks the authority to grant a waiver of graduation requirements. However, in the past the authorizer has granted a waiver of the 120 clock hour requirement upon satisfaction that the charter will adhere to full curriculum alignment with Arkansas Frameworks.

From Ark. Code Ann.

Young Adult Magic Johnson Bridgescape Academy of Mississippi County
Osceola, Arkansas

YOUNG ADULT MAGIC JOHNSON BRIDGESCAPE ACADEMY OF MISSISSIPPI COUNTY

| | |
|-------------------------------------|--|
| Sponsoring Entity: | Osceola Communication, Business, and Arts, Inc. (OCBA) |
| IRS Status: | Recognized non-profit entity |
| Grade Levels: | 9-12 |
| Student Enrollment Cap: | 250 |
| Address of Proposed Charter: | Highway 140 at I-55, Osceola, AR 72370 |

PRE-APPLICATION MATERIALS

The Arkansas Department of Education requires that all applicants submit a Letter of Intent, outlining a general description of the proposed charter school.

Evaluation Criteria:

A response that meets the standard will guarantee that:

- A Letter of Intent was filed with Arkansas Department of Education on time and included all the necessary information.

Meets the Standard

PART B EXECUTIVE SUMMARY

The Arkansas Department of Education requires all applicants to include an executive summary.

Evaluation Criteria:

A response that meets the standard will present:

- A mission statement (with content to be evaluated for Prompt #3 of Part C); and
- The key programmatic features of the proposed charter school.

Meets the Standard

C-1 PUBLIC HEARING RESULTS

All proposed school design teams must conduct a public hearing before applying for an open-enrollment charter school, to assess support for the school's establishment. Applicants are asked both to document the logistics of the hearing and to include a narrative of the hearing results.

Evaluation Criteria:

A response that meets the standard will present:

- A thorough description of the results of the public hearing;
- Evidence of public support exhibited at the hearing;
- Documentation of required notices published to garner public attention to the hearing; and
 - Published on a weekly basis for at least three consecutive weeks prior to the date of the hearing in a newspaper having general circulation in the school district in which the school will likely be located
 - The notice of the public hearing was not published in the classified or legal notice section of the newspaper.
 - The last publication date of the notice was no less than seven days prior to the public meeting.
- Documentation of required notices of the public hearing to superintendents of districts from which the proposed school is likely to draw students and to superintendents of districts that are contiguous to the district in which the charter school would be located
 - Within seven calendar days following the first publication.

Meets the Standard

C-2 GOVERNING STRUCTURE

The Governing Structure section should explain how the school will be governed. It should present a clear picture of the school's governance processes and composition, what responsibilities various groups and people will have and the relationships among the groups.

Evaluation Criteria:

A response that meets the standard will present:

- Documentation of proper legal structure of the governing board and sponsoring entity;
- A comprehensive description of the planned relationship between the governing board of the school and governing board of the sponsoring entity;
- A clear description of the governing board's roles and responsibilities;
- Adequate policies and procedures for board operation, including board composition, member term length, and member selection;
- A clear, sensible delineation of roles and responsibilities in relation to governance and school management; and
- A reasonable plan for involving parents, staff, students and community in the decision-making of the school.

Partially Meets the Standard - MEETS THE STANDARD (BASED ON RESPONSE)

Concerns and Additional Questions:

- Explain how one becomes a member of OCBA and the role afforded to a member.

Membership to the non-profit corporation is open to the public and very inclusive. For at least two years, OCBA's website has had the following statement posted:

"You are invited to join our OCBA, Inc., non-profit organization. E-mail your name and address to ocbainc@yahoo.com. A membership packet will be sent to you. Please complete the form and return the membership information along with your \$50 annual dues to OCBA, Inc. According to the Corporation by-laws, the officers of OCBA, Inc. are elected by the Corporation members. *Announcing, the Corporation is waiving the dues the rest of the year."
(www.ocbainc.com/ocba-non-profit.html).

Specifically, the OCBA by-laws in Article III, also posted on the non-profit's website (www.ocbainc.com/ocba-bylaws.html), state the following on membership:

1. Any individual who subscribes to the purposes and basic policies of the Corporation may become a member of the Corporation subject only to compliance with the provisions of the Bylaws, application to the Corporation, approval by its Board and payment of the annual dues. Membership in the Corporation shall be available without regard to race, color, creed, sex or national origin.
2. Only the following persons may become a member of the Corporation.
 - a. Must reside in Arkansas or a state contiguous to Arkansas.
 - b. Must be 18 years or older.

Additionally, the attendees of Charter School's August 2013 Public Meeting for the Young Adult Magic Johnson Bridgescape were invited to join the non-profit. Slide 22 of the attached PowerPoint presentation includes this invitation.

- Explain if the Program Director and Director of Achievement will be employees of Edison. If they are Edison employees, explain why salaries are budgeted for the positions separate from management fees.

Both the Program Director and the Director of Achievement will be employees of EdisonLearning; however, since the Program Director and Director of Achievement will spend a significant amount of time onsite at the Young Adult Magic Johnson Bridgescape Academy, 1 FTE and 0.125 FTE respectively, their salaries are included in the school's proposed budget.

- Explain if the OCBA board will approve the student handbook as it is stated that the "school board" will approve the handbook, but "Board" is used in all other parts of this response.

The "school board", the "Board" and the "OCBA Board" are the same, and will approve the student handbook.

- Explain the ways in which parents, staff, and community will be involved in making decisions about the school.

All parents, staff, adult-age students and supportive citizens are encouraged to join the OCBA non-profit corporation. A local Advisory Committee of parents, staff, students and community volunteers will be appointed by the Program Director to support the Charter School and the Board. Though the group will not have governing power, the Board will consider suggestions from the Advisory Committee.

C-3 MISSION STATEMENT

The Mission Statement should be meaningful and indicate what the school intends to do, for whom, and to what degree.

Evaluation Criteria:

A response that meets the standard will present:

- A mission statement that is clear and succinct.

Meets the Standard

C-4 EDUCATIONAL NEED

The Educational Need section should explain the need for a charter school in the proposed location and the innovative educational option offered by the charter school.

Evaluation Criteria:

A response that meets the standard will present:

- A description of the educational need for the charter school substantiated with valid and reliable data, and
- A description of the innovations that would distinguish the charter from other schools.

Partially Meets the Standard

Concerns and Additional Questions:

- Confirm the understanding that there may be reasons other than dropping out of school for ninth graders not to graduate.

Young Adult Magic Johnson Bridgescape Academy understands that there may be reasons other than dropping out of school for ninth graders not to graduate. The anticipated population is students who want to graduate but find the various obstacles that can interfere with academic progress overwhelming. This includes students who are falling behind or struggling with coursework, disengaging from learning in the traditional setting, working to support themselves or family members, gifted and talented, or pregnant or parenting.

- Describe the workforce solutions that will be provided by Magic Johnson Enterprises.

As described in the application, through the Young Adult Magic Johnson Bridgescape Academy, students will have access to job readiness and mentorship resources to assist in career preparation and post-secondary planning. The program will partner with local businesses, civic organizations, and non-profits

to create career platforms for students, providing workplace exposure and training and Magic Johnson Enterprises will leverage its other businesses and local partnerships to help identify internships and job opportunities for graduates.

Magic Johnson Enterprises has also developed a Career Development Rubric and a robust Career Exploration/Job Readiness course with a comprehensive and clearly defined scope and sequence. The course is comprised of 39 lessons. Below are some sample topics:

- Careers Available to Individuals with High School Diplomas
- Careers Available to Individuals with Two-Year Associate Degrees
- Careers Available to Individuals with Bachelor's Degrees
- Education Level and Earning Potential
- Which Industries Are Growing and Which Jobs Will Be Available When I Graduate
- Essential Professional Skills: Teamwork and Interpersonal Interactions
- Essential Professional Skills: Planning, Organizing, and Managing Multiple Priorities
- Essential Personal Attributes: Responsibility and Reliability
- Business Etiquette

- **Name the Arkansas businesses and social organizations that are partners with Magic Johnson Enterprises.**

At this time, Young Adult Magic Johnson Bridgescape Academy does not have any partnerships established with Arkansas business and social organizations; however, once approved the Academy will form partnerships with local businesses and organizations leveraging Magic Johnson Enterprises large network of community organizations and corporate relationships.

Magic Johnson Bridgescape has been successful in identifying the necessary community partners to create a network of external social agencies to provide the needed resources and services for the students. For example, in the metropolitan Columbus area, the Academy has partnered with the Youth Empowerment, Mothers Helping Mothers, Franklin County Children Services, the Ohio Department of Youth Services, Ohio Health, and the American Red Cross.

More recently, Magic Johnson launched a new organization, Friends of Magic, which is a network of individuals, foundations and companies whose mission is to provide Magic Johnson Bridgescape Academy students who are at risk or have dropped out the resources and assistance they need to not only graduate high school, but the opportunity to build their future through educational resources, internships and real world experiences. This organization was launched in Chicago to support the two Academies that opened in the fall.

Members of Friends of Magic reflect the unique business and community landscape of the surrounding area of the Magic Johnson Bridgescape Academy and are selected on a national level to support program expansion and awareness. The primary purpose of Friends of Magic is to serve as a community and business extension of the Magic Johnson Bridgescape Academy, provide vital resources to support the growth and expansion of Magic Johnson Bridgescape, ensure that each academy has the support it needs to enhance the success of every student and to support the individual career development path of each student through internship opportunities, mentoring, and educational field experiences.

- **Explain the ways in which achievement of the guiding goals will be measured.**

The guiding goals of the Young Adult Magic Johnson Bridgescape Academy will be measured through

twice annual Quality Assurance reviews, which will be conducted by the OCBA Board and EdisonLearning to ensure fidelity to the program and to inform future program revisions in efforts towards continuous improvement of student performance and achievement.

These guiding goals are incorporated into the entire Young Adult Magic Johnson Bridgescape Academy program, including the life skills instruction, the core values instruction, the study skills instruction, the collaborative learning opportunities, and the advisory program.

- **Name the community leaders who requested additional career and technical education.**

The following community leaders have requested additional career and technical education opportunities:

- Mississippi County Judge Woody Wheelless requested high school business and career educational programming to align with the county's proposed business incubator program.
- Mississippi County Sheriff Mike Allen requested high school technical educational programming for juvenile and young adult inmates in his county jail.
- With announcement of the Big River Steel mill coming to South Mississippi County, the Osceola/South Mississippi County Chamber of Commerce Director Ammi Tucker expressed the need for as much high school level steel industry career training and education as possible. And Dr. Robert Gunter, Deputy Director of Career and Technical Education, Arkansas Department of Career Education, suggested that the school, if approved, apply for a model C&TE program in Steel Technology.

C-5 EDUCATIONAL PROGRAM

The Educational Program section should describe the educational foundation of the school and the teaching and learning strategies that will be employed.

Evaluation Criteria:

A response that meets the standard will present:

- A clear description of the proposed educational program, including but not limited to the foundational educational philosophy and curricular and instructional strategies to be employed;
- Specific reasons that the school would be viable; and
- A description of the length of school day and school year that meets minimum state requirements.

Partially Meets the Standard - MEETS THE STANDARD (BASED ON RESPONSE)

Concerns and Additional Questions:

- Confirm the understanding that every digital course must be offered from a provider approved by the Arkansas Department of Education and must meet or exceed curriculum standards and requirements established by the Arkansas State Board of Education in accordance with all laws, rules, and procedures promulgated to ensure access to quality digital learning content and online blended learning.

Young Adult Magic Johnson Bridgescape Academy understands that under current law every digital course must be offered from a provider approved by the Arkansas Department of Education and must meet or exceed curriculum standards and requirements established by the Arkansas State Board of Education in accordance with all laws, rules, and procedures promulgated to ensure access to quality digital learning content and online blended learning. As such, Young Adult Magic Johnson Bridgescape Academy's curriculum provider, EdisonLearning, will complete the Digital Learning Provider Application required by the Arkansas Department of Education pursuant to the Emergency Rules Governing the Digital Learning Act of 2013, dated September 9, 2013.

- Provide the “Blended Learning Pedagogical Model for Magic Johnson Bridgescape Academies” and explain how the model will be used to meet the needs of the charter school students.

Attached please find the “Blended Learning Pedagogical Model for Magic Johnson Bridgescape Academies.” The Blended Learning Pedagogical model demonstrates the four different modes of blended learning (Foundational, Conceptual, Collaborative, and Personal) that may be utilized at the Young Adult Magic Johnson Bridgescape Academy to ensure students achieve academic success. Specifically, it describes the teacher actions and student actions necessary for each of these modes of learning, which may be employed by the instructional staff to meet the individual and group needs of students.

- Provide the projected amount of time each day that a student will be involved on online learning.

The amount of time a student spends each day working on the online coursework will depend on the student’s IGP and the student’s need for one-on-one or small group tutoring or other supplemental instruction. As indicated in the sample schedule, a student may spend during any session between 2 hours and 45 minutes to 3 hours and 30 minutes on the online coursework.

- Confirm that each student will attend one session per day.

Each student attending the Young Adult Magic Johnson Bridgescape Academy will attend one session per day.

- Explain if the sessions are four hours in length as is stated in the response and on the generic sample schedule or four and a half hours in length as is stated on the 2014-2015 calendar.

The sessions are four hours in length; the reference on the calendar was incorrect. The Young Adult Magic Johnson Bridgescape Academy proposes two four-hour sessions each day, an extended school year, and mastery- based learning opportunities to provide flexibility for students.

- Explain if student will be required to attend school during the summer.

Young Adult Magic Johnson Bridgescape Academy will operate on an extended school year, but at this time, the Academy does not plan to offer a traditional summer program.

- Provide the number of days in the summer term and the length of the school day during the summer term.

Not applicable.

C-6: ACADEMIC ACHIEVEMENT GOALS

The Academic Achievement Goals section should define the performance expectations for students and the school as whole.

Evaluation Criteria:

A response that meets the standard will present:

- Specific goals in:
 - Reading;
 - Reading Comprehension;
 - Mathematics; and
 - Mathematics Reasoning;
- Goals that are clear, measurable and data-driven;
- Goals on improving student achievement; and

- Valid and reliable assessment tools for measuring each of the defined goals.

Partially Meets the Standard

Concerns and Additional Questions:

- Explain how and when annual measureable objectives on state assessments will be met if an annual increase of 2% achieving proficiency, the established goal, occurs each year.

This goal based on the assumption that the Young Adult Magic Johnson Bridgescape Academy will meet the AMOs as required and in addition to meeting the AMOs, the Academy will increase the percentage of enrolled students demonstrating proficiency by 2% every year. If, however, the AMOs are not met after the first year of operation, then the goal would be adjusted as needed to meet the AMOs within the required timeline.

When determining baseline goals (achievement, graduation, attendance) for the population of students, it is necessary to understand that these students have become disengaged from the learning process and cannot be measured against traditional high school students.

- Explain when the school will expect to exceed state graduation rates if the goal is an increase in graduation rates of 2% per year.

Based on EdisonLearning's experience with similar charter schools focused on dropout prevention and recovery and implementing the Magic Johnson Bridgescape model, for the first baseline year, a graduation rate of approximately 60% should be expected. Each year thereafter this graduation increases due to the increased capacity of the staff and the increased academic momentum of students. For example, as students progress through the academic program, they begin to understand how attendance and focus impacts their progress in earning credits and making graduation an achievable goal. Based on this 2% goal, the Young Adult Magic Johnson Bridgescape Academy should exceed state graduation rates in approximately 10 years or the 2024-25 school year; however, based on the factors described above the increase may accelerate faster than 2% annually.

- Confirm the understanding that with a goal of 55% attendance and a 2% increase in attendance each year, the charter will have a 75% attendance rate in 2024-2025.

Young Adult Magic Johnson Bridgescape Academy understands that with a goal of 55% attendance and a 2% increase in attendance each year, the school will have a 75% attendance rate in 2024-2025. Young Adult Magic Johnson Bridgescape Academy will work with our students to ensure they understand that it is their commitment to be in attendance and use their time wisely. The program has developed a daily, weekly, and monthly goals and progress tracker that assists students in accurately projecting course completion dates and ultimately graduation timeline.

- Explain the meaning of the following, "In addition to the state assessment required under law and State Board of Education regulations, within the Charter School student assessment and testing will be administered throughout the academic year in order to improve the instructional program at the Charter School; assess the progress of individual students in relation to standards; and assess the progress of the students within the curriculum."

In the Young Adult Magic Johnson Bridgescape Academy model, assessment is used to continually monitor student progress (e.g., whether they are understanding key concepts) and to inform instructional needs (e.g., if a students or group of students is not understanding a key concept, the teacher will organize one-on-one tutoring session or a small group instructional time). Within the online coursework, students take daily assessments for each lessons and unit exams. Teachers use data from eSchoolware to pull reports on individual students to identify the need for intervention and remediation

and then develop lessons to support that need. Additionally, students participate in ongoing assessment of Lexile growth.

- Provide the name of the diagnostic reading assessment to be administered to students upon enrollment at the charter.

Young Adult Magic Johnson Bridgescape Academy will use the Achieve3000 Level Placement Test to determine Lexile levels at the time of enrollment. Based on this determination, students are then placed in Achieve3000's online program and Lexile growth is tracked monthly to monitor growth.

- Provide the name of the reading assessment to be administered annually to measure growth. Achieve3000 is used annually measure growth.

- Provide the process used to determine that assessment items in Edison's eCourses correlate to Arkansas Curriculum Frameworks. Explain when this occurred and provide the names, affiliations, and credentials of those who made the determinations.

EdisonLearning's eCourses are aligned to the Arkansas Curriculum Framework through a two-step process. The first is completed by teachers certified in the subject area they are assigned. The teachers are tasked with mapping each lesson and assessment item in the eCourses to a set of skills and standards called the Global Attribute List (GAL). The GAL was developed from several highly rated state standards lists and designed to be a core alignment tool for the eCourses content. After the content and assessments are mapped to the GAL, a partner company, EdGate Correlation Services, aligns the GAL skills to each of the fifty state standards and the Common Core State Standards. The advantage of this process is that the correlations are updated as any changes occur to the Arkansas State Standards and EdisonLearning receives a weekly data update of the correlations. This two step process ensures that the eCourses correlation to the Arkansas Curriculum Frameworks is both accurate and current.

- Explain what standards are referenced in the following, "...assess the progress of individual students in relation to standards..."

This reference refers to the Arkansas Curriculum Framework and/or Common Core State Standards, as applicable. EdisonLearning's online curriculum is structured based on a modular design with lessons limited to one or two standards based on objectives that are clear and attainable students maintain focus and motivation by accomplishing achievable goals in each lesson, a technique which has been shown to foster success in online learning. Each lesson is accompanied by an assessment that tests mastery of lesson content and includes a host of interactive multimedia features that support the diverse needs of students as well as reinforce key concepts in the curriculum.

Further, EdisonLearning's eSchoolware learning and content management system allows teachers and staff to review student results, grades, time-on-task, and incorporate notes on achievement of student goals. When students are identified as struggling within a content area they will be provided the individualized assistance needed to master the material and move on. Individual or small group instruction is driven by student needs as identified through progress monitoring and will be provided as needed, both formally and informally. Small group instruction will be provided not only to address remediation needs but also to provide enrichment, specifically in the area of character education to promote good citizenship and decision making skills as well as to develop core values that include compassion, integrity, justice, and responsibility.

- Remove the reference to meeting adequate yearly progress (AYP) as determinations of AYP no longer occurs in Arkansas.

As the Arkansas Department of Education has received a waiver from ESEA/NCLB by the United States Department of Education, all references to AYP are removed.

- Confirm the understanding, that during the first year of operation, the charter's annual measurable objectives (AMOs) will be based on the state AMOs, and that in following years, the charter's AMOs will be based upon the academic performance of the students who attend the charter.

Young Adult Magic Johnson Bridgescape Academy understand that during the first year of operation, the Academy's AMOs will be based on the state AMOs, and that in following years, the Academy's AMOs will be based upon the academic performance of the students who attend the Academy.

C7: CURRICULUM DEVELOPMENT AND ALIGNMENT

The Curriculum Development and Alignment section should define the process by which the design team developed (or chose) the curricular program of the school and illustrate alignment with Arkansas Curriculum Frameworks and Common Core State Standards.

Evaluation Criteria:

A response that meets the standard of a curricular development and alignment program will present:

- Evidence that the curriculum aligns with, or a sound plan and timeline for aligning the curriculum with, the Arkansas Department of Education's content standards, benchmarks and performance standards.
- Evidence that the applicant is prepared to implement the requirements and timeframe of the Common Core State Standards.

Partially Meets the Standard

Concerns and Additional Questions:

- Explain the inconsistency in the statement that Edison's "eCourses curriculum is fully-aligned to the Arkansas Curriculum Frameworks" and the statement that modifications can be made "to address changes in standards and any gaps in curriculum that do not currently meet standards."

EdisonLearning's eCourses are aligned to the Arkansas Curriculum Framework through a two-step process. The first is completed by teachers certified in the subject area they are assigned. The teachers are tasked with mapping each lesson and assessment item in the eCourses to a set of skills and standards called the Global Attribute List (GAL). The GAL was developed from several highly rated state standards lists and designed to be a core alignment tool for the eCourses content. After the content and assessments are mapped to the GAL, a partner company, EdGate Correlation Services, aligns the GAL skills to each of the fifty state standards and the Common Core State Standards. The advantage of this process is that the correlations are updated as any changes occur to the Arkansas State Standards and EdisonLearning receives a weekly data update of the correlations. This two step process ensures that the eCourses correlation to the Arkansas Curriculum Frameworks is both accurate and current.

Through the process described above, the eCourses content and assessments are comprehensively mapped to the Arkansas Curriculum Frameworks, but there are commonly state-specific skills that do not directly correlate to the existing "off-the-shelf" eCourses. To address these occurrences, the modular structure of the eCourses content allows for custom organizations of lessons to develop a scope and sequence tightly aligned to the complete set of framework skills. Additionally, any gaps can

be filled through new lesson development or through the modification of existing lessons to ensure that the requisite skills are covered and students are well served.

- Confirm the understanding that aligning ADE course codes with Edison's eCourses does not ensure an alignment of content standards.

The Young Adult Magic Johnson Bridgescape Academy understands that aligning ADE course codes with EdisonLearning's eCourses does not ensure an alignment of content standards.

Although EdisonLearning's eCourses content and assessments are comprehensively mapped to the Arkansas Curriculum Frameworks, there are commonly state-specific skills that do not directly correlate to the existing "off-the-shelf" eCourses. To address these occurrences, the modular structure of the eCourses content allows for custom organizations of lessons to develop a scope and sequence tightly aligned to the complete set of framework skills. Additionally, any gaps can be filled through new lesson development or through the modification of existing lessons to ensure that the requisite skills are covered and students are well served.

- Explain how there is alignment between ADE course codes and Edison's eCourses when a waiver is requested from the required 38 courses because, "The EdisonLearning curriculum does not have a Journalism course nor all of the arts courses...."

As described above, there is alignment between the eCourses offered by EdisonLearning and the Arkansas Curriculum Framework; however, EdisonLearning does not offer all of the required 38 courses. As such, a waiver has been requested from teaching the 38 courses.

C-8: STUDENT SERVICES

The Student Services section should describe how the school will address specific services for its student body.

Evaluation Criteria:

A response that meets the standard will describe the ways in which the following services will be provided to students even in those areas for which a waiver is requested:

- A guidance program that will serve all students;
- A health services program that will serve all students;
- A plan for a media center for use by all students;
- Sound plans for educating special education students that reflect the full range of programs and services required to provide such students with a high quality education;
- A transportation plan that will serve all **eligible** students;
- An alternative education plan for eligible students, including those determined to be at-risk and to offer access to one or more approved Alternative Learning Environments;
- A plan to serve students who are English language learners; and
- Plans for offering access to one or more approved Alternative Learning Environments; and
- Plans for a gifted and talented program for eligible students.

Partially Meets the Standard - MEETS THE STANDARD (BASED ON RESPONSE)

Concerns and Additional Questions:

Health Services

- Explain the ways in which daily responsibilities for student health issues will be handled and by whom.

As there will not be a licensed nurse on staff, the entire instructional and operational staff will be

responsible for the safety and well-being of the students. Specifically, for the day-to-day student health issues, the Guidance Counselor and Office Manager will ensure that first aid supplies and station are onsite. Additionally, members of the staff will be trained in emergency procedures, including CPR. If any student health issue arises outside of the basic first aid needs, the student will be referred to the local health clinic. As such, the Guidance Counselor will work on forming partnerships with the local health clinic and any local health agencies. In any emergency situation, the local emergency agency will be called immediately.

Special Education Services

- Confirm the understanding that students who need special education services may enroll in the charter without an Individualized Educational Program (IEP) and that charter staff will have to ensure appropriate assessment and appropriate development of IEPs to meet all state and federal regulations.

Young Adult Magic Johnson Bridgescape Academy understands that students who need special education services may enroll in the school without an Individualized IEP and that Academy staff will have to ensure appropriate assessment and appropriate development of IEPs to meet all state and federal regulations.

- Confirm that understanding that it cannot be predetermined that a student with an IEP will be served in the general program with accommodations and that the charter will be prepared to offer a full continuum of special education services to meet the needs of any student who may enroll.

Young Adult Magic Johnson Bridgescape Academy understands that it cannot be predetermined that a student with an IEP will be served in the general program with accommodations. The school will be prepared to offer a full continuum of special education services to meet the needs of any student who may enroll.

- Confirm that the charter will comply with Child Find.

Young Adult Magic Johnson Bridgescape Academy will comply with Child Find.

Transportation Services

- Confirm the understanding that transportation will be provided when a student's IEP indicates that transportation should be provided.

Young Adult Magic Johnson Bridgescape Academy understands that transportation will be provided when a student's IEP indicates that transportation should be provided.

Alternative Education Services

- Confirm the understanding that creating an ALE consortium and serving as the lead school will require additional information and approvals from the Arkansas Department of Education.

Young Adult Magic Johnson Bridgescape Academy understands that creating an ALE consortium and serving as the lead school will require additional information and approvals from the Arkansas Department of Education.

English Language Learner Services

- Provide the names of the assessments to be administered to English language learners.

At the time of enrollment in the Young Adult Magic Johnson Bridgescape Academy, a Home Language Survey will be administered.

- Explain the ways in which subject matter will be introduced so that it can be understood by ELL students.

In addition to the text-to-speech tools that include a Spanish translator and the English to Spanish and picture dictionaries within the online curriculum, the ELL Teacher working with the instructional staff will create anticipatory guides when introducing new subject matter so that key vocabulary is identified, support online curriculum with necessary intervention and remediation, and provide strategies to best support students' needs. Further, based on its extensive experience working with ELL populations, EdisonLearning has developed targeted and specific professional development to provide for instructional staff working with ELL students to share best practices and maximize student achievement.

- Explain who will provide teachers with information on the language proficiency of ELL students and the source of the information that will be provided.

The ELL teacher will provide the instructional staff information on the language proficiency of ELL students based on Home Language Survey, which is administered time of enrollment

Gifted and Talented Services

- Explain how gifted and talented students will be identified.

Young Adult Magic Johnson Bridgescape Academy requests a waiver on Gifted and Talented programming as this charter school is focused on dropout prevention and recovery; however, if the waiver is not granted, gifted and talented students will be identified through their IEPs, which are requested at the time of enrollment.

- Explain which teachers will serve gifted and talented students and describe specific training that the teachers will receive in meeting the needs of gifted and talented students.

If the waiver is not granted, all instructional staff will serve all students as the Magic Johnson Bridgescape model was developed to individualize educational plans and challenge students where they are. Students work with online curriculum which is self paced so that students capable of working at an accelerated pace can complete courses and earn credits more quickly than peers. Additionally, extended learning opportunities through collaborative projects and personal learning will enrich the learning experience for all students, including those identified as gifted and talented.

- Explain how the social and emotional needs of gifted and talented students will be met.

If the waiver is not granted, gifted and talented students will participate with their peers in learning opportunities designed to support their social and emotional needs. Through the Core Learning Skills instruction, students learn to identify new interpersonal skills acquired and practice those individually and with peers. Through the advisory program students participate in learning about themselves and their place in the world, problem solving, personal growth, and working as a member of a team.

- Confirm the understanding that gifted students can be at-risk of dropping out or former dropouts.

Young Adult Magic Johnson Bridgescape Academy understands that gifted students can be at-risk of dropping out or former dropouts. Gifted students are particularly at risk of not being challenged in school and thus become disengaged, may feel different and ostracized, or be bullied. For a variety of reasons, all kids are at risk of becoming disengaged with the learning process and environment.

C-9: GEOGRAPHICAL SERVICE AREA

The Geographical Service Area section must outline the impact of a new school opening within the current public education system.

Evaluation Criteria:

A response that meets the standard will present:

- The specific geographical area that would be served by the charter school; and
- Information on the school districts likely to be affected by charter school, including data on the expected number of students to transfer to the charter school.

Meets the Standard**C-10: ANNUAL PROGRESS REPORTS**

The Annual Progress Reports section should define how the academic progress of individual students and the school as a whole will be measured, analyzed, and reported.

Evaluation Criteria:

A response that meets the standard will present:

- A timeline for data compilation and completion of an annual report to parents, the community and the Charter Authorizing Panel that outlines the school's progress; and
- A plan for dissemination of the annual report to appropriate stakeholders.

Meets the Standard**C-11: ENROLLMENT CRITERIA AND PROCEDURES**

The Enrollment Criteria and Procedures section should describe how the school will attract and enroll its student body, including any criteria for admission and enrollment. Applicants must also provide assurances for a random, anonymous lottery selection process.

Evaluation Criteria:

A response that meets the standard will present:

- A student recruitment plan that will provide equal opportunity for all parents and students to learn about and apply to the school;
An enrollment and admissions process that is open, fair, and in accordance with applicable law; and
- A process for, and a guarantee of, a random, anonymous lottery process should there be more student applications than can be accommodated under the terms of the charter.

Partially Meets the Standard**Concerns and Additional Questions:**

- Confirm that the school will be open-enrollment, that all Arkansas students are eligible to apply, and that the charter will accommodate any student who applies.

Young Adult Magic Johnson Bridgescape Academy will be an open-enrollment charter school. All Arkansas students are eligible to apply and the charter will accommodate any student who applies. Admission to the school will not be unlawfully restricted on the basis of intellectual ability, measures of achievement or aptitude, athletic ability, gender, disability, race, creed, national origin, religion, or any other ground that would be unlawful.

- Explain how students who do not have access to a computer will enroll if it is a requirement to enroll online.

If a student does not have access to a computer, a student may meet with the Enrollment Coordinator in-person or call an Enrollment Specialist. It is not a requirement that students enroll online, although students can also find information about the school and the enrollment process on the website. Students will have the opportunity to meet with an Enrollment Coordinator at events or at a designated site to learn more about the program and to complete the enrollment process. Students can also call an Enrollment Specialist at the Enrollment Contact Center in Knoxville, TN. The Enrollment Specialists are trained on program specifics and can provide information about the enrollment process and provide support for completion of the process.

- Explain what is meant by, “any other official documents needed to hand off the student's application to the school for review.”

The following chart details the documents needed for enrollment.

| Document or Policy Form | Required | Copy Document and Submit | Sign Policy Form, Copy and Submit |
|---|----------|--------------------------|-----------------------------------|
| Student Enrollment Agreement | X | | x |
| Request for Records | X | | x |
| Student Service Intake Form | X | | x |
| Image and Recording Release | X | | x |
| Home Language Survey | X | | x |
| FERPA Consent Form | X | | x |
| Family Income Form or NSLP form | X | | x |
| Student Birth Certificate or Triand | X | X | |
| Proof of Residency (Triand, utility bill, mortgage or lease that has current date and matches address given on enrollment application.) | X | X | |
| Student Immunization Record | X | X | |
| Current progress report, unofficial transcript, report card or Triand | X | X | |
| | | | |
| Required only if applicable to student: | | | |
| Copy of (unexpired) IEP (Individualized Education Plan) and Evaluation Report | | X | |
| Copy of (unexpired) 504 Accommodation Plan | | X | |
| Copy of guardianship/custodial papers | | X | |

- Explain the enrollment process that the “Charter School will hold” after receiving enrollment information.

The Enrollment Coordinator for the Young Adult Magic Johnson Bridgescape Academy will coordinate the enrollment of each student. The Enrollment Coordinator and/or Student Recruiters will be trained on how to enroll a student and will meet with the student at a central location to work through the enrollment process. Necessary documents like a student’s birth certificate will be obtained during the process and follow-up with each potential student will be made until their enrollment is completed and all required documents have been received.

In the event, the number of applications exceeds the number of available seats in the program, a lottery drawing will be held and students not drawn in the initial lottery will have their names placed on a waitlist. As openings in the program become available, students will be contacted by school staff regarding available spots.

Once all documents are received and the student is enrolled, the creation of the IGP will begin. This process is described in more detail in response to the following questions.

- Explain what academic assessment will be administered to new students to assess basic skills.

Upon enrollment in the school, students will take a reading assessment (Achieve 3000) in order to determine any skill gaps that may be barriers to success. Once identified, students will be prescribed a remediation track to address specific needs. In EdisonLearning’ experience working with this specific population of students, reading is the primary challenge and students basic reading skills improve, their success in eCourses improve.

- Explain the process for developing an individual graduation plan (IGP) and identify all who are involved in the development of the plan.

At Young Adult Magic Johnson Bridgescape Academy, differentiating program and instructional needs begins at the time of enrollment when students complete an initial assessment to determine any skill gaps that may be barriers to success. Once gaps are identified, students will be prescribed a reading and/or math remediation track to address specific needs. All historical data (*i.e.*, transcripts, IEPs, state assessment results) and any other available records and data will be reviewed by the teachers and staff who will collaborate with the student and parent or guardian (if available) to create the student’s IGP.

Teachers and staff will regularly monitor progress of their students according to the IGP on about a weekly basis and adjust any expectations or conduct conferences to determine interventions and remediation that may be needed to keep the student on track to graduate. The IGP is the roadmap that leads to a diploma and is intended to be a prescriptive yet fluid document, regularly revised and updated based on student progress and needs.

C-12: STAFFING PLAN

The Staffing Plan section should describe the job duties of the school director and other key personnel. This section should also describe the professional qualifications which will be required of employees.

Evaluation Criteria:

A response that meets the standard will present:

- A job description for the school director and other key personnel, including but not limited to an operations director, board members, teachers, etc.;

- An outline of the professional qualifications required for administrators, teachers, counselors, etc.;
- A staffing plan that clearly outlines both the types and numbers of positions to be filled at the school and salary scales for such positions, and
- The staffing plan presented in this section matches the staff members noted in the budget.

Partially Meets the Standard

Concerns and Additional Questions:

- Explain how the positions of Program Director and Director of Achievement are regional positions. Describe the region served.

As mentioned above, the Program Director and the Director of Achievement are EdisonLearning employees. The Program Director will be a dedicated FTE for the Academy. The Director of Achievement will be a regional position serving more than one Academy (as indicated in the budget for the Young Adult Magic Johnson Bridgescape Academy, the Director of Achievement is 0.125 FTE). Whereas the Program Director is the instructional and operational leader of the Academy day-to-day, the Director of Achievement ensures fidelity to the Magic Johnson Bridgescape model with a focus on student achievement and success.

- Explain if the Program Director and Director of Achievement will be employees of Edison. If they are Edison employees, explain why salaries are budgeted for the positions separate from management fees.

Both the Program Director and the Director of Achievement will be employees of EdisonLearning; however, their salaries are itemized in the budget to help recognize the costs for personnel.

- Provide the qualifications that are required for the following positions:
 - Director of Achievement;
 - School Operations Manager;
 - Program Director;
 - Special education teacher (must be licensed in special education);
 - Paraprofessional;
 - Guidance counselor
 - Enrollment coordinator; and
 - Office manager.

Attached, please find the job descriptions, including qualifications, for the above mentioned positions.

- Provide the line in the budget that reflects the office manager position.

The Office Manager is included in the budget under Maintenance and Operation, line 74.

C-13: BUSINESS AND BUDGETING PLAN

The Business and Budgeting Plan section should describe how the charter school will organize its business office and manage its fiscal responsibilities.

Evaluation Criteria:

A response that meets the standard will present:

- An appropriate plan for managing procurement activities;
- A description of the personnel who will perform business duties, including the requisite qualifications of any proposed personnel;

- A realistic timeline and process by which the governance structure will review and adopt an annual budget;
- A balanced two-year budget estimate that accurately reflects the revenue currently available to the school and expenditures for program implementation and does not rely on one-time grants or other funds that are not presently guaranteed, and
- A budget that includes costs for all personnel, programs, and expenses described in other sections of the application.

Partially Meets the Standard

Concerns and Additional Questions:

- It is stated that the budget does not include funds that are not presently guaranteed, but revenue for Title I and IDEA are included in the budget. This revenue should be removed from the budget.

This revenue has been removed from the attached revised budget.

- Explain how the management fee of \$100,000 per year was determined.

The \$100,000 management fee was determined by OCBA, Inc. and EdisonLearning based on the following reasoning.

Typically, for the management of a charter school such as Young Adult Magic Johnson Bridgescape Academy, EdisonLearning charges a flat fee of \$250,000 per year. In developing the budget for the 2013 Application, it was clear that for Year 1 and Year 2, the revenue would not support this flat fee; therefore OCBA and EdisonLearning decided to reduce the management fee to \$100,000 with the understanding that once the Academy has been established, the management fee may be increased to the original amount.

- Explain how it is appropriate for budget in the charter application for the Young Adult Magic Johnson Bridgescape Academy of Crittenden County to be identical to budget included in this application.

It is appropriate that the budgets for the two Young Adult Magic Johnson Bridgescape Academies are identical as the applications propose the same program, the same population of students, the same staffing model, etc. It should be noted, however, that this is just a proposed budget and that based on certain factors (e.g., facility rental and staffing costs), the actual budgets may differ.

C-14: FINANCIAL AND PROGRAMMATIC AUDIT PLAN

The Financial and Programmatic Audit Plan section should provide the procedure and timeline by which an annual audit will be conducted. This section should also include an outline for the information that will need to be reported to ADE and the community.

Evaluation Criteria:

A response that meets the standard will present:

- A sound plan for annually auditing school's financial and programmatic operations.
If the application names an accountant other than the Division of Legislative Audit to perform the first-year audit, the named accountant meets the requirements of Arkansas Department of Education Rules Governing Publicly Funded Educational Institution Audit Requirements and is not listed on any ineligibility list maintained by ADE or the Division of Legislative Audit.

Partially Meets the Standard - MEETS THE STANDARD (BASED ON RESPONSE)

Concerns and Additional Questions:

- Provide the procedures and timeline by which the annual audit will be conducted.

The annual audit will be scheduled each year by year's end (June 30th). If the charter for the Young Adult Magic Johnson Bridgescape Academy is approved, the school will utilize the Arkansas School Board Association's model policy program and adopt an audit plan policy similar to the Arkansas School Board Association's Policy 1.18 School Audit. A draft of a model policy is included below:

1.18—SCHOOL AUDIT

The School's annual audit serves as an important opportunity for the School's Board to review the fiscal operations and health of the district. As such, it is vital Board members receive sufficient explanation of each audit report to enable the members to understand the report's findings and help them better understand the school's fiscal operations. The school shall have an audit conducted annually within the timelines prescribed by law. The audit shall be conducted by the Division of Legislative Audit or through the audit services of a private certified public accountant(s) approved by the Board.

The Board shall review each annual audit at the first regularly scheduled board meeting following the receipt of the audit if the District received the audit prior to ten (10) days before the regularly scheduled meeting. If the audit report is received less than ten (10) days prior to a regularly scheduled board meeting, the board may review the report at the next regularly scheduled board meeting following the ten (10) day period.

The Director of Achievement and/or Program Director shall present sufficient supporting background information relating to the report's findings and recommendations which will enable the Board to direct the Director of Achievement or Program Director take appropriate action in the form of a motion or motions relating to each finding and recommendation contained in the audit report. Actions to be taken will be in sufficient detail to enable the Board to monitor the School's progress in addressing substantial findings and recommendations and subsequently determine that they have been corrected. The minutes of the Board's meeting shall document the review of the audit's findings and recommendations along with any motions made by the Board or actions directed to be taken by the Director of Achievement or designee.

The Board of Directors is responsible for presenting the audit's findings each year to the public.

Legal References: A.C.A. § 6-1-101(d)(1)(2)(3)
A.C.A. § 6-13-620(6)(F)

C-15: ARKANSAS PUBLIC SCHOOL COMPUTER NETWORK ASSURANCES

The Arkansas Public School Computer Network (APSCN) Assurances section should provide documentation of the applicant's understanding of and participation in the required state finance and educational data reporting system.

Evaluation Criteria:

A response that meets the standard will present:

- Assurance that the charter school will participate in APSCN and will comply with all state statutory requirements regarding the APSCN finance and educational data reporting system.

Meets the Standard

C-16: FACILITIES

The Facilities section should identify and describe the facilities to be used by the school, any changes to be made to the facilities, and the owners of the facilities.

Evaluation Criteria:

A response that meets the standard will present:

- An identified facility appropriate to meet the needs of the school over the term of its charter;
- A realistic plan for remodeling or adapting a facility, if necessary, to ensure that it is appropriate and adequate for the school's program, the school's targeted population, and the public;
- Evidence that the school understands the costs of securing and improving a facility and has access to the necessary resources to fund the facility plan; and
- A sound plan for continued operation, maintenance, and repair of the facility.

For schools that will be using district-owned facilities, a response that meets the standard will present:

- Documentation that the school district and charter school officials are in agreement over the use of the facility and its equipment.

For schools that will NOT be using district-owned facilities, a response that meets the standard will present:

- Documentation that the property owner and school are in agreement over the use of the facility and its equipment;
- A statement of the facilities' compliance with applicable codes; and
- A detailed outline of any relationships between the property owner and:
 - Members of the local board of the public school district where the charter school will be located;
 - The employees of the public school district where the charter school will be located;
 - The sponsor of the charter school; and
 - Employees, directors and/or administrators of the charter school.

Partially Meets the Standard**Concerns and Additional Questions:**

- Confirm the understanding that the charter is responsible for all compliance with federal, state, and local facility laws and ordinances and that ADE does not inspect the facility.

Young Adult Magic Johnson Bridgescape Academy understands that it is responsible for compliance with all federal, state, and local facility laws and ordinances. Young Adult Magic Johnson Bridgescape Academy also understands that the ADE do not inspect the facility.

- Provide the permissible uses for the location from the local zoning authority.

The location for the school in Mississippi County is on farm land near I-55 in Osceola. A signed note from Scott Creecy, the zoning and code enforcement officer, is attached. Mr. Creecy states, "According to the Osceola Zoning Map, the undeveloped lands west from the Holthouse Farm house and driveway and east of the Plum Point subdivision road is currently zoned as C-3, which is Highway Commercial. This area is currently approved for the construction of new schools as well as new stadiums and, or arenas."

C-17: CONFLICTS OF INTEREST

The Conflicts of Interest section should identify any potential conflicts of interest among the individuals involved with the proposed charter school and explain how conflicts will be addressed.

Evaluation Criteria:

A response that meets the standard will present full disclosure of any potential conflicts of interest and explain how conflicts, if any, will be addressed.

Partially Meets the Standard

Concerns and Additional Questions:

- **Provide the names of all members of OCBA, Inc.**

The names of all members of OCBA, Inc. are as follows: Tracy Adams, BJ Bowles, Beau Butler, Teresa Coburn, Ray Fulmer, Sharon Nesbitt, Don Wilson, Lance Wilson, Mary Ann Wilson, Miller Wilson, Ralph Wilson, and Sally Wilson.

- **Explain the relationship between Anita Farley-Adams and Tracy Adams.**

Anita Farley-Adams and Tracy Adams were previously married and are now divorced.

- **Explain the conflict of interest policy for school employees.**

If the charter for the Young Adult Magic Johnson Bridgescape Academy is approved, the Academy will utilize the Arkansas School Board Association's model policy program and adopt an employee conflict of interest policy similar to the Arkansas School Board Association's Policy 3.54 Licensed Personnel Ethics. Below is a draft of the model policy.

DRAFT 3.54—LICENSED PERSONNEL ETHICS

Public school employees are, and always have been, held to a high standard of behavior. Staff members are reminded that whether specific sorts of contacts are permitted or not specifically forbidden by policy, they will be held to a high standard of conduct in all their interactions with students and adults. Failure to create, enforce and maintain appropriate professional and interpersonal boundaries with students could adversely affect the school's relationship with the community and jeopardize the employee's employment with the district. The Arkansas Department of Education Rules Governing the Code of Ethics for Arkansas Educators requires school staff to maintain a professional relationship with each student, both in and outside the classroom. The Board of Education encourages all staff to read and become familiar with these rules. Conduct in violation of the Rules Governing the Code of Ethics for Arkansas Educators may be reported to the Professional License Standards Board (PLSB) and may form the basis for disciplinary action up to and including termination.

LEGAL COMMENT

Provide a copy of the conflict of interest policies for OCBA and Magic Johnson Bridgescape/Edison Learning. The procedures must ensure that all actions are in the best interest of the school and students at the school.

OCBA, Inc. approved a Conflict of Interest policy in 2007. This policy was included in the application package to the IRS when the tax-exempt non-profit status was awarded to OCBA, Inc. The Conflict of Interest policy is posted on the non-profit's website, (www.ocbainc.com/uploads/6/7/3/8/6738253/bylaws__2011_2.pdf) (see pages 12-14). A copy of this policy is also attached.

Furthermore, if the charter for the Young Adult Magic Johnson Bridgescape is approved, the school will utilize the Arkansas School Board Association's model policy program and adopt a Board Conflict of Interest policy similar to the Arkansas School Board Association's Policy 1.17 Nepotism. A draft policy of the model policy is below.

All the actions of OCBA and EdisonLearning are in the best interest of the Academy and students at the Young Adult Magic Johnson Bridgescape Academy.

As OCBA's management organization and curriculum provider, EdisonLearning will not have a separate conflict of interest policy, but will according to the management agreement, act in the best interest of the school and its students.

DRAFT 1.17—NEPOTISM

Definitions: Family or family member means: An individual's spouse; Children of the individual or children of the individual's spouse; The spouse of a child of the individual or the spouse of a child of the individual's spouse; Parents of the individual or parents of the individual's spouse; Brothers and sisters of the individual or brothers and sisters of the individual's spouse; Anyone living or residing in the same residence or household with the individual or in the same residence or household with the individual's spouse; or Anyone acting or serving as an agent of the individual or acting or serving as an agent of the individual's spouse.

Initially employed means: Employed in either an interim or permanent position for the first time or following a severance in employment with the school; A change in the terms and conditions of an existing contract, excluding; Renewal of a teacher contract under A.C.A. § 6-17-1506; Renewal of a noncertified employee's contract that is required by law; or Movement of an employee on the salary schedule which does not require board action.

New Hire of School Board Member's Relative as School Employee

The school shall not initially employ a present board member's family member for compensation in excess of \$5,000 unless the district has received approval from the Commissioner of the Department of Education. The employment of a present board member's family member shall only be made in unusual and limited circumstances. The authority to make the determination of what qualifies as "unusual and limited circumstances" rests with the Commissioner of the Department of Education whose approval is required before the employment contract is effective, valid, or enforceable.

Initial employment for a sum of less than \$5,000 per employment contract or, in the absence of an employment contract, calendar year does not come under the purview of this policy and is permitted.

The board member whose family member is proposed for an employment contract, regardless of the dollar amount of the contract, shall leave the meeting until the voting on the issue is concluded and the absent member shall not be counted as having voted.

Exception: Substitutes

Qualified family members of board members may be employed by the school as substitute teachers, substitute cafeteria workers, or substitute bus drivers for a period of time not to exceed thirty (30) days per fiscal year. A family member of a school board member having worked as a substitute for the school in the past does not "grandfather" the substitute. The 30 day maximum limit is applied in all cases.

Existing Employees Who Are Family Members of School Board Members—Raises, Promotions or Changes in Compensation

Any change in the terms or conditions of an employment contract including length of contract, a promotion, or a change in the employment status of a present board member's family member

that would result in an increase in compensation of an amount that is equal to or greater than that provided for by law, and that is not part of a state mandated salary increase for the employee in question, must be approved by the Commissioner of the Department of Education before such changes in the employment status is effective, valid, or enforceable.

Qualifications for Running for School Board Member Unchanged

The employment status of a citizen's family member does not affect that citizen's ability to run for, and, if elected, serve the school board provided he/she meets all other statutory eligibility requirements.

Legal Reference: A.C.A. § 6-24-102, 105

C18: FOOD SERVICES

This section should describe how the school will address food services for its student body.

Evaluation Criteria:

A response that meets the standard will present:

- A food service plan that will serve all eligible students.
- A management plan that reflects a clear understanding of federal law and requirements if the charter school plans to participate in the National School Lunch program.

Partially Meets the Standard - MEETS THE STANDARD (BASED ON RESPONSE)

Concerns and Additional Questions:

- Confirm that the charter will follow federal procurement regulations 7 CFR 3016 and 3019 with regard to procurement of a food service vendor/management company using open and free competition.

Young Adult Magic Johnson Bridgescape Academy will follow federal procurement regulations 7 CFR 3016 and 3019 with regard to procurement of a food service vendor/management company using open and free competition.

- Confirm the understanding that the information provided is not a comprehensive food service management plan.

Young Adult Magic Johnson Bridgescape Academy understand that the information provided in the 2013 Application for Open Enrollment Charter School is not a comprehensive food service management plan.

- Remove the references to §20-7-124 and §20-7-135 as these statutes do not apply to food service management plans.

As §20-7-124 and §20-7-135 do not apply to food services management plans, these reference are removed.

- Explain how the charter will make provisions for food services and procure a food service management company.

After further research, it may be more practical for the Young Adult Magic Johnson Bridgescape Academy to contract with a food vendor who can provide meals that meet the meal pattern and caloric level requirements at a fixed price. The school will follow federal procurement regulations 7 CFR 3016 and 3019 with regard to procurement of a food service vendor using open and free competition. Plus, when selecting a vendor, the school will look at vendor menus and consider quality and price. The school will hire staff to handle the meals and will attend the all day Child Nutrition training in May. The

salary for child nutrition staff and the line item for the food vendor are included in the attached, revised budget.

C19: PARENTAL INVOLVEMENT

The Parental Involvement section should describe how parents or guardians of enrolled students, the school employees, and other members of the community will make a positive impact on the school and its educational program.

Evaluation Criteria:

A response that meets the standard will present:

- A plan for involving parents and guardians in the school's education programs; and
- A proposal that involves the parents of students, employees and the broader community in carrying out the terms of the charter.

Partially Meets the Standard - MEETS THE STANDARD (BASED ON RESPONSE)

Concerns and Additional Questions:

- Explain the ways in which parents, staff, and community will be involved in making decisions about the school.

The attached draft Parent Involvement Action Plan outlines the involvement of parents, staff and community in the decision-making of the Young Adult Magic Johnson Bridgescape Academy.

Additionally, all parents, staff, adult-age students and supportive citizens are encouraged to join OCBA. Also a local Advisory Committee of parents, staff, students and community volunteers will be appointed by the Program Director to support the school and the OCBA Board. Though the group will not have governing power, the Board will consider suggestions from the Advisory Committee.

Finally, a policy similar to the draft included below will be adopted

PARENTAL INVOLVEMENT POLICY

Even though the Young Adult Magic Johnson Bridgescape Academy targets adult for enrollment, the school realizes that some underage students will be enrolled. That being the case, the school encourages parental involvement in all facets of the underage students' education. The following is brief summary of the school's Parental Involvement Plan. If you have any questions about these district goals, please contact (*name of parent coordinator*), Program Director at (870) 555-5555. The School will foster effective parental involvement strategies and support partnerships among school, parents, and the community to improve student achievement. The School will provide coordination, assistance, and support necessary to assist schools in planning and implementing effective parental involvement. The School will build the capacity in each of its schools for strong parental involvement. The School will partner with parents to conduct ongoing evaluation of the content and effectiveness of parental involvement initiatives so as to increase parental participation. The School will involve parents in the joint development of the district Title I application under section 1112 (Arkansas Comprehensive School Improvement Plan).

- Describe the workforce solutions that will be provided by Magic Johnson Enterprises. As described in the application, through the Young Adult Magic Johnson Bridgescape Academy, students

will have access to job readiness and mentorship resources to assist in career preparation and post-secondary planning. The program will partner with local businesses, civic organizations, and non-profits to create career platforms for students, providing workplace exposure and training and Magic Johnson Enterprises will leverage its other businesses and local partnerships to help identify internships and job opportunities for graduates.

Magic Johnson Enterprises has also developed a Career Development Rubric and a robust Career Exploration/Job Readiness course with a comprehensive and clearly defined scope and sequence. The course is comprised of 39 lessons. Below are some sample topics:

- Careers Available to Individuals with High School Diplomas
- Careers Available to Individuals with Two-Year Associate Degrees
- Careers Available to Individuals with Bachelor's Degrees
- Education Level and Earning Potential
- Which Industries Are Growing and Which Jobs Will Be Available When I Graduate
- Essential Professional Skills: Teamwork and Interpersonal Interactions
- Essential Professional Skills: Planning, Organizing, and Managing Multiple Priorities
- Essential Personal Attributes: Responsibility and Reliability
- Business Etiquette

• Name the businesses in Mississippi County that are partners with Magic Johnson Enterprises.

As mentioned above, at this time, Young Adult Magic Johnson Bridgescape Academy does not have any partnerships established with Mississippi County businesses and social organizations; however, once approved the Academy will form partnerships with local businesses and organizations leveraging Magic Johnson Enterprises large network of community organizations and corporate relationships.

Magic Johnson Bridgescape has been successful in identifying the necessary community partners to create a network of external social agencies to provide the needed resources and services for the students. For example, in the metropolitan Columbus area, the Academy has partnered with the Youth Empowerment, Mothers Helping Mothers, Franklin County Children Services, the Ohio Department of Youth Services, Ohio Health, and the American Red Cross.

More recently, Magic Johnson launched a new organization, Friends of Magic, which is a network of individuals, foundations and companies whose mission is to provide Magic Johnson Bridgescape Academy students who are at risk or have dropped out the resources and assistance they need to not only graduate high school, but the opportunity to build their future through educational resources, internships and real world experiences. This organization was launched in Chicago to support the two Academies that opened in the fall.

Members of Friends of Magic reflect the unique business and community landscape of the surrounding area of the Magic Johnson Bridgescape Academy and are selected on a national level to support program expansion and awareness. The primary purpose of Friends of Magic is to serve as a community and business extension of the Magic Johnson Bridgescape Academy, provide vital resources to support the growth and expansion of Magic Johnson Bridgescape, ensure that each academy has the support it needs to enhance the success of every student and to support the individual career development path of each student through internship opportunities, mentoring, and educational field experiences.

C-20: WAIVERS

The Waivers section should discuss all waivers requested from local or state law.

Evaluation Criteria:

A response that meets the standard will present:

- Each law, rule, and standard by title, number, and description for which a waiver is requested;
- A rationale for each waiver request; and
- An explanation of the way that each waiver would assist in implementing the educational program of the charter and/or fulfilling the charter's mission.

Partially Meets the Standard - DOES NOT MEET THE STANDARD (BASED ON RESPONSE)

Concerns and Additional Questions:

Legal Comments

Generally:

Brief, but specific rationale other than "the school requests a waiver" for each waiver should be included.

Requested Waivers:

- **Ark. Code Ann. § 6-15-902(c)(3)(B) Weighted Concurrent Credit**
 - The applicant should explain why a waiver from the ADE approval process for weighted credit for concurrent credit classes is necessary.
 - Upon re-reviewing this statute, a waiver is not requested.
- **Ark. Code Ann. § 6-16-102 School Day Hours**
 - The applicant should explain why this waiver is necessary including how many hours each student will attend each day and how the applicant intends to track attendance when students complete some coursework remotely.
 - This waiver is necessary to implement the flexible, Magic Johnson Bridgescape model. This Academy is designed for students who have either at-risk of dropping out of school or who have dropped out already, so the model is built around providing flexibility to students while still engaging them in the learning process. There will be two four-hour sessions each day (a morning session and an afternoon session) and each student will attend one four-hour session each day at the brick and mortar facility, a blended learning environment where student will work on their online coursework and receive direct instruction from teachers. Only if a student has demonstrated engagement in the learning process can the student access the coursework outside of the brick & mortar facility and then only if they are also attending one session per school day. In other words, coursework completed remotely is not a substitute for coursework completed onsite. If necessary, attendance online can be tracked using EdisonLearning's eSchoolware system which tracks log-ins and time on task.
- **Ark. Code Ann. § 6-18-211 Mandatory Attendance Grades 9-12**
 - The applicant should explain how many hours each student will attend each day and how the applicant intends to track attendance.
 - This waiver is necessary to implement the Magic Johnson Bridgescape model. Each student will attend one four-hour session each day. Attendance will be tracked based on actual physical attendance at the Young Adult Magic Johnson Bridgescape Academy.
- **Ark. Code Ann. § 6-18-223 and ADE Rules Governing Concurrent Credit**
 - The applicant should explain why this waiver is necessary. The concurrent credit program is an optional program available to all public high schools that wish to participate. Schools who participate in the concurrent credit program are required to follow the ADE Rules Governing Concurrent College and High School Credit for Students Who Have Completed the Eighth Grade.
 - Upon re-reviewing this statute, a waiver is not requested.

- **Ark. Code Ann. § 6-24-106 Administrators**
 - The applicant should explain why this waiver is necessary. This statute deals with ethical obligations for administrators who have direct or indirect interests in transactions with the public educational entity employing him or her. Traditionally, ethical obligations are not waived.
 - Upon re-reviewing this statute, a waiver is not requested.
- **Ark. Code Ann. § 6-47-406 Distance Learning**
 - The applicant should explain why this waiver is necessary. This statute is a permissive statute for public schools to offer distance learning courses to private and home school students. The applicant is required to accept students for enrollment regardless of the district where the student resides. If the applicant is proposing an entirely virtual school, the application should reflect its virtual nature throughout.
 - Upon re-reviewing this statute, a waiver is not requested. Young Adult Magic Johnson Bridgescape Academy is not a full-time virtual school, but rather a blended learning school where students work on online coursework and with direct instruction at a physical location with the teacher.
- **ADE Rules Governing Distance Learning**
 - The applicant should explain why this waiver is necessary.
 - Upon re-reviewing these rules and the emergency rules, a waiver is not requested. However, it should be noted that the Young Adult Magic Johnson Bridgescape offers online coursework in a blended learning environment, i.e., students complete their coursework onsite with supplemental direct instruction from a teacher on the campus.
- **38 Units**
 - The applicant should clarify whether the required 38 units will be offered.
 - The Young Adult Magic Johnson Bridgescape Academy requests to not teach the required 38 units annually. First, the courses that students are enrolled in will depend on their Individual Graduation Plan and the coursework that they have already completed. Second, EdisonLearning does not currently offer all 38 units; specifically EdisonLearning catalog does not currently offer the following courses: a full unit of oral communication, 1 unit journalism, 1 unit of art, 1 unit of instrumental music, 1 unit of vocal music, 9 units of Career and Technical Education or Advanced Placement core courses.
- **Standards for Accreditation 10.01.2 190 Days Teacher/Administrator Contracts**
 - The applicant should explain its staffing plan for part-time and adjunct teachers.
 - Upon re-reviewing this statute, a waiver is not requested.
- **Standards for Accreditation 10.02 Class Size and Teaching Load**
 - The applicant should explain its why this waiver is necessary. Typically, a waiver for class size and teaching load is only granted if the applicant proposes a specific alternative maximum teacher-student ratio.
 - Due to the flexible nature, individualized instructional path, and open classroom design of the Young Adult Magic Johnson Bridgescape Academy, one teacher may oversee more students than this standard allows. For example, some of the instructional staff may be overseeing the majority of students in the main learning lab, while other members of the instructional staff are providing individual or small group instruction. However, the overall teacher to student ratio proposed in the application is much lower than this 1:13 (7.75 instructional staff to 100 students)

- **Standards for Accreditation 14.03 Graduation Requirements**
 - The authorizer lacks authority to grant a waiver for graduation requirements.
 - Upon re-reviewing this statute, a waiver is not requested.
- **Standards for Accreditation 16.01.3 Guidance and Counseling**
 - The applicant should confirm that it will comply with all other statutes and rules governing guidance counseling other than assigning an appropriately certified counselor for every 450 students.
 - The Academy confirms that it will comply with all other statutes and rules covering guidance counseling other than assigning an appropriately certified counselor for every 450 students.
- **Standards for Accreditation 16.03.1 and 16.03.2 Health and Safety Services**
 - The applicant should explain why this waiver is necessary if it intends to provide a health services program through a contracted provider. The applicant did not budget any expenditures for health services.
 - The Academy requests the waiver of employing a licensed nurse. The school will provide daily health services through trained staff on-site, will have a health station on-site and budgeted for equipment in the attached proposed budget on Line 123. The school will utilize local or regional health agencies for health services required by ADE for high school students, such as vision screening and budgeted for the services in the attached proposed budget on Line 124.
- **Standards for Accreditation 21 Auxiliary Services**
 - Based on the application, it does not appear this waiver is necessary.
 - Unless required in a specific student's IEP, the Young Adult Magic Johnson Bridgescape Academy does not intend to offer transportation services.

Waivers Not Requested:

- **ADE Rules Governing the Superintendent Mentoring Program**
 - The applicant requested a waiver of Ark. Code Ann. § 6-17-427. In order to effectuate this waiver, the applicant must request a waiver of the accompanying rules.
 - As the Program Director will be the instructional and operational leader, a waiver is requested from these rules.
- **ADE Rules Governing Educator Licensure**
 - It appears the applicant is requesting a waiver of teacher and administrator licensure. In order to effectuate this waiver, the applicant must request a waiver of these rules.
 - A waiver is requested from the ADE Rules Governing Educator Licensure. But the Academy will use highly qualified teachers as determined by federal requirements.
- **Alternative Learning Environments**
 - The applicant requested a waiver of Ark. Code Ann. § 6-48-101 et. seq. In order to effectuate this waiver, the applicant should also request a waiver of Ark. Code Ann. § 6-15-1005(b)(5) and Section 4.00 of the ADE Rules Governing the Distribution of Student Special Needs Funding.
 - Upon re-reviewing this statute, a waiver is not requested for Ark. Code Ann. § 6-48-101 et. seq. and Ark. Code Ann. § 6-15-1005(b)(5). But the Academy requests waivers from following subsections in Section 4.00, ADE Rules Governing the Distribution of Student Special Needs Funding.
 - The Academy has already requested a waiver for Teacher licensure. Using the same rationale, the Academy also requests a waiver for 4.02.1.2 teacher licensure for ALE. The Academy will use highly qualified teachers in ALE as required by federal requirements.
 - The Academy has already requested a waiver for 10.02-Class size/teaching load in traditional

- classes. The Academy also requests a waiver for 4.02.1.4 Student/teacher ratio.
- The Academy has already requested a waiver for Ark. Code Ann. § 6-16-102 School Day Hours School day. Along the same rationale, the Academy requests a waiver for the part of 4.03.3 that gives the formula for the ALE day as the number of hours taught in an eligible ALE each day “divided by 6 hours.” We wish for the formula to be “divided by 4 hours”.
- The rule seems to limit ALE funding to courses taught only through direct instruction. If so, the Young Adult Magic Johnson Bridgescape Academy wishes to be able to fund our ALE students in our blended learning environment.
- **Gifted and Talented**
 - The application requested a waiver of the Gifted and Talented Program Approval Standards and Section 18.0 of the Standards for Accreditation. In order to effectuate this waiver, the applicant should also request a waiver of Ark. Code Ann. § 6-42-101 et seq.
 - To effectuate the waiver from Gifted and Talented Program Approval Standards, a waiver is requested from Ark. Code Ann. § 6-42-101 et seq.
- **Media Services**
 - The applicant requested a waiver of Section 16.02 of the Standards for Accreditation. In order to effectuate a waiver of library media services, the applicant should request a waiver of Ark. Code Ann. § 6-25-103 and 104.
 - To effectuate the waiver of Section 16.02 of the Standards for Accreditation, a waiver is requested from Ark. Code. Ann. § 6-25-103 and 104.

C-21: DESEGREGATION ASSURANCES

The Desegregation Assurances section should describe the applicant’s understanding of applicable statutory and regulatory obligations to create and maintain a unitary system of desegregated public schools.

Evaluation Criteria:

A response that meets the standard will present:

- Assurance that the charter school will comply with all applicable federal and state statutory and regulatory requirements regarding the creation and maintenance of desegregated public schools; and
- An outline of the potential impact of the proposed charter school on those desegregation efforts already in place in affected public school districts.

Partially Meets the Standard - MEETS THE STANDARD (BASED ON RESPONSE)

Concerns and Additional Questions:

Legal Comments

The applicant should describe any desegregation obligations of the affected public school district(s) and how the applicant determined it will not impact any court order or statutory obligations.

There are no desegregation obligations in the affected public school district(s), therefore there will be no court order or statutory obligations.

C-22: SUSTAINABILITY OF THE PROGRAM

The Sustainability section should describe the applicants’ plan to ensure continued success of the charter school over time.

Evaluation Criteria:

A response that meets the standard will present:

- The names, experience, and qualifications of the individuals responsible for the application; and

- The plan to ensure the sustainability of the charter in the future.

Partially Meets the Standard - MEETS THE STANDARD (BASED ON RESPONSE)

Concerns and Additional Questions:

- Provide details of the plan to ensure the sustainability of the charter in the future.

To ensure success for the Young Adult Magic Johnson Bridgescape Academy when others are in leadership roles, OCBA, Inc. is focusing its efforts and its partnership with EdisonLearning on two critical components: strong fiscal responsibility and increasing academic success. These two components will be negotiated in the management agreement to ensure that regardless of who is in the leadership role, the school is financially solvent and that students are continuing to excel and graduate from the Young Adult Magic Johnson Bridgescape Academy.

The OCBA Board will ultimately be responsible to ensure that the school is operationally and financially viable and as a result has spent significant time vetting its proposed educational partner and program. Both OCBA and EdisonLearning understand that building and sustaining a supportive relationship between the OCBA Board EdisonLearning’s Program Director is imperative for the ongoing success of the school both financially and academically. Accordingly, several steps will be taken to ensure all parties work together to provide effective and sound leadership including well-defined and understood roles and responsibilities, a fair evaluation system, and clear policies. The roles and responsibilities will be clearly articulated in the final negotiated management agreement. Steps that have been or will be taken to ensure sustainability of the school include:

- Preparation of the OCBA Board
 - The Board understands that they are serving at-risk students and have a passion for providing alternative opportunities for students in their communities to earn a high school diploma.
 - The Board collectively has a shared vision of what educational success will mean for the school and the students. This will allow for consistent academic oversight of the school.
 - The Board will also be diligent with financial oversight.
- Capacity and Composition of the OCBA Board
 - The Board is established and has been serving the community for years.
 - The Board is composed of members with diverse perspectives with the skills, time and experience necessary to oversee a successful school.
 - The Board members are objective.
 - The Board members have connections to and a deep understanding of the community they are planning on serving.
- Governance Structure aligned with best practices
- Clear delineation of the authority and duties of the OCBA Board, Program Director, and EdisonLearning
- Regularly reporting to the OCBA Board by EdisonLearning
- Accurate and timely budget development and monitoring process
- Continuous evaluation by the OCBA Board of the services provided by EdisonLearning

REQUIRED ATTACHMENTS

- Provide the daily schedule with specific courses for the Young Adult Magic Johnson Bridgescape Academy of Mississippi County.

The daily schedule depends on the individual student’s IGP and the courses that they need to graduate. Due to the flexible nature of the program, different students may be working on different courses at

different times. Additionally, a student may choose to focus time on one course over another. Combining the IGP and the flexibility provided in the blended learning environment, each student is working on their own coursework at their own pace; however, the students progress and pace is monitored by the instructional staff who provide individual and group instruction as necessary and ensure students are effectively moving towards completing the courses outlined in their IGP.

In lieu of a daily schedule with specific courses, below are examples of how students may utilize their time at the Academy.

For example, on Tuesday during the eCourses: Core Content time designated in the sample schedule from 10:00 to 11:30 in the first session:

- Student A may work on American Literature (English 11) for the full hour and a half.
- Student B may work on Algebra 1 for a full hour, then for the last half hour working with the teacher and a small group of students on key algebra concepts.
- Student C may work half the time working on Biology and half the time working on Geometry.

OTHER

Provide copies of the following documents referenced in the application:

- Newspaper articles written by reporter of *The Osceola Times*
- Signed attendance sheets from the public hearing
- The PowerPoint presentation used at the public hearing
- The agreement between OCBA and EdisonLearning for the Magic Johnson Bridgescape program
At this time, OCBA, Inc. and EdisonLearning have not entered into a formal agreement to establish the Young Adult Magic Johnson Bridgescape Academy. Upon approval of the charter by the Arkansas Department of Education, OCBA, Inc. and EdisonLearning will negotiate the management agreement. Attached is a sample agreement
- Graphs about shrinking graduating classes presented at public hearing
- A description of the Blended Learning Pedagogical Model for Magic Johnson Bridgescape Academies
- Samples of forms and policies pertaining to admission
- The purchasing and procurement policy
- The professional development plan
- The concurrent credit matrix- Since the school is requesting a waiver from being required to teach the 38 units, the waiver request involving the matrix for concurrent credit courses is withdraw and this matrix is no longer applicable.
- The EdisonLearning course catalog

ADDITIONAL ATTACHMENTS

- Parental Involvement Action Plan
- OCBA, Inc. Conflict of Interest Policy
- Revised Budget
- Job Descriptions
- Osceola Permissible Zoning Description

JOB DESCRIPTIONS

Director of Achievement

Role: Director of Achievement

Direct Reports: Program Directors

Job Summary:

The main responsibility of this position is managing the primary focus of student achievement in schools. The role also ensures excellence in service delivery of all EdisonLearning products by collaborating and partnering with district and charter school boards, driving consistently superior achievement gains and profitability within assigned sites. As required, this role will manage client relationships as well as the operational/financial/budgetary/legal management of the schools.

Main Responsibilities:

Achievement Management

- Monitor student achievement data to ensure students are performing highly
- Supervise, observe, evaluate and assess program managers and principals from an instruction, school culture and school operations perspective. This is done by visiting schools and attending leadership team meetings
- Work collaboratively with local district superintendents and assistant superintendents to leverage influence in supervision and evaluation of the principals in schools where the principal reports to the district.
- Formalize and execute customized professional development training modules specific to clientele and work closely with district officials to create a plan and set measurable goals for program implementation
- Support and monitor professional development plans of teachers
- Develop and annually adjust the school's support plans (mid-year for intensives); identify areas of focus and improvement for particular schools and codify how Edison will support schools to make improvements in these specific areas
- Develop, conduct and participate in all Edison Achievement Conferences (i.e. HQ Quarterly Meetings, Summer Institutes, Edison Leadership Development Academy, Instructional Leadership Conferences, Client Conferences)
- Prepare academic reports and attend board meetings in order to provide academic and financial updates on the sites. Ensure monthly academic and financial reports are submitted to headquarters. Prepare reports for specific school boards when requested
- Develop and facilitate regional principal & program managers meetings by putting together the agenda and providing professional development

- Demonstrated knowledge of budget management, finance, and operating procedures to support P & L of up to \$20 million

Program Director

Direct Reports: Teachers, Office Manager, Counselors, Paraprofessionals, Enrollment Coordinator

Job Summary:

The Program Director is responsible for providing the instructional, operational and administrative leadership necessary to ensure the success of the school including primary responsibility for achievement and financial performance. The Director is the overall leader of the school, with a dominant focus (estimated at 75% of time spent) on instructional leadership. The Director will be held accountable for the continuous improvement of the school and its staff and for increased student achievement.

Main Responsibilities:

Achievement Management

- Implement School Organizational Structure including culture, staffing, scheduling Ensure teachers receive appropriate and relevant training in curriculum, learning environment, and state requirements
- Implement and monitor student achievement (ecourse completions, consistent attendance rates, personal/social curriculum achievement, progress monitoring of individual graduation plans)
- Recruit, select and hire school staff (teachers and school-based support staff)
- Ensure effective implementation of student support systems
- Engage parents in a collaborative effort for implementing and planning of school programs (parent meetings)
- Complete and present the annual school progress report to EdisonLearning, district and/or charter board and school community
- Support and monitor PD plans of teachers and school support staff
- Supervise and evaluate staff to ensure quality instruction and student achievement

Financial Management

- Ensure revenue, enrollment and expense targets are met (profit and loss)
- Ensure facility and operational services are effective
- Steward of company assets

Relationship Management

- Build/maintain client relationships (i.e. Board leadership, superintendents, authorizers, community leadership, political leaders, etc.)
- Develop and maintain positive community and parent relationship

Compliance Management

- Oversee compliance to federal, state, local and contractual requirements

Facility Management

- Lead the day to day operations of the program to ensure students and teachers work in a environment that is safe, clean and conducive to learning.

Key Relationships:

Internal: Regional Vice President of Operations, Executive Director – Education Service Lead, Vice President of Center Operations and other EdisonLearning Support

External: EdisonLearning’s customers and constituency groups, Charter Boards and Districts, Parents

Key Behavioral Competencies:

- Uses different behaviors as necessary to achieve desired outcomes; able to amend own behavior to influence and gain acceptance
- Shift priorities to address changes in events or assigned goals
- Inspires groups of individuals to work together to achieve a common purpose; promotes a culture of open communication and respect
- Actively establishes and promotes best practices for EdisonLearning work processes and standards
- Analyzes reasons behind results, takes actions to address failures and seeks to improve outcomes
- Never accepts excuses for breaches of ethics, values or regulations and confronts potentially unethical behavior in others
- Develops and uses subtle strategies to influence others in order to achieve organization objectives; anticipates reactions and works hard to find common ground between stakeholders within opposing views
- Coaches employees and team members on ways to enhance their level of performance and develop their skills
- Encourages constructive feedback and a culture that provides opportunities for development. Attracts, assesses, develops, motivates and retains a diverse workforce that drives results
- Engages young adults in the learning process, promoting academic and life skill growth; provides a model for at-risk youth through EdisonLearning’s core values

Background:

- Master’s Degree in Curriculum and Instruction or Master’s Degree in a specialty area such as Secondary Education or Educational Administration & Supervision / Ed Leadership
- Minimum of 5 years teaching experience
- Minimum of 5 years experience in instructional leadership including at least two years as an assistant principal
- Administrative Certification
- Relevant experience with student population
- Knowledge of teacher evaluation and observation methods
- Knowledge of various instruction and teaching methodologies
- Excellent organizational, planning and implementation skills
- Proficiency in Microsoft Excel, PowerPoint, Word and Outlook

 - ≈ Bilingual in English and Spanish preferred; may be required in specified regions
 - ≈ Must possess a local Driver's License and a clear driving record
 - ≈ Proficiency with Microsoft Excel, Word, Outlook, PowerPoint and internet applications required
 - ≈ Proficiency with multimedia communication tools, such as discussion boards, webinars, email, instant messaging, digital photography preferred
-

Teacher

Reports to: Program Director
Direct Reports: Not Applicable

Job Summary:

As a member of a teaching team, the teacher will be responsible for facilitating student learning in an instructional technology learning environment and supplementing computer-based instruction with direct instruction as needed. He or she uses a variety of instructional methodologies and curriculum resources to teach content and skills to students in small- or pull-out group instruction. The teacher regularly meets with students to advise and plan for students' individual learning plans, providing coaching and mentoring in an advisory capacity.

The teacher works as a team member to meet the needs of all students. Because building relationships is a critical component of this learning environment, the team works together to identify student needs that may be barriers to success. Teachers collaborate with team members to analyze different means of meeting student needs and communicates with students, parents, and other team members about student progress and plan for next steps.

Main Responsibilities:

- ≈ Implement EdisonLearning, school and district policies and procedures;
- ≈ Work closely with teachers and other colleagues to develop and build teaching skills;
- ≈ Collaborate with colleagues on curriculum, student needs and assessment;
- ≈ Contribute to a culture of professionalism among team members;
- ≈ Monitor academic progress of students in their coursework
- ≈ Monitor student progress towards graduation
- ≈ Maintain ongoing communication with parents, staff, and community;
- ≈ Become proficient in the use of computer based instruction and software;
- ≈ Manage the learning environment and coach students as an advisor and mentor;

Key Behavioral Competencies:

- ≈ Generally asks relevant and insightful questions to establish facts
- ≈ Seeks to understand key decision making issues and characteristics when guided by others
- ≈ Shows increasing understanding of EdisonLearning work processes and standards
- ≈ Thinks to ask questions about actions required to produce expected results
- ≈ Expresses interest in taking on varied projects and tasks to develop new skills in most situations
- ≈ Develops and maintains positive working relationships with co-workers by being punctual, collaborative, and maintaining a pleasant work attitude
- ≈ Shows that understands accepted professional conduct within the EdisonLearning environment by acting honestly and openly and responding positively to any feedback on professional conduct
- ≈ Establishes appropriate and supportive relationships with students

Background:

- ≈ Bachelor of Arts or Bachelor of Science degree required
- ≈ Appropriate teacher certification required
- ≈ Minimum of 2 years of teaching experience required
- ≈ Evidence of educational experiences after college (fellowships, summer study, or graduate course work to pursue greater depth in a subject area, specific instructional methodology, curriculum development, special education, technology, etc.) preferred
- ≈ Evidence of working knowledge and comfort level with instructional technology
- ≈ Experience working with student population in some capacity preferred

Guidance Counselor

Reports to: Program Director

Direct Reports: N/A

Job Summary:

The Counselor is a critical member of the Comprehensive Support Team, championing the behavioral, social/emotional and mental health needs of students in support of student achievement across the program. They take a leadership role in providing professional development within the school to create a solid understanding of the psychosocial development of students and the influences of family, community, and cultural differences on student achievement. They are a crucial voice in determining, planning and supporting the implementation of interventions, particularly related to the behavioral/social/emotional issues of students. Within this unique and alternative setting, it is critical that specific student needs be identified and met early on in an effort to provide students a support system that is often lacking outside of this environment.

Main Responsibilities:

- Provide leadership as a standing member of the Comprehensive Support Team;
- Provide leadership as a standing member of the Learning Team;
- Evaluate program wide behavioral data to identify trends and promote universal, small group and individual responses;
- Conduct small-group or 1:1 intervention/counseling at Tier II and Tier III, in response to needs identified by the Comprehensive Support Team and or Individual Education Plans (IEPs);
- Evaluate student progress specific to behavioral, emotional, and mental health concerns and the effects on academic progress;
- Participate in conducting functional behavior assessments and developing, implementing and monitoring behavioral intervention plans for students identified in need;
- Assist parents/guardians in effectively participating in their child's education and strengthening their parenting skills;
- Engage parents/guardians as partners on behalf of their children through phone, email, notes, conferences, home visits, etc., both directly and by supporting the efforts of classroom teachers;
- Form a consortium of service providers to deliver a wide variety of services to the school community based on identified program and student needs;
- Act as point of contact for outside organizations working with students and their families to ensure coordination of services to best meet students' needs;
- Work in collaboration with the office staff to produce reports in order to analyze attendance trends and ensure appropriate action is taken as needed;
- Work directly with individual teachers, house teams, and families to ensure the timely attendance of every child;
- Work in collaboration with the special education team to coordinate services and communication with parents of students with special needs;
- Lead the crisis response team for students in critical need (e.g. suicide ideation, self-harm, family crisis, homelessness, etc.)

Key Relationships:

Internal: Program Staff

External: Community outreach resources, local businesses for employment opportunities, social service organizations and outside service providers

Key Behavioral Competencies:

- Demonstrates a drive, commitment and sense of urgency that inspires others to achieve results
- Identifies, analyzes and discusses decision making alternatives with multiple stakeholders
- Resolves requests and complaints in a timely manner, demonstrating a high level of commitment to meeting requirements within policy and compliance guidelines
- Makes frequent and regular contact with clients to keep them informed and to learn of any new issues or challenges that can impact expected outcomes
- Works closely with direct client contacts to establish relationships, starting to establish credibility by demonstrating fairness, equity and consistency in transactions
- Recognizes people who may be of critical importance to achievement of one's objectives and involves them to get their input
- Uses considerable judgment and initiative to determine the approach or action to take in non-routine situations
- Shifts priorities to address changes in events or assigned goals
- Brings ideas for service delivery improvements to the attention of others and pursues these ideas through to resolution or completion
- Maintains a pleasant attitude being tactful and courteous with all program personnel, students and visitors
- Responds to information request in a cooperative, courteous, and timely manner
- Is attentive, patient and fair with students

Background:

- A Master's of Social Work or Master's in Counseling degree
- Appropriate state licensure
- Clinical experience with at-risk children
- Strong communication skills; ability to work collaboratively with teachers/staff
- Experience developing and managing community-based initiatives or school-business partnerships

Special Education Teacher

Reports to: Program Director

Direct Reports: N/A

Job Summary:

The Special Education Teacher is responsible for implementing and ensuring compliance to established policies, procedures and/or regulations; and addressing other duties and processes required to maintain the school's program of services. - ≈ Maintain all LEA special education profile data on IDEA Part B and Part C (if applicable) indicators for Department of Education State Performance Plan (SPP) reporting.
- ≈ Coordinate the provision of special education services and related services per the students' IEPs.
- ≈ Ensure that all IEPs adhere to least restrictive environment (LRE) and free appropriate public education (FAPE) guidelines as specified in IDEA regulations and state guidelines.
- ≈ Ensure that all initial referrals for special education services are completed within 60 days (calendar or school depending on state) from the date parental consent is obtained.
- ≈ Collaborate with regular education personnel on Response to Intervention/Comprehensive Student Services initiatives.
- ≈ Provide school leadership team regularly with the following: reports on issues regarding special education services, progress monitoring data for students with disabilities, and special education compliance data.
- ≈ Collaborate with school personnel (e.g., administration, regular education teachers, special education teachers, etc.) on special education service models (i.e., monitoring; collaboration or consultation; co-teaching or team teaching; facilitated instruction; direct instruction.).
- ≈ Coordinate progress monitoring of students with disabilities (e.g., CBM, Benchmark Assessment System, etc.).
- ≈ Communicate regularly with Regional Special Education Director on IDEA, FAPE, LRE, and IEP successes and challenges at assigned school(s).
- ≈ Maintain accurate and current inventory on instructional and curricular resources and materials. Replenish inventory as needed.

Key Relationships:

Internal: Core Content Teachers

External: School District Special Education Compliance Officer

Key Behavioral Competencies:

- ≈ Developing Others
 - Encourages constructive feedback and a culture that provides opportunities for development. Attracts, assesses, develops, motivates and retains a diverse workforce that drives results.
 - Helps others to secure resources and provides guidance in decision making and problem solving
- ≈ Courageous Leadership

- Addresses difficult issues; puts self on line to deal with important problems; stands firm when necessary.
- Analyzes reasons behind results, takes action to address failures and seeks to improve outcomes
- ≈ Collaboration
 - Willingly cooperates and works collaboratively towards solutions which generally benefit all involved parties; works cooperatively with others to accomplish company objectives; promotes collaboration and partnerships.
 - Gives credit and recognition to others who have contributed towards team or group goals; respects different opinions, seeking them out to challenge thinking and enhance collaborative efforts
 - Works collaboratively to creatively problem solve with staff to meet students' unique needs in a technology- based instructional learning environment
- ≈ Organization
 - Maintains accurate records across multiple sites
 - Plans and organizes for a schedule that requires flexibility and structure to serve students at multiple sites

Background Requirements:

- Minimum of 3 to 5 years special education teaching experience required
 - Bachelor of Arts or Bachelor of Science degree required
 - Appropriate special education teacher certification required
 - Demonstration of mastery in specified area/s of the curriculum required
 - Demonstration of teaching techniques and classroom management skills (i.e., effective instructional strategies, articulate communication of information, positive interactions with students, and overall organization of learning environment), as seen during a classroom observation by a partnership principal required
 - Evidence of educational experiences after college (fellowships, summer study, or graduate course work to pursue greater depth in a subject area, specific instructional methodology, curriculum development, special education, technology, etc.) preferred
-

Office Manager

Reports To: Program Director

Direct Reports: Not Applicable

Job Summary:

The Office Manager will play a key support role, serving as the focal point for communication by mail, telephone and in person. The Office Manager will manage the flow of information, both within the school and between the school and the state, and will be responsible for maintaining all school records. To be effective, the Office Manager must be organized and efficient, familiar with all necessary office equipment, including computers and computer programs for word processing, databases, and spreadsheets.  - Treat parents as valued and respected customers
- ≈ Maintain all records, including schedule, student waitlist (using applicable EdisonLearning systems/software), attendance records, and calendar
- ≈ Responsible for recording, tracking and following up on student tardiness, absences
- ≈ Collect student related data (including demographics, financial data, test results, attendance) and provide it to the state, which uses the data to determine per pupil funding for the school
- ≈ Collect all student data and manage free and reduced lunch program components for the school, which impacts school funding
- ≈ Perform basic Accounts Payable and Accounts Receivable functions in the routine course of daily operations
- ≈ Provide and/or manage standard operations, including, but not limited to:
 - Student entrance/exit procedures
 - Safety and emergency procedures/guidelines
 - Correspondence and schedule for Director
 - Business related processes as assigned by Director and/or Enrollment Coordinator (purchasing/expenses, invoices, shipping and receiving, etc.)
 - Coordination of volunteer hours/participation
 - Responsibility for all voicemail administration including setting up new mailboxes and changing site voicemail greeting for vacations, snow days, etc.

Key Relationships:

Internal: Site faculty and staff.

External: School visitors. Outside vendors, contractors.

Key Behavioral Competencies:

- ≈ Thinks ahead to set up requirements in advance. Prepares effective program of activities; timetabling; etc.
- ≈ Consistently tries new and different approaches to doing work
- ≈ Demonstrates a strong sense of urgency by prioritizing and following through on commitments
- ≈ Identifies potential obstacles to goal achievement and seeks assistance in addressing these obstacles
- ≈ Detail oriented and ability to multi-task
- ≈ Demonstrates ability to develop appropriate relationships with students in an alternative setting

Background:

- ≈ High school diploma required; postsecondary training or schooling preferred
 - ≈ Familiarity with office equipment such as computers, typewriters, fax machines, calculators, and photocopiers, as well as word processing and spreadsheet programs required school district database maintenance preferred
 - ≈ Minimum of 3 years of experience in office management or in a secretarial position preferred with responsibilities including basic bookkeeping
-

Paraprofessional

Reports to: Program Director

Direct Reports: N/A

Job Summary:

The Paraprofessional, as a member of the instructional team, works under the supervision of the classroom teacher and the principal. This person primarily works in classroom, assisting the teacher in implementing instruction and related services. Such assistance may include: providing instructional assistance, guiding additional practice opportunities, re-teaching, and monitoring behavior.

Main Responsibilities:

- ≈ Meet Paraprofessional requirements as established by state and local mandates;
- ≈ Implement school and district policies and procedures;
- ≈ Establish and maintain solid working relations with colleagues;
- ≈ Participate in planning sessions with the learning team;
- ≈ Provide support and assistance to students;
- ≈ Demonstrate creativity, flexibility, and perseverance in dealing with challenging learning, behavioral, family, and classroom situations;
- ≈ Provide strategic instruction within the classroom for students who are in need of support learning core curriculum;
- ≈ Provide support and supervision of students as assigned (during transitions, in special classes, during lunch, etc.);
- ≈ Assist in the administration and scoring of assessments used to monitor individual progress;
- ≈ Assist with paperwork and clerical duties as needed.

Key Behavioral Competencies:

- Demonstrates the ability to work effectively under the direction of others;
- Demonstrates a willingness to assume all responsibilities assigned which are appropriate for the position.
- Demonstrates initiative, always keeping in mind the best interest of the students and the program
- Willingly cooperates and works collaboratively towards solutions which generally benefit all involved parties; works cooperatively with others to accomplish company objectives; promotes collaboration and partnerships.
- Gives credit and recognition to others who have contributed towards team or group goals; respects different opinions, seeking them out to challenge thinking and enhance collaborative efforts
- Works collaboratively to creatively problem solve with staff to meet students' unique needs in a technology- based instructional learning environment

Background Requirements:

- Meets NCLB requirements: Has obtained a HS diploma or GED and:
 - Completed two years of full-time study at an institution of higher education (48 semester hours in some states and 60 in others); or
 - Obtained an associate's degree; or
 - Meets rigorous standards of quality and demonstrates through a formal assessment the knowledge of, and the ability to assist in, reading, writing or mathematics.
- Meets appropriate age, diploma and certification requirements as defined by the state.

Director of Achievement

Role: Director of Achievement

Direct Reports: Program Directors

Job Summary:

The main responsibility of this position is managing the primary focus of student achievement in schools. The role also ensures excellence in service delivery of all EdisonLearning products by collaborating and partnering with district and charter school boards, driving consistently superior achievement gains and profitability within assigned sites. As required, this role will manage client relationships as well as the operational/financial/budgetary/legal management of the schools.

Main Responsibilities:

Achievement Management

- Monitor student achievement data to ensure students are performing highly
- Supervise, observe, evaluate and assess program managers and principals from an instruction, school culture and school operations perspective. This is done by visiting schools and attending leadership team meetings
- Work collaboratively with local district superintendents and assistant superintendents to leverage influence in supervision and evaluation of the principals in schools where the principal reports to the district.
- Formalize and execute customized professional development training modules specific to clientele and work closely with district officials to create a plan and set measurable goals for program implementation
- Support and monitor professional development plans of teachers
- Develop and annually adjust the school's support plans (mid-year for intensives); identify areas of focus and improvement for particular schools and codify how Edison will support schools to make improvements in these specific areas
- Develop, conduct and participate in all Edison Achievement Conferences (i.e. HQ Quarterly Meetings, Summer Institutes, Edison Leadership Development Academy, Instructional Leadership Conferences, Client Conferences)
- Prepare academic reports and attend board meetings in order to provide academic and financial updates on the sites. Ensure monthly academic and financial reports are submitted to headquarters. Prepare reports for specific school boards when requested
- Develop and facilitate regional principal & program managers meetings by putting together the agenda and providing professional development
- Attend regional meetings called by SVP Solutions in order to provide updates and keep the SVP Operations informed of developments within school achievement management

Client Relationship Management

- Work with schools and SVP Solutions to ensure that charters and all contracts, and client contracts are renewed as directed by the business
- Prepare reports for school boards when requested, keeping clients informed of academic and financial results in schools
- Attend school district meetings when requested, staying abreast of local issues and building relationships with client

Operations/ Financial/ Budgetary/ Legal Management

- Participate in HQ Meetings that supplement the monthly calls to build morale and school culture while developing short and long-term school plans
- Supervise and support principals' implementation of financial and operating activities,
- Proactively resolve school operational issues in conjunction with the School Operations Manager
- Maintain awareness of requirements dictated by teachers' unions for specific school districts (i.e. contractual requirements, process for grievances, school policies, etc.)
- Supervise principals' ongoing budget and financial planning processes to ensure revenue, enrollment and expense targets are met (Managed Schools only)

Key Relationships:

Internal: Supervises, observes, assesses and supports principals to effectively manage achievement in schools. Utilizes the Education Department for support when needed. Works with the Finance, Human Resources, Enrollment and Legal to support schools as needed.

External: Manages relationships with Edison's customers and constituency groups for their assigned sites (District Superintendents, District Boards, Charter Boards)

Key Behavioral Competencies:

- Demonstrated ability to collaborate with team members located across multiple geographies and organizational levels
- Strong written and oral communication skills, extensive experience building client relationships
- Demonstrates drive and commitment that inspires others to achieve results
- Anticipates and creatively addresses obstacles to achievement of goals
- Adept at dealing with changes in work schedules and assignments caused by developments the external environment
- Identifies and gains the support of key people by understanding and addressing their needs and concerns; builds strong working relationships; shares information and seeks input of others where appropriate
- Creates opportunities to bring teams and/or cross-functional teams together to collaborate on Edison initiatives

Requirements:

- Mastery level knowledge of Standards-Based Instruction and Assessment; knowledge and experience with what makes good school organizations, familiarity with state and federal standards
- Experience identifying good instruction, diagnosing problems and making effective recommendations in a school setting
- Familiarity with assessment methods and data analysis
- Administrative certification preferred
- Minimum 10 years experience in K-12 education
- Master's Degree
- Proficient in Microsoft Office (i.e. Outlook, Word, Excel, and Power Point)
- Candidate must live in the region in which he/she will work or relocate to that region

Preferences:

- Minimum 5 years experience as a building administrator (principal/assistant principal) or comparable educational supervisory position
- Demonstrated knowledge of budget management, finance, and operating procedures to support P & L of up to \$20 million

Program Director

Direct Reports: Teachers, Office Manager, Counselors, Paraprofessionals, Enrollment Coordinator

Job Summary:

The Program Director is responsible for providing the instructional, operational and administrative leadership necessary to ensure the success of the school including primary responsibility for achievement and financial performance. The Director is the overall leader of the school, with a dominant focus (estimated at 75% of time spent) on instructional leadership. The Director will be held accountable for the continuous improvement of the school and its staff and for increased student achievement.

Main Responsibilities:

Achievement Management

- Implement School Organizational Structure including culture, staffing, scheduling Ensure teachers receive appropriate and relevant training in curriculum, learning environment, and state requirements
- Implement and monitor student achievement (ecourse completions, consistent attendance rates, personal/social curriculum achievement, progress monitoring of individual graduation plans)
- Recruit, select and hire school staff (teachers and school-based support staff)

 - ≠ Bilingual in English and Spanish preferred; may be required in specified regions
 - ≠ Must possess a local Driver's License and a clear driving record
 - ≠ Proficiency with Microsoft Excel, Word, Outlook, PowerPoint and internet applications required
 - ≠ Proficiency with multimedia communication tools, such as discussion boards, webinars, email, instant messaging, digital photography preferred
-

Teacher

Reports to: Program Director
Direct Reports: Not Applicable

Job Summary:

As a member of a teaching team, the teacher will be responsible for facilitating student learning in an instructional technology learning environment and supplementing computer-based instruction with direct instruction as needed. He or she uses a variety of instructional methodologies and curriculum resources to teach content and skills to students in small- or pull-out group instruction. The teacher regularly meets with students to advise and plan for students' individual learning plans, providing coaching and mentoring in an advisory capacity.

The teacher works as a team member to meet the needs of all students. Because building relationships is a critical component of this learning environment, the team works together to identify student needs that may be barriers to success. Teachers collaborate with team members to analyze different means of meeting student needs and communicates with students, parents, and other team members about student progress and plan for next steps.

Main Responsibilities:

- ≠ Implement EdisonLearning, school and district policies and procedures;
- ≠ Work closely with teachers and other colleagues to develop and build teaching skills;
- ≠ Collaborate with colleagues on curriculum, student needs and assessment;
- ≠ Contribute to a culture of professionalism among team members;
- ≠ Monitor academic progress of students in their coursework
- ≠ Monitor student progress towards graduation
- ≠ Maintain ongoing communication with parents, staff, and community;
- ≠ Become proficient in the use of computer based instruction and software;
- ≠ Manage the learning environment and coach students as an advisor and mentor;

Key Behavioral Competencies:

- ≠ Generally asks relevant and insightful questions to establish facts
- ≠ Seeks to understand key decision making issues and characteristics when guided by others
